CASH HARDWARE STORE.

On and after 1st April we shall do business on a **Cash Basis.**

To cover the inevitable losses attendant upon a credit business, which accrue from amount of time spent in keeping accounts, collecting, bad debts, interest account, and in numerous other ways, larger margins of profit must be asked.

In these times cash buyers ask, expect, and are entitled to close prices. A careful consideration of the subject convinces us that the time has come for a cash business done on smaller profits.

The only customers who may possibly be put to inconvenience are those who have had long credit. In more ways than one it will be to their advantage to pay cash.

For convenience of our old customers who consider their accounts due when presented, we will call 30 days cash and render all accounts the first of each month, and we wish to say that will be happy to do business with them on those terms.

As the new departure is something of an experiment, what would be considered a close cash price will be made all through the stock. Not a few leaders only, but a general reduction in everything from the fourth flat to the cellar.

Our idea is to perform more than promised rather than promise more than can be fulfilled.

Our stock is large and varied, consisting of **Builders', Contractors', Household, Mechanics', Painters', Shoemakers', Farm, Mill, Factory, Lumbermen's, Sporting, Threshers', Cabinet-makers', and other lines of Hardware.**

An old saying:—"You should go to King-a-an's where you can get anything from a Needle to an Anchor."

THE RIPPER IN NEW YORK

A MURDERER SIMILAR TO THE WHITECHAPEL BUTCHERIES.

A Disreputable Woman of Gotham Cut to Pieces and Shockingly Mutilated in One of the Worst Districts—Her suspected Murderer in Custody.

NEW YORK, April 24.—About 10:45 last night a man and woman entered East River Hotel, Catherine and Water-streets. The man's entry in the register reads "Knickloe and wife." The man was a stranger, while he woman was a dissolute character who frequented the neighborhood. They were assigned to a room on the top floor. This morning a servant entered to awaken the couple, but did not succeed. The door of the room was forced and on the bed was found the woman lead and disemboweled. The man had disappeared. The murderer was a man 32 years old and shabbily dressed. It is believed he is "Jack the Ripper." The woman was cut in pieces in the same manner as the Whitechapel victims. She was lying naked on the bed, the sheet and her underclothing were tied tightly about the throat and head, and the abdomen was cut and slashed in a horrible manner by a dull, broken table knife which lay on the floor near the bed. The viscera had been cut and from appearances a part was missing. The woman had evidently been strangled.

The victim has been recognized as Carrie Brown, aged 60. Nearly all the detectives in the city are engaged on the case and every effort is being made to find a man known as "French," an acquaintance of the woman. The district where the murder was committed is similar to the Whitechapel district of London. The house where the murder was committed is known as "The House of All Drinks," from the big sign of the many kinds of vile beverages that are on draught there. The place is perhaps one of the worst of its class. In the very room in which this murder was committed another low woman was found dead one morning. The bartender has also been arrested for killing a man with a sabre.

Up to midnight four men and seven women had been arrested, who are expected to throw light on the case. At 1 a.m. Adolph Kaltenberg, whose description answers to that of the murderer, was taken into custody.

CUT HIS THROAT AT 19.

Tragic Suicide of a Young Lad in Dundas County.

MORRISBURG, Ont., April 24.—Herman Servos, aged 19, only son of Mrs. William Servos of Iroquois, committed suicide at his father's. For some time past the young man has been working on a farm across the river and had been in low spirits. He retired to his room and shortly after was found with his throat cut.

CANADIAN LACROSSE LEAGUE.

MONTREAL, April 24.—The adjourned meeting of the Canadian Lacrosse League was held here to-day. The representatives were Messrs. Garvin, Toronto; Hughes, Cornwall; Kent, Ottawa; Cleghorn, Montreal; McKenna, Shamrocks.

The result of the deliberations was that Montreal and Toronto withdraw from the league. The whole affair did not take long, as both parties had their minds made up. The two big clubs refused to admit the capitals and announced their secession when they were outvoted by Hughes, Hodson and Kent. After the Montreal and Toronto delegates withdrew the rest remaining, J. Kent, Ottawa, W. J. Hughes, Cornwall, J. K. Bowling, Capitals, and W. J. McKenna, Shamrock, proceeded to work. Mr. Hughes moved, seconded by Mr. Bowling, that Shamrocks, Cornwalls, Capitals and Ottawas play a series of matches and that these clubs refuse to play exhibition games with Toronto and Montreal. The motion was not pressed as some of the delegates wished to obtain instructions from their clubs.

In the evening the delegates met again and arranged a schedule, the season opening June 6 and ending Oct. 3.

THE CHILIAN BUTCHERIES.

Over 500 Government Troops and 800 Revolutionists Killed

PANAMA, April 24.—Advices from Chiapas 500 Government troops and 800 revolutionists were killed in the battle of Pozo Almonte, in which the Government forces were defeated. Five thousand men were engaged.

Provisions were recently so scarce in Iquique that $20 was paid for a can of preserved milk, and beef sold at $10 per pound.

It is reported that Government troops fired into 900 defenceless workmen, women and children at Negroyros and shot down all he men.

London financiers have declined to grant a loan of £1,500,000 to President Balmaceda of Chili. The president's envoy is confident that the latter will yet defeat the insurgents.

SNOW HER WINDING SHEET.

What the Melting of the Snow Revealed in Grey County.

MARKDALE, Ont., April 23.—While searching for a lost sheep yesterday, John Allan came across the dead body of a woman in a recumbent position, apparently in a peaceful slumber, the left hand partially thrust into the bosom of her dress and the right hand extended outward. The remains were those of Catharine Kennedy, aged 60, who lived on the Garafraxa-road, Glenelg, one mile north of the Rocky Saugeen. She had been missing since Feb. 5, and no doubt perished in the snowstorm which raged on that day.

Decker Discharged.

PHILADELPHIA, April 24.—Harry Decker, the baseball player, who was arrested in New Haven, Conn., some time ago and brought here on a requisition issued by the Governor of Connecticut, was brought into Criminal Court yesterday to answer to a multiplicity of charges of a more or less serious nature, and to all of which he pleaded guilty. Sentence was suspended and Decker discharged, having made restitution to all parties concerned. He has been in bail since March 31.

Died in the Night.

BRADFORD, Ont., April 24.—Miss Ina Henderson was as well as usual on retiring for the night. Next morning she was found dead in bed.

Drowned in the Gatineau.

OTTAWA, April 24.—An eight-year old child named Dickson, while playing on the banks of the Gatineau River at Chelsea this morning, fell into the water and was drowned.

ONTARIO LEGISLATURE.

THE HOUSE TO PROROGUE END OF NEXT WEEK.

Morning Sessions to be Held Until Dissolution. The New Parliament Buildings. A Bust of Robert Baldwin Assignments and Preferences.

TORONTO, April 25.—The House yesterday decided to meet on Tuesday next at 11 a.m. Morning sessions will be held for the balance of the term and a vigorous effort will be made to finish the work next week.

Mr. Gibson (Hamilton) found the opposition to his amendments to the Insurance Act so strong that he consented to drop the clause which provides that companies shall not be liable for loss occasioned by steam engines within 100 feet of a barn or stack.

The House resolved, on motion of Mr. Fraser, to add an additional sum of $150,000 to the money set apart for the new Parliament buildings, making the total sum appropriated for that purpose $1,200,000.

The legal committee amended G. H. Smith's bill respecting assignments and preferences by insolvents so as to make void any conveyance or assignment by a person within three months of insolvency. Mr. Meredith's bill to amend the Judicature Act to compel the examination by a medical man of any person on whose behalf compensation for personal injuries might be claimed was so amended as to make the examining physician an impartial witness.

The Municipal Committee dealt with Mr. Tait's bill to amend the Municipal Act in different respects. The clause permitting the expenditure of money on the celebration of national and other holidays and the reception of guests was amended so that cities of over 100,000 may spend $5000, cities between 20,000 and 100,000 may spend $1000, and cities and towns less than 20,000 $500. The clause giving police commissioners power to regulate and prohibit the playing of musical instruments in streets, parks or public places was adopted. It does not apply to military bands on duty. Mayor Clarke moved that police commissioners be given power to regulate and prohibit public speaking in streets, parks, etc. The committee was equally divided on this subject and it was defeated by the casting vote of the chairman. The clause providing for the proper erection and the inspection of builders' scaffolds was adopted.

Letters patent have been issued incorporating H. H. Sypp, Essex, G. J. Leggatt, J. A. Smith and A. H. Clarke, Windsor, and C. H. Delisle, Walkerville, as the Farmers' Natural Gas and Oil Company with a capital of $100,000 to carry on a general gas and oil business in the county of Essex.

Mr. Meredith introduced a bill at the instance of the city of Toronto to amend the act relating to public highways, so that the clause prohibiting traffic over bridges at a faster rate than a walk shall not apply to iron or steel bridges except at the option of the municipality.

There is on exhibition in the library a plaster cast of Robert Baldwin, executed by F. H. T. Dunbar. Those who remember the features and the attitude of the great Reformer when speaking say that the sculptor has done his work well.

THE DEATH-CLUTCH VISIBLE.

Strangled and Tramped Out Traced Only by the Window

GRAND VALLEY, Ont., April 23.—At the coroner's inquest on the child which was found on the C. P. R. track, Dr. Phillips testified that the babe had been murdered, as there were four finger marks, apparently made by the right hand of some person, on the throat and neck of the child and also other proof of the child being violently dealt with. The jury decided that the child came to its death through the violence of some person or persons unknown, and that the box was dropped off the train.

KILLED AT PLAY.

Fatal Bout With Foils in the London Military School.

LONDON, April 24.—It now transpires that Sergeant John Nelson of Chatham, who died at the Military School here Wednesday, was not a victim of grip, as reported. It has also transpired that the young man was the victim of an accident, having been stabbed accidentally in a fencing bout with a fellow pupil, the button having, it is said, come off the foil.

HIS HEART WAS BROKEN.

A Son's Disgrace Causes His Aged Father's Demise from Grief

KINCARDINE, April 24. William Remington, father of the young man now in jail on the charge of murdering Agent Flett at Arthur, died at his farm near Hunter. Ever since the arrest of his son Mr. Remington has been in a very depressed state, and latterly has been confined to his bed, being much weakened by fits of weeping which overwhelmed him at the thought of the disgrace brought upon his honorable name. He has never seen his son since his arrest, and it is said that his family were afraid to let him visit Joe as he had threatened to shoot him.

A BOODLER CAUGHT.

Toronto Was Too Dangerous for the Texan and He Left for the East.

HALIFAX, N.S., April 24.—L. Piggott, the Texan who stole 15,000 sheep and 30 horses some time ago, sold them for $30,000 and skipped from San Antonio, was arrested here to-night. The woman with whom he fled and with whom he lived in Toronto for some days was arrested in Montreal this afternoon. Prisoner acknowledged his identity and said he was only waiting the arrival of the woman when they intended to take the first steamer for England. Only $400 was found in his possession.

The Calcutta Englishman says the suppression of the opium trade in India will provoke a revolt among the Sikhs and other warlike races, and suggests the restoration of the cotton duties, doubling the income tax, absorbing the famine fund and adding 8 annas (one shilling) to the salt tax, otherwise England will have to pay India £3,000,000 annually.

The miners' strike at Dortmund, Germany, is assuming alarming proportions. Ten thousand men are out and it is expected they will be joined by large numbers to-morrow. The strikers are greatly excited and beyond the control of their leaders. The men are encouraged by the result of the Paris congress and the action of the Belgian miners regarding a general strike. The employers are making tremendous efforts to stock coal in anticipation of the prolonged struggle.

THE SILENT ONE SLEEPS.

COUNT MOLTKE DIES SUDDENLY FROM HEART FAILURE.

He Had Attended the Reichstag in the Afternoon and the News of His Death Came Upon Berlin Like a Thunderbolt—The Child of Fortune's History.

BERLIN, April 24.—Field Marshal Count Helmut Von Moltke, the man who has so often led the Prussian eagle to victory, the man whose praises all Germany has universally sung, whose name has been on every tongue for half a century, and upon whom honors unique in the history of the Fatherland were showered on the occasion of the 90th anniversary of his birth, on October 26 last, died today in his castle at Kreisau, near the beautiful promenades of the Thiergarten, clad in the uniform which he always wore, and with the iron cross pinned on his breast. To the end he was the simple soldier—as modest and unassuming as when, an unknown lieutenant 70 years ago, he proffered his sword to Prussia's King.

Count Von Moltke attended the session of the Reichstag this afternoon. His death was very sudden and the physicians who were summoned announced that it was caused by failure of the heart. He died at 9.45 p.m., passing away quietly and painlessly. The news of the Count's death has caused great sorrow here.

Helmut Karl Bernhard Von Moltke was essentially a child of the century. Born in the village of Parchim, in Mecklenburg, on Sunday, Oct. 26, 1800, the son of Baron Fritz Von Moltke, he belonged, on his father's side, to one of the oldest families in the Empire. The Baron resigned his place in the army and took up his abode in Lubeck. In that historical city young Helmut made his first acquaintance with the "hereditary enemy" of Germany, the soldiers of France. Napoleon had made himself Emperor, had conquered Austria and Russia at Austerlitz, had dismembered the holy Roman Kingdom and by the battle of Jena had humbled and crushed poor Prussia. On Nov. 6 the city was besieged and the French soldiers soon sacked the place. Baron Moltke's home suffered among the rest. The insult left a lasting impression upon the mind of the boy, who was destined, years later, to have such terrible revenge. By the war and the humbled condition of Prussia Baron Moltke lost his fortune and was obliged again to take up his sword in the service of Denmark. Young Moltke then entered the military academy at Copenhagen. His resignation was accepted in 1822, and after a creditable examination he was appointed a second lieutenant in the 6th Prussian Regiment of Infantry.

In 1825 he set out for Turkey and was for four years in the service of Turkey. His life in the far East was full of adventure. He traveled through Asia Minor and camped at the sources of the Euphrates and Tigris; he took part in the memorable and cruel campaign against Mehemed Ali, and acted as an escort to the Sultan in his journey through Rumelia and Bulgaria. He prepared an elaborate work on the condition of the Turkish army; he drew plans of the Dardanelles and surveyed both banks of the Bosphorus; he drew a map of Constantinople, inspected armies and built bridges, palaces and aqueducts.

In 1845 he was appointed adjutant of Prince Henry of Prussia, who was then living in Rome. He spent almost a year in Italy, when the death of the Prince brought him again to Prussia. He was again placed in the general staff, being assigned to duty at Coblenz. During the following seven years, he advanced rapidly up the military ladder until 1855, when he was appointed adjutant of the Crown Prince. At 56 years of age, he succeeded to a place in which he was destined to win immortal fame. King Frederick William IV., on account of sickness, was obliged to give up the reins of government in favor of his brother, Prince William, in 1857. General von Manteuffel had been summoned to the Cabinet and Moltke succeeded him as chief of the general staff.

Moltke's first duty in his new office was a reorganization of the army. This he completed in 1860, as well as plans for a war against France, which was then believed imminent. The war with Denmark, however, came first. Although his name was not heralded at its close Moltke was the real conqueror of the heights of Duppel, and added to Germany the proud provinces of Schleswig-Holstein and Lauenburg. The sound of cannon had hardly ceased to reverberate when Prussia began preparations for another war. Moltke, Bismarck, Roon and the King foresaw trouble from the common occupation of Schleswig-Holstein by Prussia and Austria. On June 8, 1866, the tocsin of war was again sounded. Moltke's towering and prophetic genius asserted itself again. True to his great strategic principle, "March separately, attack in union," he sent the three army corps of Prussia toward Koeniggraetz. The brilliant victory laid the foundation for the union of the German States. In one night he was famous. His return home was a triumphal march, of which a Cæsar might have been proud. Villages were decorated in his honor, deputations were sent to meet him, cities gave him their freedom. "Prussia knows itself now," he said. "That is the greatest result of the war. Now Germany may say that it is Germany." The Prussian Landtag voted Moltke a donation of 200,000 thalers for his services.

But new, harder and grander duties fell to his lot.

Before the year 1870 had opened the plans for the mobilization and transportation of the troops and for operations on the field of battle were in the hands of King William. Every emergency was provided for, and Moltke fought over and over again the great battles of the Franco-Prussian war before a cannon had been fired. To his masterful foresight was due the wonderful success of the German arms. Seven days after the declaration of war, on July 19, the mobilization of the troops was complete. Eight days later the armies were drawn up between the Rhine and Saar. All are familiar with the history of that war. Its great victories—Marse-la-Tour, Gravelotte, Sedan and Metz—were, in a great measure, his victories. Metz, too, capitulated on his birthday, when King William conferred upon him the title and dignity of count. Upon his return home, the Reichstag voted him a donation of 200,000 thalers; Emperor William appointed him field marshal general, a life member of the Herron-Haus and knight of the order Pour le Merite; universities conferred degrees upon him; cities gave him diplomas of citizenship; forts and men-of-war were christened with his name. He left Berlin on July 31, 1870, the subject of a king; he entered Berlin on March 16, 1871, the citizen of an empire.

Switchman Fatally Hurt.

NIAGARA FALLS, Ont., April 24.—William Martin, aged 26, switchman in the M.C.R. yards at Montrose, fell from a flat car and the train passed over him. Both legs were so badly mangled that they had to be amputated. Martin, who belongs to St. Thomas will probably die.

Mutinous Batterymen Sentenced.

PORTSMOUTH, April 24.—Four artillerymen of the battery which on Monday last mutinied in order to call attention to the grievances and excessive drills from which the men claimed to be suffering have been tried by court-martial and sentenced to two years' imprisonment each.

Killed By a Cherry Stone.

LINDSAY, April 24.—The 10-year-old daughter of John Fowler of the fifth concession, near Janetville, died under very distressing circumstances. She swallowed a cherry stone, which lodged somewhere in the bowels. An operation was performed to relieve her pain and the stone taken out, but death put a stop to her sufferings.

The Mt. Pleasant, Pa., strikers are drilling every night and have arms secreted, and trouble is feared at evictions next week.

Children Cry for Pitcher's Castoria.

SHELLED WITH SHRAPNELL.

Manipur Villages Burned and the Rebels Shot Down.

SIMLA, April 24.—The British columns advancing on the Manipuris under Gen. Lockhardt reached a large native settlement in the Bohagri Valley. The British force halted when within sight of the settlement, and sent scouts forward to inform the Manipuris that the British general was awaiting proposals of peace from the insurgent tribes. The rebels refused to answer, and the British troops were ordered to advance. The column pushed forward and burned twelve villages which had been occupied by the rebels. The latter in great force retreated to the hills. The British force then shelled the hills with shrapnel, killing and wounding large numbers of the enemy. The latter are now believed to be completely cowed.

SHE IS VERY SORRY.

Portugal Finds That Discretion is the Better Part of Valor.

LONDON, April 24.—As a result of the action of the Portuguese officials in firing on the steamer Agnes, which was conveying the expedition of Sir John Willoughby up the Pungwe, the British Prime Minister forwarded an ultimatum to the Portuguese Government declaring unless facilities were afforded to British subjects to open the Pungwe in accordance with the provisions of the modus vivendi now existing between Great Britain and Portugal, the British Government would resort to force to ensure respect on the part of Portugal to her treaty engagement, and the result would be disastrous to Portugal in that part of the world.

The Portuguese Cabinet to-day, under pressure of Lord Salisbury's ultimatum, gave consent to the free passage of the Pungwe River.

The King of Portugal signed six decrees yesterday, all aiming at economy in the different branches of the public service.

Another Liberal-Unionist Victory.

LONDON, April 24.—An election was held in White Haven to-day for a member of Parliament to succeed the late Right Hon. George A. F. Cavendish-Bentinck (Con.). Sir James Bain (Liberal-Unionist and Conservative) received 1538 votes to 1105 cast for H. G. Sloe (Gladstonian). At the previous election Cavendish-Bentinck received 1216 and Sloe 1110.

Spain proposes amnesty to exiled or imprisoned political offenders, excepting Senor Zorilla.

At Manning, S.C., E. Hodoway, colored, was hanged for the murder of John Dubois, white.

Further reports of failure of the imported Government seed potatoes are to hand from districts in Ireland.

Influenza continues to spread in Britain, and a large number of members of the House of Commons are ill.

The police recently raided a religious meeting of Stundists at Kieff, Russia, and arrested 12 persons, who were sentenced to two months' imprisonment each.

At Bourbon, Ind., Fred Fesser, farmer, was carrying a basket of dynamite cartridges on his arm when they exploded, blowing him to pieces.

The Roumanian Government has issued orders stopping the export of maize in consequence of the depletion of the stocks of maize in Roumania.

At Columbia, S.C., yesterday Walter Martin, colored, was hanged for the murder of his white mistress. In his speech on the gallows he said he felt sure of going to heaven.

The May Day Committee of the workingmen of Paris have issued a manifesto calling for the passage of an Act making eight hours a legal day's work throughout France.

Andrew McKenna, aged 8, and Neil Moffatt, aged 11, stole from a delivery wagon a demijohn containing five gallons of whisky at New York yesterday. The boys drank immoderately of the liquor. McKenna soon died and Moffatt is dying.

The Italian Government has decided to allow orderly meetings on May Day of the workingmen in Italy. The Government, however, has issued instructions rigorously prohibiting the workingmen from marching in procession.

At a meeting of the Tenants' Defence Fund at Dublin it was decided, owing to the refusal of Parnell to release the Paris fund for the benefit of the evicted tenants, to devote the whole sum in the association's hands, amounting to $30,000, to relief.

The Newfoundland delegates have received many encouraging promises of support from peers and members of the House of Commons. Sir William Whiteway considers the prospect of the acceptance of the delegates' proposals favorable.

Mr. Gladstone has decided to support the divorce reform bill introduced in Parliament by Mr. Hunter. This fact has amazed the Liberals, who believed he would oppose any extension of divorce as a matter of religious principle. The bill entitles a wife to dissolution of the marriage tie in the event of adultery or four years' desertion on the part of the husband. The bill will be debated May 1.

BUSINESS IMPROVING.

As the Result of Good Weather and Promising Crop Reports.

NEW YORK, April 24.—Special telegrams to Bradstreet's very generally refer to more settled weather and good crop prospects as causes of increased activity in general trade. Improved weather has not aided the general demand for drygoods materially, trade as a whole being quiet and unsatisfactory. Gingham and woolen dress goods are most active. A drive in prints this week was at lowest prices on record. Low grade cottons are weak. Cotton speculation is active, but irregular. Actual cotton is 1-16th lower.

The industrial situation becomes more disturbed as May 1 approaches, that being the date set for a general demand for fewer hours of work daily by 175,000 bituminous coal miners. It is doubtful, however, whether that number will strike. No trouble is anticipated in the anthracite region. Steel rails have been very quiet this week.

Wheat has been excited and 6c higher during the week, chiefly on speculative operations, heartily backed for the time by cables from England, France and Portugal. Later a disposition to realize, together with rather more favorable crop reports from the continent of Europe, caused a reaction which swallowed up all the advance. More than 130,000,000 bushels were traded in at New York, against 45,000,000 bushels in the preceding week.

General trade throughout Ontario is rather better than in the province of Quebec. Sugars are said to be unsettled owing to expected tariff changes and "smuggling across the border." The Dominion reports 33 business failures this week against 39 last week and 38 this week last year. The total number January 1 to date is 705 against 675 last

Everybody Knows

That at this season the blood is filled with impurities, the accumulations of months of close confinement in poorly ventilated stores, workshops and tenements. All these impurities and every trace of scrofula, salt rheum, or other diseases may be expelled by taking Hood's Sarsaparilla, the best blood purifier ever produced. It is the only medicine of which "100 doses One dollar," is true.

ATTRACTIONS IN

DRY GOODS

AT

TURNBULL'S.

The change in the weather has brought with it a great demand for Millinery, also for Spring Shades in Dress Goods. Our store was never more attractive in these lines than at present. We have every new and desirable shade in stock with Millinery to match. If you are in town this week, have a look at our Grey Dress Goods and Millinery Window. Large Grey Checks for young people to be made up alone or mixed with Black. Small Black and White Checks and Stripes (broken patterns,) for older people. Goods that are hard to find, in neat patterns.

We justly claim to take the lead in our Tailoring Department for quality of goods, fit and price. We get up a splendid suit, in Halifax tweed or navy serge, for $12.00. Fine grades of Almonte and other makes of tweed for $13.00, $14.00, $15.00 and $16.00. Scotch tweeds and serges from $16 to $20 for the best. Fine all Venetian finish or diagonal cords for coat and vest, with black or fancy pantings to match, at from $19 to $22 a suit. Remember our prices. Call and see our stock, and do not pay a great deal higher figure through force of habit.

We have added this week to our already attractive stock of Boys' Clothing, another shipment just turned out of the manufacturers' hands, neat and new styles.

We show now an immense range of patterns in cottonades and shirtings, in the best quality.

We also keep all the lower lines, beginning at 5c. for shirtings and 12½c. for cottonades.

We have an opening now for an apprentice in the millinery department. Apply until Saturday.

Housefurnishing ITEMS.

VERY INTERESTING NEWS

One of the most important parts of our store is the Carpet and Housefurnishing branch. Upon this one point we concentrate no small portion of our resources.

We offer a very handsome range of **Tapestrys.** Cheerful, tasty designs, in fast richer patterns than you often find in higher class goods, at only 25 cents per yard. From this price up we can show excellent value and choice effects. For example, the prices run like this: 45c., 50c., 55c., 60c., 65c., 75c., 80c., 85c.

Then in **Brussels** the stock becomes interesting.

We have **Borders** to match many lines. Stairs, too, if required.

An important feature in our stock is that nearly all the designs are PRIVATE.

Good line patterns in **All-Wools, Unions, Hemps,** etc.

Art Squares in nearly every size.

Moden's Muslins, with **Fringes** to match.

Art Muslins, Curtain Nets, and everything in the Housefurnishing line sold at most reasonable prices at

O. C.

The Parcel in Question Is Here.

MRS. BLACK—How much did you say those lace curtains were?

CLERK—Just $2.25 per pair, madam.

MRS. BLACK—Well, I'll take three pairs, for that will only amount to six dollars, and I expected to pay two dollars for the same quality. I think they are just lovely.

CLERK—Can I sell you a nice parasol to-day?

MRS. BLACK—What is the price for a good parasol? I suppose yours are all new? They ought to be the most stylish and most desirable.

CLERK—Yes madam. Our parasols are all new and fresh, and we can give you a very nice parasol in ivory, combined or vegetable handles. Our price for a pretty parasol is $2a.

MRS. BLACK—Well, they certainly are cheap. I'll take one for myself, one for Susan Jane, and one for Maria. Be sure you don't send the parcel after dark, and you needn't be particular about wrapping up the parcel, for I want my next door neighbor to see that it is a new one I bought at

SATURDAY, APRIL 25 1891.

THE NEW BUILDING OF THE Y. M. C. A.

As mentioned in our issue of last Saturday, the Young Men's Christian Association require an addition of $7,000 to the building fund, to enable them to complete a building worthy of the town and of a capacity to meet not only the present requirements of the Association, but also the enlarged requirements which the future with a properly equipped building will surely bring. The citizens of this town are to be asked to contribute to this sum of $7,000, and it is pretty safe to say that a liberal response will be made. Not only those who have a warm interest in the promotion of the excellent work of the Association, but all citizens who are desirous to have a building constructed worthy, in appearance and style, of the many handsome public buildings which contribute to Peterborough deserving the reputation of being one of the handsomest and best built towns in Canada. For these and other reasons which it is unnecessary to specify, it is with some degree of confidence that we can bespeak a cordial and practical reception for the committee soliciting subscriptions. To furnish additional reason for this desirable condition, the following reasons may be quoted to show that the work of an Association will be greatly helped by suitable buildings belonging to the Association. These reasons were given in Pittsburgh, Pa., to show how is paid to have an Association building :

"*First*—Because the membership was in creased, during the year, 121 per cent., proving that many more young men were reached.

"Second—Because 48 per cent. of this number were not members of any church, among them being many Jews ; thus it has been shown to young men of the world that Christianity desires to benefit mankind, and they have appreciated it.

"Third—Because 60 per cent. of these were within the ages of 20 and 24. Thus the association is reaching young men, and at the very time when they are most subject to bad influences.

"Fourth—Because 28 per cent. more of the members than previously are now actively engaged in Christian work. Thus young men have been brought into definite work for the Master.

"Fifth—Because there has been an increase during the year of 37 per cent. in the attendance upon the religious meetings.

"Sixth—Because 98 young men have each day throughout the summer and winter exercised in the gymnasium under the care of a competent instructor. Thus has been met the demand of young men for physical exercise, by supplying them with a well-fitted gymnasium, free from the demoralizing and doubtful tendencies which so often accompany these exercises in towns and cities.

"Seventh—Because there has been a large increase in the attendance at evening classes.

"Eighth—Because the attendance at the rooms in the evenings alone, not including meetings, has increased 90 per cent.

"Ninth—Because the position of the Association in the eyes of the community in general is greatly raised. Thus young men respect the association and are proud of being members.

"Tenth — Because the building stands open day and evening inviting young men to make use of it. It stands as a continual contradiction of the sneering assertion, sometimes made, that the churches care only for the advancement of their own particular denominational interests, and that busine s men are interested only in their own personal gains."

A Deadly Foe Near Our Door

The people of Canada have lately been thoroughly aroused and, to a large extent, disturbed in mind, regarding an editorial article which appeared in the "Montreal Star," of April 1st.

The article referred to, gives the opinion of a London, Ont., physician, regarding the terrible after-effect of that dreaded disease, now so common and prevalent, known as "La Grippe." This insidious disease is now raging in the United States, and is of a more malignant form than has heretofore appeared on this continent. This year its ravages have been on a more extensive scale than in preceding years ; and the mortality and sad results more appalling than ever before. It has respected neither age nor condition, and has seized its victims from all ranks.

It has been clearly shown, from close observation and carefully gathered statistics, that "La Grippe," when not fatal, often leaves its victims in a terribly dangerous condition, and the greatest possible care is always needed to restore the ailing ones to perfect health again.

Those who have experienced the terrors of this unwelcome visitor, know well the depressing influences and feelings which are experienced, as well as the torture of mind and body. The brain is heavy and confused, the mind is absent and terror stricken, and the whole body is weak, helpless and tortured.

Is it any wonder then that the keen and practised eye of the physician is enabled to note a tendency to morbidness and melancholia, and even dreaded insanity ?

Can any case individual, therefore, deny the fact "that we have now in our midst a most dangerous foe and invader ?"

It comes to all like a thief in the night, when we are unprepared and unguarded. It ruthlessly lays hold of fathers and mothers, brothers and sisters—those we love dearest and best, and too often snatches them from us.

It behooves us, therefore, to meet this dread foe when it appears, with our full armour girt on, and with the upper arm of defence. Let us not under estimate it power for evil. We must meet go into the contest for life or death.

Physicians in our land say without hesitation, judging from the terrible effects prevalent where "La Grippe" has been on tours of devastation and death, as in Chicago and other cities, that its next visit to Canada (soon to come) will be a most fatal one, unless great precautions are observed and and perfect sanitary laws obeyed. All Canadians, old and young ; all classes of society who weak, nervous, sleepless, languid, worn out and dyspeptic; and all who are naturally predisposed to disease, will certainly be among the first victims of this fell destroyer. The question is naturally asked,—"What means can we adopt to avoid this disease ; or how prepare to successfully battle with it if attacked ?"

Experience for the past eighteen months clearly demonstrated the fact, that all those who have maintained a healthy and active vitality, a clear and unclouded brain, a calm mind, cheerful disposition, good digestion and ability to enjoy sound, peaceful rest, will, in ninety-nine cases out of one hundred, entirely escape.

To secure the above mentioned blessings, and complete disease-proof armour, physicians and others have found that that new well known and popular remedy, Paine's Celery Compound has so far been the agent for protection and robust health. It has been found that whenever this grand remedy was used, "La Grippe" with its terrors passed harmlessly by. This powerful and wondrous medicine prepares the weak, and all predisposed to disease, to resist the fiercest attacks ; builds them up in flesh, bone and muscle ; gives strength to the nervous system, and a clearness to the brain and thinking powers, that "La Grippe" can never cope with or weaken.

It was clearly proved recently in Chicago and other western cities and towns, that those who had fortified themselves by using Paine's Celery Compound, were almost the only persons who escaped the dreadful scourge.

What a lesson, therefore, for the people of Canada ! Will the opinions of the ablest physicians go unheeded ? Can our people, with safety, throw aside the most positive and convincing evidence ever offered ?

Being armed, is to be prepared. Let us not then stand idly looking on as doubters ; let us remember that this most deadly of modern epidemics is almost at our very doors!

A Remarkable Statement!

A gentlemen largely interested in the Wholesale Drug trade recently declared, "that from his extended knowledge of the business in Canada he could assert without fear of contradiction, the sales for Diamond Dyes in one month, were equal to the total sales of all makes of common crude dyes for one year." There is no doubt we think about the correctness of this estimate. The ladies, who are the consumers, need not be reminded of the great superority of Diamond Dyes. They are, as in the past, the only trustworthy and reliable dyes now sold for domestic dyeing, and never fail in their work, when properly used.

Not Generally Known.

That you can get a good hardwood Bedstead, light or dark finish, at Clegg's for $2 00.

That you can get a good hardwood Bedroom Suite, well made and finished light or dark, for $13.

That you can get a 6 good chairs for $2.25.

That you can buy a good mixed Mattress at Clegg's, for $3.50.

In short, you get good value in any and every grade of Furniture at Clegg's. 4494-1w17

A Cure for Constipation and Headache.

Dr. Silas Lane while in the Rocky Mountains, discovered a root that when combined with other herbs, makes an easy and certain cure for constipation. It is in the form of dry roots and herbs, and is known as Lane's Family Medicine. It will cure sick headache, and is the best spring medicine. For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50c. and $1 a package. dw

Ask Your Friends About It.

Your distressing cough can be cured. We know it, because Kemp's Balsam within the past few years has cured so many coughs and colds in this community. Its remarkable sale has been won entirely by its genuine merit. Ask some friend who has used it what he thinks of Kemp's Balsam. There is no medicine so pure, none so effective. Large bottles 50c. and $1 at all druggists. dw

We Claim the Earth.

We claim the earth is round, and we know it's true. We also claim that Haggard's Yellow Oil cures sprains, bruises, colds, croup, sore throat, rheumatism, neuralgia, and all painful or inflammatory disease, and we know this is true. Yellow Oil is a true family remedy for lameness or soreness in man or beast. 2w15d

Ahead of Koch's Lymph.

Charles Campion, Kingston, Ont., says:—Gained 7 lbs. with one bottle of Miller's Emulsion of Cod Liver Oil. Cured bad Bronchial Cough with a few doses and made me feel like a new man, I strongly recommend it. All druggists keep it, dw

A Great Blessing.

Sirs—I have taken three bottles of Burdock Blood Bitters and find it a good medicine for constipation and poor appetite. I will continue taking it as it is a great blessing and I feel a great change in my health since taking it. Mrs. J. V. GREEN, 5 Sydenham street, Toronto, Ont. 2w15d

Important and True.

No better evidence of the fact that Burdock Blood Bitters is certain remedy for all blood disorders can be asked than that of Mr. Geo. V. Thomas, druggist, of Hull, P. Q., whose wife was cured of cancer by B.B.B. The family doctor is certain that the disease was cancer and that it is now cured. 2w15d

Once Used, Always Used.

This is a fact as regards Dyer's Jelly of Cucumber and Roses, from its wonderful efficiency in curing chapped hands, and making the skin smooth and soft. Druggists keep it. W. A. Dyer & Co., Montreal 6392

A MAN'S wife should always be the same, especially to her husband, but if she is weak and nervous, and uses Carter's Iron Pills she cannot be, for they make her "feel like a different person," so they all say, and their husbands say so, too ! dw

FOR NETTLE RASH, Summer Heat and general toilet purposes, use Low's Sulphur Soap. dw

AN INACTIVE or Torpid Liver must be aroused and all bad bile removed. Burdock Pills are best for old or young. dw

In the first stage of consumption Miller's Emulsion will certainly cure. For sale at all drug stores. dw

A Fact

WORTH knowing is that blood diseases which all other remedies fail to cure, yield to Ayer's Sarsaparilla.

Fresh confirmation of this statement comes to hand daily. Even such deep-seated and stubborn complaints as Rheumatism, Rheumatic Gout, and the like, are thoroughly eradicated by the use of this wonderful alterative.

Mrs. R. Irving Dodge, 110 West 125th street, New York, certifies :—

"About two years ago, after suffering for nearly two years from rheumatic gout, being able to walk only with great discomfort, and having tried various remedies, including mineral waters, without relief, I saw by an advertisement in a Chicago paper that a man had been relieved of this distressing complaint, after long suffering, by taking Ayer's Sarsaparilla. I then decided to make a trial of this medicine, and took it regularly for eight months. I am pleased to say that it effected a complete cure, and that I have since had no return of the disease."

Mrs. L. A. Stark, Nashua, N. H., writes: "One year ago I was taken ill with rheumatism, being confined to my house six months. I came out of the sickness very much debilitated, with no appetite, and my system disordered in every way. I commenced to use Ayer's Sarsaparilla and began to improve at once gaining in strength and soon recovering my usual health. I cannot say too much in praise of this well-known medicine."

"I have taken a great deal of medicine, but nothing has done me so much good as Ayer's Sarsaparilla. I felt its beneficial effects before I had quite finished one bottle, and I can freely testify that it is the best blood-medicine I know of."—L. W. Ward, St., Woodland, Texas.

You Want to Buy a Home

And bear in mind you are making one of the mistakes of your life by delaying, because no sane man can fail to see that new and extensive Manufacturing Industries, new Railway Extensions, the development of the mineral wealth of our back country and the early commencement of work on the Peterborough and Lakefield section of the Trent Valley Canal, cannot fail to force our fine town into the front rank as one of the leading cities in Ontario.

This being the case, is it wise for you to continue to rent if it is possible for you to buy, and a very moderate amount of money will enable you to do so.

I have Lots at all prices and in all parts of the town with special snaps for speculators, on the line of the canal from $50 up.

Houses and Lots in quality, location, price and terms to suit all buyers. Do not delay. Come and see me if you want a good property at a low price.

TIME TO US MEANS MONEY.

THE TRIPLE ALLIANCE AT WORK! WE BUY BIG TO SELL BIGGER!! THE OPENING GUN OF THE CAMPAIGN OF THE TRIUMVIRATE!!

SPOT CASH has saved a wholesale firm from bankruptcy ; a colossal sale effected in an emergency has kept the assignee from the door ! And how ! Here is a business story made up of business facts, and related by business people as a matter of business. Isn't it your business, you hard working, toiling men of industry, to take in the above business!

GOUGH BROS., of Peterborough, run their own show. They have no connection with the Gough Stores in Toronto and Brantford. But in union for a purpose there lies strength. The head of a wholesale house in difficulties required money—had to sell. One man's extremity is another man's opportunity. Goughs, of Peterborough, Toronto and Brantford, pooled their energies, backed with cash, and, by so doing, carried the day, and captured at a bargain $68,000.00 worth of Clothing, Furnishing Goods, Hats and Caps, Boots and Shoes.

Have you an idea what it means to handle this bonanza ; and, mind you, handle it to take the balance of the purchase money out of it by May 24th! You haven't. We have. And now we begin to push the biggest, brightest, most daring effort of our business career. Will you help us and benefit yourself ! You will, for common sense tells you that, in order to do well for ourselves, we must do better for you.

We Push for a Purpose! ☞ Here are a few Diamond-Bitted Pointers :—

All Men's $16.00 $14.00 $12.00 $10.00 SUITS Go For **$8.00**

All Men's $8.00 $7.00 $6.00 $5.50 SUITS Go For **$4.90**

All Boys' $4.50 $4.00 $3.50 $3.25 SUITS Go For **$2.90**

Men's Fine Cordovan Shoes, at $5.00, $4.50, $4.00, $3.75, now offered for $2.90. All $2.00, $1.75, $1.50 Boots go for $1.10. The same reduction applies to Ladies' and Children's Wear.

The prices of our Hats we will not quote here, as the high priced hatters would be completely knocked out and discomfited.

Just ask for hats and you will get a start. Buyers! Wearers! Customers! We want you to believe a strong statement. It is no stronger than the facts warrant. We fire to the third storey all compunction and reserve, and frankly tell you of our position. We sacrifice profit that we may meet our engagements and keep the name of GOUGH BROS. as the one firm, the Napoleons of Business, who can plan, carry out and consummate the biggest business, the biggest business scheme to place the best goods in every man's hands for less money than ever before.

GOUGH BROTHERS,

THE WONDERFUL CHEAP MEN.

HATS.

We can give you the best value in HATS that can be possible for you to get. How is that ? Well, we buy for six stores—two in Kingston, and one store each in Montreal, Brockville, Ottawa and Peterborough, so the goods are well bought and can be sold correspondingly low at

MILLS BROS.

ORMOND & WALSH

CHANGE IN BUSINESS.

I beg to announce to my late customers that I have sold out my business to Messrs. Hilliard & Peplow, and I would bespeak for them the same support as has been accorded me.

C. N. BROWN.

ANNOUNCEMENT.

For some time past we have thought a strictly cash business in Flour, Feed and Provisions could be successfully carried on in Peterborough, and to test this question, we have purchased the above business from Mr. C. N. Brown who will still continue as manager in Flavelle's old stand, Simcoe street.

In order to be successful we intend to make it the interest of everyone to pay cash with order by selling at wholesale prices.

We will positively give no credit and cash customers will not have to keep up the losses made by others on the credit system.

We will keep a full supply of the very best quality of Flour, Feed, Chop, etc., and our customers need not fear that the quality of the goods will be lowered to make up for the reduction in prices. We are simply giving them the benefit of the margin necessary to cover losses and interest charges incurred on the credit system.

Goods delivered to any part of the town or Ashburnham.

TELEPHONES.—Bell No. 38, Ontario No. 112.

WHEN YEARS TELL.

Mr. Billy Florence's First Revelation That He is not So Young as He Was.

"It is all well enough for people to tell me that I am looking younger than ever," said William J. Florence, comedian, yesterday, "but I am not to be fooled with that kind of flattery. I am getting along in years—yes, I'm a spring chicken no longer."

"That the way Billy talks nowadays," said Mr. Joseph Jefferson, "yet he is two years younger than I am."

"And you're no spring chicken, either," retorted Mr. Florence. "No, we've got to make up your minds, Joe, that decrepit age is stealing upon us. It isn't the pleasantest food for reflection, but it becomes a man who has lived threescore years."

"The first intimation I had that I was no longer young," continued Mr. Florence, "was last summer when I made an excursion up the Thames with a select party of London clubmen. Lord Charles Fitzlush and Sir Alan Geoffrey Gosh induced me to go—in fact, a lot of the Garrick Club boys got after me, and—well, what could I do or say!—of course I had to go along. The day after we returned—or, rather, the day after we were brought back from that boat ride—Sir Alan came around to see me at Morley's. I was still abed; I contemplated staying there for—ver; I felt, oh! indescribably wretched. But Sir Alan was brisk as a lark. As he entered the room he stopped:

"'Excuse me,' said he, 'I thought this was Mr. Florence's room. I beg your pardon.'

"'Come in Sir Alan,' said I.

"'Beg your pardon, but have I ever met you before?' asked Sir Alan.

"'He was not joking; he was in dead earnest. What ailed him, I wondered.

"'Aha, good joke,' said I, trying to be merry in spite of the Omaha flavor in my mouth and a high-altitude pressure in my head. 'Aha, good joke; but come now, I say, old fellow, let's be serious.'

"'It is you, after all, isn't it?' exclaimed Sir Alan. 'For me honor, I'd never have known you but for your voice. You've changed so beastly much, old man, don't you know.'

"'Egad, have I?' says I, and for a fact I felt changed. Had never had those Omaha and high-altitude symptoms before. Crawled out of bed, tottered over to the mirror, and looked at myself. Then pinched myself to see if I was dreaming.

"'Send for a doctor,' said I, crawling back into bed and pulling the clothes up over my head. Sir Morell Mackenzie came. 'Sir Dock,' says I, 'what ails me? I never was so before I went boating on the Thames with those Garrick Club boys.' I showed him photographs of myself taken only a fortnight before; he sounded my lungs, listened to my heart, looked at my tongue, felt my pulse, and tested my breath with medicated papers.

"'As near as I can get at it,' said he at last, 'you are a victim to misplaced confidence. You have been training with the young bucks when you should have been ploughing around with the old stags. You must quit it. Otherwise it will do you up.'

"Well, now, that was the saddest day of my life; just think of shutting down on the boys after being one of them for sixty years! But Sir Morell told the truth. The Garrick Club boys were terribly mad about it; they said Sir Morell was a quack and they adopted resolutions declaring a lack of confidence in his professional skill. But my mind was made up. 'Billy,' says I to myself, 'you must let up. You've made a record; it is a long one and an honorable one. Now you must retire. Your life henceforth shall be reminiscent and its declining years shall be hallowed by the refulgent rays of retrospection.' To that resolution I have adhered steadily. People tell me that I am as young as ever but, no—they cannot fool me—I know better."

"Just to illustrate the folly of all that talk," said Mr. Jefferson, "I'll tell you what I saw last night. When I returned to the hotel after the play I went up and found Billy and the President of the Philadelphia Catnip Club at supper. What do you suppose they had? Stewed terrapin and frapped champagne."

"That's all right enough," explained Mr Florence. "Terrapin and champagne never hurt anybody. I have had 'em all my life. What I maintain is that people of my age should not and cannot indulge in extravagances of diet. The utmost simplicity must be the rule of their life. If Joe would only eat terrapin and drink champagne he wouldn't be grunting around with dyspepsia all the time. He lives on boiled mutton and graham bread, and the public call him the reverend veteran Joseph Jefferson. I stick to terrapin, green turtle, canvasbacks, and the like, and every young chap in the land slaps me on the back, calls me Billy, and regards me as a contemporary. But I can't; I'm getting old, not too old, but just old enough."—Chicago News.

Crisp Condensations.

Australians already number 4,000,000.

Rudyard Kipling is fond of calves' brains for breakfast.

Alaska has so far exported $4,000,000 in precious metals.

A street car at Atchison, Kan., has been painted black for funeral purposes.

More than 1000 calla lilies were used in decorating one church at Pasadena, Cal., on Easter Sunday.

A recent lawsuit in Chicago involved the recovery of 1 cent, and resulted in an expenditure of $400 in fees.

Canon Scott declares that in England there are no fewer than 30,000 girls engaged in "public houses and drinking bars."

Two Milwaukee dentists have dissolved after a partnership of twenty-three years. They could not pull together any longer.

An Atchison woman refused the present of a handsome set of books because they did not match the color of her parlor furniture.

Two lawyers at Alpena, Mich., took a nip from a bottle in the Court-room during a trial, and the offended Magistrate fined them $5 each.

Five Ways to Cure a Cold.

1. Bathe the feet in hot water and take a pint of hot lemonade. Then sponge with salt water and remain in a warm room. 2. Bathe the face in very hot water every five minutes for an hour. 3. Snuff up the nostrils hot salt water every three hours. 4. Inhale ammonia or menthol. 5. Take four hours' active exercise in the air. A ten-grain dose of quinine will usually break up a cold in the beginning. Anything that will set the blood in active circulation will do it, whether it be drugs or the use of a buckaw.—Pharmaceutical Era.

A New Idea in "Arcs."

A new idea in arc lamps is the substitution of a hollow carbon cylinder for the usual upper carbon point and a disk for the lower rod. The edges of the cylinder and disk are in contact, and the light is formed at that point.

The Bigness of the Bessemer Idea.

The best idea of the value of the Bessemer invention may be formed from the simple fact that when Bessemer began experimenting steel sold in England at from $350 to $300 a gross ton. He soon made a better steel at $30 a ton.

Children Cry for Pitcher's Castoria.

The Women and Girls Require Attention.

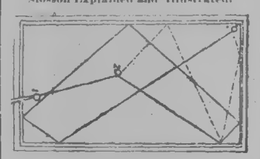
A noted professor of the Vienna University says that in the five principal manufacturing countries of Europe there are 20,250,000 of women employed, as follows: Germany, 5 000 000; Britain, 4,500 000; France, 3,750 000; and Italy and Austria, each 2,500 000. In Canada a very large number of women and girls find work in the mills, factories, work shops, stores and offices. Hundreds of these hard-working busy women and girls, owing to badly ventilated and ill-constructed buildings, and the piece work system, are wearing themselves away. In order to make large wages they overwork; they are worried, they become hollow-cheeked and pale, the whole muscular system is weakened, they are nervous and generally dyspeptic. They require great care and attention, or their lives become uncertain and miserable. For such objects the great strengthener, restorer and life-giver is Paine's Celery Compound. With a moderate amount of gentle physical exercise in the fresh air, Paine's Celery Compound soon restores lost vitality, builds up the system and gives a healthy, natural appetite, and regular and sound sleep. To every woman and girl who stands within the walls of a factory, workshop or store, we would kindly urge the use of this great scientific compound. It will do more for you than any physician can do, and at a very small outlay of money.

Free to Ladies.

Every lady reader of this paper sending at once her address on a postal card will receive a free copy of the *Ladies'* (Pictorial) *Newspaper*, containing full particulars of their old fashioned English prize competition. Over $6,000 00 in prizes will be given away between now and June 1st, with special daily prizes of value for each locality. The *Ladies' Newspaper* is one of the largest and most profusely illustrated publications in Canada, and the competition offered by them is to be conducted in a strictly honourable manner, without partiality to persons or locality. Anyone can secure a good prize by a little work. No cheap presents will be given. It costs you nothing for full information and a sample copy, if you send at once. Address: The *Ladies Newspaper Co.*, Canada Life Building, Toronto, Ontario. d73-w14

POINTS IN BILLIARDS.

A Pretty Five Cushion Shot by George F. Slosson Explained and Illustrated.



EXPLANATION.

In the diagram the balls are so placed that an attempt to make the shot with a "follow" would result in a "kiss." Accordingly the player would be forced to play around the table to effect the carom and also gain position.

The cue ball (No. 1) is hit with great force one-quarter to the left and just above the centre, and the first object ball (No. 2) is struck one-quarter to the right of the centre. The cue ball takes five cushions while the object ball is travelling across the table and effects the carom on the second object ball (No. 3) in the upper left hand corner of the table where the three balls are nicely bunched.

Why go about hawking and spitting when Nasal Balm will remove every vestige of your catarrh, and thus relive you of this disagreeable habit? In cases of cold in the head Nasal Balm gives instant relief, and there is no case of catarrh it will not cure if used according to directions. A single bottle will convince you of its merit. 6492w

Speaking of Tips.

A tip is a piece of special or valuable information such as this, that Hagyard's Yellow Oil is a prompt and effectual cure for croup, colds, hoarseness, sore throat, rheumatism, neuralgia sprains or soreness of any kind. Known as reliable over 30 years. 2w15

A True Bill.

Wm. Gillespie, Wolfe Island, Ont., says: I had indigestion and stomach cough for three years. Was treated by best physicians and used numerous patent medicines without success, when two bottles of Miller's Emulsion of Cod Liver Oil cured me. I have great pleasure in recommending it. For sale by all druggists. dw

Sit Down and Think.

Sit down and think: 1st, that dyspepsia is caused by wrong action of the stomach; 2nd, that Burdock Blood Bitters is designed to correct and regulate the stomach; 3rd, that it always cures dyspepsia and costs less than a cent a dose. Can you afford to be dyspeptic? 2w151

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Hagyard's Pectoral Balsam.

Hagyard's Pectoral Balsam gives prompt relief in coughs, colds, hoarseness, whooping cough, croup, asthma or bronchitis. It is the most pleasant and perfect throat and lung healer in the world for children or adults. Price 25c. 2w151

How Absurd

for people to ruin their health by unwholesome food. The food prepared with Imperial Cream Tartar Baking Powder is wholesome. 8 th s-w

Everybody Admires Soft White Hands.

And every lady ought to use Dyer's Jelly of Cucumber and Roses, as it makes the skin soft and smooth. Druggists keep it. W. A. Dyer & Co., Montreal. 6492

Not one in twenty are free from some little ailment caused by inaction of the liver. Use Carter's Little Liver Pills. The result will be a pleasant surprise. They give positive relief. dw

Twelve years trial in English climate, with increasing demand, proves the Royal Rheumatic Remedy to be the best remedy for rheumatism. For sale by W. R. Greatrix, druggist. dw

As a pick-me up after excessive exertion or exposure, Milburn's Beef, Iron and Wine is grateful and comforting. dw

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while *they* also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold everywhere, or sent by mail.

CARTER MEDICINE CO., New York.

Small Pill. Small Dose. Small Price.

The Burdock Blood Bitters

BANISHES BAD BLOOD.

Bad Blood is responsible for all the Boils, Blotches, Pimples, Eruptions, Skin Diseases, Humors and Disfiguring Rashes that are so prevalent, especially in spring. There is a NATURAL FOE TO BAD BLOOD called Burdock Blood Bitters which always conquers, never fails and is recommended by thousands. It searches out and removes all impurities from the smallest pimple to the worst scrofulous sore. In Scrofula, Erysipelas, Salt Rheum, Shingles, Tetter, etc., its effects are wonderful.

WHAT THEY SAY.

Two of my children had large sores on their bodies caused by poorness of the blood. They were completely cured by one bottle of B. B. B. MRS. J. PINEL, London East, Ont.

About a year ago I got a running abscess on my neck which made me very weak. B. B. B. cured it and I am strong again. MRS. GEO. LEDINGHAM, Montefiore, Man.

A Faithful Friend.

SIRS,—I have great faith in your Burdock Blood Bitters, and can recommend it for most anything. Two years ago I was troubled with an ulcer on my ankle; having used B. B. B. for bad blood I procured a bottle, and a box of Burdock Healing Ointment; after using three bottles and three boxes I was completely cured and can recommend it everywhere. Yours truly, MRS. WM. V. BOYD, Brantford, Ont.

Letters For Monday.

A lengthy letter from Dr. Clarke, Medical Health Officer dealing with public health matters, will be published in Monday's issue. It was received too late for use to-day. Another on the same subject is also unavoidably held out.

An Open Secret.

This is an advertisement for Hawley Bros'. teas, and we don't care who knows it. What we want to say will be straight and to the point. It is this: Hawley Bros. keep the finest stock of teas and coffees in town at the lowest prices—*n'oubliez pas!* Excuse French, but don't forget Hawley Bros., *mes*

Pies. Pies. Pies.

The Epworth League will give an entertainment in the school room of Charlotte street Methodist church on Monday evening next. The best local talent will contribute to the programme, and Peterborough's best spellers will take part in the spelling. Tea, coffee and pies of all kinds will be served. Admission, silver collection at the door. 24lly

Oddfellows' Church Parade.

To-morrow (Sunday) the Oddfellows of the town will commemorate the fifty-second anniversary of the Order by attending divine worship in a body. All local and visiting brethren are requested to meet at Otonabee lodge rooms at 6.15 o'clock for parade to St. Paul's Church, where the annual sermon to the Order will be preached by Rev. E. F. Torrance. All Oddfellows are urgently requested to join in the procession.

Three Hundreds Telephones.

The Ontario Telephone Co. has now three hundred telephone in operation, the limit of their switch board being reached, and orders have been given for another switch of an extra hundred capacity. The latest telephone put in are these:—Dr. McGrath, George street, No. 39; Prof J. Churchill Aridge, No. 287; Chas Lyons, George street No. 47; A. J. Cameron and M. H. Le Hane, George street, No. 21; Rev. C. B. Kenrick, Hunter street, No. 26.

The Trent Narrows Bridge.

Mr. Wm Sargent of Seymour was in town this morning and gave particulars of the carrying away by an ice jam of about 100 feet of the now well known Trent narrows bridge. Some of the Northumberland people loosely blame Peterborough for the mishap. They say that something was let loose at Burleigh or Buckhorn and that the high water and ice combined demolished the section of the bridge over the narrowes channel.

East Riding Licenses.

An adjourned meeting of the East Riding License Commissioners was held at the Temperance Hotel, town. The chief business was setting up the affairs of the quarter, issuing a tavern license to Mrs. Holmes, Burleigh Falls, and passing the following resolution:—"That all persons who have been licensed by the East Peterborough License Board, and who shall be convicted more than once of selling liquors during prohibited hours or to minors in contravention of the Liquor License Act, shall by virtue of said Act and of this resolution, be ineligible for again receiving a license from this Board."

Illness of Mr. Thomas Buck.

The many friends of Mr. Thos. Buck of Norwood, will regret to learn that he has been seriously ill for the last few days. He was in Trenton overseeing some work and on Tuesday night, retired in his usual good health. It seems that he become helpless during the night, and was not discovered till the following day at 2 o'clock, in an entirely helpless condition unable to speak or move. Dr. Moher was called in, and under his care he gradually improved until, Friday when his friends were able to remove him to his home.

Parlour Entertainment.

The officers and members of Hiawatha Encampment of Oddfellows undertook the role of entertainers Friday night with gratifying success. The handsome and commodious rooms of Otonabee lodge were well filled, about three hundred friends of the Oddfellows being present. The parlour entertainment consisted of stereopticon views by Mr. R. M. Roy, who showed several Venetian scenes and other interesting pictures on a large canvas stretched at the end of the main hall. The Amateur Orchestra gave a number of excellent selections. The gathering broke up as a late hour after a few hours spent in the usual social way. The entertainment, though not conducted on a large scale, was a pleasing success in every way. Hiawatha Encampment is making a name for itself.

An Excellent Programme.

We are sure that ticket holders for the P. A. A. A. concert on Tuesday, 28th inst., will be delighted with the following programme, and that others will also be glad to attend:—

Selection.....Amateur Orchestra. "L'Italiana in Algeri".....*Rossini*

Vocal duet.....Miss Vair and Mr. T. Dunn. "The Venetian Boat Song".....*Blumenthal*
Selection.....Amateur Orchestra. "The Golden Fleece".....*Ripley*
God Save the Queen. 1d

Anticipating the Event.

A Prominent Citizen about to Espouse a Bride—A Practical Token of Congratulation.

It is an open secret among his many friends that Mr. Harry LeBrun, the prominent and popular merchant, is about to forsake his bachelor existence and enter upon married life. Next Wednesday at Watertown, N.Y., he expects to claim as his bride a lady quite as well and favorably known as himself, Mrs. Hackett, who has lived many years in Peterborough and was universally recognized as one of the handsomest and most amiable ladies in town. The cordial congratulations and warmest wishes of a host of friends will be tendered them in the happy event.

Among the first to offer their congratulation in a highly practical manner was the staff of the firm of H. LeBrun & Co., and the occasion was doubly pleasant in that it showed that the most agreeable relations exist between Mr. LeBrun and his fellow-partner and employes.

Upon entering his place of business last evening Mr. LeBrun was surrounded by a group of twenty-five members of the staff, all wearing a mysterious smile in their eyes, much to Mr. LeBrun's surprise and bewilderment. Mr. Picard, one of the firm, then stepped forward and read the following address:—

DEAR MR. LEBRUN.

It is with heartfelt pleasure that we, your employes and friends, assemble together to tender you our congratulations on the happy event that is soon to take place in your life and to wish you every blessing that can increase that happiness.

It has been the good fortune of some of us to have been associated with you in business from the commencement of your career as a merchant and during that long intercourse, extending over eighteen years, we have daily experienced that urbanity and courtesy characteristic of you; we have seen and appreciated that kindly interest you have always manifested in us, we have marked well your straightforward and honorable career which is in our highest ambition to emulate; and for these and your many other good qualities of head and heart we have all learned to love you as a friend and to take a friends' interest in everything that concerns your welfare.

We beg therefore that you will accept this silver tea service as a token of our esteem and friendship, and an earnest of our good wishes for the happiness of yourself and destined bride.

Signed on behalf of the staff of H. LeBrun & Co.,

JOSEPH PICARD,
MILES FROATS,
PETER CORKERY.

Peterborough, April 24, 1891.

At the proper moment the silver tea service was handed Mr. LeBrun by Miss Maggie Clancy. The service made a valuable and imposing looking gift.

Mr. LeBrun replied briefly as follows:—

Dear Friends and Employees,—I assure you I am taken altogether by surprise. I must acknowledge that I cannot do justice to my feelings of gratitude to you all in answering to your kind address, and for this beautiful present before me to-night. Being taken unawares, I am not prepared to answer to it at length, but, as you mention, some of you have been in my employ for over eighteen years. That alone is sufficient proof of our harmonious and favorable connection. It has always been my fervent endeavour to further your interests and welfare, as well as yours to help me and each other, and I will continue to do so in the future, as in the past. I may, in closing, repeat that I am exceedingly thankful to you all for your kind expressions to me and my future bride; and rest assured that this evening will be a memorable one in my memory forever.

The gathering then broke up, after congratulations had been expressed all round.

Mr. LeBrun leaves town to-night and will bear with him the best wishes of scores of his friends all over Canada, who are showing their regard for him by forwarding valuable presents, which are being received every day.

Church Chimes.

ST. PETER'S CATHEDRAL.—At St. Peter's Catnedral, Roman Catholic, there will be two mass s celebrated, the first at 8 a.m., the second at 10:30 a.m. Vespers at 7 p.m.

Children Cry for Pitcher's Castoria.

Charming Chemong Park.

Prospects and Improvements for the Season — The Grounds Improved—A New Pavilion—Every Cottage Engaged —A Splendid New Hotel.

The roads between here and Chemong Park are not very good at present, but they will improve before summer comes, when the Park will be more attractive and popular than it ever has been. Though the air is full of chilly reminders that the winter has not been long gone; though only on Thursday the ice in the lake broke up—by the way nearly breaking up the club boating house and injuring the floating bridge—though the spring flowers and warm weather and the spring birds are very shy, yet summer with its roasting heat will soon be here, and the panting, perspiring public will be seeking cool shade, refreshing breezes and water-side and water-surface comfort and delights, such as Chemong Park and Lake afford in so delightful a degree.

The EXAMINER has often written of the delights and comforts of this place, the public have believed its report, and this

HEALTHFUL AND DELIGHTFUL

summer residence and resort enjoys a high degree of popularity. Its summer population will be large this season. Every cottage is already let. Residents this summer will find that great improvements have been made, and will have been made before the season opens. The central and western portions of the park have received attention. The dense undergrowth, in places that almost excluded the light of day, has been judiciously and skilfully thinned, the roads have been cleared and unsightly rubbish—brush, etc., has been removed. A large number of additional lots at the eastend of the park have been surveyed, and will in a few days be numbered. These lots give to the fortunate freeholders in Chemong Park a beautiful site for a cottage. Each lot is 75x100 feet in size, and nearly every lot commands a fine view of the lake scenery, and the time is not far distant when it will be difficult to find at the park an eligible lot not already taken possession of.

Among the improvements to the park this season will be the construction of a new,

LARGE AND ELEGANT PAVILION

for the accommodation of the residents and the public. This pavilion will be situated near the east end close to the lake in one of the most charming sites of the park. It will be closely roofed and will be a secure shelter in case of sudden summer showers, and will be provided with seats, etc. It will be floored with reference to dancing and pic-nic and excursion parties who will frequently visit the park—this season of near than ever—will find it a delightful convenience. Attached to the pavilion will be the park grocery and supply store. This will be a very great convenience to park residents and visitors as well for in connection with the shop will be a confectionery department, where candies, caramels and cooling drinks and ices may be obtained—through what any sane soul abhors would desire better than the sparkling drinking water that wells up out of the soil on all sides in crystal purity it would be difficult to fancy.

THE DRINKING WATER OF THE PARK

in it coolness, clearness and its absolute chemical purity and the absolute absence of every sort of bacteriological bug cannot be surpassed. The water comes from numerous underground springs which are fed from the dense forest to the south of the park an entirely unpolluted source of supply. Mr. Elliott proposes covering in the most publicly situated springs and providing a tap, which has only to be turned to secure an abundant supply of water.

Among the improvements of the season will be telephone connection with the town. The poles for the line are already distributed, and will be erected by the Ontario Telephone Company in a few days. Thus park residents can be in direct communication with their friends in Peterborough, and fish-stories which might lose by keeping, or by a later revival of conscientious scruples, can be worked off in all the meadacious magnitude and freshness of the moment.

But the feature of greatest interest to the general public, is the splendid new hotel now nearly completed. The building is being erected for Mr. L. G. Fobert, whose popularity as a Boniface of the highest order is very great, and occupies its own grounds of *two acres*

WITHIN THE PARK PRECINCTS,

and at its eastern extremity, opposite the new street which is being opened up direct to the village. The hotel is a fine three-story—and if its spacious cellar and basement are counted—a four-story building. It is not like the average summer hotel, a flimsy wooden shell, as liable to burn up as a paper balloon—through which the heat enters and comfort takes its flight with sweltering facility. It is a substantial and solid structure of red brick, of elegant design, and finished with as much taste and completeness as though it occupied the heart of a city. On the first floor are the wide halls, the reading room, dining and refreshment rooms, all double floored, and all beautifully wainscotted in oiled ash. The same completeness and elegance of finish mark both the second and third floors. One striking feature of the design is the admirable arrangement of the window openings, by which abundant light is secured, and there is also excellent ventilation. All the other arrangements are of

THE MOST APPROVED MODERN STYLE.

The building has its own waterworks, operated by wind engines—which supply in abundance both lake and spring water, and this admits of having commodious bath rooms, water closets and lavatories. The plumbing is done with great care and the sanitary arrangements of the establishment are as complete and excellent as the other appointments of the house. The kitchens are capacious and well isolated. The basement floor contains the well lighted laundry and furnace rooms, by which, in winter, the hotel is heated with hot air.

Verandahs to the first floor surround the house, and balconies to the second floor, upon which French windows open. From almost every window of the hotel and from the whole floor of the balconies splendid views of emerald forest or grove or sparkling water rest and delight the eye. This fine hotel will stand more detailed reference when it is completed, which will be within a month or so.

THE VILLAGE OF BRIDGENORTH

is brightening and improving greatly. The city fathers are laying down new walks, and the street north of the main road is to be graded and levelled and made ready for travel. It would be a fine thing if the villagers could be persuaded to plant many more shade trees—preferably the graceful elm, and in a few years Bridgenorth, with its magnificent site, would be one of the most picturesquely beautiful villages on the continent.

Chemong Park and its environs promises to "boom" the coming summer, and Mr. Alex. Elliott is finding in its beautification and adornment an abundant and well improved outlet for his energy and enterprise. The public owe him a debt of gratitude for furnishing at our doors one of the most beautiful and pleasant summering places in Canada.

News Nuggets.

—Every tissue of the body, every bone, muscle and organ, is made stronger and more healthful by the use of Hood's Sarsaparilla.

—Mr. Adam Dobbin, the veteran vagrant, received a month's stay at the gaol this morning.

—Inspector Cochrane this morning served his first notice under section 124 of the Liquor License Law in the new addition to his district, Ashburnham.

Mr. Telford's Weather Notes.

Some changeable weather during the week on the 21st being moderate throughout the day with little ups and downs but on the morning of the 22nd an upward tendency was perceptible at sunrise, the thermometer standing at 40°, at 9 o'clock to 50°, at 11 to 70°, at 3 to 76°, at 5 to 70°, and at sundown at 65° being the hottest day as yet of the season. But on the 23rd it never rose above 58° during the day and on the 24th never rising above 55° with 1° below freezing point at sunrise, but at sunrise this (Saturday) morning showing a little higher temperature only being cloudy through the night prevented it from exceeding its predecessors.

REMEMBER

The great sale of Household Furniture, Horse, Phaeton, Refrigerator, Acme Lawn Mower, Hose, etc., on Tuesday next, April 28th, commencing at 10 o'clock a.m., at the residence of Mr. R. H. Green, No. 387 Reid street. Note—The Furniture, Carpets, etc., are almost new. For further particulars see large posters. 2497-1w18

CHINA INLAND MISSION.

Interesting Epistle From the Orient.

Mr. F. G. Saunders, a Missionary, Reports Progress—Oriental Life and Religious —Need of Missionaries.

The following interesting letter has been received from the writer by Mr. R. J. Colville, general secretary of the Y.M.C.A.:

CHINA INLAND MISSION,
Shanghai, China, March 9th, 1891.

MY DEAR BROTHER COLVILLE,—I feel as though I must write to you, although at present I can hardly spare the time. Of course you will have heard from Mrs. Dillon that we arrived here safely, and therefore I know what a good many of my friends will be expecting to hear from me. I wish I could tell you the real joy and blessing that I have had ever since my arrival here. If I remember right, I have written you of my movements until we left Yokohama.

The next place to tell you about is Kobe, Japan. We arrived there in good health and spirits on Feb. 19th, at 5.30 p.m., and after having dinner on board, Mr. Frost and I hired a sampan and went ashore. On landing we got into jinrikishas, and started for a kind of market place called the temple. It is a big open space, with a lot of stalls on it, where there are all kinds of Japanese goods displayed for sale. After walking through this place and buying some candy at one of the stalls, we tried to see the temple but could not see much of it because there was no service there that night. Then we got into the jimrikshas again and rode off. We returned to the ship again, feeling very sad, and poured out our hearts to that dear Father in Heaven, thanking Him that we were born in a Christian land, and beseeching Him to send forth more laborers into His harvest. For unless it were God that sent the laborers they had better stay at home. How much we need His sustaining grace here, cannot be properly understood unless you see your own self

THE MIDNIGHT DARKNESS

of heathendom. Oh! what love was the love of Christ to die for such a wretch as I was, and for such as these! And shall we who have the light be guilty of withholding it from those who have not? Is that the way to show our gratitude to Christ, who did so much for us? The Y.M.C.A. would not suffer any loss if twenty of its brightest gems were to go out as foreign missionaries, but they would be repaid in the conversion of many more than twenty to fill in the gap left by those who had gone. Bring ye ALL the tithes into the storehouse. I will, Lord, here take me ALL I am, and ALL I have is mine. Pray the Lord of the harvest that he will send forth laborers into His harvest. I will Lord. Go ye into all the world and preach the Gospel. I will Lord. Has the master ever put such words to my dear friends in the Y.M.C.A. and have they ever from the heart given replies like these. If you have had such dealings with the Lord, you will not be long before you will be just in the place where the Lord would have you and you will find out that that is the place of blessing. On the 20th Mr. Frost and all the rest of us went ashore and went for a ride to a place just outside Kobe called the Katerfall. The jinrikshas put us down at the foot of a high mountain and after we had climbed it for some distance up, we caught the first glimpse of the fall, which seemed to come out of the mountain at a great height above us. After we had rested and taken tea at a little refreshment house we again ascended until we reached another tea house and had another rest, then we went up higher again and had some most beautiful views of the city lying at the foot of the mountain, with the sea beyond. It being a delightful spring day we enjoyed the sight immensely, but there were also some very sad sights in that beautiful mountain, for every now and then we would come across a shrine erected to some heathen god and in one place there was an image of some god, I don't know what one, cut out of stone and placed in a niche at the side of the mountain. In all these shrines and in front of the gods there are little boxes placed for offerings of rice and money. After leaving the waterfall we went to see Mr. Ballard and his wife, some good Christian people who are not missionaries but receive a missionary's blessing from the Father for their work done in Jesus' name. They keep a missionary boarding house where workers who are sick or want a change of rest can go and board for a season and then return to their labors. Fortunately there was room in this house for all of our party, so we made that our home, while the ship was being unloaded. Mr. Ballard has lived in China for a number of years, but his health having failed him, last year he took this house at Kobe, and moved there with his wife and two children.

It is one of the best arranged and most beautifully arranged houses there, it having been built for the governor, who, however, was removed from that city to some less important station because of his bad conduct. Mr. Ballard just happened to be in Kobe at the right time to buy this place and transform it into what the natives call a Christian hotel. After dinner we visited a school which is connected with the American Congregational church. Miss Brown is the superintendant of it, there are three or four other American ladies there, besides some native teachers. At present there are 145 girls in the school, who are taking a four years' course, and Miss Soape, one of the teachers, told us that they are all Christians on leaving the school. Another visit we paid in Kobe was to a missionary belonging to the Church Missionary Society, named the Rev. B. F. Buxton, who paid the expenses of a party of missionaries who arrived in Japan from England last year. He welcomed us by saying "Praise the Lord" and then invited us into the house. He is a splendid man and his wife is also very nice. In the room we entered there were several texts hanging upon the walls and the following motto placed over the mantleboard, "Christ is the master of this house, He is the unseen guest at every table, the unseen hearer of every conversation."

Another visit was made to the Seamen's Mission, which is in charge of Mr. and Mrs. Sudlow of the Christian Alliance, they having come from Simpson's College. They are doing a good work in Kobe and are much blessed of God in it. We had a little prayer meeting with them, in which they earnestly commended us to the Almighty for his blessing and guidance on our future work. Before we left Kobe we were very much interested in visiting

A BUDDHIST TEMPLE,

and seeing something of their worship, or rather of their objects of worship. The different gods all have separate buildings set apart to them and the whole of these buildings are in one big enclosure. In the centre was the biggest building of all, containing two images, which looked very much like what the boys in England make on the 5th of November to represent Guy Fawkes, only the English boys make these things to burn as bonfires, and these poor people make them to worship as gods. You, my friends, who know the true God, how can you rest at ease when two-thirds of your fellow creatures are living and dying in such darkness with scarcely anyone to tell them the way of life? How those words that I so often heard in Canada make my ears tingle, "There are plenty of heathen at home," when I see these sights. Another god we saw was a white horse with blue eyes. Near this horse are little wooden trays containing about an eggcup full of beans each, which the people in their blindness consider it a meritorious act to buy and give to the horse. Another god was also a white horse about the same size as the first, only made of wood. Others are different objects made of different things. Some of these gods have a rope and bell hanging in front of them, which the people ring in order to wake the god up. We also visited a Buddhist graveyard near by this temple. One very noticeable thing in Kobe is the number of beggars one meets. There are all sorts of conditions of them, and all sizes. There are the blind, the halt, the lame, and, I was going to write, the dumb, but I do not remember seeing any dumb, and, if we had seen any, I think I should remember it, because those we did meet kept up a continual whine, at the same time waving themselves almost to the ground. There is, I am glad to say, a native Y.M.C.A. in this place, although I did not visit it.

We left Kobe at four a.m. on Sunday, the 22nd, and journeyed that day and the following morning through the beautiful Japan inland seas, which, with their numberless beautiful islands, reminded me of Stony Lake on a large scale. One rock in these seas is famous in Japanese history from the fact that several years ago a great number of Jesuits were thrown from it into the sea and drowned. The captain of our vessel pointed out this rock to us as we passed it.

We reached Nagasaki at 1.30 p.m. on Monday, and had twenty-eight hours' stay here, in order that they might coal the vessel. The people who coal the ships at Nagasaki call forth many thoughts of pity from any missionaries who may be on board. Men, women and even children work at it like a swarm of bees. They place themselves in a long line, beginning at the coal barge and ending on the steamer, and pass baskets of coal from one to another with the quickness of conjurers for hours at a time, those in the barge filling the baskets and those on the ship emptying them. At this point we visited a large school under the American Methodist Board. Before finishing telling you about Japan I must tell you about shopping as it is carried on here. If a person wants to buy a certain article, he will go to the shop and inquire the price. If the article is worth 50 cents it is probable that they would ask a dollar for it. The would-be purchaser laughs and offers 40 cents for it. Then the seller laughs and says he will take 90 cents, and so they proceed, laughing at each other all the time until the price is fixed and the article disposed of. Our ship's doctor told me a little of his experience in

JAPANESE TRADING.

One day when the ship was at anchor in a Japanese port the doctor was sitting on deck reading, when a man came aboard and wanted to sell him a pair of field glasses, asking $14 for them. The doctor, not wanting them, and being interested in his reading, thought to get rid of the man by offering him $4, when, much to his surprise, the man said all right, he would take it. Because he had offered the $4 he felt bound to buy the glasses, much to the satisfaction of the man. But I must proceed. We left Nagasaki at 5 p.m. on the 24th of February, and after a very smooth voyage on the whole considering the time of year, reached Shanghai at 5 p.m. on the 25th February. It did not take us long to get from the wharf to the

CHINA INLAND MISSION

premises, and the warm Christian welcome we received there had the effect of soon making us feel at home. Since last October, 131 new workers have arrived in connection with the mission. What an answer to prayer (131 in five months), and yet, when they are distributed amongst 250 millions of people, they will appear very insignificant. Truly it may be said of China, the harvest is plenteous and the laborers few. Of course all my friends will be longing to know about the work in the field, but I do not know much about that yet, as I am still in Shanghai. The mission premises here were built last year, at an outlay of between two and three hundred thousand dollars, which money was given by one donor. This place is the mission headquarters and business centre, as a general rule incoming members from England, America or Australia only stay here for a day or two, to enable them to repack their outfits in native boxes, put on the native dress there and then they go direct to the mission schools at Ganklo, Yang-chaw or elsewhere to study the language. Owing to the arrival of a party from England, a party of thirty-five Swedes from the United States and a party from Australia just previous to us, our schools are all pretty full and they have not as yet made the necessary arrangements for us to go to our places of study. Still there is abundant employment for all who are here now and as many more as the Lord will send. The Australian party, all but one lady who is sick, the English party with one or two exceptions, and the Swedish ladies, eighteen in number, had been transferred to the schools before our arrival. There are at present about sixty of us in Shanghai, viz., our party of five, and Mr. Frost, seventeen Swedish brothers, a few sick members of the mission, Mr. and Mrs. Hudson Taylor, the mission postmaster, those in charge of the household, a few members lately returned from well earned vacations, some of the officers of the mission, etc. Last Saturday three young men arrived from Australia and there is a party now on its way from Australia, headed by a Church of England clergyman and his wife. There is also a party of at least fifteen more Swedes from the States somewhere very near to China, and we do not know but what another English and also another American party may be also en route. This week they are expecting to send a number of us who are here to the school, I am not sure whether I shall be one of that number. I have very important work on at present, which prevents me from studying the language. Miss Geraldine Guinness, a member of our mission (daughter of Grattan Guinness) is engaged in writing a history of the China Inland Mission which will (D. V.) be published before the Mildmay Conference meets, after Miss Guinness has written and Mr. Taylor revised her work, I have to copy the revision for the printers.

To-day I went into Chinese clothes and it makes such a change in me that you would hardly know me. I would like to write you a lot more news but I really have not time, so I will now conclude with love to all.

I remain yours in service,
F. G. SAUNDERS.

Y. M. C. A. Notes.

Young men's meeting to-night at 8 p.m., topic, "David, the Lord's Champion," Mr. E. A. Mannell, leader, all welcome, lively singing.

Consecration service Sabbath morning at 9:15, topic, S. S. lesson, "Nineveh brought to repentance," Jonah 3, 1-10. Mr. Herbert Fife leader.

Nicholls Hospital service at 3 p.m. led by Messrs. Mason and Early.

Personal Purity meeting for men only, Mr. Albert Hamilton will speak at 4:15 Sabbath afternoon, singing led by orchestra.

Mr. Frank Mason will give the address at the Gospel and Song service Sabbath evening at 8:30. Public invited.

We were pleased to receive from one of our citizens, "The History of the World" in 3 vol's with the following inscription therein which speaks for itself:—

TO THE Y. M. C. A.

From an admiring friend who has thought previous to this date that the hotel men were better friends to him than the recipients of this small mark of esteem. May God bless and prosper the efforts of the Y.M.C.A. is the earnest prayer of the donor.

22nd April 1891.

We praise God for this evidence of His favor knowing He will bless our brother for his practical gift.

Dyspepsia

Intense Suffering for 8 years—Restored to Perfect Health.

Few people have suffered more severely from dyspepsia than Mr. E. A. McMahon, a well known grocer of Staunton, Va. He says: "Before 1878 I was in excellent health, weighing over 200 pounds. In that year an ailment developed into acute dyspepsia, and soon I was reduced to 162 pounds, suffering burning sensations in the stomach, palpitation of the heart, nausea, and indigestion. I could not sleep, lost all heart in my work, had fits of melancholia, and for days at a time I would have welcomed death. I became morose, sullen and irritable, and for eight years life was a burden. I tried many physicians and many remedies. One day a workman employed by me suggested that I take Hood's Sarsaparilla, as it had cured his wife of dyspepsia. I did so, and before taking the whole of a bottle I began to feel like a new man. The terrible pains to which I had been subjected, ceased, the palpitation of the heart subsided, my stomach became easier, nausea, disappeared, and my entire system began to tone up. With returning strength came activity of mind and body. Before the fifth bottle was taken I had regained my former weight and natural condition. I am today well and I ascribe it to taking Hood's Sarsaparilla."

Intense Suffering 8 Years

N. B. If you decide to take Hood's Sarsaparilla do not be induced to buy any other.

Hood's Sarsaparilla

Sold by all druggists. $1; six for $5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

100 Doses One Dollar

A BAD HUMOR CURED.

$5,000 Expended on Doctors and Medicine with small Gain. Cure Immediate up to date.

Cured With Cuticura Remedies. Used them 7 months, and is entirely Cured.

I was in the war during 1861-5, and took heavy cold at Gettysburg, from which I never fully recovered. In 1875 I broke out in sores all over my chest and shoulder, which became intolerable to cure. I tried all the famous doctors I could find, and to no avail. I expended some five thousand dollars trying to find a cure for, could not, and finally giving myself up to die etc., my good wife suggested to me, one day, to try the CUTICURA REMEDIES, which were extensively advertised and used. I followed her suggestion, and am happy to say that the liberal application of your CUTICURA REMEDIES for seven months I was entirely cured, after spending five years of time and money without avail, and am a sound and well man to-day. You may refer to me if you wish, as I will tell any one who may call on me my experience.

C. L. PEARSALL.

SHINGLES:

VOL. XII. NO. 98. PETERBOROUGH, MONDAY, APRIL 27, 1891. PRICE TWO CENTS.

CASH HARDWARE STORE.

On and after 1st April we shall do business on a **Cash Basis.**

To cover the inevitable losses attendant upon a credit business, which accrue from amount of time spent in keeping accounts, collecting, bad debts, interest account, and in numerous other ways, larger margins of profit must be asked.

In these times cash buyers ask, expect, and are entitled to close prices. A careful consideration of the subject convinces us that the time has come for a cash business done on smaller profits.

The only customers who may possibly be put to inconvenience are those who have had long credits. In more ways than one it will be to their advantage to pay cash.

For convenience of our old customers who consider their accounts due when presented, we will call 30 days cash and render all accounts the first of each month, and we wish to say that will be happy to do business with them on those terms.

As the new departure is something of an experiment, what would be considered a close cash price will be made all through the stock. Not a few leaders only, but a general reduction in everything from the fourth flat to the cellar.

Our idea is to perform more than promised rather than promise more than can be fulfilled.

Our stock is large and varied, consisting of **Builders', Contractors', Household, Mechanics', Painters', Shoemakers', Farm, Mill, Factory, Lumbermen's, Sporting, Threshers', Cabinet-makers', and other lines of Hardware.**

An old saying:—"You should go to Kingan's where you can get anything from a Needle to an Anchor."

ALL GERMANY MOURNS.

THE DEATH OF COUNT VON MOLTKE A NATIONAL AFFLICTION.

Sincere Expressions of Regret Throughout the Empire—Further Details of the Demise of the Great Field Marshal—Arrangements For the Fune al Thursday.

BERLIN, April 26.—Count von Moltke intended to leave this city this week for the baths at Kudowa, where he expected to recruit his health. The Count was working daily on the plans for the fortifications of the Island of Heligoland, all the most intricate of these plans being drafted by the field marshal himself. The Empress visited the death chamber at 10 o'clock this morning and laid a magnificent wreath of roses upon the bier on which the great general rested. The Empress spent a quarter of an hour in trying to console the family for the loss which they have so unexpectedly suffered. Splendid floral offerings are arriving at the dead field marshal's official residence from all parts of Germany.

Still further details in regard to the Count's death show that after enjoying his supper in his official residence on the Konigsplatz he sat down and listened to musical selections which were played on a piano. He then took a hand in a game of whist, but during the course of the game he complained of feeling unwell, and placing his hand of cards upon the table he left the room.

The Count was immediately put to bed, but in spite of the efforts made to relieve him of what was considered for some time to be nothing more than a severe indisposition he soon expired.

Great crowds of people, respectful and sympathetic, surround the Count's residence and throng the streets. Many of the stores in the leading thoroughfares are closed and the city throughout is commencing to display emblems of mourning for the death of Germany's favorite soldier.

In the Lower House of the Prussian Diet today the President of that body, in communicating Count von Moltke's death to the representatives, said that the high value of the deceased's services to the Fatherland would cause universal sorrow and mourning to be felt throughout Germany at the loss that the Empire had sustained. "This," added the President, "convinces me that the House does not desire to proceed with to-day's business. Therefore, I propose that we adjourn until Monday, as a mark of respect to the dead." The President's proposition was unanimously adopted.

In the Upper House a laurel wreath twined with black and white satin ribbons hung over Count von Moltke's seat.

The Emperor telegraphed his sympathetic condolence to Count von Moltke's family, saying the Field Marshal's death was a greater loss to Germany than the loss of an army corps would have been. The Emperor has summoned all the princes and the crowned heads of the different German states to attend the funeral, which will take place Thursday next and will be attended by imposing military ceremonies. The body will be escorted in state from the Moltke residence to the railroad station, whence it will be taken to Creisau for interment. The ceremonies at Creisau will be quiet and without display, in accordance with the late count's wishes.

The remains will lie in state in the apartment in which the Count died until Thursday morning. The coffin will be surrounded with battle flags and will be in charge of a guard of honor. During the morning, by the Emperor's orders, the imperial standard was conveyed from the ante-chamber in the palace adjoining the Emperor's apartments to the room in which the remains of the dead soldier will lie in state. This was done as a special mark of the Emperor's favor and as showing how deeply he feels the loss which Germany has sustained in the death of the Field Marshal.

During the afternoon Lessing, the sculptor, took a plaster cast of Von Moltke's face.

Count von Moltke died without showing the slightest sign of pain, a death which he had often wished for, remarking: "How beautifully men die that die in a swoon!"

The body of the late Count was viewed by the public to-day from noon until 5. The bier is of yellow oak and draped with white silk, embroidered with silver, and a coverlet designed by deceased for the purpose covers the body as far as the breast. The Emperor has ordered the army to go into mourning for eight days.

TORONTO TOPICS

TORONTO, April 27.—It is reported that the Meteorological Office, together with the Observatory, will shortly be removed to Ottawa.

A man named N. M. Anderson, residing at 229 Beverley-street, died at the supper table Saturday night.

Saturday at the Criminal Assizes was a day of sentences. All the prisoners convicted during the week were brought before Mr. Justice Street and sentenced to various terms of imprisonment. William McMillan, convicted on one charge of forgery, in view of the fact that it was his first offence got off with a year in the Central Prison. George McPhaden, convicted on his own confession of stealing a watch, was allowed to go on his own recognizances to appear when called upon.

The heaviest sentence was passed upon William Hayes, the man convicted of a criminal assault on Minnie McKenna, the full particulars of which have been published. Hayes was sentenced to the highest penalty permissible by law, namely, seven years in the Kingston Penitentiary.

The Ontario Rugby Union held its adjourned annual meeting Saturday afternoon in the Rossin, President Ed. Bayly in the chair. There were present these delegates:

Sarnia, S. F. Houston; London, A. H. Campbell; Stratford, A. W. Ballantyne; Varsity, H. Pope, W. Bunting; Ontario, W. Carleton, J. Pottinger; Osgoode Hall, G. E. Biggar; Ottawa, W. McKay; Queen's College, D. Robertson; Trinity College, H. H. Bedford Jones; Toronto, A. H. Marsh.

Notices of motion to have the number of players reduced from 15 to 12 a side, and to have an umpire and referee in all matches, were withdrawn.

A cablegram received by Major Culville, military secretary to the Governor-General, from British headquarters says there was nothing approaching mutiny in the Grenadier Guards, merely a slight failure in discipline, which had been grossly exaggerated.

Mrs. Josephine Barnaby, widow of a Providence, R.I., millionaire, and Mrs. G. S. Warrell, wife of a prominent Denver real estate agent, have been poisoned to death by a small flask of whisky sent to them with this inscription: "With best wishes accept this fine old whisky from your friends in the woods."

THE NEWS OF EUROPE.

REBELLIOUS MANIPURIS NOW SUING FOR PEACE.

A French Duel—One of the Combatants Shot in the Chest—The Queen at Grasse Died of Starvation Although Worth Half a Million Dollars.

SIMLA, April 26.—British forces advancing on Manipur met and engaged a force of about 1000 Manipuris on the 23rd instant. The latter commenced hostilities by opening fire upon the British column. The latter replied with the fire of their field artillery and the enemy fled in disorder. Several messengers from the tribesmen have arrived in the British camp suing for peace for the insurgents.

The British forces continue their advance unchecked upon Manipur. As the British troops advance the rebels abandon their villages and retreat upon the first volley of the advancing columns.

PARIS, April 26.—Queen Victoria is one person in England, another person abroad. She keeps her pleasant manners for the foreigners. At Grasse she is the sweetest, kindliest and most unaffected of old ladies. Her sunshade is never before her face when she takes carriage airings. She often steps out on the balcony of her sitting-room windows, which look upon the high street, and she shows herself to the infantry band, which up to the day on which she received the intelligence of the massacre at Manipur came daily to play for her in the garden of the hotel where she is staying. The royal carriage is stopped when children on the roadside offer flowers for sale or country women for kindness. Little tea parties are given, to which the local officials, the officers of the regiment in attendance as a guard of honor and their wives are invited. Since the news of the Manipur affair the Queen's spirits are not so good. Her heart is in India. This is shown by the extraordinary favor enjoyed by her Indian servants, of whom she now has three. They attend her in the grounds of the hotel and wait in the anteroom when she is indoors. They are also constantly in attendance in the sitting-room.

A STRANGE CASE.

A Woman's Mind Turned by Her Great Good Fortune.

LONDON, April 26.—Driven insane by the joy that followed her knowledge of having fallen heiress to $600,000 left by a wealthy relative who had died intestate, poor Martha Spencer of East London, an indigent laborer's wife, was debarred by her mania from taking the fortune. The wife, while a lunatic, shortly died of starvation because her condition kept the wealth away from her.

Frightful Tragedy at Pressburg.

LONDON, April 26.—A Berlin dispatch tells of a horrible tragedy at Pressburg. The wife of Herr Kutzkar, a member of the council of that city, became wildly insane, and having cut the throat of her daughter, she burned her body on the hearth of their dwelling, and then proceeded to set fire to herself with a view of destroying herself with her daughter. The neighbors were attracted to the scene by the shrieks of pain which the woman could not suppress, and they promptly extinguished the flames and handed her over to the police.

Sugar Poisoning Affair in Scotland.

GLASGOW, April 26.—A woman named Cramb died on Saturday at Crieff, Perthshire, from arsenic contained in sugar. How the poison got into the sugar is still a mystery. The woman's husband died on Friday night from the same cause. Fifty people are suffering.

"CHUB" COLLINS A DECEIVER.

A Well Known Baseball Man Sued for Breach of Promise of Marriage.

DUNDAS, April 26.—Charles Collins, hotelkeeper, better known as "Chub" Collins, baseball player and umpire, is being sued by Miss Phoebe Smith, who was employed for some time in the Dundas Cotton Mills, but who is now a resident of Hamilton, for breach of promise. Everybody who has ever taken an interest in baseball knows "Chub" Collins. For many years he was a member of the Hamilton team, and since he retired from active part in the game as a player he has acted as umpire in the International as well as in some of the larger leagues.

LIGHT CUT INTO CLOSED EYES.

Rare Optical Surgery to Give Sight to a Little Girl.

COLORADO SPRINGS, April 24.—Born with her eyelids firmly closed, 6-year-old Myrtle Highee of Denver yesterday underwent a marvelous operation in optical surgery at State School for the Deaf and Blind here. After administering an anæsthetic the surgeons carefully dissected her eyelids, parting them with a scalpel and forceps until the eyeball was reached. It was found then that the eye was turned very much inward. The cornea was slightly opaque and flattened. The eyelid was firmly adhered to the surface of the eyeball by fibres of connective tissue, and these had to be cut one at a time until the eyelid could be turned back. If further adhesion can be prevented the child has a very favorable chance of getting much more light, probably enough so that she will be able to distinguish the larger objects and can avoid running into them.

EVERY MAN FOR HIMSELF.

From the Giddy Dance to the Eddy of Death.

ST. JOHN, N.B., April 24.—At low tide the water in St. John harbor runs out like a mill race, and just at Reed's point peer where the steamer Dominion lies are the swiftest eddies. A boatload of men and girls upset at this place this morning about 3 o'clock and two were drowned, the others being rescued with great difficulty. The young people had been attending a dance in Carleton. The gunwale of the boat struck the bow of the steamer and in a moment capsized. Lines were thrown from the steamer and the most terrible confusion ensued. The men fought amongst themselves for ropes and while the girls, seated in the stern, were shrieking for help, a couple of these stalwart cowards fastened lines to themselves and were hoisted up. Two of the girls, Ethel Allen and Nellie McAllister, were drowned

Suddenly Summoned

PRESTON, Ont., April 24.—Henry Hagey, ex-reeve of the village, returned from a walk yesterday apparently as well as usual. He entered an adjoining room to prepare for dinner. Shortly after Mr. Maurice Hagey, hearing a noise, entered Mr. Hagey's room, when he was shocked to find his grandfather lying on the floor quite dead. Mr. Hagey was born in Pennsylvania 89th

Children Cry for Pitcher's Castoria.

LIKE LONDON'S FIEND.

THIS MURDER AND MUTILATION SUGGEST THE "RIPPER'S" WORK.

The Victim Old Enough to be Her Bloody Assassin's Mother—Strangled to Death and Then Horribly Hacked—The Knife Left in the Apartment of Death.

NEW YORK, April 26.—Police detectives, working under the personal supervision of Chief Inspector Byrnes, were straining every nerve yesterday in a search for the human butcher who murdered old Carrie Brown in the lodging house at Catharine and Water-streets, and mutilated her corpse as "Jack the Ripper" mutilated the bodies of his victims in the Whitechapel district of London. When asked if he thought that the murderer of Carrie Brown was the real "Jack the Ripper," he replied: "I can't say."

The murderer is believed to be a madman, with the cunning and nerve which often accompany insane delusions. There are now about 18 men and women in custody detained as witnesses, but the actual murderer is still at large.

Deputy Coroner Jenkins performed an autopsy upon the body of Carrie Brown at the Morgue yesterday morning. He found that the woman's death had been caused by strangulation. Her body had been mutilated immediately after death and the murderer evidently had carried away a portion of the viscera.

The dead woman was known among those of her class as Carrie Brown, alias Jeff Davis, alias Shakespeare. She first came to New York 15 years ago, taking up her residence in the Fourth Ward. She was a hard drinker, but was well liked by her associates because of her free-handed liberality and her superior intelligence. Her maiden name was Caroline Montgomery, and she married when quite young a sea captain named James Brown and lived in Salem, Mass., where Brown died, leaving his wife in comfortable circumstances. Two of her daughters, Ellen and Annie Brown, live there still. It has not been learned why Mrs. Brown left her home to take up a degraded life. When Mrs. Brown was not on the Island she was an inmate of an institution in the city where she sometimes went to recuperate from the effects of her sprees, and her expenses here were paid by a relative named Lawson, who resides in Salem. She returned from her last trip to the Island only a few days before her death.

Inspector Byrnes at 9 o'clock this afternoon arrested the second engineer of the Red "D" Line steamer Philadelphia lying at her pier on the East River at the foot of Market street. The description of the man corresponds almost identically with the murderer of Carrie Brown.

Detailed Story of the Murder.

The scene is laid in a squalid, foul little room on the topmost floor of a vile resort known as the East River Hotel, on the southeast corner of Catharine Slip and Water-street. The entrance to the place is through a narrow hallway on the Water-street side. It was through this that a man and woman passed at 10:30 Thursday night. The woman was slight, with gray hair and small irregular features, appearing to be considerably past 50. Over her head was thrown a shawl and and an old black skirt and waist completed her attire. She was a typical specimen of the poor creatures that frequent the lower East side slums.

Her male companion looked not over 35. In build he was slight, about 5 feet 8, with light complexion, sandy mustache, sharp features and a prominent nose. He wore a high crown black derby hat with its top slightly crushed in, and was attired in a brown cutaway coat and trousers of some dark material. The couple were met at the door by the housekeeper, Mary Minter, who declares the man had a German accent. The old woman asked for a room, at the same time handing the housekeeper a dollar, receiving fifty cents in change.

"What if your name?" enquired the girl, addressing the man.

"Knicle," he answered, without looking up, and this was the only word he was heard to utter. Mary Minter then passed into the adjoining barroom, where Clerk Sam Stine entered the names on the register and assigned the couple to room 31.

"Go and get us a pint of beer," said the old woman.

"Wouldn't you prefer ale?" asked the housekeeper.

"Yes, mixed ale—ale is the proper drink for ladies and gentlemen," she replied. The ale was procured, which the old woman carried, preceded by her companion, who held aloft a sputtering candle as they stumbled up the rickety stairs to room No. 31. It is a corner room, with a window facing Water-street and another looking out on Catharine-slip. Like the other forty apartments in the house, it is black with filth. In the southwest corner stood a narrow wooden bedstead, on which was a greasy mattress, a pillow and a torn coverlet. Near the bed stood a rickety little washstand. It was into this hovel of filth and wretchedness, that was soon to be turned into a slaughter pen, that the woman and her companion passed, and not a sound was heard there or a person seen to emerge from the room during the night.

At 9:30 Friday morning James Fitzgerald, the day clerk, pushed open the door of No. 31 to rouse the occupants. A sight met his horrified gaze that will not be effaced from his memory for many days. Lying on her right side, naked from the shoulder down, lay the old woman, dead. Her body, the quilts and mattress were soaked in blood, while a crimson stream had trickled down the side of the bed forming a dark pool that spread for some distance over the floor. The head and neck were wrapped in fold after fold of the woman's undergarments and apron. She had been completely disemboweled, the cut extending from the middle of the abdomen down through the length of the abdominal cavity, ending at the back. On the left hip the fiend, by a dexterous stroke of the knife, had carved a cross. The right arm doubled under the body, the hand standing out as if held there by the murderer while doing his brutal work. There was still another cut on the right breast, and from the discoloration of the face and bandages tightly bound round the neck it was plain that the victim had been strangled to death.

A messenger was dispatched to the Oak-street station and Captain O'Connor with two officers repaired to the scene. A careful search of the room disclosed the knife with which the crime was committed. It was an ordinary steel table knife, with the blade cut diagonally in the shape of those used by shoemakers. This with a small reticule made of cretonne and two pairs of spectacles, was taken to the station house. An officer was left on guard. Mary Minter was sent to the House of Detention as a witness. Mary Healy, a companion of the dead woman, who occupied room 12 during the night of the murder, was found there in a beastly state of intoxication and locked up at the station house, but was too drunk to talk late last evening.

Coroner Schultz, with his assistant, viewed the remains early in the afternoon. In removing the bandages from the woman's face and neck he was obliged to cut them, the knots being so firmly tied as to make it impossible to loosen them. The expression of the face was one of great agony and the knees were drawn up, while the gray hair was in tangles about the ghastly face.

The assassin must have done his work quietly, as the slightest noise can be heard through the thin partition that divides the room from the adjoining one.

It was noon before Police Headquarters appreciated the gravity of the situation. Inspector Williams then went direct to the scene of the murder, and the machinery of the Police Department began to move. The inspector characterized it as a crime without a motive. Captain O'Connor said it was a crime with a motive. He claimed to know the woman, saying that she had two daughters, one of whom was about 35. The dead woman was known among her associates as "Shakespeare," but had never been seen at the East River hotel until the night of the murder.

Detective McCloskey, who is detailed on the case, was in London at the time "Jack the Ripper" was terrifying that city, and went minutely into the details of the crimes committed, so that his work in the present case is expected to prove particularly valuable. Late in the afternoon the body was placed in a pine box, together with the clothing, which is said to be such as is worn by women on the Island, and removed to the morgue.

A doctor who viewed the corpse said some parts of the body were missing, which makes the resemblance to the Whitechapel crimes even stronger. The location, too, could not have been more aptly chosen. Within sight are the very worst dives to be found in the city. Outside of the house where the deed was done are the rickety buildings, the narrow alleys, the crowd of filthy men and women that characterized the Whitechapel district. A short distance away are the noted Cherry-street, Mullin's-alley and Blind Man's alley dives. In the hotel where the crime was committed murder was done some years ago, when a bartender named Thompson shot a man there. Since that time another man has been stabbed in the hotel, and minor crimes, almost without end, have been perpetrated behind its door. James Jennings is said to be proprietor of the bar and John Thompson of the lodgings.

The murdered woman was called "Shakespeare" because of her habit of correcting those who spoke ungrammatically. A reporter learned that she had been living at No. 49 Oliver-street with Mamie Harrington and two men, one of whom, a Greek, was known as "Frenchy." Mrs. Harrington said: "I have no doubt the murdered woman was the one who lived with me. Her name is Carrie Brown. She was born at sea and is 60 years old, and came from the Island three weeks ago."

The scenes in the streets on Cherry Hill last night very closely resembled there of the Whitechapel district when London was scared by the "Ripper." All night long crowds gathered in front of the East River Hotel, and the police were kept busily engaged in preventing them from taking possession of the place. Women of all grades in the quarter between Cherry Hill and Water-street, and of all ages, were in the streets curiously scanning everybody that passed, and particularly the detectives, who simply swarmed in the district.

In Bleaker-street, Little Twelfth-street and other notorious haunts of unfortunate women patrolmen were plentifully distributed. There was in some places a great falling off in the number of strollers, but whether or not the absent ones had been drawn away to Water-street by curiosity could only be conjectured. In the slums generally one heard at every step that one name of terror, "Jack the Ripper," and fears are entertained that if Inspector Byrnes does not accomplish a crowning work by effecting the capture of the assassin he will have still other victims in New York.

BEHRING SEA DISPUTE.

Hearing in the Supreme Court Postponed Until October.

WASHINGTON, April 26.—The case of the schooner Sayward, involving the question of the jurisdiction of the United States over the seal fisheries in Behring Sea, set for hearing in the United States Supreme Court on Monday, has been postponed until Oct. 19 next. Counsel for both sides were ready to proceed Monday, but the court desired that both cases be heard by a full bench, which the illness of Justice Bradley at present renders impossible. The briefs of both sides have been made public. They are documents of nearly 200 pages each and there are also copious appendices. The argument on each side may be divided into two parts, viz.: First, legal argument involving the right to bring the case before the court in the rather unusual form of a writ of prohibition; and second, a politico-legal argument involving the relations between the legislative, executive and judicial departments of the Government and the binding force upon the judiciary of a decision by the Executive as to the jurisdiction appertaining to the United States.

The First Sod Will be Turned on Tuesday Next.

WINDSOR, April 26.—At a meeting held in the parlors of the Crawford House yesterday, the Michigan & Canada Tunnel Company was organized and directors elected, and it was decided to at once proceed with the construction of a tunnel under the Detroit River from Windsor to Detroit. Among the shareholders present were James Ross of Montreal, D. O. Bliss of New York and A. Onderdonk. The Michigan Central and Canada Southern roads were represented by their solicitors. The only information they would give to the public was that they had decided to begin work on the tunnel at once, and that many American and Canadian capitalists are interested in the success of the project. Chief Engineer Hawks of the Michigan Central announces that the first sod of the tunnel will be turned on Tuesday next at 11 a.m. on the Canadian side of the river.

Opening of Parliament.

OTTAWA, April 28.—The opening of Parliament is fixed for Wednesday. The business that day will, however, be confined to the swearing in of members and the election of a Speaker. The former ceremony will take place in the morning and the latter in the afternoon. The Governor-General will not be present on Wednesday, but will be represented by the Deputy-Governor. The formal opening will take place on Thursday.

National League Games Saturday.

Blown Up by a Torpedo.

IQUIQUE, Chili, April 26.—The warship Blanco Encalada, which was one of the vessels seized by the rebels at the breaking out of the insurrection, was sunk on April 23 in Caldera Bay by a torpedo fired by the new gunboat Almirante Lynch. The destruction of the ironclad was attended by great loss of life, 200 persons, comprising half of her crew, being killed by the explosion of the torpedo. The Congress party are now in possession of Caldera and Carrizal.

Big Price For a Trotter.

DUBUQUE, Ia., April 25.—High and Stock Farm to-day sold to ex-United States Senator Angus Cameron of Lancrosse, Wis., the two-year-old colt Oh So, for $12,000. Oh So is a son of Nutwood (2.18¾), out of So So (2.17¼); by George Wilkes; second dam Little Ida, by Edwin Forrest. He will head the stud at the Cameron Farm, near Lacrosse.

Died at the Breakfast Table.

KINGSTON, April 26.—George Fry, aged 66 years, died very suddenly Saturday at Deseronto. On his way to the breakfast room he complained of being ill and in an hour he was dead from heart failure.

Fire in Welland.

WELLAND, April 26.—About 11 o'clock yesterday fire destroyed a large brick dwelling in Welland, owned by David Bald. The house was valued at $5000 and insured for $1600 in the Waterloo.

The Babe and the Bottle.

SARNIA, April 26.—Florence, the 3-year-old daughter of Frank Smith, obtained possession of a bottle of ammonia and drank the contents. There is a possibility of her recovery.

Don't Feel Well.

And yet you are not sick enough to consult a doctor, or you refrain from so doing for fear you will alarm yourself and friends—we will tell you just what you need. It is Hood's Sarsaparilla, which will lift you out of that uncertain, uncomfortable, dangerous condition, into a state of good health, confidence and cheerfulness. You've no idea how potent this peculiar medicine is in cases like yours.

ATTRACTIONS IN
DRY GOODS
AT
TURNBULL'S.

The change in the weather has brought with it a great demand for Millinery, also for Spring Shades in Dress Goods. Our store was never more attractive in these lines than at present. We have every new and desirable shade in stock with Millinery to match. If you are in town this week, have a look at our Grey Dress Goods and Millinery Window. Large Grey Checks for young people to be made up alone or mixed with Black. Small Black and White Checks and Stripes (broken patterns,) for older people. Goods that are hard to find, in neat patterns.

We justly claim to take the lead in our Tailoring Department for quality of goods, fit and price. We get up a splendid suit, in Halifax tweed or navy serge, for $12.00. Fine grades of Almonte and other makes of tweed for $13.00, $14.00, $15.00 and $16.00. Scotch tweeds and serges from $16 to $20 for the best. Fine all Venetian finish or diagonal cords for coat and vest, with black or fancy pantings to match, at from $19 to $22 a suit. Remember our prices. Call and see our stock, and do not pay a great deal higher figure through force of habit.

We have added this week to our already attractive stock of Boys' Clothing, another shipment just turned out of the manufacturers' hands, neat and new styles.

We show now an immense range of patterns in cottonades and shirtings, in the best quality.

We also keep all the lower lines, beginning at 5c. for shirtings and 12½c. for cottonades.

We have an opening now for an apprentice in the millinery department. Apply until Saturday.

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

ARE NOT a Purgative Medicine. They are a BLOOD BUILDER, TONIC and RECONSTRUCTOR, as they supply in a condensed form the substances actually needed to enrich the BLOOD, curing all diseases coming from POOR and WATERY BLOOD, or from VITIATED HUMORS in the BLOOD, and also invigorate and BUILD UP the BLOOD and SYSTEM, when broken down by overwork, mental worry, disease, excesses and indiscretions. They have a SPECIFIC ACTION on the SEXUAL SYSTEM of both men and women, restoring LOST VIGOR and correcting all IRREGULARITIES and SUPPRESSIONS.

EVERY MAN Who finds his mental faculties dull or failing, or his physical powers flagging, should take these PILLS. They will restore his lost energies, both physical and mental.

EVERY WOMAN should take them. They cure all suppressions and irregularities, which inevitably entail, chronic when neglected.

YOUNG MEN should take these PILLS. They will cure the results of youthful bad habits, and strengthen the system.

YOUNG WOMEN should take them. These PILLS will make them regular.

For sale by all druggists, or will be sent upon receipt of price (50c. per box), by addressing

MONDAY, APRIL 27, 1891.

The Health of the Town

The Medical Health Officer's Statement.

To the Editor of the Examiner,

SIR,—The town has been so free from infectious disease in recent years that the occurrence of a few cases of diphtheria excites alarm and gives rise to many misstatements and exaggerations. Allow me, then, to give the exact condition of affairs at present as regards infectious diseases of the graver kind. There is not a single case of scarlet fever in town or village. I am not aware of any case of pure typhoid fever. Diphtheria exists in only four houses and the patients are nearly all well. No new case has been reported for several days. Five deaths have unfortunately occurred in the last month, but the majority—I may say all—were in families to whom no sanitary neglect, public or private, could be imputed. It is easy to say that the Board of Health should take active measures or that the Town Council should put in a drainage system at once, but as a matter of fact diphtheria occurs in the best drained towns and in the most carefully conducted families. It is a disease more similar to typhoid fever than to any other in its mode of propagation. It is not carried in the clothes—to use a common expression—like scarlet fever or smallpox. Although not well understood even by the highest authorities, it seems to be due to the coincidence of certain conditions. During the present spring, throat affections have been prevalent, such as common colds, la grippe, quinsies, mumps, measles, scarlet fever, all more or less affecting the throat, and it has invariably been found that under such conditions some cases will take on the diphtheritic form, especially when the system is susceptible.

Regarding the West Ward School, about which so much has been said: The condition of the building and premises is not responsible for the cases in the vicinity. They would have occurred had the school been a mile away. I inspected the building and found it in a good sanitary condition. I analyzed the water and found it very good. The privies are not at fault, although to make assurance doubly sure, the board are about to construct others. There is very little water in the cellar, but the mere fact of its being damp is not dangerous to the health of the scholars. In private houses where there is decaying animal or vegetable matter in damp cellars there is a good deal of risk.

Then as to the means taken to prevent the spread of the disease. Let anyone put his nose into one of the infected houses and he will soon find out whether anything is being done to check it. Never before have isolation and disinfection been so thorough. The question as to whether the father of a family should be allowed to go on with his work is an important one. I have always taken the stand that bread winning should be interfered with as little as possible, providing no danger is incurred. It is bad enough for a poor man to have diphtheria in his family without being forced to remain idle for a month, but that is not the question. I do not think a man should work among children, and here let me correct another misstatement that has gone abroad, namely, that the caretaker of the West Ward school has continued his duties the same as before diphtheria occurred in his family. The truth is he was stopped at once and another man put on, his son, it is true, but who lives in another place altogether. I can see no objection to a man working—say in a foundry—provided he uses such precautions as he is sure to use for his own sake. Of course, there are some nervous persons who believe that too much cannot be done when a case of diphtheria appears. They think schools and even streets ought to be shut up and that furniture, clothing, even the house itself should be burned to ashes. A few years ago a fatal case of diphtheria occurred at a leading hotel in town. The Health officer was soundly abused because the house was not placarded at the front door and thus practically shut up. Think of the danger to the town and travelling public, people sain. What was done was to put the child in a remote room, isolate and disinfect thoroughly, use all possible precautions and the result justified the means used, for not another case occurred. When a case of smallpox appeared here some years ago the Board of Health rose to the occasion and soon stamped it out, but diphtheria is a totally different disease, and cannot be driven out by so-called vigorous measures. It is the result of many conditions slowly operating together, and all that can be done is to keep the town up to the sanitary standard as far as possible and hope for the best. In Toronto the Board of Health spend $15,000 or $20,000 a year, and yet they have far more diphtheria and typhoid fever in proportion than we have.

Let me here give a hint or two to those who are bringing up small children where diphtheria is prevalent. Boil all water and milk. I don't mean to say that our supply of either is impure, but it is best to be on the safe side. Avoid depressing influences. A child is glad to get out in the early spring and will play till he is fatigued, inhaling, at the same time, a good deal of irritating dust. He then comes in and lies down in a cool place. It is in these moments of languor and depression that the germs of disease make headway. At the same time everything about the house should be kept in good sanitary order, and I should here call attention to the provisions of the Health Act, which require that all yards and premises be thoroughly cleaned out by the 5th of May. The inspectors will soon be on their rounds and will show no mercy to offenders.

At this point in the history of the town it is unwise to discuss health matters in the newspapers as it gives the impression that the town is unhealthy which is utterly untrue. At the same time when glaring misstatements appear in point is to important that they should be contradicted.

Yours, etc.,
J. CLARKE.

April 25, 1891.

P.S.—Since the above was written, (Friday night) no new cases of diphtheria have been reported, and those existing are rapidly improving.

J. C.

For nearly half a century Ayer's Cherry Pectoral has been the most popular cough remedy in the world. The constantly increasing demand for this remedy proves it to be the very best specific for colds, coughs and all diseases of the throat and lungs.

Miller's Emulsion of Cod Liver Oil is prepared by a new process and will keep in any climate. Be sure and ask your druggist for Miller's Emulsion and take no other. dw

Children Cry for Pitcher's Castoria.

Codfish Rights.

(Continued from Third Page.)

This enactment had not been long in operation before England and France were again at war, and when hostilities ceased, the British power in America was stripped almost as easily as, twenty years before, the French had been. It came to the convention of Paris in 1763 arrogant and victorious. It came to that of Versailles in 1783 beaten and subdued. Involving, as this treaty did, American issues almost entirely, it was but natural that the fisheries question should receive close attention. None of the earlier arrangements had proved effectual in removing causes of jealousy and strife between the fishermen of the two countries. They had encroached upon each other's territories, had quarrelled about the best supplies, and, lacking other occasions of dispute, had warred for the love of warring. The framers of the Treaty of Versailles were at much pains, then, to provide against all kinds of friction, and as this treaty is the one now being debated by the statesmen of Downing street and the Quai d' Orsay, its terms are here recited in detail. First, the cession of St. Pierre and Miquelon was confirmed under the conditions originally imposed. Then the boundaries of the French shore of Newfoundland were altered, and it was made to include all the northern and western coast-line, about 900 miles long, from Cape St. John to Cape Ray. In the waters beyond that shore the French were to be permitted to fish, and upon it they had full liberty to land for the purpose of curing and drying their fakes. Here the treaty makers stopped, and had the end they made been left as they left it, the controversies of to-day would be much simpler and much less difficult of adjustment.

KING GEORGE'S STUPID DECLARATION.

There was nothing in the treaty that gave the French exclusive right, or warranted the inference that the shore was to remain at their option a desert wilderness. But the royal George felt it incumbent upon him, when the drafts of the treaty were exchanged, to declare how he would construe it, and the question to-day is how to construe his construction. He accompanied the announcement of ratification with a statement which in international law has all the effect of the treaty itself and here it is:

"In order that the fishermen of the two nations may not give cause for daily quarrels, his Britannic Majesty will take the most positive measures for preventing his subjects from interrupting in any manner, by their competition, the fishery of the French during the temporary exercise of it which is granted to them upon the coast of Newfoundland; but he will, for this purpose, cause the fixed settlements which shall be formed there to be removed. The method of carrying on the fishery which has at all times been acknowledged shall be the plan upon which the fishery shall be carried on there. It shall not be deviated from by either party."—Harper's Weekly.

Artistic Photographers.

A few of our Canadian cities can boast of Photographers who can compete successfully with any in the world, as far as beautiful and finely finished Photography is concerned. Of course such Artists are largely patronized by those who value good work, and who pay no more for it than the ordinary Photographer would charge.

Every passing day adds hundreds of consumers to the list of those who use only Diamond Dyes for home dyeing. They sell at ten cents per package, and always color more goods and do it in such a satisfactory manner, that the operator is delighted and happy. No dull colors; no loss of goods; no time lost, and you are always able to recommend them to friends.

Do You Cough?

Don't delay. Take Kemp's Balsam, the best cough cure. It will cure coughs and colds. It will cure sore throat, or a tickling in the throat. It will cure pains in the chest. It will cure influenza and bronchitis and all diseases pertaining to the lungs, because it is a pure balsam. Hold it to the light and see how clear and thick it is. You see the excellent effect after taking the first dose. Large bottles 50c and $1. dw

Why Not Treat.

Why not treat such troubles as boils, pimples, blotches, sores, humors, eruptions, rashes, skin irritations, etc., with Burdock Blood Bitters. It is filled with virtue as a blood purifier and goes right to the right spot. It makes the skin bright and clear, while also invigorating the entire system. 1w18-d

A Winnipegger's Opinion.

The following is taken from a letter from Mr. D. Davis, Winnipeg, Man.: "Being persuaded to use Hagyard's Pectoral Balsam for a troublesome cold, I was entirely cured by the use of two bottles." 1w181

Supposing.

Supposing you suffer from some disease. Suppose it is dyspepsia or biliousness or constipation or bad blood. Suppose you learn that Burdock Blood Bitters has cured thousands of cases of these and similar complaints. Don't you suppose you ought to try? It cannot harm you and in nine cases out of ten it cures. 1w181

It Does Its Work.

Mrs. James Dix, Brock street, Kingston, Ont., says: I suffered with an inflamed throat and bad cough for seven months. Was treated by physicians without success, when six doses of Miller's Emulsion of Cod Liver Oil cured me. It's as palatable as cream. For sale by all druggists. dw

Once Used, Always Used.

This is a fact as regards Dyer's Jelly of Cucumber and Roses, from its wonderful efficiency in curing chapped hands, and making the skin smooth and soft. Druggists keep it. W. A. Dyer & Co., Montreal 3d92

A MAN'S wife should always be the same, especially to her husband, but if she is weak and nervous, and uses Carter's Iron Pills she cannot be, for they make her "feel like a different person," so they all say, and their husbands say so, too! dw

Twelve years trial in English climate, with increasing demand, proves the Royal Rheumatic Remedy to be the best remedy for rheumatism. For sale by W. R. Greatrix, druggist. dw

A Fact

WORTH knowing is that blood diseases which all other remedies fail to cure, yield to Ayer's Sarsaparilla. Fresh confirmation of this statement comes to hand daily. Even such deep-seated and stubborn complaints as Rheumatism, Rheumatic Gout, and the like, are thoroughly eradicated by the use of this wonderful alterative.

Mrs. R. Irving Dodge, 110 West 125th street, New York, certifies:—

"About two years ago, after suffering for nearly two years from rheumatic gout, being able to walk only with great discomfort, and having tried various remedies, including mineral waters, without relief, I saw by an advertisement in a Chicago paper that a man had been relieved of this distressing complaint, after long suffering, by taking Ayer's Sarsaparilla. I then decided to make a trial of this medicine, and took it regularly for eight months. I am pleased to say that it effected a complete cure, and that I have since had no return of the disease."

Mrs. L. A. Stark, Nashua, N. H., writes: "One year ago I was taken ill with rheumatism, being confined to my house six months. I came out of the sickness very much debilitated, with no appetite, and my system disordered in every way. I commenced to use Ayer's Sarsaparilla and began to improve at once, gaining in strength and soon recovering my usual health. I cannot say too much in praise of this well-known medicine."

"I have taken a great deal of medicine, but nothing has done me so much good as Ayer's Sarsaparilla. I felt its beneficial effects before I had quite finished one bottle, and I can freely testify that it is the best blood-medicine I know of."—L. W. Ward, Sr., Woodland, Texas.

Ayer's Sarsaparilla,
PREPARED BY
Dr. J. C. Ayer & Co., Lowell, Mass.
Price $1; six bottles, $5. Worth $5 a bottle.

You Want to Buy a Home

And bear in mind you are making one of the mistakes of your life by delaying, because no one man can fail to see that new and extensive Manufacturing Industries, new Railway Extensions, the development of the mineral wealth of our back country and the early commencement of work on the Peterborough and Lakefield section of the Trent Valley Canal, cannot fail to force our fine town into the front rank as one of the leading cities in Ontario.

This being the case, is it wise for you to continue to rent if it is possible for you to buy, and a very moderate amount of money will enable you to do so.

I have Lots at all prices and in all parts of the town with special maps for speculators, on the line of the canal from $50 up.

Houses and Lots in quality, location, price and terms to suit all buyers. Do not delay. Come and see me if you want a good property at a low price.

TIME TO US MEANS MONEY.

THE TRIPLE ALLIANCE AT WORK! WE BUY BIG TO SELL MORE!!
THE OPENING GUN OF THE CAMPAIGN OF THE TRIUMVIRATE!!

SPOT CASH has saved a wholesale firm from bankruptcy; a colossal sale effected in an emergency has kept the assignee from the doors! And how! Here is a business story made up of business facts, and related by business people as a matter of business. Isn't it your business, you hard working, toiling men of industry, to take in the above business!

GOUGH BROS., of Peterborough, run their own show. They have no connection with the Gough Stores in Toronto and Brantford. But for a purpose there lies strength. The head of a wholesale house in difficulties required money—had to sell. One man's extremity is another man's opportunity. Goughs, of Peterborough, Toronto and Brantford, pooled their energies, backed with cash, and, by so doing, carried the day, and captured at a bargain $68,000.00 worth of Clothing, Furnishing Goods, Hats and Caps, Boots and Shoes.

Have you an idea what it means to handle this bonanza; and, mind you, handle it to take the balance of the purchase money out of it by May 24th? You haven't. We have. And now we begin to push the biggest, brightest, most daring effort of our business career. Will you help us and benefit yourself! You will, for common sense tells you that, in order to do well for ourselves, we must do better for you.

We Push for a Purpose! ☞ Here are a few Diamond-Bitted Pointers:—

All Men's $16.00 $14.00 $12.00 $10.00 SUITS Go For $8.00

All Men's $8.00 $7.00 $6.00 $5.50 SUITS Go For $4.90

All Boys' $4.50 $4.00 $3.50 $3.25 SUITS Go For $2.90

Men's Fine Cordovan Shoes at $5.00, $4.50, $4.00, $3.75, now offered for $2.90. All $2.00, $1.75, $1.50 Boots go for $1.10.
The same reduction applies to Ladies' and Children's Wear.

The prices of our Hats we will not quote here, as the high priced hatters would be completely knocked out and discomfited.

Just ask for hats and you will get a start. Buyers! Wearers! Customers! We want you to believe a strong statement. It is no stronger than the facts warrant. We fire to the third storey all compunction and reserve, and frankly tell you of our position. We sacrifice profit that we may meet our engagements and keep the name of GOUGH BROS. as the one firm, the Napoleons of Business, who can plan, carry out and consummate the biggest business, the biggest business scheme to place the best goods in every man's hands for less money than ever before.

CHANGE IN BUSINESS.

I beg to announce to my late customers that I have sold out my business to Messrs. Hilliard & Peplow, and I would bespeak for them the same support as has been accorded me.
C. N. BROWN.

ANNOUNCEMENT.

For some time past we have thought a strictly cash business in Flour, Feed and Provisions could be successfully carried on in Peterborough, and to test this question, we have purchased the above business from Mr. C. N. Brown who will still continue as manager in Flavelle's old stand, Simcoe street.

In order to be successful we intend to make it the interest of everyone to pay cash with order by selling at wholesale prices.

We will positively give no credits and cash customers will not have to keep up the losses made by others on the credit system.

We will keep a full supply of the very best quality of Flour, Feed, Chop, etc., and our customers need not fear that the quality of the goods will be lowered to make up for the reduction in prices. We are simply giving them the benefit of the margin necessary to cover losses and interest charges incurred on the credit system.

Goods delivered to any part of the town or Ashburnham.

CODFISH RIGHTS.

Will the Newfoundlanders Get Their Demands.

A KNOTTY QUESTION.

History of the Island for Two Hundred Years—A Case Where Statesmanship and Forbearance Will Both be Necessary to Prevent Trouble.

NEWFOUNDLAND'S griefs and perplexities have held continuously for many months a large and conspicuous place in the attention of three nations. They constitute probably the gravest, and certainly the most difficult, problem now pending in the British Foreign Office. To the colonists they are literally a matter of life and death. The situation is unique. No intelligent and self-governing people anywhere are so cruelly embarrassed. Their plight, indeed, is practically that of commercial paralysis; for with rich and abundant resources, to which their title is unquestioned, directly available; with mines of coal, iron, copper, and gypsum ready for operation; with vast forests overgrown and fortile soil hungry—all enterprise is stayed, all effort forbidden, and a full half of the population is to-

SIR WILLIAM V. WHITEWAY, K.C.M.G.

day almost starving, lest the employment of these forces should scare away fish that in fact do not exist from waters that are never used, or interfere with operations on a shore long since abandoned, but which fish, waters, and shore are claimed by a foreign country 1600 miles distant for its exclusive and perpetual enjoyment.

This, in a nutshell, is the celebrated "French Shore Question." It has arisen from conditions two centuries old. It has assumed an aggravated form a dozen times within the last fifty years. It has been played with, pushed aside, compromised, and readjusted. But it always breaks out afresh, as involved as ever, as dangerous and as perplexing.

HOW THE FISHING TREATIES AROSE.

In quieter days the Newfoundlanders were proud to speak of their country as "England's most ancient colony."

This does not mean that it contained her oldest colonial settlement. It does mean that Newfoundland is the oldest American possession actually claimed by England—the first over which her flag flew. This circumstance is rarely recalled now except as accentuating the reproaches cast upon the mother country for neglecting the demands of a child thus entitled to consideration. As a settled colony, Newfoundland is scarcely a century old. Representative government was not conferred until 1832; responsible government not until 1854; and the evils now so oppressive are older than the colony's organization, and were fastened upon it long before it contained a habitable home.

They were the result of the contentions of the English and French fishermen who came out from Devonshire and Brittany every summer to fish for cod. This industry began almost immediately after the Cabots discovered the island, if, indeed, it had not an earlier existence. The French say it had. They declare that the Basque fishermen had been resorting to the Newfoundland banks for full fifty years before that event. Be that as it may, they were far more enterprising than the English fishermen, and made a much greater use of the fisheries and of the island in curing and drying their catch. The Spaniards and the Portuguese also paid annual visits to the banks and also resorted to the island. When Sir Humphrey Gilbert assumed formal possession of Newfoundland in England's name 338 years ago, he found thirty-six fishing vessels, representing no less than five European nationalities, in the harbor of St. John's. Soon, however, the English and the French had driven out all rivals, and the industry was exclusively theirs. Their quarrels were presently reflected at the courts of the two nations, and as the result of long negotiations, in 1713 the French obtained for the first time the formal acknowledgment of rights upon the territory of Newfoundland. They agreed to pay the English king a small royalty on their catch for the privilege of landing and drying their fish on his island. Thus began the controversy to which Lord Salisbury for England and M. Ribot for France are still adding volumes of bitterness and argument.

Until about the close of the last century it was the policy of England to prevent all settlement in Newfoundland. This was done as an act of protection to the fish merchants of Devonshire. They were the capitalists of the business. They furnished the ships, provisions, and tackle and disposed of the take, and the actual fishermen received a small percentage of the net profit, or worked on shares. This system is still pursued, only the scene of the contract is removed from England to the colony. It was the danger that it would so shift and that they would lose control of the business, that led the English fishing merchants to demand of the government measures to prevent settlement upon the island. Their agitation resulted in the passage of several laws forbidding any person to spend the winter in Newfoundland, to erect any buildings there except sheds and stages to dry the fish upon and shacks of the rudest sort for shelter. It was a high crime to transport women there, and, of course, the private acquisition of land was impossible. The island was to be merely a fishing station, for use only during the fishing season. This ancient policy is directly responsible for all the evils which now oppress the colonists, restrain their just aspirations, and obstruct their efforts.

There is this excuse for it, that the English did not know until it was too late the real value of Newfoundland. They had no idea of its agricultural, mineral, and lumbering resources. They did perceive that the fisheries could support a thriving colony, but their invariable motive in colonization, except such as was undertaken by political or religious refugees, was the financial gain of England, and that was better promoted and secured by holding the fishermen at home than by allowing them to settle permanently in Newfoundland. Moreover, in the early part of the seventeenth century several attempts sustained by royal grants have been made to colonize the country, and they had utterly failed. That was the purpose of Sir Humphrey Gilbert's expedition. Another, on a far grander scale; was led by Sir George Calvert before he established himself in Maryland and became Lord Baltimore. These abortive enterprises naturally gave the English a bad impression of the country, except as a depot for the conduct of the fisheries. And having this one purpose to serve in holding it, and being unable to dislodge the French already established in Canada and Nova Scotia, and to monopolize the fishing industry, it seemed naturally the part of peace and profit to arrange a scheme of orderly competition. This explains if it does not excuse the fishery clauses of the treaty of Utrecht.

FRENCH RIGHTS IN THE TREATIES.

The peace of Utrecht, in 1713, followed the victories of the Duke of Marlborough. The French were then as powerful as the English in America, and well placed to make trouble on the fishing banks. During the war they had actually captured Newfoundland, and were masters of it when Louis was humbled at Blenheim. So that the English, in recovering it by a treaty stipulating that from that time forward it should "belong wholly of right to Great Britain," were really recovering the opportunity to fish, and they felt they could well afford to agree that France might use a portion of the shore for fishing stations under conditions prohibiting fortifications and permanent buildings. The coast line thus reserved to France extended from Cape Bonavista, around the northern part of the island, down to Point Riche on its western coast. In terms and in effect the arrangement amounted to a partition of the island—the English to use its eastern and southern shores; the French, its northern and western. The sovereignty of the whole, while lodged in England, was as much qualified as are the rights of the owner of a rented house.

Substantially, this arrangement exists today, but with curious modifications. After the expulsion of the French from Canada and Nova Scotia, England's opportunity to extinguish their fishery rights was perfect. She might easily have made her control of the fishing industry complete. Fresh bait, safe harbors, and grounds for treating the fish are absolutely essential to its profitable prosecution. All these France had forfeited; but the superb craft of her statesmen was easily equal to the task of winning back by diplomacy one of the richest prizes war had lost. The noble empire founded by Champlain, and held and extended by the Jesuits, was, indeed, forever gone, and when the peace of Paris had been signed, no spot of the thousands of miles from the mouth of the St. Lawrence to the mouth of the Mississippi, over which the eagles of France had so long and so defiantly flown, remained for their occupation, save two small islands just off the coast of Newfoundland. But these, St. Pierre and Miquelon, meant for France the salvation of her fisheries. The fishery clauses of the Treaty of Utrecht were renewed, and confirmed, and, in addition, these two islands were ceded "in full right" to his Most Christian Majesty, "to serve as a shelter to the French fishermen"; but they were not to be fortified, nor to contain any other buildings than those "for the convenience of the fishery," nor was a larger armed force to be kept upon them than "fifty men for the police."

(*Concluded on Second Page.*)

A Welcome Announcement.

Those who have tested it say that for the grippe, and especially for the cough that hangs on after the disease itself seems cured, there is nothing equal to Kemp's Balsam, the specific for all throat and lung diseases, and the best cure for coughs and colds. The first dose will convince you of its excellent effect. All druggists sell it at 50c. and $1 a bottle. dw

Editorial Evidence.

Gentlemen—your Hagyard's Yellow Oil is worth its weight in gold for both internal and external use. During the late La Grippe epidemic we found it a most excellent preventive, and for sprained limbs, etc., there is nothing to equal it. Wm. Pemberton, Editor Reporter, Delhi, Ont. 1w18d

Spring Cleaning.

Be particular every spring to clean the house, but never mind cleansing the blood until some troublesom disease takes hold of you. This is poor policy when by using Burdock Blood Bitters the blood will be thoroughly cleansed, the body strengthened, and future suffering prevented. 1w18d

Now Free From Pain.

Dear Sirs—I have been troubled with Lame Back for about six months, and thought I would try Hagyard's Yellow Oil, which cured me. Am now free from all pains, and recommend Yellow Oil very highly. Frank Palmer, Wicona, Ont. 1w18d

Everybody Likes It.

Wm. Dredge, Ellen street, Barrie, Ont., says: One bottle of Miller's Emulsion of Cod Liver Oil brought back appetite which other Emulsions took away; removed cough entirely, and gained five pounds. It tastes just like cream, the oil being perfectly disguised. Sold by all druggists. dw

When Baby was sick, we gave her Castoria
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Everybody Admires Soft White Hands,

And every lady ought to use Dyer's Jelly of Cucumber and Roses, as it makes the skin soft and smooth. Druggists keep it. W. A. Dyer & Co., Montreal. 6d92

HAVE no equal as a prompt and positive cure for sick headache, biliousness, constipation, pain in the side and all liver troubles, Carter's Little Liver Pills. Try them. dw

AN INACTIVE or Torpid Liver must be aroused and all bad bile removed. Burdock Pills are best for old or young. dw

AS A PICK-ME UP after excessive exertion or exposure, Milburn's Beef, Iron and Wine is grateful and comforting. dw

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the cause of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold everywhere, or sent by mail.

CARTER MEDICINE CO., New York.

Small Pill. Small Dose. Small Price.

FOR **FLAX-SEED EMULSION COMPOUND**

BRONCHITIS

123 Lexington Ave., New York City, Sept. 19, 1888.

I have used the Flax-Seed Emulsion in several cases of Chronic Bronchitis, and the early stages of Phthisis, and have been well pleased with the results.

JAMES K. CROOK, M.D.

CONSUMPTION

Brooklyn, N.Y., Feb. 14th, 1889.

I have used your Emulsion in a case of Phthisis (consumption) with beneficial results, where patient could not use Cod Liver Oil in any form.

J. H. DROGE, M.D.

NERVOUS PROSTRATION

Brooklyn, N.Y., Dec. 20th, 1888.

I can strongly recommend Flax Seed Emulsion as helpful to the relief and possibly the cure of all Lung, Bronchial and Nervous Affections, and a good general tonic in physical debility.

JOHN F. TALMAGE, M.D.

GENERAL DEBILITY

Brooklyn, N.Y., Oct. 10th, 1888.

I regard Flax Seed Emulsion as greatly superior to the Cod Liver Oil Emulsions so generally in use.

D.A. GORTON, M.D.

WASTING DISEASES

127 West 84th St., New York, Aug. 6, 1888.

I have used your Flax-Seed Emulsion Compound in a severe case of Malnutrition and the result was more than hoped for—it was marvelous, and continuous. I recommend it cheerfully to the profession and humanity at large. M. H. GILBERT, M.D.

RHEUMATISM

Sold by Druggists, Price $1.00.

FLAX-SEED EMULSION CO.

35 Liberty St., New York.

The D&L Emulsion OF Cod Liver Oil AND THE Hypophosphites of Lime and Soda.

No other Emulsion is so easy to take.
It does not separate nor spoil.
It is always sweet as cream.
The most sensitive stomach can retain it.

CURES

Scrofulous and Wasting Diseases.
Chronic Cough.
Loss of Appetite.
Mental and Nervous Prostration.
General Debility, &c.

Beware of all imitations. Ask for "the D. & L." Emulsion, and refuse all others.

PRICE 50C. AND $1 PER BOTTLE.

Tuesday, April 28th

An Open Secret.

This is an advertisement for Hawley Bros.' teas, and we don't care who knows it. What we want to say will be straight and to the point. It is this: Hawley Bros. keep the finest stock of teas and coffees in town at the lowest prices—*n'oublier pas!* Excuse the French, but don't forget Hawley Bros.' teas.

Spring Pie-ty—

Or early pie-ty, or juvenile pie-ty, or what you like. "Pie" is the chief feature of the social in the Charlotte street Methodist church to-night, and "ty," (or coffee,) will doubtless be an incident of the occasion, and the combination is "pie-ty," not to speak of charming literary and musical entertainment. 1d

Lager Let Loose.

On Sunday afternoon Constable Stewart found a party of young men ensconced under King street bridge sampling a keg of lager, which, they alleged, they had found floating down the creek. Constable Stewart arrested —the consumption of the liquor—by seizing the vagrant keg and confining it in the police station.

Seats at Schofield's

The Morgan House

is now the headquarters of F. J O'Brien, the hackman. Telephone orders promptly attended to. Good, well-broke team, elegant hack and courteous attendance.

Children Cry for Pitcher's Castoria.

Belleville's Big Bridge.

Belleville must be proud of its big bridge. The *Ontario* on Saturday made a very enterprising foes over the structure by printing a seven-columns illustrated article on the bridge, accompanied with a good cut of the structure. The article is descriptive, retrospective and reminiscent, and is very readable and interesting.

Worth Trying For.

It is not yet too late to take a hand in the great DOMINION ILLUSTRATED PRIZE COMPETITION, and try for one of the hundred prizes which will be distributed among the subscribers to that splendid journal. The first prize is $750 in gold, and the list includes a Heintzman Piano, Bell, Karn and Cornwall Organs, Gold Watches, etc., the lowest prize being valued at $5. On receipt of 1d cents in stamps, the publishers, The Sabiston Litho. & Pub. Co., Montreal, will send to any address a sample copy of the journal and full particulars.

A Boy Singer's Crowning Success.

The feature of evening says the *Empire* was the first appearance in Toronto of Master Arlidge the 12 year old son of Mr. J. Churchill Arlidge. Master Arlidge sang "Angels ever bright and fair" and thoroughly captivated his audience. Toronto audiences during the past year have become somewhat tired of boy-singers owing to the fact that certain foreign so-called phenomena have not filled the bill, but Master Arlidge has scored a crowning success and in future shuts the door to all foreigners who are not up to his standard. His voice is rich, clear and mellow.

A Prima Donna's Praise.

The following is from the *Mail's* report of the Toronto Musical Festival, June 15 h, 16th, 17th, 1886:—"Fraulein Lehmann's singing of the Mozart Thema with variations was a remarkable exhibition of florid singing, remarkable both for perfect ease and vocalization and consummate accuracy of technique. The flute obligato was played by Mr. J. Churchill Arlidge, of this city, and it will be a sufficient indication of the manner in which he acquitted himself to state that the great prima donna expressed her satisfaction by giving him a hearty shake of the hand at the conclusion of the piece.

Married at Millbrook.

Last Wednesday writes a correspondent from Millbrook, a large number of persons found their way to the Anglican church, which was beautifully decorated, to witness a marriage ceremony; the contracting parties were Mr. D. G. McBain, of Montreal, and Miss Bertha Gardiner, daughter of Mr. Jas. Gardiner, of Millbrook. They were married by the Venerable Archdeacon Allen, of Millbrook. The groom was supported by Mr. Geo. McBain, of Toronto, and the bride by Miss May Richardson, of Peterborough, and received many valuable tokens of regard. The happy couple left on the 4 40 train on a wedding tour.

Vocal duet.."The Venetian Boat Song"....*Blumenthal*
Miss Vair and Mr. T. Dunn.
Selection.."The Golden Fleece"....*Ripley*
Amateur Orchestra.
God Save the Queen.

A Chance for Christian Kindness.

A widow living at No. 11 Elm street, is in a condition to arouse Christian sympathy to an unwonted degree. She is a respectable hard working widow when in health, with five helpless children dependent on her and in her hour of affliction is deserving of help. She has had three children ill with diphtheria and since the attack of the first one has been unable to work for two reasons. She would not be allowed to enter any house and besides she has had to nurse her three children through the disease, having help only two nights. Of course her income was cut off when she quit work, and food for the little ones that were well and medicine and dainties for the sick children were scarce, and furnished by a few kindly neighbors. Now the mother is quite ill, from exhaustion and anxiety, and the children though recovering are in sad need of care and nourishing food such as the appetites of invalids require. This is a case of genuine distress, sadly needing relief, and the ministrations of the Christian-hearted. Persons who may feel timid about visiting the house may leave contributions in money or kind with Mrs Yokome, 85 Gilmour street, and they will be forwarded at once to the relief of a very sad case of distress.

Mr. Thos. Kelly's Contribution.

Mr. Thos. Kelly, dry goods merchant, is contributing his share to the shop improvements of the town. He is making arrangements to have his well known premises, corner Simcoe and George streets, thoroughly renovated and modernized. Another front is to be put in on the Simcoe street side—the ornamental shop door and fine plate glass windows, and other improvements are to be put upon the exterior. Inside the shop will be thoroughly renovated and modernized to meet the demands of the age in the matter of style, and also to help in meeting the demands of Mr. Kelly's increasing trade. The shelving is to be removed and radical changes made in every way required to make Thomas Kelly's dry goods shop one of the neatest, completest and most elegant shops in town. To permit of this being done it will be necessary for Mr. Kelly to temporarily occupy another shop. Preparatory to this temporary removal it is necessary to reduce the present large stock down to the lowest extent, and in order to effect this reduction prices will be made such as the public know to expect from Mr. Kelly's enterprise and liberality when he announces his intention to make a clearance of his stock. This time the clearance must be made for Mr. Kelly is not the man to be behind the times and he has made up his mind to have his the handsomest dry goods shops in town and it must be done.

What is Being Done by and for the "Y."

The duties of professional life making it necessary for Miss Lumsden to be frequently out of town on the regular meeting night, her resignation was received on the 9th inst., and Mrs. Seward was unanimously elected her successor.

Recognizing the disastrous effects of the Spring Hill catastrophe as a case calling for the practical sympathy of women, a number of our members collected the sum of $64.60, which was handed to Mr. Lewis, treasurer of the relief fund.

The Thursday evening class in shorthand continues to increase in numbers and interest. This class, which was arranged by Mr. R. J. Colville, general secretary of the Y.M.C.A., is conducted by Mr. Jolly, of the Hazel Brae Home, who generously give the instruction free to the "Y" members. Any young woman who would like to take advantage of this privilege, by fulfilling the conditions of membership, will be heartily welcomed on Thursday evenings at seven o'clock sharp. —COM

—If you decide, from what you have heard or read, that you will take Hood's Sarsaparilla, do not be induced to buy any substitute instead.

ODDFELLOWS' ANNIVERSARY

Annual Sermon to the Order by Rev. E. F. Torrance.

The Practical Charity of this Benevolent Order—Rowing that Others May Reap —An Admirable Sermon Before a Large Gathering of Oddfellows.

Peterborough Oddfellows this year followed the custom adopted for many years back of celebrating the anniversary of the Order by attending divine worship in a body. This year they went to St. Paul's church and listened to a practical and instructive address by Rev. E. F. Torrance. Sunday night the Oddfellows gathered at Otonabee lodge rooms, and about a quarter to seven o'clock paraded to church in marching order. First came the Canton in full numbers, the rich uniforms and stately appearance of the Chevaliers attracting admiration from all sides. Then came Past Grand Masters Dr. Bell and A. Reid, at the head of the officers and members of Peterborough and Otonabee lodges and the two Encampments 150 strong, marshalled by Messrs. W. J. Miller and A. McLatchy. The procession made an imposing appearance. After counter-marching into the church, the Oddfellows occupied the front seats, the remainder of the spacious edifice being filled by an interested congregation.

THE SERMON.

Rev. Mr. TORRANCE took for his text John iv, 37 38: And herein is the saying true, one soweth and another reapeth; I sent you to reap that whereon you bestowed no labor; other men labored and ye are entered into their labors.

These words, said the preacher, were part of the reply which the Lord Jesus made to the disciples, when on their return from Sychar, where they had been to obtain food, they urged him to partake of the food which they had brought. He replied that He had meat to eat they knew not of—"My meat is to do the will of Him who sent Me." The words which followed were probably suggested by the sight of a company of Samaritans laboring in the fields. They were sowing the seed and others would reap the harvest. Mr. Torrance said he would consider in the first place the words of the text, "one soweth and another reapeth," and in the second place their application to the disciples by the Saviour, and there application to ourselves under present circumstances. The truth contained in the saying appears to be one of the insuperable anomalies connected with this life. Men have constantly labored and others have entered into their labors. The parent sows the seed of prosperity which his family enjoys; the statesman enacts laws for the benefit of others; each succeeding generation occupies the position of sower or reaper, the one preceding sowing for the one which follows to reap. This principle was the necessary result of the

PROGRESS OF THE HUMAN RACE,

and we therefore had no reason to complain. In the realms of science and study this principle was known, for the man of ordinary intelligence to-day knows more than the most enlightened scientist of the early ages. We are reaping the harvest of what others have sown. This was true also of moral and political reform. Wilberforce and those associated with him in the crusade against slavery, and Cobden when he began to agitate free trade, had obloquy heaped upon them, but they persevered, and as a result to-day a foul blot has been wiped off England and the United States, and under free trade Britain has grown in wealth and power enormously. In poetry and literature, too, we look to the Elizabethan era as the bright particular period of sowing from which we are reaping a golden harvest. This principle was found in the little acts of life, among persons of all classes and professions, who are doing all they can to help their fellow men. As we are all sowing for others to reap, we should sow seeds of kindness and perform noble, unselfish acts in every day life, even though we cannot be great inventors or discoverers. The application of this principle to the disciples by the Lord, was that they were reaping the harvest from the seed sown by the prophets. Pentecost and the churches raised by Paul were signs of the harvest. Then look at the application to

THE ORDER OF ODDFELLOWS

and similar societies. The great duty of the Order was to improve and exalt the condition and character of the brethren, and there were five definite ways of doing this laid down in the constitution:—by visiting the sick, by relieving the distressed, burying the dead, educating the orphan, and aiding the widow. In these days the society sowed the seed from which a precious harvest was to be reaped. The preacher then took up the different benevolent features of the order and dwelt upon the Christian beauties of each of these principles. The visitation of the sick was an important duty and in this respect the churches might well take a lesson from such societies as these Oddfellows. Church people consider too often that visiting the sick is entirely the duty of the minister, instead of realizing the divine command to visit the sick and cheer them up. And the relief of the distressed was a duty which professing Christians too often neglect. They consider themselves fortunate if they have no poor, whereas a church should be a place where poor and rich could meet. Deliver us, said the preacher, from a church whose members are all rich. He was glad to see the society was looking after

THE POOR AND DISTRESSED

in so practical a manner. For instance, last year some 2,950 sick brethren had been visited and given assistance, 197 widows had been aided, the amount thus paid out being $15,856. Then the burying of the dead was also a solemn duty imposed by the Lord. In this Society the poor are given decent burial which would otherwise be impossible. The education of the orphan is another divine command, and the work in this direction undertaken by the Society was one in which the Lord was greatly interested. The widow was also the care of the Order. Certainly her lot was a hard one. How lonely the home after the bread-winner and protector is dead and gone, the widow toiling from morning till night, sick at heart, but uncomplaining, doing her best to properly care for her children! Who is more worthy of care and charity? Here indeed was the sowing of good seed that others might reap the benefit. And if we took our part in the sowing of the good seed we would reap as a harvest everlasting life. It should always be remembered that though it was true that we "labour and others enter into our labors," it was also true that as we sow so shall we reap.

At the conclusion of the sermon a collection was taken up in aid of the Y. M. C. A. building fund.

Meanwhile the choir gave an anthem and Master Arlidge sang a solo.

The Oddfellows marched back to Otonabee lodge rooms, where after being called to order by the Noble Grand, Bro. Chas. Huffman, short and appropriate addresses were delivered by Past Grand Masters Reid and Bell, and Noble Grand Tully of Peterborough lodge. A resolution of thanks to Rev. E. F. Torrance, the choir and the officers of St. Paul's church was moved by Mr. Geo. J. Early, seconded by Bro. Mulligan, and carried unanimous.

Northwest Notes.

A Letter from a South Monaghan Boy.

Mr. E. B. Tarscott now of Alameda, Northwest Territories, sends the following letter with a remittance paying for his "EXAMINER":—

We have had a very fine winter; the stock ran out and fed themselves nearly all the time. There was very little snow until the middle of March. There was a heavy fall then but it did not stay long.

Seeding commenced here about the first of April, some of the farmers are through.

The land is in fine shape for a crop, and the weather has been everything that could be wished for to make headway with the work.

I have never seen as fine weather in Ontario as we have had here since last September. Settlers are in good spirits over the news of the railway, that is the Souris branch to the coal fields which will run through our settlement. There is still homestead land here; if you see any person who wants land, now is the time. A large immigration is expected this season.

Yours, etc.,
E. B. TRUSCOTT.

Alameda, April 20th.

NOT one in twenty are free from some little ailment caused by inaction of the liver. Use Carter's Little Liver Pills. The result will be a pleasant surprise. They give positive relief.

The Murchison Premium.

Distinguished Honor to a Canadian—Mr. William Ogilvie's Services to Geographical Science Fittingly Acknowledged.

The following dispatch to the *Empire* from Ottawa, has a local interest from the fact that Mr. Charles Gladman, son of Mr. Thomas Gladman accompanied and shared the hardships and perils of the expedition, for which Mr Ogilvie has been honored with such distinction:—

OTTAWA, April 20.—Private advices received from England to-day are to the effect that the Murchison premium for 1891 is to be awarded to Mr. William Ogilvie, D.L.S., of the Department of the Interior. This is the highest award which the Royal Geographical Society of Great Britain makes, and is granted for distinguished services to geographical science. That a Canadian and an officer of the Dominion Government should have been singled out from among the most eminent geographers in the world for this great honor is something of which Canadians have good reason to be proud. Mr. Ogilvie is a modest man, not given to blowing his own trumpet, and had he in his younger days received a training similar to that, say of Henry M. Stanley, he might have been as much talked about to-day as the explorer of the dark continent. Mr. Ogilvie's venturesome trip through the Yukon, Pasco and Mackenzie rivers districts three years ago equalled anything that the most distinguished explorer ever did in Central Africa, nearly a thousand miles of his journey being through territory which a white man had never seen before. Last year Mr. Ogilvie, under orders from the Minister of the Interior, spent the summer in the James' Bay district, making the journey there by unfamiliar routes, and his forthcoming report will be read with interest by those Canadians who are desirous of knowing more about their great country. The Murchison premium referred to is valued at $150, and usually takes the form of a gold chronometer or sextant.

Lakehurst Cheese Factory.

A Promising New Industry.

A cheese factory has been established under very favourable auspices at a point about a mile and a half east of Lakehurst. The name of the new factory is Cedardale, and its prospects of success can be gauged by the fact that the milk of 250 cows have been promised the factory. The cheesemaker is Mr. W. H. Merrill, who was last season the assistant cheesemaker at the North Smith factory. The following are the other officials of the factory:—Salesman, Mr. A. Thompson; secretary, Mr. Wm. Weir; milk committee, Messrs. A. Thompson, Wm. Weir and W. H. Merrill. This factory has made a liberal offer to the residents of the Goverament road in regard to bringing their milk the factory. In the west milk is drawn long distances and distance should therefore be no bar to the residents of this road sending their milk to the Cedardale factory. The factory expects to begin operations on the 4th of May, and everything promises a successful season as well as a successful future. The building is new, the machinery is new and both patrons and makers enter enthusiastically into the work.

Otonabee.

(From Our Own Correspondent.)

At the regular meeting of Otonabee council on motion, the glass in the lower sash of the town hall windows was ordered to be frosted. Thos. Beaird was appointed arbitrator to alter the bounds of Union School Section No. 18. On motion Z White's statute labor tax was struck off. It was decided to hold the Court of Revision on the 26th of May and to expend $1,250.00 on the public highways. The following accounts were passed: R. McIntyre, cleaning council chamber, 75c; T. J. Johnston, assisting surveyor, $2.00; Richard Lane, posts and timber for Keene embankment and Graham's Hill, $56.50.

Council adjourned to 26th of May to meet as Court of Revision.

Parental Solicitude.

To the Editor of the Examiner:

SIR,—I see in your issue of Friday the same old remark by Dr. Clarke, the Health Officer. He assures us that the town is healthy, in spite of proof to the contrary. Perhaps that is what he is there for. After a prolonged interval filled in by funerals and other distressful events we are informed that the diphtheria in the West Ward is due to the creek. That very identical creek has been there for some time I am informed and has not been discovered before. Also I may inform the *health* officer that the water at the school there is simply horrible. Houses in the neighborhood have flooded cellars. But why go on? If it were not for our police we would be nowhere. They are good men well managed.

Yours, etc.,
AN INDIGNANT PARENT.

Personal.

Miss Russell, of Millbrook is visiting at Mr. John Kincaid's Harvey street.

Miss Edith Kerr, of Cobourg, is visiting with her friend, Miss Mulholland, at the Oriental hotel.

The Port Hope *Times* says: Miss Minnie Natrass has returned home from a brief visit to Peterborough.

Mr. Wm. Leoh returned home Saturday evening from a seven weeks business tour to Germany. It is understood that he bought a large stock of furs for the coming winter trade.

REMEMBER

The great sale of Household Furniture, Horse, Phaeton, Refrigerator, Acme Lawn Mower, Hose, etc., on Tuesday next, April 28th, commencing at 10 o'clock a.m., at the residence of Mr. R. H. Green, No. 387 Reid street. Note—The Furniture, Carpets, etc., are almost new. For further particulars see large posters. 2197-1w18

A Pleasant Herb Drink—A Spring Medicine.

The druggists tell us that people call daily for the new cure for constipation and sick headache discovered by Dr. Silas Lane. It is said to be Oregon grape root (a great remedy in the far west for those complaints) combined with simple herbs, and is made for use by pouring on boiling water to draw out the strength. It sells for 50c. and $1 a package, and is called Lane's Family Medicine. dw

How to Restore Beauty.

The loss of beauty is about the surest thing that falls to the lot of woman. The fading of her charms is a source of continual anguish and robs life of half its pleasures. It is remarkable, in view of this fact, that there are still to be found women who are ignorant of the existence of Beecham's Pills, the sure cure for all disorders of the liver and nervous system. Price 25 cents a box. If your druggist does not keep them send to B. F. Allen Co., 365 and 367 Canal street, New York, *Sole Agents for the United States.* w18 1d

At no season in the year is cold in the head and catarrah more prevalent than during April. To neglect either means misery and perhaps fatal results. Nasal Balm is the only certain remedy for these dangerous diseases, and as a precautionary remedy should be kept in every household. Nasal Balm has cured thousands of sufferers—it will cure you. Try it. 6198w

Personal.

Dr. Spilsbury, of Toronto, will be at the Oriental Hotel, Peterborough, on Saturday, May 2nd, from 9 to 11.30 a.m., for consultation. See card.

Every Lady Uses It.

Dyer's Jelly of Cucumber and Roses for her chapped hands and lips, as it effectually cures in every instance. Try it. Druggists keep it. W. A. Dyer & Co., Montreal. 363

FOR NETTLE RASH, Summer Heat and general toilet purposes, use Low's Sulphur Soap. dw

STRANGLED AT PLAY.

Peculiar Death of a Young Lad at Shelburne.

SHELBURNE, Ont., April 26.—Yesterday the 16-year-old son of Mr. R. J Whitlow found a small piece of plow-line. The boy had read or heard of a 13-year-old boy hanging himself. He was apparently trying to explain to his younger brother how it was done. He fastened the plow-line to a beam and made a noose of the rope in which he placed his head. The ground being planting and slippery he seems to have lost his footing and was strangled to death. His father drove into the yard shortly afterwards and immediately cut him down but life was extinct. Coroner Norton held an inquest at the home last night where a verdict was returned that deceased accidentally came to his death while at play.

INTERESTING ITEMS BY WIRE.

BUY A HOME!

Stop Paying Rent! Be Your Own Landlord!

WE OFFER FOR SALE BY PUBLIC AUCTION ON

MONDAY, 11th MAY, 1891, at Three p.m., on THE GROUND

Lots on Romaine Street. Each Lot is 33 ft. by 220 ft. Soil high and dry, sandy loam. Ten minutes walk from the Edison Works, Peter Hamilton Works, the Carbon Works, and the Bridge Works. The new Electric Car Line will touch this street, and George and Aylmer Streets will be opened through to the Fair Ground.

To secure a respectable street the deeds will contain a clause compelling the purchasers when they build to erect a uniform distance from the front, and that the houses when built shall not cost less than $600. These lots are double the depth of the ordinary town lot and are fine for gardening. This is the finest property in the market and one which will afford the best building lots to be had at low prices. These are only lots left on the south side of the street. Lots in the neighborhood one half the depth sell at $8 to $10 per foot frontage, while these lots are 220 ft. deep and will be sold for what they will bring. The lots while sufficiently near the great factories, are close to George street, and being off the muck, are clean and healthy.

Ten years will be given for payment. $5.00 on the $100 down; $5.00 on the $100, in one month; $10 on the $100 in 3 months, then a free deed will be given and mortgage taken back for the remainder of the purchase money, payable in 9 equal annual payments with interest at 6 per cent. Five per cent. discount will be allowed for cash. For further particulars apply to

VOL. XII. NO. 99. PETERBOROUGH, TUESDAY, APRIL 28, 1891. PRICE TW

CASH HARDWARE STORE.

On and after 1st April we shall do business on a **Cash Basis**.

To cover the inevitable loss attendant upon a credit business, which accrue from amount of time spent in keeping accounts, collecting, bad debts, interest account, and numerous other ways, larger margins of profit must be asked.

In these times cash buyers ask, expect, and are entitled to close prices. A careful consideration of the subject convinces us that the time has come for a cash business done on smaller profits.

The only customers who may possibly be put to inconvenience are those who have had long credit. In more ways than one it will be to their advantage to pay cash.

For convenience of our old customers who consider their accounts due when presented, we will call 30 days cash and render all accounts the first of each month, and we wish to say that will be happy to do business with them on these terms.

As the new departure is something of an experiment, what would be considered a close cash price will be made all through the stock. Not a few leaders only, but a general reduction in everything from the fourth flat to the cellar.

Our idea is to perform more than promised rather than promise more than can be fulfilled.

Our stock is large and varied, consisting of **Builders', Contractors', Household, Mechanics' Painters', Shoemakers', Farm, Mill, Factory, Lumbermen's, Sporting, Threshers', Cabinet-makers', and other lines of Hardware.**

An old saying:—"You should go to Kingan's where you can get anything from a Needle to an Anchor."

BRITISH AND FOREIGN.

THE HAPPENINGS OF A DAY ACROSS THE OCEAN.

A Mother's Desperation and Death A Freak Wedding—The Russian Fiscal Treaty—Von Moltke's Will Cable Between England and Germany

LONDON, April 27.—The dispute between Actress Dorothy Dene and her dressmaker was brought into court yesterday. The judge ordered Dorothy and her sister to put on the gowns. Dorothy appeared in a beautiful brown and gold silk costume, while her sister wore one of heliotrope. The judge patted the ladies, turned them about, and after critically scanning the costumes, decided that they were not good fits.

Dorothy's sister declared that the collar of her dress was too tight. His Honor inserted his fingers between her neck and collar, and agreed in her view of the case.

BECAUSE HER HUSBAND WAS FALSE.

She Strangles Her Children and Burns Herself to Death.

METZ, April 27.—A farmer named Viskart, living with his wife and two children in the outskirts of this city, has of late been making love to a handsome young woman in the neighboring village of Preing. Heartbroken at her husband's treachery Mrs. Viskart locked all the doors, strangled her children, clothed herself in white and, having saturated a bed with oil, lay down upon it and set it afire. At the same moment she cut her throat with a razor to make doubly sure of death. The house was nearly destroyed by fire, and the bodies of the mother and two children were burned to a crisp.

A Terrible Scene at a Wedding.

HAMBURG, April 28.—During a wedding supper last evening at Strade, about twenty miles from this city, the bridegroom, named Ehlers, quarreled with a former suitor of the bride, one Bohren, who was among the guests. A fierce fight ensued, Bohren attacking Ehlers with a tablknife. Mrs. Ehlers vainly endeavored to separate the men, and the struggle went on until Ehlers fell dead, stabbed to the heart by his unsuccessful rival in love. Bohren and all the guests were arrested.

Monte Carlo's Victims

MONTE CARLO, April 27.—Great excitement has been caused here by a sensational suicide which took place last night. An English lady of fashionable appearance, who is supposed to have lost large sums recently at the gaming table, suddenly plunged headforemost into the sea from the top of the terrace. A sailor sprang into the water and brought her body to land. The lady's name has not been made public.

Reported Italo-English Compact.

LONDON, April 27. Notwithstanding denials there is reason to believe the report of an Italo-British alliance, present or prospective. It is stated on authority generally accurate that England has been asked to protect Italy from hostile approach by sea, Italy in turn placing her fleet at the disposal of Great Britain.

The only apparent reason for such an arrangement is that in the event of war a French squadron might descend upon the Italian coast and capture Rome and Naples, after defeating the Italian fleet.

Russia's Tariff

LONDON, April 27.—The Russian customs commission proposes to tax jute, sulphur and other raw products, hitherto free, and to increase the duty on woolens, silks, dressed leathers, manufactured and some cast irons. Fifty per cent. of imports will be liable to duty.

The British Census

LONDON, April 27.—The British census shows, as did the last German enumeration, an increase of population in the cities and a decrease in nearly all the rural and farming districts. Some of the cities are growing very rapidly. Glasgow has gained 33,590 in the decade.

The South Africa Convention.

LONDON, April 27.—Sir James Fergusson, Under Foreign Secretary, stated in the House of Commons to-day that the Portuguese Government had not yet accepted the convention regarding South Africa, but instead had sent counter proposals, which were now being discussed.

An Indecent Paper Seized.

LONDON, April 27.—The police have seized to-day's issue of Vie Parisienne, owing to indecent pictures.

Mrs. Henry K. Updegrave Enjoys a Unique Distinction.

POTTSVILLE, Pa., April 27.—The wife of Henry K. Updegrave, who keeps a hotel at Tower City, lacks over three months of being 48, but is a great-grandmother. She was married when only 13. The oldest of her children was born a year after her mother's marriage and was named Martha. She at the age of 15 married Jonathan Rumberger. Within a year Martha had a daughter whom she christened Maggie. A year ago Maggie, who was then 16, married Daniel Messner and to this pair a son has just been born. At 30 Mrs. Updegrave was a grandmother, and now as a great-grandmother at 47 is still remarkably comely in feature and graceful in figure with glossy raven hair and sparkling black eyes. Should the young Messner pair thrive and ultimately marry early, as there is every prospect of doing if he follows the traditions of his family, she may confidently look forward to being a great-great-grandmother and possibly a great-great-great-grandmother.

True Bill Returned Against Larocque, the Alleged Butcher of the Babes in the Wood Near L'Orignal.

L'ORIGNAL, Ont., April 27.—The trial of Narcisse Larocque for the outrage and murder of the little McGonigle girls at Cumberland, Nov. 7, is about to begin. The village is crowded with jurymen, witnesses, officials and newspaper men, and hotel accommodation is at a premium. The excitement over the case is growing hourly. About 60 witnesses are here. The line of defence will be an attempt to prove that the bush at the time of the murder was infested with a gang of roughs, and one girl will swear she was chased by them just previous to the murder.

The grand jury came in at 5 p.m. with a true bill against the accused. While the finding was being read a pin could be heard to drop. Larocque appeared quite indifferent, and when asked the customary guilty or not guilty, replied in an off-hand way, Not guilty. He carried himself erect. The prisoner has evidently fared well in jail.

BRITISH HOUSE OF LORDS.

KNUTSFORD'S COERCION BILL PASSES ITS SECOND READING.

Adverse Criticism of the Proposed Measure—Suggestions As To the Continuation of the Modus Vivendi—The Position of the Imperial Government on the Question.

LONDON, April 27.—In moving the second reading of his bill, known as the "Newfoundland Coercion Bill," in the House of Lords to-day, Lord Knutsford, Secretary of State for Colonial Affairs, contended that the bill did not interfere with local questions in Newfoundland nor with the independence of the colonial Legislature. He also said it was a matter of Imperial obligation that the arrangements affecting the fishing rights of France should be as binding upon the colony as upon the Empire. The Government, he added, desires to meet the wishes of the colonies, so far as is consistent with international obligations. Lord Knutsford added that the measure took the colony by surprise. The Colonial Government, he said, never held out any hopes that they would consent to legislation on the basis of arbitration and they could not expect the French Government to accept general arbitration. If the colonists made that the sine qua non, the Imperial Government would go on with the bill in its present form. The second reading of the bill would not take place in the House of Commons before Whitsuntide (week of May 18), thus giving ample time to consider any amendment which might be suggested. Lord Knutsford hoped reasonable counsels would prevail and thus maintain harmony all around. He said that if before the bill reached the House of Commons, the Colonial Legislature passed an act which, in the Government's opinion, was sufficient to secure the observance of the modus vivendi of 1891 and to enforce the decision of the arbitration commission on the lobster question and in regard to the treaties existing between England and France the Government would not proceed with the bill. But if such an act was not passed by the Colonial Legislature it would be necessary to pass the Imperial Government's measure as rapidly as possible. The Government was ready to consider with the Newfoundland delegates the terms of the bill which they suggested might be discussed. But difficulties of an international character required careful handling, and the passage of the Colonial Act should not be delayed until the terms proposed by the Imperial bill were settled. The Government saw no difficulty in giving Newfoundland representation on the arbitration commission; in fact, the Government had requested the colony to name a delegate to act on the present arbitration commission, but the colony had refused to do so. "The colonists may be assured," said Lord Knutsford, "that we should not further press any of the subsidiary points referred to arbitration until the Imperial Government had fully consulted the colonists."

The Earl of Kimberley said the Newfoundland Government ought to have been notified of the Imperial intention in regard to Newfoundland. The present position of affairs demanded that the bill ought not to be carried further until the Newfoundland Legislature had further considered the matter. Lord Kimberley hoped Lord Knutsford's measure would never be required.

Lord Dunraven criticized the bill adversely. All the questions involved, he said, ought to be submitted to arbitration.

Lord Herschell thought Newfoundland was justly indignant, seeing that France pressed the treaties beyond legitimate grounds. The bill passed the second reading without a division.

FIRES OF A NIGHT.

A Village in Essex County Stands a Good Chance of Being Wiped Out.

COMBER, Ont., April 27.—At 10 to-night fire destroyed Harmer's hotel here. The residence of Moses Creighton is also in flames. The M.C.R. came to the rescue by sending an engine to aid with water. The big barn belonging to the hotel is in flames, and Liddiatt and Ainslies planing mills, the elevator at the station, besides a row of houses, are in great danger. The northern part of the village is doomed as well as the station. Assistance has arrived from the neighboring towns.

The residence of Leonard Woolly of South Dorchester, near Springfield, was burned yesterday. Cause, defective chimney. Loss $800; insurance $600.

The dwelling of George Carr, a farmer, near Brussels, was destroyed by fire yesterday. Loss $600, insurance $300.

Fire occasioned $24,000 damage to the shops of McLaren & Co., woodenware manufacturers, 141 Frontenac-street, Montreal, last midnight.

At Hamilton yesterday Frank Rowlin's fertilising factory was damaged to the extent of $7000 with $400 insurance; Prof. Hand's fireworks factory caught fire from a stove and $300 damage was occasioned and Charles Newberry's carriage house, Robert-street, was damaged to the extent of $150.

For Robbing His Mother-in-Law.

HAMILTON, April 27.—George Haskins, a clerk in the office of the E. & C. Gurney Company, is under arrest on a charge of embezzlement. The warrant was issued on the information of Mrs. Doyle of Brockville, his mother-in-law, who claims that when Haskins was living in Brockville Mrs. Doyle entrusted him with $2100, a piano and some household goods. Haskins afterwards skipped out. The prisoner claims that the goods were given him.

Death Due to a Wrestling Bout

PRESTON, April 26.—Albert Roth, aged 17, died Thursday from the effects of a blow received in the abdomen in a friendly wrestle some weeks ago.

Children Cry for Pitcher's Castoria.

MANIPUR BURNED.

THE REBELS FIRE THE VILLAGE AND FLEE TO THE HILLS.

The Capital of the Disaffected Country Was to Have Been Assaulted at Daylight This Morning Unless It Capitulated in the Meantime.

SIMLA, April 27.—Despatches received here from the commander of the British columns advancing upon Manipur show that the British troops are now within 10 miles of Imphal, the capital of Manipur. A body of cavalry sent forward on reconnaissance has rejoined the main body of the British troops and reports that the troopers found the country ahead to be deserted. The British force will attempt to take Imphal by assault at 5 o'clock tomorrow morning unless the capital surrenders before that time.

It is reported that the Maharajah has fled from Manipur and that previous to his departure he caused the town to be set on fire. Manipur is said to have been destroyed.

LONDON, April 27.—It is generally believed here that England will annex outright the little State which is wedged in between the British possessions in India and Burmah, interrupting communications, barring the way to a development of commerce, and constituting, as the present sad experience goes to prove, a harboring ground for all that is most dangerous from the side of the fierce border tribes.

And the Witness Signed the Register With a Pen Held in His Teeth.

LONDON, April 27.—At the Registrar's office in South Shields yesterday a midget girl only 32 inches high was married to Prof. Hedley, a man 6 feet 1 inch tall. Humbert, the man without arms, gave the bride away, signing the certificate by holding the pen between his teeth. The bridesmaid was Miss Nina, the American giantess, who weighs 616 pounds.

The best man was Capt. Dallis, who is 7 feet 10 inches tall. Gen. Metilone, 30 inches high, was one of the wedding party. All were connected with a traveling circus going through the country.

INTERESTING ITEMS BY WIRE.

The French Ambassador to Russia has resigned.

There is some talk of laying a cable between England and Germany.

It is stated that President Balmaceda of Chili is in dread of being poisoned.

It now transpires that Chess Champion MacKenzie, recently found dead, committed suicide.

The owners of coal mines situated in the Northumberland district have reduced wages.

Fourteen-year-old Lenna Goodwin was thrown from a rig owing to his horse running away at Hamilton yesterday and his scalp was split open. He will recover.

Navigation has opened at Duluth. Lake Superior was broken up by a heavy northwest wind which prevailed last night.

George Francis Train will leave New Whatcomb, Wash., Wednesday on a 55-day world trip.

The fact is generally remarked that Emperor William, Emperor Frederick and Count von Moltke all died on a Friday.

At Wikowitz, Bohemia, the manager and six employes in the iron works belonging to the Rothschilds have been killed by an explosion.

James Patrick O'Gorman Mahon (generally known as The O'Gorman Mahon), member of Parliament for Carlow, Ireland, is dangerously ill.

The long-continued strike of miners in Rhenish Westphalia is collapsing, the men being forced to yield owing to a lack of funds. The national loss amounts to millions.

Von Moltke's will was deposited in the Berlin court in 1887. The heir to the entailed estate is Major Wilhelm Von Moltke, son of the Count's brother Adolph.

The steamer Scythia, which arrived at Queenstown yesterday, reports that she passed a steamer supposed to be the Denmark of the National Line, which sailed yesterday from Liverpool for New York, lying at anchor off Kinsale in an apparently disabled condition.

The British warships Pigeon and Brisk have left the harbor of Zanzibar with sealed orders. It is believed their destination is the Pungwe River. Emin Pacha has gone to Lake Tanganyika.

In a letter, Mr. Gladstone says the statements made by Parnell in Clonmel, that Gladstone and his colleagues first deprecated and afterwards approved the plan of campaign for party purposes, are entirely without foundation.

As William Shomers walked into the Elizabethtown, Ky., court house yesterday he was shot and killed by his brother-in-law, Charles Moore, who suspected him of murdering his wife, although a jury acquitted him.

The police of Naples have arrested many of the more prominent Socialists of that city on the charge of inciting the laboring classes to take part in seditious demonstrations on May day. The movement for shorter hours of labor is increasing throughout Italy.

A letter has been received from Boston men interested in cotton mills asking for the co-operation of Fall River manufacturers in an attempt to curtail production by a general shut-down. The depression in the cloth market has increased and the quotations at which spot goods were disposed of last week are the lowest ever known.

A gang of robbers attacked the rail road station at Arad, 145 miles from Buda, Feb. 1st, last night, killed the watchman, and breaking open the safe stole all the registered letters. The latter contained, in addition to money and postal orders, articles of jewelry valued at $5000.

Capt. Verney's conviction on the charge of procuration is almost certain. The Crown's evidence shows that for ten years Verney, under different names, has been carrying on this nefarious pursuit. He had actually rented a house in a quiet part of London, where his victims were enticed. It is believed he will not get above six months' imprisonment, two years being the maximum for his offence if convicted. If convicted he will be expelled from the House of Commons.

The N.Y. State Board of Mediation and Arbitration has submitted its fourth annual report to the Legislature. The number of strikes in the state during the year was much greater than in any previous year since the creation of the board. In the building trade particularly has this been the case, one or more strikes occurring on nearly every working day of the year. Special reference is made to the "sweating system" practised by the contractors or middlemen in New York.

Injured by a Mill Collapse.

OTTAWA, April 27.—MacLaren's new mill collapsed this afternoon by the pressure of a gust of wind, the entire structure coming to the ground. Fortunately there were only three or four hands working there at the time, and these seeing their danger way in time and giving way were in the act of escaping when two of them were caught by the falling joists and pinned to the ground. Their names were Henry Bingham and Andrew Dessolat. Both men were badly crushed, but will recover.

Purchased the Galt Line.

WINNIPEG, April 27.—A rumor is current throughout the west that the Galt Railroad has been purchased by the C.P.R., who will broaden the gauge to Lethbridge from Dunmore and extend the line through Crow's Nest Pass to Kootenay District in British Columbia.

Princeton's Mystery Unravelled.

PRINCETON, April 27.—A telegram has been received from Mr. Larmour, the Princeton station agent, from Bridgeport, Conn., where he has been laid up with the grip. He is with his wife and her friends. He promises to write more fully as soon as able.

ONTARIO LEGISLATURE

The Cost of the New Parliament Buildings Will Be $1,350,000.

TORONTO, April 28.—The Ontario Legislature is fast completing its labors.

Mr. Fraser, in moving a resolution to provide for the further expenditure of $138,000 in connection with the new Parliament buildings assured the Assembly most positively yesterday that the buildings would be completed for the sum of $1,350,000. Tenders had been accepted for 3 out of the 4 classes of work remaining to be done, namely, for lathing and plastering, for heating and ventilating and for plumbing. The tenders for roof covering, slating, copper work, etc., were refused because they were too high. New tenders for this work would be called. The tenders accepted amounted in all to $115,900. The names and individual amounts could not be given because the contracts were not yet signed. He was confident from the rate at which the structure was building that the work now under contract would be completed before the end of this season, that the departments would occupy the east wing before the close of next year and that the Legislature would meet there session after next. In reply to Mr. Meredith, he said he could not give any estimate of the cost of furnishing or of beautifying the grounds.

Patrick O'Brien, the efficient housekeeper of the Legislative buildings, was presented yesterday by Dr. Willoughby, on behalf of the Conservative members, with a beautiful set of gold studs and cuff button engraved with his initials in recognition of his services during the session.

A deputation consisting of W. G. Reid, contractor; S. R. Poulin, engineer; J. M. Ansley, secretary, and W. Beatty, director, of the Parry Sound Railway asked the Government yesterday for a bonus for four miles of their road additional to the 45 miles already bonused.

Jimmie Bruce Macdonald filled with grace and dignity last night the position of Sergeant-at-Arms during the temporary absence of Mr. Glackmeyer.

Another Batch of Protests.

TORONTO, April 27.—The following additional batch of protests was filed at Osgoode Hall yesterday:

About 10 o'clock this morning the police at Wilton-avenue Station were notified that the body of a woman was floating in the slip by Salter's boat house, foot of Sherbourne-street. The corpse was removed to the Morgue, where it now awaits identification. It is that of a woman apparently about 35 years of age, 5 feet 4 in. in height. The deceased has evidently been in the water some weeks. It is believed the body is that of Lizzie Fitzgerald, a prostitute, who has been missing about four weeks.

The wholesale and retail grocers of the city gathered at the Queen's Hotel last night and tendered a complimentary banquet to Hon. Frank Smith on the eve of his retirement from the grocery business after a life-long connection therewith. The Senator expressed the sorrow the severance occasioned him, but as he was getting up in years and by frugality and industry had acquired enough of this world's goods to carry him through, he thought best to retire. He reviewed his career from the time when he was a penniless lad at Dixie, Ont., until last night, and it is indisputable that his life has been one of energy. A beautiful illuminated address was presented to Mr. Smith and thereon was engrossed the respect in which the trade holds him.

CARLING A SENATOR.

A Temporary Arrangement Under Which He is to Retain His Portfolio.

OTTAWA, April 27.—Hon. John Carling has been called to the Senate. He will retain his portfolio as Minister of Agriculture, the Parliamentary part of his work being carried on by one of his colleagues. It is understood that this is a movement not bearing the character of permanency, and the expectation is generally entertained that he will soon be in his accustomed seat in the House.

Hon. Alexander Lacoste has been appointed Speaker of the Senate.

As previously announced Mr. Peter White is to be Speaker of the House of Commons, and it is definitely settled that Dr. Grandbois, M.P. for Temiscouata, is to be Deputy-Speaker. Mr. Corbould, M.P. for New Westminster, and Mr. Hasen, M.P. for St. John city, will move and second the address in reply to the speech from the throne.

There are already over 103 applications for private bills, a greater number than for several years past.

The senators will have to hear seven divorce cases. They are as follows: Thomas Bristow of Collingwood, Mary Ann Beattie of Glanford, Manala Ellis of Toronto, W. J. Murdock of Toronto, H. R. Mead of Pincher Creek, Adam Russworm of Carrick and Isabel Carpenter of Hamilton.

Three times in all has Parliament met in April. In 1859 Parliament opened April 15 and prorogued June 22. In 1872 the date of opening was April 11 and prorogation June 14, and in 1887 the first session of the sixth Parliament was opened April 13 and prorogued June 23. Parliament has only twice sat well into the summer months, the first being the session of 1873, which closed August 13, and the second that of the long session of 1885, when Parliament sat from Jan. 20 to July 20.

Both houses of Parliament have been thoroughly renovated and put in readiness for Wednesday's proceedings. The precincts of both houses have already assumed a business-like appearance. Each train as it arrives brings an additional number of members and senators to swell the small contingent who have already arrived and taken up their quarters in the city.

The Federation of Belgian miners has decided to go on strike with the German miners in the effort to obtain the passage of laws making eight hours a legal day's work and grant universal suffrage.

The Government Forces Win a Victory in Chili.

LONDON, April 28.—A despatch from Valparaiso says: The Government cruisers Almirante Condell and Almirante Lynch pursued and engaged the insurgent cruiser Aconcagua. The latter resisted stoutly, but was about to strike when a man-of-war, supposed to be an insurgent vessel, Esmeralda was sighted, whereupon the attackers retired, and the Aconcagua escaped. The casualties on the government boats were one killed and ten wounded, on the Aconcagua 150 were killed. The insurgents appear to be dispirited. Telegrams received in Paris from insurgent sources confirm the foregoing and add that the engagement lasted 90 minutes, that the Aconcagua was hit seven times, that she then forced the entrance to Caldera Harbor and that she sustained no serious damage.

Stand Your Ground.

When you make up your mind to take Hood's Sarsaparilla, do not be induced to buy some other preparation instead. Clerks may claim that "ours is as good as Hood's" and all that, but the peculiar merit of Hood's Sarsaparilla cannot be equalled. Therefore have nothing to do with substitutes and insist upon having Hood's Sarsaparilla, the best blood purifier and building-up medicine.

J. C. Turnbull.

ATTRACTIONS IN

DRY GOODS

AT

TURNBULL'S.

The change in the weather has brought with it a great demand for Millinery, also for Spring Shades in Dress Goods. Our store was never more attractive in these lines than at present. We have every new and desirable shade in stock with Millinery to match. If you are in town this week, have a look at our Grey Dress Goods and Millinery Window. Large Grey Checks for young people to be made up alone or mixed with Black. Small Black and White Checks and Stripes (broken patterns,) for older people. Goods that are hard to find, in neat patterns.

We justly claim to take the lead in our Tailoring Department for quality of goods, fit and price. We get up a splendid suit, in Halifax tweed or navy serge, for $12.00. Fine grades of Almonte and other makes of tweed for $18.00, $14.00, $15.00 and $16.00. Scotch tweeds and serges from $16 to $20 for the best. Fine all Venetian finish or diagonal cords for coat and vest, with black or fancy pantings to match, at from $19 to $22 a suit. Remember our prices. Call and see our stock, and do not pay a great deal higher figure through force of habit.

We have added this week to our already attractive stock of Boys' Clothing, another shipment just turned out of the manufacturers' hands, neat and new styles.

We show now an immense range of patterns in cottonades and shirtings, in the best quality.

We also keep all the lower lines, beginning at 5c. for shirtings and 12½c. for cottonades.

We have an opening now for an apprentice in the millinery department. Apply until Saturday.

A MARVELOUS OFFERING

—IN—

DRESS SILKS

Perhaps the greatest bargain ever offered in this city for many a day in Colored Dress Silks is now on sale at the "Golden Lion." This wonderful line consists of eight different shades and is twenty-six inches in width. It was manufactured by a reliable maker and is guaranteed absolutely pure.

The colorings comprise Venus Rose, Chocolate, Nile, Mordore, Myrtle, Purple, China Blue and Beige.

If imported in the regular way the price would be $1 25, and we are offering it at the extreme low price of

60c. Per Yard

We strongly urge an early inspection of this rare assortment.

MRS. BLACK—How much did you say those lace curtains were?

CLERK—Just $2.50 per pair, madam.

MRS. BLACK—Well, I'll take three pairs, for that will only amount to six dollars, and I suppose I'll pay ten dollars for the same qualities. I think they are just lovely.

CLERK—Can I sell you a nice parasol to-day?

MRS. BLACK—What is the price for a good parasol? I suppose yours are all new? They ought to be the most stylish and most desirable.

CLERK—Yes ma'am. Our parasols are all new and fresh, and we can give you a very pretty parasol in ivory, combined or ventoite handles. Our price for a pretty parasol is 65c.

MRS. BLACK—Well, they certainly are cheap, I'll take one for myself, one for Susan Jane, and one for Maria. Be sure you don't send the parcel after dark, and you needn't be particular about wrapping up the parcel, for I want my next door neighbor to see that it is a new one I bought at

TUESDAY, APRIL 28, 1891.

Sir Henry Tyler

Replies to Sir Charles Tupper on the Political Question.

The following communication appeared in the London *Times* of the 9th inst.:—

Sir,—Sir Charles Tupper, writing from Ottawa on the 26th of March, replies, in the *Times* of this morning, to my letter of the 11th, which you were good enough to publish on the 12th of March.

As has already been notified to the proprietors in the half-yearly report recently issued, I propose, at the half-yearly meeting of the Grand Trunk Company on Tuesday next, fully to expose the inaccuracies of his speech at Amherst; and it is only necessary for me, therefore, now to ask you to enable me to reply to the further inaccuracies contained in his letter published this morning.

Sir Charles Tupper says that he "did not go cap in hand to Mr. Seargeant," but visited that gentleman at his own invitation, sent to him by Mr. Hector Cameron, Q.C. The truth of the matter is that, as Mr. Sargeant informed the directors at the time, Mr. Hector Cameron called on Mr. Seargeant and said that Sir Charles Tupper would esteem it a favor if Mr. Seargeant would meet him, either at the residence of Sir Donald Smith or at that of the late Mr. Andrew Robertson. Mr. Seargeant said that it was inconvenient to leave his office at the particular time stated, but he would make arrangements to meet Sir Charles at his own house, "Weredale" in Montreal, at 12.30 on the 25th of February; and accordingly Sir Charles Tupper called upon him at about one o'clock, and then ensued the conversation, a brief report of which I gave in my letter to you of the 11th of March from the verbatim report sent to the directors by Mr. Seargeant.

Sir Charles proceeds to say that Mr. Cameron reported the substance of the interview in writing to Sir John A. Macdonald, and that Mr. Sargeant had seen that report and confirmed its accuracy. But Mr. Seargeant had publicly contradicted Sir Charles Tupper on this point on the 23rd of March (as we learned in London by cable message from Mr. Seargeant), three days before the date of Sir Charles Tupper's letter. This contradiction has been further confirmed by Mr. Seargeant in an official despatch to the board received yesterday, wherein he says:—

"The *Montreal Herald* of to-day [March 26], which has hitherto been very unfriendly to the Grand Trunk, is pronounced in its denunciation of the High Commissioner. You will see from the enclosed that I had to meet an unworthy attempt to turn the tables on the president by making it appear that I had approved of the account of our interview of the 25th of February sent to Sir John A. Macdonald and that the Grand Trunk was a rejected suitor for a bonus of $2,000,000. I thought it advisable in the interests of the company to take public notice of these statements, but trust it will not be necessary again to appear in print."

Sir Charles Tupper refers to what he calls a manifesto issued by Mr. Seargeant in support of the Opposition. Mr. Seargeant issued no such manifesto whatever. The only expression of opinion given by him was in an interview with a reporter of the Montreal *Witness*, in which, in the interest of the Grand Trunk company, he thought it right to dissociate the company from statements on the subject of the relations between Canada and the United States issued on the authority of the Canadian Pacific company, as he felt that the relations of the Grand Trunk company with the United States Government and railway companies might otherwise be compromised. Mr. Seargeant then expressed himself as follows:—

"The Grand Trunk has under the laws of the United States invested many millions in railway property there. The railway forms part of a great continental system. It exchanges traffic accounts with 400 United States companies. It has received the fullest, fairest and most ungrudging support of a large section of the United States at Washington, in counteraction of the efforts which have been made by rival lines to restrict the operations of, and to shackle, the company, irrespective of the common interests of the two countries. From the official Government at Washington the Grand Trunk has always received the most courteous consideration and attention, and the company is recognised as having been of material assistance in building up industries in the States. Capital will, if permitted, still flow in connection with the Grand Trunk for that purpose, and naturally our system is largely dependent upon the friendly and unrestricted interchange of traffic for satisfactory results to the proprietors."

I enclose a copy of the whole statement made to the reporter by Mr. Seargeant, and I may state in reference to it that important matters affecting the interests of the Grand Trunk company were, and are still, pending at Washington which rendered it absolutely necessary for Mr. Seargeant to make and publish such a statement to avoid serious risk to the interests of the Grand Trunk company in the United States.

No other instructions were issued to Mr. Seargeant with regard to these elections than that the only politics which the board had anything to do with were the interests of the Grand Trunk company, which were our paramount consideration; and Mr. Seargeant was not instructed, as Sir Charles Tupper states, to do all he could to support the Opposition.

With regard to Mr. Reeve, who resides in Chicago as the traffic manager of the Chicago and Grand Trunk railway — and not as Sir Charles Tupper states, the general traffic manager of the Grand Trunk railway in Chicago—the statements made by him in an interview with a newspaper reporter have been much exaggerated. He is said to have been awoke in the middle of the night by a press reporter to ask whether, as had been stated, he had issued free passes for Canadian voters over the Chicago and Grand Trunk; and in denying that statement he appears to have used some expressions of his own opinion (as an American citizen) which were indiscreet, and which have been disapproved of by the board; and the quotation given by Sir Charles Tupper is quite untrue as regards any expression used towards the president of the Canadian Pacific railway, so much so, that Mr. Seargeant thought it right to communicate with Mr. Van Horne on the subject, and Mr. Van Horne has courteously replied in the following terms:—

"The Canadian Pacific Railway Co.,
Montreal, 24th March, 1891.

"Dear Mr. Seargeant,—In my hurry I have failed to acknowledge your note of the 12th. I did not give Mr. Reeve's Chicago interview a moment's thought, for I have had enough experience with newspaper reporters to know what a mountain they can make out of a molehill.

"Yours very truly,
"W. C. Van Horne."

There have been Canadian politicians who in times past too frequently employed the Grand Trunk Railway as an instrument for party purposes, and fattened on the British capital invested in it. But *tempora mutantur*. My colleagues and I look upon Grand Trunk interests, and those alone, as of paramount interest to its proprietors. They number 23,000; and, writing on their behalf, I can assure Sir Charles Tupper, who is not a shareholder, that he will not be able, with all his bluster, threats, and misrepresentations, to persuade them to place themselves at the mercy of his or any other Canadian political party. They may fairly hope, with improved rates, to reap a better harvest of dividends as the result of the operations of the current year. And they will also, by preserving their political independence, be in a better position to deal with all exigencies that can arise either in Canada or the United States. They have enormous interests at stake in both countries, which the directors, ably assisted by the general manager in Canada, are doing, and will continue to do, their utmost to conserve.

I am, Sir,
Your obedient servant,
H. W. Tyler.

Grand Trunk Railway Company of Canada, Dashwood House, 9 New Broad Street, E.C., April 7.

For nearly half a century Ayer's Cherry Pectoral has been the most popular cough remedy in the world. The constantly increasing demand for this remedy proves it to be the very best specific for colds, coughs and all diseases of the throat and lungs.

Children Cry for Pitcher's Castoria.

COPYRIGHT 1890

USED THEM IN HIS BLOW-GUN.

Doctor—"Well, my fine little fellow, you have got quite well again. I was sure the pills I left for you would cure you. How did you take them, in water or in cake?"

Boy—"Oh, I used them in my blow-gun."

The little fellow put the nasty, great, griping, old-fashioned pills to a good use. At most, all his internal economy needed was a dose of Dr. Pierce's Pleasant Pellets. They are tiny, sugar-coated granules, easy to take, and are gently aperient, or actively cathartic, according to size of dose. As a laxative, only one tiny Pellet is required.

The "Pellets" cure Sick Headache, Bilious Headache, Constipation, Indigestion, Bilious Attacks, and all derangements of the Liver, Stomach and Bowels. In explanation of their remedial power over so great a variety of diseases, it may truthfully be said that their action upon the system is universal, not a gland or tissue escaping their sanative influence.

The "Pellets" are put up in vials, hermetically sealed, therefore always fresh and reliable, which is not the case with pills put up in wooden or pasteboard boxes.

The "Pellets" are purely vegetable, and operate without disturbance to the system, diet, or occupation.

They are a convenient vest-pocket remedy.

Dr. Pierce's Pellets are the cheapest pill, sold by druggists, because they are *guaranteed* to give satisfaction in every case, or their price (25 cents a vial) is refunded. You only pay for *the good* you get.

Can you ask more?

Manufactured by World's Dispensary Medical Association, 663 Main Street, Buffalo, N. Y.

Do You Cough?

Don't delay. Take Kemp's Balsam, the best cough cure. It will cure coughs and colds. It will cure sore throat, or a tickling in the throat. It will cure pains in the chest. It will cure influenza and bronchitis and all diseases pertaining to the lungs, because it is a pure balsam. Hold it to the light and see how clear and thick it is. You see the excellent effect after taking the first dose. Large bottles 50c and $1. dw

Why Not Treat.

Why not treat such troubles as boils, pimples, blotches, sores, humors, eruptions, rashes, skin irritations, etc., with Burdock Blood Bitters. It is filled with virtue as a blood purifier and goes right to the right spot. It makes the skin bright and clear, while also invigorating the entire system. 1w18-d

Now Free From Pain.

Dear Sirs—I have been troubled with Lame Back for about six months, and thought I would try Hagyard's Yellow Oil, which cured me. Am now free from all pains, and recommend Yellow Oil very highly. Frank Palmer, Winona, Ont. 1w18d

Supposing.

Supposing you suffer from some disease. Suppose it is dyspepsia or biliousness or constipation or bad blood. Suppose you learn that Burdock Blood Bitters has cured thousands of cases of these and similar complaints. Don't you suppose you ought to try? It cannot harm you and in nine cases out of ten it cures. 1w18d

It Does Its Work.

Mrs. James Dix, Brock street, Kingston, Ont., says: I suffered with an inflamed throat and bad cough for seven months. Was treated by physicians without success, when six doses of Miller's Emulsion of Cod Liver Oil cured me. It's as palatable as cream. For sale by all druggists. dw

At no season in the year is cold in the head and catarrah more prevalent than during April. To neglect either means misery and perhaps fatal results. Nasal Balm is the only certain remedy for these dangerous diseases, and as a precautionary remedy should be kept in every household. Nasal Balm has cured thousands of sufferers—it will cure you. Try it. 6d98w

Once Used, Always Used.

This is a fact as regards Dyer's Jelly of Cucumber and Roses, from its wonderful efficiency in curing chapped hands, and making the skin smooth and soft. Druggists keep it. W. A. Dyer & Co., Montreal 6d92

A man's wife should always be the same, especially to her husband, but if she is weak and nervous, and uses Carter's Iron Pills she cannot be, for they make her "feel like a different person," so they all say, and their husbands say so, too! dw

Twelve years trial in English climate, with increasing demand, proves the Royal Rheumatic Remedy to be the best remedy for rheumatism. For sale by W. R. Greatrix, druggist. dw

A Fact

WORTH knowing is that blood diseases which all other remedies fail to cure, yield to Ayer's Sarsaparilla.

Fresh confirmation of this statement comes to hand daily. Even such deep-seated and stubborn complaints as Rheumatism, Rheumatic Gout, and the like, are thoroughly eradicated by the use of this wonderful alterative.

Mrs. R. Irving Dodge, 110 West 125th street, New York, says:—

"About two years ago, after suffering for nearly two years from rheumatic gout, being able to walk only with great discomfort, and having tried various remedies, including mineral waters, without relief, I saw by an advertisement in a Chicago paper that a man had been relieved of this distressing complaint, after long suffering, by taking Ayer's Sarsaparilla. I then decided to make a trial of this medicine, and took it regularly for eight months. I am pleased to say that it effected a complete cure, and that I have since had no return of the disease."

Mrs. L. A. Stark, Nashua, N. H., writes: "One year ago I was taken ill with rheumatism, being confined to my house six months. I came out of the sickness very much debilitated, with no appetite, and my system disordered in every way. I commenced to use Ayer's Sarsaparilla and began to improve at once, gaining in strength and soon recovering my usual health. I cannot say too much in praise of this well-known medicine."

"I have taken a great deal of medicine, but nothing has done me so much good as Ayer's Sarsaparilla. I felt its beneficial effects before I had quite finished one bottle, and I can freely testify that it is the best blood-medicine I know of."—L. W. Ward, Sr., Woodland, Texas.

Ayer's Sarsaparilla,

PREPARED BY

Dr. J. C. Ayer & Co., Lowell, Mass.

Price $1; six bottles, $5. Worth $5 a bottle.

Maple Syrup.

JUST RECEIVED

A very Superior Grade of Maple Syrup from eastern townships, which is both light in color and heavy in weight, and of the finest flavor. TIME TO US MEANS MONEY.

THE TRIPLE ALLIANCE AT WORK! WE BUY BIG TO SELL BIGGER!!

THE OPENING GUN OF THE CAMPAIGN OF THE TRIUMVIRATE!!

SPOT CASH has saved a wholesale firm from bankruptcy; a colossal sale effected in an emergency has kept the assignee from the doors! And how! Here is a business story made up of business facts, and related by business people as a matter of business. Isn't it your business, you hard working, toiling men of industry, to take in the above business!

GOUGH BROS., of Peterborough, run their own show. They have no connection with the Gough Stores in Toronto and Brantford. But in union for a purpose there lies strength. The head of a wholesale house in difficulties required money—had to sell. One man's extremity is another man's opportunity. Goughs, of Peterborough, Toronto and Brantford, pooled their energies, backed with cash, and, by so doing, carried the day, and captured at a bargain $68,000.00 worth of Clothing, Furnishing Goods, Hats and Caps, Boots and Shoes.

Have you an idea what it means to handle this bonanza; and, mind you, handle it to take the balance of the purchase money out of it by May 24th! You haven't. We have. And now we begin to push the biggest, brightest, most daring effort of our business career. Will you help us and benefit yourself! You will, for common sense tells you that, in order to do well for ourselves, we must do better for you.

We Push for a Purpose! ☞ Here are a few Diamond-Bitted Pointers:—

All Men's $16.00 $14.00 $12.00 $10.00 SUITS Go For **$8.00**

All Men's $8.00 $7.00 $6.00 $5.50 SUITS Go For **$4.90**

All Boys' $4.50 $4.00 $3.50 $3.25 SUITS Go For **$2.90**

Men's Fine Cordovan Shoes, at $5.00, $4.50, $4.00, $3.75, now offered for $2.90. All $2.00, $1.75, $1.50 Boots go for $1.10. The same reduction applies to Ladies' and Children's Wear.

The prices of our Hats we will not quote here, as the high priced hatters would be completely knocked out and discomfited.

Just ask for hats and you will get a start. Buyers! Wearers! Customers! We want you to believe a strong statement. It is no stronger than the facts warrant. We fire to the third storey all compunction and reserve, and frankly tell you of our position. We sacrifice profit that we may meet our engagements and keep the name of GOUGH BROS. as the one firm, the Napoleons of Business, who can plan, carry out and consummate the biggest business, the biggest business scheme to place the best goods in every man's hands for less money than ever before.

THE PETERBOROUGH BOOKSTORE.

CHANGE IN BUSINESS.

I beg to announce to my late customers that I have sold out my business to Messrs. Hilliard & Peplow, and I would bespeak for them the same support as has been accorded me.

C. N. BROWN.

ANNOUNCEMENT.

For some time past we have thought a strictly cash business in Flour, Feed and Provisions could be successfully carried on in Peterborough, and to test this question, we have purchased the above business from Mr. C. N. Brown who will still continue as manager in Flavelle's old stand, Simcoe street.

In order to be successful we intend to make it the interest of everyone to pay cash with order by selling at wholesale prices.

We will positively give no credit and cash customers will not have to keep up the losses made by others on the credit system.

We will keep a full supply of the very best quality of Flour, Feed, Chop, etc., and our customers need not fear that the quality of the goods will be lowered to make up for the reduction in prices. We are simply giving them the benefit of the margin necessary to cover losses and interest charges incurred on the credit system.

Goods delivered to any part of the town or Ashburnham.

Telephones.—Bell No. 38, Ontario No. 112,

RAILWAY CHIEFS.

Sketches of Messrs. Van Horne and Depew.

THE C.P.R. IN NEW YORK

Facts About the Authors of the Agreement—Men Who Have Risen to Positions of Immense Responsibility—Their Early Training.

THE agreement recently arrived at between the Canadian Pacific Railway and the New York Central, or what is generally known as the Vanderbilt system, by which the Canadian road has obtained an entrance to the commercial metropolis of the United States marks a distinct epoch in the railway history of this continent. The matter is one of importance to Canadian interests, and a few words here may not be out of place with regard to the executive heads of these two systems—Mr. Van Horne and Mr. Chauncey Depew.

It is a notable fact that while school books and other literature for the young teem with stories of the lives of men who have in times past distinguished themselves in all departments of life's battle, a living example is rarely presented to encourage and stimulate ambitious youth. The reason is certainly not a lack of subjects. It may be owing to a habit of ascribing to luck successes that can only be achieved by pluck, for how common is it to hear it said of a man, "His career has been remarkably lucky; everything favored him from the start," whereas the subject probably met with obstacles that would have proved insurmountable to others and pluckily fought his way when many would have given up the fight. How could it be said that luck could convert a telegraph operator into the president of a vast railway system? And yet this in brief is the history of William C. Van Horne.

When thirteen years of age Mr Van Horne, who was born in Will County, Ill., entered the Illinois Central Railway, Chicago as telegraph operator. He early developed a natural capacity for railway work, which alone would have distinguished him. But this was seconded by an intense thoroughness in everything he undertook, coupled with a determination in pursuit of whatever object in view, that would have achieved for him abundant success in any sphere.

From 1858 to 1864 he served in various capacities on the Joliet Division of the Michigan Central, and here as on the Illinois Central his natural aptitude for railway work was soon recognized by those under whom he was placed. In 1864 Mr Van Horne

MR. W. C. VAN HORNE.

took a position with the Chicago & Alton. His eight years' connection with that railway was one of steady progress and promotion. Six months ticket agent and telegraph operator, three years train despatcher, one year superintendent of telegraphs, three years division superintendent. During his service with this railway his administrative ability distinguished him even among those to whom he was subordinate and soon marked him as a coming railway man. This was more apparent as he succeeded to more responsible positions, and with the determination always to carry his point, which he generally managed to do when dealing with individuals or corporations, made him a valuable officer for any railway. In July, 1872, he accepted the position of general superintendent of the St. Louis Kansas City & Northern Railway, which he filled for two years. For four years after that he was general manager of the Southern Minnesota Railway, and for two years ending December, 1879, he was president of the same company. In January, 1880, Mr. Van Horne became general superintendent of the Chicago, Milwaukee & St. Paul Railway and subsequently general manager and vice-president of the company, before his connection with the Canadian Pacific Railway. It was in 1882 that he became connected with the C.P.R. as general manager of construction at Winnipeg. Afterwards he was promoted to the vice-presidency and then to the highest position in the big railway corporation of which he is to-day the chief.

Of his career since his connection with the Canadian Pacific, his zealous labors for the best interests, and ambitious aims and designs on behalf of the great railway, little need be said. They have long been subjects of actual interest among Canadians from Halifax to Vancouver.

The latest "deal" consummated by Mr. Van Horne, that with the New York Central giving the Canadian Pacific Railway access to the American metropolis, is characteristic of one of the traits that early displayed itself among his capabilities as a railway manager. This scheme, which gives the C. P. R. an entrance to New York, has occupied the attention of its president for the past two years, and the arrangement is considered even more satisfactory than it was at first thought could be made, and is expected to result in the greatest advantage to the railway.

Of Mr. Van Horne's relations with the able staff of managers he has gathered round him and the general contentment and harmony that prevails in every department of the road, there is no better evidence than the conspicuous absence of strikes or any kind of friction to impede the volume of business of the railway.

Doubtless few of the many visitors to Mr. Van Horne's office in Montreal have failed to notice his characteristic manner of receiving them "When you approach him," said one who has often interviewed the C. P. R. president, "he swings himself quickly round on his pivot-chair, covering you with a keen, penetrating pair of eyes that make you feel for the moment as if you were being held up to the light and looked through."

"Did you ever see one of Mr. Van Horne's sketches?" asked another gentleman who knows him. "He has a habit of sketching with a pen or pencil while talking or listening, and you may come across sketches so made in any hotel from the Atlantic to the Pacific. Once I found sketched on a blotting pad in a St Paul hotel a sketch of a locomotive, the head and front of which was made in the form of a dragon snorting fire and smoke, speeding over a prairie or plain at the head of a train of cars. On the locomotive were the letters "C.P.R.," and in the distance appeared several other trains which the former was leading. Of course I concluded Mr. Van Horne had sketched the picture and left it there."

(To be continued.)

COCKSPUR'S TRIUMPH.

An Incident of House-Cleaning in the Country Districts.

Victory.

The Dear Girls.

Maud—"Oh, I'm invited to the Wayupp' ball; but I don't know what in the world to wear. What would you wear if you had my complexion?"

Millicent—"A veil."

A Veteran.

Aged Applicant—"I fought wizz gr-r-and Napoleon at St. Helena."

Young Man—"Napoleon didn't fight at St. Helena."

Aged Applicant—"Monsieur ees meesinformed. I was hees valet, and he fought me all ze time when I dress him in ze morning."

Gifts One Would Rather Not Have.

She—Dora Goode is a girl of most tantalizing misfortunes. Blushing with her is voluntary——

He—She could make great capital out of that gift.

She—Ah! but, you see, she can only blush with her nose.

Signed the Transfer and Died.

CANNINGTON, Ont., April 24.—J. E. Smith, proprietor of the Queen's Hotel, had just completed the sale of his hotel property to Mr. T. Edwards and after signing the papers he complained of a pain in his head and thought he would lie down for a few minutes. He did so, but in 15 minutes his life had left him. His sudden death is attributed to the bursting of a blood vessel in the brain. Deceased was known as a prominent sporting man, having been the owner of F. O. B. and Maud S.

A Welcome Announcement.

Those who have tested it say that for the grippe, and especially for the cough that hangs on after the disease itself seems cured, there is nothing equal to Kemp's Balsam, the specific for all throat and lung diseases, and the best cure for coughs and colds. The first dose will convince you of its excellent effect. All druggists sell it at 50c. and $1 a bottle. dw

Editorial Evidence.

Gentlemen—Your Hagyard's Yellow Oil is worth its weight in gold for both internal and external use. During the late La Grippe epidemic we found it a most excellent preventive, and for sprained limbs, etc., there is nothing to equal it. Wm. Pemberton, Editor Reporter, Delhi, Ont. 1w183

Spring Cleaning.

Be particular every spring to clean the house, but never mind cleansing the blood until some troublesom disease takes hold of you. This is poor policy when by using Burdock Blood Bitters the blood will be thoroughly cleansed, the body strengthened, and future suffering prevented. 1w183

Everybody Likes It.

Wm. Dredge, Eilen street, Barrie, Ont., says: One bottle of Miller's Emulsion of Cod Liver Oil brought back appetite which other Emulsions took away; removed cough entirely, and gained five pounds. It tastes just like cream, the oil being perfectly disguised. Sold by all druggists. dw

A Winnipeger's Opinion.

The following is taken from a letter from Mr. D. Davis, Winnipeg, Man.: "Being persuaded to use Hagyard's Pectoral Balsam for a troublesome cold, I was entirely cured by the use of two bottles." 1w184

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss she clung to Castoria.
When she had Children, she gave them Castoria.

Everybody Admires Soft White Hands,

And every lady ought to use Dyer's Jelly of Cucumber and Roses, as it makes the skin soft and smooth. Druggists keep it. W.A. Dyer & Co., Montreal. 6292

HAVE no equal as a prompt and positive cure for sick headache, biliousness, constipation, pain in the side and all liver troubles. Carter's Little Liver Pills. Try them. dw

AN INACTIVE or Torpid Liver must be aroused and all bad bile removed. Burdock Pills are best for old or young. dw

AS A PICK-ME UP after excessive exertion or exposure, Milburn's Beef, Iron and Wine is grateful and comforting. dw

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold everywhere, or sent by mail.

FOR FLAX-SEED EMULSION COMPOUND

BRONCHITIS

130 Lexington Ave., New York City, Sept. 19, 1889.

I have used the Flax-Seed Emulsion in several cases of Chronic Bronchitis, and the early stages of Phthisis, and have been well pleased with the results.

JAMES K. CROOK, M.D.

CONSUMPTION

Brooklyn, N.Y., Feb. 14th, 1889.

I have used your Emulsion in a case of Phthisis (consumption) with beneficial results, where patient could not use Cod Liver Oil in any form.

H. P. ROGERS, M. D.

NERVOUS PROSTRATION

Brooklyn, N. Y., Dec. 20th, 1888.

I can strongly recommend Flax Seed Emulsion as helpful to the relief and possibly the cure of all Lung, Bronchial and Nervous Affections, and a good general tonic in physical debility.

JOHN F. TALMAGE, M. D.

GENERAL DEBILITY

Brooklyn, N. Y., Oct. 10th, 1883.

I regard Flax Seed Emulsion as greatly superior to the Cod Liver Oil Emulsion so generally in use.

D. A. GORTON, M. D.

WASTING DISEASES

137 West 54th St., New York, Aug. 6, 1888.

I have used your Flax-Seed Emulsion Compound in a severe case of Mal-nutrition and the result was more than hoped for—it was marvelous, and continuous. I recommend it cheerfully to the profession and humanity at large. M. H. GILBERT, M.D.

RHEUMATISM

Sold by Druggists, Price $1.00.

FLAX-SEED EMULSION CO.

Vocal duet..... "The Venetian Boat Song"..... *Blumenthal*
Miss Vair and Mr. T. Dunn.
Selection..... "The Golden Fleece"..... *Ripley*
Amateur Orchestra.
God Save the Queen.

The Amateur Orchestra.

Last night the EXAMINER had the pleasure of attending a "dress" rehearsal of the selections to be played by the Peterborough Amateur Orchestra at the P. A. A. A. concert to-night, and the excellent manner in which they acquitted themselves, is an indication of the pleasure that will reward those who attend the concert to-night. The orchestra has a strength of ten or eleven, and they give capital music. Their practice quarters are at the parlours of the Olympic Club, and their practice nights are sure to bring out a good attendance of club members. These excellent club rooms are a great benefit to the young men about town who are fortunate enough to be members. The pleasant rooms form a pleasant place of meeting for social intercourse, chats over the different athletic interests represented in the club membership, and for the enjoyment of games of various kinds associated with the vicious belongings that mar many of the forms of enjoyment presented to our young men. There are a few members it seems who do no not appreciate the benefits of the club rooms as fully as they might. It is to be hoped that these will take a deeper interest in the future or possibly some, when when they are anxious to avail themselves of club privileges, may find the opportunity wanting.

The "Pie" Social.

The school room of the Charlotte street church was crowded to the doors last evening, the occasion being a popular pie social and entertainment given by the Epworth League of Christian Endeavor. The programme, which was a lengthy one, was opened by a well-rendered piano solo by Miss Clarke. A song by Mr. Knowles was given in good voice. Mrs. Pearse rendered a solo in her usual excellent manner. Mr. Davis sang with his usual ability. Then followed a comic duett by Miss Brunirette and Prof. Ketchum, which received a well-deserved encore to which they willingly responded. A fine quartette was given by Misses Heubeck and Wrighton and Messrs. Ross and Ketchum. Another solo by Mr. Knowles was well appreciated by the audience.

The programme was concluded by the quartette singing a comic piece called "Managers' Troubles" which was encored and responded to by singing "The Auctioneer."

The Pie Social was a novelty and proved a big success. Owing to the intenese of the hour it was thought better to have the spelling match in the near future so another treat is in store for the friends of the league.

The Charlotte street Epworth League is constantly adding new members to its roll. There is no charge for becoming members. The only conditions required are that you subscribe to either the active or associate members pledge. The league meets in the school room every Monday evening at 8 o'clock.

Was it Incendiarism ?

To the Editor of the Examiner :

SIR,—I saw by your issue of last evening that Mr. John E. Belcher's lodge on Pigeon Lake Narrows was totally consumed. The opinion prevails that the lodge was set on fire through some malicious feeling against Mr. Belcher. I can scarcely believe that a gentleman of Mr. Belcher's genial courtesy and open-handed hospitality could have brought upon himself so unkind a return for his good-fellowship. It certainly rests with the people of Eastmore to assist Mr. Belcher in bringing the guilty parties to justice. He has been in correspondence with several prominent citizens of Rochester, who were thinking of building cottages near this place. It is to be hoped that they will not be deterred by such an exhibition of wanton lawlessness from adding to the revenues of the people in that neighborhood, the general prosperity of the township and to their own enjoyment. I understand that the remains of the household goods with iron parts were all found in the ashes, and that everything that belonged to the house went down with it.

Mr. Belcher had no insurance for companies are chary of such risks, so that when the good-will and considerate behaviour of those about can not be relied upon the property of the public is at the mercy of the evil-disposed. Mr. Belcher's loss cannot be short of eleven hundred dollars, notwithstanding which he is preparing to rebuild.

YOURS, etc.,
CANORIST.

Presbytery of Peterboreugh

The Call of Rev. A. McWilliams to St. Andrew's Sustained.

A meeting of the Presbytery of Peterborough was held at St. Andrew's church this morning. There were present, Rev. John McEwan, Moderator, in the chair, Rev. Mr. Hyde, Warsaw ; Rev. Mr. Torrance, St. Paul's, and Rev. Wm. Bennett, clerk of Presbytery, Springville, ministers ; and Mr. D. M. Roger, St. Paul's, and Mr. Wm. Graham, Lakefield, elders.

The call of Rev. A. McWilliams, South Mountain, was placed before the presbytery and supported by Dr. Bell and Mr. John McClelland and formally sustained.

The clerk was requested to forward the call, together with the reasons for the translation and guarantee of manse and $1 200 salary, to the Brockville Presbytery in whose hands the matter now is. A committee consisting of Rev. Mr. McEwan, representing the presbytery of Peterborough and Messrs. Dr. Bell and Messrs. John McClelland and George Paton, representing the congregation of St. Andrew's, was appointed to attend the meeting of the Brockville Presbytery and plead the translation.

After appointing Rev. Mr. McEwan and Mr. Wm. Graham to represent Peterborough Presbytery at Synod on the Committee on Bills and Overtures, the Presbytery adjourned.

The Human Body Affected by Atmospheric Changes.

It is believed by many scientists that the electrical conditions of the atmosphere have a considerable effect upon the human body. Many persons are seriously affected during a thunderstorm, under circumstances that preclude the supposition that the effects are owing to fear. There are persons that can predict a storm by a peculiar physical condition. Probably much of the influence of certain winds upon the system is owing to this cause.

It is an acknowledged fact that broken-down and debilitated systems are easily and often most seriously affected by electrical atmospheric changes. These varied changes and conditions of atmosphere at this season are particularly fraught with difficulty and danger to those who suffer from nervous debility, a tired, wearied feeling, a clouded brain sensation, restless and disturbed sleep, a languid feeling, a morose disposition, melancholia and feelings of morbidness. All of these characteristics are to be dreaded ; they are symptoms which lead to terrible and direful results, unless promptly attended to. The genius and science of man has fortunately come to the rescue of suffering humanity with that wonderful preparation, Paine's Celery Compound. It is no simple tonic, causing exhilaration at the moment it is used, without after effects. It is a true brain and nerve food, gives strength and vitality to all parts of the system, and builds up a body with vigour to resist the various forms of disease which lurk around. Paine's Celery Compound has always been successful when physicians have failed ; it has given life and strength to the weak, and long years to the hopeless and despairing one.

West Riding Commissioners.

Additional Licenses Granted—Sqnaring Accounts—Rules and Regulations Adopted.

The West Riding License Commissioners met in the council chamber yesterday afternoon. The business transacted included the closing up of the accounts for the current year ending April 30th, and the issuing of licenses for taverns to Jermiah Carew, E. White and T. Cavanagh. On account of insufficiency of hotel accommodations a license was not issued to E. R. Hamilton. The total number of licenses in the riding are as follows :

Number of taverns in town, 21.
Number of shops in town, 7.
Number of taverns in Lakefield, 4
Number of taverns Smith, 3 ; (one a six-months' license.)
Number of taverns in Ashburnham, 2; one wine and beer license; shops, 2.

BOARD REGULATIONS

The following rules and regulations were adopted by the Board :

PETERBOROUGH, March 28th, 1891.

WHEREAS,—By the Liquor License Act, R S O, 1887, Section 4, power is given to the Board of License Commissioners at any time before the first day of May in each year, to pass resolutions for regulating and determining the matters in such section set forth and also in and by such resolutions to impose penalties for the infraction thereof.

Therefore, the Board of License Commissioners in and for the West Riding of the County of Peterborough, on this 27th day of March, 1891, resolve, declare, and enact as follows :—

1st. That no Tavern or Shop License within the meaning of the above Act will be granted to any person whom the said Board has reason to believe is not a fit and proper person to keep such tavern or shop.

2nd. That all persons holding or hereafter holding a tavern license within the meaning of the said Act shall during the continuance of the license entirely remove and keep removed from the lower half of the windows of the bar-room of such tavern, all frosting, blinds and shades of every description whatever between the hours of eleven o'clock each Monday, Tuesday, Wednesday, Thursday, and Friday evening and six o'clock on the next morning and between the hours of seven o'clock each Saturday evening and six o'clock on the following Monday morning.

3rd. That all persons now holding or hereafter holding a tavern license within the meaning of the said Act shall during the continuance of the license close and keep closed the bar-room of each tavern each Monday, Tuesday, Wednesday, Thursday and Friday between the hours of eleven o'clock in the evening and six o'clock of the following morning, and between the hours of seven o'clock each Saturday evening and six o'clock on the following Monday morning.

4th Any person duly convicted of any offence against sections two or three above shall be liable to a penalty for each offence of not less than ten dollars nor more than twenty dollars with costs, such penalty and costs to be collected in manner provided by such Act.

5th. The Board requires all parties receiving a license to strictly see that their places so licensed will be kept according to the above requirements of the said Board, and especially enjoin them to keep their places closed on Sundays and on Saturday nights, as any one licensed so offending will be strictly dealt with according to law.

6th. That the Mayor and Town Council are hereby requested by the Board to have their chief of police and all police officials to aid the inspector in having the Crooks' Act rigidly enforced.

7th. The newspapers of the town are kindly requested by the Board to notify the public through their columns that, according to the Crooks' Act, any person who buys or obtains, or attempts to buy or obtain, intoxicating liquors during prohibited hours, is equally guilty of an offence under the Crooks' Act with the seller of the liquor obtained under such circumstances.

8th. The Inspector is instructed to make a personal service of a true copy of all the above resolutions upon all persons receiving a license for taverns and shops, and that he note such personal service for reference hereafter, if confirmation of such service should be required by the Board of Commissioners.

Y. M. C. A. Notes.

The young men's meeting was well attended on Saturday evening. Mr. E. A. Mannell's impressive address on David carried conviction to every heart. The singing was hearty and greatly enjoyed. At the close Mr. G M. Roger explained the new building scheme, and what we hoped the young men would do to further the interest we all have so much at heart. An enthusiastic young men's committee was appointed to canvas the young men of the town for subscriptions for our new building. Mr. Albert Hamilton is chairman, and Mr. A. Jolly secretary. They have entered heartily on the work, which is sure to bring success.

On Sabbath morning the consecration service was a season of blessing. Mr. Herbert Fife led the meeting in an acceptable manner.

Personal purity meeting Sabbath afternoon was addressed by Mr. Albert Hamilton, whose heart searching words impressed all that we did not live for self, if we do our lives would be a failure, but urged all to accept Christ, then we would be sure of success. The orchestra led the singing.

The gospel and song service sabbath evening was attended by a large number. Mr. Frank Mason gave a very thoughtful and practical address from Luke 12-31. It was good to be there for the Holy Spirit applied the word to the hearts of all present and results are sure to follow the earnest gospel message.

Bible Class Tuesday evening at 8 p.m.

Reception Committee will meet Tuesday at 9 p.m.

Devotional Committee will meet Wednesday 9 p.m.

Rescue Brigade will meet Friday at 8 p.m.

The free illustrated lecture in the opera house on Thursday evening on Association Buildings by Mr T. S. Cole Travelling Secretary, illustrated by Mr. R M. Roy, will be a treat to all and the address of Rev. Mr. Johnston, Lindsay, will no doubt attract many. The plans of the new building will be submitted to our citizens. No subscriptions will be asked. All interested in the welfare of our young men and prosperity of our town should be present. Music by Y.M.C.A. band.

Importance of Sanitary Plumbing.

The following from an official of the Baltimore Health department, originally published in the *Scientific American* series to emphasize the importance of proper sanitary plumbing :—

I notice in your issue of July 7 an article on "Contagious Diseases," in which the writer states that scarlet fever "is produced by a specific poison, which emanates from the person of the patient, and can be caused by no other means."

During a period of 54 years in Baltimore, 1830 to 1884, inclusive, scarlet fever caused 12 197 deaths, equal to a yearly average of 226, 334 having occurred during the latter year ; and during that year our city council passed an ordinance regulating plumbing, which took effect January 1, 1884, the result of which in the reduction of the mortality from scarlet fever, has been remarkable. During 1884, 104 ; 1885, 63 ; 1886 32 ; 1887, 36—a total for four years of 240, equal to a yearly average of only 60 deaths. Was not the great mortality from scarlet fever during the 54 years prior to our plumbing ordinance caused in a very great measure by defective plumbing ? We think so.

Diphtheria for seven years prior to our ordinance, 1877 to 1883 inclusive, caused 3,289 deaths, equal to a yearly average of 469. Since the ordinance has been in force the yearly average has been 234, or a total of 934 deaths for four years. We are strong advocates of sanitary plumbing.

A. R CARTER,
Health Department.
City Hall, Baltimore, July 9, 1888.

After suffering horribly for years from scrofula in its worst form, a young son of Mr. R. L. King, 706 Franklin street, Richmond, Va., was recently cured by the use of Ayer's Sarsaparilla. No other medicine can approach this preparation as a conquer of the blood.

Sir Henry Tyler Sustained.

The President's Policy Approved by the Grand Trunk Shareholders—Sir Charles Tupper's Philippine Fall Flat.

(*Special Cablegram to the Examiner.*)

LONDON, April 28.—The meeting of the Grand Trunk Railway Shareholders which was adjourned from the 14th inst. was held here to-day when the policy of the president, Sir Henry Tyler, was confirmed and the retiring directors re-elected by a vote of 47, 230 to 20,780.

South Monaghan.

(*From Our Own Correspondent.*)

Mrs. Alexandria Lashey is very ill at present. We tender her our deepest sympathy in her affliction.

We are pleased to notice that we hear oftener from Fraserville now; procrastination was what was the trouble.

We learn that Mr. John Mounsey wishes to sell his farm. Intending purchasers ought not to miss examining the above gentleman's property as it is in fine land and in good condition.

I merely asked some time ago what was the matter with the Baillieboro correspondent because were anxious to hear from him. He always gave us interesting items,—not mere nonsense.

Miss Lottie Finesmore is soon expected home from Peterborough where she has been learning the dressmaking.

Miss Lily Might, music teacher, is now ready to receive pupils who wish to learn.

Allow me to make a few remarks on the Fraserville correspondent's insinuations on Centreville in last week's edition. It flatters me to see him take so much interest in Fraserville, but, no doubt, if I was to write in the same strain, I could bring items to notice of an injurious nature ; but it is not my style, and I defy my friend to bring forth a statement made in these columns that was not based on honest principles. And it is on account of those who are unacquainted with Fraserville that I write this, so that they will take no notice of the exaggerated statements presented. It is news I like to give, and my friend must be a little short when he has to comment on me and my items, or else Fraserville must be a very small place. It is well the G.T.R. did happen to run through it, or else the sun would probably have never shone on this worthy village. I will explain, or else my contemporary might not understand, the land is of a low, wet nature, and was covered with a dense swamp at one time. The railroad passed through, a small clearing made, and in course of time a few tradesmen started. It would be a pity to see the fine land we have here, worth $95 and $100 an acre, cut up by a railroad. Am also happy to note that Fraserville is to have a telephone in a short time. We hope to see this statement come true, which is rather doubtful. No doubt it will be of use to the village but of no use to us. We can get our wants supplied at home and at Peterborough prices. We must be on the alert if we want news, and I must acknowledge that my friend must be a little snow when he says it is hard for any other correspondent to say much. He cannot deny the natural improvement of Centreville, and about it being that way before I saw it. I am glad to say it was, and the citizens have received the benefit from it. He says Centreville has lost all its tradesmen. Certainly some have left, as is the way with all villages, towns etc., but others quickly took their places.

Eggs and Barley.

Mr. Carling told the farmers last fall that exclusion from the United States market by the McKinley tariff would do them no harm inasmuch as he and his colleagues had given them control of the Canadian market. If they had a surplus beyond the requirements of the home market they could employ fast steamers and send it to England or Jamaica. Indeed, the truly original statesman maintained that the McKinley tariff would do good by making our people "self-reliant." The farmers find to their cost this spring that Honest John was talking nonsense. Eggs fetch only 8 and 9 cents in Western Ontario, at Chatham, Amherstburg and Windsor for instance ; while across the river in Detroit they sell for 13 and 14 cents. The price in New York on Friday was 15 and 15½ cents per dozen. Barley brings 55 cents in Toronto as compared with 80 in Buffalo. In each case it is clear that the Canadian pays the duty, according to Sir John Macdonald's well-known formula :—

"I put a case in the Eastern Townships of a man upon the imaginary line which lies between this country and the United States. Suppose a man has 100 acres on the Canadian side of the line, and 100 acres of land on the American side of the line. Suppose he grows 1000 bushels on each of his farms. He takes his 1000 bushels to the American market, and gets $1 a bushel for it. He takes his 1000 bushels of Canadian barley to the American market and gets but 85 cents a bushel for it, because he has to pay 15 cents a bushel duty for taking it across an imaginary line. How can it in to this case be said that the consumer pays the duty ? It comes out of the pocket of the Canadian farmer."

On the other hand when the Canadian farmer goes to buy sugar he has to pay 8 cents a pound for granulated or a dollar for 13 pounds, whilst the American farmer can purchase it for 5 cents per pound or 21 pounds for a dollar. In Canada a dozen of eggs procures exactly one pound of granulated sugar ; at Detroit or Buffalo a dozen eggs procures nearly three pounds. A bushel of barley sold in Canada procures 7 pounds. A bushel sold in Buffalo procures 16. No doubt these are extreme cases, but for that reason they are useful in illustrating the inevitable effect of trade restriction, which is to reduce the value of the coarse products that the Canadian farmer has to sell and to enhance the price of the manufactured goods which he has to buy. He can see for himself by comparing the market quotations in the two countries that his own products suffer by the McKinley Bill, and any conscientious manufacturer will tell him that the cost of store goods, such as cottons, ironware, nails, coal oil, binding twine, salt and other articles, is augmented by the N.P. For the latter proposition he doesn't require any better proof than the plaint of the red-parlor men that American competition would ruin them, though for twelve long years they have been coddled and pap-fed at an enormous expense to the natural industries of the country.

This question is of as much interest to the local storekeeper and the wholesale merchant as to the farmer. On him they depend. When he is doing well they do well ; when he is poor they suffer. Is it to their interest that he should be ground between the upper and nether millstones in the manner described ? Why is it "disloyal" for Liberals to urge that he should be released from the cruz and given a chance to make the most of his labour, instead of being obliged as at present to buy in the cheapest market ? Is it not manifest that if we had unrestricted trade with the States he would have more money to spend with them and with us all ? They need not look for better times whilst the existing dispensation lasts.—*Globe.*

What Good Reliever with Accompaniments.

"I can truly say my work and specialties extend over the whole Dominion at the present time. However, just a month ago, a grocer engaged me to go to a remote village in Ontario to work for people who heard of my reputation. The grocer assured me that from what he heard, the people would receive me kindly and joyously. He said two would be workers at my trade had been tried, but the miserable work they turned out. I went away with the grocer, and was introduced by him, and just think of it ! I have now the whole field to myself. The people call me 'honest working and trusty Diamond Dyes,' and will employ no other."

A Pleasant Herb Drink—A Spring Medicine.

The druggists tell us that people call daily for the new cure for constipation and sick headache discovered by Dr Silas Lane. It is said to be Oregon grape root (a great remedy in the far west for these complaints) combined with simple herbs, and is made for use by pouring on boiling water to draw out the strength. It sells for 50c. and $1 a package, and is called Lane's Family Medicine. dw

Purity the importance of keeping the blood in a pure condition is universally known, and yet there are very few people who have perfectly pure blood. The taint of scrofula, salt rheum, or other foul humor is hereditary and transmitted for generations, causing untold suffering, and we also accumulate poison and germs of disease from the air we breathe, the food we eat, the water we drink. There is nothing more conclusively proven than the positive power of Hood's Sarsaparilla over all diseases of the blood. This medicine, when fairly tried, does expel every trace of scrofula or salt rheum, removes the taint which causes catarrh, neutralizes the acidity and cures rheumatism, drives out the germs of malaria, blood poisoning, etc. It also vitalizes and enriches the blood, thus overcoming that tired feeling, and building up the whole system. Thousands testify to the superiority of Hood's Sarsaparilla as a blood purifier. Full information and statements of cures sent free.

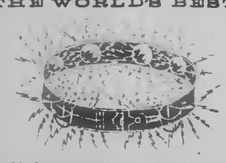
THE WORLD'S BEST.



ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a powerful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, FEMALE DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and ranks as the best in the world ; we defy anyone to bring proof to the contrary.

Do not confuse this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you wish to experiment with cheap articles, buy THEM ; but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. The Dorenwend Electric Belt and Attachment Co., C. H DORENWEND, Electrician, 103 Yonge St., Toronto, Canada. eod-w

BUY A HOME!

Stop Paying Rent ! Be Your Own Landlord !

WE OFFER FOR SALE BY PUBLIC AUCTION ON

MONDAY, 11th MAY, 1891, at Three p.m., on THE GROUND

Lots on Romaine Street. Each Lot is 33 ft. by 220 ft. Deep and high and dry. Ten minutes walk from the Edison Works, Peter Hamilton Works, the Cotton Works, and the Bridge Works. The new Electric Car Line will touch this street, and Simcoe and Antrim Streets will be opened through to the Fair Ground.

To secure a respectable street the deeds will contain a clause compelling the purchaser within three years to build a house of uniform distance from the front, and that the houses when built shall not cost less than $600. These lots are double the depth of the ordinary town lot and are fine for gardening. This is the finest property for the market and new manufacturers about building lots to be had at low prices. These are only lots left on the south side of the street. Lots in the neighborhood are held the depth sell at $6 to $10 per foot frontage, while these lots are 220 ft. deep and will be sold for what they will bring. The lots while sufficiently near the great factories, are close to George street, and being off the main, are clean and healthy.

Ten years will be given for payment. $5.00 on the $100 down ; $5.00 on the $100, in one month ; $10 on the $100 in 3 months, then a free deed will be given and mortgage taken back for the remainder of the purchase money, payable in 9 equal annual payments with interest at 6 per cent. Five per cent. discount will be allowed for cash. For further particulars apply to

DRINKLESS

VOL. XII. NO. 100. PETERBOROUGH, WEDNESDAY, APRIL 29, 1891. PRICE TWO CENTS.

CASH HARDWARE STORE.

On and after 1st April we shall do business on a **Cash Basis.**

To cover the inevitable losses attendant upon a credit business, which accrue from amount of time spent in keeping accounts, collecting, bad debts, interest account, and numerous other ways, larger margins of profit must be asked.

In these times cash buyers ask, expect, and are entitled to close prices. A careful consideration of the subject convinces us that the time has come for a cash business done on smaller profits.

The only customers who may possibly be put to inconvenience are those who have had long credit. In more ways than one it will be to their advantage to pay cash.

For convenience of our old customers who consider their accounts due when presented, we will call 30 days cash and render all accounts the first of each month, and we wish to say that will be happy to do business with them on those terms.

As the new departure is something of an experiment, what would be considered a close cash price will be made all through the stock. Not a few leaders only, but a general reduction in everything from the fourth flat to the cellar.

Our idea is to perform more than promised rather than promise more than can be fulfilled.

Our stock is large and varied, consisting of **Builders', Contractors', Household, Mechanics', Painters', Shoemakers', Farm, Mill, Factory, Lumbermen's, Sporting, Threshers', Cabinet-makers', and other lines of Hardware.**

An old saying:—"You should go to Kingan's where you can get anything from a Needle to an Anchor."

THE TWO PARLIAMENTS.

OPENING OF THE ONE, CLOSING OF THE OTHER.

Little Business Transacted at the Legislature Yesterday—The Consolidation and Revision of the Laws Respecting the Education Department.

TORONTO, April 29.—In the Ontario Legislature, yesterday, Mr. Meredith called attention to the fact in the bill consolidating and revising the laws respecting the Education Department, the minister proposed to give up the authority of the department over separate schools which was given by the organic law of those schools. He insisted that the educational institutions which were supported by public taxation should be controlled by the state.

Mr. Ross, in reply, said that there was surrender of the statutory control of separate schools. The power of the department over separate schools is set forth in the act relating to those schools. This bill simply sets forth the powers which the department exercises over such schools, as it has unlimited control over and was drawn deliberately with the intention of indicating plainly the extent of those powers. The bill does not give up any of the powers the Government now has over separate schools.

Upon Mr. Hardy's motion to go into committee to consider the bill respecting the new mining regulations, Mr. Conmee moved in amendment that the House had not sufficient information to form an opinion upon the effect of the imposition of a royalty, that the bill be not now considered and that a commission of practical men be appointed to of enquire into and report upon the best mode dealing with the mining lands. After a brief explanation from Mr. Hardy the amendment was withdrawn for the present. Several important changes were made in the bill. The price of mining lands in Algoma, Thunder Bay, Rainy River and Nipissing, north of French River, Lake Nipissing and River Mattawa was placed, when in a surveyed township within 12 miles of a railway, at $4.50 per acre, when in unsurveyed territory within 15 miles of a railway at $4 per acre, and all other mining lands in that district at $3 per acre. The price of all other mining lands south of the aforesaid lakes and rivers, when in a surveyed township within 12 miles of a railway, was placed at $3 per acre; when situated elsewhere, at $2 per acre. Under certain conditions grants may be made of mining lands at the prices heretofore applicable for which bona fide applications were made prior to April 24, 1891. The royalty of 3 per cent. on silver, nickel or nickel copper remained, but the proposed royalty of 2 per cent. on iron was dropped. Iron was placed on the list of ores which "shall be subject to such royalty as shall from time to time be imposed by order in council," not to exceed 2 per cent. "Nevertheless, and to assume speedy development, it is provided that the royalty hereby reserved shall not be imposed or collected on any ores mined, wrought or taken until seven years from the date of the patent of the lease."

Mr. Mowat introduced a bill respecting local option in liquor selling. The decision of Chief Justice Galt quashed a number of local option bylaws. The Attorney-General's bill is for the purpose of taking a test case to the Court of Appeal. In the meantime the License Commissioners will be given power to issue temporary licenses.

DOMINION PARLIAMENT.

The Speech from the Throne Will Be Delivered To-Morrow.

OTTAWA, April 28.—Ottawa is shaking off its lethargy to-night and once more assuming a busy aspect. The members are coming in fast, over one-fourth being here to-night, and in the morning trains will probably bring in twice as many more as are here now.

To-morrow's proceedings are not expected to be anything more than pro forma. The swearing-in of members will commence at 12 and, to use a phrase which has become historic, they will be "mesmerized in batches," until they have all taken the oath. The usual form is to swear in as many at once, four, six or eight, as can get their hands on the Bible. After that each member signs the roll of the House, and then, and only then, becomes a full-fledged member of Parliament. The swearing-in and signing being over, the disorganized body will be summoned to the Red Chamber, where they will be informed that His Excellency does not please to disclose the reason of his summoning Parliament until they have elected a Speaker, and the House will be dismissed until 3 o'clock on Thursday, when the formal opening will take place and the Speech from the Throne be delivered. No intimation can of course be got to-night as to what the speech is likely to contain, but it is not anticipated that the Government will announce any startling change of policy or pre-shadow any legislation of a nature likely to provoke determined opposition. It has already been announced that no great or general change in the tariff will be made, and the legislation members are said to be good speakers and some of them are practised Parliamentarians; but the familiar slouch hat and sonorous-rounded paragraphs of Mr. Blake will be sadly missed from the Opposition benches, while the Government will mourn the loss of argumentative strength occasioned by the enforced absence of Mr. Colby. Apropos of this gentleman, understand that his resignation has been accepted and that he does not anticipate a very early return to public life, as his business in England will probably occupy him for some time. The House will also miss the portly presence of Mr. Carling, which will add somewhat to the appearance of the Senate. It is very freely stated that he will not remain in the Senate very long after the close of the session, but transfer his sphere of usefulness to Government House, Toronto, Sir Alexander returning to the Senate.

Invitations have been issued for the usual state dinner on Thursday night and the drawing room will be held in the Senate Chamber on Saturday.

The national board of the United Mine Workers of America concluded its session at Columbus yesterday. The meeting was called to hear statements from the presidents of states miners' organizations relative to the proposed strike May 1 for the enforcement of the eight-hour labor day. The reports were almost unanimous against the movement. The board has issued an address to the miners. It says that the financial aid given by strikers in the coke region has materially reduced the funds available for aggravating the eight-hour movement on May 1 and advises that it be deferred.

THE MURDERED BABES.

TRIAL OF THE ALLEGED BUTCHER OF THE McGONIGLE GIRLS.

Intense Interest Taken in His Trial at L'Original—Only Two Frenchmen on the Jury, Which Was Empaneled With Great Difficulty.

L'ORIGINAL, April 28.—Narcisse Larocque was placed on trial to-day for the murder of Mary and Eliza McGonigle in the woods near Cumberland on the afternoon of October 7, of last year. The murder was one of the most shocking in the records of crime. The victims were two school girls, daughters of James McGonigle, a farm laborer living about two miles from Cumberland, a village some eighteen miles below this city. The girls were 14 and 12 years respectively, and attended the village school. On the afternoon of Oct. 7, they left the schoolhouse at the usual hour for home. At a certain point in the road they were in the habit of parting from their young companions and taking a short cut to their home through the bush. The first part of their way lay over a steep road cut through Mr. Gamble's farm, ending in a mere car track through a dense plantation of second-growth trees. At the top of the hill they met a son of Mr. Gamble's driving a wagon, and they were likewise seen by one of Mr. Gamble's men, who was looking after cattle in an adjoining field. Their murderer is the only other person who is known to have seen them again in life. They did not get to their home that night, but as it was raining their parents concluded that they had remained at a friend's in the village, a course they had adopted on stormy nights more than once before. When, however, they did not reach home after school hours on the following day their mother became seriously alarmed. After supper the father started in to the village to make some inquiry. After diligent search he ascertained that the girls had started for home. The matter was canvassed among the simple villagers, and late at night it was determined to institute a search for them. Torches were procured, and the path along which they usually went through the bush examined. A little way off the regular way home the bodies of the two girls were found, lying almost side by side. It was easy to see that a considerable struggle had taken place before the murderous brute who encompassed their death had finished his work. The leaves all about the spot were tossed, and the surrounding shrubbery had been beaten down and broken. The most unpractised eye would guess the means of death. The protruding eyeballs and bruised throats showed that both had been strangled by the compression of strong and ruthless hands. The elder girl had also been struck over the head so that her scalp was laid bare, and her face and hands bore other contusions and evidences of the brutality of the monster who had slain her. The bodies were tenderly put on a vehicle and conveyed to the house. It would be useless to attempt to portray what a terrible home-coming this was to be distracted mother. The medical autopsy showed the motive for the fiend's deed. The bodies of both children had been violated.

The prisoner is defended by Neil McCrimmon of Macdonald, Macintosh & McCrimmon, Toronto, associated with A. Condamine of L'Original. It took four hours to empanel the jury, the Crown objecting to all but two Frenchmen and the defence objecting to all jurymen from the district in which the murder was committed. Some 60 names were called and finally the court had to wait till the jury in another case was through in order to obtain fresh material. The jury when finally selected had only two Frenchmen.

"EARNEST WORKERS" ARRESTED.

An Alleged Swindling Scheme Exposed in Philadelphia.

PHILADELPHIA, April 28.—Edwin W. Harris, Supreme President of the Beneficial Order of Earnest Workers, and Henry C. Burk, Supreme Treasurer, were arrested to-day on a charge of conspiracy and obtaining money under false pretences. A warrant was also been issued for A. Judson Harris, the Supreme Secretary. The "Earnest Worker," was one of many short term and quick profit institutions with which that city has been flooded the last few months, and by which thousands of people have been duped. The circular of the Earnest Workers promises $100 to all who paid $10 initiation fee and $2 per month for three months. An application was made to-day for the appointment of a receiver for the Beneficial Order of Earnest Workers. A hearing will take place Friday.

FELL TO HER DEATH.

Shocking Tragedy at St. Thomas Yesterday Morning.

ST. THOMAS, April 28.—A shocking fatality happened at the residence of Mrs. Jane Dickson, corner King and Walnut-streets, this morning, whereby her daughter, Mrs. Elizabeth Jones, met her death by falling downstairs and breaking her neck. The deceased, who has been visiting at her mother's for some weeks, has been ill with la grippe for about a fortnight past. About a quarter to four o'clock this morning her brother, Arthur, heard her get up and start to go down stairs. He says he heard her go down two or three steps when he heard her fall. He jumped out of bed, hastily lighted a lamp and found his sister lying, attired only in her night dress, at the bottom of the stairs.

An examination showed that the victim's neck had been broken by the fall. It is supposed that she got out of bed to go down stairs for a drink or medicine, and that being dizzy from the effects of the grip or suddenly fainting, she fell head first to the landing below. The deceased was a daughter of the late John Dickson and was in the 31st year of her age. She was married some years ago to Mr. W. H. Jones of Grand Rapids, Mich.

LORD LORNE FOR INDIA.

To Succeed Lord Lansdowne as Viceroy—The Princess to Accompany Him.

LONDON, April 29.—Lord Lansdowne leaves India in October. The Marquis of Lorne will succeed him in the viceroyalty. The Princess Louise will go out with the Marquis.

Professional Baseball Battles.

BRITISH AND FOREIGN.

ANOTHER BRITISH VICTORY REPORTED FROM MANIPUR.

Preferring Death to Dishonor, a Noted Historian Cuts His Throat—Another Jack the Ripper Unearthed—General News of a Day from All Lands.

LONDON, April 28.—The hearing of the charge preferred against C. A. Fyffe, the well-known historian of modern Europe, was to have been held to-day but owing to the critical condition of the accused, who, overwhelmed by the charge, cut his throat yesterday, the court granted an adjournment. Mr. Fyffe is the candidate of the Liberal party for the vacant seat in the House of Commons for the Eastern or Devizes division of Wiltshire and his character has always been above suspicion. The charge against him, that of committing an indecent assault upon a boy while traveling in a train, has created considerable discussion and many people believe it to be unfounded.

A large number of persons holding high positions in the church and others eminent in literary circles were in court to-day for the purpose of testifying to the blameless character of the accused. The Election Committee having Mr. Fyffe's political interests in charge has adopted a vote of confidence in him.

PRACTICAL CHARITY.

The Charity of the Queen of Portugal Makes a Good Impression.

LONDON, April 28.—Amid the excitement in Portugal an act of charity by Queen Amelia is favorably commented on. Having heard that the wife and children of Capt. Leitao, the Republican leader of the Oporto insurrection, were in absolute want, the father and husband being under sentence of imprisonment, the Queen herself has taken them under her protection and is supporting them, as well as other destitute families of the insurgents, out of her own private fortune.

As the success of the insurrection would have deprived the King and Queen of their throne and perhaps their lives, this is regarded as a remarkable example of magnanimity and charity.

RUSSIA MEANS WAR.

Everything Ready for the Immediate Transport of Troops.

LONDON, April 28.—A Vienna correspondent gives certain details in answer to the denial of warlike preparations by Russia. Several first-class fortresses including Warsaw and Kovno, also second and several third-class fortresses, are being reinforced for the reception of increased quantities of ammunition, provisions, field stores, etc. The network of railways leading up to Galicia and Bukovina is being extended. All these lines are under military supervision and the stations are supplied with military commanders. Everything has been made ready for the immediate transport of troops. All provincial and municipal officials stand under the direction of a committee at St. Petersburg, whose duty it is to prepare for the transformation of the army from a peace to a war footing in the shortest possible time in case of emergency. A new army corps, the 20th, is being formed near the Galician frontier. Altogether the conduct of Russia is said to be that of a nation getting ready for war.

THE "RIPPER" EVERYWHERE.

This Time He Appears in a Town on the Polish Frontier.

BERLIN, April 28.—Another frightful atrocity, similar to those committed by Jack the Ripper, is reported from Beuthen on the Polish frontier. The body of a woman was found this morning behind the military hospital in that town. It was mutilated in the usual manner, the abdomen having been cut open and other injuries inflicted too horrible to describe. The victim has been identified as the wife of a tailor named Imielan. The husband has been arrested, but gives an account of himself which frees him from suspicion of the crime. He said his wife had been criminally intimate with Dr. Kudelko of the army, who is now under arrest on suspicion of having committed the murder. He is highly connected.

The Rebel Rout in India.

SIMLA, April 28.—Gen. Graham's column on Saturday last surprised a force of 1000 Manipuris, who were entrenched behind earthworks. The British first cut off the retreat of the Manipuris and then charged upon the entrenched position. A severe hand-to-hand fight followed. The enemy was completely routed, losing 300 men. One British officer was killed and four officers were wounded.

SIMLA, April 28.—Further dispatches from the British columns advancing on Manipur confirm the report that the Regent of Manipur has fled to the hills with the prominent chiefs who assisted him in the revolt. A great fire has been seen in the direction of the capital, and a loud explosion which took place during the conflagration seems to indicate that the capital has been destroyed.

The British column which was recently at Silacan has utterly routed the enemy at Bissenpur. It is not expected there will be any further opposition of a serious nature offered to the advance of the British.

GRASS-WIDOWS GOOD TIME.

Hungarians' Wives Dispossessed When It Reached Home.

BERLIN, April 28.—Three-fourths of the male inhabitants of Hassuret, Sars county, Hungary, having emigrated to America, they sent back enough money to take their wives over. The wives instead of going to join their husbands with the money have begun a disgraceful drunken carousal, which the authorities are unable to stop.

No Arrangements Perfected.

NEW YORK, April 28.—A Washington special says: Secretary Foster denied to-day that there had been any conclusion of negotiations between the United States and Great Britain with regard to the sealing operations in Behring Sea during the coming season. "I do not say," he added, "that an arrangement of some sort may not be reached between the two Governments, but that I can take no cognizance till it comes. Our vessels are under orders to sail May 15, so that any change in the program must be made soon or it will be too late."

Married By Typewriter.

MARION, Ind., April 28.—Albert Barney and Jennie Karns, deaf mutes, were married at the Spencer House parlors by Rev. W. D. Weaver, who pronounced the important questions with the aid of a typewriter. The novelty of the affair attracted a large attendance.

The United States Attorney-General has received the report of District Attorney Grant of New Orleans in regard to the lynching of the Italians.

An examination into the funds of the Ninth National Bank of New York reveals a defalcation of $480,000 chargeable to its former president.

One of the results of the German coal miners' strike is that a coal famine is impending. The iron foundries in the Saig valley have been compelled to withdraw their fires in consequence of the scarcity of coal and most of the steel works along the Rhine have been forced to stop operations for the same reason.

Louis Jennings, freight clerk of the steam ship Vigilancia, which arrived at New York yesterday, was found to be suffering from variola and the vessel was quarantined.

John Devine, a New York line man while removing dead telephone wires yesterday, received an electric shock and fell from a pole to the pavement and was instantly killed.

Suits aggregating $3000 have been brought against the officials of the Ajax Club under whose auspices the recent Weir-Griffin prize fight was held at Nantasket by the owner and lessee of the building in which it was held for damages to the structure.

Children Cry for Pitcher's Castoria.

BOTH DROWNED.

A Craft Overturns Near Terrebonne—The Director of the College and a Scholar Perish.

TERREBONNE, Que., April 28.—Rev. M. C. Lacasse, director of the college, left in a boat with two scholars to cross the river. The boat was carried over the dam by the swift current and the director and one of the scholars named Courtemanche were drowned. The other scholar named Bastien managed to hang on to the boat and was rescued by people who witnessed the accident from the shore. Rev. Father Lacasse has been director of the college here for over five years and is a son of N. Lacasse, notary, of Ste. Elisabeth, county of Berthier, and brother of Auguste Lacasse, parish priest of Ste. Henri of Montreal. Young Courtemanche belonged to Worcester, Mass., and was 17 years old.

Gave Up Its Dead.

WINNIPEG, April 28.—A Maple Creek despatch says that yesterday a sensation was created by the finding of a man's body in Bear Creek. On his person was found a pocketbook containing the name and address of G. G. Leetch of Montana. The body was much decomposed.

Lumbermen Drowned.

OTTAWA, April 28.—Up the Du Lievre River beyond Buckingham a shantyman named Telesphore Larocque, in the employ of James McLaren & Co., was driving logs on St. Denis Creek when he fell through and lost his life.

MALTREATED BY GREEKS.

Attempted Massacre as the Result of a Rumor Respecting the Revival of an Old Superstition.

LONDON, April 29.—Despatches from Corfu report an outbreak of the Greeks against the Jews. The Greeks recently spread a report that the Jews murdered a Christian girl for the feast of the Passover, a child's body being found in the Jewish quarter, though the body was identified as that of a daughter of a leading Jew. The Jews declared the Greeks murdered the child as an excuse for rioting and plunder. The excitement became so great that 6000 Jews were compelled to close their shops and the Government put a military cordon around the Jewish quarter. In spite of this a crowd of Greeks broke into the Jewish quarter and built a bonfire in the square in which they declared the Jews should be burned. Before the rioters could carry out their intentions they were dispersed by the troops, although not before many Jews had been terribly beaten and injured.

FEET-WASHING AT A FEAST.

The Dunkards Perform a Peculiar Ceremony.

LANCASTER, Pa., April 28.—The Dunkard Brethren, or German Baptists, held the first of their annual series of love-feasts on Friday and the ceremonies concluded to-night. The leading feature of this service is the concluding one, which is the washing of each other's feet. The men sat on one side of the meeting house and the women on the other. Then each man washed the feet of four or five of his brethren and wiped them dry with a towel, and kissed them twice. The women go through the same performance among themselves. Not a pair of corsets could be found in the entire assemblage, the Dunkards frowning down such earthly appliances.

DIVORCED, HE SOUGHT DEATH.

A New York Commission Merchant Fatally Shoots Himself.

NEW YORK, April 28.—Leopold Landaur, the Wall-street commission merchant, whose wife was granted a divorce to-day on the ground of his illicit intimacy with servants, shot himself to-night at the Cooper Union Hotel, inflicting wounds in the neck and breast which are likely to prove fatal. He was removed to the hospital.

ATTEMPTED SUICIDE.

17-Year-Old Mary Morehouse Sought to End Her Troubles.

MERRITTON, April 28.—A young lady named Mary Morehouse, aged about 17 years living with her parents in Merritton and employed in the cotton mills, attempted suicide by swallowing a quantity of laudanum. Medical aid was summoned as soon as the condition of the girl was discovered and she will recover. It is understood the mad act was prompted by despondency arising from domestic troubles and a love affair.

LYNCHED BY SOLDIERS.

A Former Windsorite Shot to Death by Soldiers—Particulars of the Walla Walla Lynching Affair.

WINDSOR, April 28.—J. D. Hunt, the notorious crook, who formerly made his home in Windsor, is no more. He was lynched in Walla Walla, Wash., by American soldiers. Hunt was one of the most noted and desperate thieves and lawless people that ever lived in this place and his "sudden" death is not very much regretted. The particulars of his death are as follows: "On Wednesday night J. D. Hunt, a gambler, whose reputation was bad even among his companions, became engaged in an altercation with Private Miller, and struck him in the face. Miller returned the blow, and was getting the best of the fight, when Hunt drew a revolver from his hip pocket and shot Miller dead. A mob at once collected, and an attempt was made to lynch the murderer, but he was hurried to the jail by the authorities, who determined that the law should take its course. Talk of lynching has been heard of on the streets ever since the murder, and the sheriff, fearing an attempt would be made to take the prisoner out and lynch him, swore in a number of citizens as special deputies, armed them, with instructions to guard the prisoner at all hazards. Last night the jail, a strong structure, was surrounded by fully 150 soldiers, who demanded the surrender of Hunt. The sheriff refused, hot words were exchanged, and several of the more impetuous deputies fired upon the soldiers, who answered with a volley. The desperadoes say half a dozen persons were killed and many wounded, but whether they were citizens or soldiers is not known. After the shooting the soldiers are reported to have battered down the door of the jail and riddled Hunt with bullets."

Terribly Burned with Matches.

HAMILTON, April 28.—Frank Raynor, the 4-year-old son of G. J. Raynor, Steven-street, got hold of some matches and in playing with them his clothes caught fire. His grandfather threw a mat around him, but did not succeed in quenching the flames until the little fellow's body was badly burned. His face, nose and arms, the left arm being the worst, and his side were terribly burned.

THE DIURNAL WRECK.

Collision Between Freight and Passenger Trains on the Baltimore & Ohio.

WASHINGTON, April 28.—An accident by which four persons were killed and several were injured, occurred at 4.10 p.m. on the Metropolitan branch of the B. & O. Railroad, one mile this side of Gaithersburg. The Cincinnati express ran into a freight, which was at a standstill at a small station called Warings.

The Killed.

ENGINEER C. ELLIOTT of the express.
ENGINEER GROFF of the freight.
FIREMAN MURPHY of the freight.
POSTAL CLERK BURDETT.

Postal Clerk Peacock and Fireman Miller of the express were seriously hurt. None of the passengers were dangerously hurt. The western mails were partially destroyed. All the killed and injured resided in Baltimore.

The Spring Medicine.

The popularity which Hood's Sarsaparilla has gained as a spring medicine is wonderful. It possesses just those elements of health-giving, blood-purifying and appetite-restoring which everybody seems to need at this season. Do not continue in a dull, tired, unsatisfactory condition when you may be so much benefited by Hood's Sarsaparilla. It purifies the blood and makes the weak strong.

ATTRACTIONS IN
DRY GOODS
AT
TURNBULL'S.

The change in the weather has brought with it a great demand for Millinery, also for Spring Shades in Dress Goods. Our store was never more attractive in these lines than at present. We have every new and desirable shade in stock with Millinery to match. If you are in town this week, have a look at our Grey Dress Goods and Millinery Window. Large Grey Checks for young people to be made up alone or mixed with Black. Small Black and White Checks and Stripes (broken patterns,) for older people. Goods that are hard to find, in neat patterns.

We justly claim to take the lead in our Tailoring Department for quality of goods, fit and price. We get up a splendid suit, in Halifax tweed or navy serge, for $12.00. Fine grades of Almonte and other makes of tweed for $13.00, $14.00, $15.00 and $16.00. Scotch tweeds and serges from $16 to $20 for the best. Fine all Venetian finish or diagonal cords for coat and vest, with black or fancy pantings to match, at from $19 to $22 a suit. Remember our prices. Call and see our stock, and do not pay a great deal higher figure through force of habit.

We have added this week to our already attractive stock of Boys' Clothing, another shipment just turned out of the manufacturers' hands, neat and new styles.

We show now an immense range of patterns in cottonades and shirtings, in the best quality.

We also keep all the lower lines, beginning at 5c. for shirtings and 12½c. for cottonades.

We have an opening now for an apprentice in the millinery department. Apply until Saturday.

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

ARE NOT a Purgative Medicine. They are a BLOOD BUILDER, TONIC and RESTORATIVE, as they supply in a condensed form the substances actually needed to enrich the Blood, making all diseases arising from Poor and Watery Blood, or from VITIATED HUMORS in the Blood, and also invigorate and BUILD up the Blood and System, when broken down by overwork, mental worry, disease, dissipation and indiscretion. They have a SPECIFIC ACTION on the SEXUAL SYSTEM of both men and women, restoring LOST VIGOR, and correcting all IRREGULARITIES and SUPPRESSIONS.

EVERY MAN Who finds his mental faculties dull or failing, or his physical powers flagging, should take these Pills. They will restore his lost energies, both physical and mental.

EVERY WOMAN should take them. They cure all suppressions and irregularities, which inevitably entail sickness when neglected.

YOUNG MEN should take these PILLS. They will cure the results of youthful bad habits, and strengthen the system.

YOUNG WOMEN should take them. These PILLS will make them regular.

For sale by all druggists, or will be sent upon receipt of price (50c. per box), by addressing THE DR. WILLIAMS' MED. CO. Brockville, Ont.

The Daily Examiner is delivered to any part of the Town for 10c. a week, 35c. a month, $2.00 for six months.

Daily Examiner.

WEDNESDAY, APRIL 29, 1891.

A BRILLIANT "SUN."

Elsewhere in this issue is printed the annual report of the "Sun" Life Assurance Company. It is a remarkable report, showing a remarkable rate of progress for even this progressive and prosperous corporation. To employ an everyday metaphor, since the "Sun" rose twenty years ago it has been shining with increasing brilliancy until the present, when it seems to have burst forth with unusual splendour. An analysis of the figures of the report shows a very gratifying degree of progress, which must be very satisfactory to both shareholders and policy holders. The account on the side of the former stands something like this: The income of the company for the year 1890 exceeded $2,000 for each of the 365 days, and the large and rapidly growing assets are of an exceedingly productive character. The policy holders' share in the prosperity of the company is equally satisfactory. The increase of the surplus is phenomenal. During the five years ending the 31st December 1886, the surplus which was accumulated beyond all liabilities and capital amounted to only $89,453. At the close of the current year another five years will have expired, and it is cheering to notice that the surplus accumulate during the first four years of this term amounts to $232,176, or nearly three times as much as during the preceding five years. The following are the figures:

NET SURPLUS.

31st Dec.	1881, (five years)	$64,824.07
" "	1886, "	89,452.97
" "	1890, (four years)	232,175 69

And when it is added that the probabilities are that the further addition that will be made during the year 1891, will almost if not quite, equal the total amount accumulated during the previous four years some fair idea may be formed of the effect which the company's unconditional policies, its prompt payment of claims, and it fair liberal and honorable dealing with the public, have in winning and retaining the confidence of the insuring and investing public.

An Ugly Rumour.

(*Toronto Globe.*)

Mr. Van Horne has denied the rumour that on the completion of the new Canadian Pacific line from St. Paul to Regina—an extension as it were of the Soo system—that portion of the main line lying between Sudbury and Port Arthur, 550 miles in length, is to be abandoned by the company. Nevertheless many are inclined to think that something of the kind is contemplated. The road from Sudbury to Port Arthur runs through a region which is never likely to produce much freight unless it should turn out to be rich in minerals. On the other hand, the line from Montreal to the Sault and from the Sault to Regina via St. Paul will traverse a paying country from end to end without augmenting the length of the transcontinental route. Winnipeg would be side-tracked except perhaps as a point of collection for the crops during the season of navigation, but the territory tributary to Winnipeg is a fertile one and the growth of the town would not be materially retarded. The real feature of the project would be the destruction of the all-Canadian line on which we have spent so much money. But we are getting used to the failure of our hopes and dreams. The Intercolonial was built as as a great national highway, yet Parliament bonused a shorter line through foreign soil in the interests of commerce, which has effectually cut the throat of the Intercolonial. It is quite conceivable, therefore, that Parliament might be persuaded to help Mr. Van Horne to construct his extension from St. Paul to Regina, though it should thereby administer the *coup de grace* to the Sudbury-Port Arthur section and render us dependent upon Minnesota and Dakota as well as upon Maine. It would be a sad humiliation and sacrifice after all that the country has done for the Canadian Pacific. But railway men are intensely prosaic persons. A romantic people, led by unthinking rulers, may borrow money by tens and hundreds of millions in order to combat nature, and build fancy lines running counter to her decrees, but the railroad manager is ready to smash all ov[er]-[i]dols provided he can work with [o]ther instead of against her. When the [o]ther Liberals urged the Intercolonial, the Canadian route for the never do so. They were told that it would near the [l]ine construct that line anywhere [e]lse. American frontier, yet the very [p]olitic[i]ans who raised this cry subsequently voted Canadian money for a more direct route, not on the Canadian side of the boundary but on American soil itself. In like manner, when Liberals like Mr. Blake and Mr. Mills, recommended that the Canadian Pacific system should have its eastern terminus at Emerson, where connection might be made with American roads, they were jeered at as unpatriotic and nothing but an all-Canadian route, running for hundreds of miles through a wilderness of rock, would satisfy our Tory friends. Despite Mr. Van Horn's denial, history may repeat itself, and we may see a Tory majority diverting the main line of the road to American soil at the expense of the Canadian taxpayer and with as little regard for his pride and for its own past utterances as it displayed in bonusing the route through the State of Maine. Of course the Sudbury section would not be closed altogether. It would doubtless be handed over as a present to the Dominion Government, forming, with the Intercolonial, a white elephant of non-paying railroad that would serve for all time to remind us that nature is mistress in her own house.

The matter is sure to form the subject of inquiry when Parliament meets. Everybody will hope that Mr. Van Horne really means what he says, and that the project of "jamming" the Sudbury division is not on the cards. Out of common charity he should let the road remain as it is at any rate whilst Sir John Macdonald lives. It would be a deadly stab at the latter's reputation as a statesman if the Canadian Pacific as well as the Intercolonial should come to grief as an all-Canadian enterprise, whilst the poor old N.P. is being led away to the knacker's yard.

In illustration of the foregoing, the St. Paul *Pioneer-Press* is convinced that it is the intention of the Canadian Pacific to extend the Soo line from Hankinson, North Dakota, to Regina and then make that their main line, dropping the 550 miles of road from Sudbury to Port Arthur. It says that the route by the Soo, Hankinson and Regina would shorten the distance from Sudbury to Regina by 71 miles, besides running all the way through a paying a paying country. "Such a line," it adds, "would place St. Paul at about the centre of the Canadian Pacific system and make it a great distributing point." Mr. Van Horne has it is true denied that anything of the kind is contemplated, but the St. Paul and Minneapolis papers are confident that time will verify their statements. They say that of $21,000,000 loan recently floated in London for the Soo line, $14,000,000 will be reserved for the exchange of the existing bonds and the remainder devoted forthwith to the construction of the route from Hankinson. The matter is one of vital importance to Canada. If the Canadian Pacific main line is to be diverted into Dakota as well as into the State of Maine, the national character of the enterprise will be destroyed, and the borrowed money sunk by Canada in the Sudbury-Port Arthur section as good as lost.

Lakefield.

(*From Our Own Correspondent.*)

The staunch new side wheel steamer "Sunbeam" was launched successfully on the 18th inst. at Lakefield and now lies in her natural element. Her trial trip will be made in the course of a few days.

Tourists, and all who propose visiting the the waters between Chemong and Lakefield during the coming summer will do well to remember the "Sunbeam." Her fittings and equipment are of the best and arrangements have been made to supply a much needed want, viz. regular meals served on board. This is the only side wheel boat on the lower waters and passengers may rely on meeting with every attention from the officers and crew.

For nearly half a century Ayer's Cherry Pectoral has been the most popular cough remedy in the world. The constantly increasing demand for this remedy proves it to be the very best specific for colds, coughs and all diseases of the throat and lungs.

We Understand Them so Well!

"Let other people do as they see fit my dear Nora, you and I will stick to Diamond Dyes, we understand them so well. We have used them for five years and have never had cause to regret our choice. Some of our neighbors have suffered losses, and wasted time by introduced, while we have always been very successful. No change for us Nora." "You are quite right mother; Diamond Dyes are indeed unequalled in the world; and only to-day I heard of two of our friends who solemnly declare, that for the future they will use only the Diamond."

Do You Cough?

Don't delay. Take Kemp's Balsam, the best cough cure. It will cure coughs and colds. It will cure sore throat, or a tickling in the throat. It will cure pains in the chest. It will cure influenza and bronchitis and all diseases pertaining to the lungs, because it is a pure balsam. Hold it to the light and see how clear and thick it is. You see the excellent effect after taking the first dose. Large bottles 50c and $1. dw

Why Not Treat.

Why not treat such troubles as boils, pimples, blotches, sores, humors, eruptions, rashes, skin irritations, etc., with Burdock Blood Bitters. It is filled with virtue as a blood purifier and goes right to the right spot. It makes the skin bright and clear, while also invigorating the entire system. 1w18-d

Now Free From Pain.

Dear Sirs—I have been troubled with Lame Back for about six months, and thought I would try Hagyard's Yellow Oil, which cured me. Am now free from all pains, and recommend Yellow Oil very highly. Frank Palmer, Winona, Ont. 1w18d

Supposing.

Supposing you suffer from some disease. Suppose it is dyspepsia or biliousness or constipation or bad blood. Suppose you learn that Burdock Blood Bitters has cured thousands of cases of these and similar complaints. Don't you suppose you ought to try? It cannot harm you and in nine cases out of ten it cures. 1w18d

It Does Its Work.

Mrs. James Dix, Brock street, Kingston, Ont., says: I suffered with an inflamed throat and bad cough for seven months. Was treated by physicians without success, when six doses of Miller's Emulsion of Cod Liver Oil cured me. It's as palatable as cream. For sale by all druggists. dw

At no season in the year is cold in the head and catarrah more prevalent than during April. To neglect either means misery and perhaps fatal results. Nasal Balm is the only certain remedy for these dangerous diseases, and as a precautionary remedy should be kept in every household. Nasal Balm has cured thousands of sufferers—it will cure you. Try it. 6d98w

Once Used, Always Used.

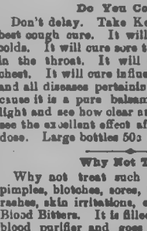
This is a fact as regards Dyer's Jelly of Cucumber and Rose, from its wonderful efficiency in curing chapped hands, and making the skin smooth and soft. Druggists keep it. W. A. Dyer & Co., Montreal 5d92

A MAN'S wife should always be the same, especially to her husband, but if she is weak and nervous, and uses Carter's Iron Pills she cannot be, for they make her "feel like a different person," so they all say, and their husbands say so, too! dw

Twelve years trial in English climate, with increasing demand, proves the Royal Rheumatic Remedy to be the best remedy for rheumatism. For sale by W. R. Greatrix, druggist. dw

A Fact

WORTH knowing is that blood diseases which all other remedies fail to cure, yield to Ayer's Sarsaparilla.



Fresh confirmation of this statement comes to hand daily. Even such deep-seated and stubborn complaints as Rheumatism, Rheumatic Gout, and the like, are thoroughly eradicated by the use of this wonderful alterative.

Mrs. R. Irving Dodge, 110 West 125th street, New York, certifies:—

"About two years ago, after suffering for nearly two years from rheumatic gout, being able to walk only with great discomfort, and having tried various remedies, including mineral waters, without relief, I saw by an advertisement in a Chicago paper that a man had been relieved of this distressing complaint, after long suffering, by taking Ayer's Sarsaparilla. I then decided to make a trial of this medicine, and took it regularly for eight months. I am pleased to say that it effected a complete cure, and that I have since had no return of the disease."

"Mrs. L. A. Stark, Nashua, N. H., writes: "One year ago I was taken ill with rheumatism, being confined to my house six months. I came out of the sickness very much debilitated, with no appetite, and my system disordered in every way. I commenced to use Ayer's Sarsaparilla and began to improve at once, gaining in strength and soon recovering my usual health. I cannot say too much in praise of this well-known medicine."

"I have taken a great deal of medicine, but nothing has done me so much good as Ayer's Sarsaparilla. I felt its beneficial effects before I had quite finished one bottle, and I can freely testify that it is the best blood-medicine I know of."—L. W. Ward, Sr., Woodland, Texas.

Ayer's Sarsaparilla,

TIME TO US MEANS MONEY.

THE TRIPLE ALLIANCE AT WORK! WE BUY BIG TO SELL BIGGER!! THE OPENING GUN OF THE CAMPAIGN OF THE TRIUMVIRATE!!

SPOT CASH has saved a wholesale firm from bankruptcy; a colossal sale effected in an emergency has kept the assignee from the door! And how! Here is a business story made up of business facts, and related by business people as a matter of business. Isn't it your business, you hard working, toiling men of industry, to take in the above business!

GOUGH BROS., of Peterborough, run their own show. They have no connection with the Gough Stores in Toronto and Brantford. Just in union for a purpose there lies strength. The head of a wholesale house in difficulties required money—had to sell. One man's extremity is another man's opportunity. Goughs, of Peterborough, Toronto and Brantford, pooled their energies, backed with cash, and, by so doing, carried the day, and secured at a bargain $68,000.00 worth of Clothing, Furnishing Goods, Hats and Caps, Boots and Shoes.

Have you an idea what it means to handle this bonanza; and, mind you, handle it to take the balance of the purchase money out of it by May 24th! You haven't. We have. And now we begin to push the biggest, brightest, most daring effort of our business career. Will you help us and benefit yourself! You will, for common sense tells you that, in order to do well for ourselves, we must do better for you.

We Push for a Purpose! ☞ Here are a few Diamond-Bitted Pointers:—

All Men's $16.00 $14.00 $12.00 $10.00 SUITS Go For $8.00

All Men's $8.00 $7.00 $6.00 $5.50 SUITS Go For $4.90

All Boys' $4.50 $4.00 $3.50 $3.25 SUITS Go For $2.90

Men's Fine Cordovan Shoes, at $5.00, $4.50, $4.00, $3.75, now offered for $2.90. All $2.00, $1.75, $1.50 Boots go for $1.10. The same reduction applies to Ladies' and Children's Wear.

The prices of our Hats we will not quote here, as the high priced hatters would be completely knocked out and discomfited.

Just ask for hats and you will get a start. Buyers! Wearers! Customers! We want you to believe a strong statement. It is no stronger than the facts warrant. We fire to the third storey all compunction and reserve, and frankly tell you of our position. We sacrifice profit that we may meet our engagements and keep the name of GOUGH BROS. as the one firm, the Napoleons of Business, who can plan, carry out and consummate the biggest business, the biggest business scheme to place the best goods in every man's hands for less money than ever before.

CHANGE IN BUSINESS.

I beg to announce to my late customers that I have sold out my business to Messrs. Hilliard & Peplow, and I would bespeak for them the same support as has been accorded me.

C. N. BROWN.

ANNOUNCEMENT.

For some time past we have thought a strictly cash business in Flour, Feed and Provisions could be successfully carried on in Peterborough, and to test this question, we have purchased the above business from Mr. C. N. Brown who will still continue as manager in Flavelle's old stand, Simcoe street.

In order to be successful we intend to make it the interest of everyone to pay cash with order by selling at wholesale prices.

We will positively give no credit and cash customers will not have to keep up the losses made by others on the credit system.

We will keep a full supply of the very best quality of Flour, Feed, Chop, etc., and our customers need not fear that the quality of the goods will be lowered to make up for the reduction in prices. We are simply giving them the benefit of the margin necessary to cover losses and interest charges incurred on the credit system.

Goods delivered to any part of the town or Ashburnham.

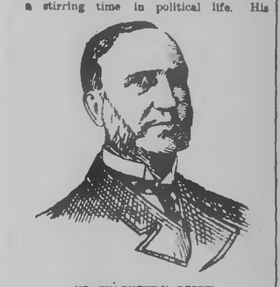
RAILWAY CHIEFS.

Facts About the Authors of the Agreement—Men Who Have Risen to Positions of Immense Responsibility—Their Early Training.

Mr. Chauncey M. Depew is one of the most remarkable men in the United States to-day. He was born in Peekskill, N.Y., in 1827. He is of Huguenot descent. His ancestors for more than 300 years were farmers, who lived on the old homestead and tilled the family acres—plain, hard-working folk, brought up on simple fare and never indulging in dissipation or luxury. Mr. Depew's father was well-to-do and had his son well taught in preparation for college. When he was advancing in his teens the young man aimed at being a farmer, but he soon had enough of agricultural work, and was glad to find relief at Yale University, where he matriculated at the age of eighteen. He graduated in 1856 with high honors, studied law, was admitted to the bar in 1858, and was elected a delegate to the Republican State convention at a stirring time in political life. His



MR. CHAUNCEY M. DEPEW.

maiden efforts as a political speaker were highly successful and when he took the stump for Lincoln he won his laurels as an orator. In 1861-62 he served in the New York Assembly and during the second session was chairman of the Committee of Ways and Means and he acted as Speaker of the Assembly during a portion of the time. He was elected Secretary of State in 1863 when he was 29 years old by a majority of 30,000 votes. The re-nomination was offered to him but he declined it. He also declined an offer of the position of Minister to Japan, because he is reported to have said, "I thought that if I accepted that place and so got a confirmed taste for public office I would become a political pauper, and so I refused it." He just missed being made collector of the port of New York by President Johnson. Mr. Depew devoted himself to the practice of his profession until 1872, when he ran for Lieutenant-Governor on the Liberal Republican ticket and was defeated. A recent number of Harper's Weekly says that Mr. Depew might in 1884 have had the United States senatorship without lifting a finger but he refused it. He has not held public office, therefore, since 1865. In 1874 he was chosen by the Legislature regent of the State university, and was also one of the commissioners to build the capitol at Albany.

Mr. Depew's connection with the Vanderbilt railway system dates back to 1866, when he was appointed attorney for the Harlem Railroad, and three years later for the whole New York Central system. He was fortunate enough to attract the favorable attention of Cornelius Vanderbilt at the very outset of his legal career, and much of his success in life is no doubt due to that fact. In 1875 Mr. Depew was made general counsel of the Central system which had then grown to almost its present dimensions, and at the same time he was chosen a director. Upon the reorganization in 1882 he was made second vice-president, and when President Rutter died in 1885 he became the executive head of the Vanderbilt roads. In looking after the interests of the Central road he became acquainted with every Senator, Assemblyman and lobbyist in the State. By his intellectual brightness, his good fellowship, his strong personal popularity, he gained a large acquaintance and powerful political influence. His successful directorship of railroads is largely due to the fact that he is master of all the details pertaining to the roads and their policy and to his zealous supervision of their interests.

It is not alone due to the fact of his being a great railway magnate that Mr. Depew holds his present influential position amongst his countrymen. His personal characteristics and his social relations were sufficient to bring him into prominence. He has been highly successful as a lecturer, and his reputation as an after-dinner speaker is world-wide. Amongst his more notable public addresses are those delivered at the unveiling of the statue of Alexander of Hamilton, on the centenary of the New York State Constitution; at the unveiling of the Bartholdi Statue of Liberty, and on the celebration of Washington's birthday in 1887, when he made an address before the Union League Club of Chicago on "The Political Mission of the United States."

As regards personal appearance Mr. Depew is tall—nearly six feet high—and his frame is compact and erect. He has a large head, high forehead, bright, gray eyes and sandy hair and side-whiskers. His voice has a distinct, pleasant, fascinating tone, and he is gifted with remarkable conversational powers. He lives stylishly, but eats and drinks with a scrupulous regard to the preservation of his health.—Globe.

Children Cry for Pitcher's Castoria.

DESERTED, SHE SOUGHT DEATH.

A Toronto Adventurer Wrecks Two Women's Happiness.

LONDON, Eng., April 28.—Mrs. F. B. Converse, nee Miss Martha Hyams, the beautiful daughter of a tobacco merchant doing business at No. 102 Pearl-street, New York, attempted to commit suicide to-day. It is reported that she was prompted to the commission of the act by the heartless treatment she had received at the hands of F. B. Converse, whom she married last September. Converse, it is said, obtained a large sum of money by pawning all of his wife's clothing and other personal effects, including some valuable jewelry, which were presented to her at the time of her marriage. He then absconded, leaving her destitute and friendless in this city.

Converse claimed to be a mining engineer, and said he had at one time lived in Milwaukee. He made the acquaintance of Miss Hyams five years ago while crossing the ocean from New York to London on the steamer Alaska. Seven months ago they were married by the registrar at Brighton. After pawning the last pair of boots belonging to his wife he disappeared for parts unknown.

It is reported that Converse has a wife in Toronto, Ont., and two children in Montreal, whom he deserted and who are said to be in a destitute condition.

NEW YORK, April 28.—The father of Mrs. Converse stated to-day that he had received this cablegram from her, dated London, a few days ago:

Deserted, destitute, broken hearted. MARTHA.

Mr. Hyams states that he has endeavored to obtain the facts as to Converse's antecedents. The fellow represented that he had interests in the fruit trade in Honduras, but his father-in-law believes him to be an adventurer or something worse. He also promised to investigate respecting the allegation that Converse has a family living in a.

BETRAYED BY HIS NOSE.

A Scar On His Proboscis Leads To the Identity of a Defaulting Bank Teller.

PHILADELPHIA, April 26.—After eluding the pursuit of detectives for two months the defaulting teller of the Commonwealth National Bank, George Wharton Ritchie of this city, has been captured at Havana, Cuba. Ritchie, it may be said, was "captured by his nose."

It was on Feb. 21 that Ritchie took $8300 from the Commonwealth National Bank's coffers and located the money in a place outside where he could get it at a moment's notice. The detectives who were sent after Ritchie did not have many clues to work by. It was next to impossible to obtain a correct photograph of Ritchie, but those in pursuit were kindly informed that Ritchie had a deep scar on the bridge of his nose, and that it would betray his identity anywhere. So the race for a man with a scar on his nose began.

After leaving Philadelphia Ritchie went to Newport News, Va., then to Jacksonville, Fla., then to St. Augustine. At the latter spot he became alarmed and fled north to Port Huron, Mich., thence to Toronto, Ont., with the detectives on his track. Chicago was his next destination, but he stopped when more than half way and gained unlooked-for notoriety by a bogus story that he had eloped from Chicago with his fascinating boarding mistress. But he had gone to Vera Cruz instead, and thence to Havana, where he posted a letter, and his arrest followed.

Skull Fractured With a Baseball Club.

CHATSWORTH, Ont., April 24.—While playing baseball at school 5-year-old Henry Dunnington was struck on the head by a baseball club which flew from the hands of a companion, and his skull fractured. He may recover.

A Welcome Announcement.

Those who have tested it say that for the grippe, and especially for the cough that hangs on after the disease itself seems cured, there is nothing equal to Kemp's Balsam, the specific for all throat and lung diseases, and the best cure for coughs and colds. The first dose will convince you of its excellent effect. All druggists sell it at 50c. and $1 a bottle. dw

Editorial Evidence.

Gentlemen—your Hagyard's Yellow Oil is worth its weight in gold for both internal and external use. During the late La Grippe epidemic we found it a most excellent preventive, and for sprained limbs, etc., there is nothing to equal it. Wm. Pemberton, Editor Reporter, Delhi, Ont. 1w183

Spring Cleaning.

Be particular every spring to clean the house, but never mind cleansing the blood until some troublesom disease takes hold of you. This is poor policy when by using Burdock Blood Bitters the blood will be thoroughly cleansed, the body strengthened, and future suffering prevented. 1w183

Everybody Likes It.

Wm. Dredge, Ellen street, Barrie, Ont., says: One bottle of Miller's Emulsion of Cod Liver Oil brought back appetite which other Emulsions took away; removed cough entirely, and gained five pounds. It tastes just like cream, the oil being perfectly disguised. Sold by all druggists. dw

A Winnipegger's Opinion

The following is taken from a letter from Mr. D. Davis, Winnipeg, Man.: "Being persuaded to use Hagyard's Pectoral Balsam for a troublesome cold, I was entirely cured by the use of two bottles." 1w183

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss she clung to Castoria.
When she had Children, she gave them Castoria.

Everybody Admires Soft White Hands. And every lady ought to use Dyer's Jelly of Cucumber and Roses, as it makes the skin soft and smooth. Druggists keep it. W. A. Dyer & Co., Montreal. 6d92

HAVE no equal as a prompt and positive cure for sick headache, biliousness, constipation, pain in the side and all liver troubles. Carter's Little Liver Pills. Try them. dw

AN INACTIVE or Torpid Liver must be aroused and all bad bile removed. Burdock Pills are best for old or young. dw

AS A PICK-ME UP after excessive exertion or exposure, Milburn's Beef, Iron and Wine is grateful and comforting. dw

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold everywhere, or sent by mail.

CARTER MEDICINE CO., New York.

Small Pill. Small Dose. Small Price.

Threatening to Kill.

This serious offence might well be charged against that prevalent disease Constipation, which threatens to destroy many valuable lives if not stopped. It arises from wrong action of the Stomach, Liver and Bowels, and causes Dyspepsia, Biliousness, Bad Blood, Boils, Pimples, Rashes, Eruptions, Sores and Foul Tumors. It can only be cured by the prompt use of the right remedy, Burdock Blood Bitters, which never fails to cure even the most obstinate cases and is a specific for all diseases of the Stomach, Liver, Bowels and Blood. Thousands testify. Read and learn.

MRS. G. McKAY.

Cases in Point.

Sure to Cure.

DEAR SIRS,—I suffered with constipation and headache, and having taken a bottle of B.B.B. on trial, found it doing so much good that I sent for several more and it proved a sure cure. I use it in my family and feel safe in recommending it to my friends.

MRS. GORDON McKAY,
Jordan Falls, N. S.

A Prompt Effect.

DEAR SIRS,—I was very bad with costiveness and one bottle of your Burdock Blood Bitters cured me. I would not be without it.

Self Application of Electricity

FOR MEDICAL PURPOSES

BY THE

DORENWEND ELECTRIC BELT

And Attachments.

THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliances. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has no independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASES, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a combination of electricians, and makes the best in the world; we defy anyone to bring proof to the contrary.

Do not claim this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you wish to experiment with cheap articles, buy THEM; but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. The Dorenwend Electric Belt and Attachment Co., C. H. DORENWEND, Electrician. 109 Yonge St., Toronto, Canada. eod-w

d100 M. CARTON.

The Board of Health Bungle.

There seems to be a very lamentable lack of interest in the vital matter of the health of the town, when there cannot be got a quorum of the board of health. However that does not alter the fact that the wiley bros' teas are the finest the market produces—good and cheap.

Telfordian Temperature Topics.

On Monday morning at sunrise the thermometer stood at 35°, at 8 it had risen to 60°, at 9 to 68°, at 12 to 74°, at 2 to 77° and at 6 to 70°. On Tuesday a fierce cold gale was blowing all day, with some little snow and hail, and this morning the thermometer stood at 6° below the freezing point.

Lacrosse Notes.

A meeting of the Peterborough Lacrosse Club will be held this evening in the club rooms in Cox's block, George street. A large attendance of members is requested. Already the boys are making arrangements for the season's sport. An invitation has been received to go to Kingston on May 25th, but the club intend to stay at home that day, and expect to meet a Toronto team here. The lacrosse club is getting a good start, and will boom this year.

From Manitoba.

Mr. James Jewison, who removed to Manitoba this spring, writes to the EXAMINER under date of April 21st:—The snow is all gone and the weather is very fine. We began to sow wheat on the 31st day of March, and have just finished. We have had a few fine showers, and the wheat that was sown first, is all up. Messrs. Reid and Darling, who arrived here not long ago, are making things hum. As soon as the seeding is all done, we will begin breaking sod, and by harvest time we expect to have a good piece broken. So far, we all think this is the country.

County Police Magistrate's Court.

John Quinn of Bridgenorth, charged with beating his wife, was arranged yesterday afternoon before county police magistrate on a serious charge. County Crown Attorney Wood appeared for the prosecution and Mr. E. B. Stone appeared for the accused. The charge was amended, to assault occasioning bodily harm and the case was adjourned till Friday next, when it will be tried at the court house.

The Gallant Goose Step.

The Peterborough Rangers began drill last night. There was a good turn out at company drill. The six companies were fairly well represented the total turn out being about 125 or 130. Battalion drill begins next Tuesday night. It is to be hoped that every member of the corps will attend every drill so that the Battalion may be in the be in the highest state of efficiency by the 24th so that our military guest may take a less in soldierly set up and manœuvre from the lads of the Rangers.

The Biscuit Works.

Mr. Albert Gilmour, of the firm of Reid, Gilmour & Co., who are preparing to establish the Peterborough Steam Biscuit and Confectionery Works, has arrived in town to remain, and the force of the company is now on the ground to push the preparations for beginning work at the earliest possible moment. The foundation for the new building for the bake oven and boilers is about completed, and the work of placing the superstructure will be pushed with the greatest possible expedition. The first instalment of machinery is expected to arrive in a day or two, and the company expect to begin manufacturing operations by the first of June.

Still Going Ahead.

Now that the fine weather has come to stay, ladies will soon be looking about for something nice in Parasols. The Stock shown by J. J. Sheehy this year is such that any lady in search of a lovely Black Parasol will do well to call and examine the beautiful variety now shown out on his counters. They are arranged in such a manner that it is really not the slightest trouble to show them. Mr. Sheehy is bound to keep up with the times, and no better proof of that fact is necessary than to notice the number of Parasols sold every day at what she has styled the Peterborough Parasol Palace. 1d1w

Children Cry for Pitcher's Castoria.

"SCORED" A BIG SUCCESS.

The P.A.A.A. Annual Concert.

A Large Attendance—A Fine Programme Finely Presented—Our Local Amateurs Come out Strong.

The house was very satisfactory; in fact the entire concert,—socially, musically and financially—was a splendid success. The opera house was filled in every part last night on the occasion of the annual P.A.A.A. concert and an excellent programme was presented in an admirable manner. Peterborough has suffered the reproach of being behind in the appreciation of music and it has also been said that the musical talent of our town was not superabundant. Last night's house and last night's concert disproved both statements. The audience present, was a critical one and certainly showed an appreciation of good music, and the music furnished by the performers, all residents of the town, demonstrate the facts that there is a sufficiency of high class musical talent in the town and, that it is quite unnecessary to go abroad for material to produce a first class programme, provided our local musicians can be induced to give their services.

One of the best features of last night's concert was the playing of the Amateur Orchestra. They opened the concert with a pretty waltz selection, the overture to Rossini's "L'Italiana in Algieri", and followed it during the evening with a selection from "Marita" and the "Golden Fleece" overture by Ripley. In all these the boys acquitted themselves admirably; the first and second selections brought out some very creditable effects of shading, boldness of attack, and well managed crescendo. The closing selection was perhaps best suited to the calibre of the organization. It was performed with great spirit, and and the tempo, intonation and expression produced an ensemble of very creditable character. The orchestra won a claim to hearty congratulations by their performance of last night. Master Arlidge, the boy singer, made his secular *debut* in town last night, singing Handel's "Angels ever Bright and Fair" as his first number, and Buckland's "Hope and Joy" (the latter with flute obligato) as his second. The performance of these selections showed the versatility of the clever lad's singing; the first demands sympathetic interpretation and expression, which it received in a very remarkable degree. The second displayed the wonderful resources of vocalization which the boy possesses. While having a very sweet, strong, clear voice, the cultured style shown in its use, is the most noticeable feature of it. Master Arlidge was loudly applauded, and for his third number gave a delightful rendering of "Way Down upon the Swanee Ribber.". Mr. Thomas Dunn, the old favourite whom Peterborough audiences never tire of hearing was in splendid voice last night. He sang "The Raft" by Pinsuti, and "Tell Her I Love her so" by LeFaye. These selections, received ample justice from Mr. Dunn, in the matter of clear enunciation and sympathetic expression. In his second number he responded to the enthusiastic encore that greeted his both appearances, giving with ever happier effect than the programme number, that grand selection from Maritana, "In Happy Moments." Perhaps the greatest treat of the evening, from a strictly musical point of view, was the flute performance of Mr. Churchill Arlidge. He gave first an old favorite of his, "Dadu Liegst mir am Herzen" and followed it by a brilliant fantasia "The Keel Row." Mr. Churchill is a decidedly brilliant flautist, excelling in expression, wonderful *tours de force*, and splendid execution. He was of course rapturously recalled and very obligingly responded. His accompaniment to his clever son's second song heightened its effect very perceptibly. The quartette selection, "The Old Brigade" by Messrs. Manning, Ross, Matthews and Drope gave such satisfaction that they were recalled and they responded with "Moonlight on the Lake." Miss Vair's song "Mia Picotrella" by Gomes, was a decidedly enjoyable number. It was well suited to her sweet, well balanced, and well cultured mezzo-soprano voice, and so fine a selection, so well sung and with such winning modesty and grace withal, made the hearty applause she received a fitting and well deserved tribute. She was equally happy in the duet sung by her and Mr. T. Dunn, "The Venetian Boat Song." Their voices blended admirably and Blumenthal's beautiful duet received ample justice at their hands. Mr. J. R. Cobb's exhibition of fancy club swinging was the only purely "athletic" feature of the programme, and it was one of best numbers. Mr. Cobb's exhibition showed a confidence, cleanness and ease of execution. It would have been made much more enjoyable with a musical accompaiment. Speaking of accompaniments—these were in their excellance and sympathetic considerateness largely responsible for the success of the several selections. They were contributed by Miss Loch, Mrs. T. Dunn and Mr. Arlidge. The excellent piano used on the occasion was kindly loaned by Messrs. Jackson & Co., only another sample of the praiseworthy liberality this firm is accustomed to showing to local entertainments. The managers of the concert wish to take this means of heartily thanking those who contributed so satisfactorily to the programme, and also the public who showed their interest so unmistakably in the Association. It is only fair to say that the unusual success of the musical portion of the affair was in no small degree due to the good judgment and exertions of the secretary of the Association, while the Association as a whole lent practical aid to the success that was "scored"—the best amateur concert ever given in the town.

The Board of Health.

To the Editor of the Examiner:

SIR,—This Board was formed for the purpose of looking after the health of the people. A special meeting of it was called for the other evening, but I see had to be adjourned because there was no quorum. The long and the short of it is that those who were absent, unless they were ill, deliberately neglected the health of the community. In view of the unsatisfactory state of our health affairs, I appeal to these members to resign. Their usefulness is gone.

PRO BONO PUBLICO.

News Nuggets.

—There is a meeting of the Board of Health called for to-night.

—There was no grist for the Justice Mill this morning at police headquarters.

—The police want owners for a corkscrew found on George street and also for a grey chenille shawl.

—Hood's Sarsaparilla has the largest sale of any medicine before the public Any honest druggist will confirm this statement.

Personal.

Rev. A. H. Strike, of Norland, is spending a few days in town, the guest of Dr. Yelland.

Messrs. John Gillespie and Wm. Mercer have left town on a trip to Glasgow and the old country.

Mr. H. Calcutt, Ashburnham, is in Port Hope, whither he is called by the death of his brother, to which reference is made in a paragraph elsewhere in this issue.

Messrs. Jas. Stevenson, M.P. and John Burnham, M. P., went to Ottawa yesterday to be present for the opening of the Dominion Parliament today.

Mr. Geo. Maybee, of Napanee, a veteran cricketer, who was here with the Napanee club last year, and feels justifiably proud of his score of fourteen against Attewell's bowling, says the Napanee club is anxious for a date for another match. Will the secretary accommodate the Napanee cricketers?

After suffering horribly for years from scrofula in its worst form, a young son of Mr. R. L. King, 706 Franklin street, Richmond, Va., was recently cured by the use of Ayer's Sarsaparilla. No other medicine can approach this preparation as a cleanser of the blood.

Every Lady Uses It.

Dyer's Jelly of Cucumber and Roses for her chapped hands and lips, as it effectually cures in every instance. Try it. Druggists keep it. W. A. Dyer & Co., Montreal. d63

Piano Tuning.

Mr. G. Gumpricht is in town. Orders may be left at Messrs. Taylor & Macdonald's or at the Peterborough Bookstore. d

FOR NERVE PAIN, SUMMER HEAT and general toilet purposes, use Low's Sulphur Soap. dw

PROSPEROUS AND PROGRESSIVE.

Annual Meeting of the Sun Life Assurance Company of Canada—A Remarkable Report.

The annual meeting of the Sun Life Assurance Company was held at its head office, St. James street, Montreal, on Thursday, March 26th, at 2 p.m. There was a large attendance of gentlemen, not only from the city, but from all sections of the Dominion. The following report was presented:—

DIRECTORS' REPORT.

It is with no little satisfaction that your directors present their annual report covering the transactions of the Company for the year ending 31st December, 1890. An examination of the accompanying statements will show that, while the progress of the Company has always been steady and gratifying, yet in no corresponding period has such a marked advance been made in all the details that count for strength and general prosperity.

Early in the year arrangements were made with the Citizens' Insurance Company of Canada, by which the life business of that company, as it stood at 31st March, 1890, was assumed by us. It is hoped that the transaction will prove profitable in the ordinary course, while directly aiding our regular business by extending our connections.

During the year we received 2 834 applications for life assurance of $4 536 005 79, and 1 196 applications for accident insurance of $2 114,069, making a total of 4,030 for $6,650,074 79. These figures do not include the policies transferred from the Citizens' Company. After deducting the declined and not completed cases, the policies written were as follows:—

	Policies.	Amount.
Our ordinary life business	2,659	$4,046,979 79
Re-assured from the Citizens' Insurance Co.	1,372	1,897,980 23
Total life policies issued during year	4,061	$5,554,780 02
Accident policies issued	1,186	2,979,060 00
Total new policies	5,247	$7,998,849 02

The directors have for many years been able to report that the new life business of each twelve months had been in excess of anything previously attained in the company's history; and the same gratifying condition is present this year also. The regular life applications alone, not including the reassurance contract, were 79 for $433,295.24. In advance of those of 1889, which again were ahead of those of all previous years.

The amount in force in the life branch at 31st December was $16,759,355,92 under 11,266 policies, being an increase of $3,421,372 84 in amount and 2 815 in number. There were in force, in addition, exactly 2 000 accident policies, covering $3,939,225 00.

The financial statements presented herewith are the best possible evidence of the rapidity of the company's growth and the flourishing condition of its affairs. The cash income for premiums and interest reached the large sum of $889 078 87, which is an advance beyond the figure of 1889 of $325,938 35. If we deduct the $187,906.25 received from the Citizens company, the increase in the regular business is seen to be 138,032 10. This amount alone is almost equal to the total income of the company ten years ago.

The assets also were increased by $677,691.47, bringing the total up to $2,473,514 19, or including subscribed capital to $2,911,014 19. The progress here shown is remarkable and most gratifying. It has, moreover, been accompanied by the satisfactory addition of $75,849,05 to the surplus, which now amounts to $232,175.69 beyond all liabilities and capital. This large sum promises well for the division of profits which will take place at the close of the current year.

The sum paid for death claims, matured endowments and other payments to policy holders during the year was $149,132.43. The total amount thus returned to policyholders from the company's foundation to the close of the year was $1,334,815.76. The benefit which the disbursement of this large sum has been to the widows and orphans of the land can hardly be appreciated.

The building which we are erecting as the head office of the company is now nearing completion, and your directors expect that those parts to be occupied by the Union Bank and ourselves will be in a condition to be entered upon by 1st of May next.

The investments have as usual been carefully examined by a committee of the board, and found in perfect order. They have pleasure, moreover, in certifying to the very high character of the assets. The auditors also, as in previous years, have made their usual thorough examination of the books and communicated with the individual borrowers and ascertained that the amounts charged against them in the company's mortgage accounts are correct. Their certificate is attached hereto.

The Directors who retire this year are:—Hon. A. W. Ogilvie, and Messrs. Robert Anderson and J. P. Cleghorn, all of whom are eligible for re-election.

R. MACAULEY,
President.
A. W. OGILVIE,
Vice-President.
T. B. MACAULEY,
Secretary.

STATEMENT OF ACCOUNTS FOR 1890.

Income.

Premiums—		
Ordinary Life Business	$574,354 26	
Citizens Ins. Co.	187,906 25	
		$762,260 51
Total life premiums	767,161 51	
Accidents	22,905 22	
Total premium income	$790,166 73	
Less paid for re-assurance	411 64	
		$789,744 92
Interest		100,577 08
Rents		1,116 98
Total income		$889,978 97

Disbursements.

Death claims, including bonuses	$249,972 20	
Matured endowments, including bonuses	19,557 45	
Annuity payments	1,849 20	
Accidents claims	9,309 91	
Cash profits paid policyholders	2,275 00	
Surrender values	14,294 57	
		$249,122 43
Dividends on capital		7,500 00
Expense account		33,732 05
Commissions		66,628 05
Medical fees		12,296 97
Total disbursements		$369,280 13
Surplus over disbursements		506,715 74
		$889,973 87

ASSETS.

Total assets	$3,911,014 19

LIABILITIES.

Total liabilities	$2,178,238 50
Cash surplus to policy holders	294,875 69

The President explained some items in the report and moved its adoption. He was followed by a number of speakers who expressed in the strongest terms their satisfaction at the admirable statement now before them. Attention was particularly drawn to the high quality of the investments. They are first-class in themselves, as is shown by the small amount of overdue interest on the mortgages, and in addition to this the company has for years followed the wise course of writing off annually various amounts, so that a contingency fund has been placed to the credit of various items in the assets. This does not mean that losses have occurred but that the company in its prosperous years is quietly setting aside amounts to which any losses which may arise in the future can, if need be, be debited. The average interest earned on the investments during the year was 6.04 per cent., and the total amount of real estate owned by the company as the result of foreclosures is but 4 per cent. of the current mortgages. This is indeed a remarkable showing. The company now does as much business in one year as formerly in five, and while the growth of the institution in size of late years has been marvellous, it has at the same time been accompanied by a most gratifying increase in surplus, the accumulation of which in one year alone is now almost equal to the total surplus accumulated during the five years of the previous quinquennium.

The progress already made has been very great in every respect, and the company already stands among the most powerful financial institutions of the Dominion. But the indications are that it has but entered upon the tide of prosperity and that the future will eclipse anything in the past, great as the results already attained are.

Omemee,

(From Our Own Correspondent.)

Good roads, little sickness. Seeding fairly advanced and the farmers consider this one of the most favorable seasons. Fall wheat looking well.

Mrs. M. McCarroll was buried yesterday. Being one of Emily's oldest residents the respect shown her was evinced by the large number of people who attended the funeral.

Omemee wants the Peterborough and Bobcaygeon railway junction here. There is no other possible route as easily constructed to Bobcaygeon as from this point, as proved by a number of surveys during the last 25 years. Bobcaygeon citizens all admit this. No heavy cuts, no grades, no bridges. Let all this come up for consideration before deciding on any other route. Had the Missing Link line been carefully looked after before building, the expense of Dumb's bridge and heavy cut there could have been avoided. If the Peterborough and Bobcaygeon junction is determined at this point, and single fare allowed to and from Peterborough on Saturdays, Omemee will eventually be united with Peterborough.

The merchants here are wishing for a representative from the Peterborough Biscuit and Confectionery Works, as they are not being properly served from foreign places.

Our High School is largely attended, and is ably managed by the Principal, Mr. Neal Robertson, and staff of teachers under him. Lt. Thornton, 45th Batt., drill's the pupils, who are very efficient.

Warsaw.

(From Our Own Correspondent.)

Warsaw Lodge, I.O.G.T., held a social in their hall on Friday evening, which perhaps was a little superior to anything of the kind given here for some time. The evening being fine the hall was well filled.

A splendid programme was gone through which would go to show that the entertainment committee were well worthy of the hearty vote of thanks which was tendered to them. The Templars are indebted greatly to Mr. Jas. Kidd for his assistance. The following is the programme:—

PART I.

Chairman's Address	Bro. Watts
Chorus	Glee Club
Reading	B. James, jr.
Song	Jas. Kidd
Reading	E. Devline
Duet	Miss Campbell and Mr. Kidd
Dialogue	Miss Campbell, E. Watts, E. Devline
Cake and Coffee.	

PART II.

Chorus	Glee Club
Recitation	B. James
Song	Miss Campbell
Recitation	H. Snider
Dialogue	B. James, H. Snider and W. Lynn
God save the Queen.	

At the regular meeting of the Warsaw Lodge, I.O.G.T., No. 262, held on Monday the following officers were duly elected for the ensuing term:—

Bro. W. Wason	P. C. T.
Sister R. Campbell	C. T.
" A. Boots	V. T.
" P. Payne	F. S.
Bro. B. James	R. S.
" E. Devline	A. S.
" R. Hyde	Treas.
" H. Lackie	Chap.
" W. Lynn	M.
" H. Snider	D. M.
" F. Doughty	G.
" J. Kidd	Sen.

Death of Mr. James Calcutt.

The Port Hope *Times* of Tuesday says:—Our readers will learn with deep regret of the demise of Mr. James Calcutt, (brother of Mr. Henry Calcutt, Ashburnham), who passed away at his residence here on Monday night, 27th inst. Deceased was an old resident of Port Hope, and was well known and highly respected throughout the old Newcastle District. He was born in Mountmelick, Queen's county, Ireland, on the 10th of April, 1821, and came to Canada in company with the rest of the family in 1832. He was married in 1850 to Julia, sixth daughter of William Sowden, of Beaver Meadows, in the county of Northumberland, by whom he had two sons, Frederic Kingsley, since dead, and Frederic F. C., and one daughter, Miss Julia Elfrida, all of whom except Port Hope as their birth place. Mr. Calcutt engaged in the brewing business almost all his life, and at one time carried on a large business in the town. He died at the age of 70 years after a short illness. Mr. Calcutt took an active part in public affairs, and for many years was the leading member of the town council. The funeral took place on Wednesday afternoon, at 3 o'clock.

ROUND THE GLOBE.

The C.P.R. Steamer Empress of India Arrives at Victoria, B.C.

VICTORIA, B.C., April 28.—The steamship Empress of India arrived off Victoria this morning at 6.30 o'clock. She encountered strong gales on the 20th inst., and a cyclone on the 25th, which reduced her speed somewhat. The steamship China, which arrived at San Francisco on Saturday, left Yokohama six days before the Empress of India, and not two as reported. She has 131 first class passengers and 335 Chinese. Among the passengers are Sir John Gladstone, Mr. and Mrs. Power of Dublin and others.

Upon the steamer's arrival here she was met by the mayor and council, and on behalf of the city of Victoria Mayor Grant presented the captain and officers with a handsome silver punch bowl.

The Empress of India's time is 10 days 14 hours and 34 minutes from Yokohama to Victoria. The quickest trip ever made from Yokohama to San Francisco was made by the s.s. China, December, 1889, in 12 day 20 hours and 54 minutes.

LAID AT REST.

Von Moltke's Funeral Yesterday was Attended by Kings and Emperors

BERLIN, April 28.—The funeral services over the remains of Field Marshal Count von Moltke took place to-day in the ballroom of the general staff building, in which building the veteran died and where his body has been lying in state. Emperor William, the King of Saxony, the Grand Dukes of Baden, Saxe-Weimar and Hesse, the principal members of the royal families of Germany, with the leading German generals, were present. The casket containing the field marshal's remains was then carried with much ceremony to the hearse, which was drawn by six of the Emperor's horses. After passing through streets lined with troops and packed with spectators the remains arrived at the Chrte Station at 1 o'clock in the afternoon and were placed upon a railroad car draped in black, which was there in waiting. Along the route of the procession to the railroad station the hearse was preceded by Col. Gossler, carrying Count von Moltke's field marshal's baton, and by all the officers of the general staff, carrying the insignia and orders conferred on Count von Moltke during the course of his distinguished career. The casket was covered with large numbers of floral wreaths sent from all parts of Germany and from many parts of Europe. Emperor William, the members of the royal families of Germany and the German generals followed the hearse to the railroad station.

During the ceremony in the general staff building the Emperor was moved to tears. Prince Bismarck sent an immense wreath and the following telegram:

With profound sorrow received the telegram announcing the irreparable loss sustained by the Fatherland. I feel the loss more acutely owing to the fact that it had been vouchsafed to me to enjoy for several decades Von Moltke's glorious co-operation and the invariable amiability he displayed in our close friendly relations.

INTERESTING ITEMS BY WIRE.

Fire at Franklin, Pa., yesterday caused a loss of $100,000.

The first official act of Mayor Washburn of Chicago was to order that all gambling houses should be closed.

A general strike of all the building trades at Zanesville, Ohio, took place yesterday. All building work is stopped.

The remains of Carrie Brown, the New York "Jack-the-Ripper" victim, were buried in Potters' Field yesterday. The police are still searching for a clue.

Victor Drinsey and his wife quarrelled in New York over a trifle and Drinsey threw his wife out of a third-story window. She will die.

Mount Pleasant.

(From Our Own Correspondent.)

Our cheese factory is booming along and will soon be in operation. Butter will be a great favor, we fear. Mr. Chas. Rotherford has secured a first class man to make the cheese and we hope success will crown the whole enterprise.

Mr. David Bust returned from Kingston a few days ago, only to leave after a short stay for Manitoba, where he intends breaking "the young idea how to shoot." About the same time Mr. D. Gardiner, who had been clerking at Chesterfield returned to our town and he, like Mr. Bust, set sail for Manitoba. In company with these was Mr. Granville Richardson, who has lately been attending the Peterborough Business College. Grant is going to try the west for a situation—success to our boys!

Mr. Joseph Marden has another boy at his home.

Last Wednesday evening a travelling ventriloquist gave an entertainment in our hall. His system of drawing was very good and simple too; the audience were greatly pleased with the special feature.

Sugar making has ended, and the season was not a very long or successful one; consequently we have hopes that the fall will come out in good order.

Our sidewalks are in need of repair. If our local representative would see that they are repaired we would feel very grateful indeed. Some of the surplus money offered for the swamp drain might be put in, and we'll guarantee it will not float away when the spring freshet comes.

We cannot see the benefits of the N.P. in our town; most of our young men have fled, our foundry has not yet assumed its usual spring hum, bread has gone up, money is scarce, trade is slack, eggs are so low that it hardly pays to gather them and take them to the stores, our streets are almost silent, our pocketbooks easy to carry, and the larder none too full; about all the farmer can claim a good price for is butter and oats. Sir John has need to seek Washington early and treat on the question of Unrestricted Reciprocity.

A Pleasant Herb Drink—A Spring Medicine.

The druggists tell us that people call daily for the new cure for constipation and sick headache discovered by Dr. Silas Lane. It is said to be Oregon grape root (a great remedy in the far west for those complaints) combined with simple herbs, and is made for use by pouring on boiling water to draw out the strength. It sells for 50c. and $1 a package, and is called Lane's Family Medicine. dw

Makes the Weak Strong

The marked benefit which people in run down or weakened state of health derive from Hood's Sarsaparilla, conclusively proves the claim that this medicine "makes the weak strong." It does not act like a stimulant, imparting fictitious strength from which there must follow a reaction of greater weakness than before, but in the most natural way Hood's Sarsaparilla overcomes

That Tired Feeling

creates an appetite, purifies the blood, and, in short, gives great bodily, nerve, mental and digestive strength.

"I derived very much benefit from Hood's Sarsaparilla, which I took for general debility. It built me right up, and gave me an excellent appetite." ED. JENKINS, Mt. Savage, Md.

Fagged Out

"Last spring I was completely fagged out. My strength left me and I felt sick and miserable all the time, so that I could hardly attend to my business. I took one bottle of Hood's Sarsaparilla, and it cured me. There is nothing like it." R. C. BEGOLE, Editor Enterprise, Belleville, Mich.

Worn Out

"Hood's Sarsaparilla restored me to good health. Indeed, I might say truthfully it saved my life. To one feeling tired and worn out I would earnestly recommend a trial of Hood's Sarsaparilla." MRS. PHEBE MOSHER, 90 Brooks Street, East Boston, Mass.

N. B. If you decide to take Hood's Sarsaparilla do not be induced to buy anything else instead. Insist upon having

A BAD HUMOUR.

$5,000 Expended on Doctors and Medicine with small. Cure brought up to date.

Good Wife Suggests Cuticura Remedies. Uses them 7 months, and is entirely Cured.

I was in the war during 1863-6, and took a heavy cold at Gettysburg, from which I never fully recovered. In 1875 I broke out in sores all over my chest and shoulder, which seemed impossible to cure. I tried all the famed doctors I could find, and to no avail. I applied over five thousand dollars trying to find a cure but could not, and finally giving myself up to do die, my good wife suggested to me, one day, to try the CUTICURA REMEDIES, which were so extensively advertised and used. I followed her suggestion, and am happy to say that by diligent application of your CUTICURA REMEDIES for seven months I was entirely cured, after spending five years of time and money without avail, and am a sound and well man to-day. You may refer to me if you wish, as I will tell any one who may call on me my experience. C. L. PRESSLER,
1 Palace Pl., Middletown, New York.
April 12, 1890.

SUN LIFE

ASSURANCE COMPANY OF CANADA.

The attention of our Policy-Holders is directed to the following summary of the leading items of the present report, which speaks for itself as to the progress and prosperity of the Company:—

Life Assurance in force, 1st January, 1891	$16,759,355 92
Increase over previous year	3 421,372 84
New Applications received in 1890	6 371 599.15
Increase over 1889	2 268.888.60
Cash income for year ending 31st December, 1890	889,078 87
Increase over 1889	325 938 35
Assets at 31st December, 1890	2,473,514 19
Increase over 1889	697 691 47
Reserve for Security for Policy-Holders	2,109,322 68
Increase over 1889	567 732.71
Surplus over all Liabilities and Capital Stock	232.175.69
Increase over 1889	75 649 85
Death claims fallen in during 1890	143,961 65

The progress made by the SUN LIFE during 1890 was remarkable. The new business was the largest in the Company's history, and was equalled by but one other Canadian Life Company. The income for the year exceeds $2,000 for each day in the year, Sundays included. The Assets are large and rapidly increasing. They are, moreover, of the highest character, yielding an average interest of 6.04 per cent. The overdue interest is small, and the Real Estate owned under foreclosure is only four per cent. of the amount of mortgages. This is a remarkable showing. The SURPLUS accumulated during the FOUR years of the current quinquennium is nearly THREE TIMES as much as the amount earned during any previous FIVE years, and the profits to Policy-holders cannot fail thus to be highly satisfactory. The following are the figures:—

Net Surplus, 31st Dec., 1881, (five years)	$64 824 07
" " " 1886, "	89,452 97
" " " 1890, (four years)	232,175 69

VOL. XII. NO. 101. PETERBOROUGH, THURSDAY, APRIL 30, 1891. PRICE [illegible]

CASH HARDWARE STORE.

On and after 1st April we shall do business on a **Cash Basis.**

To cover the inevitable ones attendant upon a credit business, which accrue from amount of time spent in keeping accounts, collecting, bad debts, interest account, and in numerous other ways, larger margins of profit must be asked.

In these times cash buyers ask, expect, and are entitled to close prices. A careful consideration of the subject convinces us that the time has come for a cash business done on smaller profits.

The only customers who may possibly be put to inconvenience are those who have had long credit. In more ways than one it will be to their advantage to pay cash.

For convenience of our old customers who consider their accounts due when presented, we will call 30 days cash and render all accounts the first of each month, and we wish to say that will be happy to do business with them on those terms.

As the new departure is something of an experiment, what would be considered a close cash price will be made all through the stock. Not a few leaders only, but a general reduction in everything from the fourth flat to the cellar.

Our idea is to perform more than promised rather than promise more than can be fulfilled.

Our stock is large and varied, consisting of **Builders', Contractors', Household, Mechanics', Painters', Shoemakers', Farm, Mill, Factory, Lumbermen's, Sporting, Threshers', Cabinet-makers', and other lines of Hardware.**

An old saying:—"You should go to King-an's where you can get anything from a Needle to an Anchor."

TO BE HANGED JUNE 4.

THE CUMBERLAND MONSTER SENTENCED TO DEATH.

The Judge's Severe Arraignment. The Jury Only Required Half an Hour to Arrive At a Verdict of Guilty The Prisoner Appears Unconcerned.

L'ORIGNAL, Ont., April 29.—The awful murder of the little McGonigle girls at Cumberland on Oct. 7 last will be avenged. Narcisse Larocque was to-day found guilty and will be hanged Thursday, June 4, at this place. The prisoner's lawyers, Messrs. McCrimmon and Constantine, made a brilliant defence considering the material they had to work on, but the crown case was so strong that the jury only remained out 35 minutes. The verdict was unanimous. The judge's sentence was extremely solemn and his censure of the crime terribly severe.

In addressing prisoner, before passing sentence, His Lordship said: "Perhaps in the annals of crime in this country no more diabolical offence has been committed than that which you have perpetrated and of which the jury have very properly, I think, convicted you. The circumstances all pointed to you as being the guilty party. You were last seen in the company of these two little girls, who were unable to protect themselves, and you being a friend of the family your duty ought to have been to have protected them against the hand of anyone. Instead of that, as the evidence must satisfy everyone, you first, in order to satisfy your lustful passion, outraged them both and then you committed this offence for the purpose of covering up the guilt of the first crime."

Prisoner after the verdict was announced, turned deadly pale, his lips quivered and it was thought he would break down, but near the close of the sentence he braced up and finally left the court room with a firm step though with a bowed head.

The Evidence that Convicted.

The evidence was purely circumstantial. James McGonigle, the father of the murdered children, a laborer, testified to their ages, namely, that of Mary about 11 years and that of Eliza about 12. They were at school at Cumberland on Oct. 7 last. They did not come home that night; the next night, Wednesday, Oct. 8, about 10 o'clock, the two girls were found dead by him and some others in a bush just out of a lane, which the children traversed on their way to and from the village.

George Brown, the school teacher, and Cory McCollum, a little girl who was a schoolmate of the murdered girls, testified to the latter having been at school on Oct. 7 and having left it for home about 4 o'clock.

Margaret Cochrane deposed that she saw the prisoner running towards the bush on the afternoon of the murder, as did also Jos. Williams.

William Gamble testified that he had met and spoken to the prisoner, who was following the girls towards the bush on the afternoon in question. Prisoner was walking at a brisk pace.

Benjamin Bernard gave the most incriminating testimony. He swore positively that while in a field getting his cows he saw prisoner walking with the two girls in the lane leading up to the bush. One girl was walking along side him, while the other was walking just behind.

The evidence of Robert Dalrymple corroborated that of the two preceding witnesses as to the time at which they returned from the field. He also heard screaming at intervals of 5 minutes from the direction of the woods.

Considerable evidence was given as to the tracks made by the murderer, which exactly corresponded in size with those made by boots belonging to the prisoner. It was also shown that trees on the route prisoner admitted he took in going to his brother's house were covered with blood marks, as if a bloody hand had been wiped thereon.

Edward Lafocque, a cousin of the prisoner, swore that prisoner arrived at his house at 6 o'clock on the evening of the murder and remained all night.

Ghastly Relics in Evidence

The medical testimony was very conclusive. Drs. Marks, Janson and Ferguson, who made the post mortem, testified that there was every evidence that the children had been horribly outraged. The immediate cause of death was strangulation, the finger-marks of the assassin being plainly discernible on the neck, while the windpipe bore evidence of great pressure. There were also numerous marks on the hands showing that fingermarks had dug into them. Dr. Marks produced in court the hands and other injured parts of the children preserved in jars, together with photographs of the hands and impressions of the fingers of the prisoner and the jury compared them. A shudder of horror ran through the audience during the course of the evidence of Coroner Marks. The younger girl had evidently been the first victim of the fiendish monster, as the marks of violence in her case were the most pronounced, and in strangling the child the murderer had used such force that he had broken a bone in the throat.

There was no evidence for the defence. Prisoner's counsel did not think it advisable to call witnesses as to character, and the attempt to show that other girls had previously been chased in the same woods was abandoned.

Locchis Liberated.

CAYUGA, April 29.—Locchis, the Italian who was accused of murder and arson in connection with the burning of a farmer's residence in North Cayuga, whereby two children were burned to death, has been released from jail on his own recognizance, the Crown Attorney believing that the evidence against him was not sufficient to justify his further detention.

The British consul at Delagoa Bay reports a brutal assault made by a Portuguese officer upon two officers of the British South Africa Company named Hawley and Colquhoun. The lives of the British residents are unsafe.

Is This the New York Ripper?

WASHINGTON, April 29.—A man answering in some particulars the description of the Ripper is under arrest here. The prisoner gave his name as John Hughes, and residence New York.

Perforated by a Pick.

NIAGARA, April 29.—A serious accident occurred here about 4 o'clock this afternoon. It seems that George Goard, who with a number of others are engaged in making excavations for the laying of waterworks pipes, was accidentally struck in the back with a pick-axe by a man working behind him, injuring the spine. He was taken to St. Catharines Hospital.

ONTARIO LEGISLATURE.

The Undertakers' Bill Shelved—A 10-Year-Old Inmate.

TORONTO, April 29.—The bill to amend the Medical Act passed through Committee of the Whole House yesterday with but one amendment. Strong opposition was expressed to the clause to provide that a doctor giving evidence in his professional capacity in any court shall be paid $4 a day in addition to traveling expenses. It was defeated by a large majority. Incidentally, Mr. McCleery read a letter from a medical man in his constituency saying, "The Medical Council is no good any way. The profession don't want it. It is a parasitic fungus which should be annihilated." As a result of the discussion on the rejected clause of this bill, Mr. Whitney introduced a bill to provide that artisans and mechanics giving expert testimony in a law court shall be paid in addition to the traveling expenses a per diem allowance equal to their daily pay.

Joe Tait's bill respecting undertaking, embalming and organic chemistry was virtually killed. The House went into committee on it, but after a brief discussion Mr. Balfour moved that the committee rise, report progress and ask leave to sit again. This motion was carried by a vote of 43 to 30. As there probably will not be another opportunity to go into committee again on the bill this session, the motion really disposed of the bill without eliciting from the members an expression of opinion upon the merits of it.

Mr. Gibson (Hamilton) said, in reply to Mr. Monk, that a boy 9 or 10 years of age was confined in the Central Prison, having been committed by the Police Magistrate of Hamilton for 18 months on a charge of larceny. The Government was not informed why the boy was not sent to some house of refuge. He could not be sent to Penetanguishene Reformatory because of a law of last year, that no boy under 13 should be sent there. Further inquiry would be made and the boy transferred to some other institution if possible.

In reply to Mr. Snider, Mr. Dryden said sugar beet seed had been distributed in several sections of the province. Samples of the best produced were analysed and found of a fair quality. It was found that a slightly larger yield per acre might be obtained in Europe. The Government did have under consideration a request for assistance towards establishing a beet root sugar factory but did not see its way clear to granting the assistance asked.

When Mr. Campbell, the Equal Rights, was called on to move his resolution, respecting separate schools, that the B.N.A. Act should be amended so as to place education completely under the jurisdiction of the Ontario Legislature, he stated that as the members seemed anxious to get through the work of the session, he would withdraw the resolution, but would press it to a vote next session.

Dr. McKay (Oxford) and Mr. W. M. Dack, the Government whips, presented Patrick O'Brien, the housekeeper of the Legislative buildings, yesterday with a well-filled purse in recognition of the efficient manner in which he performed his duties during the session.

Mr. Sol. White, member for North Essex, has in his possession, among other interesting and valuable historical relics, the original parchment of the treaty between the crown and the Wyandotte tribe of Indians, made in 1764. He has also the "wampum" in connection with it, a belt conveying to the Indians the intention of the treaty. The method of interpreting the "wampum" was lost long ago. These articles have always been in the possession of Mr. White's family, handed down from father to son, Mr. White being the lineal descendant of the chief who signed the treaty and his father being the last chief of the tribe.

Interred in the Mausoleum.

KREISAU, April 29.—The remains of Count von Moltke reached here to-day and were conveyed to the mausoleum by officers of cuirassiers, the procession being headed by Gen. Lewinski, Bishop Kopp and the civil authorities of Kreisau. The route of the procession was lined with members of the different veteran soldiers' associations. Pastor Grundtz delivered an oration at the graveside and the ceremonies concluded with an anthem.

A Chess Player's Medals Missing.

NEW YORK, April 29.—The disappearance of the valuables of the late Capt. Mackenzie is the subject of speculation and indignant comment among the great chess player's friends. Even the championship medals won in many contests of absorbing interest on both sides of the Atlantic have disappeared. Undertaker Kipp, who had charge of the remains of Mr. Mackenzie from the time of the discovery of the dead body until the burial, was summoned before Coroner Levy this afternoon and questioned in regard to the missing valuables, but knew nothing of them.

Crushed by Wheels.

KINGSTON, April 29.—One of the heavy waggons of the Sheddon Company was being driven along Earl-street, loaded with furniture, when several little fellows ran towards it. One of them named Powers, about 7 years old, jumped on the rear axle and falling off, was drawn under the wheel, which passed over his hips, crushing him severely. The little fellow was picked up and sent to the Hotel Dieu in the ambulance.

At Lexington, Va., James Crane, colored, was hanged for the murder of Charles Oliver at Brownsburg.

Will Row O'Connor on Any Suitable Course in America.

NEW YORK, April 29.—A cablegram to The Police Gazette from Sydney, N.S.W., says Stanbury, who yesterday defeated McLean for the sculling championship of the world, accepts O'Connor's challenge and will row on any suitable course in the United States.

Death from Heart Disease.

KINGSTON, April 29.—Last evening Mr. Gallivan, engineer, returned from his work to his home in Alfred-street feeling in good health. About 9 o'clock he took sick and before a physician or a priest could be got to the house he passed away. Heart failure is supposed to have been the cause of death.

Councillors of Detroit.

MONTREAL, April 29.—At a meeting of the McGill University Graduates' Society held to-night Mr. J. J. McLaren, Toronto, and Sir James Grant, Ottawa, were appointed non-resident councillors, and the president and secretary of the Ottawa Valley Graduates' Society were named members and officers.

DOMINION PARLIAMENT.

MR. PETER WHITE ELECTED SPEAKER BY ACCLAMATION.

Sir John Macdonald and His Son Take the Oath of Office Together—The Leader of the Opposition Twits the Conservative Party on the Loyalty Cry.

OTTAWA, April 29.—The proceedings in the House and Senate to-day were of the usual personal character and not characterized by any special feature except the swearing in of Sir John and his son together, this being, so far as the writer is aware, the first time such an event has occurred in Canada. Sharp on midday the Clerk of the Commons and his assistants appeared in the Chamber and the swearing in of members was commenced, the first three to take the oath being Robillard, Dr. Landerkin and McMullen, who signed the roll of the new House in the order named. The junior member for Ottawa was therefore the first to attach his signature to the new roll. The swearing in proceeded rapidly and by 2 o'clock nearly the whole of the members had taken the prescribed oath and inscribed their names in the roll.

The Commoners then retired to their own chamber and Sir John Macdonald, addressing the Clerk, moved, seconded by Sir Hector Langevin, that Peter White, member for North Renfrew, do take the chair as Speaker of the House. He remarked that to the old members of the House it was unnecessary for him to say anything about Mr. White, who, he was sure, would impart dignity to the important position he was to fill. He had been for 14 or 15 years in the House, and from his first entrance had always shown ability and assiduity in the discharge of his duties. No matter on which side of the House he had been, whether on the right of the Speaker or the left, he had always comported himself in a manner which justified the wisdom of those who sent him to the House. He thought that Mr. White would prove perfectly acceptable to both sides of the House.

Mr. Laurier twitted the Government on having suffered a reduction in its ranks in the elections, and also on the fact that they did not propose to follow the British precedent of re-electing the old Speaker. In a good-natured sort of way he touched on the loyalty cry and said that Conservative loyalty shines brightest at election times, but after the election it was put under a bushel. He had thought that Mr. Wood of Brockville, who had made an excellent deputy-speaker, would have been the choice of the Government, but he had no special fault to find with Mr. White. He complimented that gentleman on the possession of sound judgment although he had supported the National Policy, and felt sure that on assuming the position of Speaker he would leave party feeling behind him, and act fairly and justly to both sides of the House.

Mr. White was then declared elected unanimously and conducted to the Speaker's chair by Sir John Macdonald and Sir Hector Langevin, where he made the customary short address declaring his intention to maintain the honor and dignity of the House and to do his duty impartially to the best of his ability.

The House adjourned at 3.35.

The Speech from the Throne.

It is not expected that the Speech from the Throne to-morrow will likely be very long or contain any intimation of any extraordinary legislation, in view of the season of the year at which the House meets.

It may be expected that the usual allusion to the harvest of last year will be varied by some reference to the advanced condition of the crops for the early period of the season and hopeful anticipations that under such auspicious circumstances the industry of the people will be rewarded by good returns for their labor.

The recent negotiations with a view to the enlargement of our trade relations with the United States will no doubt be alluded to and reference made to the fact that Oct. 12 has been fixed as the date for the consideration of a number of questions of great interest to both countries.

As closely connected with this question it is but reasonable to suppose that His Excellency will intimate that Parliament will be asked to continue for the present season the modus vivendi provided for by the treaty of 1888, which the United States Senate failed to ratify.

The attack of Mr. Pirmoll on the Atlantic cattle trade and the charge of the improper treatment of cattle in transit will doubtless cause a reference to the fact that the investigation held by the Dominion Government showed that the charge of cruelty was unfounded, and to statement that the report on the investigation will be laid before Parliament and a measure submitted for the purpose of avoiding all reasonable apprehension of abuse in future and to protect the interests of this important branch of commerce.

Last winter the Minister of Justice addressed a circular to judges asking for suggestions as to changes in the criminal law, meaning the question of the abolition of grand juries, which some eminent judges had declared themselves in favor of. It is most probable, therefore, that there will be some intimation of submission of a measure codifying the criminal law, in order that that branch of our jurisprudence may be simplified and improved. It will be remembered that an act was introduced at the last session of parliament with reference to the transference to the different provinces in the interest of the Dominion Government foreshores and with reference to obstruction in navigable waters. The act only reached its second reading, but it will be pretty certain to be reintroduced this session.

There has rarely been a session of Parliament in recent years in which it has not been found necessary in view of the growth and development of our Northwest Territories to introduce some legislation with respect to that large and important section of the Dominion, as the several questions of importance have been attracting attention is that section, it is but reasonable to anticipate that the speech will intimate that Parliament will be asked to consider amendments to the acts relating to the Northwest Territories.

It is also probable that the speech will indicate that amendments will be proposed to one or two other acts, and no doubt there will be a reference to the satisfactory condition of the revenue, as evidenced by the surplus last year, and the estimates will be promised at an early period of the session.

If the above proves to be a correct anticipation of the business to be submitted to parliament, it will be seen that while not indicating any measure of a radical or a startling nature calculated to provoke a long and acrimonious session, there will still be a sufficiency of useful legislation proposed.

SETTLING WITH THE SURVIVORS.

Harrison Sends a Delegate to Palermo to Settle up

ROME, April 29.—L'Osservatore publishes a despatch from Palermo stating that an American journalist named Eckelmann who has arrived there has been charged by the government of the United States to render assistance to the families of the Italian subjects lynched in New Orleans. It is stated that Engelmann visited the village of Ucciardum to give help to the family of Monasterio, one of the lynched men who reside at that place.

A Murder Over Marbles.

PITTSBURG, Pa., April 27.—James Lenox, aged 7 years, to-day shot Benjamin Griffith, aged 9. The boys were playing marbles with Charles Rusbell, aged 13. They quarrelled and Rusbel handed Lenox the revolver, urging him to use it. The ball lodged in Griffith's brain.

Killed By Handling Coin

INDIANAPOLIS, Ind., April 26.—Miss Clara Meredith, until lately cashier and bookkeeper of the Bates House, has just died from blood poisoning, the result of handling coin.

Children Cry for Pitcher's Castoria.

INFAMY IN HIGH LIFE.

YOUNG GIRLS BARTERED AS CHATTELS IN AFRICA.

Grave Charges in the Italian Chamber of Deputies Against Army Officers—A Resident of Frosh Kills His Entire Family and Himself.

ROME, April 29.—Sig. Imbriani in the Chamber of Deputies to-day, speaking on the Africana question, charged the Italian Government with permitting the slave trade to be carried on openly. Imbriani also asserted that 35 young girls who had been taken from their former owners under the the pretext of rescuing them from slavery had been distributed among a number of Italian officers serving with the Italian army in Africa.

The Marquis di Rudini, replying for the Government, protested against such accusations being made without absolute proof of their truth being first obtained.

Amidst cries of "It's a lie," "Withdraw," the Minister of War declared he would not remain in the House unless the charge was withdrawn. A prolonged uproar, during which several violent scenes were witnessed, followed the announcement of the determination of the Minister of War. The President of the Chamber was utterly unable to control excited deputies and consequently he was compelled to suspend the sitting.

CHOKED TO ORDER.

A Woman Pays a Lover to Strangle Her and He Does So.

BUDA PESTH, April 29.—A farm hand by name of Maresin Gilezan has been arrested for killing a rich female, the keeper of a well-known inn at the village of Detta, near here, and by name of Josepha Kirsch. The woman was found dead in her bed yesterday morning, and the only evidence of violence which might have led to her death were blue marks about her throat indicative of strangulation. Gilezan finally confessed that he had killed the woman, but claimed that he had to do so in accordance with her positive instructions, and produced the following letter which has been identified by those familiar with Mrs. Kirsch's handwriting, as having been written by that woman:

"As I have told you before upon several occasions, my life is no longer bearable and I have decided that the only rest for me will come by taking my life.

"I have decided to ask you to kill me, and if you do it you may have two florins and a quart of whisky, both of these I have provided. I presume you will require something to give you courage to do this deed, and for that reason I have got the quart of whisky, and I will give it to you just as soon as you say that you will kill me, and the two florins will be where you can get them as soon as you satisfy yourself that I am dead.

"At 7 o'clock this evening I shall be entirely finished with my day's work and will await you in my room. I want you to tie my hands and feet together securely. Then I want you to clasp your hands around my throat for five minutes, which will be sufficient time to kill me; then sprinkle my body with holy water and take the two florins which you will find in the pocket of my dress."

The cowardly fellow considered for several hours and finally decided to undertake the job. He tied her as directed, took the whisky, sat in a chair facing her for two hours, during which time he drank all the liquor and became so intoxicated that he had no remembrance of what he did. He supposed he must have killed her in the way proposed. He did not fail to take the two florins.

The Persecution of the Jews.

ST. PETERSBURG, April 29.—A decree has been issued ordering the enforcement in St. Petersburg of the same measures against the Jews as were recently decreed against the Hebrews of Moscow. The decree assigns certain places where Jews will be permitted to reside in St. Petersburg.

The priests and pastors of Moscow are overwhelmed with requests from Jews for baptism in order to avoid expulsion. The law prevents such conversions except in the case of Lutherans and Catholics, and then permits conversions only in limited numbers. The flight of Jews continues. The expelled Jews are cruelly treated, being marched out of the city afoot, chained in bands by the wrists.

Widowed Mrs. Grimwood's Story.

CALCUTTA, April 29.—Mrs. Grimwood, wife of Mr. Grimwood, late British political agent at Manipur, who was murdered when Chief Commissioner Quinton and other British officials lost their lives, has arrived here. She says the Manipur disaster was entirely due to the rashness of Quinton in refusing to listen to sensible advice which was given him in regard to the negotiations being conducted with the native chiefs concerning the deposition of the maharajah.

Was He the Ripper?

LONDON, April 29.—It is reported that Jack the Ripper has been identified as being the unknown man who committed suicide at Wimbledon some three weeks ago by shooting himself with a revolver. One of the marks of identification was the fact that in the pockets paper was found identical with that on which "Ripper" warnings have been written.

A Tragedy of the Blue Danube.

PESTH, April 29.—A man employed in the post-office here was to-day seized with a homicidal frenzy and murdered his wife, mother-in-law and three children. The man then drowned himself in the Danube.

For Inciting to Mutiny.

ROME, April 29.—In Turin and Milan the police have arrested many Anarchists on the charge of inciting the military to mutiny.

Chat from Over the Sea.

A despatch from Iquique says: The Parliamentary forces have occupied Copiapo. Five hundred of Balmaceda's friends, who were defending the town, fled.

A fire at a village near Swindon, Wiltshire, yesterday rendered 500 people homeless.

A despatch from Chili says a dynamite bomb was thrown at President Balmaceda's palace yesterday. The bomb exploded without doing any damage. There is no clue to the perpetrator of the outrage.

A most serious feeling of alarm prevails in official circles in Paris at the possibility of an Anarchist outbreak on May 1. The military and police authorities are taking the most extreme precautions, and are making every preparation to, if possible, effectually meet and promptly suppress any disorder on the part of the Anarchists or others. From to-day until the May Day excitement is over no soldiers will be allowed to leave their barracks, except on guard duty, to bring in supplies of provisions, etc. Even the officers are confined to the barracks. To each soldier on the garrison 120 rounds of ball cartridge have been distributed.

Stole a Quarter of a Million.

NEW YORK, April 29.—A suit brought by Charles S. Holmes shows that Arthur C. Gilman, a member of the firm of J. H. Larabee & Co., tea merchants, who died suddenly at Flushing, L.I., last December, was a defaulter to the firm in the sum of $222,934. Gilman was taken in at a salary of $8 a week in 1879 and became a partner without putting in any capital in 1880. As he kept stealing the money he deposited it with the Seventh National Bank, the Flushing Bank and the Queen's County Bank. What he did with the money does not appear.

ATTRACTIONS IN

DRY GOODS

AT

TURNBULL'S.

The change in the weather has brought with it a great demand for Millinery, also for Spring Shades in Dress Goods. Our store was never more attractive in these lines than at present. We have every new and desirable shade in stock with Millinery to match. If you are in town this week, have a look at our Grey Dress Goods and Millinery Window. Large Grey Checks for young people to be made up alone or mixed with Black. Small Black and White Checks and Stripes (broken patterns,) for older people. Goods that are hard to find, in neat patterns.

We justly claim to take the lead in our Tailoring Department for quality of goods, fit and price. We get up a splendid suit, in Halifax tweed or navy serge, for $12.00. Fine grades of Almonte and other makes of tweed for $13.00, $14.00, $15.00 and $16.00. Scotch tweeds and serges from $16 to $20 for the best. Fine all Venetian finish or diagonal cords for coat and vest, with black or fancy pantings to match, at from $19 to $22 a suit. Remember our prices. Call and see our stock, and do not pay a great deal higher figure through force of habit.

We have added this week to our already attractive stock of Boys' Clothing, another shipment just turned out of the manufacturers' hands, neat and new styles.

We show now an immense range of patterns in cottonades and shirtings, in the best quality.

We also keep all the lower lines, beginning at 5c. for shirtings and 12½c. for cottonades.

We have an opening now for an apprentice in the millinery department. Apply until Saturday.

SUN LIFE

ASSURANCE COMPANY OF CANADA.

The attention of our Policy-Holders is directed to the following summary of the leading items of the present report, which speaks for itself as to the progress and prosperity of the Company:—

Life Assurances in force, 1st January, 1891	$16,759,355 92
Increase over previous year	3,421,372 84
New Applications received in 1890	6 371 599 15
Increase over 1889	2 268 888.60
Cash income for year ending 31st December, 1890	889 078 87
Increase over 1889	325 938 35
Assets at 31st December, 1890	2,473 514 19
Increase over 1889	687 691.47
Reserve for Security for Policy Holders	2,109 222 68
Increase over 1889	567 732 71
Surplus over all Liabilities and Capital Stock	232 175 69
Increase over 1889	75 649 03
Death claims fallen in during 1890	143,901 65

The progress made by the SUN LIFE during 1890 was remarkable. The new business was the largest in the Company's history, and was equalled by but one other Canadian Life Company. The income for the year exceeds $2 000 for each day in the year, Sundays included. The Assets are large and rapidly increasing. They are, moreover, of the highest character, yielding an average interest of 6 04 per cent. The overdue interest is small, and the Real Estate owned under foreclosure is only four per cent. of the amount of mortgages. This is a remarkable showing. The SURPLUS accumulated during the FOUR years of the current quinquennium is nearly THREE TIMES as much as the amount earned during any previous FIVE years, and the profits to Policy-holders cannot fail thus to be highly satisfactory. The following are the figures:—

Net Surplus, 31st Dec., 1881, (five years)	$64 824 07
" " " 1886, "	89 452 97
" " " 1890, (four years)	232,175 69

ROWSE

305 GEORGE [illegible]

We want to talk to you about Linen Curtains. Perhaps you are desirous of supplementing it all in your home. Here, we can show you the newest designs in curtain materials, having purchased them direct from Paris. We would like you to [illegible] which are selling at $1.25 per pair. If you can get them anywhere else at $1, you can stand very cheap, there all. On these goods we would save $1.25, when waiting for a customer to [illegible] one pair to sell them.

The people are talking about [illegible] Goods and Rowse's Prices. One of our [illegible] said the other day: "All of the people of Lakefield are talking about our goods and your prices." Well, no wonder we give them something worth talking about.

Towels, table linens, napkins, white quilts, all cost money, but if you want to save money in buying them go and see Rowse in his new store.

In a few days we will show you some lovely designs in American prints, purchased direct from Boston—the great intellectual hub. Nothing like these prints to be seen in our city, but don't wait particularly for them, we can suit you at any time.

We are having a big sale of dress goods. Come and see the bargains. New trimmings to match all of our goods.

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

...ARE NOT a Patent Medicine. They are not a Secret Nostrum. Their Composition and Method of Production, as they are used in the treatment of the diseases for which they are recommended, is known to the Medical profession and the Clergy throughout Canada and the United States. They are a Scientific Preparation of Proven and Well-Known Curative Ingredients, and their Wonderful Powers in the Cure of all Diseases arising from Vitiated Blood, or from Shattered Nerves, are Unequalled by any other Medicine now before the public. They have a Specific Action on the Sexual Systems of both men and women, restoring Lost Vigor, and correcting all Irregularities and Suppressions.

EVERY MAN Who finds his mental faculties dull or failing, or his physical powers flagging, should take these Pills. They will restore his lost energies, both physical and mental.

EVERY WOMAN should take them. They cure all suppressions and irregularities, which inevitably entail disease when neglected.

YOUNG MEN should take these Pills. They will cure the results of youthful bad habits, and strengthen the system.

YOUNG WOMEN should take them. These Pills will make them regular.

For sale by all druggists, or will be sent upon receipt of price (50c. per box), by addressing

THE DR. WILLIAMS' MED. CO.
Brockville, Ont.

The Daily Examiner is delivered to any part of the Town for 10c. a week, 35c. a month, $2.00 for six months.

Daily Examiner.

THURSDAY, APRIL 30, 1891.

A CIRCULAR has been issued from the Post Office Department informing newspaper publishers that after the first of May all newspapers and periodicals sent from the offices of publication in Canada to points in Great Britain and Ireland will be charged a uniform rate of one cent per two ounces to each separate address, postage in all cases to be prepaid. Thus Canadian publishers are obliged to pay for the mismanagement of the postal service. Canada's postage rates are now higher than those of Great Britain or the United States. In fact, says the Ottawa *Free Press*, the Postmaster-General is actually discriminating against Canadian publishers and book dealers, by way of "encouraging native industry." Not only have we no direct mail service between Canada and England but an extra charge is levied for sending papers to Europe by way of New York. Mr. Foster's fast steamship line has not materialized, and probably the Allan company did not contribute as much as the postmaster general demanded towards the Tory corruption fund. Hence the present deplorable condition of our ocean mail service. Does Mr. Haggart prefer to patronize American steamship companies rather than Canadian lines which refuse to "come down handsomely?"

THE *Empire* is evidently preparing to face the possibility of the census now being taken showing a decrease of population even under the N. P. The *Empire* remarks:—"Since 1880 every state of the union east of the Mississippi has decreased in population in some countries. The decrease has been considerable in Nevada, Utah, California, Iowa, Minnesota and Missouri, and has affected wide districts."

Norwood.

(*From Our Own Correspondent.*)

The footballers had their enthusiasm slightly checked last Saturday afternoon. During the regular afternoon practice, Mr. Thos. Wigmore, teacher in Allendale school, and an ex-pupil of Norwood high school, fell and twisted his leg in such a way that the end of the large bone, near the ankle, snapped. Medical assistance was at once summoned, and after the unfortunate kicker had been removed to his home, the leg was set, and since that time has been taking the usual course towards recovery. Tom's only apparent trouble now is his impatience to be on the field again.

We regret to relate the very serious illness of Miss Etta Wigmore, sister of the above. While attending the Normal school, at Ottawa, her health gave out, and she returned recently in a very weak condition. Her many friends anxiously hope for her recovery.

During the week a number of improvements are being made to the Presbyterian church. The walls are being calcimined and the electric lights introduced. There are to be two arc lights in the church and 11 incandescent lights in the basement and other parts of the building. The interior will probably present a very refreshing appearance next Sunday.

The last basket social of the season was held at the residence of Mr. John Finlay on Tuesday evening, April 28th. There was a very fair turn out, and everybody appeared to enjoy themselves.

We are pleased to learn that Mr. Thos. Buck, sr., is recovering from his recent illness.

The Cricket club was organized last week with Mr. T. Fraser as captain.

The formation of a baseball club is talked of.

La Grippe, in different forms, claims many victims in this neighborhood.

At the last meeting of the School Board, it was decided to have a new High School building.

An American Athlete Speaks.

At the annual meet of athletes held on the grounds of the Montreal Lacrosse Club in Montreal, one of the celebrated American athletes was spoken to in regard to athletic matters and proper training. When asked, "Is it necessary for you athletes to take medicines, or often seek medical advice in order to keep in trim for your various contests?" he replied, "Indeed it is. We feel at times the need of a cleansing, toning and strengthening tonic, quite as much as other mortals who never think of athletics. Speaking from a knowledge of facts, I may say that athletes often experience nervousness, weariness, low spirits, a fulness in the head, and are often troubled with a nervous wakefulness or insomnia. These are serious symptoms, and must be got rid of if the athlete wishes to excel in his particular line of athletics. As for myself, and I may also speak for other athletic friends, we shun drugs and medicines generally, and now invariably use Paine's Celery Compound. I have tried it with great success, and am quite satisfied that it is the athlete's friend. It tones up and renews the whole system, both mental and physical, and gives to the digestive organs a vigor that every athlete requires. I would be pleased to see your athletes of Canada better acquainted with this valuable remedy, and prize it is highly as we do on the other side."

Coming from such a source, these opinions should have weight with all interested in Lacrosse, Baseball and Bicycling during the present year.

Always Take the Best and Safest Boat.

"Here we are mother at the wharf, and three boats are now ready to cross over to the Park; let us jump on the Albatross, it is nearest." "No, my dear, if the Alert is within reach, we shall take her, as she is not only the safest boat, but the cleanest and quickest as well; and, remember my love, the fare is the same as the commoner boats charge." Do not be misled or deceived, or induced to buy inferior dyes simply because some merchants near you may keep them. It will pay you infinitely better to take a few extra steps, and get the only genuine and reliable Diamond Dyes, every one of which is pure, bright, durable, and unfading in sun or rain.

Children Cry for Pitcher's Castoria.

LIVE STOCK MARKETS.

TORONTO, April 28.—There has been great activity at the Western Cattle Market today. There was a good demand for butchers' cattle under heavy receipts. Prices were a little easier. About ten car loads of cattle were taken for the eastern markets and all were disposed of satisfactorily. To-day's receipts were 35 car loads cattle, 170 sheep and lambs, 350 hogs, 170 calves and 18 cows.

GENERAL MARKETS

MONTREAL, April 28.—The decline in both the European and American grain markets has checked business here, and there are no sales to report. Values are lower, but in the absence of business quotations are unchanged.

The flour market remains quiet. No sales were reported to-day. The decline in the grain market has checked business.

New cheese is coming in slowly. The demandis weak. We quote 10½ to 11c. Butter is unchanged. Stocks are keeping well cleared up. The choicest townships is quoted at 24c.

The egg market is firm and prices are steady on a 12c. basis.

Do you use SAPOLIO for house-cleaning? If not, try it. For sale at ALEX. ELLIOTT'S.

Do You Cough?

Don't delay. Take Kemp's Balsam, the best cough cure. It will cure coughs and colds. It will cure sore throat, or a tickling in the throat. It will cure pains in the chest. It will cure influenza and bronchitis and all diseases pertaining to the lungs, because it is a pure balsam. Hold it to the light and see how clear and thick it is. You see the excellent effect after taking the first dose. Large bottles 50c and $1. dw

Why Not Treat.

Why not treat such troubles as boils, pimples, blotches, sores, humors, eruptions, rashes, skin irritations, etc., with Burdock Blood Bitters. It is filled with virtue as a blood purifier and goes right to the right spot. It makes the skin bright and clear, while also invigorating the entire system. 1w18-d

Now Free From Pain.

Dear Sirs—I have been troubled with Lame Back for about six months, and thought I would try Hagyard's Yellow Oil, which cured me. Am now free from all pains, and recommend Yellow Oil very highly. Frank Palmer, Winona, Ont. 1w18d

Supposing.

Supposing you suffer from some disease. Suppose it is dyspepsia or biliousness or constipation or bad blood. Suppose you learn that Burdock Blood Bitters has cured thousands of cases of these and similar complaints. Don't you suppose you ought to try? It cannot harm you and in nine cases out of ten it cures. 1w18d

It Does Its Work.

Mrs. James Diz, Brock street, Kingston, Ont., says: I suffered with an inflamed throat and bad cough for seven months. Was treated by physicians without success, when six doses of Miller's Emulsion of Cod Liver Oil cured me. It's as palatable as cream. For sale by all druggists. dw

At no season in the year is cold in the head and catarrah more prevalent than during April. To neglect either means misery and perhaps fatal results. Nasal Balm is the only certain remedy for these dangerous diseases, and as a precautionary remedy should be kept in every household. Nasal Balm has cured thousands of sufferers—it will cure you. Try it. 6:98w

Once Used, Always Used.

This is a fact as regards Dyer's Jelly of Cucumber and Roses, from its wonderful efficiency in curing chapped hands, and making the skin smooth and soft. Druggists keep it. W. A. Dyer & Co., Montreal 5:92

A MAN'S wife should always be the same, especially to her husband, but if she is weak and nervous, and uses Carter's Iron Pills she cannot be, for they make her "feel like a different person," so they all say, and their husbands say so, too! dw

Twelve years trial in English climate, with increasing demand, proves the Royal Rheumatic Remedy to be the best remedy for rheumatism. For sale by W. R. Greatrix, druggist. dw

FOR NETTLE RASH, Summer Heat and general toilet purposes, use Low's Sulphur Soap. dw

Ayer's Hair Vigor

IS the "ideal" Hair-dressing. It restores the color to gray hair; promotes a fresh and vigorous growth; prevents the formation of dandruff; makes the hair soft and silken; and imparts a delicate but lasting perfume.

"Several months ago my hair commenced falling out, and in a few weeks my head was almost bald. I tried many remedies, but they did no good. I finally bought a bottle of Ayer's Hair Vigor, and, after using only a part of the contents, my head was covered with a heavy growth of hair. I recommend your preparation as the best in the world."—T. Munday, Sharon Grove, Ky.

"I have used Ayer's Hair Vigor for a number of years, and it has always given me satisfaction. It is an excellent dressing, prevents the hair from turning gray, insures its vigorous growth, and keeps the scalp white and clean."—Mary A. Jackson, Salem, Mass.

"I have used Ayer's Hair Vigor for promoting the growth of the hair, and think it unequaled. For restoring the hair to its original color, and for a dressing, it cannot be surpassed."—Mrs. Geo. La Fever, Eaton Rapids, Mich.

"Ayer's Hair Vigor is a most excellent preparation for the hair. I speak of it from my own experience. Its use promotes the growth of new hair and makes it glossy and soft. The Vigor is also a cure for dandruff."—J. W. Bowen, Editor "Enquirer," McArthur, Ohio.

"I have used Ayer's Hair Vigor for the past two years, and found it all it is represented to be. It restores the natural color to gray hair, causes the hair to grow freely, and keeps it soft and pliant."—Mrs. M. V. Day, Cohoes, N. Y.

"My father, at about the age of fifty, lost all the hair from the top of his head. After one month's trial of Ayer's Hair Vigor the hair began coming, and, in three months, he had a fine growth of hair of the natural color."—P. J. Gillon, Saratoga Springs, N. Y.

Ayer's Hair Vigor,

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.

BUILDERS, SPECULATORS, HOME-SEEKERS.

I want to call your attention to three most desirable Blocks of vacant land in the centre of the town—choice localities and the safest of safe property to buy. Three minutes walk from Post Office. There is none other available Property in town equal to the above, and should command prompt attention. Call for particulars. Should you prefer buying a cheaper class of Property, I can suit you in any part of the town or Ashburnham. Lots from $50 up. Houses at all prices and on easy terms. Sharp speculators seeing the future prospects of our town, are buying freely to re-sell at a profit. Reader, would it not be wise for you to buy a Home? Receive to do so. I will meet any appointment at my office from 6 a.m. to 9 p.m., and will in the future, as in the past, serve my patrons to their advantage. Houses and Stores to rent. Gardens to rent. Farms for sale or exchange for town property.

ONTARIO FURNITURE WAREROOMS.

TIME TO US MEANS MONEY.

THE TRIPLE ALLIANCE AT WORK! WE BUY BIG TO SELL BIGGER!!
THE OPENING GUN OF THE CAMPAIGN OF THE TRIUMVIRATE!!

SPOT CASH has saved a wholesale firm from bankruptcy; a colossal sale effected in an emergency has kept the assignee from the doors! And how! Here is a business story made up of business facts, and related by business people as a matter of business. Isn't it your business, you hard working, toiling men of industry, to take in the above business!

GOUGH BROS., of Peterborough, run their own show. They have no connection with the Gough Stores in Toronto and Brantford. But in union for a purpose there lies strength. The head of a wholesale house in difficulties required money—had to sell. One man's extremity is another man's opportunity. Goughs, of Peterborough, Toronto and Brantford, pooled their energies, backed with cash, and, by so doing, carried the day, and captured at a bargain $68,000.00 worth of Clothing, Furnishing Goods, Hats and Caps, Boots and Shoes.

Have you an idea what it means to handle this bonanza; and, mind you, handle it to take the balance of the purchase money out of it by May 24th! You haven't. We have. And now we begin to push the biggest, brightest, most daring effort of our business career. Will you help us and benefit yourself! You will, for common sense tells you that, in order to do well for ourselves, we must do better for you.

We Push for a Purpose! ☞ Here are a few Diamond-Bitted Pointers:—

All Men's $16.00 $14.00 $12.00 $10.00 SUITS Go For **$8.00**

All Men's $8.00 $7.00 $6.00 $5.50 SUITS Go For **$4.90**

All Boys' $4.50 $4.00 $3.50 $3.25 SUITS Go For **$2.90**

Men's Fine Cordovan Shoes, at $5.00, $4.50, $4.00, $3.75, now offered for $2.90. All $2.00, $1.75, $1.50 Boots go for $1.10. The same reduction applies to Ladies' and Children's Wear.

The prices of our Hats we will not quote here, as the high priced hatters would be completely knocked out and discomfited.

Just ask for hats and you will get a start. Buyers! Wearers! Customers! We want you to believe a strong statement. It is no stronger than the facts warrant. We fire to the third storey all compunction and reserve, and frankly tell you of our position. We sacrifice profit that we may meet our engagements and keep the name of GOUGH BROS. as the one firm, the Napoleons of Business, who can plan, carry out and consummate the biggest business, the biggest business scheme to place the best goods in every man's hands for less money than ever before.

CHANGE IN BUSINESS.

I beg to announce to my late customers that I have sold out my business to Messrs. Hilliard & Peplow, and I would bespeak for them the same support as has been accorded me.

C. N. BROWN.

ANNOUNCEMENT.

For some time past we have thought a strictly cash business in Flour, Feed and Provisions could be successfully carried on in Peterborough, and to test this question, we have purchased the above business from Mr. C. N. Brown who will still continue as manager in Flavelle's old stand, Simcoe street.

In order to be successful we intend to make it the interest of everyone to pay cash with order by selling at wholesale prices.

We will positively give no credit and cash customers will not have to keep up the losses made by others on the credit system.

We will keep a full supply of the very best quality of Flour, Feed, Chop, etc., and our customers need not fear that the quality of the goods will be lowered to make up for the reduction in prices. We are simply giving them the benefit of the margin necessary to cover losses and interest charges incurred on the credit system.

Goods delivered to any part of the town or Ashburnham.

TELEPHONES.—Bell No. 38, Ontario No. 112.

CANADA'S MATCH MAKER.

Sketch and Portrait of E. B. Eddy, of Hull, Que.

"Serve yourself, would you be well served, is an excellent adage."—Miles Standish

Are there any of our readers to whom this name is unfamiliar? Is there anyone in Canada of the age of ten years and upwards who has not heard of E. B. Eddy, of Hull, the great matchmaker, the owner of the mammoth woodenware factories, the king of the lumber trade of the Ottawa? As well might we ask, is there anyone in this country a stranger to the use of matches?

Mr. E. B. Eddy was born in Bristol, Vt., in 1827, and comes of the historic Mayflower stock, being a direct descendant of that doughty warrior but luckless wooer, Miles Standish. His wife, to whom he was married in 1846, is a native of the same town, and is the granddaughter on her father's side, of John Arnold, of Frankfort-on-the-Main, Germany. Mr. Eddy came to Canada and settled in Hull with his wife and family, in 1851. He began making matches there in a small way in 1854, and from that modest beginning have arisen the immense factories, mills, storehouses, offices, lumber yards, etc., that cover scores and scores of acres, comprising nearly the whole water front and water power on the north side of the Chaudiere Falls, from a little below the C. P. R. Bridge down the river to opposite Nepean Point. In 1856 he added the manufacture of pails, tubs, washboards, etc., to his then growing business. In 1858 he went into lumber, bought large tracts of timber lands, put in large sawmills, planing mills, sash and door factory and box factory.

In 1873, 1874 and 1875 when commercial disaster wrecked so many strong houses, he did not escape injury, the whole lumbering industry being utterly prostrated. As times improved again his business increased, so that when in the fall of 1882 a terrible fire totally destroyed some $250,000 worth of his mills, factories and plants, it still left him with two sawmills and not less than $150,000 worth of factories, plant and supplies to go on with and hold his trade together till he could retrieve. As an illustration of his coolness, courage and promptness to meet an emergency, we give the following (one of a hundred similar characteristic anecdotes of him that could be told by many of his intimate friends. The night the mills were burned Mr. Eddy was in Quebec, and was awakened to receive a telegram from his office at Hull, to say that all his mills and factories on the west side of Bridge street were on fire, others endangered, and asking what should be done, and when

he should return. Without a moment's delay he telegraphed back: "Put out the fire, clear up debris, prepare to build. I'll be home to-morrow." Thirty years' work swept away in one night would have disheartened most men, but with Mr. Eddy the disaster was hardly allowed to interrupt business. There was practically no stoppage of his business, certainly there was no damper on his pluck and energy. Rebuilding began before the burnt works were cold. All calls for goods were supplied, and in less than six months two enormous new stone sawmills, a large stone box factory, stone pail and tub factory, stone planing mill, sash, door and blind factory, magnificent stone offices and spacious stone warehouses, machine and blacksmith shops, etc., etc., stood in place of the former wooden buildings. Tramways were laid, two locomotives were bought, and in May, '83, the whole industry was in full blast again, sawing 70,000,000 feet of lumber per season, chopping 700,000 to 800,000 logs each winter, using 15,000,000 feet of lumber per year in the box factory, making over 10,000,000 feet of lumber yearly into doors, sash and flooring, turning out 100 dozen pails and tubs and 2,000 gross (288,000 wooden boxes or 250,000 small paper boxes of matches per day—the whole giving employment to some 4,000 to 4,500 men, women and children, with a pay sheet that often amounted to $40,000 per month, and which gave food and raiment to chiefly French-Canadian families, from Gaspe to Lake Temiscamingue.

In '86 these vast businesses and varied industries were consolidated under a charter of the Dominion Parliament, and in '87 Mr. Eddy became and remains the president and managing director of the E. B. Eddy Co. In '87 the indurated fibre ware factory was added. This was followed in '88 by the erection of the wood pulp mill. In March '90 the first stone was laid by Mr. Eddy for the erection of what is already one of the most important of all his works, viz., the vast plant for making sulphite fibre (a substitute for linen in paper making). In December of the same year this mill was completed, and has been since turning out fibre to its full capacity. When it is considered that the buildings, machinery, plant, etc., for this venture cost close to, if not quite or over $350,000, our readers will see what decision, energy, nerve and brain work it took to do so much, to do it so well, and in so short a time. Are the questions asked, "How can Mr. Eddy create and manage all these works? How does he find a market for all the goods his factories turn out day by day, year by year? How has he become so successful?" Those who know him personally don't ask these questions. To those who have not this pleasure—we may say this privilege—the answer is: Added to his natural and his cultivated gift of energy, courage, confidence, shrewdness, wit and generalship, and his well-known promptness and uprightness in business, is an extraordinarily powerful influence of personal magnetism that inspires with confidence and imbues with his hopes and his ideas all with whom he comes in contact, whether buyer or seller, friend, associate or employee, all feel that whatever he takes hold of goes, goes straight, goes quick, no halt, no deviation, no waver. While his "blood more stirs to rouse the lion than to start the hare," and while he likes large transactions and gigantic schemes and ventures, still he has a keen eye for and a clear conception of the necessity for carefulness of details.—Canadian Grocer.

Children Cry for Pitcher's Castoria.

Baron Fava.

BARON FAVA.

Baron Fava, the Italian Minister who figures so prominently in the trouble between the United States Government and that of King Humbert, and whose recall has made the affair a sensational if not a serious one, is a descendant of one of the oldest Italian families. He was born at Naples in 1832 and entered the diplomatic service when quite a young man. He occupied leading positions in the Italian legations in Switzerland, Holland and Turkey, after which he was promoted to be an independent representative of his sovereign near the then Principality of Roumania, where he took a leading part in promoting many important reforms, among which was the liberation of the Roumanian Jews.

He was next sent as Envoy Extraordinary and Minister Plenipotentiary for Italy to the Argentine Republic. Here he served two years, winning warm compliments from the native population as well as from the large and wealthy colony of immigrants from Italy. In 1881 he was transferred from South America to become Italian Envoy Extraordinary and Minister Plenipotentiary at Washington, succeeding Baron Blanc.

Rebuke to a Millionaire.

Well-dressed Party—No, I've got nothing for you. Ain't you ashamed to be begging?

Beggar—You are the one to be ashamed—dressed up like a gentleman and never a nickel in your clothes.—Texas Siftings.

A Novel Electrical Device.

An invention is now undergoing investigation which promises the improvement of railway traffic. The invention consists of a small dynamo and an auxiliary engine placed upon the locomotive in such a way as to be easily operated, furnishing a current of small force but large quantity, which is made to pass from one pole of the dynamo to one pair of driving wheels, thence along the rail to the other pair of driving wheels, thence to the other pole of the dynamo, thus forming a travelling circuit, moving at all times with the locomotive. By means of this current an incipient weld is caused between the wheels and rails at the point of contact, preventing the slipping of the wheels. The working model of the device shows an increase of 400 per cent. in the hauling power of the locomotive. The model without the application of the current would not mount a grade of fifteen per cent., but when the current was applied it mounted a grade of thirty-five per cent. A locomotive is now being equipped with the invention to test it on the Baltimore and Ohio Railroad.

Death in a Mosquito Bite.

PHILADELPHIA, April 27.—James McDevitt, aged 37, of Chestnut-place, was bitten by a mosquito four years ago. He scratched the sore for some time until his face became greatly swollen and he was in danger of dying from blood poisoning. Yesterday he was admitted to the hospital and to-day he died.

Had His Leg Cut Off.

BELLEVILLE, April 27.—This morning about 9 o'clock John Milks, a freight conductor on the G.T.R., slipped whilst boarding a train at Mallorytown and had his leg cut off. Mr. Milks has been conductor between here and Brockville, where he resides, for the past 30 years. He was taken to his home.

To Protect Canadian Fishermen.

HALIFAX, N.S., April 27.—The captain of the British warship Pelican, which arrived from Bermuda yesterday, received orders from the Imperial authorities while at Bermuda to proceed to St. George's, Newfoundland, as soon as the ice would permit, to protect the interests of Canadian fishermen.

A Welcome Announcement.

Those who have tested it say that for the grippe, and especially for the cough that hangs on after the disease itself seems cured, there is nothing equal to Kemp's Balsam, the specific for all throat and lung diseases, and the best cure for coughs and colds. The first dose will convince you of its excellent effect. All druggists sell it at 50c. and $1 a bottle. dw

Editorial Evidence.

Gentlemen—your Hagyard's Yellow Oil is worth its weight in gold for both internal and external use. During the late La Grippe epidemic we found it a most excellent preventive, and for sprained limbs, etc., there is nothing to equal it. Wm. Pemberton, Editor Reporter, Delhi, Ont. 1w18d

Spring Cleaning.

Be particular every spring to clean the house, but never mind cleansing the blood until some troublesome disease takes hold of you. This is poor policy when by using Burdock Blood Bitters the blood will be thoroughly cleansed, the body strengthened, and future suffering prevented. 1w18d

Everybody Likes It.

Wm. Dredge, Ellen street, Barrie, Ont., says: One bottle of Miller's Emulsion of Cod Liver Oil brought back appetite which other Emulsions took away; removed cough entirely, and gained five pounds. It tastes just like cream, the oil being perfectly disguised. Sold by all druggists. dw

A Winnipegger's Opinion.

The following is taken from a letter from Mr. D. Davis, Winnipeg, Man.: "Being persuaded to use Hagyard's Pectoral Balsam for a troublesome cold, I was entirely cured by the use of two bottles." 1w18d

When Baby was sick, we gave her Castoria
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Everybody Admires Soft White Hands,

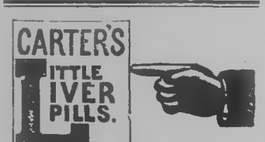
And every lady ought to use Dyer's Jelly of Cucumber and Roses, as it makes the skin soft and smooth. Druggists keep it. W. A. Dyer & Co., Montreal. 6d92

HAVE no equal as a prompt and positive cure for sick headache, biliousness, constipation, pain in the side and all liver troubles. Carter's Little Liver Pills. Try them. dw

AN INACTIVE or Torpid Liver must be aroused and all bad bile removed. Burdock Pills are best for old or young. dw

AS A PICK-ME UP after excessive exertion or exposure, Milburn's Beef, Iron and Wine is grateful and comforting. dw

CARTER'S LITTLE LIVER PILLS.



CURE
Sick Headache and relieve all the troubles had dent to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing
SICK
Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured
HEAD
Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head
ACHE
is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents, five for $1. Sold everywhere, or sent by mail.

CARTER MEDICINE CO., New York.

Self Application of Electricity
FOR MEDICAL PURPOSES
BY THE
DORENWEND ELECTRIC BELT
And Attachments.
THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliances. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT OF QUANTITY, not merely a tension current, and in this quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.
Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a consultant electrician, and ranks as the best in the world; we defy anyone to bring proof to the contrary.
Do not claim this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you wish to experiment with cheap articles, buy THEM; but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.
Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. The Dorenwend Electric Belt and Attachment Co., C. H. DORENWEND, Electrician, 193 Yonge St., Toronto, Canada. eod-w

The Athletic Association.

Tickets for membership in the P. A. A. A. may now be had from the Treasurer, Mr. G. A. Schofield. All who intend joining the Association and enjoying the sports this season are urged to get their tickets without delay. The caretaker is busy getting the grounds in shape, and it is intended this year to strictly enforce the rules that only members shall be admitted and allowed to use the grounds. Cricket and lacrosse practice has already been begun, and intending members should lose no time in buying their tickets early in the season.

To be Rigidly Enforced.

To-day is the last day for persons living in the district included in Councillor Moore's by-law in reference to the filling in and closing of privy-vaults. The district covered by the by-law is that portion of the town lying between Brock street on the north and Charlotte street on the south, and between Aylmer street on the west and lot number one east of Water street. The Chief of Police, in his capacity of sanitary inspector, wishes it stated that the by-law will be strictly enforced, and he also wishes it understood that the regulation of the Board of Health in relation to slaughter-houses will also be rigidly enforced.

A Big Stroke of Business.

There is nothing like go and grit in business enterprise, but the addition of a little philanthrophy is good also. A great wholesale house was about to go under for lack of cash to meet maturing obligations and they were willing to make a big sacrifice to save their credit and business. Gough Bros. the wonderful cheap men came to the rescue. The three big Gough establishments in Peterborough, Toronto, and Brantford, (through for ordinary business purposes they are entirely distinct) pooled their resources put up the cash, secured a tremendous stock of ready made clothing, gents furnishings, hats, caps, boots and shoes, $68,000 worth, at a tremendous reduction. Now Gough Bros. do not do business for amusement and though doing a good turn to the wholesale house, they have an eye to their own and their customer's interest. To get their money out of this great bonanza in stock it must be cleared out by the 24th of May, if the lowest possible prices will do it. And it will be done, the goods are of the highest quality and worth twice as much as they are marked for. Don't let these facts slip your mind, but come to town the first chance and see what smashing bargains in ready-made clothing, hats and caps and boots and shoes are to be got at the great Gough slaughter sale. Come and see. 161w

THE BOARD OF HEALTH

"Resolve and Re-resolve, Yet Die the Same."

The Inaugural Meeting—Mr. W. Loch Elected Chairman—The Chairman is Given Authority—The Scavenger Resolution Re-adopted.

The first meeting of the Board of Health was held Wednesday evening. The following members were present:—Messrs. W. Loch, R. Shortly, Esq., Pearce, Henry Dunne, J. L. Hughes, Dr. Brennan, Dr. Clarke, Medical Health Officer; Chief Revell, sanitary inspector; J. G. Macdonald, secretary.

On motion Mr. W. Loch was elected chairman.

Dr. Clarke spoke briefly respecting infectious diseases. He stated that there were no new cases to report in the last few days except one case of diphtheria of mild type. There were, he said, two or three other cases, all convalescent.

THE BOARD MUST NOT BE IGNORED.

Mr. Shortly moved, seconded by Mr. Pearse, that this Board deems that it is its duty to place on record its dissatisfaction and regret that the instructions and directions of this Board heretofore adopted, have not been attended to or enforced, although there is a resolution to the effect that a meeting shall be convened within a month after the members are appointed. The meeting of to-day (April 28th) is the first meeting which has been called this year. That although it is provided that the chairman of the Board of Health shall, before the first day of December in each year present the municipal committee a report containing a detailed statement of the work of the Board during the year, and the report of the sanitary condition of the municipality as rendered the Board by the medical health officer, no report of the medical health officer for the year 1890 was submitted to the Board and no meeting of the Board convened for the purpose of considering the same.

Mr. Pearse in speaking to the resolution, asked the Sanitary Inspector, the Chief of Police, if there were any slaughter houses now in the town and the conversation that ensued, showed that the chief had acted in the matter of slaughter houses, on the presumption that the Board had acquiesced in the request of the town council, that the Board's resolution respecting slaughter houses be held in obeyance. Mr. Pearse said it was a farcical state of affairs if the Board met to pass resolutions that were not acted upon, or nullified by another body.

Some further desultory discussion followed and the resolution was adopted.

Mr. Denne moved that the sanitary condition of the town buildings be attended to at once.

Mr. Pearce seconded the motion, which was adopted, after several strong expressions of opinion on the subject, which were, however, not half so strong as the smell that pervaded the room where the Board of Health sat—the smell from the town stables.

Dr. Brennan moved, seconded by Mr. Shortly, that hereafter all resolutions of this Board be strictly enforced by the chairman of the Board.

Re-RESOLVING A RESOLUTION.

Mr. Pearse moved, seconded by Mr. Denne, that whereas in December, 1889, this Board adopted a resolution regretting the necessity of directing the attention of the Town Council to the fact that the sewerage of the town was in an execrably deficient condition, and in June, 1890, the Board again directed the attention of the Town Council to the fact that in the opinion of the Board, the health of the inhabitants of the town is greatly endangered, and the Board adopted the following resolution, a copy of which was forwarded to the Town Council:

"That whereas Eagle's Creek, running through the heart of the town, is used as a common sewer by no less than 740 persons, and the outlet of this creek is wholly within the limits of this town; whereas the system of cesspools in this town, the closing of old ones and the opening up of new ones, is such as to cause the complete permeation of the soil with excreta and other matters, which decay in a way most dangerous to the health of the inhabitants; whereas the Otonabee river is used as a common sewer; whereas people are in the habit of getting ice from a place which, to some extent, is the depository of this filth; whereas from the above recited causes, and from other good and sufficient evidence, this Board is of the opinion that the health of the town is greatly endangered; and whereas the functions of this Board are such as to require the firm and conscientious execution of its duty, and therefore this Board wishes to place on record, that, in the event of an epidemic, timely warning has been given, and that it has carried out the trust imposed upon it by the law and by the people, and, whereas, in the opinion of this Board, the condition of the town is such that it is absolutely necessary that some immediate action be taken in the matter of the construction of a thorough system of sewerage:

"This Board earnestly recommend that the Town Council, without delay, ascertain the wishes of the people in this matter.

"The Board is further of the opinion that the impending danger to the health of the community will be rendered less imminent by the adoption by the council of a system of cleaning cesspools by scavengers employed by the council and under the direction of the Health Inspector."

And, whereas, the opinion of this Board, as expressed in the above resolution, viz: "that the health of the town was greatly endangered," has, unfortunately, been verified, as is fully established in the official report of mortality in the principal cities and towns of Canada for the month of March, 1891:—

The Board therefore again urgently recommends the town council to take immediate steps in the direction of the construction of a thorough system of sewerage. And this Board is of opinion that if, until the system of sewerage is completed, cesspools, etc. are cleaned by parties employed and paid by the Town Council under the direction of the Health Inspector, the cleaning will be more frequent, more thorough and far less costly to the ratepayers, and that a copy of this resolution be forwarded to the town council. After brief discussion the resolution was adopted.

GETTING THE BOARD TOGETHER.

On motion the secretary of the Board was instructed to call the first meeting after the appointment of members of the Board.

Dr. Clarke brought the attention of the Board to a pamphlet issued by the Ontario Government, detailing the domestic precautions to be employed in the treatment of cases of infectious diseases. It was a most valuable instruction and he suggested that he be provided with a number to be distributed in houses when needed.

No action, however, was taken and the Board adjourned.

Y. M. C. A. Notes.

Free illustrated lecture in the Opera House, to night at 8 p.m., on Association buildings by Mr. T. S. Cole, Travelling Secretary. Views shown by Mr. R. M. Roy. Rev. Mr. Johnston, Lindsay, will also give an address. Music by Y.M.C.A. band. No subscriptions will be solicited at this meeting. Citizens invited to come and see the plans for new Y.M.C.A. buildings.

We have received through Mr. J. W. Taylor, a copy of the "Life and Labors" of Mr. Benham, (uncle to Mrs. Thos. Brooks and Mrs. J. W. Taylor) through whose efforts the Meriden Y.M.C.A. building was erected. It is a valuable addition to our library and its practical lessons will be helpful to all young men, as to what God can do through a consecrated life.

Out Goes the Goods.

A Railway Deadlock.

Work on the Grand Trunk Edison Siding Practically Suspended—An Engine on the C. P. R. Says "No Thoroughfare"—The Work as a Standstill.

Work on the Grand Trunk railway siding to the Edison grounds was, up to this morning, going on rapidly. The siding from the dead-section at the intersection of Wolfe and Bethune streets is completed—graded, track laid and ballasted up to within two yards of the C. P. R. siding, which runs in from the main line to the Edison Works. Where the Grand Trunk siding approached the other siding, in all a point about 20 or 40 yards from where the C. P. R. spur joins Rubidge street. It was expected that the work would be pushed through lustily to day, but this morning

A SERIOUS CASE.

It was the proposal to deflect the C. P. R. siding southward, and to extend the Grand Trunk siding westward to a point near Park street. The deflected C. P. R. siding was to make a junction at this point with the G.T.R. siding, and from this point four switches to be used in common by both railways, were to be extended into the grounds of the Edison Company's works.

This morning Street Inspector Pope with some men began operations looking to the deflection of the C.P.R. siding, by removing the fish plate bolts, etc. But James O'Brien, section foreman of the C. P. R., was on the alert. It appears, for the employees of both roads are very reticent, that the C. P. R people had anticipated for some days a collision such as that which this morning took place. When the section boss found that his invitation to quit work at loosening the rails was not heeded, he communicated at once with Mr. D. Mahoney, C. P. R. roadmaster, and a large gang of employees, many of them said to be the staff of a ballast train,

APPEARED ON THE SCENE OF CONFLICT,

flanked by artillery in the shape of an engine. In the face of this force the track runners desisted, and retreated in good order on the reserves—the employees of the G. T. R. in the vicinity—who assembled in force, and for a time some timid persons feared that there might be a collision between the two parties much more serious than the skirmishing fire of chaff that was exchanged. The C.P.R. engine was placed on the part of the siding which it was sought to remove and it still holds the fort, with a rather formidable force of navvies, and will, no doubt, continue to hold the fort till the arrangements now under consideration result in an understanding that will raise the blockade, which will, it is expected, be done in the course of a few days.

It is unfortunate that this affair has arisen. It appears that the C.P.R. is, in its action, racing, at least, the full measure of its rights in the matter. It seems that the town owns the land covered by the C. P. R. siding, that the town bought it, and that the C. P. R. have no lease of it. When the G. T. R. wished to put in its siding the town authorities applied to the C. P. R. for permission for facilities to effect access to the Edison company's premises, and made arrangements for the purchas of the rails and ties on the C. P. R. siding. It is understood that terms were mutually agreed upon and the town proposed passing a by-law to implement its part of the understanding. This arrangement included the shifting of the C. P. R. siding as referred to above. It was on the understanding of the *bona fides* of this arrangement between the town and the C. P. R. that the work of shifting the latter's siding was begun.

The matter will be ventilated at a special meeting of the town council to-night.

An Affectionate Farewell.

Mr. and Mrs. W. W. Daly Kindly Remembered by their Many Social, Musical and Church Friends.

When it became known that Mr. and Mrs. Wilbur Daly intended leaving Peterborough, deep regret was manifested among their many friends. Both were prominent in temperance and musical circles, and Mrs. Daly, especially, will be greatly missed from the George street Methodist church, where she has been a devoted attendant, and active member of the choir. During their residence in Peterborough Mr. and Mrs. Daly have made a host of warm friends. Both have cheerfully lent their voices in assisting any good cause for which they were solicited. Mrs. Daly was recognized as one of the leading soprano singers of the town, and her name frequently figured on local concert programmes. They are about to return to Napanee, their former home, where they are well known, and where they will be warmly welcomed.

Mr. and Mrs. Daly left to-day for Napanee, and last night, just prior to their departure, they were made the recipients of two handsome testimonials and accompanying addresses expressive of the feelings of sincere regret with which their many friends regarded their removal. The first was from the members of the congregation to Mrs. Daly personally. The presentation took place at the close of the regular prayer meeting, in the presence of a large number of people. Mrs. Kendry and Mrs. Fife came forward, and the former read this address:

PETERBOROUGH, April 29th, 1891.

DEAR MRS. DALY,—It is not our intention to present you with a formal address this evening. We might easily do so, and, unlike many other addresses, each word, carefully chosen, would find an echo in every heart present.

We have heard with very deep regret of your departure from our town, and we desire as a congregation to give some slight expression to our esteem that we have for you. We feel that we are indebted to you for your service of song so freely given, both in the public worship of this church and its social services.

We have ever found you willing, no matter at what personal sacrifice, to help us with your voice. Indeed so true and faithful have you been that we are fully persuaded that your motive can be none other than to please your Divine Master in using for Him the talent of song that He has entrusted to you.

Your singing has been most helpful to us. As you have sung the songs of Zion in the sanctuary our hearts have been uplifted and our courage renewed and many times we have been blessed while listening.

"Those seasons of delight,
The dawn of glory seemed
Like rays of pure celestial light
Which on our spirits beamed."

We desire to extend to Mr. Daly and yourself our very best wishes for your future happiness and prosperity. We would, if we were permitted, choose for you and yours a serene future, replete with the choicest temporal blessings, but these things are in the hand of our wise Heavenly Father, and He giveth to his beloved the "best gifts." But we do ask for you rich and lasting spiritual blessings, and that God in His wise providence may long permit you to use your voice in His service in the church below, and at least may we all be so unspeakably happy as to meet together round the throne to join with all the ransomed in singing the new song of Moses and the Lamb.

We ask your acceptance of this watch and chain as a slight recognition of our indebtedness as a congregation to you during your residence in Peterborough.

Signed on behalf of the congregation.

The address was accompanied by a practical and valuable souvenir in the shape of a beautiful gold watch, appropriately inscribed, which was presented by Mrs. Fife. The watch came from Mr. W. A. Sanderson's jewelry store.

Mr. Daly replied briefly on behalf of his wife to the sentiments of the address, returning their hearty thanks for the kind token of remembrance. During their residence in Peterborough, he said, they had always been kindly received, and they would never forget their many cordial friendships here, which they regretted breaking. However, they hoped to frequently meet with them in the future, and they would always cherish the most tender recollections of Peterborough and Peterborough people.

After final leave taking all round, the gathering dispersed.

Mr. and Mrs. Daly were then escorted to the W. C. T. U. rooms on George street, where the members of the choir, Rev. S. J. Shorey, Rev. Jos. Locke and Rev F. A. Leitch and others, to the number of about 70, had assembled at the invitation of Mrs. Seward for a supper. A long table laden with delicacies bespoke the bounty of the hostess, and the spread received just treatment at the hands of the guests. At the proper moment Mr. F. H. Dobbin stepped forward, with an address in one hand, and a handsome silver cake basket in the other. The address read as follows:

To Mr. and Mrs. Wilbur Daly:

DEAR FRIENDS—The choir of George street Methodist church learn with much regret of your intended departure for Napanee. While they know you are returning to renew association of past years, they feel that in so doing you are severing ties of friendship very dear.

Not only in a personal sense will your departure cause regret. Your marked musical ability has been a means of affording pleasure on many occasions, while your valuable assistance has been so readily and cheerfully given, that the choir has gained favorable notice and been enabled to achieve marked success. We wish you much prosperity and happiness in years to come, and as a slight recognition, ask your acceptance of this basket, the gift of the choir.

Signed on behalf of the choir.

A. F. HILL,
E. J. CROWEN,
JAS. EDGINTON,
HATTIE LUMSDEN
MRS. L. SEWARD,
L. SEWARD

After receiving the gift, Mr. Daly again replied briefly as before, expressing the heartfelt gratitude of himself and wife for the kindness shown them, of which they had a most lively sense of appreciation, and assuring those present that they would ever entertain the fondest feelings for their many kind friends in Peterborough.

Farewells were again said, and Mr. and Mrs. Daly received the warmest wishes for a happy and prosperous future from all sides. The EXAMINER begs to add its quota to the general well-wishing, and hopes that, while they no doubt regret leaving the banner town of the Dominion, they will find as many and true friends in Napanee as they leave behind them here.

How She Lost Her Lover.

'Twas a summer ago when he left me here,
A summer of smiles with never a tear,
Till I said to him with a sob, My dear!
Good-bye, my lover; good-bye!

For I loved him, oh, as the stars love night!
And my cheeks for him flashed red and white
When he first called me his heart's delight:
Good-bye, my lover; good-bye!

The touch of his hand was a thing divine,
As he sat with me in the soft moonshine
And drank of my love as men drink wine:
Good-bye my lover; good-bye!

And never a night as I knelt in prayer,
In a gown as white as our own souls were,
But in fancy he came and kissed me there:
Good-bye, my lover; good-bye!

But now, O God! what an empty place
My whole heart is! Of the old embrace
And the kiss I loved, there is not a trace:
Good-bye, my lover; good-bye!

He sailed not over the stormy sea,
And he went not down in the waves, not he:
But oh, he is lost, for he married me:
Good-bye, my lover; good-bye!
—James Whitcomb Riley.

A DWARF IN EVERY HOUSE.

Two boys may create fun for the company by making up as a dwarf. Let one of them stand behind a table and place his hands on it, while the other stands behind the first and passes his arms around him. The head and the body of the second boy and the legs of the first are hidden by curtains, which

can easily be managed if the table is placed in a doorway. Boots are then placed on the hands of the boy No. 1. and a jacket put on over his shoulders and the arms of the hidden player. Then, as will be seen in the second picture, an excellent

imitation of a dwarf is thus formed. The face should be disguised as much as possible, and the dwarf may be dressed fantastically to represent a Turk or Moor. To add to the fun, a third person might act the part of showman, and give a comic account of the dwarf's history.

Matched Pennies for a Sweetheart.

A wedding is announced for this spring between two well-known young people of Des Moines. There is an interesting story connected with the event; and it would be unfair to call names.

Four years ago the prospective bride, then quite young, was receiving the attentions of three gentlemen. They, too, were young, little more than boys, and just entering upon the different lines of work which they had adopted for life.

Two of them, indeed, were still students. Matters ran along without much change with the four for some time. They each understood the situation. Nothing in the girl's manner indicated any preference. The three boys were the best of friends, although the situation was such as to strain their relations a little.

Finally the three met one day by accident. In some way the young lady's name was brought up, and after consideration it was decided to match pennies to see who should withdraw from the contest. It was stipulated that the winner should be in honor bound to devote himself exclusively to the young lady in the future, and to win her hand if possible. The losers from that moment were to withdraw from the race completely. The losers were further pledged to act as guardian brothers to the young lady and see that the winner carried on no flirtations with other girls.

The contracts were carried out to the letter, and the girl was never told why two of her admirers so suddenly retired.

And so, after these years, she is at last to become the wife of him whom luck favored in a game of chance. Both are still young, and the gentleman is prospering in his business.

Of the losers in the contest one adopted a trade and is married. The other entered upon a professional career. He is unmarried and his name would be recognized were it mentioned all over the Western city.—Des Moines Leader.

Standing Upon Her Dignity.

"What wages do you expect?" asked Mrs. B. of the candidate for the position of cook-lady.

"I never works for wages, mum," returned the cook-lady, "I goes on salary or nothin'."

No Account Indeed.

Gewadge—What sort of a tailor is Shears? Chawles laconically)—No account.

Gewadge—Why, they tell me he makes beautiful clothes.

Chawles—Yes. But he's no account. You have to pay for them.

The First Question.

"You remember Mamie Smith?"

"Certainly I do."

"She was in town yesterday for the first time in six years."

"Indeed! What kind of a dress did she have on?"

The Tryst Discovered.

Primus—I saw Dudley's wife consulting a lawyer alone to-day What's up!

Secundus—She is estranged from Dudley. She has just heard that he promised to meet his first wife in heaven.

He Got Her.

They were talking about trees. "My favorite," said she, "is the oak. It is so noble, so magnificent in its strength. But what is your favorite?"

"Yew," he replied.

Counter-Proposition.

He—I have a million and I love you.
She—I have a bulldog and I do not love you.

TORONTO TOPICS.

A Boy Killed by a Street Car—A Mysterious Death.

TORONTO, April 30.—James Macdonald, the 8-year-old son of David Macdonald, 146 King-street east, met with a terribly sudden death at noon yesterday. The little fellow was returning home from the Sackville-street school, and while crossing King-street, near St. Lawrence-street, was knocked down and run over by a Dundurn-avenue car. His skull was crushed and death ensued in a few minutes. The car was driven by James Hepburn.

No. 17 Soho-street has a rather unlucky record. It was in that house that the young Salvation Army private, Van Brunt—afterwards hanged in New York State for the murder of his sweetheart's brother—attempted suicide by shooting himself. The building again sprang into unenviable notoriety yesterday morning, when an old man named Thomas Mills, 68 years of age, died somewhat suddenly in one of its rooms, under circumstances which led to the belief that he had taken poison, willingly or unwillingly so far has not been proven. Mills did the chores around the house for the landlady, a Miss Annie Fisher, who had succeeded Marion Mills, his daughter, as keeper of the place. Marion had written Miss Fisher on Tuesday telling her to tell her father that she was not coming back from Montreal where she had gone on a visit, and telling her to make the old man get out and hustle for himself.

Mills took the letter very much to heart and wept a good deal. Later in the day, however, he seemed to have recovered his usual spirits and went to bed with a fairly good load of whisky in him. He awoke the people in the house with his groans about 2 in the morning. Doctors were sent for, but they could do nothing, and he died at 8 yesterday morning. The autopsy failed to indicate any poisonous presence, and it was the more fully to ascertain the cause of death that Coroner Johnson last night empanelled a jury in No. 3 Police Station. The medical testimony was uncertain as to the cause of death, and an adjournment was made until to-morrow evening for further evidence.

A Pleasant Herb Drink—A Spring Medicine.

The druggists tell us that people call daily for the new cure for constipation and sick headache discovered by Dr. Silas Lane. It is said to be Oregon grape root (a great remedy in the far west for these complaints) combined with simple herbs, and is made for use by pouring on boiling water to draw out the strength. It sells for 50c. and $1 a package, and is called Lane's Family Medicine. dw

Removal Sale.

In order to reduce my stock, previous to removing to 364 George street, next door to Ormond & Walsh's drug store, I will offer during the next 30 days the whole of my present fresh spring stock of Boots and Shoes at greatly reduced prices.

DIED:

MCPHERSON.—At Paterson street, on Thursday, April 30th, 1891, the infant son of Mr. Angus McPherson, aged 8 months.

CURTIS.—In Otonabee, on Thursday, April 30th, 1891, Olive Mary, youngest daughter of Mr. Charles Curtis, of Curtis & Sons, aged 2 years and 6 months.

Funeral from family residence on Saturday, at 2 o'clock p.m., to the Little Lake Cemetery.

King of Medicines

A Cure "Almost Miraculous."

"When I was 14 years of age I had a severe attack of rheumatism, and after I recovered had to go on crutches. A year later, scrofula, in the form of white swellings, appeared on various parts of my body, and for 11 years I was an invalid, being confined to my bed 6 years. In that time ten or eleven sores appeared and broke, causing me great pain and suffering. I feared I never should get well.

"Early in 1886 I went to Chicago to visit a sister, but was confined to my bed most of the time I was there. In July I read a book, 'A Day with a Circus,' in which were statements of cures by Hood's Sarsaparilla. I was so impressed with the success of this medicine that I decided to try it. To my great gratification the sores soon decreased, and I began to feel better and in a short time I was up and out of doors. I continued to take Hood's Sarsaparilla for about a year, when, having used six bottles, I had become so fully released from the disease that I went to work for the Flint & Walling Mfg. Co., and since then

HAVE NOT LOST A SINGLE DAY

on account of sickness. I believe the disease is expelled from my system. I always feel well, am in good spirits and have a good appetite. I am now 27 years of age and can walk as well as any one, except that one limb is a little shorter than the other, owing to the loss of bone, and the sores formerly on my right leg. To my friends my recovery seems almost miraculous, and I think Hood's Sarsaparilla is the king of medicines." WILLIAM A. LEHR, 9 N. Railroad St., Kendallville, Ind.

BUY A HOME!

Stop Paying Rent! Be Your Own Landlord!

WE OFFER FOR SALE BY PUBLIC AUCTION ON

MONDAY, 11th MAY, 1891, at Three p.m., on THE GROUND

Lots on Romaine Street. Each Lot is 33 ft. by 220 ft. Soil high and dry, sandy loam. Ten minutes walk from the Edison Works, Peter Hamilton Works, the Carbon Works, and the Bridge Works. The new Electric Car Line will touch this street, and George and Aylmer Streets will be opened through to the Fair Ground.

To secure a respectable street the deeds will contain a clause compelling the purchasers when they build to erect uniform distance from the front, and that the houses when built shall not cost less than $600. These lots are double the depth of the ordinary town lot and are fine for gardening. This is the finest property in the market and one which will afford the best building lots to be had at low prices. These are only lots left on the south side of the street. Lots in the neighborhood one half the depth sell at $8 to $10 per foot frontage, while these lots are 220 ft. deep and will be sold for what they will bring. The lots while sufficiently near the great factories, are close to George street, and being off the main, are clean and healthy.

Ten years will be given for payment. $5.00 on the $100 down; $5.00 on the $100, in one month; $10 on the $400 in 3 months, then a free deed will be given and mortgage taken back for the remainder of the purchase money, payable in 9 equal annual payments with interest at 6 per cent. Five per cent. discount will be allowed for cash. For further particulars apply to

CASH HARDWARE STORE.

On and after 1st April we shall do business on a **Cash Basis.**

To cover the inevitable ones attendant upon a credit business, which accrue from amount of time spent in keeping accounts, collecting, bad debts, interest account, and in numerous other ways, larger margins of profit must be asked.

In these times cash buyers ask, expect, and are entitled to close prices. A careful consideration of the subject convinces us that the time has come for a cash business done on smaller profits.

The only customers who may possibly be put to inconvenience are those who have had long credit. In more ways than one it will be to their advantage to pay cash.

For convenience of our old customers who consider their accounts due when presented, we will call 30 days each and render all accounts the first of each month, and we wish to say that will be happy to do business with them on these terms.

As the new departure is something of an experiment, what would be considered a close cash price will be made all through the stock. Not a few leaders only, but a general reduction in everything from the fourth flat to the cellar.

Our idea is to perform more than promised rather than promise more than can be fulfilled.

Our stock is large and varied, consisting of **Builders', Contractors', Household, Mechanics', Painters', Shoemakers', Farm, Mill, Factory, Lumbermen's, Sporting, Threshers', Cabinet-makers', and other lines of Hardware.**

An old saying:—"You should go to Kingan's where you can get anything from a Needle to an Anchor."

FUGITIVES IN THE JUNGLE

THE BRITISH TROOPS IN POSSESSION OF MANIPUR.

The Village Totally Deserted, the Palace Wrecked, and the Heads of the Slain Britishers Cut Off and Exposed—Imposing Funeral For the Massacred.

SIMLA, April 30.—The British columns have met and entered Manipur, which they found to be totally deserted. The magazine had exploded and the palace had been wrecked and stripped of everything of value. A ghastly sight was witnessed in an inclosure where the heads of Commissioner Quinton and others of the English party were found. The Rajah, Senaputty, Princes and inhabitants had fled northeast by the only road of escape shortly before the arrival of the British, Saturday's engagement being the final struggle.

Hiding in the Jungle.

MANIPUR, April 30.—The Maharajah and the Manipur chiefs who support him are still fugitives in the jungle. A mounted detachment of troops has been despatched in pursuit. Shortly after the British troops entered Manipur the headless bodies of Chief Commissioner Quinton, Political Agent Grimwood and those of the other members of the commissioner's staff who were killed were exhumed and now lie in state pending an imposing military funeral service which will take place on Monday next. A commission of army officers has been formed to enquire into the causes which led to the rebellion and the massacre of the British officers.

There is great scarcity of provisions in and about Manipur, the inhabitants having fled with the Maharajah. However, many of the Manipuris are now reassured by the fact that those who remained here have not been shot, as it was expected they would be, and some of them are leaving their hiding places and returning.

BELIEVED TO BE THE RIPPER.

"Frenchy No. 1" Was the Slayer of "Shakespeare"—Traced By a Trail of Blood.

NEW YORK, April 30.—Inspector Byrnes to-day made a statement to the effect that the man known as "Frenchy No. 1" was ascertained to have slept in the East River Hotel on the night of the murder. The murdered woman, Carrie Brown, occupied room No. 31, while "Frenchy No. 1" slept in room 33. On the evening of the night of the murder Carrie Brown was seen going into the hotel with a strange man. This man left the place before midnight. It is believed that "Frenchy No. 1" went to Carrie Brown's room, that they quarreled and the result of the row was the murder of the woman. The detectives, while investigating the murder, traced blood marks across the hall into room 33. Upon further investigation of room 33 the detectives found a chair and pillow saturated with blood. Upon the arrest of "Frenchy No. 1," an examination of his clothing showed that his shirt front bore marks of blood. It was also found that his shoulder had blood marks upon it as though a bloody hand had been placed upon it. Inspector Byrnes employed two expert chemists and the examination of the blood on the shirt revealed that it was that of a human being.

The suspected murderer's name is said to be George Frank, alias George Francois. He has also been known as Frank Sherlick. He is an Algerian 35 years old. He has been under arrest since Friday night, since which time he has been confined in a cell at the Oak-street station. It is against the rules of the hotel to allow men alone to go upstairs, but Frenchy had slept there before, and he gave Eddie Fitzgerald, bell-boy, 25 cents and the boy let him go up.

Fitzgerald saw Frenchy come downstairs. When Frenchy saw the boy he turned around, and with his face toward the wall as though trying to evade being seen he sneaked out of the private entrance. In addition to the trail of blood found leading from room 31 into room 33 on the door of 33 were several blood spots which came evidently from some one pushing in the door inside. On the wall was more blood. The seat of a chair in the room was covered with blood, the bed tick was spotted with it. When Frenchy was arrested he wore no drawers and had on a cheap merino shirt. The tail of the shirt was besmeared with blood and underneath his finger nails was what appeared to be blood.

This afternoon Joseph Franks, an Arabian, was taken to police headquarters. This man in all particulars answers the description given of the strange man who rented the room at the East River hotel.

NOT YET EXPLAINED.

Princeton Still Excited Over the Absence of Station Agent Larmour.

PRINCETON, Ont., April 30.—A telegram, purporting to have been sent by Mr. F. Larmour, the missing station agent here, to Capt. Williamson anent the mysterious disappearance of the gentleman referred to did much at the time to throw oil on the troubled waters, but as the promises made in the telegram have not been carried out adds to the excitement, and fears of foul play are freely expressed that the telegram was a fraud and helps to deepen the mystery.

Crushed His Head Like an Eggshell.

WARNAPITAE, Ont., April 30.—William Paget of Sundridge, a brakeman for the Emery Co., was killed while coupling cars. Some of the cars were loaded with logs, the ends of some of the logs projected over the ends of the cars. He was in the act of coupling, and not lowering his head sufficiently to miss the projection it was caught and his skull cracked. Death was instantaneous.

A Mother Accidentally Poisoned With a Dose of Saltpetre.

BRACEBRIDGE, April 30.—Mrs. Brown, mother of William Brown of Trout Creek, died yesterday from a fatal mistake of her son, who supposed he was giving his mother a dose of salts which proved to be a heavy dose of saltpetre.

A Young Girl Perishes in a Shallow Pool on the Roadway.

BRACEBRIDGE, Ont., April 30.—Miss Tressa Earing, daughter of a farmer living west of Trout Creek, undertook to take a lunch to her brother in the sugar bush. Her long absence caused her father to follow, and he found her lying on the road in a shallow pool of water quite dead. It is supposed she fainted and fell forward on her face into the water.

THAT ENGLISH SCANDAL.

MISS NELLIE BECKETT'S SERIOUS CHARGE AGAINST CAPT. VARNEY.

Most Positive Evidence Against the Accused Member of Parliament—Committed For Trial and Held in $50,000 Bonds to Appear

LONDON, April 30.—At the Bow-street Police Court to-day the trial of Capt. Edmund H. Verney, M.P. for North Buckinghamshire, charged with instigating the procuration of a governess, Miss Nellie Beckett, for immoral purposes, was continued. The courtroom was crowded with people of all classes. Many letters signed "Wilson," the name which Capt. Verney is charged with assuming, were identified as being in Verney's handwriting. The hall porter of a fashionable club testified that letters addressed to "Wilson" were forwarded at Verney's request to the latter's address. Louise Adeline, keeper of a hotel in Rue Lafitte, Paris, testified that Verney had called upon her on several occasions and asked her to procure for him two or three girls, promising her 100 francs if she succeeded. Witness said that in spite of the captain's solicitations and the inducements he held forth she positively refused to undertake the procuration referred to.

Mme. Adeline was positive in her affirmative replies to all questions as to her identification of Verney. The presiding magistrate, Sir John Bridge, closely questioned the witness on this point. One of Sir John's questions was:

"When Capt. Verney asked you to procure the little girls, did he give you information as to what purpose he desired them for?"

"Yes," replied Mme. Adeline. "He said he wanted them in order to seduce them and they must be virtuous and chaste."

Mme. Adeline's last reply increased the sensation which her evidence had caused among those who thronged the courtroom.

After some discussion between counsel as to the question of jurisdiction, Verney was instructed to rise, and was charged in the usual form with the offence of procuration, and was afterwards asked if he had anything to say in his own behalf as to why he should not be committed for trial.

To this Captain Verney replied in a clear, firm voice, "I understand, Sir John, that there is no power to deal with the case here. Therefore, I propose to say nothing to-day."

Captain Verney was then held for trial. He was again released on bail, giving his personal bond in $50,000, and furnishing two bondsmen as sureties for $12,500 each, a total of $75,000.

SAMOAN'S EX-KING.

The Overthrown Ruler of the Samoans Succumbs to Disease.

MELBOURNE, April 29.—Advices received here from Samoa state that ex-King Tamasese is dead. He had been suffering from Bright's disease of the kidneys for some time past and finally succumbed to the complaint.

Tamasese was the head of the house of Tupua, one of the two rival royal families of the Samoan Islands. In 1875 the Samoans began the experiment of securing peace between these rival houses by taking two kings, one from the house of Malieton and the other a Tupua, with a term of four years only, one being king and the other viceking. Tamasese was serving in the capacity of vice-king when the Germans in 1877, in order to increase their influence in the islands, deposed Malietoa and installed Tamasese as king. This position he held during the most troublous period in the history of the islands, his deposed rival, Malietoa, having been carried off as a prisoner of state by the Germans. In the fall of 1888, however, Tamasese was overthrown by the friends of the exiled Malietoa, and in accordance with the settlement effected at the Samoan Conference held in Berlin in June, 1889, Malieton was brought back in August of that year and duly installed in his old position as king. Tamasese meanwhile had quietly acquiesced in the new order of things.

BISMARCK SUCCESSFUL.

He Secures the Necessary Two Thirds Vote in the Geestemunde District.

BERLIN, April 30.—A supplementary ballot for a member of the Reichstag was held in the Geestemunde district to-day. Returns from 55 polling places give the following figures.

Bismarck 6678.	Schmalfeld 4718.

THE ASSASSIN CAPTURED.

The Man Who Killed Bulgaria's Finance Minister in Custody.

VIENNA, April 30.—A Russian named Glickoff, charged with murdering Baltcheff, the Bulgarian Minister of Finance, recently, was arrested at Orsova, Servia, to-day. He confessed and was sent to Bulgaria.

Ristoff, a Bulgarian refugee, who, it is alleged, threatened to assassinate Stambouloff, the Bulgarian premier, has been arrested at Krajova, Roumania.

OCEAN STEAMSHIP ASHORE.

After Blowing Her Foghorn She Runs on the Irish Coast

LONDON, April 30.—A despatch from Kinsale just received here reports that a steamer belonging to some transatlantic line has gone ashore at Kinsale, after showing signals of distress and blowing her foghorns. No details of the accidents have yet been learned.

Ousted Publicans to be Compensated.

LONDON, April 30.—In the House of Commons to-day a motion was carried, by a vote of 182 to 111, to reduce the number of taverns, and to give local authorities larger control of licenses, with the provison that publicans should be compensated.

Cabinet Crisis in Germany.

LONDON, April 30.—A Cabinet crisis is imminent in Vienna. The Germans and the Conservatives are divided on the School question.

Fatal Dynamite Explosion.

ROME, April 29.—An explosion occurred in a dynamite factory at Cengio, near Genoa, to-day by which five girls were killed and fifty persons were injured.

The Government's Free Education Plan.

LIVERPOOL, April 29.—Arthur Bower Forwood, Conservative member of Parliament, in an address he to-day, said he believed upon good authority that it had been officially declared that the Government would dissolve Parliament if the Government's free education plans were obstructed. Mr. Forwood's statement has attracted considerable attention.

SEVENTH PARLIAMENT.

OPENED WITH LOTS OF FUSS AND FEATHERS.

The Speech from the Throne—Both Parties Hold Caucuses—Sir John's Appearance—The New Whips—General Capital Gossip.

OTTAWA, April 30.—The formal opening of the first session of the seventh Parliament of the Dominion of Canada this afternoon was attended by the largest number of members and the greatest assemblage of spectators which has been seen at any opening for many years. The day was a perfect one, the city was gay with bunting and the Parliament grounds were fairly alive with gaily dressed people. The usual guard of honor was furnished by the Governor-General's Foot Guards, and the guns fired, the band played, the small boy yelled, and as usual "all went merry as a marriage bell." Inside the building, the Senate chamber was the centre of attraction, and the floor was crowded with invited guests, amongst whom was a larger percentage than usual of ladies, who added the charm of beauty to the scene. All the ministers were present, but the only ones who appeared in full diplomatic dress were Abbott, Smith and Carling. Sir John wore his dress as an Imperial Privy Councillor, stiff with gold lace,

One of Lord Stanley's best points is his promptness, and before the hands of the clock in the Commons had quite reached the hour of 3 the booming of guns on Nepean Point announced that he was coming. The House had just got completely seated when the Black Rod's knocks sounded on the door of the Chamber, and immediately after that functionary entered the Chamber, made his wonderful bows and in the name of the Governor-General summoned the Commons to the Senate Chamber.

I have never seen such a heterogeneous crowd crushing through the lobbies as passed along them to-day, and the space outside the bar of the Senate was speedily filled almost to suffocation.

Mr. White having announced that he had been elected Speaker received the usual acknowledgment and His Excellency then delivered the Speech from the Throne:

The Speech From the Throne.

Hon. Gentlemen of the Senate: Gentlemen of the House of Commons:

I am glad to welcome you to the duties of the first session of a new Parliament, which I hope will be memorable for wise deliberations and for measures adapted to the progress and development of the Dominion. The season in which you are assembled has opened auspiciously for the industries of our people. Let us hope that their labors may be crowned with fruitful returns from land and sea, and that the great resources of Canada may continue to reward the toil and enterprise of its inhabitants. My advisers, availing themselves of opportunities which were presented in the closing months of last year, caused the willingness of the Government of Canada to join in making efforts for the extension and development of trade between the Republic and the Dominion as well as for the friendly adjustment of those matters of an international character which remain unsettled. I am pleased to say that these representations have resulted in an assurance, that, in October next, the Government of the United States will be prepared to enter on a conference to consider the best means of arriving at a practical solution of these important questions. The papers relating to this subject will be laid before you. Under these circumstances, and in the hope that the proposed conference may result in arrangements beneficial to both countries, you will be called upon to consider the expediency of extending for the present season the principal provision of the protocol annexed to the Washington treaty, 1888, known as the modus vivendi.

A disposition having been manifested in the United Kingdom to impose on sea-going ships engaged in the cattle trade increased safeguards for life and greater restrictions against improper treatment, a careful enquiry has been made as to the incidents of that trade in so far as this country is concerned. While I am glad to learn that our shipping is free from reproach in that regard, your attention will be invited to a measure which will remove all reasonable apprehension of abuses arising in the future in connection with so important a branch of our commerce.

The early coming into force of the Imperial statute relating to the vice-admiralty courts of the Empire has made it necessary to revise the laws in force in Canada respecting our courts of maritime jurisdiction, and a measure will therefore be laid before you designed to reorganize those tribunals. A code of criminal law has been prepared in order that that branch of our jurisprudence may be simplified and improved, to which your best attention is invited.

Measures relating to the foreshores of the Dominion and to the obstruction of its navigable waters will be submitted to you, and you will also be asked to consider amendments to the acts relating to the Northwest Territories, to the Exchequer Court Act and to the acts relating to the trades marks.

Gentlemen of the House of Commons:

The accounts for the past year will be submitted to you. The revenue, after providing for the services to which you appropriated it, has left a surplus for the works which you designed to be carried on by capital expenditure. The estimates for the coming year will be laid before you at an early date.

Honorable Gentlemen of the Senate—Gentlemen of the House of Commons:

I pray that in the consideration of these matters and in the performance of all the labors which will devolve upon you your deliberations may be Divinely aided, and that your wisdom and patriotism may enlarge the prosperity of the Dominion and promote in every way the well-being of its people.

Subsequent Proceedings

On returning to the House the Speaker made the usual formal announcement of the visit to the Senate, and imparted the information which speakers always impart, that "for greater accuracy" he had secured a copy of the speech delivered by His Excellency.

Sir John then moved that the address in reply to the Speech from the Throne be considered to-morrow, and also that a committee of seven, Sir John, Langevin, Thompson, Cartwright, Bowell, Laurier and Mills be appointed to strike the usual standing committees.

The House then adjourned at 3.35.

OTTAWA, April 30.—A deputation from the Canadian Press Association subsequently waited on Hon. Mr. Haggart, Postmaster-general, to ask that the press association be notified if the Government, as was rumored contemplated re-imposing postage on newspaper circulation. Hon. Mr. Haggart said the Government had never so far even considered the idea, and he did not think it was likely to at present. He said that, so far as revenue was concerned, such a step had no great claims as the largest postal revenue ever derived from newspaper postage when it was in force was only about $130,000.

Both parties held caucuses this morning.

The Conservative whips are Taylor (South Leeds), McKay (Hamilton) and Corby (West Hastings), for Ontario; Frechette, Bergeron and Pope for Quebec; Macdonald (Victoria) for Nova Scotia; Wood for New Brunswick; Daly for Manitoba and Northwest, and Prior for British Columbia.

The Liberal whips are Trow (South Perth), Sutherland (North Oxford), Rinfret, Brodeur and Carroll.

It is said that Dr. Rooms will introduce again this session his bill providing for the establishment of a Board of Health for the Dominion, which reached its second reading last year.

The address in reply to the Speech from the Throne will be moved in both Senate and Commons to-morrow.

Notices are given by Edgar of a bill to amend the Franchise Act; by Wood (Brockville) to amend Elections Acts; by Taylor, act to prohibit the importation of foreigners and aliens under contracts or agreement to perform labor in Canada.

Watson (Marquette) will ask on Monday whether the Government has agreed to pay the expense of testing the constitutionality or validity of any acts passed by any legislature, and if so, what act or acts, and whether it is the intention of the Government to bear the costs of any portion of them of obtaining a final opinion as to the constitutionality of the Manitoba School Act.

The usual state dinner is in progress tonight at Rideau Hall.

There promises to be quite a deal of labor legislation proposed this session. Lepine, the labor representative, says he is receiving large numbers of petitions from Knights of Labor against Chinese labor, and a bill prohibiting importation of Chinese may be proposed. Taylor's Alien Labor Act is said to be a copy of the American anti-contract labor law.

Clarke Wallace will probably re-introduce his amendment to the Combines Act, which was killed in the Senate last year.

The Speaker of the Senate held a reception after the opening this afternoon. Sir John and Lady Macdonald were present for a few minutes.

ONTARIO LEGISLATURE.

TORONTO, May 1.—In the Legislature yesterday there was a lively debate on the question of the French language in the public schools. When Mr. Ross moved the third reading of the bill to revise and consolidate the public school laws, Mr. Miscampbell moved:

That the bill be not now read a third time, but that it be referred back to the committee with instructions to strike out these clauses:

"Where deemed necessary from the general use of the French or German language, the County Council may appoint additional examiners, not exceeding two, for the purpose of conducting the examination of candidates for a teacher's certificate in either of the languages aforesaid.

"In counties containing any municipality wherein the French or German language is the common or prevailing language, an inspector may have charge of any number of schools not less than 40."

Because, in the opinion of the House, it is inexpedient that exceptional legislation with regard to the appointment of examiners and inspectors of the public schools should exist in the cases provided for in the foregoing sections.

After some discussion the vote was taken and the amendment was lost by a vote of 32 to 56. The division was on party lines except that Messrs. Magwood and Sol White voted with the Government.

Mr. Wood moved another amendment to the effect that it was expedient that elections for public and separate school trustees should be held by ballot.

This amendment was also lost on a party vote of 35 to 53. Mr. Sol White voted with the Government, and Messrs. Caldwell and Dack with the Opposition.

Another amendment by Mr. Meredith, that the right of control over inspectors by the Government should be confined to cases where at least one-half of the salary is paid by the Government, was defeated 35 to 33, Mr. Biggar voting for the amendment.

On Mr. Ross' motion for the third reading of the bill revising and consolidating the laws respecting the Education Department, Mr. Sol. White moved that it was expedient to place the Education Department under control of a non-political head and that the office of Minister should be abolished after the dissolution of the present House. This was lost on a party vote of 31 to 51.

Mr. Meredith moved in amendment:

That every school supported in whole or in part by moneys voted by this House, and every school on the trustees or other governing body of which the Legislature has conferred the power of levying taxes for its support, is subject to the regulation of and to control by the Legislature; that neither the B.N.A. Act nor any other act or law has divested the Legislature of that power or conferred it upon any religious organization or body; that the rights conferred by the said act upon or secured to the supporters of separate or dissentient schools are civil rights appertaining to them as citizens, and that it is within the constitutional authority of the Legislature, through the Department of Education, to regulate such schools and to prescribe the text-books to be used and the course of study to be pursued in them, religious instruction excepted; and that the said bill be not now read the third time, but be forthwith referred back to the Committee of the Whole House with instructions to amend the same so as to include such separate and dissentient schools within the classes of schools dealt with by the said bill.

Mr. Fraser moved in amendment to the amendment:

That, except as prescribed in this act, nothing shall be deemed, taken or construed as in any manner, or for any purpose, altering, varying or affecting any power, right or authority which, before the passing of this act, was by law vested in or held, had or possessed by the Minister of Education or the Department of Education in respect either of Roman Catholic separate schools or of any matter or thing whatsoever pertaining to or affecting said separate schools.

Mr. Meredith pointed out that this amendment really meant that the department had no control over separate schools.

Mr. Mowat said he was as good a Protestant as Mr. Meredith or any of his followers, but he was going to stand by the constitution and protect the rights of his Roman Catholic fellow-citizens. The bill gave up no authority the department previously had.

Mr. Fraser's amendment was carried on a party vote of 52 to 31, except that Mr. Sol. White voted for it and with the Government. The bill was then read a third time and passed.

NEW YORK, April 30.—About 6500 carpenters and others will strike here to-morrow for an eight-hour day.

"OLD HUTCH" MISSING.

CHICAGO, April 29.—The break in the prices of grain on the Board of Trade this morning was caused by rumors that B. P. Hutchinson, the veteran speculator, was in financial trouble. No facts in evidence were given by those who talked of the matter, though it was common report that he lately lost heavily in wheat and corn, both on the recent heavy advance and subsequent break in prices. Mr. Hutchinson was not to be found upon the floor and later it became known that Mr. Hutchinson was mysteriously missing. None of Mr. Hutchinson's family have seen him since yesterday afternoon when the board closed. His people were of course very anxious in regard to him. The supposition among Mr. Hutchinson's friends is that he has wandered away in a fit of temporary despondency. The actual condition of his affairs is not known, though it is understood all of his trades on the board have been closed out, and a private despatch from Milwaukee says all his deals there have been closed. Whatever may be his financial condition, it is not believed anyone will lose anything through him, as his family, it is confidently expected, will see them paid, if necessary. Hutchinson's checks have gone through the clearing house so far without question. Present interest centres in the whereabouts of the Board of Trade King who for years ruled the market, putting prices up and down at will by the sheer force of the millions with which he was able to back his opinions. His sudden and mysterious disappearance recalls the fate of the late millionaire B. H. Campbell, who disappeared last December, and whose body was found in the river afterwards.

It is now learned that Hutchinson started for Florida last night. One of Hutchinson's brokers estimates his liabilities at $350,000 and his assets at $350,000. He says Hutchinson lost $3,000,000 during the past 14 months.

A very sad death occurred yesterday at the residence of John Davison, real estate agent, 232 Brunswick-avenue. His little daughter, aged 1 year and 9 months, got a white bean in her throat and in 15 minutes was dead.

What it Cures.

Must be carefully considered by the great majority of people, in buying even necessities of life. Hood's Sarsaparilla commends itself with special force to the great middle classes because it combines positive economy with great medicinal power. It is the only medicine of which can truly be said, "100 doses One Dollar," and a bottle taken according to directions will average to last a month.

Children Cry for Pitcher's Castoria.

ATTRACTIONS IN

DRY GOODS

AT

TURNBULL'S.

The change in the weather has brought with it a great demand for Millinery, also for Spring Shades in Dress Goods. Our store was never more attractive in these lines than at present. We have every new and desirable shade in stock with Millinery to match. If you are in town this week, have a look at our Grey Dress Goods and Millinery Window. Large Grey Checks for young people to be made up alone or mixed with Black. Small Black and White Checks and Stripes (broken patterns,) for older people. Goods that are hard to find, in neat patterns.

We justly claim to take the lead in our Tailoring Department for quality of goods, fit and price. We get up a splendid suit, in Halifax tweed or navy serge, for $12.00. Fine grades of Almonte and other makes of tweed for $13.00, $14.00, $15.00 and $16.00. Scotch tweeds and serges from $16 to $20 for the best. Fine all Venetian finish or diagonal cords for coat and vest, with black or fancy pantings to match, at from $19 to $22 a suit. Remember our prices. Call and see our stock, and do not pay a great deal higher figure through force of habit.

We have added this week to our already attractive stock of Boys' Clothing, another shipment just turned out of the manufacturers' hands, neat and new styles.

We show now an immense range of patterns in cottonades and shirtings, in the best quality.

We also keep all the lower lines, beginning at 5c. for shirtings and 12½c. for cottonades.

We have an opening now for an apprentice in the millinery department. Apply until Saturday.

COAL All Kinds of the best Coal kept always on hand at my Coal Yard, which will be delivered to any part of the town free of charge for cartage. Terms Cash. JAMES STEVENSON.

SUN LIFE

ASSURANCE COMPANY OF CANADA.

The attention of our Policy-Holders is directed to the following summary of the leading items of the present report, which speaks for itself as to the progress and prosperity of the Company:—

Life Assurances in force, 1st January, 1891	$16,759,355 92
Increase over previous year	3,421,372 84
New Applications received in 1890	6 371 599 15
Increase over 1889	2 268 886 60
Cash income for year ending 31st December, 1890	852 6 78 87
Increase over 1889	375 938 35
Assets at 31st December, 1890	2,473 5 4 19
Increase over 1889	687 691 47
Reserve for Security for Policy Holders	2 109 722 64
Increase over 1889	567 732 71
Surplus over all Liabilities and Capital Stock	232 175 69
Increase over 1889	75 649 05
Death claims fallen in during 1890	143,961 65

The progress made by the SUN LIFE during 1890 was remarkable. The new business was the largest in the Company's history, and was equalled by but one other Canadian Life Company. The income for the year exceeds $2 000 for each day in the year, Sundays included. The Assets are large and rapidly increasing. They are, moreover, of the highest character, yielding an average interest of 6 04 per cent. The overdue interest is small and the Real Estate owned under foreclosure is only four per cent. of the amount of mortgages. This is a remarkable showing. The SURPLUS accumulated during the FOUR years of the current quinquennium is nearly THREE TIMES as much as the amount earned during any previous FIVE years, and the profits to Policy-holders cannot fail thus to be highly satisfactory. The following are the figures:—

Net Surplus, 31st Dec., 1881, (five years)	$64 824 07
" " " " 1886, "	89 452 97
" " " " 1890 (four years)	232 175 69

FRIDAY, MAY 1, 1891.

Vital Statistics.

Interesting Particulars of the Three Great Human Events, Births, Marriages and Deaths.

The report relating to the registration of births, marriages and deaths in the Province of Ontario for the year 1889, has been issued. It is a most elaborative and exhaustive one, and contains many interesting figures. For instance, the total registrations made during the year amounted to 86,747, composed of 48,538 births, 14,880 marriages, and 23,329 deaths. Compared with the registrations made during 1888, the births show an increase of 1585, the marriages an increase of 329, and the deaths a decrease of 405, making a total increase in 1889 of 1509. The proportion of the total registrations to every 1000 living was 40.3. In England there were 56.7 per 1000, in Scotland 45 per 1000 and in Michigan, a state similar in population to Ontario, 41 9 per 1000.

The highest birth rates were in the counties of Carleton, 36.4 per 1000, York 36 4, Waterloo 32 4, and Prescott and Russell 31.3. The male births in the Province numbered 24,737, the females 23,801, an excess of 936 male births, showing a proportion of 103.5 males to 100 females. There was a small increase in the number of twin births registered. Three cases of triplets were returned in 1889, the same number as in 1888. They occurred, one in the county of Haldimand, one in the county of Peterborough, and one in the county of York.

SCORES MADE BY THE CHURCHES.

Of the 48,538 births during the year, 958 or 2 per cent. were illegitimate. In 1888 the percentage was 1 3. Of the 29,760 persons married, 9920 were Methodists; 6022 were Presbyterians; 5041 were Episcopalians and 4136 Roman Catholics. If marrage is a failure, the Methodists won't pay ten cents on the dollar. The reports shows that there are certain months which are generally chosen for tying the nuptial knot. October, December and January are still the favorite months, especially December, which heads the lists with 1753 weddings. This fact may perhaps be explained by a gentle insinuation that Christmass and wedding presents might be considered one and the same.

In August there were only 913 weddings. A temperature of 90° in the shade may drive a man to a quiet watering place which sports four German bands, but it evidently can't drive him to marriage. The number of males married under the age of 20 was 259 and females 2583. Over 20 spoony old gents toddled to the altar with the weight of three score and ten years, and 24 prim old ladies decided that at 70 they were "sufficiently decayed" to ask mamma's consent. Only two brides were older than their bridegrooms, one was 82 years old and the bridegroom 62 years, the other was 70 years and the bridegroom 61 years. The united ages of the oldest couple married in 1889 was 148 years. The bridegroom was 81 years and the bride 67. Four persons were married at 80 years of age and over, three males and one female. Nine girls of 14 years of age united themselves to youths under 19 years and 30 girls were married at 16 years of age.

THE MARRIAGE MONTH.

The youngest couple married was a girl of 14 years of age to a youth of 18 years. One old gentleman of 79 is credited with capturing a maiden of bashful 15. The sturdy settlers of Haliburton district are credited with being the most generative, the ratio of births per 1000 of population being 41 3. The Frenchmen of Essex seem to be most thoroughly convinced of the advantages of marriage, and head the list with 14.7. York is second with 11.6. The death rate is highest in Haliburton, and York is again second. There were 1045 more births in Toronto in '89 than in '88, 188 more marriages and 93 more deaths. It would seem that a man has a decided penchant for appearing on this busy scene during July, August and September, in time for ice cream and mosquitos. There were over 1000 more births in September, August or July than in January, February or December. The number of pairs of twins was 266, as compared with 249 in '88 and 407 in '80. The death rate to 1000 of population in Toronto was 18 3, the lowest for many years. Phthisis claims more victims than any other disease, but pneumonia, diphtheria and nervous diseases each reap large harvests.

The list of centenarians who died during 1889 is as follows:—Jane Campbell, aged 102, Dufferin county; Margaret Menard, 100, Elizabeth Mooney, 103, Elgin; Sarah Thompson, 109, Essex; Sarah Ann Griffith, 100, Frontenac; John Scott, 105, Haliburton; Margaret Philips, 102, Anne McPhail, 100, Mary Martin, 105, Huron; John Blue, 100, Kent; James Doherty, 101, Lambton; Henry McVeigh, 100, Lanark; John Vaughan, 105, Leeds and Grenville; Charles Smith, 101, Ontario; William Flood, 105, Renfrew; Elizabeth Morgan, 116, Simcoe.

The Launch of the "Golden City."

Capt. Sam Reynolds' New Steamer Launched at Lakefield—An Improvement on the Cruiser.

Lakefield citizens never lose a chance for an outing, and the launch of the "Golden City" Thursday afternoon was the occasion of a general half holiday. Captain Reynolds issued hand bills inviting the public to witness the launch, and to show their interest in village enterprise and industry, a crowd of several hundred people gathered on the wharf at two o'clock, the hour announced. The "Golden City," be it known, is the old "Cruiser" remodelled, enlarged and renamed. The "Cruiser" was pulled upon the stocks last fall, and during the winter extensive alterations have been made, converting her practically into a new and much larger steamer. The old hull was cut in two and a twenty-foot section placed in the middle. This increased length will give greater speed, the draught of water being thus considerably diminished. The plan of the boat is the same as before with the exception of the new stairway ascending from the cabin to the promenade deck. The deck is longer, and the cabin fore and aft also of greater dimensions. The boiler and engine have been thoroughly overhauled, and a donkey engine added for fire protection and if necessary to feed the boiler. The vessel has been freshly painted in every part, and the "Golden City" has all the appearance of a brand new boat. Capt. Reynolds, her popular owner and Commander, has reason to feel proud of his

STAUNCH LITTLE VESSEL,

whose general usefulness and carrying capacity has been greatly increased. The "Golden City" will be able to convey large excursion parties up the lakes, besides doing the usual island traffic. The work of rebuilding was begun by Mr. Hacker, an experienced man from Midland, and completed by Mr. Stoneberg, the well-known boat builder of Peterborough. Both have done their work well. Mr. Coush Gryffs will be engineer of the "Golden City" this season.

The launch took place Thursday afternoon in the presence of a couple of hundred people, a few of whom were from Peterborough. The boat, with flags flying from every staff, was already in the water, for the spring freshet had flooded the wharf so that she had to be approached by boat. However, there was scarcely enough water on the wharf to float the craft, so the ceremony of launching was performed. After some time had been spent in loosening her blocks, the vessel was observed to move, and slowly she slid down further into the water.

As her motion increased the two ladies on the deck did their part, Miss Reynolds breaking the conventional

BOTTLE OF WINE

and Miss Todd pulled the halyards, which threw out to the breeze the folds of the flag as the most head bearing the name the "Golden City." The report to be complete should add "that as the vessel slid into the water, and floated gracefully as a swan upon the face of the deep, a wild cheer went up from the admiring multitude." That is the usual procedure, but in this case there was a trifling exception. To be strictly truthful it must be said that the vessel didn't slide into deep water, and the crowd didn't cheer. The craft stopped at the edge of the wharf, and it was only after ropes were thrown across the river, and a strong pull made, that she reached her destination, and her graceful lines could be seen. However, when once in the water she floated beautifully, and the launch was voted a success and the steamer a daisy. Lakefield is proud of her vessels, and the "Golden City" in particular. Capt. Reynolds will no doubt do a largely increased summer's trade as the result of his enterprise. The "Golden City" will be as ably managed as was the "Cruiser," and Stony Lake tourists can vouch for the satisfaction given by Capt. Reynolds boat last season.

Do you use SAPOLIO for house-cleaning? If not, try it. For sale at ALEX. ELLIOTT'S.

Removal Sale.

In order to reduce my stock, previous to removing to 364 George street, next door to Ormond & Walsh's drug store, I will offer during the next 30 days the whole of my present fresh spring stock of Boots and Shoes at greatly reduced prices.

Do You Cough?

Don't delay. Take Kemp's Balsam, the best cough cure. It will cure coughs and colds. It will cure sore throat, or a tickling in the throat. It will cure pains in the chest. It will cure influenza and bronchitis and all diseases pertaining to the lungs, because it is a pure balsam. Hold it to the light and see how clear and thick it is. You see the excellent effect after taking the first dose. Large bottles 50c and $1. dw

Why Not Treat.

Why not treat such troubles as boils, pimples, blotches, sores, humors, eruptions, rashes, skin irritations, etc., with Burdock Blood Bitters. It is filled with virtue as a blood purifier and goes right to the right spot. It makes the skin bright and clear, while also invigorating the entire system. 1w18-d

Now Free From Pain.

Dear Sirs—I have been troubled with Lame Back for about six months, and thought I would try Hagyard's Yellow Oil, which cured me. Am now free from all pains, and recommend Yellow Oil very highly. Frank Palmer, Wiarton, Ont. 1w18-1

Supposing.

Supposing you suffer from some disease. Suppose it is dyspepsia or billousness or constipation or bad blood. Suppose you learn that Burdock Blood Bitters has cured thousands of cases of these and similar complaints. Don't you suppose you ought to try? It cannot harm you and in nine cases out of ten it cures. 1w18-1

It Does Its Work.

Mrs. James Dix, Brock street, Kingston, Ont., says: I suffered with an inflamed throat and bad cough for seven months. Was treated by physicians without success, when six doses of Miller's Emulsion of Cod Liver Oil cured me. It's as palatable as cream. For sale by all druggists. dw

At no season in the year is cold in the head and catarrah more prevalent than during April. To neglect either means misery and perhaps fatal results. Nasal Balm is the only certain remedy for these dangerous diseases, and as a precautionary remedy should be kept in every household. Nasal Balm has cured thousands of sufferers—it will cure you. Try it. 6:98w

Once Used, Always Used.

This is a fact as regards Dyer's Jelly of Cucumber and Roses, from its wonderful efficiency in curing chapped hands, and making the skin smooth and soft. Druggists keep it. W. A. Dyer & Co., Montreal 6:92

A MAN'S wife should always be the same, especially to her husband, but if she is weak and nervous, and uses Carter's Iron Pills she cannot be, for they make her "feel like a different person," so they all say, and their husbands say so, too! dw

Twelve years trial in English climate, with increasing demand, proves the Royal Rheumatic Remedy to be the best remedy for rheumatism. For sale by W. R. Greetrix, druggist. dw

FOR NETTLE RASH, Summer Heat and general toilet purposes, use Low's Sulphur Soap. dw

Ayer's Hair Vigor

IS the "ideal" Hair-dressing. It restores the color to gray hair; promotes a fresh and vigorous growth; prevents the formation of dandruff; makes the hair soft and silken; and imparts a delicate but lasting perfume.

"Several months ago my hair commenced falling out, and in a few weeks my head was almost bald. I tried many remedies, but they did no good. I finally bought a bottle of Ayer's Hair Vigor, and, after using only a part of the contents, my head was covered with a heavy growth of hair. I recommend your preparation as the best in the world."—T. Munday, Sharon Grove, Ky.

"I have used Ayer's Hair Vigor for a number of years, and it has always given me satisfaction. It is an excellent dressing, prevents the hair from turning gray, insures its vigorous growth, and keeps the scalp white and clean."—Mary A. Jackson, Salem, Mass.

"I have used Ayer's Hair Vigor for promoting the growth of the hair, and think it unequaled. For restoring the hair to its original color, and for a dressing, it cannot be surpassed."—Mrs. Geo. La Fever, Eaton Rapids, Mich.

"Ayer's Hair Vigor is a most excellent preparation for the hair. I speak of it from my own experience. Its use promotes the growth of new hair and makes it glossy and soft. The Vigor is also a cure for dandruff."—J. W. Bowman, Editor "Enquirer," McArthur, Ohio.

"I have used Ayer's Hair Vigor for the past two years, and found it all it is represented to be. It restores the natural color to gray hair, causes the hair to grow freely, and keeps it soft and pliant."—Mrs. M. V. Day, Cohoes, N. Y.

"My father, at about the age of fifty, lost all the hair from the top of his head. After one month's trial of Ayer's Hair Vigor the hair began coming, and, in three months, he had a fine growth of hair of the natural color."—P. J. Cullen, Saratoga Springs, N. Y.

THE PETERBOROUGH BOOKSTORE.

CHANGE IN BUSINESS.

I beg to announce to my late customers that I have sold out my business to Messrs. Hilliard & Peplow, and I would bespeak for them the same support as has been accorded me.

C. N. BROWN.

ANNOUNCEMENT.

For some time past we have thought a strictly cash business in Flour, Feed and Provisions could be successfully carried on in Peterborough, and to test this question, we have purchased the above business from Mr. C. N. Brown who will still continue as manager in Flavelle's old stand, Simcoe street.

In order to be successful we intend to make it the interest of everyone to pay cash with order by selling at wholesale prices.

We will positively give no credit and cash customers will not have to keep up the losses made by others on the credit system.

We will keep a full supply of the very best quality of Flour, Feed, Chop, etc., and our customers need not fear that the quality of the goods will be lowered to make up for the reduction in prices. We are simply giving them the benefit of the margin necessary to cover losses and interest charges incurred on the credit system.

Goods delivered to any part of the town or Ashburnham.

BARNUM AS A JOKER.

HIS KEEN APPRECIATION OF HUMOR EVEN WHILE DYING.

The Peacock Joke He Made on His Death-bed—The Celebrated Razor Joke—A Fish Story with Legs—The Prince of Showmen and the White Elephants.

The late P. T. Barnum's jokes found their way into print with unfailing regularity, but there are still a few recent ones which have not been published. One of their chief claims to public consideration is that they were made while he was on his death bed. The old showman's curly white hair, his large round face and his fine Connecticut twang lent an irresistible charm to his jokes and stories.

P. T. BARNUM.

About six days before he died he summoned his lawyer to the side of the couch where he was lying.

"I am very much worried," he said, "about a certain matter, and I want to consult you. My neighbor keeps peacocks. Now, suppose some of them should fly over into my yard—which they are doing all the time—and lay some eggs here. Would those eggs belong to me, or could my neighbor compel me to give them up?"

The lawyer having duly scratched his head, answered: "Well, Mr. Barnum, I must take time to look into this matter. But the best thing for you to do would be to keep the eggs and let your neighbor sue for their possession. In that way your rights would be determined and we should have a very valuable test case."

"Well," said Barnum, "while you are looking into the matter will you find out how it would be if the eggs were laid by peahens?"

The lawyer swore softly to himself, but never made any investigation.

CHRISTMAS AND NEW YEAR'S PRESENTS.

Barnum had been accustomed for many years to make Christmas presents of $100 apiece to Frank Hyatt, the superintendent of the winter quarters at Bridgeport, and L. M. Hedges, his assistant.

This time he repeated the presents at New Year's. The benefited ones did not meet Mr. Barnum until about a week after this. Then they thanked him impressively.

"Mr. Barnum," they said, "it was very kind of you to send us a present of $100 at New Years as well as at Christmas.

"What! What! Did I send you two checks. That was a mistake. Send 'em back, send 'em back at once!" he exclaimed and hurried away.

Both men had large families and had spent the money as soon as they got it. They had hard work to scrape the money together, but they did so.

THE GREAT RAZOR JOKE.

It may be that these are hardly worthy of the hero of the great shaving episode. They took place during his mortal illness.

The shaving episode was this. Barnum was bringing a lot of Connecticut deacons and such like persons up to New York in his yacht one Sunday morning. They were all in need of shaving.

It was found that the only man in the party who had a razor was Barnum. He agreed to lend it on condition that each should shave on half of his face first, and then pass the razor on. The razor was to be passed around a second time, when they could all shave themselves completely.

This would ensure fairness and an equal division of the use of the razor. Barnum began by shaving half his face. He gave the razor to the others, who used it in accordance with the agreement. When it returned to him again he shaved himself completely and threw the razor overboard. The deacons and others had to walk up Fifth avenue, each with the right half of his face shaved.—New York Sun.

FLAT METAMORPHOSES.

Augustus Starr, who is in this city, has a world of reminiscences about Barnum. He had been "off and on" for the past fifteen years an agent for the great showman.

"Barnum was an immutable story teller," remarked Mr. Starr last night, "and he was full of humor. Practical jokes he would continually play upon his friends, and liked to have them played upon himself. Once a friend went into the museum and after some sightseeing found his way to Mr. Barnum's office. 'Barnum, I've been looking all over your place,' said he, 'but bless me if I can find the chair with which the Fiji Islanders killed Capt. Cook. You ought to get it.' Mr. Barnum answered it would be a good scheme to have it up. A few days later the showman sent for his friend, saying he had found the murderous club. It appears that he had got one of his employees to procure a big club, sprinkle it with blood, and then paste a card on it telling its history. 'Well, I got that club,' exclaimed Mr. Barnum as his friend entered the office; 'there it is.' The friend laughed and, looking the great showman in the eyes, said, 'So I see, and every other show in the country exhibits that club.' So the laugh was on Barnum.

"Several weeks after the friend dropped in the office again. 'Say, Jim, I'm puzzled,' exclaimed the showman impatiently. 'Here is a man, who says he will sell me a monstrously strange thing for a big sum and I don't know whether to purchase it or not. What is it?' inquired the friend. 'Well, it's a sort of a fish that metamorphoses into an animal. It has a tail like a fish, and then the first thing you know it begins to have legs.' The friends urged Barnum to purchase it at any price, as it would be a great attraction. 'What does the man call it?' asked the friend finally. 'A tadpole,' laughed the old showman heartily. So they evened things up."—Philadelphia Press.

BARNUM AND THE WHITE ELEPHANTS.

David S. Thomas was for twelve years press agent for P. T. Barnum, and probably few who have been connected with the great showman have had a better chance to see Mr. Barnum in his daily life and business career than Mr. Thomas.

"I was press agent for Mr. Barnum from 1872 until 1884," said Mr. Thomas, "and during that time I had probably more to do with Mr. Barnum than any of his other agents, for the reason that I kept right along with the show, while the others were usually ahead. The great white elephant war in Philadelphia was one of the greatest things that Mr. Barnum ever had on his hands. It was in 1882, and both Barnum and Forepaugh were billed to exhibit in Philadelphia about the same time. Barnum had a genuine white elephant from Siam, and Forepaugh had one he advertised as the only white elephant in this country, but we knew he wasn't a genuine one.

"Well, the war waxed hot and fierce. Mr. Barnum gave us instructions to carry it to the very end. Columns weren't anything to us then, we purchased whole pages of the newspapers, and advertised all the time. Mr. Barnum afterward told me that the newspaper bills for the three weeks amounted to $10,000, and I know that the bill posting and other advertising came to as much more. Philadelphia

And the Ferryboat.

William Parkdale—How do you like living in the suburbs?

Morris Mimico—You had better talk to my wife about that.

William Parkdale—But you live in the country, don't you?

Morris Mimico—My family does; I live on the cars.

Her Custom.

Mrs. Prentice—How do you always manage to have such delicious beef?

Mrs. Birthyre—I select a good, honest butcher, and then stand by him.

Mrs. Prentice—You mean that you give him all your trade?

Mrs. Birthyre—No; I mean that I stand by him while he is cutting off the meat.

He Took the Hint.

"I suppose," said she, glancing at the clock, "that like other boys you fought many battles at school, and that when you were once in a fight you stayed in it till you won."

"No," said he, candidly, "I used to get out of fights as quickly as possible."

"Well, now," she observed, with another glance at the clock, "I should think you would have been a stayer."

"No, I was not."

And to show that he wasn't a stayer he took his hat and went.

Luck.

I did, and yet I don't regret it—
I missed the train.
Though years ago, I can't forget it:
The way seemed plain:
My foot fell just behind, and yet it
Trud not in vain.

For torn gowns oft make lovers bicker,
As you'll agree;
And, had I stepped a moment quicker,
Alack for me!
She would have chosen some one slicker—
Now, don't you see?

He Sang "Home, sweet Home."

He had obtained a place in a real estate office, and was doing everything he could for the interests of his employers.

The other evening he was at a social gathering, and was asked to sing. He responded with "Home, Sweet Home." His friends were a little surprised at the selection, but he was heartily applauded. Stepping forward, he said:

"I am glad you liked the song. There is nothing like 'Home, Sweet Home,' and let me say that the company I represent is selling them on terms to suit yourself within twelve minutes' ride of the city. If you don't want to live there, it's the chance of your life for an investment."—Washington Post.

How She Reasoned.

He—Listen to me, Emma. Your monthly allowance for expenses of the house is, little by little, mounting up to a dizzy height.

She—But, dear Paul, I economize in every possible way.

He—But such luxury! Only a few days ago you bought your third Spring bonnet.

She—Oh, that makes no difference. I paid for the with the money I saved from the expenses of the house!"

A Welcome Announcement.

Those who have tested it say that for the grippe, and especially for the cough that hangs on after the disease itself seems cured, there is nothing equal to Kemp's Balsam, the specific for all throat and lung diseases, and the best cure for coughs and colds. The first dose will convince you of its excellent effect. All druggists sell it at 50c. and $1 a bottle. dw

Editorial Evidence.

Gentlemen—your Hagyard's Yellow Oil is worth its weight in gold for both internal and external use. During the late La Grippe epidemic we found it a most excellent preventive, and for sprained limbs, etc., there is nothing to equal it. Wm. Pembertee, Editor Reporter, Delhi, Ont. 1w183

Spring Cleaning.

Be particular every spring to clean the house, but never mind cleansing the blood until some troublesome disease takes hold of you. This is poor policy when by using Burdock Blood Bitters the blood will be thoroughly cleansed, the body strengthened, and future suffering prevented. 1w184

Everybody Likes It.

Wm. Dredge, Eden street, Barrie, Ont., says: One bottle of Miller's Emulsion of Cod Liver Oil brought back appetite which other Emulsions took away; removed cough entirely, and gained five pounds. It tastes just like cream, the oil being perfectly disguised. Sold by all druggists. dw

A Winnipegger's Opinion.

The following is taken from a letter from Mr. D. Davis, Winnipeg, Man.: "Being persuaded to use Hagyard's Pectoral Balsam for a troublesome cold, I was entirely cured by the use of two bottles." 1w18d

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Everybody Admires Soft White Hands.

And every lady ought to use Dyer's Jelly of Cucumber and Roses, as it makes the skin soft and smooth. Druggists keep it. W. A. Dyer & Co., Montreal. 6d92

HAVE no equal as a prompt and positive cure for sick headache, biliousness, constipation, pain in the side and all liver troubles. Carter's Little Liver Pills. Try them. dw

AN INACTIVE or Torpid Liver must be aroused and all bad bile removed. Burdock Pills are best for old or young. dw

AS A PICK-ME UP after excessive exertion or exposure, Milburn's Beef, Iron and Wine is grateful and comforting. dw

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold everywhere, or sent by mail.

FOR FLAX-SEED EMULSION COMPOUND

BRONCHITIS

131 Lexington Ave., New York City, Sept. 19, 1888.

I have used the Flax-Seed Emulsion in several cases of Chronic Bronchitis, and the early stages of Phthisis, and have been well pleased with the results.

JAMES K. CROOK, M.D.

CONSUMPTION

Brooklyn, N.Y., Feb. 11th, 1889.

I have used your Emulsion in a case of Phthisis (consumption) with beneficial results, where patients could not use Cod Liver Oil in any form.

J. H. DROGE, M. D.

NERVOUS PROSTRATION

Brooklyn, N. Y., Dec. 20th, 1888.

I can strongly recommend Flax Seed Emulsion as helpful to the relief and possibly the cure of all Lung, Bronchial and Nervous Affections, and a good general tonic in physical debility.

JOHN F. TALMAGE, M. D.

GENERAL DEBILITY

Brooklyn, N. Y., Oct. 10th, 1888.

I regard Flax Seed Emulsion as greatly superior to the Cod Liver Oil Emulsions so generally in use.

D. A. CORTON, M. D.

WASTING DISEASES

127 West 54th St., New York, Aug. 6, 1888.

I have used your Flax-Seed Emulsion Compound in a severe case of Mal-nutrition and the result was more than helped for—it was marvelous, and continuous. I recommend it cheerfully to the profession and humanity at large. M. H. GILBERT, M.D.

RHEUMATISM

Sold by Druggists, Price $1.00.

FLAX-SEED EMULSION CO.

35 Liberty St., New York.

The D&L Emulsion OF Cod Liver Oil AND THE Hypophosphites of Lime and Soda.

No other Emulsion is so easy to take.

Self Application of Electricity

FOR MEDICAL PURPOSES BY THE

DORENWEND ELECTRIC BELT

And Attachments.

THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliances. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a com etent electrician, and ranks as the best in the world; we defy anyone to bring proof to the contrary.

Do not cross this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you wish to experiment with cheap articles, buy THEM; but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. The Dorenwend Electric Belt and Attachment Co., C. H. DORENWEND, Electrician, 112 Yonge St., Toronto, Canada. eod-w

d100 M. CARTON.

Panicky Rumours.

This afternoon there were alarmist rumors abroad of from three to four new cases of diphtheria. There has not been a single case reported to the Medical Health officer, and as physicians are bound, under heavy penalty, to report promptly every case, there is no reason to suppose they are suppressing information. If they were any cases they would at once be reported.

Going to Chicago.

Mr. W. A. Sanderson, jeweller and optician, leaves for Chicago on the early train on Monday morning to complete the remainder of the course on optics upon which he has entered, at the Chicago Ophthalmic College. This will especially fit Mr. Sanderson for presiding over the optician department, which he is making a prominent feature of his business.

Sugar Beet Seed.

Mr. John A. Davidson, the EXAMINER learns, has received a supply of sugar beet seed to be distributed amongst members of the West Riding Farmers' Institute. It is to be hoped that the members will enter upon this matter with spirit and thus give assistance to a project which promises to be a thriving industry in Peterborough county, if there is united effort on the part of those chiefly concerned.

Cheap Croquet.

One hundred sets of croquet, 6 and 4 ball sets, just received at the Peterborough Bookstore to be sold CHEAP. First-class sets and prices away down. At the Peterborough Bookstore. dw

Cheap Croquet.

Another Good Horse Gone—to Toronto.

Mr. A. V. R. Young, American counsel, has sold his well known chestnut driving mare, Jennie Patchen, to Mr. Kilgour, of Toronto. It is understood the figure involved in the transaction was a large one, no little pot of money remaining in town as the equivalent of the excellent horse Mr. Kilgour takes away with him. He will find that Jennie, though an animal of very steady habits, can, if occasion requires, keep up her end of the whiffletree in "fast" company.

A Dominion Government Official Speaks.

The following copy of a postal card received by Gough Bros. the wonderful cheap men, is full of eloquence as to the quality and cheapness of their goods:

GOUGH BROTHERS:

GENTS.—Received your package of clothing and other goods all right and think it a very generous selection, the hat alone would be called cheap at two dollars and the clothes are a marvel for cheapness. Hoping you may succeed in the world as you deserve I remain yours very respectfully,

J. A. ROSEBERR, P.M.,
Glen-Alda, Ont.

Children Cry for Pitcher's Castoria.

A Doctor Dashed.

While the launching of the "Golden City" was in progress at Lakefield Thursday afternoon, the spectators witnessed something not down on the programme. Dr. Clarke was returning in his sailing canoe from a trip up the river where he had been visiting a patient, and when near Lakefield upset. Instantly a dozen canoes put out to his rescue, and the doctor was saved without any serious consequence following beyond the loss of his valuable case of surgical instruments.

St. Joseph's Hospital.

Report of St. Joseph's Hospital for month ending April 30 1891. 10 patients admitted 9 discharged, 11 remaining in hospital, 20 treated, pay patients 8, non-paying 12. Diseases—2 Opthalmia, 2 Iritis, 2 Measles, 1 Foot-bite, 3 Chronic Rheumatism, 2 Pneumonia, 1 Diphtheria, 1 Eczema, 2 Spinal Curvature, 1 Cystitis, 1 Cas foot, 1 Semphegia, 1 Odontitis. Physicians in attendance during the month were Drs. F. H. Brennan and King. Physicians in attendance on private ward patients were Drs. Goldsmith and Scott.

Matrimonial.

Intelligence has been received in town that the expected marriage of Mr. H. LeBrun to Mrs. John Hackett is an *fait accompli*. The ceremony took place at Watertown, New York, on Wednesday morning, April 29th, at 7 o'clock. Mr. and Mrs. LeBrun intend to spend their honeymoon in New York city, and will return to Peterborough in about a fortnight, when it is expected they will receive a most hearty and enthusiastic reception at the hands of the hosts of friends who will unite with the EXAMINER in extending the most cordial felicitations and heartiest good wishes. Both are deservedly popular and worthy of the happiness which everybody hopes the future has in store for them.

A High Toned Tramp.

Last night a unique specimen of the genus tramp landed in the police station. He asked for a nights' lodging—not that he hadn't money to go to a lodging house, but he said he was too clean to go into any of "them dirty hotels" and he preferred resting in the cells. This remark brought a smile to the faces of the policemen. The fellow was already so "clean" that there was not the remotest chance of any more dirt sticking to his ragged garments or unkempt person. However, his whim was gratified and he enjoyed the luxury of a scrupulously clean bed on the soft side of a carefully scrubbed plank.

The Nicholls Hospital.

Report for Nicholls Hospital for April, 1891:—Number of patients remaining in hospital 22, admitted during the month 16, total number treated 33, pay patients 10, free patients 23, town of Peterborough 29 other places 4, discharged cured 9, improved 1, died 2. D. Pigeon attending physician for April.

Donations for March and April.—Mr. T. Robinson, copies of *London Illustrated*; Mrs. Walter Barlow, copies of *Graphic*; Ormond & Nalsh, inhaler, sulphur fumigator and vaporizer; ladies Bernardo Home, copies of *Christian Herald*; Mrs. W. B. Ferguson, bundle old linen; Miss A. Hall, copies of *London Illustrated*.

The Siding Difficulty Settled.

It was a Misunderstanding on the Part of the C.P.R.—No Blockade Intended.

When the Town Council gathered last night the following telegram, which had been received about six o'clock, was read:—

TORONTO, April 30.

To James Stevenson, Mayor:

Understand Grand Trunk threatening to interfere with our Edison Company's siding in such a way as to prevent use of it. We will not permit this siding to be interfered with until new grade for it is built and everything arranged so that it will not be rendered unfit for use more than a few hours. Plan of proposed arrangement submitted by you is satisfactory, but Grand Trunk must carry it out in such a way as not to render siding unfit for use more than a few hours, as stated. Trust you will see this is so arranged and thus prevent trouble.

THOS. TAIT.

The councillors talked the matter over, and decided to refer the telegram to to the Edison company to make mutual arrangements with both lines to meet the views of all parties. It is not likely any further trouble will occur.

The C.P.R. Company acted precipitately in the matter, to say the least. They claimed that if a diamond had been put down at the crossing they would be satisfied, but as there was no diamond on the ground where their track was being torn up, they would not permit the Grand Trunk to tear up their rails and make a right of way through their track and thus block them out entirely. Tait's their version, but it would certainly be nonsensical to lay down a diamond when the crossing would only be used for a day or so at most. The town councillors say that Mr. Tait and the C.P.R. authorities knew well enough it was intended to deflect the C.P.R. siding to form a junction with the G. T. R spur at a point further on, and that that portion of the C.P.R. siding where the rails were torn up was to be entirely removed as soon as the junction was effected, when the two companies would use a common siding from the junction into the works. Mr. Tait's telegram shows that he knew the nature of the arrangements entered into between the town and the company, and the company's action yesterday is inexplicable, except on the supposition that they want to "squeeze" the town if possible or balk the Grand Trunk. However, the C.P.R. locomotive still stands guard at the crossing to-day but the navvies are at work shifting the fence and making a new road bed, a circumstance pointing to the shifting of the siding.

The Edison company are taking an interest in the difficulty and it is expected matters will be amicably arranged and work continued within a few days at most. The Edison company have several carloads of machinery and material awaiting transfer to their premises, and so are anxious to have the sidings completed. The carloads of machinery consisting of shafting, drums and pulleys have been moved on the Edison company's premises and are being unloaded at the main building.

LATEST FROM THE SEAT OF WAR.

This morning the following message was received from Milton, Ont.:

"Have instructed Roadmaster Mahoney to alter our siding to agree with proposed plan you sent me. As soon as this is done, and you guarantee that G. T. R. in making connection with our siding, will not prevent its use longer than one day, will give instructions to allow G. T. R. siding to be connected with ours."

(Signed). THOS. TAIT.

In the absence of Mayor Stevenson, Town Clerk Macdonald with the sanction of the councillors acted promptly, and showed the telegram to Mr. Macklin, of the G. T. R., who gave this promise:—

I will undertake on the part of the Grand Trunk Railway not to delay more than 24 hours' connection being made with the rails of our siding by the C.P.R. company, so as to give them within that time connection with the Edison company's Works.

Yours truly,
J. G. MACKLIN,
Chief Engineer.

This was wired to Mr. Tait, and a reply will be received by this evening, when it is probable the C.P.R. locomotive will raise the seige and allow work to be continued.

News Nuggets.

—According to the blue books the total amount expended from 1833 to June, 1889, on the Trent Valley Works is stated to be $1,060,609.

—At the police court this morning a young man given to drink was sent up to jail for a month as a vagrant, and a fine of $50 imposed on an admitted case of selling liquor contrary to section 50 of the liquor license law.

—House cleaning is a very fashionable amusement these days. Husbands are happy in spite of disordered households, for they have a chance to take it out in banging carpets with all the gusto they may feel.

—A handsome family monument of Bay of Fundy granite, says the Bobcaygeon *Independent*, has been placed in the cemetery by the Simp on estate, of South Verulam. The work was performed by the Coughlin Bros., of Bobcaygeon and Peterborough, and is creditable to that firm.

THROUGH EYE TO POCKET.

A Picturesque Appeal to the Popular Purse.

The Illustrated Lecture on Y. M. C. A. Interests—A Large Audience—Beautiful Views of Buildings—Rev. Mr. Johnson's Pointed Address.

The illustrated address by Rev. T. S. Cole, Travelling Y. M. C. A. Secretary, filled the opera house last night. Mr. Dumble occupied the chair and in a few brief remarks dealt with the objects and work of the Y.M.C.A., and its beneficial effects upon the young men of the town. The results it achieved herself formed the strongest of claims upon the liberality of the citizens in aid of the scheme for raising funds to complete the amount necessary for a new building, in order that the Association might have the best possible equipment for the discharge of its beneficent functions.

Then followed the Y. M. C. A. band in an excellently rendered selection.

Mr. T. S. COLE, Travelling Secretary of the Y. M. C. A. gave an address upon the subject of association buildings, which was handsomely illustrated by etho-ozo light and stereopticon views thrown on an 18 feet canvas screen by Mr. R. M. Roy. The views, were, to Mr. Roy's credit, singularly clear and beautiful.

Mr. COLE began by pointing out that Y. M.C.A. work was aptly called the business men's movement on account of the deep interest the solid business men of communities all over the continent took in the Y.M.C.A. enterprise, supporting its work both with sympathy and means. The speaker briefly sketched the origin of the Y.M.C.A. and its varying but steadily progressive fortunes up to the present time. The work had spread and thriven till now on this continent alone there were between 200 and 300 Association buildings, 1090 permanent secretaries giving their entire time to the work, and the several Associations had ten millions of dollars worth of property and an annual income of two millions devoted to the work of the Association.

THE VIEWS SHOWN

began with a few general views, ending with the words of that grand old hymn, "Coronation," at sight of which the whole audience burst into singing it with great fervour. Then followed views of Association buildings—Albany, N.Y., the gift of one man; Auburn, N.Y.; Brooklyn, New York, of which several views of the interior were very interesting. Then came the Buffalo building, and, to show the world-wide spread of the Association, a view of the Capetown, South Africa, Association building. A picture of Exeter Hall, England, was followed by one of the Milwaukee building, and one of the Newcastle, Pa., building. The Young Men's Institute, the Bowery, N.Y., branch of the Y.M.C.A., is devoted to young men of limited means and has no membership fees. The Philadelphia building cost $496 000. The Pittsburg, Pa. building view preceded that of the Racine, Wisconsin, building. The St. Johnsbury, Nova Scotia building cost $40,000, for a town of 5000 inhabitants. The Fairbanks family of scales notoriety and others presented the building to the association. A portrait of Lord Shaftsbury, for twenty years at the head of the Y.M.C.A. movement in England, closed the first part of the programme.

PURPOSE IN LIFE.

Rev. Mr. Johnson of Lindsay gave variety to the proceedings by interpolating at this point an address on "Purpose in life." He pointed the necessity of young men having a definite aim and purpose in life.

Young men were forcibly and eloquently enjoined to attend to the preparation for rendering a satisfactory account of the talents God had entrusted to them. The young man who did not serve God served self, which was but another form of Satan-service. Young men were not their own, but they were required to live for God; with the powers that God gave them they were to do the work of the hour, in the best manner, according to their ability, and in God's fear. The speaker pointed and concluded his address by sketching the life and labor of Livingstone, and Aaron Burr, as contrasting samples of the nobility and degradation respectively of the service of God and the service of self.

MORE VIEWS.

Other views of buildings were then thrown on the canvas, including those of Syracuse, N. Y., Wilkesbarre, Pa., Detroit, Mich., Minneapolis, (of which John A. Elliott, a Canadian is secretary, who held meetings in Peterborough in 1886.) Then came views of the buildings in Kansas City, St. Paul, Los Angeles, and Toledo. Then a skip to the other side of the world showed a view of the Sidney, New South Wales, building. The Cleveland building, with views of its interior, was succeeded by several other views. After a view of an Association building in Berlin, Germany,

VIEWS OF CANADIAN BUILDINGS

were given, beginning with two of the Toronto buildings. There were now, Mr. Cole said, fifteen buildings in Ontario. The Montreal building, which collapsed recently, was shown. A view of the building that "is to be" in Peterborough elicited loud cheers—"that is," said Mr. Cole, "when $7,000 is raised, to add to the existing fund of $15,000, to complete it free of debt." Mr. Cole said he would spend the next ten days in visiting citizens friendly to Association work, to solicit their co-operation.

The George and Murray street fronts of the building proposed were shown as well as the plans for the several floors.

Mr. Colville, the energetic local Secretary, on behalf of the Association, thanked all those who had assisted at the evening's meeting, which was closed by singing "God Save the Queen", and a very successful meeting it seemed to be. The speeches made, the views shown, must tend to arouse interest in and sympathy with the project of the new building and to the accomplishment of practical results of a satisfactory financial character. Every citizen has an interest in seeing a building erected at the corner of George and Murray streets that will be an architectural credit to the town, not to speak of its importance as a monument of the value which the people of Peterborough placed upon the healthy morality of the rising generation of men.

Personal.

Mr. Geo. G. Gladman, of Parry Harbour, is in town.

—The bathers' licenses are due to-day and Chief Reagel expects the butchers to do their duty without further notice.

Mr. E. B. Edwards, town solicitor, is in Ottawa to-day looking after the town's interest in the case of Leonard vs. the town of Peterborough.

A Wife Beater Punished.

Police Magistrate Edmison held court this morning for the trial of John Quinn, of Bridgenorth, accused of assaulting and beating his wife. The offence was committed Saturday night last. Quinn, according to the evidence elicited, is addicted to drink and possesses a violent temper. He has a bad record, having been twice previously convicted of other misdemeanors, and it is said he has often abused his wife. Be that as it may, the assault was proven in this case. It seems Quinn Saturday night asked his wife for $4, which she gave him, and he immediately bought whiskey. On going home again he quarrelled with his wife, and, according to the latter's story, tore her clothing and beat her badly. Mrs. Quinn took her baby and fled to her mother-in-law's house, and promptly took the stage to her paternal home in Bobcaygeon the same night. The following Monday she came to town, laid an information against her husband, and exhibited her bruises to a physician. There was no evidence to directly corroborate Mrs. Quinn's story, but Quinn himself admitted he drank so much liquor he got sick, and the magistrate considered that he could not have known much about his own actions and so placed faith in his wife's story. The defence, conducted by Mr. E. B. Stone, sought to show that, if there was any quarrel at all, Mrs. Quinn had provoked it by her bad disposition. The defendant was, however, convicted, and fined $20 and costs, in all about $38, or 2 months in gaol. Not having the money Quinn was committed. The prosecution in this case was conducted by Mr. R. E. Wood, C.C.A.

Vital Records.

During the month of April there were registered with the Division Registrar, 29 births (one for every day in the month except All Fools day), 21 deaths and 16 marriages.

MANY HAPPY RETURNS.

Bishop O'Connor's Second Episcopal Birthday.

Juvenile Congratulations and Rejoicings—A Delightful Scene at the Convent—The Sisters and Children Provide a Happy Hour.

To-day, May 1st, is the second anniversary of the episcopal consecration of Rt. Rev. Bishop O'Connor and the good sisters of the Convent were not lacking in loyalty to mother church and pastors and, it may be added to the public, at least, that portion of it which was honored with an invitation to the Convent hall yesterday and delighted with the hour spent there. The celebration that had been arranged in honour of his Lordship, took place at 4 o'clock. His Lordship of course was present, attended by Rev. Father Rudkins, his chancellor, Rev. Father Whibbs, Rev. Father Scollard and Rev. Father Nevin. Amongst those present as invited guests were:—Messrs Wm. Clarkson, Wm. Lech, C. Fessenden, headmaster Collegiate Institute, Taos. Kelly, Dr. Brennan, Jos. Griffin, W. A. Stratton, John Delaney, Jos. Begley, John Moloney, Jos. Primeau, T. Cahill, J. P. Hurley, J. B. Dunn, sr., E. Gough, R. W. Munnester, N. T. Laplante, F. J. Lynch, J. J. Lynch, Thos. Dunn, jr., and D. H. McDonald, Uxbridge.

The celebration was held

IN THE BEAUTIFUL NEW HALL

of the convent building which was ordered and beautifully ornamented for the occasion, with bunting in colors, evergreens, wreaths, living flowers, banners, etc. Two of the banners, one on each side, bore the reading: "*God bless our Bishop*" and

"MANY HAPPY RETURNS"

The space in the hall to the west of the entrance door was seated for guests, an elevated seat being provided for the Bishop in the middle. The opposite half of the room was seated for the children, and it was a beautiful sight to see the bright and beautiful ranks, of about 200 bright and happy little girls, all dressed in white, rising from front to rear, like the slope of a meadow mantled with snowy daisies, and the little folks were not only fair to look upon but they showed great proficiency in the performances of their parts in the subsequent proceedings. As His Lordship entered the hall the children and guests rose to their feet and four pianofortes *sans huit mains* boomed forth a glad and joyous entry march.

Then followed the beautiful welcome song, composed especially for the occasion, beautifully sung by the children, and the words replete with sentiments of congratulation, and respectful loyalty to their beloved pastor. Then followed several beautiful scenes and living tableaux, presented with artistic artlessness and very pretty picturesque effect by the little children. First came a presentation of flowers to the Bishop to the accompaniment of dialogue in song, the words being freighted with sentiments suited to the occasion. The scene was closed with a very effective chorus.

The next turn of the

KINDERGARTEN-LIKE KALEIDOSCOPE

was the entrance of a band of fairies, with pink pinions, that flattered into the room at the invitation of an equally juvenile chorus, and their little saltatory marching and counter-marching constituted a most charming feature. The little morsels of femininity sang their little solos in sweet piping voices and with perfect self-possession. The orthodox fairy ring was formed, and the conclusion of the pretty spectacle was the presentation of a mass of flowers, the joint contribution of the fairies, to his lordship, and a charming chorus. The training of these little girls must represent a great amount of skill and patience on the part of the sisters

To this succeeded a pianoforte sextette brilliantly performed, followed by a song and chorus, "Many Happy Returns," in which the excellently sung duets and the harmonious chorus were worthy of great praise, and spoke of careful and judicious training.

A beautifully worded address to Bishop O'Connor, read in a very pleasing manner by a young lady, was filled with gracefully expressed sentiments of respect, devotion and ardent wishes for happiness.

THE BISHOP'S THANKS.

HIS LORDSHIP thanked the children for the flattering sentiments of the address. He was happy to express his pleasure at meeting with them in their new hall. The words of praise to himself contained in the address could not justly be appropriated by himself. Unless the flock had followed the directions of the pastor there would have been no good results. The credit for progress made was due to the co-operation of the people with their pastors. He warmly congratulated the children on their beautiful, tuneful singing and graceful deportment, which showed that both their physical and mental, as well as moral, well-being was zealously looked after by the good sisters. It was a pleasure to the clergy to see the children show such marked improvement; they were also much pleased with the hall, and the entire, practically new building, for which the parents and trustees were to be thanked. He hoped the future conduct of the children would reflect the excellent training they had received at the Convent, and prayed that God's blessing might rest in the children in all their future.

Mr. CLUXTON was called upon for a few remarks. He said it was becoming to commemorate in this way the advent of His Lordship to Peterborough as it gave opportunities of looking back to see the milestones and to think upon the changes that had taken place in the short term of two years, in which, he said,

GREAT PROGRESS HAD BEEN MADE

The church property had been improved and beautified; a blessing had been bestowed upon the poor and afflicted by the erection of St. Joseph's Hospital the doors of which were open to members of any denomination of Christians. His Lordship presided over a prosperous church and a devoted people. We enjoyed peace and amity in the community and such gatherings as the present tended to increase this desirable feeling. He joined with those present in wishing his Lordship long life and happiness.

Mr. J. E. BELCHER the architect of the new building expressed his pleasure in noticing the very excellent acoustic properties of the hall which gave the audience an opportunity of hearing the beautiful music that had been given that afternoon.

Dr. BRENNAN made a few graceful remarks on behalf of the Separate School Board. He was greatly pleased with the beautiful and artistic display of the afternoon, which reflected the very highest credit upon the sisters, and the Conventual system of education—in all respects—religious, moral, æsthetic, physical and musical. Boys were born to travel the rough spots of life's journey, whilst the function of girls was to make life pleasant, and in this school they received the

RIGHT KIND OF TRAINING

to this end.

Mr. W. LECH said he was very proud of the exhibition provided by the good sisters. The sight of the little children in their clever performances had affected him very deeply.

A finely performed pianoforte sextette brought the afternoon's very pleasant events to a conclusion. His Lordship received the hearty personal congratulations of those present, which, earnest as they were, were certainly not more pleasing than the graceful, cordial and beautiful tribute he had received from the sisters and their bright band of embryo angels, the children of the convent school.

The Ecclesiastical Celebration.

At St. Peter's Cathedral the anniversary was signalised by special services. At 8 30 a large congregation had assembled and his Lordship celebrated pontifical high mass and assisted by very Rev. Father Brown V.S. Port Hope, as assistant priest; Rev Father Nevin as deacon; Rev. Father Conway of Norwood as sub-deacon; Fathers O'Connel and Kelly of Emmsmore and Douro, respectively, as deacons of honour; Rev. Father Whibbs, Master of Ceremonies, while the Cathedral clergy had places within the sanctuary. At the close of the service his lordship addressed a few words of thanks for the congratulations he had received, and commended his flock for its devotion and piety. Very Rev. Vicar-General Laurent, of Lindsay, arrived at noon to-day to pay his respects and congratulations to the Bishop, who was the recipient of numerous congratulatory messages by telegram and post. To-day being also the anniversary of the consecration of Bishop Dowling, the latter's message of felicitation had peculiar significance.

—There is danger in impure blood. There is safety in taking Hood's Sarsaparilla, the great blood purifier. 100 doses one dollar.

Young's Point.

(*From Our Own Correspondent.*)

Now that the close season for bass and muskinonge has come, local sportsmen had better be wary as our Dominion Fishery Inspector, has paid for a month's board in advance at the Carleton House. He is assisted by some half dozen "subs," and is bound to protect the finny tribe during the close season. From what source do all these "subs" draw their pay, or do they accept the position merely as a blind, so that they may enjoy the sport of handling a spoon themselves?

Honor roll for S.S. No. 6, Youngs Point for the month of April:—Fourth class—J. Walsh, A. Young, M. Young. Third class—L. Wright, G. Bicknell, K. Godfrey. Second class—L. Hockaday, C. Godfrey, J. Dever. Part II class—L. Godfrey, C. Wright, M. Walsh. Part I class—A. Cashmore, L. Davis, M. Young.

On Saturday afternoon last, the genial proprietor of the steamer "Mary Ellen" treated his friends to a trip to Burleigh—the first run made since the boat left the dry dock. About a score of friends availed themselves of the opportunity of seeing the lakes again, and a very enjoyable time was spent by all. In moving the machinery aft in the boat, a marked improvement is noticed, both in regard to accommodations, as also in steadiness and speed. The lakes are now clear of ice and everything is in readiness for the camping season—except the weather.

Mr. Wm. Keansley, late of the "Keansley House" Peterborough, having rented the Mount Julian hotel, formerly occupied by Mr. Jos. Wynn, took possession on Tuesday. His many friends here wish him every success in his new house.

Free to Ladies.

Every lady reader of this paper sending at once her address on a postal card will receive a free copy of the *Ladies'* (Picture) *Newspaper*, containing full particulars of their old fashioned English prize competition. Over $6,000 00 in prizes will be given away between now and June 1st, with special daily prizes of value for each locality. The *Ladies' Newspaper* is one of the largest and most profusely illustrated publications in Canada, and the competition offered by them is to be conducted in a strictly honourable manner, without partiality to persons or locality. Anyone can secure a good prize by a little work. No cheap presents will be given. It costs you nothing for full information and a sample copy, if you send at once. Address: The *Ladies Newspaper Co.*, Canada Life Building, Toronto, Ontario. d73-w14

A Pleasant Herb Drink—A Spring Medicine.

The druggists tell us that people call daily for the new cure for constipation and sick headache discovered by Dr. Silas Lane. It is said to be Oregon grape root (a great remedy in the far west for those complaints) combined with simple herbs, and is made for use by pouring on boiling water to draw out the strength. It sells for 50c. and $1 a package, and is called Lane's Family Medicine. dw

Dyspepsia

Intense Suffering for 8 years—Restored to Perfect Health.

Few people have suffered more severely from dyspepsia than Mr. E. A. McMahon, a well known grocer of Staunton, Va. He says: "Before 1878 I was in excellent health, weighing over 200 pounds. In that year an ailment developed into acute dyspepsia, and soon I was reduced to 162 pounds, suffering burning sensations in the stomach, palpitation of the heart, nausea, and indigestion. I could not sleep, lost all heart in my work, had fits of melancholia, and for days at a time I would have welcomed death. I became morose, sullen and irritable, and for eight years life was a burden. I tried many physicians and many remedies. One day a workman employed by me suggested that I take Hood's Sarsaparilla, as it had cured his wife of dyspepsia. I did so, and before taking the whole of a bottle I began to feel like a new man. The terrible pains to which I had been subjected, ceased, the palpitation of the heart subsided, my stomach became easier, nausea disappeared, and my entire system began to tone up. With returning strength came activity of mind and body. Before the fifth bottle was taken I had regained my former weight and natural condition. I am today well and I ascribe it to taking Hood's Sarsaparilla."

Intense Suffering

8 Years

N. B. If you decide to take Hood's Sarsaparilla do not be induced to buy any other.

Hood's Sarsaparilla

Sold by all druggists. $1; six for $5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

BUY A HOME!

Stop Paying Rent! Be Your Own Landlord!

WE OFFER FOR SALE BY PUBLIC AUCTION ON

MONDAY, 11th MAY, 1891, at Three p.m., on THE GROUND

Lots on Romaine Street. Each Lot is 33 ft. by 220 ft. Soil high and dry, sandy loam. Ten minutes walk from the Edison Works, Peter Hamilton Works, the Carbon Works, and the Bridge Works. The new Electric Car Line will touch this street, and George and Aylmer Streets will be opened through to the Fair Ground.

To secure a respectable street the deeds will contain a clause compelling the purchasers when they build to erect uniform distance from the front, and that the houses when built shall not cost less than $600. These lots are double the depth of the ordinary town lot and are fine for gardening. This is the finest property in the market and one which will afford the best building lots to be had at low prices. These are only lots left on the south side of the street. Lots in the neighborhood one half the depth sell at $3 to $10 per foot frontage, while these lots are 220 ft. deep and will be sold for what they will bring. The lots while sufficiently near the great factories, are close to George street, and being off the main, are clean and healthy.

Ten years will be given for payment. $5.00 on the $100 down; $5.00 on the $100, in one month; $10 on the $100 in 3 months, then a free deed will be given and mortgage taken back for the remainder of the purchase money, payable in 9 equal annual payments with interest at 6 per cent. Five per cent. discount will be allowed for cash. For further particulars

SHINGLES!

VOL. XII. NO. 103. PETERBOROUGH, SATURDAY, MAY 2, 1891. PRICE TWO CENTS.

CASH HARDWARE STORE.

On and after 1st April we shall do business on a **Cash Basis.**

To cover the inevitable **loss** attendant upon a credit business, which accrue from amount of time spent in keeping accounts, collecting, bad debts, interest account, and in numerous other ways, larger margins of profit must be asked.

In these times cash buyers ask, expect, and are entitled to close prices. A careful consideration of the subject convinces us that the time has come for a cash business done on smaller profits.

The only customers who may possibly be put to inconvenience are those who have had long credit. In more ways than one it will be to their advantage to pay cash.

For convenience of our old customers who consider their accounts due when presented, we will call 30 days cash and render all accounts the first of each month, and we wish to say that will be happy to do business with them on these terms.

As the new departure is something of an experiment, what would be considered a close cash price will be made all through the stock. Not a few leaders only, but a general reduction in everything from the fourth flat to the cellar.

Our idea is to perform more than promised rather than promise more than can be fulfilled.

Our stock is large and varied, consisting of **Builders', Contractors', Household, Mechanics', Painters', Shoemakers', Farm, Mill, Factory, Lumbermen's, Sporting, Threshers', Cabinet-makers', and other lines of Hardware.**

An old saying:—"You should go to Kingan's where you can get anything from a Needle to an Anchor."

SEVENTH PARLIAMENT.

DEBATE ON THE ADDRESS IN REPLY TO THE SPEECH.

Pen and Ink Sketches of Some of the Members—A Gay Scene in the Chamber—The House Sits Until Nearly Midnight;

OTTAWA, May 1.—May-day was a glorious one as far as the Capital was concerned. The weather was bright, warm and invigorating with a short downfall of rain in the afternoon. The real business of Parliament also opened auspiciously.

Mr. Laurier conceded in his address that the Government had a slender majority. Mr. Laurier was in good trim.

Sir John's reply was not up to his usual mark. He did not appear out of sorts. He was as brisk as ever but he has made thousands of better speeches and few poorer ones. He is evidently depending on Foster, Sir John Thompson and Chapleau to do the debating work of the Government.

The House was well filled. Sir John was as racy as ever and wore a lily in his lappel. Mr. Laurier brought out another of his pattern waistcoats in honor of the occasion. Prefontaine of the Hyacinthine Locks picked his teeth with a pocketknife, Dr. Montague trotted out a white plug of ancient lineage and the whole brood of members seemed to look at the affair as a kind of national circus.

After the formalities of the day, Sir John turned round and, looking at a handsome young man three seats behind him, said audibly, "Go on." Amid the plaudits of both sides, Mr. Hazen of St. John, N.B., arose. He is a little over 30. He was dressed in black clothes, small black tie and gold shirtstuds. His features are pleasing and his forehead a noble one. His voice is strong and youthful and he knows how to use the rising inflection, so rare in those who aspire to Parliamentary elocution.

The House met at 3 o'clock promptly. A large number of petitions were presented, including several in favor of prohibition and better observance of the Lord's Day.

The Address in Reply to the Speech.

Mr. Hazen rose at 3:25 to move the address in reply to the Speech from the Throne and was greeted with hearty applause. After asking the indulgence of the House, he proceeded in a pleasant manner to discuss the speech, clause by clause, prefacing his remarks with the statement that in a young and vigorous country like this it was well that legislation should be progressive. He referred to the visit of the tenant farmers last year, and thought that the effect of the spreading of this report will do more good than the efforts of a hundred immigration agents and would no doubt assist materially in the development of the Northwest. He read a short extract from one of the reports and in glowing terms dwelt on the glorious future of the Northwest. Mr. Hazen approved of the policy outlined in the speech with reference to the proposed conferences to Washington, and while advocating a reciprocity treaty on the lines of the old treaty strongly deprecated any approach to annexation or any policy which would tend to loosen the bonds which bind us to the Mother Country. In touching on the renewal of the modus vivendi, he called attention to the destructive manner of herring fishing in some parts of the Maritime Provinces, where small herring were caught in great quantities to be packed as sardines.

Mr. Corbould followed in a speech of ten minutes' duration, in which he touched on some of the points in the speech, aspect in British Columbia caused some amusement by stating that out of the six members returned from that province two were elected by acclamation to support the Government. In three cases the Opposition candidates lost their deposits, and in the sixth case two supporters on the Government ran against each other.

Mr. Laurier, after paying the usual compliments to the mover and seconder, referred to the omission of any statement as to the cause of the dissolution of Parliament. He pointed out that no intimation was made of any intention of repeating the election law and nothing was said about Atlantic mails. He said he was confident that if Sir John would repeal the Gerrymander Act, revise the voters' list and try the election over again the Opposition would win.

Sir John Macdonald speaking, with respect to the mails being carried by way of New York contended that for some time past the Canadian service had been so inadequate that two-thirds of the mails from Canada went by way of New York before the expiration of the contract with the Allans. The Government had made every effort to secure an efficient service, but so far had not been successful. He hoped, however, very soon to be able to announce that a satisfactory arrangement had been made which would give a first-class service to the St. Lawrence in summer and Halifax in winter. [Applause.] He (Sir John) denied that the Government was in a minority in Ontario, and said that if some friends had fallen in battle most of them would have a glorious resurrection. He touched on the question of negotiation with the United States, and said that the Government had taken advantage of an opportunity to have a friendly discussion and he anticipated satisfactory results.

Sir Cartwright followed and spoke up to 6 o'clock.

THE ACCIDENT RECORD.

Sad Death of a Young Boy at Thornbury—Thrown From a Vehicle and Killed

THORNBURY, May 1.—Mr. and Mrs. Edward Burns attended the funeral of a relative, leaving their little four-year-old son Wilbur in the care of his grandmother. The little fellow, who was playing around the yard, was last seen about 1 o'clock. Shortly after this he was missed and on search being made he was found about 4 o'clock, a few yards from the house in a post hole, containing about six inches of water. Life was extinct. Death was caused by suffocation.

Fatal Runaway Accident

ORILLIA, May 1.—Mrs. Bidwell, wife of the section foreman on the C.P.R. at Longford, was driving towards Orillia with her 10-year-old son and had got close to Ralston's nursery when an outgoing train came puffing up and frightened the horse. The animal started to run, stopped suddenly and started again, throwing Mrs. Bidwell over the sideboard and the wagon passed over her. It was found that her spine was fractured that she otherwise was hurt internally. She died next day.

ONTARIO LEGISLATURE.

MOWAT TO GET $7000 AND MEREDITH $2000 ANNUALLY.

In Recognition of Their Distinguished Services to the Province—An Increased Indemnity for Members Which was not Granted.

TORONTO, May 2.—This resolution was unanimously carried in the House yesterday:

In view of the onerous and important duties performed by the Honorable the Attorney-General as Premier of the Province, this committee of the whole House is of opinion that the salary of the office held by him is inadequate and should be increased to $7000 per annum, said increase to date from Jan. 1, 1891.

Mr. Guthrie in moving the resolution was frequently applauded as he eloquently referred to the services of the Attorney-General. The time had arrived, he said, when they should do a simple act of justice and offer the Attorney-General some better recognition of his inestimable services to the Province. In eologising his works Mr. Guthrie referred to his singular amiability, remarkable ability and unfailing courtesy. No one could say he received adequate compensation. He could retire to private life and by his practice make an income twice as large as that proposed. The leader of the Opposition could not take the position without a financial sacrifice. Ontario was much behind other colonies in its treatment of public men. Australia, Victoria and New South Wales paid their premiers $10,000 a year. Cape Colony paid $8000 or $9000. Ontario did not pay the premier what was paid the judges or the subordinate officials of the Dominion. The motion was loudly applauded by both sides of the House.

Mr. Marter in seconding the resolution paid a brief tribute to Mr. Mowat's services and remarked that, although they differed politically, he always felt a spirit of kindness towards the honorable gentleman.

The motion was then carried, Mr. Waters alone dissenting. The former salary was $5,000.

Mr. Mowat said he hoped no one would imagine that he had the remotest idea that such a proposition would be made. He was extremely grateful to Messrs. Guthrie and Marter for their kind words. He did not know that the resolution would be acted upon, but felt just as grateful as if he were the recipient of the salary voted.

Mr. Conmee, with his broadest smile, sprang the next surprise, this time on Mr. Meredith. He moved that:

In view of the fact that the duties of the leader of the Opposition require constant and diligent application regarding all measures and legislation passing through the House, made all the more necessary on account of the province having but one chamber, this in the opinion of this committee only just and equitable that his sessional allowance should not be less than $3000 per annum.

Mr. Caldwell, in seconding the resolution, said he often wondered why the Opposition leader received no larger indemnity than an ordinary member. It was only fair and just that he should receive more.

Mr. Waters again protested against an increase. To increase the indemnity of the leader of the Opposition, he thought, was without precedent and unjust. The motion, however, carried with the same degree of unanimity as the former one.

Mr. Sol. White introduced the greatest surprise of all and, in view of the subsequent discussion, a disagreeable surprise. After remarking that he was sure his motion would commend itself to every member of the House he moved, seconded by Mr. Field, that:

In the opinion of this committee the indemnity of the members should be increased to $800.

"If I had my say," added Sol., "I would make it $1000." This proposal to increase the sessional indemnity by $200 met with strong opposition.

Mr. Waters was astounded at this proposition. "If you had advocated an increase last June, precious few of you would be here to-day. I solemnly protest against this measure." Mr. Gibson (Huron), Mr. O'Connor, Mr. G. B. Smith, Mr. H. E. Clarke, also opposed it.

Mr. Fraser said that if there was a general desire that the first two propositions should meet with hearty approval, they should not attempt to load down either of them with such a resolution. Would not the people think that it was a scheme to stroke down the leader of the Government and the leader of the Opposition and then bag the plunder.

Mr. Guthrie declared that the resolution detracted from the character of the resolutions passed regarding Mr. Mowat and Mr. Meredith.

Mr. White, in withdrawing the resolution, said he was not treated in a manly fashion, for when he was asked to move the resolution he was told there was a general feeling in favor of it "I don't care whether I come back here or not. If the people in my constituency don't think me worth more than $600 they can get someone else."

Supplementary estimates brought down yesterday provided $250 for a fellow in engineering (half year) at the School of Practical Science and $2500 for the Teachers' International Convention.

Letters patent have been issued incorporating "The T. Eaton Company," with a capital of $500,000.

Joe Tait withdrew his bill last night respecting undertaking, embalming and organic chemistry.

The City of Toronto Bill was read a third time and passed. Mr. E. F. Clarke moved to restore the provisions of the McDougall scheme, struck out by the Private Bills Committee, but the motion was defeated on a vote of 32 to 41. Messrs. Balfour, Biggar, O'Connor, McMahon and Gibson (Hamilton) voted in favor of the restoration.

The House will meet again this morning at 11. Prorogation will take place Monday.

A return was presented to the House yesterday showing the net earnings of registrars for 1890 after deducting their disbursements in connection with the fees for salaries as well as the sums payable to the municipalities. The incomes derived were: In Algoma $485, Brant $2586, Bruce $2242, Carleton $4375, Dufferin $3825, Dundas $1104, Durham East $240, Durham West $965, Elgin $2650, Essex $3366, Frontenac $1295, Glengarry $911, Grenville $1101, Grey North $3133, Grey South $1529, Haldimand $1305, Halliburton $332, Halton $1579, Hastings $3008, Huron $3467, Kingston $838, Kent $4438, Lambton $5136, Lanark North $827, Lanark S. $1515, Leeds $2305, Lennox and Addington $1213, Lincoln $2524, London $3227, Manitoulin $397, Middlesex North $2369, Middlesex West $1562, Muskoka $1116, Nipissing $353, Norfolk $2194, Northumberland West $1067, Ontario $3731, Ottawa East $4[illegible], Oxford $2469, Perry Sound $441, Peel $2177, Perth North $[illegible], Peterboro $2254, Prescott $1716, Prince Edward $1052, Rainy River $630, Renfrew North $[illegible], Russell $1592, Simcoe $4893, Stormont $1729, Thunder Bay $1118, Toronto East $5721, Toronto West $4275, Victoria $2197, Waterloo $3119, Welland $1852, Wellington North $1635, Wellington South and Centre $2112, Wentworth $3697, York East and West $3[illegible], York north $1541. The amounts payable to municipalities by registrars for 1890 were about $41,000, including $5562 from Toronto East, $4808 from Toronto West, $4954 from York East and West.

Mr. Gibson in moving the third reading of the bill to amend the Ontario Insurance Act, said that it contained clauses restricting the business carried on by companies from abroad as insurance or mutual endowment companies, which in many cases entered into obligations which they were unable to carry out. When similar legislation was introduced last session existing companies strongly protested, but if they had anticipated the present competition they would gladly have accepted it. In view of the wide-reaching character of the business, he decided to drop the clauses this year and to bring in a more comprehensive measure next session. The clauses were accordingly struck out.

MANY MAY DAY RIOTS.

ITALIAN AND FRENCH ANARCHISTS CAUSE TROUBLE.

The Crowds Charged By Gendarmes and Soldiers and Many Killed and Wounded—At Lyons a Cannon Has to be Drawn Upon the Square to Intimidate the Rioters.

LYONS, May 1.—A number of very exciting scenes were witnessed here to-day. A crowd of workmen, followed by large numbers of women and children and bearing red cards containing various sentiments in reference to the rights claimed by laboring people, attempted to hold a procession. The authorities had decided to prevent marching, and as the workmen refused to disperse the police attacked them. The workmen made a desperate resistance and a general melee followed. A policeman was seriously wounded. The noise of the conflict attracted a great crowd and the workmen were soon reinforced by many others. The police being unable to cope with increased force of workmen, cavalry were despatched to the scene. The horsemen charged upon the workmen who assailed them with volleys of stones. The workmen were unable to withstand the combined attack by cavalry and police and retreated sullenly and with defiant shouts. A number of arrests were made and several prisoners were heavily armed.

Subsequently the mob marched to the cemetery headed by men carrying black and red flags for the purpose of holding a demonstration over graves of those who lost their lives in former riots. The authorities again appealed to the military for aid in dispersing the crowd, a force of cuirassiers charged upon the people. The mob resisted repeated charges and desperately disputed every inch of ground. Showers of stones and other missiles were hurled at the soldiers several of whom were seriously injured before they cleared the burying ground of the mob. The crowd again formed in procession and marched back again to the city defiantly denouncing the authorities and singing "La Carmagnole" in a grand chorus. When the rioters reached the city they savagely attacked the police, overcame the officers and broke through the cordon which they had established. Again the cuirassiers were called upon to disperse the rioters. The soldiers charged upon the mob and the latter were forced to retreat. The fighting between the rioters and the police and military has caused the greatest alarm among the people of this city, and the excitement intensifies every hour. The police are powerless to control the howling mob who have become more defiant than ever. The authorities have summoned additional reinforcements of soldiers for protection of the city. The rioters have cut the telephone and telegraph wires and are holding uproarious meetings at workingmen's headquarters, where Anarchist speakers are vociferously inciting the maddened men to commit further acts of violence. A dense crowd surrounds the labor exchange, which building the soldiers have cleared of all persons at the point of the bayonet. The military are taking every precaution to subdue the mob and have brought a cannon to the place for the purpose of intimidating them. A mass meeting of workmen has been called for 9 o'clock this evening. The place selected for the gathering is the principal square of the city. The authorities have determined to use every means to control the unruly crowd that is expected to be present.

BORDEAUX, May 1.—Several attempts were made by workmen to parade to-day, but the workmen were dispersed. Many arrests were made.

PARIS, May 1.—A number of Socialists, headed by Cunningham Graham, who tried to parade to-day were dispersed by the police, who warned Graham that he would be arrested if he again attempted to form a crowd.

ROME, May 1.—A meeting of workingmen took place this afternoon near the Church of San Giovanni. There were five members of the Chamber of Deputies present. An Anarchist speaker violently urged the assembled men to attack the police. The speaker's words so excited his hearers that soon after the mob stoned the troops stationed in the neighborhood. Some rioters hurled stones at the troops from the windows of the houses. The gendarmes fired upon the rioters, and the cavalry charged upon those who had not been put to flight by the gendarmes' fire. At the same time the infantry soldiers near the scene were ordered to storm the houses from which the stones had been thrown. A terrible uproar followed. When matters had calmed down somewhat it was found that Sig. Barzilai, a member of the Chamber of Deputies, Sig. Cipriana, a Socialist leader, and 25 others had been wounded. One man was killed outright by the gendarmes' fire. A gendarme was stabbed to death by the rioters. During the cavalry charge several troopers were unhorsed and were trampled upon and kicked by their comrades' horses.

FOARMES, France, May 1.—There was a bloody collision between miners and the police here in which 7 were killed and 12 wounded.

A mob attacked the mairie this evening, in an attempt to rescue imprisoned comrades, and wounded two soldiers. The troops opened fire and three men fell dead. The mob then fled.

PARIS, May 1.—A mob threatened the police station at Clichy and gendarmes sallied out to disperse the crowd. The mob took refuge in a wine shop, which they barricaded. The police attempted to dislodge them and were met by a volley of revolver shots. Four policemen were wounded.

CHICAGO, May 1.—With the exception of Iowa, where the miners in nearly all the coal fields have quit work, advices from numerous northwestern mining and industrial districts indicate that there was no concerted movement on the part of the laboring classes looking to the adoption of the eight-hour day.

NEW YORK, May 1.—Ten thousand Hebrews belonging to various trades unions celebrated May-Day here with a parade. Fully 12,000 people attended an 8-hour day mass meeting of the various labor organizations to-night in Union square. Twenty-five labor organizations were represented. The numerous bands played tunes that have liberty as their theme. All the flags displayed were red except one and that was blue. Not an American flag was in the lot. The organizations represented included cigarmakers, bakers, waiters, confectioners, tailors, brewers, food producing trades and the clothing industry.

The meeting was under the direction of the socialistic labor party and the Central Labor Federation. Lucien Daniel called the meeting to order. He said the working classes must have the eight-hour day. He severely denounced the judge before whom Joseph Barondess was to-day found guilty. He also denounced Chauncey M. Depew. August Dalaher also denounced capitalists. Other speakers followed in the same vein. The meeting adopted resolutions in favor of the eight-hour day and urging all wage-workers to rally under the socialistic labor party.

Other Labor Troubles at Home and Abroad

Six thousand railroad miners of the Pittsburg district went on strike yesterday, pending an adjustment of wages. The strike has nothing to do with the eight-hour question.

The trouble between the union and non-union men on the lumber docks of Woods, Jenks & Co. at Cleveland, O., culminated this morning in an attack by union men and several members of the company were brutally beaten by clubs and had to be taken to their homes in ambulances.

There were no strikes in any of the Pennsylvania coal regions.

Socialists, headed by four Russian women, bearing a red flag, paraded at Geneva, Italy.

The proposed general strike of the Pennsylvania bituminous miners, scheduled for yesterday, was indefinitely postponed.

Perfect order prevailed in Vienna, Austria, despite the fact that 40 meetings of workingmen were held in different parts of the city.

At Marseilles, France, yesterday, cavalry found it necessary to charge a mob, which quickly scattered.

Four thousand Socialists attended a meeting at Madrid and advocated an eight hour law. No violence was attempted.

Specials from Newcastle, Erie, Washington, McKeesport, Braddock and other western Pennsylvania and near-by Ohio towns indicate a general strike among the carpenters, stonemasons and bricklayers.

There is no strike in West Virginia section. Everything is moving as usual in the coal mining districts.

A coal miner's strike was inaugurated in the Duquvin, Ill., district for 8 hours and weekly pay.

About 4000 housesmiths went out in New York, Brooklyn and Jersey City. Six hundred framers will return to work to-day, having secured their terms and about the same number are out.

Trades unions 10,000 strong demonstrated at Chicago. Everything was quiet and peaceful.

DEATH OF MR. PURCELL.

The Millionaire Ex-M.P. for Glengarry Passes Away in Nova Scotia.

CORNWALL, May 1.—P. Purcell of Summerstown, ex M.P. for Glengarry, died at Annapolis, N.S., this morning. The remains will be interred at Flanagan's Point, east of Cornwall, Tuesday at 2 p.m. Mr. Purcell's wealth was estimated at about $1,000,000.

Deceased was born in Glengarry May 1, 1833, and consequently was 58 years old the day of his death. He married Isabella, daughter of Angus McDonald of Glengarry. For years he has been a railway and canal contractor and constructed St. Peter's Canal, N.S., section 21 of the Intercolonial Railway, 250 miles of the C.P.R. west from Port Arthur and several other important railway and canal works in Canada and the United States. He only served one term in parliament, retiring at the last general election.

SUICIDES OF A DAY.

An Adelaide Farmer Drowns Himself in a Well—Deliberately Stood in the Water and Drowned.

STRATHROY, May 1.—James Fraser, a well-to-do-farmer, living on the town line of Adelaide, committed suicide about 11 o'clock to-day. He tore off the covering of the well on his own place and jumped in, sinking in about 20 feet of water. His wife saw him and gave the alarm, but before any help could reach him he sank to rise no more. For the past three months he has been somewhat deranged in his mind and has been watched closely by them. He made an attempt to take his life about six weeks ago by cutting his throat with a razor and ever since has been in rather low spirits. Deceased was married and about 50 years of age. He leaves his wife, two sons and three daughters.

Thought He Had Lived Long Enough.

TWEED, Ont., May 1.—A man named James Baker of Lime Lake took a tablespoonful of Paris green and died from its effects. He was nearly 92 years old, and it is said was tired of life and wanted to die.

James Gillespie's Body Found.

INNERKIP, May 1.—The body of James Gillespie was found to-day at about 3 p.m. by William Brown, one of the large party which has been scouring the county for nearly two days in search of the missing man. The body was found in Hagey's pond, a sheet of water of about 30 acres extent, and nearly four miles from Innerkip. The body was about 40 feet from the shore and standing erect in the deep mud, which everywhere covers the bottom of the lake. There was only about two feet of water above the head. It was apparently a most determined case of suicide, as a heavy plow point and piece of rock were found inside the clothes.

SUNK IN THE IRISH CHANNEL.

The Captain and Two Stewards Drowned—A Boatload Missing.

LONDON, May 1.—The steamer Drumburlie, bound from Glasgow to Bombay, has foundered in the Irish Channel. The captain and two stewards were drowned. A boat containing 11 of the persons who were aboard the steamer is missing.

Collapse of a Railway Bridge.

LONDON, May 1.—While the Brighton express, crowded with people on their way to business in the city, was crossing the bridge on its way to Norwood, about seven miles south of London, this morning the structure collapsed and six of the rear carriages fell into the bed of the shallow stream beneath. The carriages were smashed to atoms and very many of the passengers sustained most painful injuries, but no one was killed.

An Altar in His Bedroom.

HALIFAX, May 1.—A little over two weeks ago there arrived here on one of the English steamers a man who registered at a big hotel as a clergyman from Ilfracombe, England. It was generally understood he was an Episcopal clergyman. He was ritualistic in his ideas and is known to have had arranged in his room an altar, at which candles were kept burning and before which he was repeatedly seen to be on his knees as if in devotion or prayer. St. Luke's was among the churches visited by him, and yesterday some articles of value were missed from the altar. Suspicion attached to the clergyman from England and a search of his room was made, which resulted in the finding of the missing articles. The man was arrested, but later the matter was dropped and he was released. It is thought by some that the "reverend" gentleman's mind must be demented, as he is evidently a well-educated man.

Lives Lost in New York By an Explosion in a Fireworks Factory.

NEW YORK, May 1.—The fireworks factory of George Kramer at 63 Union-avenue caught fire this afternoon from an explosion of powder. Three employes were burned to death; Lizzie Hammond, 19 years old; Mamie Lynch and Jennie Hoadley, each 17 years. George Florence, 40 years old, and Lottie Horn, 14 years old, were severely burned. The damage amounted to only $6000.

To be Buried Alongside His Victim.

SHERBROOKE, Que., May 1.—Advocate Pillet of Montreal has just arrived from Quebec bearing with him the order in council signed by the Lieut.-Governor ordering that the body of Remi Lamontagne, hanged for the murder of his brother-in-law, be given into his charge for removal to the cemetery at Wolfstown.

Everybody Knows

That at this season the blood is filled with impurities, the accumulation of months of close confinement in poorly ventilated rooms, workshops and tenements. All these impurities and every trace of scrofula, salt rheum, or other diseases may be expelled by taking Hood's Sarsaparilla, the best blood purifier ever produced. It is the only medicine of which "100 doses one dollar," is true.

ATTRACTIONS IN

DRY GOODS

AT

TURNBULL'S.

The change in the weather has brought with it a great demand for Millinery, also for Spring Shades in Dress Goods. Our store was never more attractive in these lines than at present. We have every new and desirable shade in stock with Millinery to match. If you are in town this week, have a look at our Grey Dress Goods and Millinery Window. Large Grey Checks for young people to be made up alone or mixed with Black. Small Black and White Checks and Stripes (broken patterns,) for older people. Goods that are hard to find, in neat patterns.

We justly claim to take the lead in our Tailoring Department for quality of goods, fit and price. We get up a splendid suit, in Halifax tweed or navy serge, for $12.00. Fine grades of Almonte and other makes of tweed for $13.00, $14.00, $15.00 and $16.00. Scotch tweeds and serges from $16 to $20 for the best. Fine all Venetian finish or diagonal cords for coat and vest, with black or fancy pantings to match, at from $19 to $22 a suit. Remember our prices. Call and see our stock, and do not pay a great deal higher figure through force of habit.

We have added this week to our already attractive stock of Boys' Clothing, another shipment just turned out of the manufacturers' hands, neat and new styles.

We show now an immense range of patterns in cottonades and shirtings, in the best quality.

We also keep all the lower lines, beginning at 5c. for shirtings and 12½c. for cottonades.

We have an opening now for an apprentice in the millinery department. Apply until Saturday.

SUN LIFE

ASSURANCE COMPANY OF CANADA.

The attention of our Policy-Holders is directed to the following summary of the leading items of the present report, which speaks for itself as to the progress and prosperity of the Company:—

Life Assurances in force, 1st January, 1891	$16,759,335 92
Increase over previous year	3,421,372 84
New Applications received in 1890	6,371,599 15
Increase over 1889	2,268,884 60
Cash income for year ending 31st December, 1890	889,078 87
Increase over 1889	325,938 35
Assets at 31st December, 1890	2,473,514 19
Increase over 1889	347,691 47
Reserve for Security for Policy Holders	2,109,282 68
Increase over 1889	367,732 71
Surplus over all Liabilities and Capital Stock	232,175 69
Increase over 1889	75,619 05
Death claims fallen in during 1890	143,961 65

The progress made by the SUN LIFE during 1890 was remarkable. The new business was the largest in the Company's history, and was equalled by but one other Canadian Life Company. The income for the year exceeds $2 000 for each day in the year, Sundays included. The Assets are large and rapidly increasing. They are, moreover, of the highest character, yielding an average interest of 6 04 per cent. The over-due interest is small and the Real Estate owned under foreclosure is only four per cent. of the amount of mortgages. This is a remarkable showing. The SURPLUS accumulated during the FOUR years of the current quinquennium is nearly THREE TIMES as much as the amount earned during any previous FIVE years, and the profits to Policy-holders cannot fail thus to be highly satisfactory. The following are the figures:—

Net Surplus, 31st Dec., 1881, (five years)	$64,824 07
" " " " 1886, "	89,452 97
" " " " 1890, (four years)	232,175 69

O. C. Rowse.

ROWSE'S

365 GEORGE STREET.

We want to talk to you for a few minutes [illegible] Rowse is now located at [illegible] Store, we are able [illegible] Goods [illegible] We want you to inspect our [illegible] 25c per pair. If you call [illegible] very cheap. Also [illegible] would cost $1.25, which would be quite [illegible] to purchase one pair for 50c. [illegible]

The people are talking about Rowse's Gents and Rowse's Prices. One of our customers said the other day, "I AM of the opinion of Mulholland and Roper when you [illegible] goods and your prices." Well, we wonder, we give them something worth talking about.

Towels, table Linens, napkins, [illegible] quilts, all cost money, but if you want to save money in buying them go and see Rowse in his new store

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

ARE NOT a Purgative Medicine. They are a BLOOD BUILDER, TONIC and RESTORATIVE, as they supply in a condensed form the elements actually needed to enrich the Blood, curing all diseases arising from Poor and WATERY BLOOD, or from VITIATED HUMORS in the BLOOD, and also invigorate and BUILD UP the Blood and SYSTEM, when broken down by overwork, mental worry, dissipation, excesses and indiscretions. They have a SPECIFIC ACTION on the SEXUAL SYSTEM of both men and women, restoring LOST VIGOR and correcting all IRREGULARITIES and SUPPRESSIONS.

EVERY MAN Who finds his mental faculties dull or failing, or his physical powers flagging, should take these PILLS. They will restore his lost energies, both physical and mental.

EVERY WOMAN should take them. They cure all suppressions and irregularities, which inevitably entail sickness when neglected.

YOUNG MEN should take these PILLS. They will cure the results of youthful bad habits, and strengthen the system.

YOUNG WOMEN should take them. These PILLS will make them regular.

For sale by all druggists, or will be sent upon receipt of price (50c. per box), by addressing THE DR. WILLIAMS' MED. CO. Brockville, Ont.

The Daily Examiner is delivered to any part of the Town for 10c. a week, 35c. a month, $2.00 for six months.

Daily Examiner.

SATURDAY, MAY 2, 1891.

At the annual convocation of McGill University in Montreal on Thursday Principal Dawson hoped the day was not far distant when there would be a college in connection with the university for the professional education of women.

THE tonnages of the vessels passing through the Sault Ste. Marie Canal last year was 22 per cent. greater than the tonnage of vessels passing through the Suez Canal. The traffic of the Suez Canal for 1890 was 2,389 vessels registering 6,890,014 net tons. The traffic of the Sault Ste. Marie Canal in 1890 was 10,557 vessels and 8,454,435 net tons. As the Suez Canal is the great highway of commerce between Europe on the one hand and Asia and Australia on the other, the comparison gives us, say the *Globe*, a notion of the immense importance of the commerce of the great lakes of North America.

Grip, whose satire is a two-edged sword—impartial, as it is keen in edge—founds a little versicle on this paragraph from the Chatham *Banner*: "Eggs were quoted in Detroit on Saturday at 13 cents; duty 5 cents; price in Chatham 8 cents. There is no mistaking the meaning of the figures. The Canadian farmer's wife who bought 12½ pounds of sugar in Chatham on Saturday gave 12½ dozen of eggs for it. The American going to Detroit market the same day got 39⅜ pounds for the same number of eggs." The little poetic—less poetic than true,—runs thus:

"EGGS IS EGGS."

The sad Canad an farmer's wife
Who by McKinley lost her
Little pe-quante in eggs,
Has a crow to pick with Foster.

This egg and sugar question, like *Grip's* satire, cuts both ways. The farmer's wife comes out weak in the price of her eggs, but the sugar refiners, protected to the hilt by the Dominion Government, makes it up strong on the price of sugar.

IN a recent speech at Carberry, Man., Mr. Watson M.P., dealt with the effect of the tariff on binding twine. Last year 2,000,000 pounds of twine were used in Manitoba. The duty is 25 per cent. ad val, or about 2½ cents per pound, so that the farmers of that Province paid $50,000 as a bonus to the home manufacturer. The revenue derived by the treasury from imported twine amounted to next to nothing Mr. Greenway, who also made a speech, expressed the belief that if the question "were submitted to them free from the influences of party politics not 10 per cent of our Manitoba farmers would vote against free trade" with the 65,000,000 people to the south of them. Mr. Watson let light in upon the methods employed to carry the Province for restriction. In his own constituency, which he carried by 46, the *Globe* states that the Canadian Pacific with all its vast power was arrayed against him, and men were brought from all parts of the continent as well as from the grave to vote against him. Similar efforts were put forth in the ridings, and, wherever they got it, the Tory workers had an abundance of money and used it without stint.

An Unfortunate Affair.

The *Evangelical Churchman* mentions the threat of the majority of the parishioners of the Church of the Ascension, Hamilton, to remove the pews, pulpits, altar, prayer desks, and all furniture from the edifice, leaving Rev. E. P. Crawford his only legal right, the bare structure to preach in. The *Churchman* adds: "What a sad spectacle this would be!" Sad, indeed, remarks the Kingston *Whig*, but yet useful and instructive. I would be an object lesson to the whole church in Canada, to teach it, as no mere words could make it believe, that it is wasting money in paying the passages of missionaries to China, India and Japan, when a single Grand Trunk ticket will carry them where conversion from pagan methods is still badly needed. In this unfortunate Hamilton dispute there can be no strong feeling to the unprejudiced either way. There are faults on both sides, grave faults, for which probably circumstances are largely to blame. The opposition have reduced the stipend to $1 a year, and otherwise made the situation as warm as notions of fair play will admit. If they proceed to the length threatened they will lose the sympathy of their outside friends and afford evidence of a vindictive opposition, which ever and anon seems to weaken the platform upon which the Evangelicals have many times stood with infinite credit. The course of objecting to all progress, any change whether safe or unsafe, whether prompted by motives of the very best or of the most destructive order, has weakened the cause of late years; the shame which the dismantling of the Hamilton church must evoke would cover the party with discredit. There are many devout worshippers who would make a martyr's shrine of an edifice bearing the hand marks of old-time persecution methods.

Arbor Day.

Arbor day came on Friday, May 1st, and was partially observed in this vicinity, when any neglect in the past has made it necessary this year. By the report of the Minister of Education we find that during the five years which have elapsed since its establishment, the movement has been heartily supported by teachers and trustees with excellent results. During these successive annual arbor days, commencing with 1835, the number of trees planted have been respectively, 38 840, 24 057, 28 057, 25 714 and 21,281. "If a very few years," it is predicted, "every rural school in the province will have its pleasant shady bower, where the pupils can find shelter from the scorching sun during the summer months, and where their taste for the beautiful in nature will find some gratification." Now are the good effects of the day confined wholly to tree-planting. In the clearing up and tidying of the school grounds, cultivation of grass and flowers, and so forth, much is done to develop the love of neatness and beauty which is, in itself, no unimportant part of education. We have remarked while driving through the country in recent years, the great improvements in school surroundings, and nothing has given us a better idea of the taste and thriftiness of the people. Let the good work go on.

Life is Like a Flower.

A well-known and popular writer says:—"Life is like a flower, which is no sooner blown than it begins to wither." It is now generally acknowledged that if the flowers of life has not been carefully tended before it is blown, that the bloom will not be of long duration. If on the other hand the health has been preserved, when the bloom of life occurs it will last for years without signs of withering or decay. How very important then for all to maintain in its fullest splendor and beauty the full blown life—a condition which should bring with it joy, pleasure and contentment. This flower of life—our health shows indications of withering and decay, when we allow any form of nervous disease to lay hold of us. That tired, used up brain, that feeling of weariness and goneness, those hollow cheeks and sunken eyes, those dyspeptic pangs—all are monitors of fading and decay. The bloom of health can be maintained by that great life giver, Paine's Celery Compound; it will banish every trace of disease, and restore the bloom of health to the cheek, and give you the vigor of true manhood and womanhood. Paine's Celery Compound stands alone in this great work. Its results are certain, safe and always satisfactory. Do not delay using it if you value life.

Free to Ladies.

Every lady reader of this paper sending at once her address on a postal card will receive a free copy of the *Ladies'* (Pictorial) *Newspaper*, containing full particulars of their old fashioned English prize competition. Over $6,000 00 in prizes will be given away between now and June 1st, with special daily prizes of value for each locality. The *Ladies' Newspaper* is one of the largest and most profusely illustrated publications in Canada, and the competition offered by them is to be conducted in a strictly honourable manner, without partiality to persons or locality. Anyone can secure a good prize by a little work. No cheap presents will be given. It costs you nothing for full information and a sample copy, if you send at once. Address: The *Ladies Newspaper Co.*, Canada Life Building, Toronto, Ontario. d73-w14

Out Goes the Goods.

Prices does it. When we say things are to go, they go. We mean everything we say. Goods at first cost and less, to clear. No wild statements; absolute facts. $9 500 00 to be cleared in thirty days, and they are going—fast. KNOWLES & Co. d70w

Do You Cough?

Don't delay. Take Kemp's Balsam, the best cough cure. It will cure coughs and colds. It will cure sore throat, or a tickling in the throat. It will cure pains in the chest. It will cure influenza and bronchitis and all diseases pertaining to the lungs, because it is a pure balsam. Hold it to the light and see how clear and thick it is. You see the excellent effect after taking the first dose. Large bottles 50c and $1. dw

Why Not Treat.

Why not treat such troubles as boils, pimples, blotches, sores, humors, eruptions, rashes, skin irritations, etc., with Burdock Blood Bitters. It is filled with virtue as a blood purifier and goes right to the right spot. It makes the skin bright and clear, while also invigorating the entire system. 1w18-d

Now Free From Pain.

Dear Sirs—I have been troubled with Lame Back for about six months, and thought I would try Hagyard's Yellow Oil, which cured me. Am now free from all pains, and recommend Yellow Oil very highly. Frank Palmer, Winona, Ont. 1w183

Supposing.

Supposing you suffer from some disease. Suppose it is dyspepsia or biliousness or constipation or bad blood. Suppose you learn that Burdock Blood Bitters has cured thousands of cases of these and similar complaints. Don't you suppose you ought to try? It cannot harm you and in nine cases out of ten it cures. 1w181

It Does Its Work.

Mrs. James Dix, Brock street, Kingston, Ont., says: I suffered with an inflamed throat and bad cough for seven months. Was treated by physicians without success, when six doses of Miller's Emulsion of Cod Liver Oil cured me. It's as palatable as cream. For sale by all druggists. dw

At no season in the year is cold in the head and catarrah more prevalent than during April. To neglect either means misery and perhaps fatal results. Nasal Balm is the only certain remedy for these dangerous diseases, and as a precautionary remedy should be kept in every household. Nasal Balm has cured thousands of sufferers—it will cure you. Try it. 6.98w

Once Used, Always Used.

This is a fact as regards Dyer's Jelly of Cucumber and Roses, from its wonderful efficiency in curing chapped hands, and making the skin smooth and soft. Druggists keep it. W. A. Dyer & Co., Montreal 6.92

A MAN'S wife should always be the same, especially to her husband, but if she is weak and nervous, and uses Carter's Iron Pills she cannot be, for they make her "feel like a different person," so they all say, and their *husbands say so, too!* dw

Twelve years trial in English climate, with increasing demand, proves the Royal Rheumatic Remedy to be the best remedy for rheumatism. For sale by W. R. Greatrix, druggist. dw

FOR NETTLE RASH, Summer Heat and general toilet purposes, use Low's Sulphur Soap. dw

Ayer's Hair Vigor

IS the "ideal" Hair-dressing. It restores the color to gray hair; promotes a fresh and vigorous growth; prevents the formation of dandruff; makes the hair soft and silken; and imparts a delicate but lasting perfume.

"Several months ago my hair commenced falling out, and in a few weeks my head was almost bald. I tried many remedies, but they did no good. I finally bought a bottle of Ayer's Hair Vigor, and, after using only a part of the contents, my head was covered with a heavy growth of hair. I recommend your preparation as the best in the world."—T. Munday, Sharon Grove, Ky.

"I have used Ayer's Hair Vigor for a number of years, and it has always given me satisfaction. It is an excellent dressing, prevents the hair from turning gray, insures its vigorous growth, and keeps the scalp white and clean."—Mary A. Jackson, Salem, Mass.

"I have used Ayer's Hair Vigor for promoting the growth of the hair, and think it unequaled. For restoring the hair to its original color, and for adressing, it cannot be surpassed."—Mrs. Geo. La Fever, Eaton Rapids, Mich.

"Ayer's Hair Vigor is a most excellent preparation for the hair. I speak of it from my own experience. Its use promotes the growth of new hair and makes it glossy and soft. The Vigor is also a cure for dandruff."—J. W. Bowen, Editor "Enquirer," McArthur, Ohio.

"I have used Ayer's Hair Vigor for the past two years, and found it all it is represented to be. It restores the natural color to gray hair, causes the hair to grow freely, and keeps it soft and pliant."—Mrs. M. V. Day, Cohoes, N. Y.

"My father, at about the age of fifty, lost all the hair from the top of his head. After one month's trial of Ayer's Hair Vigor the hair began coming, and, in three months, he had a fine growth of hair of the natural color."—P. J. Cullen, Saratoga Springs, N. Y.

CHANGE IN BUSINESS.

I beg to announce to my late customers that I have sold out my business to Messrs. Hilliard & Peplow, and I would bespeak for them the same support as has been accorded me.

C. N. BROWN.

ANNOUNCEMENT.

For some time past we have thought a strictly cash business in Flour, Feed and Provisions could be successfully carried on in Peterborough, and to test this question, we have purchased the above business from Mr. C. N. Brown who will still continue as manager in Flavelle's old stand, Simcoe street.

In order to be successful we intend to make it the interest of everyone to pay cash with order by selling at wholesale prices.

We will positively give no credit and cash customers will not have to keep up the losses made by others on the credit system.

We will keep a full supply of the very best quality of Flour, Feed, Chop, etc., and our customers need not fear that the quality of the goods will be lowered to make up for the reduction in prices. We are simply giving them the benefit of the margin necessary to cover losses and interest charges incurred on the credit system.

Goods delivered to any part of the town or Ashburnham.

A SCENE IN COURT.

Judge MacMahon Interrupted While Addressing the Ottawa Grand Jury.

OTTAWA, April 30.—Judge MacMahon arrived here to-day from L'Orignal, where he sentenced Larocque to death. In his address to the grand jury here, when referring to one case in which a father was charged with attempting to commit a criminal assault upon his daughter, he said the law presumed in some cases similar to this that there was no consent on behalf of the daugater although there was submission, a voice called out, "Hang him, my Lord, hang him!" The speaker, a drunken man, was forcibly ejected.".

TWO KIND OF CIRCUSES.

The One Harmless Enough, the Other Attended by Rope Dancing

FRANKLIN, Tenn., April 30.—The city was crowded with negroes yesterday, the occasion being the performance of a 10 cent circus. One negro, Jim Taylor, became very troublesome and shot Policeman Charles Cook, who was trying to arrest him. He also shot one of the circus men. He was afterward jailed and two pistols and a dirk were found in his possession. Last night a well-organized mob attacked the jail, overpowered the sheriff, secured his keys and quietly took the negro down a side street to the covered bridge and hanged him to a cross beam. His body was riddled with bullets. The mob then dispersed. Most of them were on horseback.

A BABY'S RESTING PLACE.

A New York Moving Incident—A Father's Fruitless Search—A Mother's Find.

NEW YORK, April 30.—James Ransom, clerk in Ebret's brewery, yesterday moved to a cottage north of Harlem River. The household belongings were littered about the new home last night. The Ransoms were going to sit down upon the lids of their trunks and partake of a cold supper, when Ransom exclaimed suddenly, "Where's the baby?" The youngest of the children, a two-year-old girl, was missing. After a thorough search had been made in the house the father was dispatched back to the flat in Seventy-ninth-street. Nobody there had seen the child since morning, and Mr. Ransom notified the police of his loss. Then he hurried home and found his family still distracted. Mrs. Ransom, sitting down on a trunk, began to cry. A responsive wail arose from the trunk and springing up Mrs. Ransom hastily opened it. There on the top of a great pile of clothing lay the baby, just awakened from a sound sleep. Before the trunk was quite filled she had crawled in unnoticed and one of the other children closed the lid. The arched cover had given her additional room and slumbering uninterruptedly she was carried away on one of the trucks with the furniture.

A PEACEFUL MAY DAY.

Extraordinary Precautions Taken to Prevent Rioting and Bloodshed.

LONDON, April 30.—Telegrams received from every populous centre in Western Europe indicate that May day will pass without serious disorder. Everywhere the local powers have been armed so strongly as to convince the worst disposed that a pacific demonstration is advisable. But the labor manifestations will be no less memorable because orderly. The manifestoes of the Socialist leaders in every country, while giving prominence to the eight hours cry, proclaim a battle for other points of the Socialist charter in plainer language than they ever used before. This fervor of revolutionary language frightens the public, keeps every Government alert and has caused extraordinary preparations to be made on a scale equal to what would be required if Europe was about to be transformed into a field of battle. In Paris as processions are forbidden the Socialists will hold four mass meetings. Petitions in favor of a work day of 8 hours will be presented to the authorities by delegates from Socialist committees. The Government has no fear of a public disturbance from the Socialist factions.

The Anarchist organ Pere Fernard bluntly states to-morrow's plans. The Anarchists will wait for a chance row in the streets and if one occurs they will join and will fight to kill or die. The Government will rely chiefly upon the cavalry in the event of an emeute. The troops have been distributed throughout the city, and the main streets have been sanded to enable the cavalry to operate promptly. Public traffic will be kept open unless a row occurs.

Telegrams from Rouen, Havre, Amiens Lyons and Bordeaux announce that all workmen will suspend work to-morrow. The program is the same everywhere. Delegates will go to the prefectures and hand their petitions to the authorities. Banquett, and balls will be held in the evening. The garrison's will be kept under arms. Troops have been sent to industrial centres where there are no garrisons.

The Marseilles delegates declare they will persist in their intention to parade and would face a collision with the troops.

Throughout Germany the proposed May Day manifestos create no disquiet. The workmen will go on excursions and will not be interfered with if they are orderly.

In Vienna the Workmens' committees propose to march 100,000 men in isolated detachments to the prater where they will group around the various speakers and will pass the various resolutions.

In Rome no uneasiness was manifested as a minor importance is attached to May day demonstration. In Naples, however, a semi-panic prevails owing to Anarchists threats to blow up public buildings with dynamite.

A Little Babe Fatally Poisoned With Toothache Drops.

KINCARDINE, April 30.—The 3-year-old daughter of Mr. Woods, 9th con., Kincardine, met her death by swallowing some carbolic acid. One of the household had been using the acid to relieve toothache and the bottle had been left where the child could reach it. After swallowing some of the poison the little one went to her mother and said "Mamma, I'se so sick." It was then found out what the little sufferer had swallowed. She lived several hours, suffering terrible agony.

First Sod Turned.

WINDSOR, April 30.—At 10.30 this morning Chief Engineer Hawks of the M. C. R. turned the first sod of the proposed tunnel under the Detroit River. The ceremony took place on the land of the M. C. R. in the south part of Windsor, three-fourths of a mile from the river. He said that it devolved upon him as president of the tunnel company to open the ground where the Michigan and Canada tunnel was to be constructed, and gave details of its length and dimensions.

Children Cry for Pitcher's Castoria.

NO HELP FOR POOR JACK.

Sad Fate of the Crew of a Wrecked Schooner.

BALTIMORE, Md., April 29.—Capt. J. W. Bennett of the schooner Addie Manderson, from Salem, brings a story of the sea. When off York Spit in the Chesapeake Bay, Sunday, a capsized vessel was discovered with men in the rigging. Mate Aberg of the Manderson with a crew was sent to the rescue. In the main mast head was a man alive, but unconscious. A rope was fastened about him, but every effort to free him failed as his legs were tangled in the rigging. Mate Aberg hastened back for a hatchet, but when he rescued the vessel the second time the man was dead. Another man was found lying on his stomach on the mast and his head and feet in the water. He had been dead for some time. A third man was found in the shrouds dead. The wrecked vessel was the schooner R. B. Lords of Somers Point, N.J. She was commanded by Capt. John Hummel of Absecon, N.J.

Untruthfulness in Children.

"What should be done with a child for telling a lie?" asks an anxious mother.

The word "lie" is almost too strong a word to use in connection with a child. A lie is an intention to deceive. Untruthfulness, in fact, may be ignorance in the little one. For instance, a child while visiting was shown a rainbow. "My papa has a much bigger one at home," she said. Months before her father had carried her on his shoulder to see a brilliant bow spanning the entire heavens. The dear baby! Like the little boy who declared his papa made the trees because he had seen him hew a gate post, and call it his. Some children, from pure imagination, may tell what is untrue. We need to study the child-nature, and be very slow to condemn. Our example teaches them more than we are aware. If not perfectly truthful ourselves, can we expect them to be? A good rule is given by a teacher: "Never, under any circumstances, severely punish a child for telling a lie. Use your skill in detecting untruths to baffle, not to punish them. Make it an object in your life to see that no benefit ever results from deceit or lying, but do not provoke a crop to grow in order to cover one transgression."

Sensible Girls.

Some old philosopher has said that in nine cases out of ten, when a man was thrown constantly in the society of one woman, he would end by marrying her. But there are some exceptions to this general rule, and a notable one is to be found among the class of shopgirls who are employed in the big retail stores uptown. Said the manager of one of these establishments: "It is a popular idea with the public that our female employes find husbands among the men in the store, with whom they work every day, but it is not true. Most of the girls who marry select their mates from a class of men who are in some other and more remunerative business. The principal reason for this is to be found in the fact that the girls soon become imbued with sensible ideas in regard to the life of all who have to work for a living. A girl soon finds out all about the man who works at the same counter with her and knows that he earns but little more than she does herself. Matrimonial bliss on a salary just sufficient for one has no temptations for the average shopgirl."—New York Recorder.

Boer Courtships.

Boer courtships are carried on in this wise. The swain rides up to the house of his chosen fair, dressed in his best toggery and well mounted; and, having obtained permission from her parents, when the family retires to rest—often in the same apartment—sets up (op-site) with his inamorata. So long as the candle with which he is furnished burns, so long may he his tale of love unfold. When it burns out they must part and retire also. The process is called courting.—Irish Times.

A Welcome Announcement.

Those who have tested it say that for the grippe, and especially for the cough that hangs on after the disease itself seems cured, there is nothing equal to Kemp's Balsam, the specific for all throat and lung diseases, and the best cure for coughs and colds. The first dose will convince you of its excellent effect. All druggists sell it at 50c. and $1 a bottle. dw

Editorial Evidence.

Gentlemen—your Hagyard's Yellow Oil is worth its weight in gold for both internal and external use. During the late La Grippe epidemic we found it a most excellent preventive, and for sprained limbs, etc., there is nothing to equal it. Wm. Pemberton, Editor Reporter, Delhi, Ont. 1w183

Spring Cleaning.

Be particular every spring to clean the house, but never mind cleansing the blood until some troublesome disease takes hold of you. This is poor policy when by using Burdock Blood Bitters the blood will be thoroughly cleansed, the body strengthened, and future suffering prevented. 1w181

Everybody Likes It.

Wm. Dredge, Eden street, Barrie, Ont., says: One bottle of Miller's Emulsion of Cod Liver Oil brought back appetite which other Emulsions took away; removed cough entirely, and gained five pounds. It tastes just like cream, the oil being perfectly disguised. Sold by all druggists. dw

A Winnipegger's Opinion.

The following is taken from a letter from Mr. D. Davis, Winnipeg, Man.: "Being persuaded to use Hagyard's Pectoral Balsam for a troublesome cold, I was entirely cured by the use of two bottles." 1w183

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Everybody Admires Soft White Hands.

And every lady ought to use Dyer's Jelly of Cucumber and Roses, as it makes the skin soft and smooth. Druggists keep it. W. A. Dyer & Co., Montreal. 6:92

HAVE no equal as a prompt and positive cure for sick headache, biliousness, constipation, pain in the side and all liver troubles. Carter's Little Liver Pills. Try them. dw

AN INACTIVE or Torpid Liver must be aroused and all bad bile removed. Burdock Pills are best for old or young. dw

AS A PICK-ME UP after excessive exertion or exposure, Milburn's Beef, Iron and Wine is grateful and comforting. dw

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold everywhere, or sent by mail.

CARTER MEDICINE CO., New York.

Small Pill. Small Dose. Small Price.

Threatening to Kill.

This serious offence might well be charged against that prevalent disease Constipation, which threatens to destroy many valuable lives if not stopped. It arises from wrong action of the Stomach, Liver and Bowels, and causes Dyspepsia, Biliousness, Bad Blood, Boils, Pimples, Rashes, Eruptions, Sores and Foul Tumors. It can only be cured by the prompt use of the right remedy, Burdock Blood Bitters, which never fails to cure even the most obstinate cases and is a specific for all diseases of the Stomach, Liver, Bowels and Blood. Thousands testify. Read and learn.

MRS. G. McKAY.

Cases in Point.

Sure to Cure.

DEAR SIRS,—I suffered with constipation and headache, and having taken a bottle of B.B.B. on trial, found it doing so much good that I sent for several more and it proved a sure cure. I use it in my family and feel safe in recommending it to my friends.

MRS. GORDON McKAY,
Jordan Falls, N. S.

A Prompt Effect.

DEAR SIRS,—I was very bad with costiveness and one bottle of your Burdock Blood Bitters cured me. I would not be without it.

MRS. WM. FINDLAY,
Bobcaygeon, Ont.

DIRECTLY TO THE SPOT.
INSTANTANEOUS IN ITS ACTION.

For CRAMPS, CHILLS, COLIC, DIARRHŒA, DYSENTERY, CHOLERA MORBUS, and all BOWEL COMPLAINTS,

FLAX-SEED EMULSION COMPOUND

BRONCHITIS

123 Lexington Ave., New York City, Sept. 19, 1888.
I have used the Flax-Seed Emulsion in several cases of Chronic Bronchitis, and the early stages of Phthisis, and have been well pleased with the results.
JAMES K. CROOK, M.D.

CONSUMPTION

Brooklyn, N.Y., Feb. 14th, 1890.
I have used your Emulsion in a case of Phthisis (consumption) with beneficial results, where patient could not use Cod Liver Oil in any form.
J. H. DROGE, M. D.

NERVOUS PROSTRATION

Brooklyn, N. Y., Dec. 20th, 1888.
I can strongly recommend Flax Seed Emulsion as helpful to the relief and possibly the cure of all Lung, Bronchial and Nervous Affections, and a good general tonic in physical debility.
JOHN F. TALMAGE, M. D.

GENERAL DEBILITY

Brooklyn, N. Y., Oct. 10th, 1888.
I regard Flax Seed Emulsion as greatly superior to the Cod Liver Oil Emulsions so generally in use.
D. A. GORTON, M. D.

WASTING DISEASES

197 West 34th St., New York, Aug. 6, 1888.
I have used your Flax-Seed Emulsion Compound in a severe case of Malnutrition and the result was more than hoped for—it was marvelous, and continuous. I recommend it cheerfully to the profession and humanity at large. M. H. GILBERT, M.D.

RHEUMATISM

Sold by Druggists, Price $1.00.

FLAX-SEED EMULSION CO.
35 Liberty St., New York.

The D & L Emulsion OF Cod Liver Oil AND THE Hypophosphites of Lime and Soda.

Self Application of Electricity

FOR MEDICAL PURPOSES
BY THE
DORENWEND
ELECTRIC BELT
And Attachments
THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and ranks as the best in the world; we defy anyone to bring proof to the contrary.

Do not confuse this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you wish to experiment with cheap articles, buy THEM; but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. The Dorenwend Electric Belt and Attachment Co., C. H. DORENWEND, Electrician, 193 Yonge St., Toronto, Canada. eod-w

Robbing Peter to Pay Paul.

For the past two weeks Tom. Donnelly has been boring for a flowing well in the rear of the Dominion Hotel, Millbrook, and on Wednesday he struck a good strong flow at a depth of a hundred and fifty feet. The only disappointment is that it considerably lessened the flow of the town hall well, and completely shuts off that on the premises of Mr Alcock, Fsq.

The Town's Suit.

At the Ottawa assizes Friday, the case of Leonard vs the town of Peterborough was the first business on the docket. Mr. E. B. Edwards represented the town, and Mr. Watson the plaintiff. Evidence was taken from Mr. Cassels, who in 1871 made a survey of the property in dispute at the instance of the then owner, and the case was further adjourned to Toronto to secure evidence from the Crown Lands' Department.

Cheap

Croquet.

One hundred sets of croquet, 6 and 4 ball sets, just received at the Peterborough Bookstore to be sold CHEAP. First-class sets and prices away down. At the Peterborough Bookstore. dw

Cheap

Croquet.

A Water Spout.

Early this afternoon Mr. Terence Smith, who drives one of the street sprinklers, was taking water at the Simcoe street standpipe. His team became restive and started to move away. "Terry" grasped the pipe to save himself from falling, and his weight broke it. The water then spurted up like a geyser and continued to flow until Mr. Henderson, the Superintendent of the Waterworks Co., closed the valve and checked the source of the hydraulic display.

"Judge Daly."

The Lindsay *Post* says:—"'Judge Daly' is the taking name by which Mr. Jos. Daly's handsome three-year-old entire colt must achieve future greatness. He is a beautiful bay, with black points, of good size, style and finish. His blood-lines represent a happy union of Hambletonian and Royal George lines. He was sired by Phil Dyckyk, while his dam was the local trotting mare Rose D., 2.43, by Murphy's Royal George, sire of Russian Spy, 2.26½. Lovers of the harness horse will do well to look up Judge Daly."

Timely Advice.

The *Canada Health Journal* says: 'Spring cleaning time is at hand, and it may be that some of the local boards of health as well as individuals may require to be reminded that the hot weather is a bad time to disturb accumulations of winter filth, and such should be invariably removed and disposed of before the very warm season commences. It is now time for "cleaning up" operations to be well advanced, and let the work be thorough and far-reaching. In nothing is routine, perfunctory or incomplete work so objectionable or so bad as in sanitation."

Children Cry for Pitcher's Castoria.

The Railway Station.

Affairs at the Edison siding seems are quiet but mixed. The C. P. R. is at work on its siding, but the G. T. R. people are quiet. No sooner was the recent original difficulty solved than another arises. There is now a new difficulty as to which road will be at the east of connections at the junction of the two sidings at the boundary of the company's works.

Not Exactly Paved With Gold.

A resident of Ashburnham metaphorically caught the ear of an EXAMINER reporter this morning and gave vent to his enthusiasm regarding village affairs. "You see" he said, "the streets of Ashburnham need to be in bad shape, but this year they more than compare with the town's thoroughfares. Inspector John Craig has had them carefully scraped and all loose stones removed and now our streets are models of neatness. In a positive pleasure to see our streets so well cared for, and Inspector Craig has earned the thanks of the villagers for the admirable way he has fulfilled his duties."

A Peterborough Violinists at the Capital.

The Ottawa *Free Press* in its report of a concert held in St. James Hall, Ottawa, on Thursday night April 30th, thus refers to the appearance of Miss Louise Yokome, of this town, who is now at the capital, a pupil of Canada's best violinist, Mons. Francois Boucher:—"Miss Russell deserves special mention for her pianoforte recitals and her tasteful accompaniment of Miss Yokome's brilliant violin playing, De Beriot's "Fantasie de Ballet" for which she was loudly applauded. Miss Yokome is a violinists of special merit and has a brilliant future before her."

Important to Licensees.

The licenses (that is papers) are now in the hands of the *Inspector*, ready for delivery to the parties entitled thereto, on the latter complying with the necessary conditions, that is to say: the licensee must deliver to the Inspector a duplicate receipt for amount of license fee, accompanied with the slip furnished by the Commissioners, which accompanied the bond. This latter is necessary, as it constitutes the Inspector's sole authority from the Commissioner's for issuing the *license*. These *papers* should be sent to the Inspector by post to Peterborough P.O. at once. All licenses should be in the hands of licensees on May 1st, but, of course, in default of payment of the fees, the licenses cannot issue.

Wide Awake Women.

The women of New York are circulating a document in which the signer pledges himself or herself to have the sidewalk in front of their residence and place of business swept early every morning and not swept into the street; to put the ash barrel out every day at the proper hour and take it in when emptied; to use means to prevent the spilling of garbage from the barrel; not to mix papers with the ashes and garbage or throw them on the street, and not to throw orange or banana peelings on the sidewalk or into the gutter. This is a pretty good code of civic morality in regard to cleanliness, and ought to serve the purpose of shaming the authorities into doing their duty. The spirit of this pledge would apply to Peterborough with very pleasant and profitable results.

Mission Band Entertainment.

The annual entertainment of the Mission Band of the Baptist church was held in the school room last night. There was not, however, a very large attendance, but those present derived great pleasure from the excellent programme provided, which was presented in a manner corresponding with its meritorious character. In the absence of the pastor Dr. Scott occupied the chair. The contributors to the evening's entertainment acquitted themselves with considerable credit, some being particularly worthy of praise and those present enjoyed a musical and elocutionary treat above the average. This is the programme:—

Instrumental duet.....Miss Gilmour and Mr. Hoover
Recitation.....May Fitzgerald
Vocal duet....Messrs Manning and Matthews
Song.....Dollie Fowler
Recitation.....May Jones, Gertie Kidd, and Edith Gillespie
Song.....Miss Wrighton
Recitation.....Violet Billings
Vocal duet....Messrs Manning and Matthews
Recitation.Gordon, Birnie and Eddie Langford
Song.....Delile Fowler
Instrumental solo.....Mr. Hoover

The Watertown Wedding.

The following from the Watertown *Daily Times* of April 29th gives details of the wedding of Mr. H. LeBrun and Miss Hackett. Both being so well known and highly esteemed in Peterborough, the following will be read with great interest:—"At six o'clock this morning, in the church of Our Lady of the Sacred Heart, Mr. Harry LeBrun, of Peterborough, Ontario, and Mrs. Hackett, daughter of Mr. and Mrs. David Lemay, of this city, were joined in the holy bonds of wedlock, the ceremony being performed by Rev. Father Derschmeeck, M.S.H. Only near relatives and friends were present. After the ceremony, a sumptuous wedding breakfast was served at the bride's home, and at 10 30 o'clock the happy couple left the city for a trip to New York and other places, taking with them the best wishes of a host of friends. On their return they will reside at Peterborough, where the groom is engaged in the merchant tailor business."

Farm Operations.

This spring has been singularly favourable for farming operations. Spring seeding has been rushed on with great rapidity, there being a good breadth sown. Next week will see the finish of the seeding, except on some low undrained lands. Clover has come through the winter, especially in some parts of the county, in splendid condition. No reports to the contrary have reached the EXAMINER in reference to any section, and it is, therefore, to be seen that the farmers of this district will be, figuratively in clover he season. The reports respecting fall wheat are conflicting. Some report great damage to wheat through the ice forming on the surface, and some fields are being sown to spring wheat—that is, the spots where the ice has done much damage. Other sections report some splendid fields of fall wheat. The ice has, however, done no little damage—on certain slopes of fields, so that one part of a field will be rich and green and another portion bare and brown. A gentleman who has travelled over a good deal of the country says that his opinion is that the fall wheat will be from three fourths to four fifths of a full crop. As a fact the favourable reports from the favoured townships predominate over the gloomy reports of some of the others.

News Nuggets.

—Suckers are ripe; this is not very fresh information, but about as fresh as the suckers will be when they come to the frying pan.

—To-morrow evening Rev. E. C. Cayley, of Trinity College, Toronto, will preach in St. John's Church.

—For bracing up the nerves, purifying the blood and curing sick headache and dyspepsia, there is nothing equal to Hood's Sarsaparilla.

—Tuesday evening the ladies of St. John's South Ward Mission will hold the first of several socials in the mission hall. The basement is now being completed, men being at work at the flooring.

—Haliburton folks are just at present enjoying a very novel sight—the erection of the first brick building in the hamlet's history. Mr. W. Prush is the builder, and will occupy it as a store and dwelling.

—The Dominion hotel, Minden, has changed hands, Mr. Joseph Pym, brother of Conductor Pym, being the new proprietor. He is well known and popular throughout the district and will no doubt do well.

Personal.

The Millbrook *Reporter* says that Miss Russell of that romantically situated village has been visiting in Peterborough this week.

The Rev. Mr. Shorey of Peterborough, says the Mount Pleasant correspondent of the Millbrook *Reporter*, occupied the pulpit of Methodist church here on Sabbath last, the 26 h inst. The subject of his discourse was scientific, his text "Learn of me," taken from Matthew the 11th chapter and 29 th verse (first cause if verse). The discourse was a very able one, and well worthy of publication.

Board of Education.

A regular meeting of the School Board will take place at the Board room, on next Tuesday, at 7:45 o'clock p.m.

The "Tempest in a Tea-Pot."

To the Editor of the Examiner:

DEAR SIR.—Under the guise of supposed interference by the G. T. R. Company with the siding of the C. P. R. Company to the Edison Works, the Superintendent of the latter Company, in his telegram to the council on Thursday evening, was enabled to let himself down easily from the position of hostility to the town that it pleased him to take for his Company.

Were it not for the manifestly unfair insinuation contained in the telegram, that the G. T. R. Company contemplated interfering with the property of the C.P.R., it would not be necessary or desirable to prolong for a moment, what, for want of a better term, we call a tempest in a tea pot.

These gentlemen of the council, who have at exceeding trouble to themselves been dealing with these siding questions, will know that the G. T. R. Company have never assumed to act other than in a perfectly fair way when, in respect of the C. P. R. Company, that Company's interests came into question. No one in the employ of the G. T. R. Company dreamed of interfering with the siding of the C.P.R. Company; that Company was fully informed of everything that had transpired with reference to the sidings, and knew well that both lines were placed on an equal footing in respect of them.

Yours truly,
J. G. MACKLIN.

Peterborough, May 2nd.

Meritorious Maiden Music.

Musical Review at the Convent of our Lady—The Convent People Delight the Clergy, Their Parents and Friends—A Splendid Musical Entertainment—His Lordship, Bishop O'Connor, Graces the Occasion With His Presence.

Last night the beautiful hall of the Convent, congregation de Notre Dame, which had the same decorations that brightened it the previous afternoon, was crowded with a large gathering of the parents, friends and pupils, who were to take, as the sequel proved, so creditable a part in the evening's programme, His Lordship Bishop O'Connor and the cathedral clergy. The programme, which is presented below, was of a progressively excellent character—the opening numbers being those contributed by the junior pupils, some of them little dots whose tiny fingers could, one would think, hardly cover a fourth or fifth on a key board. Between those and the closing numbers were all grades of proficiency, gradually leading up a creditable crescendo of excellence to the brilliant finale represented by two pianoforte solos, which for brilliancy of execution, sympathetic interpretation, delicate shading and withal vigour, reflect honour not only on the performers, but also upon the excellent musical training, both in the mechanism and spirit of the divine art of music. These same remarks generalized apply to the concerted piano performances, the last one of these being approximately a perfect rendering, especially in spirit, execution, balance of tone, and unexceptionable tempo. A feature of the entertainment was the recitation, which should not escape individual attention. The performer, Miss F. Holmes, appeared in character as Sam's brother, and too much praise cannot be given her for her capital recitation. As a lit-like personation of a bashful and ingenuous boy it could hardly be surpassed. Altogether the "Musical Review," which, as was said subsequently, was more a first-class concert, was not only a delightful evening's entertainment, but a practical tribute to the excellence and thoroughness of the musical instruction imparted at the convent, and also to the general refining and elevating training enjoyed by the pupils. The programme was concluded by a capitally sung vocal quartette—"Good Night Honored Guests," sung by Misses Annie Dunn, E. Howden M. Begley and M. McCabe, and a very neat and nicely rendered address of thanks, by little *Lily Cahill*.

At the conclusion, His Lordship made a brief address, warmly complimenting both pupils and the convent upon the very creditable and enjoyable entertainment that had been provided. It was modestly styled a musical review, but it was worthy of being called a first-class concert. In saying this, he was sure he but echoed the sentiments of all present, and on their behalf he thanked the sisters and the convent pupils for the entertainment given during the evening, which gave double pleasure—the delightful music was a pleasing evidence of the pains bestowed upon the pupils, and also of the anxiety of the pupils to learn. His lordship then retired and the company separated, all much delighted with the excellent exhibition of good musical instruction and painstaking learning.

PROGRAMME.

Entree—Duet.....
Greeting Song—Chorus.....
Piano Solos..M. Sheffield, S Kelly, M. Conroy, M. Henderson, M. Welsh
"Killarney".....M. Cahill, T. Reilly

"The Girl I Left Behind Me".....
"Robin des ioli".....E. Howden
Vocal Quartette—Good Night, Honored Guests.

River Notes.

The water in the river is falling steadily—at the rate of an inch a day.

The steamer "Golden Eye" is being overhauled and fitted up and will go down the river in a few days to dredge the sawdust out of the channel at the mouth of the river.

The ice made great havoc this spring; it took away the wharf at Lyl Wild and carried away the guard piers of the G. T. R. above Hastings.

The summer hotels down the river are being fitted up for the season and will be open for guests about the middle of May.

Mr. George Reid, who conducted the Jubilee Point Hotel last year, will conduct a temperance house and summer hotel at Wallace's Point bridge this season. This hotel will be about midway between town and the mouth of the river, and as there is a beautiful park in the vicinity, which is to be nicely fitted up, the place will be a pleasant resort for fishing and pic-nic parties.

The water is coming to its normal height at Lakefield. Messrs. Hilliard & Eden's new steamer, the "Sanbeam," will get up steam for the first time about the middle of the coming week.

Omemee "Heraldry."

The citizens of Omemee in connection with the council, should make arrangements to erect a stand for the Saturday night open air concerts. It is too bad to see our boys standing in the mud for the gratification of the public.

The annual spring show of the Emily Agricultural Society was held on Tuesday last, and a fine lot of animals were on exhibition from various parts of the country. The show was considered quite a success.

The Omemee Brass Band intends holding its 11th grand celebration on the Queen's Birthday. The programme will consist of baseball and football matches, boat racing, tub races, walking pole over water, jumping of all kinds, running, putting heavy weight and a hundred other attractions, the whole to conclude with a grand concert in the evening. The whole country for miles around is expected to be in attendance. The band boys are noted for the excellent manner in which they carry out the 24th of May sports.

A Pleasant Herb Drink—A Spring Medicine.

The druggists tell us that people call daily for the new cure for constipation and sick headache discovered by Dr. Silas Lane. It is said to be Oregon grape root (a great remedy in the far west for those complaints) combined with simple herbs, and is made for use by pouring on boiling water to draw out the strength. It sells for 50c. and $1 a package, and is called Lane's Family Medicine. dw

Church Chimes.

ST. PETER'S CATHEDRAL.—At St. Peter's Cathedral, Roman Catholic, there will be two masses celebrated, the first at 8 a.m., the second at 10:30 a.m. Vespers at 7 p.m.

ST. JOHN'S SOUTH WARD MISSION—3 p.m. Sunday School; 7 p m., Evening Prayer and Sermon.

Y. M. C. A. Notes.

The young men's rally to-night from 8 to 9 p.m. Mr. T. S. Cole, travelling secretary, will give a special address to young men. Hearty singing. Come!

Consecration meeting at 9.15 a. m., Sabbath morning, led by Mr. R. M. Gray. Topic—Toe S. 8 lesson, "Israel often Reproved." Amos iv, 4-13.

Personal purity meeting for men only, Sabbath afternoon at 4 15. Mr. T. S. Cole will give an address of special interest to young men. Singing led by orchestra.

Gospel and song service Sabbath evening at 8 30. Mr. T. S. Cole will give the address, "Work among young men in foreign fields," this being our monthly missionary service.

Ladies' Auxiliary special meeting on Monday afternoon at 4.

Monthly meeting of the Board of Directors on Tuesday evening at 8 p m.

We thank Mr. Wm. McCulloch, general secretary of the Toronto Association, for a donation of tracts for use in our work.

YOUNG WOMEN'S WORK.

In response to the announcements made from the different pulpits last Sunday, a number of ladies met on Wednesday afternoon in the parlour of the Young Men's Christian Association. A practical outcome of the gathering was the decision, that the rooms of the Young Women's Union, 426½ George street, are to be open every evening (Sundays and Thursdays excepted), as a pleasant resort for young women. A volunteer committee of ladies from the different churches, with members of the "Y," will take turns in receiving. The rooms will be open this (Saturday) evening. All welcome.

Range and Rifle.

First Monthly Match of the Season—Results of the Individual and Team Contests.

The first of the series of regular monthly matches of the Rifle Association took place at the ranges Friday afternoon. There was a fair attendance, and the scores made were good considering the high wind which was blowing. The noticeable falling off in the figures at the 600 yards range is due to the wind. Following are the individual scores:—

	200 yds.	400 yds.	500 yds.	600 yds.	Total
Ray, S.	15	16	20	13	64
Hill, Capt.	13	20	18	13	64
Bellegham, D.	16	17	22	8	63
Cameron, D.	14	21	14	12	61
Magee, W. A.	16	20	15	10	61
Blade, A.	15	19	7	7	48
Fitzgerald, G.	17	19	14	7	57
Donnistoun, Capt.	15	17	19	6	57
Brooke, J.	14	21	16	6	57
Bell, Major	14	12	6	8	40
Campbell, J.	13	10	14	0	37
Schofield, G. A.	13	8	12	2	35
Irwin, R.	6	20	4	4	34
Robinson, H.	6	10	8	5	29

THE TEAM MATCH.

A feature of the meet was the team match. Sides were chosen, and the scores made as above were counted. The team match was close and interesting, victory hanging in the balance till the very last, when Lieut. Schofields team was declared winners by 6 points. The scores were:—

R Irwin's Team.		*G. A. Schofield's Team.*	
D. Bellegham	61	A. Blade	59
G. Fitzgerald	57	D. Cameron	61
R. Irwin	34	S. Ray	64
W. A. Mason	61	J. Pentland	57
J. Campbell	37	Capt. Donnistoun	57
Capt. Hill	61	H. Robinson	29
Major Bell	40	G. A. Schofield	34
	366		361

National Educational Association.

The Annual Convention to be Held in Toronto July 14th to 17th.

The annual convention of the National Educational Association of the United States for the present year will be held at Toronto, Canada, July 14th to 17th, and as it will on this occasion be of an international character, it promises to be the most successful meeting of the series. Most of the railroads have agreed to give half-rates, plus $2 membership fee to all who attend the meeting, this rate being open to the public generally, as well as the teachers. Toronto people are making great preparations to welcome and entertain the visiting teachers, and numerous cheap excursions are being arranged to all important points on the great lakes, the St. Lawrence, and the sea-side, after the convention, which will afford to teachers the best opportunity for enjoying their summer holidays they have ever had. The official bulletin, containing programme for the meeting, railway arrangements, and all other particulars, is ready, and will be sent free to any one desiring it, on their dropping a post card to Mr. H. J. Hill, secretary local committee, Toronto.

A Curious Will Case.

A curious will case was lately tried before Chancellor Boyd, at Guelph. A school master, whose will was dated in 1859, drew up the document in such a way as to call forth the remark from the chancellor, that "his notions of fractions seemed to be peculiar, and it was a relief to think that he belonged to a past generation." There were twenty children, three sons and seven daughters. The will oddly directed that the estate should be divided as follows: "To each of my sons I leave two-thirds, and to each of my daughters one-third." The chancellor decided that each child should share in each manner that the shares of the sons should be double those of the daughters. The sons were accordingly declared to be entitled to two-seventeenths, and the seven daughters to the remainder of the property.

Dunmer.

(*From Our Own Correspondent.*)

Cheese Factory Operations.

The new Stony Lake cheese factory will begin operations on Monday. Miss Pawley, who was maker at Pine Grove last year, has been engaged for the season by Mr. Parker, proprietor of the factory.

North Dummer joint stock factory will also begin the manufacture of cheese on Monday. This factory has been built this season, and is equipped in first class manner. The building is of first-class character also, and the builder, Mr. Geo. Carruth, deserves great credit. If the patrons take as much interest in the manufacture of cheese as Mr. Carruth did in the building, there is every assurance of success. North Dummer takes no second place in anything they undertake. It is to be hoped both the interest shown will result in the production of a quality of cheese which will take no second rank in the brand and in the market.

On Fire with Eczema

TORTURING SUFFERINGS OF LITTLE BABY—Doctors and Their Remedies Fail—Cured by Cuticura.

My baby boy, 5 months old, broke out with eczema. The itching and burning were intense, the eczema spread to his head, face and body, and the child was nearly covered. His tortures seemed more than he could bear, and he could not sleep day or night. We used all kinds of treatment at different times and had two physicians and by seven doctors in this city without the least benefit; every one of the doctors was faithfully tried, but he grew worse all the time. For months I expended about $3 per week for medicines, and was entirely discouraged. I purchased CUTICURA, CUTICURA SOAP and CUTICURA RESOLVENT and followed the directions to the letter. Relief was immediate, his sufferings were ceased, and rest and sleep permitted us. He slowly improved and in nine weeks was entirely cured, and has now as clear a skin and is as fair a boy as any mother could wish to see. I recommend every mother to use it for every Baby Humor.

MRS. M. FERGUSON,
36 W. Brookline street, Boston.

Cuticura Remedies

The greatest skin cures, blood purifiers, and humor remedies of modern times, instantly relieve the most agonizing forms of eczema and psoriasis, and speedily, permanently, economically, and infallibly cure every species of torturing, disfiguring, itching, burning, bleeding, scaly, crusted, and pimply diseases and humors of the skin, scalp and blood, with loss of hair, from infancy to age, whether simple, scrofulous, or hereditary, when all other methods and best physicians fail.

Sold everywhere. Price, CUTICURA, 75c. SOAP, 35c.; RESOLVENT, $1.00. Prepared by the POTTER DRUG AND CHEMICAL CORPORATION, Boston.

Send for "How to Cure Skin Diseases," 64 pages, 50 illustrations, and 100 testimonials.

PIMPLES, black-heads, red, rough, chapped, and oily skin cured by CUTICURA SOAP.

CASH HARDWARE STORE.

On and after 1st April we shall do business on a **Cash Basis.**

To cover the inevitable ones attendant upon a credit business, which accrue from amount of time spent in keeping accounts, collecting, bad debts, interest account, and numerous other ways, larger margins of profit must be asked.

In these times cash buyers ask, expect, and are entitled to close prices. A careful consideration of the subject convinces us that the time has come for a cash business done on smaller profits.

The only customers who may possibly be put to inconvenience are those who have had long credits. In more ways than one it will be to their advantage to pay cash.

For convenience of our old customers who consider their accounts due when presented, we will call 30 days cash and render all accounts the first of each month, and we wish to say that will be happy to do business with them on these terms.

As the new departure is something of an experiment, what would be considered a close cash price will be made all through the stock. Not a few leaders only, but a general reduction in everything from the fourth flat to the cellar.

Our idea is to perform more than promised rather than promise more than can be fulfilled.

Our stock is large and varied, consisting of **Builders', Contracters', Household, Mechanics'. Painters', Shoemakers', Farm. Mill. Factory. Lumbermen's, Sporting. Threshers', Cabinet-makers', and other lines of Hardware.**

An old saying:—"You should go to Kingan's where you can get anything from a Needle to an Anchor."

ONTARIO LEGISLATURE.

THE BUSINESS OF THE HOUSE COMPLETED.

Neither Mr. Mowat Nor Mr. Meredith will Accept the Sums Voted to Them by the House Wind-up of the Session

TORONTO, May 4.—In the Ontario Legislature on Saturday morning Mr. Mowat said, with respect to the proposal to increase his salary from $4000 to $5000, that he was very grateful for the kind words that had been said regarding him and his work. An increase would be a relief and and very acceptable. But there had been no discussion of the matter either in the press or among the members generally. Having given the matter careful consideration he felt compelled to decline, for this session, the proposed increased remuneration.

Mr. Meredith, after expressing his gratitude for the kind words used regarding him, said that he, too, must decline the proposed increase to his sessional allowance from $3000 to $5000 for his services as leader of the Opposition. He believed such a course was without precedent and would be unconstitutional. The proposal to increase the salary of the Attorney-General was of another character and he thoroughly approved of it. With regard to the indemnity allowed the members it must be remembered that it was only the members themselves who could settle it. It was always a difficult matter for them to discuss what remuneration they should receive. The first thing to be done was to decide what was a fair remuneration and then place it on record in the statutes so that the unfortunate occurrence of the evening before might not recur. The last time an increase was made in the indemnity it was made behind closed doors, after a round robin had been passed around. The feeling of the country then was not so much against the increase as the way it was brought about. He felt it would be his duty to defend, under all circumstances, the mover and seconder (Messrs. Sol White and Field) of the resolution to increase the indemnity, for having the courage of their convictions. He again expressed the hope that the Government would consider the matter and bring in a resolution regarding indemnity next session and have it placed on the statute book so that there might not be a repetition of the unfortunate occurrences of the evening before.

Mr. Guthrie, as mover of the resolution to increase the salary of the Attorney-General, said he regretted, the decision that had been reached, but not the action taken. It was a simple act of justice. With regard to the leader of the Opposition, if there was no precedent for giving him an extra allowance it was time they made a precedent.

Prorogation will take place this afternoon at 5.

TORONTO TOPICS.

TORONTO, May 4.—Jimmy McGinn, who made his escape from the Central Prison on Thursday afternoon, is again an inmate of that institution. The police have been actively searching for him since notified of his flight, but it was not until Saturday afternoon that they succeeded in tracing him down. It was noticed that McGinn's brother was hanging around the stables of a hotel in West Market-street rather more than was his usual custom. This awakened suspicion and a little careful enquiry resulted in the discovery that Jimmy was stowed away in the hayloft. The stable boss is Jim Maun, who formerly was also an inmate of the Central. In fact, it was to his job as storekeeper that young McGinn was detailed when he donned the yellow and black uniform. The place was carefully watched all afternoon, and at 8 in the evening Detectives Burroughs, Davis and Alf Cuddy proceeded to the stables to look up their man. He was found up to his neck in the mow with a big flask of whisky by his side. He was very drunk—in fact, so drunk as not to realize that he had been captured. He was taken to Headquarters, and half an hour later was transferred to the Central.

Some scoundrelly firebug is said to have touched a match to the stable in Steiner-street which the firemen found blazing at an early hour Saturday. When near Grant-st en Queen, the reel was upset by a small pile of earth. Driver Johnny Batkin, Foreman William Brown and Branchman Thomas Sargent, Harry Jones, John Lynch and James Cook were thrown out with violence. Cook received a bad scalp wound and a dislocated thigh, and Jones a sprained ankle. Saturday evening some man was tearing the half-burned boards off the building and piling them on a waggon when the whole thing fell in. Four boys were playing inside, two of whom escaped injury, and one named Moore got off with a sprained wrist and some bad bruises. A 5-year-old son of Mrs. Margaret Ross, 18 Thompson-street, was buried in the debris, but after a few minutes was rescued in an insensible state.

A DISHONEST CLERK.

Systematic Pilfering in the Waterworks Office by Clerk William Murray.

HAMILTON, May 3.—About three weeks ago it was discovered that there were irregularities in the accounts of the waterworks. They were all traced to Clerk William Muarray. He had received cash for water rates and kept the money, failing to enter the amounts in the cash book, but entering them in the ledger so as to avoid discovery. His plan was to enter fictitious amounts in the cash book shortly before the examination of the auditors, in order to make the cash book and ledger correspond. This was rendered easy by the fact that no itemized comparison between the two books is made by the auditors, because of the vast number of accounts; only the totals are compared.

When charged with having filched the waterworks money Murray made a confession, but said he did not know what he had done with the money and could not make restitution. The exact amount of Murray's misappropriations is not known, but already his accounts are $700 short and it is likely that the shortage will not be less than $1500. He has not as yet been arrested.

Russia is effecting some interesting changes in the organization of her armies. All of the Russian reserve battalions are to be gradually converted into reserve regiments of two battalions each. A beginning has been made with the twelve battalions in the districts of Kieff, Moscow and Warsaw.

Reports from Manitoba are to the effect that two-thirds of the seeding has been done, that early sown wheat is up two or three inches, that considerable spring plowing has been done and that the area of wheat exceeds that of former years 15 to 20 per cent.

FOR AN EIGHT-HOUR DAY

MONSTER MASS MEETING IN HYDE PARK, LONDON.

Between 200,000 and 300,000 Persons Attend and Pass Resolutions in Favor of an Eight-Hour Day Similar Meetings in Dublin, Berlin and Elsewhere.

LONDON, May 3.—The attendance at the labor meeting in High Park to-day is variously estimated at from 200,000 to 300,000. The procession in connection with the meeting included workers at all the trades and was miles long. Its route was by way of Westminster, Victoria Strand, Grosvenor place. It was interspersed with bands and many banners were carried. Traffic along the line of march was blocked for several hours. John Burns, Thomas Mann, the president of the Dockers' Union, Benjamin Tillett, the Avelings and Mr. Graham, the Socialist member of parliament, were among the speakers, who were assigned to 12 different platforms which had been erected in the park; an identical resolution in favor of a compulsory labor day of eight hours was moved on all platforms.

From various despatches it is ascertained that in general quiet prevailed in continental centres to-day. A number of labor meetings were held in Berlin and resolutions were passed favoring the compulsory eight hour labor day. They were conducted in an orderly manner.

The city was guarded by mounted infantry.

DUBLIN, May 3.—Ten thousand workmen of this city to-day marched in procession to Phoenix Park, where they held a meeting at which a resolution demanding a workday of eight hours was passed.

ROME, May 3.—The galleries of the Chamber of Deputies were crowded to-day with people who had come to listen to the debate on the labor troubles. After an animated discussion the debate was adjourned. The indications are that the Government will secure a majority on the question, as many Radicals are supporting Sig. Nicotera, the Minister of the Interior, in his action in the matter.

BERLIN, May 3.—The German Socialist meetings to-day were all thinly attended and not the slightest interest was displayed. The people were intent on enjoyment and it was evident that the movement is losing its vitality.

The principal towns of Germany, Holland and Switzerland were to-day the scenes of demonstrations of workmen in favor of an 8-hour law. In Hamburg 20,000 persons, a tenth of whom were the wives and sweethearts of the workmen, paraded through the suburb of Horn, delegates from the workmen societies keeping excellent order. In the line were many bands and banners and a number of chorals. After a short meeting in the public park, at which appropriate resolutions were adopted, the crowd dispersed and devoted the remainder of the day to music and dancing No disorder was reported anywhere.

In the Belgian mining districts disorder still prevails and many telephone wires have been cut and windows smashed. Meetings were held at Liege, Seraing and other places to denounce the action of the Brussels labor union, which sent delegates to various centres to delay or prevent strikes. At these meetings it was decided to disregard the advice of the union and commence a strike to-morrow. "A general siege has been proclaimed in the villages around Liege."

VIENNA, May 3.—Fifteen thousand weavers at Bilitz and 3000 employes at Peath have been dismissed for being absent from work May day.

PARIS, May 3.—Further particulars received here in regard to the labor riot at Fourmies show that early last night a mob of about 1200 people carrying sticks and armed with revolvers surrounded the gendarme, crying: "Down with the masters! We want our brethren!" This last cry referred to the men arrested early in the day for intimidating the men who had refused to go out on strike. The mob attacked the Town Hall. The gendarmes fired their revolvers in the air in order to frighten the rioters, but without effect. The troops with fixed bayonets then charged the mob and drove it away from the immediate neighborhood of the town hall. The crowd, however, after being driven in a scared, retaliated by firing volleys of bricks and pieces of paving stones at the troops, frequently striking the soldiers. The mob subsequently reappeared with increased numbers and made an attack upon the gendarmes. A fierce conflict took place in the rear of a church.

A regiment of infantry was then summoned and an exciting time followed, the crowd fighting hand-to-hand with the police and soldiery. Finally upon the rioters persisting in their refusal to retire, the soldiers fired, killing three persons outright and wounding a number of others. The soldiers, in order to avoid the taking of life, fired low, with the result that many legs of the rioters have been amputated. After this severe lesson the mob fled. Four of the rioters wounded last night have died.

The fact that six women, several children and eight men were killed on the spot, while 30 were seriously wounded, several fatally, gives the affair the character of a massacre. The soldiers were merely exposed to stone-throwing, but they replied with successive volleys from their new Lebel rifles, inflicting frightful wounds on their victims. The houses exposed to the fire were riddled and there is every sign that reckless and wanton inhumanity was shown by the troops. The local popular commotion is intense and it finds a response in the growing excitement in every working centre. Fourmies to-night is practically in a state of siege. Cavalry patrol the streets and are everywhere greeted with yells of reprobation from excited groups of men and women.

It is learned that the sub-prefect of Fourmies ordered the firing on the crowd. It would have been still worse had not the Mayor risked his life and rushed between the combatants and implored them to stop fighting. This is the first time that the Lebel rifle had been used against human beings.

Thomas Quinn, M.P. for Kilkenny County, has written a letter to John Deasey, M.P. for West Mayo and the whip of the McCarthyite party, stating that he has seceded from the party headed by Mr. Parnell, and announcing his desire to join the McCarthyites. Mr Quinn says the main reason for taking this step is the refusal of Mr. Parnell to consent to relegate the Paris fund to order that the money might be devoted to the use of the evicted tenants.

MURDERED THE NOTARY.

A FASCINATING WIDOW CONVICTED OF MURDER.

Ill-Treatment of a Sea Captain—A Socialist Shoots Two Gendarmes and Then Hangs Himself—Foreign Money Market—General News of Europe.

PARIS, May 5.—The trial of Madame Achet, a young and beautiful widow, for the murder of a notary named Lepine has filled the court daily with a crowd of intensely interested spectators. There was a conflict of testimony in the case, and the prosecution failed to prove that the woman had accomplices, but it was shown beyond a doubt that she murdered Lepine in order to rid herself of a creditor.

Mme. Achet, while confessing the killing, said that she had acted in self-defence. Lepine having attempted to assault her. The court imposed a sentence of 12 years at hard labor upon the prisoner and ordered her to pay the sum of 2000 francs to the relatives of her victim.

The body of Lepine was found in the highway near Mme. Achet's house. He had been shot and then his throat had been cut. Suspicion fell upon Mme. Achet and she was arrested. To-day she confessed that she committed the crime in self-defence. She said that she had had transactions with Lepine, but was not intimate with him; that he came late one night and tried to assault her; that a desperate struggle ensued, in which she shot him with a revolver, and that she then dragged the body into the road and cut Lepine's throat to make it appear that tramps had murdered him.

The prosecution declares that Mme. Achet inveigled Lepine to her house and compelled him to sign a receipt for 18,000 francs which she owed him. This document, written in a trembling hand, was found in her desk. A little son of Mme. Achet testified that he heard men's voices in addition to pistol shots. A neighbor said he saw the body carried out by men.

Australia Doesn't Want Hebrews.

LONDON, May 3.—The Adelaide correspondent of The Chronicle telegraphs that the proposed scheme of Baron Hirsch to transport Hebrews from Poland and the southeast of Europe to Australia is much commented upon by the Australians and that the colonies are strongly hostile against an influx of Russian Jews.

LONDON, May 3.—Sir John Sutton, in addressing a meeting of the Chovevei Zion Association to-day, opposed the sending of Russian Jews to America. He said that he preferred the British colonies, which could easily absorb the whole Jewish population of the world. He had reason to believe that the Rothschild syndicate would withdraw their offer of a loan to Russia. It is believed that the Rothschilds authorized Sir John to make this statement.

Threats to Burn Their Quarter.

ATHENS, May 3.—A despatch from Zante, capital of the Ionian island of that name, brings news of a serious religious riot which has taken place there. To-day is observed by the Greek Christians as the Greek Good Friday, and part of the ceremonies of the day consisted of a procession of Christians, which marched through the principal streets. The processionists, however, were not contented with a peaceful demonstration. When they neared the quarter of Zante which is known as the Hebrew quarter the Christians practically besieged that section of the town.

In order to guard against just such an occurrence a cordon of soldiers had been drawn around the Hebrew quarter, and upon the refusal of the Christians to retire in peace the soldiers fired upon them, killing and wounding several people. The Christians, the despatch added, are now pillaging the houses of the Hebrews at Zante and threaten to burn the Jewish quarter of the town. It is supposed that this ordinance at Zante have their origin in the disturbances which recently occurred at Corfu.

FIGHT FOR LIFE

Two Men Shot to Death on a Midnight Train.

VIENNA, May 3. A passenger travelling from Cracow to Leoberg in the night express train last night soil badly dressed strangers and with one in each hand demanded of his three fellow travellers in the same carriage their money and valuables. A desperate struggle ensued in the narrow compartment. Although the men assisted one another they fought to desperation. The ruffian used his revolvers with effect, killing two of the men in succession. The third passenger grappled closely with the assassin, who fired in vain, being unable to touch him. Having emptied all the chambers of his revolver the assassin tore himself from the grasp of his antagonist, burst open the car door and jumped from the train while it was going at full speed.

As soon as the alarm could be communicated to the engineer the train was stopped. In the compartment where the tragedy occurred the two passengers were found shot through and through lying weltering in their blood on the floor. The cushions and lining had been torn up in the struggle, the glass was smashed and the walls were spattered with blood and penetrated with bullets. The survivor was barely able to tell the horrified passengers and guards what had happened.

The train was backed to the vicinity of the spot where it is supposed the assassin jumped out. A search was made but without avail. No trace of the miscreant could be discovered.

The English Naval Exhibition Opened

LONDON, May 3. The Naval Exhibition on the Chelsea Embankment was opened at noon yesterday with great ceremony. The Prince of Wales presided at the opening ceremonies. He wore the uniform of a vice-admiral of the British navy. The entire passageway, an eighth of a mile long, leading to the spot from which the Prince of Wales was to declare the exhibition open, was lined by well-known naval and military officers, to the rear of whom a strong force of blue-jackets and marines presented arms as the royal party passed. The Prince and Princess of Wales were conducted to a dais, after which the Archbishop of Canterbury came forward and uttered a prayer for the success of the exhibition, the prosperity and peace of the country and the health of the royal family. The Prince of Wales then replied to the address of the officers of the exhibition, after which the Princess of Wales turned a tiny switch in front of a miniature model of the Eddystone Lighthouse. There was a flash from the top of the lighthouse, and the exhibition was formally declared to have been opened to the public.

The drivers on the Steinway & Hunter's Point street railway cars at Long Island City, N.J., struck yesterday.

Peculiar Death of a Babe.

ATHENS, Ont., May 3.—Mr. and Mrs. James Kerr of Athens were horrified to find that their six months old babe, which was lying beside its mother, was dead. The little one had been in the best of health and was not even restless during the night and could not possibly have been smothered, as it was lying in its pillow in bed with features as composed as if in sleep.

Deserted Her Babe.

HAMILTON, May 3.—About midnight last night Mrs. Birely, 111 Charles-street, heard a baby crying. Going downstairs she found a baby six weeks old lying in a basket on the doorstep. Mrs. Birely brought the infant into the house and took care of it.

To Keep the Hair Curled.

To keep the hair curled, take 5 cents worth of gum arabic and add enough boiling water to dissolve it. When dissolved add enough alcohol to make it rather thin. Let this stand all night, and then bottle it to prevent the alcohol from evaporating. Put this on the hair at night after it is done up in papers or pins. It will make it stay in crimp the hottest day, and is perfectly harmless to lives and Daughters.

Children Cry for Fletcher's Castoria.

CHAINED IN IRONS.

A German Captain's Tale of Ill-Treatment By His Crew.

LONDON, May 4.—Capt. Weiss of the German steamer Dester jumped into the sea off Dover yesterday and swam to a passing smack, to the occupants of which he offered £250 to take him ashore. The offer was accepted, and he was landed at Dover. There he informed the German Consul that he had suffered from brain fever, that the crew of his steamer had kept him in irons until the vessel arrived in the channel, when they released him, but would not allow him on deck, and that he bribed a cabin boy to facilitate his escape.

HE DID WELL.

A Dresden Socialist Shoots Three Gendarmes and Then Hangs Himself

DRESDEN, May 3.—One of the money order postmen, who started with 30,000 marks in all for delivery, was proceeding on his rounds as usual yesterday. Having an order for a small amount for Herr Mehlert, a Socialist well known for his violent speeches, the postman entered his lodgings to pay it. As he opened the door Mehlert sprang from behind it and dealt him a blow with a hatchet which felled him to the floor. After a desperate struggle the postman escaped into the street and gave the alarm. A number of gendarmes were soon upon the spot and entered the house to seize the would-be assassin. Mehlert mounted to the garret, where he barricaded himself, and armed with a pistol, defied the officers to take him. Three of the latter were shot as they mounted the stairs and fell to the bottom seriously wounded. As the gendarmes were about to force an entrance through the windows Mehlert, seeing that he was sure to be captured, hanged himself to a rafter. When the gendarmes appeared on the scene life was found to be extinct.

TIRED OF LIFE.

A Wealthy Flamboro Farmer Commits Suicide While Deranged

HAMILTON, May 3.—At daylight yesterday George Forbes, a wealthy young farmer of East Flamboro, left his house intending to feed his horses and prepare to visit the city. Subsequently his footprints were traced towards Brown's Pond, a shallow body of water three-quarters of a mile away, and the body of Mr. Forbes was lying near the shore in three feet of water. It was lying face downwards with the hands spread out as if he had fallen or thrown himself forward from the shore. Deceased was about 35 years of age and leaves a widow and three small children. He had a farm on the fourth concession near Waterdown. There is little doubt that he took his own life while suffering from melancholia. Last fall he had a severe illness and has never felt well since.

Drowned in Humphrey's Lake.

RENFREW, Ont., May 3.—M. Buffet and William Deacon went up to Humphrey's Lake, nine miles from Renfrew, on a fishing trip. While examining the nets they were overwhelmed by a wave and the boat upset. Deacon started to swim to shore, but sank and was drowned. Buffet clung to the boat and was tossed about by the waves for an hour, when he reached shore almost perished with cold and completely exhausted.

Drowned in a Cistern.

MILLGROVE, Ont., May 3.—A child belonging to Robert Langton, jr., farmer, was playing about the yard and was not missed for a couple of hours. A search was instituted and the child was found at the bottom of the cistern.

Says He Will Beat the Detective Home.

EVANSVILLE, Ind., May 3.—B. P. Hutchinson started for Chicago to-day by himself. He drank considerable beer during the day, but did not appear to be intoxicated. He had been shown various telegrams from Chicago relative to himself and laughed heartily about one from a Chicago detective, who said he would be here to take him home. "I'll beat that fellow home," was his laconic reply.

Big Fire at Chatham.

CHATHAM, May 3.—About 1 o'clock yesterday a fire broke out in Northwood's elevator, spreading with great rapidity to Tighe & Stringer's produce warehouse, both situated on the bank of the river. Both buildings were destroyed. In the elevator were about 3500 bushels of wheat, the property of Richardson & Sons of Kingston and a quantity of oats; also two barley mills, which were uninsured. The insurance on the grain is unknown. The building was valued at from $15,000 to $16,000 and was insured for $6000. There was a large quantity of beans and some potatoes and peas in Messrs. Tighe & Stringer's warehouse, all of which were destroyed.

Fire at Simcoe.

SIMCOE, May 3.—Saturday afternoon the farm residence known as Brookville House, situated about one mile east of Simcoe, owned by Dr. C. H. Covernton of Toronto and occupied by Mr. R. Downing, was consumed by fire together with three barns and contents. With much difficulty the horses and cattle were rescued, but the farming utensils, hay and a quantity of grain were consumed. The fire caught from a pile of rubbish. No insurance.

Presbytgrian Church Burned.

LEAMINGTON, Ont., May 3.—About one o'clock the Leamington Presbyterian Church with its contents was destroyed by fire. The fire was doubtless the work of an incendiary, as there has been no fire in the building since last Sunday. Loss, $3000; insurance, $1400. A new building will probably be commenced at once.

A Circus in a Blaze.

SING SING, May 3.—At 2 o'clock this morning a fire destroyed $10,000 worth of property and horses belonging to the Irwin Brothers' Railroad circus, which showed in Sing Sing yesterday. Five educated horses were burned to death and several more will probably have to be shot. Two trick donkeys also perished in the flames.

In the British Commons

LONDON, May 2.—In the House of Commons to-day Baron Henry de Worms said that the Government had not received a communication from the delegates expressing willingness to introduce into the Newfoundland Legislature a domestic coercive measure calculated to avoid the necessity of the passage of the Knutsford bill. Continuing, he said that the Government had no information as to the French authorities having offered any bounty for bait or to otherwise induce the Newfoundland fishermen to break the bait regulations. As to whether the purchase in St. Pierre-Miquelon, of bait illegally brought there would or would not constitute a breach of the declaration of 1788 was a matter of opinion.

Escaped From Central.

TORONTO, May 1.—James McGinn, serving a term for abduction, escaped last evening. He was working in the store department. Taking advantage of the burnar's absence for a few moments, he managed to leave the jail walls behind him. He was in his prison garb at the time.

Shocking Death of a Crimean Hero.

CARDIFF, May 1.—A shocking discovery was made in a quarry at Llanishen, near Cardiff. A policeman found the body of a man named Moses Williams shot through the heart and mouth, and by his side was a revolver containing three undischarged chambers. The deceased was well-known, and had taken part in the charge of the Light Brigade in the Crimean War. He had been employed by the Taff Vale Railway Company for 23 years.

Don't Feel Well.

And yet you are not sick enough to consult a doctor, or you refrain from so doing for fear you will alarm yourself and friends—we will tell you just what you need. It is Hood's Sarsaparilla, which will lift you out of that uncertain, uncomfortable, dangerous condition, into a state of good health, confidence and cheerfulness. You've no idea how potent this peculiar medicine is in cases like yours.

ATTRACTIONS IN
DRY GOODS
AT
TURNBULL'S.

The change in the weather has brought with it a great demand for Millinery, also for Spring Shades in Dress Goods. Our store was never more attractive in these lines than at present. We have every new and desirable shade in stock with Millinery to match. If you are in town this week, have a look at our Grey Dress Goods and Millinery Window. Large Grey Checks for young people to be made up alone or mixed with Black. Small Black and White Checks and Stripes (broken patterns,) for older people. Goods that are hard to find, in neat patterns.

We justly claim to take the lead in our Tailoring Department for quality of goods, fit and price. We get up a splendid suit, in Halifax tweed or navy serge, for $12.00. Fine grades of Almonte and other makes of tweed for $13.00, $14.00, $15.00 and $16.00. Scotch tweeds and serges from $16 to $20 for the best. Fine all Venetian finish or diagonal cords for coat and vest, with black or fancy pantings to match, at from $19 to $22 a suit. Remember our prices. Call and see our stock, and do not pay a great deal higher figure through force of habit.

We have added this week to our already attractive stock of Boys' Clothing, another shipment just turned out of the manufacturers' hands, neat and new styles.

We show now an immense range of patterns in cottonades and shirtings, in the best quality.

We also keep all the lower lines, beginning at 5c. for shirtings and 12½c. for cottonades.

We have an opening now for an apprentice in the millinery department. Apply until Saturday.

COAL All Kinds of the best Coal kept always on hand at my Coal Yard, which will be delivered to any part of the town free of charge for cartage. Terms Cash. JAMES STEVENSON.

SUN LIFE
ASSURANCE COMPANY OF CANADA.

The attention of our Policy-Holders is directed to the following summary of the leading items of the present report, which speaks for itself as to the progress and prosperity of the Company:—

Life Assurances in force, 1st January, 1891	$16,759,355 92
Increase over previous year	3,421,372 84
New Applications received in 1890	6,371 599 15
Income over 1889	2 268 888 60
Cash income for year ending 31st December, 1890	889 078 87
Increase over 1889	325 938 35
Assets at 31st December, 1890	2,473 514 19
Increase over 1889	687,691.47
Reserve for Security for Policy-Holders	2,169 222 68
Increase over 1889	567 732 71
Surplus over all Liabilities and Capital Stock	232.175 69
Increase over 1889	75 649 05
Death claims fallen in during 1890	143,961 65

The progress made by the SUN LIFE during 1890 was remarkable. The new business was the largest in the Company's history, and was equalled by but one other Canadian Life Company. The income for the year exceeds $2,000 for each day in the year, Sundays included. The Assets are large and rapidly increasing. They are, moreover, of the highest character, yielding an average interest of 6 04 per cent. The overdue interest is small, and the Real Estate owned under foreclosure is only four per cent. of the amount of mortgages. This is a remarkable showing. The SURPLUS accumulated during the FOUR years of the current quinquennium is nearly THREE TIMES as much as the amount earned during any previous FIVE years, and the profits to Policy-holders cannot fail thus to be highly satisfactory. The following are the figures:—

Net Surplus, 31st Dec., 1881, (five years)	$64 824 07
" " " 1886,	99,452 97
" " " 1890, (four years)	232,175 69

ROWSE'S
305 GEORGE STREET.

We want to talk to you for a few minutes about Lace Curtains. Nothing is more admired or appreciated in an attractive house. Here, we can show you the newest designs in curtain muslins, both plain and shaped Scrim. Almost finger tips. We would like you to see the curtain we are selling at $1.50 per pair. If you can get them anywhere else at $2, you get them very cheap, that's all. On three pairs you would save $1.50, which would be equivalent to getting one pair for nothing.

The people are talking about Rowse's Goods and Rowse's Prices. One of our customers said the other day: "All of the people of Lakefield are talking about your goods and your prices." Well, we wonder, we give them something worth talking about.

Shrubs, table linens, napkins, white quilts, all cost money, but if you want to save money in buying them go and see Rowse in his new store.

In a few days we will show you some lovely designs in Alsatian prints, purchased direct from Boston—the great headquarters for them. Nothing like those prints to be seen in our city, but don't wait particularly for them, we can suit you at any time.

We are having a big sale of dress goods. Come and see the bargains. New trimmings to match all of our goods.

Daily Examiner.

MONDAY, MAY 4 1891.

JUST LIBERALITY.

In our issue of Saturday, the report of the Legislative assembly proceedings shows that the salary of Hon. Oliver Mowat, premier, was increased $2,000, making it $7,000 and the sessional indemnity of Mr. Meredith, leader of the opposition, increased to $2,000. In the case of the premier, Hon Mr. Mowat, there are few that will regard it as an unreasonable and less than just recognition of the great services he has rendered and is still rendering the country. With his services in the past nearly every intelligent citizen is familiar. For the past nearly score of years he has been working with the assiduity and effectiveness which few prime ministers bring to the performance of their duties, in the interests of Canada. He has not only worked but watched. He has placed the whole store of his legal and constitutional knowledge at the service of the Province, and has time after time rescued from the grasp of the aggressor the territory of this Province. In view of all the distinguished service Hon. Mr. Mowat has rendered, the increase of his salary is no undue liberality. The idea underlying the payment of members of Parliament is that of simply indemnifying them for the loss they may sustain by laying aside their own business while devoting their time to the services of their country. On this ground Hon. Mr. Mowat's salary is not excessive. He devotes his whole time to the discharge of his duties. His professional practice would yield him many times more than $7,000 per year, and not work so hard as he is now doing, so that, with his augmented salary, Hon. Mr. Mowat is serving his country at a pecuniary loss. The proposition for increase of salary being moved by a Liberal and seconded by a Conservative, and adopted unanimously by the House, shows the idea of the justice of the increase must have been impressed forcibly upon the members of the House. In like manner the sessional indemnity of the leader of the Opposition, Mr. Meredith, was increased to $2,000. He is also a lawyer with a large and lucrative practice, and taking into account the large amount of time he is required by virtue of his position to give to legislative measures, and the consequent neglect of his professional engagements, it is pretty certain that $2,000 actually comes short of indemnifying the leader of the Opposition for the time he abstracts from his personal affairs in the interests of his public duties. Looking at the matter in every light, the increase in both cases is capable of ample justification, and is a graceful tribute to the faithful discharge of public duties.

MR. GUTHRIE in moving the resolution called attention to the fact that the salary now paid the Attorney-General and Prime Minister was entirely inadequate, and he felt it his duty and he was only expressing the feelings of members on both sides of the House when he said there was a general desire that they should do what was a simple act of justice in view of the estimable services rendered to the country by the Attorney-General. "I have," continued Mr. Guthrie, "a great deal of pleasure in making the proposition, because I believe it will be supported not only by those sitting on this side of the House, but by those on the other side of the House. (Cheers). In fact the motion I am about to submit is seconded by one of the prominent members of the Opposition. When you consider what the services rendered by the Attorney-General to the country are; when we remember he is superintending the whole administration of justice in the Province; when we recollect that he has the framing of many of the measures submitted to the House and the supervision of all; when we remember that he has not only one great department of the Government to look after, but he has the care of all the departments of the Province; when we remember also the untiring zeal which we witness in the performance of his duties; when we know not only his patient and singular assiduity, but the remarkable ability he has displayed and the unfailing and unvarying courtesy which the hon. gentleman extends to every member of the House, whether on this side of the House or the other, I am sure the committee will fully endorse the proposal I have to submit. (Cheers) I need not refer to his services to the Province; we all know what they have been, but I will say this, that no money that we could vote would be adequate compensation for what this Province has received at his hands. (Cheers) Mr. Guthrie went on to remark that this was simply an act of justice. He had been in the position in the past, before accepting this office, of earning two or three times as much as this Province proposed to give him. Were the leader of the Opposition in the Attorney-General's place he could not take the office at the present salary or even at the salary he was about to propose without making a very great sacrifice; and were it not that the hon. gentleman at the head of the Government had private means of his own it would be impossible for him to live on what the Province allowed him. He might say also that we were much behind other colonies of the empire in the remuneration of our public service. He had looked at the "Statesmen's Year Book," and he found that in Australian Colonies, in New South Wales and Victoria they gave $10,000 a year to their Prime Ministers and correspondingly large salaries to the subordinate Ministers; and even in Cape Colony they paid higher salaries than we did. We did not pay the Premier Minister what we paid our judges nor what the Dominion paid their Ministers. He was sure the House would agree with him that we should go so far, at all events, that we should put him in a position equivalent to that of a Supreme Court judge or an ordinary member of the Cabinet at Ottawa. He had much pleasure in submitting this motion to the committee seconded by Mr. J. Marter, "That in view of the conspicuous and important duties performed by the Attorney-General and Premier of the Province, this committee of the whole House is of opinion that the salary paid him is inadequate and should be increased to the sum of $7,000 per annum: that the said increase take effect from the first day of January last past, and that the chairman be directed to report accordingly. (Loud cheers.)

MR. MARTER, a prominent member of the Conservative opposition, said that on going into the Chamber this evening he was asked to second the resolution, and he did so most heartily. While discussing the public questions of the day he had frequently alluded to the very small remuneration received by the Attorney-General of this province, which was too small altogether in view of the responsible duties devolving upon him. (Cheers) He was in full accord with the remarks made by the mover of this resolution. He was sure that nobody in the House or in the Province would say that it was a movement in the wrong direction, and he was sure, too, that all would say that nothing but justice had been done to one who was worthy of the position. All very heartily reciprocated the expressions of his hon. friend as to the courteous and kind treatment they received from the Attorney-General. Although the members on that side of the House differed from them politically, they all felt towards him a spirit of kindness. Therefore, on behalf of the members of the Opposition he had much pleasure in seconding the resolution which had been placed in the chairman's hands. (Loud cheers.)

FOREIGN MONEY MARKETS

An Order Issued for the Winding Up of the Anglo-Austrian Printing Co.

LONDON, May 4.—Discount was firm during the past week at 2¾ per cent. for 3 months and 2¾ for short. During the settlement on the Stock Exchange there was a strong demand for loans, the average rate being 4 per cent. The foreign drain of gold has ceased, and an influx of bullion is expected which promises to ease the money market. On the Stock Exchange there was a holiday after Thursday. The opening of the week was devoted to the settlement, after which business was restricted. The investment business was on the highest scale since last autumn, which further strengthened values

A sensation has been caused by disclosures arising from the petition for the wind-up of the Anglo-Austrian Printing Company Evanech Hansard was its promoter and Managing Director Bottomley of Hansard's Union, now a bankrupt, received £85,500 out of £93,022 received from shareholders as part of the price of business he was supposed to have acquired in Austria In addition Bottomley asked for a total purchase money of £600,000. Mr Horace Davey in applying for an order for the compulsory wind-up of the Anglo-Austrian Company, declared that Bottomley had never any business of any sort in Austria to sell. The directorate of the concern, of which the recent Lord Mayor Isaacs is chairman, in September declared a dividend of 15 per cent., although the company never possessed any business. Bottomley and the directors within a single year divided among themselves the whole share capital subscribed. An enquiry being threatened they formed a committee, which appointed a liquidator controlled by the directorate. The judge before whom the petition was made has ordered a compulsory winding-up of the company's affairs and has dismissed the liquidator. A crop of prosecutions, arising from the affair, is impending.

At Paris on the Bourse during the week business was dull and the tendency was distinctly weak. Adverse rumors continue, affecting several joint stock concerns.

A young lady of Jeffreon, West Virginia, declares that she was all run down before taking Ayer's Sarsaparilla; but that now she is gaining strength every day. Ayer's Sarsaparilla is certainly a wonderfully effective tonic for the feeble and delicate.

A Cure for Constipation and Headache.

Dr. Silas Lane while in the Rocky Mountains, discovered a root that when combined with other herbs, makes an easy and certain cure for constipation. It is in the form of dry roots and herbs, and is known as Lane's Family Medicine. It will cure sick headache, and is the best spring medicine. For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50c. and $1 a package. dw

A True Bill.

Wm. Gillespie, Wolfe Island, Ont., says: I had indigestion and stomach cough for three years. Was treated by best physicians and used numerous patent medicines without success, when two bottles of Miller's Emulsion of Cod Liver Oil cured me. I have great pleasure in recommending it. For sale by all druggists. dw

Why Not Treat.

Why not treat such troubles as boils, pimples, blotches, sores, humors, eruptions, rashes, skin irritations, etc., with Burdock Blood Bitters. It is filled with virtue as a blood purifier and goes right to the right spot. It makes the skin bright and clear, while also invigorating the entire system. 1w18-d

Now Free From Pain.

Dear Sirs—I have been troubled with Lame Back for about six months, and thought I would try Hagyard's Yellow Oil, which cured me. Am now free from all pains, and recommend Yellow Oil very highly. Frank Palmer, Winona, Ont. 1w18d

Supposing.

Supposing you suffer from some disease. Suppose it is dyspepsia or billousness or constipation or bad blood. Suppose you learn that Burdock Blood Bitters has cured thousands of cases of these and similar complaints. Don't you suppose you ought to try? It cannot harm you and in nine cases out of ten it cures. 1w18i

Once Used, Always Used.

This is a fact as regards Dyer's Jelly of Cucumber and Roses, from its wonderful efficiency in curing chapped hands, and making the skin smooth and soft. Druggists keep it. W. A. Dyer & Co., Montreal 6d92

The Royal Rheumatic Remedy, taken internally, strikes directly at the foundation of the disease. At once relieves pain by removing the cause of disease. The cause removed, a cure is effected. For sale by W. R. Greatrex, druggist, Peterborough. dw

Will positively cure sick headache and prevent its return. Carter's Little Liver Pills. This is not talk, but truth. One pill a dose. See advertisement. Small pill. Small dose. Small price. dw

In the first stage of consumption Miller's Emulsion will certainly cure. For sale at all drug stores. dw

FOR NETTLE RASH, Summer Heat and general toilet purposes, use Low's Sulphur Soap. dw

Ayer's Hair Vigor

IS the "ideal" Hair-dressing. It restores the color to gray hair; promotes a fresh and vigorous growth; prevents the formation of dandruff; makes the hair soft and silken; and imparts a delicate but lasting perfume.

"Several months ago my hair commenced falling out, and in a few weeks my head was almost bald. I tried many remedies, but they did no good. I finally bought a bottle of Ayer's Hair Vigor, and, after using only a part of the contents, my head was covered with a heavy growth of hair. I recommend your preparation as the best in the world."—F. Munday, Sharon Grove, Ky.

"I have used Ayer's Hair Vigor for a number of years, and it has always given me satisfaction. It is an excellent dressing, prevents the hair from turning gray, insures its vigorous growth, and keeps the scalp white and clean."—Mary A. Jackson, Salem, Mass.

"I have used Ayer's Hair Vigor for promoting the growth of the hair, and think it unequaled. For restoring the hair to its original color, and for a dressing, it cannot be surpassed."—Mrs. Geo. La Fever, Eaton Rapids, Mich.

"Ayer's Hair Vigor is a most excellent preparation for the hair. I speak of it from my own experience. Its use promotes the growth of new hair and makes it glossy and soft. The Vigor is also a cure for dandruff."—J. W. Bowen, Editor "Enquirer," McArthur, Ohio.

"I have used Ayer's Hair Vigor for the past two years, and found it all it is represented to be. It restores the natural color to gray hair, causes the hair to grow freely, and keeps it soft and pliant."—Mrs. M. V. Day, Cohoes, N. Y.

"My father, at about the age of fifty, lost all the hair from the top of his head. After one month's trial of Ayer's Hair Vigor the hair began coming, and, in three months, he had a fine growth of hair of the natural color."—P. J. Cullen, Saratoga Springs, N. Y.

First Communion AND Confirmation Suits FOR THE BOYS.

The First Communion or Confirmation is an event in a Well-regulated Boy's Life. The Inward Boy must be Right, the Outward Boy Neat, Respectable and Creditable.

We call the attention of parents to the fact that we have in stock a large number of Confirmation and Communion Suits, suitable for boys.

These Suits are of Proper Material, Well-Made and Inexpensive, but while Inexpensive and Whole, we start them at 65c. Per Suit. We run them up in Finest Grades of All Wool Worsteds, Scotch Tweeds, Wool Cheviots and all the Latest Materials.

The Style and Finish is Natty and Good. It is simply impossible for tailors unaccustomed to Boy's Clothing to make such Suits, and the prices will be found one-half that of Custom-Made Suits.

500 (Pairs) Boys' Knickerbocker Pants, (Lined) 75c. a Pr.

These are part of the $68,000 Stock that was scooped in by GOUGHS of Peterborough, Toronto and Brantford, and is but an index of the Rattling Fine Value they have secured all along the line.

CHANGE IN BUSINESS.

I beg to announce to my late customers that I have sold out my business to Messrs. Hilliard & Peplow, and I would bespeak for them the same support as has been accorded me.

C. N. BROWN.

ANNOUNCEMENT.

For some time past we have thought a strictly cash business in Flour, Feed and Provisions could be successfully carried on in Peterborough, and to test this question, we have purchased the above business from Mr. C. N. Brown who will still continue as manager in Flavelle's old stand, Simcoe street.

In order to be successful we intend to make it the interest of everyone to pay cash with order by selling at wholesale prices.

We will positively give no credit and cash customers will not have to keep up the losses made by others on the credit system.

We will keep a full supply of the very best quality of Flour, Feed, Crop, etc., and our customers need not fear that the quality of the goods will be lowered to make up for the reduction in prices. We are simply giving them the benefit of the margin necessary to cover losses and interest charges incurred on the credit system.

Goods delivered to any part of the town or Ashburnham.

TALKS FOR THE FARMER.

TIMELY AND VALUABLE INFORMATION FOR RURAL READERS.

The Cultivation of Nut-bearing Trees—The Profit from Chestnuts and Hickory Nuts is Not to be Sneered at—Other Farm Topics.

Chestnut and hickory nut trees are hardy and prolific, and bear nearly every year, and at the prices their fruits sell for are profitable to cultivate and protect. It is surprising that a greater number of these are not planted by our farmers, for in addition to their noble and delightful appearance, grateful summer shade, and the shelter they afford from rough winds, they produce an abundance of rich fruit. We have four excellent kinds of native nut-bearing trees which may be utilized for the above purpose, and these grow so abundantly throughout the country that they can be obtained freely and cheaply whenever desired. These are the chestnut, black walnut, the butternut and the shell bark hickory. It is not necessary to take up much land as these trees may be planted for shading roadsides and pastures, instead of other trees. The only objection that can be urged against their being grown along the roadside or on a pasture some distance from the house is that the fruit may be stolen. Very little of this would be thus lost if their owners would pick up all the fallen nuts under the trees at sundown, at the time of ripening. Strangers ascertaining this would not visit the trees, and the neighbors who did not grow them would pay the same respect as in the case of apples, pears or peaches. Besides, the double purpose of planting nut-bearing trees for shade and shelter, there are large tracts of land, such as barren hills and hillsides that it would pay to plant for the crop of fruit alone. The roots of the trees would retain the fertility of the soil and prevent the water from washing it away. This country is being rapidly depleted of wood required for manufacturing purposes, and good hickory and walnut command high prices. In fact, whether for the value of the fruit, or the timber, or for the uses that these nut-bearing trees are as shades and shelter to crops and animals, tree planting offers one of the most profitable investments that an Ontario farmer can make. In a few years millions could be added to the wealth of the Province in an abundance of saleable fruit, a steadily increasing lumber supply and cereal crops through shelter and protection. To show what an extensive trade is done in chestnuts is one of the adjoining States, Connecticut, we quote from an exchange, which said last fall "chestnuts are plentiful now in all the markets, and the shipping of the nuts to the big city marts is in full tide. The price paid to the pickers for chestnut is $2 a bushel, and it takes five pecks to make a wholesaler's bushel, so the retailers say. Not much care is taken in sorting the nuts, and worms count equally with meat in the nuts. The nuts are shipped in barrels to Boston and New York, and three bushels make a barrel of them. They cost the shippers $7.25 a barrel—$6 for the chestnuts, 25 cents for barrel, $1 for expressage. The amount of chesnuts shipped from Hartford daily in the season averages about fifteen or twenty barrels. The New York wholesaler gets $8 or $9 a barrel, and the auction price in the metropolis is $10. At 10 cents a pint for roasted chestnuts the consumer buys at the rate of $6.40 a bushel. In the country every grocer, and even the country Postmaster, who also sells groceries, takes chestnuts in exchange for meats and groceries."

In Canada chestnuts sell readily at from $4 to $4.50 per bushel, and hickory nuts at $2.50 per bushel, thus insuring a good profit to the cultivator

To Eradicate Canada Thistles.

The Illinois Experiment Station offers the following advice to those who have patches of Canada thistles to eradicate: (1) Cut the thistles when in full bloom duly as close to the ground as possible. (2) Plow about three inches deep and sow millet or Hungarian grass, seeding heavily, harrow. This may follow the preceding at once, or after some two weeks' delay. (3) In September plow under the crop, or save it for hay, as desired. At all events plow and seed liberally with rye. (4) Plow under the rye in May and seed again with millet, or Hungarian grass, or plant to some hoed crop (corn), and give the most thorough cultivation, with continued searching for the destruction of every remaining thistle. (5). Continue the clean cultivation and sharp lookout for thistles another year. On poor land labor should no doubt be saved by manuring, beginning preferably in the early spring of the first year, or, better still, the preceding autumn or winter. The cultivation need not be deep at any time. Cutting the thistle-stems three inches below the surface is as effective as at any greater depth, and labor is saved. But the utmost endeavor should be made to include in each process every living plant. From repeatedly cutting off the aerial parts, the underground portions are sure to die of exhaustion, and mostly within the limit of one summer.

SPRING POINTERS.

Almost any soil, free from stagnant water and plowed deep, is suitable for fruit trees. When setting pack the soil firmly, except the last three inches. Buyers should not trim nursery trees until the second spring after setting and secure a strong growth of leaves and roots first.

Less labor is required in orcharding than in other branches of farming, but there is work that must be done. Prune, scrape off the rough bark, fight the insects, spray and you will surely have choice fruit, for which there is always a demand at good prices.

The best use for wood ashes is as a fertilizer in field or garden. Coal ashes can be worked into clayey soils to advantage to loosen them, also in dry or sandy soils to make them more absorbent and to hold the water better. Soot is of some value as a fertilizer, also. Fine sifted coal ashes alone are excellent for a dust bath for hens, and are not improved by adding wood ashes to it.

Instead of charging 10 per cent. depreciation per year of your horses, sell or trade some of the geldings and put in some mares and raise colts. The mares will do your work just as well and give you 30 per cent profit instead of 10 per cent loss. Raise your own horses and sell to the other fellow who thinks he can buy them cheaper than he can raise them.

A cheap and good remedy for leg weakness in young chicks is cut clover hay. I had two good batches from my incubator, but the chicks had weak legs, so I threw in some clover hay with small grain mixed in. The next day, to my surprise, all the heads, leaves and fine stalks were gone, so I threw in some more. In a week the 85 month-old chicks would eat a milk pan full of the clover hay daily. The leg weakness disappeared at once and the chicks did finely.—Farm and Home.

Rives & Palmer's shipyards at Bilboa, Spain, have been burned by incendiaries.

Emin Pasha is marching on Kibiro with the intention of recovering the ivory he abandoned there.

One of the chamber maids employed in the Rochester Hotel, New York, was suffocated during a fire in the hotel yesterday.

Bishop McIntyre of Prince Edward Island died suddenly Friday night of heart disease while on a visit to Bishop Cameron at Antigonish.

Dr. Hamilton Detatteham, late of the Indian army, has been committed for trial on a charge of gross indecency at the Junior United Service Club.

Mr. Bottomly, managing director of Hansards Union, was in the bankruptcy court at London yesterday. His liabilities are £250,000. He is bankrupt but hopes to pay his creditors in full.

Parnell and Tim Healy had another set-to in the House of Commons yesterday upon a suggestion of Parnell that the Irish members should assist in the more speedy passage of the Irish Land bill.

B. P. Hutchinson of Chicago ("Old Hutch") was walking aimlessly about the streets of Evansville, Ind., when arrested. He appears to be entirely unbalanced in his mind.

At the Ottawa Assize Court the grand jury returned "no bill" on the charge of attempted rape against William Evans, coachman, on his 16-year-old daughter.

Archibald Andrews, the oldest man in North Carolina, died near Hillsboro Wednesday, aged 107. He leaves a brother, Henry, now over 100 years old.

Last week the Essex Centre Council decided not to oppose the motion to quash the local option bylaw. A meeting was held yesterday, however, when it was decided to instruct J. J. McLaren to appear for the town and oppose the motion. The License Commissioners will withhold licenses for the town until the matter is settled.

Free Education in England.

LONDON, May 1.—The leading proposals of the Government's free education measure are gradually leaking out. They confirm the Liberal expectance that it will be a Tory clerical measure against which the party will fight to the death. The ministers' privately assure their supporters that the bill will tend to strengthen the position of the denominational schools. The anxiety of English Church circles has been set at rest by communications through the Bishop of London and other clerical leaders, that an understanding has been arranged with the Government which preserves intact vested interests of the church. Similar assurances have also been given privately to Catholic bishops. This understanding is producing a strong clerico-political combination against which the Liberals, who are working for the popular control of public money given to the schools, will find it hard to contend. In spite of growing opposition, the Ministerialists profess to believe they will carry the bill through the House of Commons within a fortnight after it is introduced. Many Liberal Unionists and numerous Conservatives insist that the Government will commit a grave tactical mistake if they postpone the general election until next year. The Tory Provincial election agents persistently appeal to the Minister to dissolve without delay.

A dry, hacking cough keeps the bronchial tubes in a state of constant irritation, which, if not speedily removed, may lead to bronchitis. No prompter remedy can be had than Ayer's Cherry Pectoral, which is both an anodyne and expectorant.

Ask Your Friends About It.

Your distressing cough can be cured. We know it, because Kemp's Balsam within the past few years has cured so many coughs and colds in this community. Its remarkable sale has been won entirely by its genuine merit. Ask some friend who has used it what he thinks of Kemp's Balsam. There is no medicine so pure, none so effective. Large bottles 50c. and $1 at all druggists. dw

Editorial Evidence.

Gentlemen—your Hagyard's Yellow Oil is worth its weight in gold for both internal and external use. During the late La Grippe epidemic we found it a most excellent preventive, and for sprained limbs, etc., there is nothing to equal it. Wm. Pemberton, Editor Reporter, Delhi, Ont. 1w181

Spring Cleaning.

Be particular every spring to clean the house, but never mind cleansing the blood until some troublesome disease takes hold of you. This is poor policy when by using Burdock Blood Bitters the blood will be thoroughly cleansed, the body strengthened, and future suffering prevented. 1w181

Ahead of Koch's Lymph.

Charles Campion, Kingston, Ont., says:—Gained 7 lbs. with one bottle of Miller's Emulsion of Cod Liver Oil. Cured bad Bronchial Cough with a few doses and made me feel like a new man. I strongly recommend it. All druggists keep it, dw

A Winnipegger's Opinion.

The following is taken from a letter from Mr. D. Davis, Winnipeg, Man.: "Being persuaded to use Hagyard's Pectoral Balsam for a troublesome cold, I was entirely cured by the use of two bottles." 1w184

When Baby was sick, we gave her Castoria
When she was a Child, she cried for Castoria
When she became Miss, she clung to Castoria
When she had Children, she gave them Castoria

Everybody Admires Soft White Hands,

And every lady ought to use Dyer's Jelly of Cucumber and Rose, as it makes the skin soft and smooth. Druggists keep it. W.A. Dyer & Co., Montreal. 6'92

SOME SYMPTOMS OF WORMS are:—Fever, colic, variable appetite, restlessness, weakness and convulsions. The unfailing remedy is Dr. Low's Worm Syrup. dw

Will be found an excellent remedy for sick headache Carter's Little Liver Pills. Thousands of letters from people who have used them prove this fact. Try them. dw

AN INACTIVE or Torpid Liver must be aroused and all bad bile removed. Burdock Pills are best for old or young. dw

AS A PICK-ME UP after excessive exertion or exposure, Milburn's Beef, Iron and Wine is grateful and comforting. dw

DORENWEND ELECTRIC BELT

And Attachments.

THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliances. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and ranks as No. 2 best in the world; we defy anyone to bring proof to the contrary.

Do not class this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you wish to experiment with cheap articles, pay THEM; but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. The Dorenwend Electric Belt and Attachment Co., C. H. DORENWEND, Electrician, 103 Yonge St., Toronto, Canada. eod-w

ALEX. ELLIOTT'S.

Sole Agent, Peterborough.

The Last Week

in the Bon Marche, and will slaughter goods at the following prices this week, ending by an auction sale Saturday night next:—Best 50c. Indian tea, 35c. per pound; good 30c. Congou tea, 18c. per pound; good family flour 35c. less than mill prices; 10 lbs. Lawry's lard for $1; 19 lbs. nice light sugar for $1; 5 lbs. boneless fish for 25c. Everything else in proportion to make a clearance, as this is the last week. M. CARTON. d

Precocious Birds.

Last Tuesday Mr. Robert Telford, of Smith, while using a grain seeder, made a remarkable discovery. The seeder disturbed a tuft of grass, and lo! a bevy of full-fledged graybirds flattered from the nest that was so disturbed. After a brisk chase Mr. Telford succeeded in capturing two of the early birds, which, if they believed the old proverb, were certainly after the worm, for they are the "earliest" birds that have appeared in Smith within the memory of the oldest inhabitant. Birds fully fledged, and about ready to leave the parent nest on April 23th, is something remarkable.

Cattle Shipments.

"Mr. James Eakens," says the Port Hope *Times*, "has been making large shipments of cattle during the past few days to Montreal, where they will await shipment to England. Large droves of stock are coming in from all directions to be loaded at Port Hope. Mr. D. E. Charlesworth, of Port Hope, sent in some splendid thoroughbred shorthorn steers and bullocks. One eight-year-old bullock dressed 2 160 lbs. at the market. It seems unfortunate to have such a breed so much in the butcher's store is little demand for improvement of stock purposes."

Children Cry for Pitcher's Castoria.

Ashburnham Assizains.

There was a good deal of insubordination in the air of Ashburnham on Saturday. A team belonging to Mr. Wm. McIntyre who lives two or three miles beyond Keene, started to run away at the corner of Mark and Elizabeth streets, smashed the vehicle and was caught at Downer's Corners without any person being injured. A single horse whose driver as well as the horse himself was said to have had too much spirits, ran away, also without doing any serious damage.

A Norwood Wife Beater.

On Saturday Police Magistrate Kimleon received a telegram from Norwood asking him to go down at noon and hold court. He did so, and found a man named Joseph Woodcock had been arrested for beating his wife. It seems Woodcock Friday night pulled his wife's hair and threatened to kill her. Woodcock was committed to gaol for a month. He is the same man who some time ago was committed for insanity, but subsequently discharged by the gaol physician.

Conference in Napanee.

The programme of the events for the Bay of Quinte Methodist conference at Napanee is issued. It opens on June 2nd in the Eastern Methodist church, the stationing committee meeting May 29th. The week's events will be: June 2nd, temperance meeting; June 4th, educational meeting; June 5th, reception service; June 6th, theological union gathering; June 8th, missionary gathering, with Rev. C. T. Cooking of Japan, as a speaker. Rev. W. Briggs, Toronto, will preach the ordination sermon Sunday morning and Rev. Chancellor Burwash will fill the pulpit in the evening.

The West Coast Trade.

The *Monetary Times* says:—The William Hamilton Manufacturing Co., of Peterborough, Ontario, seems to be doing an active business in British Columbia. It has got the contract to supply all the machinery for the Pacific Lumber Co., which is starting a mill at New Westminster, and is to have a daily capacity of about 250,000 feet. Morse's mill will be greatly improved and the capacity largely increased. When supplied with new machinery, the capacity will be about 200,000 feet per day. This same company will also supply the machinery for the mill that will shortly be started at Ladner's Landing, and which will then have a capacity of 75,000 feet.

The Enlarged Sunday School Room.

As will be seen by advertisement elsewhere tenders are asked for the additions to the Sunday school room of the Charlotte street Methodist church, rendered necessary by the increasing attendance at the Sunday school. The plans have been prepared by Mr. Blackwell, architect, and show what a marked improvement both in accommodation and appearance will be effected by their being carried out. The enlargement consists of the addition of a wing to extend at right angles to the present structure westward to Reid street. This will result in a greatly enlarged main hall and a total of six large class rooms. The roof of the old building is to be raised to a level with that of the new structure so that the ceiling of both will be of an uniform height of 18 feet instead of thirteen feet as at present.

Our Queen's Birthday Guests.

Major Hodgins, of the Governor-General's Foot Guards, Ottawa—who are to be our honoured and welcome guests on May 24th-25th—was in town to-day, and in company with Adjutant Dennistoun, making arrangements for the billeting of the men and for the camping site. For the latter, Burnham's Point, the bivouac of Queen's Own last year was chosen. The men will be distributed amongst the various hotels for meals, but will sleep at the camp on the Point. Our pacific invaders will descend upon us about 6 o'clock on Sunday morning May 24th and remain with us till the departure of the midnight train at 12 o'clock Monday night. The Rangers as well as the citizens are looking forward to the visit of the Ottawa volunteers with a good deal of pleasurable anticipation.

A Concert Exchange.

Now, while the favourable impression created by the excellent performance of our local amateurs at the P.A.A.A. concert is fresh, the EXAMINER has a suggestion to make. The Peterborough Amateur Orchestra was the chief element in the programme at this concert, and they acquitted themselves with great credit. The orchestra have now excellent material and are able to give a good account of themselves. Port Hope has an excellent amateur orchestra. Now, would it not be a good idea for these two orchestras to unite and give two concerts—one in Peterborough and the other in Port Hope? The necessary selections being made, both orchestras could practice them by themselves, and a few united rehearsals could be held and the necessary degree of proficiency be easily reached. The best local amateur solo vocalists and instrumentalists could be doubtless enlisted, and would take a hearty interest in the scheme. The matter has been mentioned to two or three local musicians in Peterborough, and they think the idea of a couple of exchange concerts both a feasible and an excellent one. The idea of financial profit beyond the necessary expenses, of course would not enter into the affair, but the interests of music would be largely promoted and a more pronounced feeling of fellowship and sympathy, such as should exist between the musicians of Port Hope and Peterborough, would be developed.

Church Chimes.

The services in the Mark street Methodist church, Ashburnham, yesterday were more than usually impressive, especially in the morning, owing to the fact that the quarterly sacramental service was conducted at the close of the regular service by the pastor, Rev. A. C. Wilson. This was the last time he will have the opportunity of meeting his congregation in this connection, as he leaves for a new field of labor after the conference in June. Quite a number of those present testified to the fact that it was owing to the present pastor's labors among them that they owed their conversion. The sacred ordinance was partaken of by a large number of the members connected with this circuit, quite a number of whom were added to the church membership this past year. The sermons both in the morning and evening were very impressive and full of earnestness and power.

The special quarterly services in the George street Methodist church on Sunday were well attended. The services at 11 and 7:30 were conducted by Rev. A. R. Campbell, assisted by Rev. Mr. Locke. Rev. Mr. Davis, who was to have taken part, was prevented by indisposition from so doing. At the close of the communion service in the morning, about twenty five persons were admitted to membership in the church.

Last night Rev. E. C. Caley, fellow of Trinity College Toronto, preached the sermon in St. John's to large congregation. His subject was prayer in nature and some objections to it, form the standpoint of materialism and fatalism. The subject was handled in an eloquent and masterly manner.

News Nuggets.

—Burch's "Uncle Tom Cabin," under canvas, is making for Peterborough.

—The Ashburnham city fathers hold council to-night.

—Two drunks were fined at the police court this morning for drunkenness and disorderly conduct.

—When you go to buy Hood's Sarsaparilla be sure to get it. Don't be put off with an inferior substitute. Insist upon Hood's.

Personal.

Mr. H. H. Smith, Dominion Commissioner of Crown Lands, Winnipeg, spent Sunday in town en route to Ottawa.

Messrs. J. R. Stratton M.P.P. and Thos. Bedard M.P.P. west and east Peterborough respectively have returned home permanently from their legislative duties in Toronto. There will be only a formal session of the legislature before prorogation.

The well known strengthening properties of Iron, combined with other tonics and blood purifying nervine, are found in Carter's Iron Pills, which strengthen the nerves and body, and improve the blood and complexion. dw

Tea and Sale by St Luke's Ladies' Aid Society, Tuesday, May 5th. 2d

From the North Pacific Coast.

DEAR EXAMINER:—Having become comfortably settled at Fort Simpson, B.C., I with pleasure write you an account of my trip northward from Victoria to the Fort. However before doing so I might give to your readers, who are interested personally, a brief description of my journey across the continent, but entering into the details of my northward journey. I would have been glad to have written sooner, and I here purposed offering an excuse but I find I have none to give.

We left Peterborough on the night of the 19th February last, and as the C. P. R. express steamed out of town I looked longingly at the old scenes which were fast vanishing from view; and the thought came to me, what will this thriving native town of mine have become when in future years I again (as I trust I will) set my eyes on what will be the emporium of central Ontario. But such retrospections are not becoming here.

Arrived in Toronto duly and remained there till 11 p.m. Friday, when we took the train for the coast. On arriving at North Bay we changed for the express on the main line. Passed through Sudbury, famous for its nickel mines, where the division of the line branches off to the Sault. Here the scenery takes a romantic turn, and, although for hundreds of miles everything shows itself to the eye a dreary waste, who knows what wealth may be hidden among these rocky ridges.

Sunday morning the first sight of Lake Superior was had, and as we skirted the north shore of this inland sea for a considerable distance, we were afforded many a grand scene. To the left of us the beautiful lake, over which we could gaze till our vision was lost in space; to the right of us the steep cliffs, to the sides of which the gentlemen engineering skill of our country had fastened a line of travel and commerce. Crossed the Nepigon river near by an old site of one of the Hudson Bay forts.

Port Arthur, a town of 5 000 and over, was passed on Sunday evening. On account of the fresh, bracing air blowing off here from Superior, this town is becoming a noted summer resort. A few miles further on is Fort William, another of the Hudson Bay Company's old posts. After travelling through the night and the next morning, the prairies were reached, and soon after the metropolis of Manitoba comes to view. Winnipeg has all the accommodations and facilities of an eastern town. Commanding a large extent of trade, its hopes for the future are very encouraging.

On our way farther westward the thriving towns of Portage la Prairie, Brandon, Qu'Appelle, Regina, Moosejaw and Medicine Hat are passed, and we reached Calgary, situated on the Bow river, and said to be one of the handsomest towns between Vancouver and Brandon. Here the white peaks of the Rockies appear in sight. Among the citizens of the town is an old Peterboroughite, by name Braden, who is editor and proprietor of one of the leading newspapers. Your correspondent had the pleasure of meeting Mr. Braden, and found him the same jovial gentleman, who once ruled with the birch in our native town.

The foothills of the Rockies are reached, where vast herds of horses, cattle and sheep are to be seen grazing on the green uplands. Soon we enter the gap and the gallant iron steed puffs vigorously as it climbs the steep ascent. At last the summit is reached a short distance west of Field, and then we make our way carefully down the western side of the mountains, through the narrow gorges of the Kicking Horse Pass, the snow mountain engine, now and again giving its four shrill whistles as signals to the watchmen at the safety switches that all is well. It might be said that the C. P. R. Company use every precaution against all probable danger.

The Selkirks are also crossed by way of the Rogers' Pass and the valley of the Illecillewaet. Making the greater part of this journey by night, we reach Kamloops, a town of no little importance. We hurry on down the valley of the Thompson and Fraser rivers, passing on our way promising little towns whose population consists of whites, Chinese and Indians. Really the route across the Cascades appeared to your correspondent more charming, yet not so romantic, as that of the Rockies or the Selkirks. Truly the scenery is more quaint as is presented by the Indian villages in contrast with the Chinese huts. Along the line are to be seen many Indian graveyards, rudely decorated after their own fashion. While we are thinking of these aboriginal tribes and their customs, we are awakened from our state of dreaminess by the cheery voice of the porter of the old "Australia," calling out New Westminster junction, and then their is a slight bustle in our coach, caused by preparations being made by those of our fellow-travellers who change for New Westminster.

On we go in the darkness, for we are several hours late—the delay being caused by the depth of snow on the Prairies, until suddenly we see the bright lights of Vancouver coming to us from over the Bay (Burrard Inlet). In a few minutes we step out at Vancouver depot just 2900 miles from old Peterborough.

Now Mr. Editor I did not intend taking up your space such an extent, in giving you what has been seen and realized by so many but you will pardon me if the promise is given to use my best efforts to give a fair description of the northward trip. I shall endeavor to send, for an early issue of your worthy paper, such a description. Will you allow me to close with the following lines by Mosley McLaughlin? I think they are very suggestive.

"Thy lakes and waters as a voice
Of many waters raise
To Him who planned their vast extent
A symphony of praise.
Thy mountain-peaks o'erlook the clouds—
They pierce the azure skies;
They did thy sons be strong and true—
To great achievement rise.'

Yours respectfully,
W. S.

Sugar Beet Seed Distribution.

The Directors of the Farmers' Institute Meet—Applicants for Seed—Applications from Leading Agriculturists.

A meeting of the directors of the West Riding Farmers' Institute was held at the Morgan House on Saturday afternoon. There were present Messrs. Dawson Kennedy, president; John A. Davidson, secretary; W. Collins, W. Rutherford, H. C. Garbutt and T. E. Ball.

Applications for seed were made by the following gentlemen; two pounds, sufficient for planting a quarter acre, being allotted to to them:—D. Kennedy, F. Birdsall, W. Collins, W. Rutherford, H. C. Garbutt, John Cleghorn, T. E. Ball, Jos. Redmond, John Shaughnessy, Mr. J. Johnson, Mr. B. Maybee, John Stothart, John Garbutt, Thos. Stothart, Wm. Stothart, Joseph Barnard, G. W. Munn, W. Adams, S. Matchett and Jos. Milburn.

Persons who have applied for seed may obtain it by calling calling at the flour and feed store of Mr. C. N. Brown Simcoe street. The amount first sent for having been found insufficient, twenty more pounds have been ordered. There is seed enough to give about a dozen more applicants about two lbs. each.

In this connection it may be brought to mind that the annual meeting of the West Riding Institute will take place at the Council Chamber Peterborough on Saturday June 6 th and the joint picnics of the several district Institutes will be held on the following Thursday, June 11th.

Smith.

(From Our Own Correspondent.)

At the meeting of the patrons of Industry in Millburn's school house on April 24th, the members of the association proposed a debate for part of the entertainment of Friday evening May 8th, the subject selected by the ladies is whether is married or single life the happiest life to live? The leaders of the debate are Mr. Wm. Stothart for married life and Mr. E. A. Sanderson for single. We believed Will intends holding up his part of the subject while Ed is bound to show that married life is not all sunshine.

A Spring Medicine.

There are few who do not at this season feel the need of a spring medicine, and to all such we recommend Lane's Family Medicine as the best. This is a pleasant herb drink made by pouring boiling water on the dried roots and herbs. Druggists sell the packages at 50c. and $1. It is the best as well as the pleasantest cure for constipation and headache. dw

Have You Tried

Imperial Cream Tartar Baking Powder. It is the purest of the pure. All grocers sell it. 1 tf 6-w

The Cause of Crime.

One of the largest and most important documents laid on the table of the House of Assembly for many a day is the report of the Prison Reform Commission. Among a mass of important matter embraced in the report the prominent causes of crime, are set down by the commissioners, in effect, as follows:—

(1) Want of proper parental control, the lack of proper home-training of children due to the culpable neglect of parents, their indifference to parental duties and the influence of bad homes.

(2) Intemperance, directly and indirectly.

(3) The transmission of hereditary tendencies, associated with evil environments.

(4) Idleness—that is, dislike for work and determination to do little or no work. Of idleness, as of drunkenness, it may be said that it is difficult to decide whether it should be regarded as cause or as effect. It may certainly be traced in many cases to want of parental control and proper home-training. The boy who is allowed to do as he pleases until he has reached the age of fifteen is not likely to acquire a taste for steady employment afterward.

(5) Ignorance. It is feared that many are growing up in utter ignorance of what good citizens should be.

(6) The inordinate eagerness to acquire wealth, or to get money sufficient to satisfy the excess of the extravagant or the profligate, which prevails in this age and on this continent, is in many cases the cause of crime.

(7) The neglect of its duties by the State and by society in all its other forms of organization is largely responsible for the prevalence of vice and crime.

(8) Lastly, the importation into this country of those unskilled to the conditions of life here.

The commissioners have an exhaustive treatise on this branch of their inquiry, and they cite many eminent authorities.

A Great Convention.

Probably the largest religious convention which has ever been held will meet in Minneapolis from July 9 to 12 this year, the event being the tenth annual convention of the Young People's Society of Christian Endeavor. Preparations are being made for the reception of from twelve or fifteen thousand delegates. The first number of *The Bulletin* has just been issued. This paper gives full information as to what has been done in making complete arrangements for the great meeting. It is invaluable to all intended visitors, as it tells how to get there—fares, hotel arrangements, and gives the personnel of the various committees of management. From the *Bulletin* we glean the following: The convention will be held in the Minneapolis Exposition building, a magnificent structure, which is being altered to give seating accommodation to the thousands who will attend. Everything is being done that can be done to ensure comfort for all. It is no easy matter to care for twelve thousand wide-awake, enthusiastic young people. That means 36 000 meals a day and 12 000 pillows at night, but the people of St. Paul and Minneapolis are in earnest, and all will be amply provided for.

The Committee on Transportation report having arranged for return tickets at single fare from any point in Canada or the United States, good for sixty days.

Arrangements are being made so that all delegates from their own districts may travel together in special vestibuled trains, and all such trains will be boarded before their arrival in Minneapolis by members of the reception committee, who will direct the visitors to their quarters. It is stated that even now almost every room in the hotels is engaged. Canada will not be behind hand with her delegation, as a number have already signified their intention of being present.

Ottawa Gossip.

OTTAWA, May 4.—George Sanfield Macdonald will oppose Rory Maclennan in Glengarry in the event of the seat being thrown open.

The session is opening inauspiciously for the members. Sir Adolph Caron was taken suddenly ill at the state dinner on Thursday night and has been confined to his house since, but is expected to be out to-morrow. Laurier and Livingston are both said to be suffering from slight indispositions to-day, but nothing serious. The most severe illness so far is that of Senator Haythorne, who is laid up at the Grand Union with a severe attack of inflammation of the lungs, and whose recovery is considered doubtful. It appears that he had been suffering from a severe cold for some days and on Thursday night took a warm bath, which so weakened him that on returning to his room he fell exhausted on the floor, unable to gain the bed or reach the bell to ring for assistance. He managed to get hold of some of the bedclothes and pulled them over him, but laid helpless for hours and got so severely chilled that inflammation of the lungs set in and he is in a very precarious condition, although reported to be a little easier to-night.

A deputation of Montreal steamship owners and agents, consisting of Messrs. J. Allan, Allan Line; D. Torrance, Dominion Line; R. Reford, Reford Line, and J. Thom, Beaver Line, had an interview yesterday with the Ministers of Marine and Agriculture with reference to the new regulations for shipment of cattle. Heretofore the space allowed for each animal has been 2 feet 6 inches, but as the result of the recent investigation the bill which the Government proposes introducing will increase this to two feet eight inches. The shippers are anxious that this regulation should be put into force this year, but the vessel owners object. It is understood that the Government agreed not to enforce the regulations until the bill has been passed. The shipping season begins to-morrow. It is expected that a big deputation of shippers will be here to-morrow or next day to urge the Government to change the regulations at once.

The Regent In Sore Distress.

CALCUTTA, May 3.—It is learned that the regent of Manipur has taken the Chasad route in his flight—that the number of his followers has dwindled to 30. The party keep among the hills to prevent pursuit.

The Manitoba Crops.

An Excellent Showing on the Part of the Farmers.

Manitoba crop reports in the Winnipeg *Free Press* show that in thirteen places on the main line of the C.P.R. the bulk of the wheat is in the ground, and some of them more early an inch or two above ground. There has also been an increase in acreage of from ten to twenty-five per cent. The spring is the earliest known for years, and vegetation is very much further advanced than it was at the same period of last year. In High Bluff, Portage la Prairie, Alexander, Griswold, Virden, Moosomin, Broadview, Moosejaw, Regina and Calgary, the seeding is well advanced and in some places half finished. In Arden, Douglas and Griswold the seeding was done. These are all stations on the main line, and report that there is plenty of moisture and that everything promised well. Along the Pembina branch the seeding is shown to be progressing rapidly in Morris, Marden and Holmfield. In Cromwater, Cartwright, Boissevain, Manitou, Pilot Mound, Crystal City, Killarney and Gretna, the seeding was nearly all done. In the south-western country, which takes in Westbourne, Miami, Gladstone, Rapid City, Neepawa, Newdale, Strathclair, Shoal Lake, Solsgirth, Binscarth, Lauzenberg, Russell, Birtle, Saltcoats, Yorktown and Prince Albert, seeding was either finished, or nearly finished, and the most hopeful outlook prevailed.

POWERS—At Bridgenorth, on Friday, 1st May, 1891, the wife of Mr. James Powers, of a daughter.

Purity of the blood in a pure condition is universally known, and yet there are very few people who have perfectly pure blood. The taint of scrofula, salt rheum, or other foul humor is hereditted and transmitted for generations, causing untold suffering, and we also accumulate poison and germs of disease from the air we breathe, the food we eat, or the water we drink. There is nothing more conclusively proven than the positive power of Hood's Sarsaparilla over all diseases of the blood. This medicine, when fairly tried, does expel every trace of scrofula or salt rheum, removes the taint which causes catarrh, neutralizes the acidity and cures the germs of rheumatism, drives out the germs of malaria, blood poisoning, etc. It also vitalizes and enriches the blood, thus overcoming that tired feeling, and building up the whole system. Thousands testify to the superiority of Hood's Sarsaparilla as a blood purifier. Full information and statements of cures sent free.

Your Blood

Hood's Sarsaparilla

On Fire with Eczema

Terrible Sufferings of Little Baby—Seven Doctors and Two Hospitals Fail —Cured by Cuticura.

My baby boy, 5 months old, broke out with eczema. The itching and burning was intense, the eruption spread to his head, face and body, until he was nearly a mass of loathsome sores pitiable to behold; he had no rest day and but little night's rest for me. He was under treatment at different times at two hospitals and by seven doctors in this city without the least benefit; every prescription of the doctors was faithfully tried, but he grew worse all the time. For months I expended about $2 per week for medicines, and was entirely discouraged. I purchased CUTICURA SOAP and CUTICURA RESOLVENT and followed the directions to the letter. Relief was immediate, his sufferings were ceased, and rest and sleep permitted. He steadily improved and in nine weeks was entirely cured, and has now as clear a skin and is as fair a boy as any mother could wish to see. I recommend every mother to use it for every Baby Humor.

MRS. M. FERGUSON,
26 W. Brookline street, Boston.

Cuticura Remedies.

The greatest skin cures, blood purifiers, and humor remedies of modern times, instantly relieve the most agonizing forms of eczema and psoriasis, and speedily, permanently, economically, and infallibly cure every species of torturing, disfiguring, itching, burning, bleeding, scaly, crusted, and pimply diseases and humors of the skin, scalp and blood, with loss of hair, from infancy to age, whether simple, scrofulous, or hereditary, when all other methods and best physicians fail.

Sold everywhere. Price, CUTICURA, 75c. SOAP, 35c.; RESOLVENT, $1.00. Prepared by the POTTER DRUG AND CHEMICAL CORPORATION, Boston.

BUY A HOME!

Stop Paying Rent! Be Your Own Landlord!

WE OFFER FOR SALE BY PUBLIC AUCTION ON

MONDAY, 11th MAY, 1891, at Three p.m., on THE GROUND

Lots on Romaine Street. Each Lot is 33 ft. by 220 ft. Soil high and dry, sandy loam. Ten minutes walk from the Edison Works, Peter Hamilton Works, the Carbon Works, and the Bridge Works. The new Electric Car Line will touch this street, and George and Aylmer Streets will be opened through to the Fair Ground.

To secure a respectable street the deeds will contain a clause compelling the purchasers when they build to erect uniform distance from the front, and that the houses when built shall not cost less than $800. These lots are double the depth of the ordinary town lot and are fine for gardening. This is the finest property in the market and one which will afford the best building lots to be had at low prices. These are only lots left on the south side of the street. Lots in the neighborhood are half the depth sell at $8 to $10 per foot frontage, while these lots are 220 ft. deep and will be sold for what they will bring. The lots while sufficiently near the great factories, are close to George street, and being off the main, are clean and healthy.

Ten years will be given for payment. $5.

VOL. XII. NO. 105. PETERBOROUGH, TUESDAY, MAY 5, 1891. PRICE TWO CENTS.

CASH HARDWARE STORE.

On and after 1st April we shall do business on a **Cash Basis.**

To cover the inevitable ones attendant upon a credit business, which accrue from amount of time spent in keeping accounts, collecting, bad debts, interest account, and in numerous other ways, larger margins of profit must be asked.

In these times cash buyers ask, expect, and are entitled to close prices. A careful consideration of the subject convinces us that the time has come for a cash business done on smaller profits.

The only customers who may possibly be put to inconvenience are those who have had long credit. In more ways than one it will be to their advantage to pay cash.

For convenience of our old customers who consider their accounts due when presented, we will call 30 days cash and render all accounts the first of each month, and we wish to say that will be happy to do business with them on those terms.

As the new departure is something of an experiment, what would be considered a close cash price will be made all through the stock. Not a few leaders only, but a general reduction in everything from the fourth flat to the cellar.

Our idea is to perform more than promised rather than promise more than can be fulfilled.

Our stock is large and varied, consisting of **Builders', Contractors', Household, Mechanics', Painters', Shoemakers', Farm, Mill, Factory, Lumbermen's, Sporting, Threshers', Cabinet-makers', and other lines of Hardware.**

An old saying:—"You should go to Kingan's where you can get anything from a Needle to an Anchor."

DOMINION PARLIAMENT.

THE DEBATE ON THE ADDRESS TERMINATED.

Mr. Charlton Delivers an Excellent Address—Mr. Laurier Indisposed—The Prohibition Question—Interesting Capital Chat.

OTTAWA, May 4.—The debate on the address died of anæmia this afternoon. The first half hour after prayers was taken up in presenting petitions, a great portion of which were the prayers of persons favoring prohibition of the liquor traffic.

Mr. Charlton's speech on the resumption of the debate on the address in reply was the event of the afternoon. The member for North Norfolk received a hearty round of applause on rising. He began by a reference to the manner in which the elections had been sprung upon the people. The dissolution had been very sudden—was thrust upon the country at a moment's warning. Mr. Charlton next referred to the reciprocity question and contended that if the Government wanted reciprocity they would have to accept it upon the lines advocated by the Liberal party—upon no other terms would they obtain it. Mr. Charlton next adverted in severe terms to the tactics which he alleged the Government employed to return to power. One of their first acts was the stealing of private correspondence and placing it before the country in their organ. Then there were the charges of disloyalty—charges of treason hurled against the Opposition. All these things were the characteristics of the last election that was sprung upon the people in order to stifle the expression of public opinion and in order to forestall a question of paramount importance.

With regard to the argument that reciprocity would discriminate against Great Britain, he said Canada must take care she does not discriminate against herself. Why talk about refusing to discard a policy which injures this country, he asked, which retards her growth, impairs, her prosperity, because the adoption of a remedy for these things may injure some one else? Canada must take care of her own interests and let England take care of herself. The Liberals were offering a policy that would make Canada prosperous. He contended that the Liberal party was loyal to Canada, to the empire and to the English-speaking race.

Thursday is Ascension Day, and there is some probability that an adjournment will take place from Wednesday till Monday.

The host of prohibition petitions will be followed up by a visit on the part of a representative of the Dominion Alliance.

Capital Chat.

A somewhat distinguished visitor to the city is Joe Kirby, a gentleman whose career has been an adventurous and varied one. Kirby is connected with the Niagara family of that name. He has been employed in various capacities by the Dominion Government, but chiefly as a discoverer of Irish plots against Britain or her dependencies. Latterly Kirby took some part in working up The London Times side of the case against Parnell and the league. His life history if committed to paper would, it is said, make a very interesting story.

A. J. Horan, a young gentleman not yet 23 years of age, has succeeded in keeping his name before the Ottawa public in a series of surprises. The young man, who is the son of a clergyman of the Episcopal Church in England, was a clerk in the Department of Justice. He has a nice voice, dances well, has an engaging manner and is altogether calculated to please in social circles. He added to his other accomplishments the ability to read the church services in a sweet baritone voice with an English accent, and frequently officiated in that capacity in the Anglican churches here. Suddenly it was announced that he was to enter the Roman Catholic Church. He carried out this intention, Sir John Thompson being his sponsor. It was soon apparent, however, that he was not contented to remain a mere layman, but suddenly joined the Capuchin Order of Monks. In a few days the young society man of former days was seen on the streets attired in the course brown serge of the society, the cord girdle, the stockingless feet and bare head. To many the sight was shocking. The greatest sensation, though not the greatest surprise, remains. It is learned that on Friday last he disappeared from the monastery leaving behind him a brief note stating that he had determined to leave owing to ill-health. He added that after a two weeks' rest in the country he would visit his brother in Montreal. This is all that is known of him. He will have a good deal of sympathy despite his erratic course, as he was a pleasant mannered gentlemanly young fellow.

A deputation of cattle shippers will wait on the Minister of Agriculture on Wednesday.

To-day the Clerk of the Crown in Chancery notified the Senate that Senator Alexander of Woodstock had not been in attendance during two sessions. This renders his seat vacant. Alexander, who used to make the meetings of the Senate so rare a show, has been ill for more than two years.

Tarte is confined to his room.

Hon. Mr. Foster laid on the table to-day a list of the Governor-General's warrants that have been issued since last meeting of Parliament. Among the items is one of $20,000 for costs of litigation, Department of Justice, which is thought to include the expenses of one side in contesting the validity of the Manitoba School Act.

TORONTO TOPICS.

Sudden Death—Letters Carriers Ask for Increased Pay.

TORONTO, May 5.—The Toronto letter carriers are agitating for increased pay.

Capt. Forbes Michie of the Royal Grenadiers, a well-known wholesale liquor merchant and member of the Argonaut Rowing Club, died suddenly of paralysis last evening.

A New Varsity Professor

ST. MARY'S, May 4.—Miss Agnes Knox of St. Mary's has been appointed to the chair of elocution in Toronto University. Miss Knox is an undergraduate in arts, having matriculated in 1886. Since leaving college, she has studied elocution under the best masters besides having extensive practice. She will enter on her duties when the fall term opens in October and will hold the unique position of first lady professor in the University.

Slaughter in a Sawmill.

MONTREAL, May 4.—A man named Laflamme was killed to-day in the sawmill of Shearer & Co. He was thrown upon the saw and instantly killed, being mutilated beyond recognition.

'MURDERER! MURDERER!'

THE CHARGE HURLED AT ONE OF FRANCE'S MINISTERS.

Wild Scene of Excitement in the Chamber of Deputies—The Soldiers Charged With Having Massacred the People at Fourmels.

PARIS, May 4.—It was announced yesterday that the A section of the left would demand a vote of censure against Constans, Minister of the Interior, on the ground that the latter was responsible for the slaughter of the men, women and children shot down by the troops at Fourmies on labor day.

Constans to-day, after replying in explanatory terms to a question as to the Fourmies affair and giving his version of the matter, holding that neither the Government nor the troops were to blame for the disaster, was astonished to see M. Roche, the deputy representing the seventeenth electoral district of the Seine, spring to his feet and shout fiercely, "Murderer!" A tremendous sensation followed. Members shouted and threatened each other. Finally order was restored and the chamber voted that Roche should be excluded from any further participation in to-day's session, and he should be declared censured by the chamber for the term he had applied to the Minister of the Interior. No sooner was this course decided upon than M. Roche again sprang to his feet and, shaking his fist at those of his associates who had been most active in bringing about his expulsion and censure, the deputy yelled: "You are a lot of varlets worthy of your master!" The presiding officer ordered Roche to be removed by force from the chamber. This was finally done amid scenes of the wildest excitement ever witnessed in the Chamber of Deputies.

The excitement began with M. Dumay's interpellating the Government in regard to the Fourmies riot. He threw the entire blame for the trouble upon Minister Constans. M. Boyer, in supporting Dumay, commented upon the brutality of the official instructions. M. Roche said he had enquired into the cause of the riot and had found that immediately after a stone had been thrown, without summoning the people to disperse, the troops opened fire and continued firing for four minutes. There were more soldiers than people in the streets and the troops were made to act the part of butchers of women and children.

At this point vehement protests were raised and Roche was called to order. M. Constans denied the accuracy of Roche's statement. A mob of 4000, said the minister, received the soldiers with a shower of stones. One officer was knocked down and the rioters were on the point of forcing their way through the troops when the commander called upon them to keep back. The summons was unheeded and the commander ordered his men to fire into the crowd. This, however, had no effect and he ordered the soldiers to fire point blank. The soldiers obeyed and the result was the killing of seven persons and the wounding of fourteen. The soldiers, added the Minister, had a right to use their arms when in danger. The conduct of the army and the police throughout France on May day had checked serious disaster.

Roche at this point cried, "Murderer!"

A number of members protested against Roche's language, and the presid ent ordered that the offender be temporarily expelled. Quiet having been restored, M. Millerand demanded that a committee be appointed to enquire into the Fourmies riot.

M. DeFreycinet, Premier and Minister of War, opposed the motion. He said the Government was not indifferent. It did not desire to put a barrier of arms against political and social claims, but would rather cooperate with Parliament to improve the lot of the working classes. [Applause.] Millerand's motion was rejected by 371 to 48. The Chamber by a vote of 356 to 33 passed a resolution declaring confidence in the Government.

Arms and Dynamite to be Used Against the Troops—Funeral of the Victims.

FOURMIES, France, May 4.—The situation here to-day is one of great gravity and may induce the Government to postpone the funeral of the men, women and children who were killed by the troops on labor day. The greatest excitement prevails throughout this town and in the villages in its vicinity. Many of the leaders of the labor party have started for Belgium to collect arms and dynamite for use against the troops stationed here, and especially against the infantry regiment, which used its rifles with such fatal effect upon the populace on Friday last. The report has reached here that 300 kilograms of dynamite destined for the people of this town has been seized while being smuggled across the frontier from Belgium.

Cavalry pickets will be stationed all along the route of the funeral procession of the victims of the May-day massacre, for such is the term applied to the tragedy by the people of Fourmies. The cavalry along the route will receive instructions to act promptly and effectively in the event of trouble. The Government has sent two details here with instructions to make a thorough inquiry into the causes which led to the disturbances on labor day and into the action of the subprefect who ordered the troops to fire upon the people.

The funeral procession this afternoon was very long, being participated in by a large number of workmen's clubs. The nine coffins were surrounded by the relatives of the victims. After the religious services the clergy left and the Socialists then took charge, some violent addresses being delivered. Many women carrying banners placed wreaths upon the graves. The troops keeping order in the streets shouldered arms while the coffins were passing.

Contemplated Self-Destruction.

L'ORIGNAL, May 4.—A startling discovery was made yesterday by Mr. Cameron, the jailer here. In the cell of the condemned murderer Larocque was found a blade of a penknife, sharpened to an edge as sharp as a razor's, which was concealed under the mattress of his bed. He eats heartily and sleeps well, and seems little disturbed by the prospect of his approaching death on the scaffold.

No Waste of Words.

One thousand union cigarmakers struck at Chicago yesterday for an advance of wages.

The officers of the Eastern Investment Company have been jailed at Boston.

Five hundred and thirty thousand dollars in gold was ordered for export at New York yesterday.

The officers of a short term order, the Guard Beneficial Association, have been jailed at Camden N.J.

KNUTSFORD BILL TO PASS.

UNLESS THE NEWFOUNDLANDERS SPEEDILY GET A MOVE ON.

A Priest's Alleged Insult of the German Emperor—The Usual European Horrors—Wholesale Evictions Reported From Wexford.

LONDON, May 4.—Lord Kimberley in the House of Lords moved that in view of assurances given the Government from the Newfoundland delegates that the colony would immediately pass an act which would provide for the due enforcement of the treaty stipulations existing between France and Great Britain the House ought not to go into committee on the Knuteford Coercive bill until reasonable time had been given to Newfoundland to pass the necessary legislation. Lord Kimberley also urged that the colonial legislature would not repudiate the promises of delegates and that therefore the Knutsford bill ought not to be carried any further. Lord Knutsford refused to accede to Kimberley's motion, claiming that the Newfoundland question had an Imperial character which must be recognized in dealing with it.

Knutsford added, however, that if Newfoundland would pass the promised measure the bill at present before the House would be dropped.

Lord Dunraven said he regretted the Government could not agree to abandon the Knutsford Bill, as it seemed the Newfoundlanders were honestly determined to do all in their power to avoid the necessity of any coercive measures.

Lord Herschell, one of the deputy speakers of the House of Lords, said it was of primary importance in this connection to consider "the opinions of the colonists if the Government desired to maintain its colonial empire. The action of Lord Knutsford justified the rejection of the bill.

Lord Salisbury said the Government had entered into serious international obligations with France, which must be carried out. Under the decisions of the Newfoundland courts the hands of the naval powers were paralyzed. They could not regularly exercise the jurisdiction which they had hitherto effected. The bill, Lord Salisbury said, was necessary in the event of the failure of an act by the Newfoundland Legislature to enforce the measures which the Knutsford bill was designed to carry out. After further discussion Lord Kimberley's motion was rejected by 113 to 80.

Lord Herschell moved that the Knutsford Act continue in force for only one year. Lord Salisbury opposed the motion, and it was rejected, 61 to 21. The bill then passed the committee stage.

Deepening the Liverpool Harbor.

LONDON, May 4.—The well-known engineer, Mr. McGillivray, has published in detail a plan for deepening the Liverpool harbor and getting rid of the bar at the mouth of the Mersey, which is so detrimental to the commerce of that port. He proposes to keep the sand and mud of which the bar is composed constantly stirred up by means of powerful machines resembling plows, operated by steam. The tides are swift and strong enough to carry the matter suspended out with the water and distribute it over an area so great that it will not impede the entrance to the harbor. It is claimed that the process would be both speedy and cheap.

Lady Dysart's Divorces.

LONDON, May 4.—Lady Dysart has just paid her second call at the Divorce Court, this time on her own account. A few years ago she was divorced by the Earl of Dysart for a guilty intrigue with an actor named Sugden. She married Sugden and now has obtained a decree against him for desertion and adultery. Most people think she has been deservedly paid in her own coin. Some other cases are pending which cannot fail to cause a stir in high life.

Wholesale Evictions in Wexford.

LONDON, May 4.—Wholesale evictions begin this week in County Wexford, Ireland, the intention of the landlords being to eject such of the "plan of campaigners" as have weathered the financial storms consequent upon the Parnell difficulty. The decrees of expulsion have been signed by Lords Carew, Templemore, Ratheven, Ely and Monck, Colonel Tottenham and 15 others.

A Lover's Jealousy.

VIENNA, May 4.—A coachman named Schimatulla at Neustadt, near Vienna, suspected a laborer named Naproalla of courting his fiance, Fraulein Kropnitz. He played detective and discovered the pair a few evenings ago hiding in a forage house and exchanging loving caresses. Schimatulla quietly fastened the door so that the couple could not get out. He then set fire to the building and the victims of his hate perished amid the flames. The people attracted to the spot found Schimatulla hanging dead from a rafter of an adjacent coach house, having committed suicide.

A Priest Insulted the Emperor

VIENNA, May 4.—Considerable excitement has been caused at Zara by the arrest of a popular priest named Benkorac for an alleged insult to the emperor during a sermon. After the insult officers went to the priest's house and took him in custody. A large crowd gathered and the officers were mobbed by the priest's friends, but finally succeeded in placing the prisoner in jail. It is feared that the disorder will be renewed when the priest's examination occurs.

She May Have No Use for It.

GLASGOW, May 4.—A bit of humor was brought to light to-day when the will of a well-known doctor was registered. He leaves his entire estate to two sisters, and concludes the document with this extraordinary language: "To my wife, as a recompense for deserting me and leaving me in pace, I expect my said sister Elizabeth to make her a present of 10 shillings to buy a handkerchief, in which she may weep after my decease."

York's Archbishop Dying.

LONDON, May 4.—The Archbishop of York, who is suffering from influenza, is said to be dying.

The Miners' Strike Spreading.

BRUSSELS, May 4.—The miners and iron-workers' strike in the Liege and Charleroi districts continues and is spreading to the Borinage district. Fifty thousand men are put of work in Central Belgium. There has been more rioting at Liege. Several more people have been injured.

Mixed Drinks.

OTTAWA, May 4.—The food inspectors connected with the laboratory branch of the Inland Revenue Department have been engaged for the past three or four weeks collecting samples of distilled liquors, which are now being examined with a view to the publication of the results for information of the public.

Y.M.C.A.

ST. JOSEPH, Mo., May 4.—The twenty-first international conference of general secretaries of Y.M.C.A. of North America adjourned this evening after having been in session here since last Thursday. Over 3000 delegates, representing all parts of the United States and Canada, were present. E. A. Badge, Montreal, was elected a member of the Executive Committee.

While the Barnum show was parading at Jersey City, N.J., yesterday a horse attached to a lumber wagon took fright at the elephants and dashed into the crowd. Mrs. Dora Lunege, aged 49, and Collier Walker, aged 9, were run over and dangerously injured.

An autopsy on the body of Rev. Dr. George Boothwell at Brooklyn showed that the cork which caused death was located at exactly the point in the lower end of the left bronchus suspected; also that the left lung was in a completely collapsed condition while the right lung was normal. The heart and other vital parts of the body had swollen somewhat and the bronchial tube had doubled itself over the cork in such a manner as to nearly envelop it. The cork had become wedged in the left bronchial tube so that the entrance of air into the left lung was prevented.

Children Cry for Pitcher's Castoria.

WALES MUST GO TO COURT.

A Royal Fleck to be Shown in the Baccarat Scandal.

LONDON, May 4.—The trial of the baccarat scandal is expected to take place on the Saturday after the Derby, which will be run on May 27. The Lord Chief Justice has specially selected the case to try himself and is already flooded with applications from social celebrities for admission to the court.

The Prince's appearance on the stand will be necessary, but it will only be a formality and he will be asked only cut-and-dried questions.

The London season now being in full swing, I hear that Mrs. Wilson's reception socially has been in many quarters markedly cool. The Prince, however, supports her staunchly, knowing that the set made against her arises largely from jealousy of the distinction shown her by him on the part of other unsuccessful aspirants for admission to his special circle. Meanwhile Mrs. Wilson has decided to give no entertainment, pending a decision on the suit.

Russian Students Defy the Police.

ST. PETERSBURG, May 4.—The funeral today of Scheigounow, the well-known Russian political economist, was made the occasion of a great demonstration. The students of both sexes marched through the main thoroughfares in defiance of the police order prohibiting them from so doing. The latter having no suspicion that the students would venture to disobey the orders issued were not out along the line of march followed in sufficient force to stop them. The police, however, afterward arrested a large number of the students who had taken part in the demonstration, and several of them were afterwards dismissed from their schools and have been expelled from this city.

Reports have been received here that riotous and revolutionary meetings have been held at Warsaw, the capital of Russian Poland.

ELECTION PETITIONS.

Another Grist Issued at Osgoode Hall Yesterday Afternoon.

TORONTO, May 5.—The following election petitions were filed at Osgoode Hall yesterday:

Riding.	*Member.*	*Petitioner.*

South Essex	L. Wigle	H. W. Allan
N. Wellington	L. H. Clark	James McMullen
North Norfolk	L. C. Sinclair	T. B. Delong
South Ontario	William Smith	G. E. Gibbard

A Dead Woman Taken to the Asylum.

HAMILTON, May 4.—A very strange affair occurred yesterday. About 3 o'clock two men arrived at the asylum with a woman named Mrs. Mary Bradley from Trafalgar township, county of Halton. One of the men was a county constable from Palermo and the other was the woman's brother, named King. The woman was sitting between the two men. When they arrived at the asylum and went to take the woman out of the rig it was discovered that she was dead. The men then started back to Palermo with the body unconfined, still lying in the bottom of the rig. The men stated that the woman was all right when they left King's place, and they did not know she was dead until they arrived at the asylum. She had been living at her brother's place and was out of her mind.

Fed Through a Tube.

BRAMPTON, May 4.—Egerton Grafton, the 10-year-old son of Royal Grafton of Toronto township, was leading a horse behind another lead by his father. Something caused the first horse to kick out and the animal's hoof came in contact with the boy's face fair on the mouth. The blow broke the boy's jaw bone in three places and played havoc with his teeth. The patient is fed through a tube inserted in his bandaged mouth.

Trouble in the Coke Region.

UNIONTOWN, Pa., May 4.—Another collision has occurred between the coke strikers and the deputies. Two of the men who had been at work and were being held by strikers were sought out last night by the deputies. The latter were set upon and stoned. The deputies fired, and in the volley which followed John Mahan, a striker, fell dead, and another, name not known, received a mortal wound.

Fire at Clinton.

CLINTON, May 4.—A fire broke out here early yesterday morning in the store owned by Thomas Jackson and occupied by John Mude as a restaurant, caused by the explosion of a lamp. The fire was extinguished before making much headway, but the entire contents were deluged with water.

Farm Dwelling Burned.

BRUSSELS, May 4.—The dwelling house of Mr. Turnbull of the 4th concession of Grey, five miles from here, was completely burned to the ground to-day. Loss about $1200; insurance, $700. Cause spark from chimney.

Chat From Over the Sea.

The Pope has established the bishopric of Zanzibar and will shortly appoint a bishop.

Lord Derby has been appointed chancellor of London University to succeed the late Lord Granville.

The famine in Madras continues. It is feared the monsoon will fail, in which event the distress will be incredible.

The Rothschild syndicate has asked the Russian Government to postpone the issue of the conversion loan.

Terrible scenes attend the Jewish expulsion in Russia, many Jews dying on the way. The misery in the Jewish settlements, which are crammed with new arrivals, is indescribable.

The Pall Mall Gazette announces that important information has been given by outside parties to the Queen's Proctor, Sir Augustus Keppel Stephenson, during the last few days in regard to the O'Shea divorce case. The Pall Mall Gazette adds that if the information turns out to be correct it is sufficient to call for the intervention of the Queen's Proctor.

Dr. Von Boetticher, secretary of the German Imperial Home Office in the Reichstag, replying to a question as to how the Government intended to relieve the pressure felt by the people owing to the high price of corn, said it was impossible to do so pending commercial arrangements which were being made with other states.

The Russian Government has issued a decree prohibiting students from holding public meetings, from engaging in manifestations, from publishing tracts and from otherwise propagating the doctrine of the religious sect to which they belong. This ban extends to the works of Tobia, which deals with questions of religion and with the family relations.

LONDON, May 4.—The Globe publishes despatches from the Transvaal stating that President Kruger, although anxious to keep his promise to the British Government in regard to preventing the Boers from invading Mashonaland and Manicaland, will be unable to cope with 20,000 Boers who are now said to be upon the point of "treking" into the territory in dispute between the Englisb and the Portuguese. It will not be possible for the Transvaal authorities to command a force large enough to keep the Boers from carrying their designs into effect.

Mysterious Attempt at Suicide.

ST. CATHARINES, April 26.—An unknown man, aged 60, registered at the American Hotel Wednesday and was assigned a room. Friday night his room door was forced and he was found lying across the bed, apparently dying, with an empty bottle labeled laudanum beside him. Physicians succeeded in reviving him somewhat, but at latest accounts he was unable to tell his name.

Stand Your Ground.

When you make up your mind to take Hood's Sarsaparilla, do not be induced to buy some other preparation instead. Clerks may claim that "ours is as good as Hood's" and all that, but the peculiar merit of Hood's Sarsaparilla cannot be equalled. Therefore have nothing to do with substitutes and insist upon having Hood's Sarsaparilla, the best blood purifier and building-up medicine.

J. C. Turnbull.

ATTRACTIONS IN
DRY GOODS
AT
TURNBULL'S.

The change in the weather has brought with it a great demand for Millinery, also for Spring Shades in Dress Goods. Our store was never more attractive in these lines than at present. We have every new and desirable shade in stock with Millinery to match. If you are in town this week, have a look at our Grey Dress Goods and Millinery Window. Large Grey Checks for young people to be made up alone or mixed with Black. Small Black and White Checks and Stripes (broken patterns,) for older people. Goods that are hard to find, in neat patterns.

We justly claim to take the lead in our Tailoring Department for quality of goods, fit and price. We get up a splendid suit, in Halifax tweed or navy serge, for $12.00. Fine grades of Almonte and other makes of tweed for $13.00, $14.00, $15.00 and $16.00. Scotch tweeds and serges from $16 to $20 for the best. Fine all Venetian finish or diagonal cords for coat and vest, with black or fancy pantings to match, at from $19 to $22 a suit. Remember our prices. Call and see our stock, and do not pay a great deal higher figure through force of habit.

We have added this week to our already attractive stock of Boys' Clothing, another shipment just turned out of the manufacturers' hands, neat and new styles.

We show now an immense range of patterns in cottonades and shirtings, in the best quality.

We also keep all the lower lines, beginning at 5c. for shirtings and 12½c. for cottonades.

We have an opening now for an apprentice in the millinery department. Apply until Saturday.

ROWSE
365 GEORGE STREET

We want to talk to you for a few minutes about Lace Curtains. Nothing is more desired or appreciated in a dressy home. Now, we can give you the newest designs in curtain materials, having purchased them direct from Great Britain. We would like you to see the enormous values we are selling at $1.25 per pair. If you can get them anywhere else at $2, you get them very cheap, that's all. On these goods you would save $1.50, which would be equivalent to getting one pair for nothing.

The people are talking about Rowse's Goods and Rowse's Prices. One of our customers said the other day: "All of the people of Lakefield are talking about your goods and your prices." Well, no wonder, we give them something worth talking about.

Towels, table linens, napkins, white quilts, all cost money, but if you want to save money in buying them go and see Rowse in his new store.

In a few days we will show you some lovely designs in American prints, purchased direct from Boston—the great intellectual hub. Nothing like these prints to be seen in our city, but don't wait particularly for them, we can suit you at any time.

We are having a big sale of dress goods. Come and see the bargains. Now trimmings to match all of our goods.

POLITICAL PATRIOTISM.

The fact that both Mr. Mowat and Mr. Meredith have declined to accept the increased remuneration, voted them unanimously by the Legislature, indicates that there is a cheering absence of sordid greed in Toronto, which it is sad to say does not exist in Ottawa. And the action of the Legislature in refusing to vote as proposed by Mr. Solomon White, an increase of sessional indemnity of $200, shows that patriotism is not entirely eliminated from the breast of the politician. In all these cases the matter was not given an opportunity of discussion and consideration. Three such propositions coming directly upon the heels of a general election, which was supposed to include the majority of the great public questions, were at least unreasonable. The people should certainly have a little time to think over these proposals. No doubt in very many cases as clearly as in these of the premier and the leader of the opposition there is a wide disparity between the indemnity paid members and the sacrifices they make during the session and during the recess as well, and Ontario can afford to be magnanimous enough not to ask her sons to save her at a sacrifice or without adequate and becoming reward. Thanks to twenty years of wise rule, and thrifty husbandry of her resources this province is in a sound financial position. We are saved the expense of a second chamber, such as other provinces have and since the absence of this chamber involves extra vigilance and exertion on the part of every member of the house to see that improper and inefficiently guarded legislation is not enacted, perhaps when the people have had a chance to let their representatives know their mind upon the subject, the matter of an increased indemnity can be dealt with in a more intelligible and consistent manner.

Like Father Like Son.

A Young Politician who is the Son of his Father.

The Winnipeg firm of Macdonald & Tupper—it has been heard of before—has obtained a judgment against the Hudson Bay Railway Co. for a very large sum for services rendered. During the recent election campaign, says the *Globe*, Mr. Hugh J. Macdonald, the senior member of the firm, was asked how he stood in regard to that enterprise. The *Tribune* reported him as saying:—

"The Dominion Government has aided the Hudson Bay Railroad with a land grant of 6,400 acres a mile in the Province and 12,800 acres a mile outside the Province, and with a bonus of $80,000 a year for twenty years. That makes $1,600,000. A pretty good bonus. It has been stated that I and my partner, Mr. Tupper, have a judgment for $30,000 against the railway, and that is used as an argument against me. Now, my firm have been solicitors for the company for a number of years, and we have never yet receive a cent for our services. I came to this country to make money, like everybody else. We didn't come here for our health. And so far from that judgment being an argument against me, it is an argument for me because it is a guarantee that I will work all the harder for the road."

One would almost fancy that the Old Man himself was speaking. Still rigorous purists might be warranted in holding that Mr. Macdonald can hardly cast a disinterested vote or a vote solely in the public interest if the question of augmenting the subsidy to to the road should come up in Parliament as it promises to do. By the way $30,000 is a good deal of money for a law firm to earn from an embryo railroad. Mr. Hugh Sutherland must have had a stupendous lot of litigation or else Messrs. Macdonald & Tupper place an exalted value upon their services.

Take Care of Our Dear Girls.

Thackeray says: "A fair young creature, bright and blooming, distributing smiles, levying homage, inspiring desire, conscious of her power to charm, and gay with the natural enjoyments of her conquests—who in his walk through the world, has not looked on many such a one?

There are many such in Canada, and the numbers could be largely increased if mothers and their girls were true to themselves. We have often with sadness looked upon girls of exquisite figure and beauty, very models of the Divine Architect, who were handicapped with some of the common ailments of life such as nervousness, dyspepsia, impaired digestion and general weakness of body. We can see the dark circles under the sunken eyes, the sallow countenance, the hollow cheek, and general lifelessness. Such subjects require instant attention; they are just entering the dark abyss of suffering and destruction; and just at this age all our energies and powers should be devoted to their treatment and cure.

The great succor and relief for them is Paine's Celery Compound, and its use cannot be urged to strongly. These girls are the hope of our country, and their health should have our best attention and consideration. Paine's Celery Compound will do for them what cannot be accomplished by regular physicians. It acts as a true brain and nerve food in their case; it brings to them great bodily strength, keen appetites, and a healthy and vigorous digestion which along can render life pleasant and happy. Paine's Celery Compound brings to the handsome face a glow of health and freshness, gives bright eyes and a cheerful disposition, which all our girls should possess. Only Paine's Celery Compound can accomplish these wonders and make our girls what they should be in youth and mature age.

A Capable Canuck.

The Ascending Stairs.

Captain Stairs, the clever and plucky Canadian who accompanied Mr. Stanley on his expedition to rescue Emin Pasha, has, it appears, accepted an appointment in the Congo Free State. Those who have read Captain Stairs' account of Fort Bodo, the tropical forest station which he commanded during eight or nine months, and have contrasted the state of affairs which obtained there with what occurred at Yambuya under Captain Barttelot, will understand how well fitted Captain Stairs is for the management of African communities. His patience, kindness and care of his people, who were like so many passionate, unthinking children, were admirable. When Mr. Stanley was ill for a month near Lake Albert, Captain Stairs was in command of the whole expedition, and, according to the testimony of his brother officers, so managed firmly, wisely and kindly, though he had Emin Pasha and his rebellious people, as well as the Stanley expedition to rule. Mr. Stanley declared that Captain Stairs was capable of any independent command in Central Africa, no matter how important. It is a pity that, seeing he has determined to sacrifice his health and life in Africa, Captain Stairs was not employed by the British Government or the British East Africa Company rather than by a foreign government. Captain Stairs was the college companion and most intimate friend of the late Captain Hastly McKay.

A young lady of Jefferson, West Virginia, declares that she was all run down before taking Ayer's Sarsaparilla; but that now she is gaining strength every day. Ayer's Sarsaparilla is certainly a wonderfully effective tonic for the feeble and delicate.

Piano Tuning.

Mr. G. Gumpricht is in town. Orders may be left at Messrs. Taylor & Macdonald's or at the Peterborough Bookstore. d

Children Cry for Pitcher's Castoria.

COPYRIGHT, 1890.

"My dear," said Dr. Bradley's wife,
While sitting in our church, last week,
"Judge Browne is dozing in a draught—
He'll be so ill he cannot speak."
"Oh! never mind, my dear," said he,
"I'll cash the 'draft' some time next week."

A "slight cold" settling upon the lungs of one whose blood is tainted with scrofula, nearly always results in consumption.

For removing scrofulous humors from the blood, curing scrofulous sores and ulcers, and Consumption (which is lung-scrofula) in its earlier stages, by removing their underlying cause, and for purifying the blood of all humors or poisons, no matter of what name or nature, as well as for toning up the system generally, Dr. Pierce's Golden Medical Discovery is acknowledged by all who know anything of it, to *stand at the head* of all remedies.

All the year round, you may rely upon Dr. Pierce's Golden Medical Discovery to purify the blood and system. It's not like the sarsaparillas, that are said to be good for the blood in March, April and May. The "Golden Medical Discovery" works equally well at all times, and in all cases of blood-taints, or humors, no matter what their name or nature.

It's the *cheapest* blood-purifier, sold through druggists, no matter how many doses are offered for a dollar, because you only pay for *the good* you get.

Your money is returned if it doesn't benefit or cure you.

Can you ask more?

"Golden Medical Discovery" contains no alcohol to inebriate, and no syrup or sugar to derange digestion.

It's a concentrated vegetable extract; put up in large bottles; pleasant to the taste, and equally good for adults or children.

A Cure for Constipation and Headache.

Dr. Silas Lane while in the Rocky Mountains, discovered a root that when combined with other herbs, makes an easy and certain cure for constipation. It is in the form of dry roots and herbs, and is known as Lane's Family Medicine. It will cure sick headache, and is the best spring medicine. For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50c. and $1 a package. dw

A True Bill.

Wm. Gillespie, Wolfe Island, Ont., says: I had indigestion and stomach cough for three years. Was treated by best physicians and used numerous patent medicines without success, when two bottles of Miller's Emulsion of Cod Liver Oil cured me. I have great pleasure in recommending it. For sale by all druggists. dw

Why Not Treat.

Why not treat such troubles as boils, pimples, blotches, sores, humors, eruptions, rashes, skin irritations, etc., with Burdock Blood Bitters. It is filled with virtue as a blood purifier and goes right to the right spot. It makes the skin bright and clear, while also invigorating the entire system. 1w18 d

How Free From Pain.

Dear Sirs—I have been troubled with Lame Back for about six months, and thought I would try Hagyard's Yellow Oil, which cured me. Am now free from all pains, and recommend Yellow Oil very highly. Frank Palmer, Winona, Ont. 1w18 d

Supposing.

Supposing you suffer from some disease. Suppose it is dyspepsia or biliousness or constipation or bad blood. Suppose you learn that Burdock Blood Bitters has cured thousands of cases of these and similar complaints. Don't you suppose you ought to try? It cannot harm you and in nine cases out of ten it cures. 1w18 d

Once Used, Always Used.

This is a fact as regards Dyer's Jelly of Cucumber and Roses, from its wonderful efficiency in curing chapped hands, and making the skin smooth and soft. Druggists keep it. W. A. Dyer & Co., Montreal 6d92

The Royal Rheumatic Remedy, taken internally, strikes directly at the foundation of the disease. At once relieves pain by removing the cause of disease. The cause removed, a cure is effected. For sale by W. R. Greatrex, druggist, Peterborough. dw

Will positively cure sick headache and prevent its return. Carter's Little Liver Pills. This is not talk, but truth. One pill a dose. See advertisement. Small pill. Small dose. Small price. dw

In the first stage of consumption Miller's Emulsion will certainly cure. For sale at all drug stores. dw

For Nettle Rash, Summer Heat and general toilet purposes, use Low's Sulphur Soap. dw

Ayer's Hair Vigor

IS the "ideal" Hair-dressing. It restores the color to gray hair; promotes a fresh and vigorous growth; prevents the formation of dandruff; makes the hair soft and silken; and imparts a delicate but lasting perfume.

"Several months ago my hair commenced falling out, and in a few weeks my head was almost bald. I tried many remedies, but they did no good. I finally bought a bottle of Ayer's Hair Vigor, and, after using only a part of the contents, my head was covered with a heavy growth of hair. I recommend your preparation as the best in the world."—T. Munday, Sharon Grove, Ky.

"I have used Ayer's Hair Vigor for a number of years, and it has always given me satisfaction. It is an excellent dressing, prevents the hair from turning gray, insures its vigorous growth, and keeps the scalp white and clean."—Mary A. Jackson, Salem, Mass.

"I have used Ayer's Hair Vigor for promoting the growth of the hair, and think it unequaled. For restoring the hair to its original color, and for a dressing, it cannot be surpassed."—Mrs. Geo. La Fever, Eaton Rapids, Mich.

"Ayer's Hair Vigor is a most excellent preparation for the hair. I speak of it from my own experience. Its use promotes the growth of new hair and makes it glossy and soft. The Vigor is also a cure for dandruff."—J. W. Bowen, Editor "Enquirer," McArthur, Ohio.

"I have used Ayer's Hair Vigor for the past two years, and found it all it is represented to be. It restores the natural color to gray hair, causes the hair to grow freely, and keeps it soft and pliant."—Mrs. M. V. Day, Cohoes, N. Y.

"My father, at about the age of fifty, lost all the hair from the top of his head. After one month's trial of Ayer's Hair Vigor the hair began coming, and, in three months, he had a fine growth of hair of the natural color."—P. J. Cullen, Saratoga Springs, N. Y.

CHANGE IN BUSINESS.

I beg to announce to my late customers that I have sold out my business to Messrs. Hilliard & Peplow, and I would bespeak for them the same support as has been accorded me.

C. N. BROWN.

ANNOUNCEMENT.

For some time past we have thought a strictly cash business in Flour, Feed and Provisions could be successfully carried on in Peterborough, and to test this question, we have purchased the above business from Mr. C. N. Brown who will still continue as manager in Flavelle's old stand, Simcoe street.

In order to be successful we intend to make it the interest of everyone to pay cash with order by selling at wholesale prices.

We will positively give no credit and cash customers will not have to keep up the losses made by others on the credit system.

We will keep a full supply of the very best quality of Flour, Feed, Crop, etc., and our customers need not fear that the quality of the goods will be lowered to make up for the reduction in price. We are simply giving them the benefit of the margin necessary to cover losses and interest charges incurred on the credit system.

Goods delivered to any part of the town or Ashburnham.

THE MANIPUR DISASTER

SOME INTERESTING FACTS ABOUT THE PLACE AND THE PEOPLE.

An Englishman Who Knows, Tells All About Those Important Personages The Maharajah, the Jobraj, the Senaputty and the Wangkhairakpa.

When civilized troops are cut to pieces in warfare with barbarous or savage tribes, the world always thrills at the news of the disaster, and such was the case early in month when a body of some 450 Goorkhas, the escort of the British Chief Commissioner for Assam, together with fourteen army officers and Government officials, were attacked and nearly all killed by the natives of Manipur, a small but unruly State northeast of the upper end of the Bay of Bengal, and under British rule, inasmuch as the Government of India keeps a political agent at the capital to instruct the ruling Maharajah in the way he should go.

The Maharajah was deposed last September after a revolt headed by his second and third brothers, known respectfully as the Jobraj, or heir, and the Senaputty, or commander-in-chief. The Maharajah, with his fourth brother, styled the Lord of Elephants, took refuge in India, and are now in Calcutta. Since then the power has been in the hands of the Jobraj and the Senaputty.

The traditional policy of the British in Manipur has been to recognize the de facto ruler. Accordingly the Chief Commissioner proceeded thither, intending to install the Jobraj and deport the Senaputty to India, as being likely to prove troublesome.

On the arrival at Manipur a force was sent to arrest Jobraj. The Manipuris resisted, and a general engagement followed. The Goorkhas ran out of ammunition and retired to the Residency, where the Commissioner was. The Manipuris attacked the Residency and stalled it. The Commissioner then went out to meet the Jobraj, and was treacherously taken prisoner, together with several officers who went with him, and the attack being renewed the troops had to retreat, with very disastrous results.

An Englishman who has lived in that part of the world and seen something of the Manipuris at home says that Manipur is a small native State of Northeastern India, situated in the heart of the mountainous region which lies between the Assam Valley on the north, Upper Burmah on the east and south, and the Cachar district on the west. Until 1891 not only the number of inhabitants but even the area of the State was a matter of great uncertainty, but in that year the census disclosed the fact that here were 221,000 people. The area was ascertained to be 8,000 square miles. The proximity of Manipur to the country of other wild hill tribes and the savage character of its own people, have given rise to constant feuds, so that in early days the country was barbarous in the extreme.

Manipuris used to raid into Burmah and Burmese into Manipur, while its internal history was marked by wars of the most savage and revolting type, in which sons murdered fathers and brothers murdered brothers without a single trait of heroism to relieve the dark record of treachery and bloodshed. Until recently slavery was a recognized institution, and the so-called freed inhabitants were compelled under a system termed Lalloop to render ten days' service to the Rajah out of every 40 without remuneration.

The hill ranges of Manipur are clothed with dense forest trees of great variety, among which are teak and indiarubber. Most of these immense tracts of timber are, however, unutilized. The region is generally rich but undeveloped, while coal, iron and gold have been found. The tea plant is known to grow wild in various parts of the country. Although the general facial characteristics of the Manipuris are Mongolian, there is great diversity of feature among them, some showing a regularity approaching the Aryan type.

A NATIVE OF MANIPUR.

The chief road into the country is that leading from Manipur to the district of Cachan, which was constructed by the British Government after the first Anglo-Burmese war and which is said to be in good condition fit for puck-bullocks in cold weather. The valley is well supplied with tolerable roads, which are suitable for the ordinary traffic of the country. The chief obstacle is the bridging of streams, which is done by the Manipuris after a primitive fashion, requiring yearly repairing after the flood season. The revenue of the State is about $35,000.

The military force consists of a sort of militia, which is liable to be called out when required and is believed to number in all about 7,000, including infantry, cavalry and irregulars.

British present relations with the state may be said to have begun at the time of the first war with Burmah. Manipur had been devastated by the Burmese, and its ruling family had fled to Cachar, upon which the British Government cooperated with the Manipuris in restoring Gumbheer Sing as Rajah, and secured his recognition as ruler of Manipur.

Gumbheer Sing died in 1834, and his son, the late Rajah, was placed on the throne by the Senapatty, while the Senapatty himself became Regent. The subsequent history of the State has been marked by frequent attempts on the part of different chiefs to obtain the throne, but all were frustrated, and three of the leaders lost their lives. For a time the throne was actually abdicated by the young Rajah, but in 1850 he was restored, and during the anxious time of the Indian mutiny his conduct was praiseworthy. Owing to Manipur being too distant and difficult to be properly managed by the district officer at Cachar, it was found necessary to station a Resident at the capital, who is now under the control of the Chief Commissioner of Assam.

The raids instigated by the rival members of the reigning family of Manipur practically ceased in 1886, but the neighboring tribes have at various times committed robberies and other acts of violence on Manipuri territory, and have provoked retaliatory measures.

During the last few years there have been occasional insurrections against the authority of the Maharajah. In Sept., 1887, scarcely three months after his public installation, there was an outbreak, instigated by the Wangkhairkpa, who ranks next to the Senaputty, and is the principal judicial officer in the State. The revolt was quelled by the Maharajah's troops without any great difficulty, and terminated with the death of the Wangkhairakpa, who was shot through the head while making a rush at the Maharajah's private residence.

MANIPUR WARRIOR IN COMBAT.

Another unsuccessful attempt against the Maharajah was made by Manipuri exiles during the same month. The rebels were pursued by a detachment of the frontier police, and finally defeated.

In 1888 and 1889 matters were quieter, but a brutal case of flogging inflicted in the spring of the former year by order of the Maharajah's younger brother, the Senaputty, who is regarded as the instigator of present rebellion, sheds some light on his subsequent behavior. The Maharajah acting on the advice of the Chief Commissioner, expressed his intention of banishing the Senaputty from the capital, but the sentence was not carried into effect for some reason or other.

If we regard the present conduct of the Senaputty as the sequel of this incident the leniency was sadly misplaced. A present of arms was made to the Maharajah in 1887, 200 Enfield rifles being placed at his disposal in lieu of 200 smooth-bore muskets, together with 60,000 rounds of ball ammunition. Two 7-pounder guns were also presented to his Highness for assistance rendered to the British troops in Burmah, together with rounds of common and double shell and case shot, and six Martini rifles to the Maharajah's brothers, with 1,000 rounds of Martini cartridges. It is doubtless these very arms which were recently turned with such terrible effect against the British troops.

A dry, hacking cough keeps the bronchial tubes in a state of constant irritation, which, if not speedily removed, may lead to bronchitis. No prompter remedy can be had than Ayer's Cherry Pectoral, which is both an anodyne and expectorant.

Ask Your Friends About It.

Your distressing cough can be cured. We know it, because Kemp's Balsam within the past few years has cured so many coughs and colds in this community. Its remarkable sale has been won entirely by its genuine merit. Ask some friend who has used it what he thinks of Kemp's Balsam. There is no medicine so pure, none so effective. Large bottles 50c. and $1 at all druggists. dw

Editorial Evidence.

Gentlemen—your Hagyard's Yellow Oil is worth its weight in gold for both internal and external use. During the late La Grippe epidemic we found it a most excellent preventive, and for sprained limbs, etc., there is nothing to equal it. Wm. Pemberton, Editor Reporter, Delhi, Ont. 1w183

Spring Cleaning.

Be particular every spring to clean the house, but never mind cleansing the blood until some troublesome disease takes hold of you. This is poor policy when by using Burdock Blood Bitters the blood will be thoroughly cleansed, the body strengthened, and future suffering prevented. 1w183

A Winnipegger's Opinion.

The following is taken from a letter from Mr. D. Davis, Winnipeg, Man.: "Being persuaded to use Hagyard's Pectoral Balsam for a troublesome cold, I was entirely cured by the use of two bottles." 1w183

When she had Children, she gave them Castoria

Ahead of Koch's Lymph.

Charles Campion, Kingston, Ont., says:—Gained 7 lbs. with one bottle of Miller's Emulsion of Cod Liver Oil. Cured bad Bronchial Cough with a few doses and made me feel like a new man. I strongly recommend it. All druggists keep it, dw

Everybody Admires Soft White Hands.

And every lady ought to use Dyer's Jelly of Cucumber and Roses, as it makes the skin soft and smooth. Druggists keep it. W.A. Dyer & Co., Montreal. 6d92

SOME SYMPTOMS OF WORMS are:—Fever, colic, variable appetite, restlessness, weakness and convulsions. The unfailing remedy is Dr. Low's Worm Syrup. dw

Will be found an excellent remedy for sick headache. Carter's Little Liver Pills. Thousands of letters from people who have used them prove this fact. Try them. dw

Have You Tried

Imperial Cream Tartar Baking Powder. It is the purest of the pure. All grocers sell it. 4 th s-w

AN INACTIVE or Torpid Liver must be aroused and all bad bile removed. Burdock Pills are best for old or young. dw

AS A PICK-ME-UP after excessive exertion or exposure, Milburn's Beef, Iron and Wine is grateful and comforting. dw

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold everywhere, or sent by mail.

CARTER MEDICINE CO., New York.

Small Pill. Small Dose. Small Price.

FOR FLAX-SEED EMULSION COMPOUND

BRONCHITIS

133 Lexington Ave., New York City, Sept. 10, 1888.

I have used the Flax-Seed Emulsion in several cases of Chronic Bronchitis, and the early stages of Phthisis, and have been well pleased with the results.
JAMES K. CROOK, M.D.

CONSUMPTION

Brooklyn, N.Y., Feb. 24th, 1890.

I have used your Emulsion in a case of Phthisis (consumption) with beneficial results, where pectoral could not use Cod Liver Oil in any form.
J. H. DROGE, M. D.

NERVOUS PROSTRATION

Brooklyn, N. Y., Dec. 20th, 1888.

I can strongly recommend Flax Seed Emulsion as helpful to the relief and possibly the cure of all Lung, Bronchial and Nervous Affections, and a good general tonic in physical debility.
JOHN F. TALMAGE, M. D.

GENERAL DEBILITY

Brooklyn, N. Y., Oct. 10th, 1888.

I regard Flax Seed Emulsion as greatly superior to the Cod Liver Oil Emulsions so generally in use.
D. A. GORTON, M. D.

WASTING DISEASES

127 West 34th St., New York, Aug. 6, 1888.

I have used your Flax-Seed Emulsion Compound in a severe case of Mal-nutrition and the result was more than hoped for—it was marvelous, and continuous. I recommend it cheerfully to the profession and humanity at large. M. H. GILBERT, M.D.

RHEUMATISM

Sold by Druggists, Price $1.00.

FLAX-SEED EMULSION CO.

35 Liberty St., New York.

The D & L Emulsion OF Cod Liver Oil AND THE Hypophosphites of Lime and Soda.

No other Emulsion is so easy to take.
It does not separate nor spoil.
It is always sweet as cream.
The most sensitive stomach can retain it.

CURES

Scrofulous and Wasting Diseases.
Chronic Cough.
Loss of Appetite.
Mental and Nervous Prostration.
General Debility, &c.

Beware of all imitations. Ask for "the D. & L." Emulsion, and refuse all others.

PRICE 50C. AND $1 PER BOTTLE.

Big money for workers. Failure unknown among them. Write and see what we offer. Perfect, honorable. Rest $65 by return mail. Address H. Hallett & Co., PORTLAND, MAINE.

Self Application of Electricity THE MODERN SCIENCE IN THE

DORENWEND ELECTRIC BELT

And Appliances.

THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a tension current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCY, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a consultant electrician, and ranks as the best in the world; we defy anyone to bring proof to the contrary.

Do not class this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you want to experiment with cheap articles, buy THEM; but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. The Dorenwend Electric Belt and Attachment Co., C. H. DORENWEND Electrician. 103 Yonge St., Toronto, Canada. ed-w

Sole Agent, Peterborough.

More Alarm than Fire.

The fire brigade was called over to Ashburnham last night at nine o'clock by an alarm from the Ontario Canoe factory. A stump fire behind the factory had spread to the lumber sheds and the whole premises was threatened with destruction when the danger was observed. Willing hands lent assistance, and by means of the Company's hose, the fire was soon extinguished without the aid of the town hose.

Waterproof Clothing.

Mr. J. J. Turner, the contractor, has delivered at the police station new waterproof coats for the police force. The coats, with capacious capes, are of a plaid gray material, made by the Montreal Waterproof Clothing Company, and, from appearance, will keep the cops' clothings dry as the License Act makes Sunday under Inspector Cochrane's administration.

The Last Week

in the Bon Marche, and will slaughter goods at the following prices this week, ending by an auction sale Saturday night next:—Best 50c. Indian tea, 35c. per pound; good 30c. Congou tea, 18c. per pound; good family flour 35c. less than mill prices; 10 lbs. Lawry's lard for $1; 10 lbs. nice light sugar for $1; 5 lbs. boneless fish for 25c. Everything else in proportion to make a clearance, as this is the last week. M. CARTON. d

Cheap Croquet.

One hundred sets of croquet, 6 and 4 ball sets, just received at the Peterborough Bookstore to be sold CHEAP. First-class sets and prices away down. At the Peterborough Bookstore. dw

Cheap Croquet.

To Raise the Tower.

The ladies of the George street church at a meeting held last night decided upon holding a grand tea meeting Monday night next, the object of which is to raise funds to complete the tower of the church. They appeal to every member of the congregation to help along the tea-meeting and make a final effort to finish the tower. Tea will be served in the basement of the church from 5 to 8, after which addresses will be delivered by Rev. E. Roberts and others, and a programme of music, etc., will be rendered, under the direction of Prof. Seward. Admission 25c. 1d

Children Cry for Pitcher's Castoria.

Spring. Beautiful Spring.

This is a cold day for the spring poet and the spring milliner, but a boon to the coal and fuel merchant. Every thermometer scurries through the gamut, either shivering in spring overcoat and mackinaw or wrapped in winter clothing. Country people coming to town are struck in the eyes in fur smelling strongly of camphor to which they had been consigned for their summer rest. It was a dreary, disgusting, abominable day. But such weather in May is not without good British precedent. Two or three Englishmen have remarked to the reporter that many a Derby day, which falls on the first Wednesday in May, has been whitened with snow. On Derby day twenty three years ago, William Roberts, town, stood shivering on the downs with the piercing wind howling and the snow spitting spitefully at the silken jackets of the jockeys.

Congregational Reunion.

Members of St. John's congregation in all parts of the parish are asked to hold themselves disengaged for next Monday evening, the 11th inst. At an informal meeting of a few ladies yesterday afternoon it was considered to be necessary to hold the semi-annual reception at once, in order to prevent clashing with other events already advertised to take place later. The matter will be further discussed as opportunity offers this week, and, in the meantime, all who are interested in the welfare of St. John's are urged to prepare to take their part in making this reception a thorough success. These gatherings are designed to promote social intercourse of an informal nature between fellow-churchmens. There will, of course, be no admission fee, and the members of the congregation are looked to to provide everything necessary for the pleasure and success of the evening.

A Remembered Veteran.

The last number of that enterprising magazine, the *Dominion Illustrated*, contains the first instalment of a series of incidents in the early military history of Canada, with extracts from the journal of an officer commanding the Queen's Rangers during the war, 1755 to 1763, the whole being a lecture delivered in Toronto before the Canadian Institute on Jan 12th last, by R. Z. Rogers, of Young & Rogers, town. The journals referred to are those of Major Robert Rogers, grand uncle of Col. J. Z Rogers, and Mr. R B Rogers, Edwin E. Rogers and Alfred B. Rogers, well known in this vicinity. The *Illustrated* gives a portrait of Major Rogers, a photograph of one, which hangs in the British Museum, where it was placed by Royal commander in recognition of the distinguished services which Major Rogers and his Rangers rendered in the stirring events that led up to the conquest of Canada. Though the portrait is disguised in the grotesque uniform of the time, there is in the facies of his descendants whom we meet day after day, a well defined resemblance in feature to their distinguished prototype.

Ashburnham Notes.

Short Session of the Village Council—Illegal Fishing and Other Topics.

There was an unusually large number of ratepayers present at the council meeting Monday evening, no doubt expecting a lively session of the village fathers, but on account of the absence of the Reeve, Mr. Burnham, at Ottawa very little business was transacted. Mr. Calcutt "filled" the chair in his absence, and after routine, the clerk presented the following accounts:—

Dickson & Co.	$ 3 33
W. H. Robertson	9 50
J. R. Stratton	3 75
Mrs. O'Brien	1 25
Charity, wood	1 00
Ed. Clancey	3 96
Pay Sheet No. 12	10 26
" " 13	13 25
" " 14	31 38
" " 15	19 25
	$204 93

On motion of Mr. Craig, seconded by Mr. Throop, these accounts were ordered to be paid.

TREE PLANTING.

It was moved by Mr. Craig, seconded by Mr. Wand, that the Street Inspector order 150 trees to be planted on the streets of the village, and to keep account of the number of trees given to each person. Applications for said trees should be made to Mr. Throop. —Carried.

COURT OF REVISION.

Moved by Mr. Throop, seconded by Mr. Craig, that the Court of Revision for Ashburnham for 1891, be held on 30th day of May, at 7.30 p.m., and that the clerk advertise the same—Carried.

STREET IMPROVEMENTS ASKED.

A petition was sent in for a crossing on Elizabeth street, near Wm. Collin's grocery. A committee was appointed to inspect the streets of the village and see what repairs were necessary.

STREET WATERING.

A largely signed petition of the ratepayers of the village was sent in, asking the council to have Elizabeth street watered from the bridge to Stewart street. There was considerable discussion on the subject, several of the ratepayers expressing their views on the matter. It was finally moved by Mr. Wand, seconded by Mr Craig, that Messrs. Throop and Craig be a committee to enquire into the case of watering Elizabeth street from the bridge to Stewart street, and to report to the council at the next meeting. This resolution was carried. The council then adjourned to meet again in a few days.

Various Village Notes.

There has been a considerable amount of illegal fishing carried on in the village during the past week. Last Sunday half a dozen young men were seen under the bridge at Malhern's mill spearing lunge. It is said that the fishery inspector has heard of the matter. An example may be made of the law-breakers.

Another new grocery store has been opened in the village, the proprietor being Mr. McNulty.

Mr. Madill, our village druggist, expects to open up shortly in the market block.

The saw mill, which has been running all winter, is expected to close down within a week, owing to a scarcity of logs.

Commodore Calcutt is having the "Golden Eye" fitted up in first class style for the coming season. The painters are busily engaged giving her a new dress.

ST. LUKE'S TEA AND SALE.—Tea tea and sale under the management of St. Luke's Ladies' Aid Society will be held in the school room this evening, beginning at five o'clock. Dinner will be served during the whole evening, and a large number of useful and fancy articles will be offered for sale. The proceedings will be enlivened by good music. Admission 25 cents.

Every Sunday evening a number of young men (the majority of them old enough to know better) congregate at the corner of Lake and Elizabeth streets and amuse themselves by passing remarks upon the people going by. Constable Craig will pay them an unexpected visit some night.

There were "razors in the air" at the Farley mansion Monday night. A large crowd had gathered on the corner, after the firemen had left the village, each one endeavouring to find out who the fiend was that gave the alarm of fire, when suddenly some Rosemer steel profanity floated on the cool air, which, mingled with the noise made by falling dishes and chairs, led many to believe that an earthquake had paid the village a visit. Investigation proved that a domestic eruption was in progress. A large crowd gathered around the door to see the fun. The house was in darkness, and one of the females seemed to have forgot her good Sunday school training—for she was actually swearing by note, which was suddenly turned into a deep wail. "Jimmy" came out the back door and addressed the crowd that had gathered to witness the fun. He said:—"You'd think she (Mrs. Farley) was gettin' kilt to hear her." Those little family jars are getting common, but to the "small boy" they are an untiring source of enjoyment.

Personal.

Miss Eyre, who has been a guest at Mr. R. W. Errett's, returned to Toronto last night.

Miss Schultz has returned to her home in Chicago after spending the winter with Mrs. Ullyott, Brock street.

Mr. Richard Hall, Mr. C. McGill and Mr. Andrew B. Jackson have been made life members of the Nicholls Hospital Board.

Miss Lilla Gray has entered the Peterborough Business College for a course in penmanship, and Miss Peplow for a course in shorthand and typewriting.

Mr. John Crane and wife, and Mr. J. W. Crosby were called to Bowmanville this morning by a message announcing the sudden illness with paralysis of Mr. Crosby, sr., whose life is despaired of.

The Mechanics' Institute.

Annual Meeting—Reading of Reports and Election of Directors.

The annual meeting of the Peterborough Mechanics' Institute was held Monday evening at the rooms on Water street.

There were present Mr. T. A. Hay, President, in the chair, Messrs R. Robertson, J. English, Thos. Richardson, W. H. Hill, Dr. Clarke, Dr. Brennan, A. McCallum, Col. H. C. Rogers, F. J. Lewis, A Stevenson, Jas. Corkery, Dr. Burnham, F. H. Dobbin, P. Corkery, and others.

The first business was the reading of the reports by the Secretary, Mr. John Corkery.

DIRECTOR'S REPORT.

Twenty-third annual report of the Board of Directors of the Peterborough Mechanics' Institute:

Your Directors submit for your consideration the following statement of the affairs of the Institute for the year ending April 30th, 1891:—

During the year just closed these affairs have varied, and while in some respects we have cause for regret, in others we have greater cause for satisfaction. The membership, we are sorry to say, has from causes beyond our control, somewhat decreased, although everything has been done to please subscribers. Several new and attractive magazines and periodicals have been added to those formerly taken in the reading room; and a large number of new, interesting and instructive books placed in the library, which is now one of the best Mechanics' Institute libraries in the province.

The class in Mathematics and Freehand drawing has, too, been continued under the charge of Mr. Alex. McCallum, and every opportunity given to members to improve in these subjects, and at a very small expense.

Shortly after our last annual meeting, through the munificent generosity of the late Mrs. Nicholls, the large sum of ten thousand dollars was bequeathed to the Institute, the interest of which will be available before long; and as one of the greatest hindrances in the past has been a lack of funds to carry out improvements, it is hoped that with the increased income, a much more rapid progress may be made in the time to come.

As will be seen by the report of the Library Committee, the number of books issued has been large, and there has been an increased issue in classes A. D. I. L. and N.

Arrangements have been made for the issue of printed catalogues, containing a full unified list of all the books in the library, and also a list of authors; and we trust by a free circulation of these to make people in town and the adjacent country more familiar with the fine library which we have, and which we believe would be better patronized if better known.

The financial report, and those of the library and class committees, are appended.

All of which is respectfully submitted.

THOS A. HAY, President,
JOHN CORKERY, Sec.-Treasurer.

LIBRARY REPORT.

To the President of the Peterborough Mechanics' Institute:

SIR,—Your Library Committee beg to present the following report for the year ending 1st May, 1891:—

There have been 306 volumes added to the library since last report, at a cost of $585.60, in addition to which $127.60 has been expended upon the reading room. The new books purchased may be classified as follows:

Class.	Vols.	Value.
A—Biography	13	$17 25
B—Essays, etc.	6	13 25
C—Fiction	68	63 85
D—History	18	38 75
F, G, H—Miscellaneous	29	43 10
K—Reference	13	39 30
K—Poetry	7	9 80
L—Periodical	84	245 20
M—Religion	4	6 25
N—Science	46	72 50
O—Travel	18	36 35

We have had 34 volumes presented to the library; 30 of these relating to the Geology and Natural History of Canada, were presented by Jas. Stevenson, Esq., M.P.

During the year 7,016 volumes have been issued, as follows:—

	Volumes.
Biography	201
Essays	87
Fiction	2,645
History	377
Miscellaneous	2 545
Poetry	46
Periodical	276
Religious	74
Scientific	275
Travels	444
Philosophy	46

There are now in the reading room 15 newspapers and 37 magazines and periodicals.

Our list of members numbers 251, as compared with 287 last year, a decrease very much to be regretted, but which may be accounted for by the fact that there are now other somewhat similar institutions in the town.

Your committee have great pleasure in testifying to the zealous and efficient manner in which the duties of the librarian (Mr. Peters) have been performed during the year.

All of which is respectfully submitted.

F. J. LEWIS,
Chairman Library Committee.

ABSTRACT STATEMENT

Of the receipts and expenditures of the Peterborough Mechanics' Institute for the year ending 30th of April, 1891:

RECEIPTS.

Balance last audit	$ 4 20
Membership tickets	356 15
Periodicals	63 55
Class fees	12 00
Provincial Treasurer	304 00
Town treasurer	100 00
Wm. Hall Fund	224 50
Miscellaneous	15 40
	$1,077 80

EXPENDITURE.

Book account	$ 459 42
Periodical acct.	127 60
Salaries	195 00
Drawing class	66 50
Light and fuel	65 00
Binding acct.	44 93
Printing and stationery	37 35
Insurance	24 00
Miscellaneous	11 36
Balance in Ontario Bank	46 64
	$1,077 80

To the President and Directors of the Peterborough Mechanics' Institute.

GENTLEMEN—your auditor beg leave to report.

1. That we have examined the general statements of your secretary treasurer and compared the same with the books and find them correct.

2. That we have audited the expenditures and find them all correct and in correspondence with the president's certificate on the cheque.

3. We have audited and found correct the entries as receipts in the books of the treasurer.

A. STEVENSON
W. H. HILL } Auditors.

The reports were all adopted.

ELECTION OF DIRECTORS.

The election of Directors resulted as follows:—

PRESIDENT.—Dr. Geo Burnham.

DIRECTORS.—Dr. Brennan, Dr. John Clarke, John Corkery, James English, T. A. Hay, F. J Lewis, Geo. Munro, Thos. Richardson, R. Robertson.

The meeting then adjourned.

News Nuggets.

—The School Board meets to-night.

—The coal and wood merchants are happy.

—Building operations promises to be brisk this season.

—There will be an organ recital in St. John's Thursday night.

—To-night a social entertainment takes place in Little St. John's, South ward.

—The C. P. R. and G. T. R. Toronto express trains arrived to-day coated with snow.

—The brickwork of the first story of the boiler rooms and bake ovens of Reid, Gilmour & Co. is completed.

—The farriers seriously think of taking winter fare out of "bond"—the camphorated confinement in which they have been placed for the summer.

—Mr. T. Rutherford, contractor, promised Mr. L. Fobert his new Bridgenorth hotel on June 15th. It will be ready for occupancy about May 15th.

—Wanted.—A good appetite. You can have it easy enough by taking Hood's Sarsaparilla. It tones the digestion and cures sick headache.

—Work on the G.T.R. siding to the Edison works was resumed yesterday afternoon, and if the weather does not turn too cold the "frogs" will be singing to-night. The *cessus belli* has been exorcised.

Morrow, the Cash Grocer,

Dominion Government Election Methods.

An Independent Authority Deals With the Subject.

(Toronto Mail.)

The *Mail* thus deals with the circumstances and conditions of the last election:—It is a fact that the Government was, through the election machinery, better armed than the Opposition. The Ministerial party controls everything that concerns the electoral struggle. It fixes the boundaries of constituencies; it regulates the franchise, appoints the revisers, and prints the voters' lists; it selects the returning officers and their deputies; and finally, it has in its employment the official who gazettes the returns and practically fixes the period during which an election petition can be entered. The arrangement of the machinery is from the start in favour of the man in power. This is scarcely a fair deal. Even at the card table it is the rule that no one of the contestants shall do all the shuffling.

Those who cannot sympathize with the Liberal policy must yet be unable to approve of the electoral control which the law gives the Government. An independent authority, and not a political party, should map the country into constituencies, as is the case in England, and under recent legislation in some of the American States. The franchise should be free from Governmental interference. The returning officers should be the most impartial men in the land, and there ought to be a fixed date for the entrance of election protests. It cannot be said that the officials concerned in election matters are universally unfair. But it is known that men unfitted for the impartial performance of these duties are sometimes selected. The return of a minority candidate in the last Parliament, and the difficulty which some of the Liberals have experienced lately in securing a timely official declaration of their election prove this. Under the law all parties ought to be protected from these unhappy exceptions. A very great deal is to said in favour of changes which will remove all causes of complaint. But the use to which the power of declaring a dissolution is applied is probably a more serious affair than the exercise by the Ministry of absolute supervision over the elections. Liberals, as the Ministers say, ought to welcome appeals to the people. In a measure too, they are estopped from complaining of the recent dissolution, for they have always declared their anxiety to fight it out at the polls. Yet there is such a thing as taking a party by surprise, and in addition there are constitutional safeguards in respect of the dissolution of a Parliament which ought ever to be regarded. That a surprise was designed in March last is impossible to deny. The restriction of the announcement of the dissolution to obscure Ministerial prints in the populous centres, and the unusual and narrow-minded precautions taken to prevent the intelligence from reaching the public press, was a proceeding unworthy of a Privy Councillor and a Grand Cross of the Bath. Sir John simply wished, in the laying of his wires, to get twenty-four hours ahead of the public. Moreover, there was during last year a persistent endeavour to create the opinion that no election would be held until the regular time. Mr. Chapleau led in the propagation of this idea in his speech on the Franchise Act in Parliament, wherein he asserted that a dissolution could not come in the ordinary course of events until the lists had been revised, and Sir John declared in Halifax, not longer ago than last autumn, that an election in 1890 was out of the question, while a contest in 1891 would possibly not take place. If any extraordinary circumstance had occurred to render an election necessary these announcements would not rise up in judgment against the Government. But no such circumstances presented itself. The projected reciprocity negotiations cannot be quoted as a justification for the election, for these the Ministry has always been entitled to enter upon. More than this, if the negotiations called for anything they demanded that no election should be held, except in the regular course, until they had borne fruit. It was not fair that the people should be called upon to approve of a reciprocity bargain before they knew its details. To Nova Scotia, for example, it was not just that Mr. Tupper, among others, should would solicit a mandate from that province to decline reciprocity in coal and should come back to Ottawa free to make a tariff exchange in that very article.

From the constitutional point of view the matter looks worse. An irregular dissolution that of February last undoubtedly was. It is laid down as a rule that dissolutions extraordinary are warranted only when the advisers of the crown can show that the Commons, which has turned against them on an important issue, is not in harmony with the wishes of the people. Sir John could not prove to the Governor-General that there had been a change. He claimed, indeed, that the Commons fully endorsed his policy, and that it represented the popular will. It is true, as the Premier says, that the alternatives of resignation or of dissolution are now left to the discretion of Ministers. But while this may relieve His Excellency of responsibility, though obviously, the rule applies solely where there is a conflict between the Ministers and the Commons, it does not exempt the advisers of the Government from criticism in respect of the action they have taken.

Frazerville.

(From Our Own Correspondent.)

The farmers of this vicinity are now pretty well advanced with the spring's work.

The managing committee of the Frazerville cheese factory held their business meeting on Tuesday evening, the 20th ult. Although it was a busy season quite a number of last year's patrons, together with many others, were present. Last year's accounts were all settled up, and every patron was highly pleased with the season's returns. They say cheese far exceeded butter. The officers were then elected for the coming season as follows: Salesman, Mr. James Fisher; secretary, Mr. Thomas Smyth; directors, Messrs. Robert Waterman, Thomas Donaldson, Joseph Harrison, Joseph Madill and Thos. Elliott. Mr. William Fue, manager and owner, started operations on May 4th, and has on hand a very competent cheesemaker to assist him.

Another citizen in Frazerville. On Tuesday last Mr. John O'Hara, of Port Hope, removed to his residence here, where he intends living in the future.

Again we notice that the South Monaghan boy has been writing in a sycophancy way on Frazerville. Although he is one of the proletaire kind of people, he makes some very exaggerated statements. He talks about insinuations on Centreville, but he was the first to insinuate and say we wanted a store in our village like what Centreville had, when we have two just as good. Now, as I am of a serene nature, and it not being my style to flatter or injure any person only when trampled too low, but this time I cannot help but contradict a few of his very exaggerating statements. First he talks about nonsense, but whether he means himself or not I do not know. Anyhow he can wander around his own part and write nonsense, but he had better not come near Frazerville or he will be taken up for mopery. Then he talks about the land being covered with a *dense* swamp at one time, but he would have been better to have kept that back, for right near his own place, at one time, was not only a swamp, but an impassable quagmire. Then about the railroad passing through Frazerville. Well now, my friend must be awful slow, or else lacks in knowledge, for did he ever see an enterprising place without a railroad? But with regard to doing business on railroads, he can do all his on a hand-cart. Then he says their land is worth from $95 to $100 an acre, but I am very scrupulous over that. I think he must of valued it before the N. P. came out; but as we are sorry to say that policy is still in force, he would be safer, as it is now, to say from $30 to $40 per acre. Now, I think the South Monaghan correspondent must have great self esteem, as I know he has. But he must be a somnilquist or else the moon worked on him when he wrote for last week's edition. Now, I will waste no more time correcting his statements, as this is the last for the time to come; but as I said in the fore-part, he as one of the common kind, therefore we will pardon him and let him talk away in the future.

May offers specially favourable circumstances for driving catarrh out of the system, and every sufferer from this loathsome disease should use Nasal Balm for that purpose. It cures when all other remedies fail, if the directions are faithfully adhered to. A single bottle will convince you of its merit. Sold by all dealers. 63103w

Telfordian Temperature Topics

Mr. Thomas Telford's Weather Report for April.

April has gone with its many rejoicings and sorrows, for, which is the month, wherein these two do not blend together! For the tilling of the soil, although there have been many quick and sudden extremes of weather, April has been one of the finest months on record for out-door labor. Up to the 10th the days were bright, clear and warm, the nights cold and invigorating with exceptions of a low temperature; these followed 9 days of the very warm weather, from which to the latter end of the month, it continued fine and spring-like. Our lowest temperature record was on the 8th, the thermometer not rising above the freezing point all day, while on the 22nd at sunrise it stood at 40°, at 9 to 50°, at 11 to 70°, at 1 and 3 to 76°, at 5 to 70°, and sundown to 60°, while again on the 17th at sunrise, to 40°, at 8 to 60°, at 9 to 66°, at 12 to 74°, at 2 to 77°, at 5 to 70° and at sundown to 60°, leaving the mean temperature of the month at 75° 14/30°. Rain fell on 10 days, but only to the depth of 1 inch and 53/100 of an inch, being light for April, the heaviest fall being only 33/100 of an inch. We had slight flurries of snow on the 2nd and 28th, thunder on the 18th, but no rain; a fierce gale on the night of the 27th and all day of the 28th. Auroral lights on four nights and fog on one morning, with frost on several occasions. Of migrating birds, one gale first made their appearance on the 3rd, robins on the 19th, black birds on the 20th and first croaking of frogs was heard on the 18th. The following are the different points from which the wind was blowing at sunrise during the month, respectively, namely—South, 6 days; south-west, 2 days; north-east, two days; west, 4 days; north, 7 days; north-west, 8 days, and south east 1 day.

OUR MAY BLIZZARD.

MAY 5TH.—After our awful gales and flurries of snow yesterday we had snow lying on the ground this morning, thin ice on the water, and the thermometer standing at 4° below the freezing point at sunrise.

A Spring Medicine.

There are few who do not at this season feel the need of a *spring* medicine, and to all such we recommend Lane's Family Medicine as the best. This is a pleasant herb drink made by pouring boiling water on the dried roots and herbs. Druggists sell the packages at 50c. and $1. It is the best as well as the pleasantest cure for constipation and headache. dw

Out Goes the Goods.

Prices does it. When we say things are to go, they go. We mean everything we say. Goods at first cost and less, to clear. No wild statements; absolute facts. $9,500 00 to be cleared in thirty days, and they are going—fast. KNOWLES & Co. 470w

Makes the Weak Strong

The marked benefit which people in run down or weakened state of health derive from Hood's Sarsaparilla, conclusively proves the claim that this medicine "makes the weak strong." It does not act like a stimulant, imparting fictitious strength from which there must follow a reaction of greater weakness than before, but in the most natural way Hood's Sarsaparilla overcomes

That Tired Feeling

creates an appetite, purifies the blood, and, in short, gives great bodily, nerve, mental and digestive strength.

"I derived very much benefit from Hood's Sarsaparilla, which I took for general debility. It built me right up, and gave me an excellent appetite." ED. JENKINS, Mt. Savage, Md.

Fagged Out

"Last spring I was completely fagged out. My strength left me and I felt sick and miserable all the time, so that I could hardly attend to my business. I took one bottle of Hood's Sarsaparilla, and it cured me. There is nothing like it." R. C. BEGOLE, Editor Enterprise, Belleville, Mich.

Worn Out

"Hood's Sarsaparilla restored me to good health. Indeed, I might say truthfully it saved my life. To one feeling tired and worn out I would earnestly recommend a trial of Hood's Sarsaparilla." MRS. PIERRE MOSHER, 90 Brooks Street, East Boston, Mass.

N. B. If you decide to take Hood's Sarsaparilla do not be induced to buy anything else instead. Insist upon having

Terrible Sufferings of Little Baby. Speedily Cured by Two Remedies at a Cost of Only

My baby's face was one mass of sores from crown almost to chin. The disease first appeared in the form of pimples, which quickly spread into large blotches, forming a crust. The poor little sufferer was terribly disfigured. Her head, face and neck were literally covered with crusts, and her body and limbs were painfully affected. No mother's heart could endure to see her darling suffer as our child did. Every effort to relieve her seemed useless. We tried the most skilful physicians, but their treatment did not help her. She was worse at different times, and for two hopeless months we watched her grow worse day by day. At last, after all else had failed, we resolved to try CUTICURA REMEDIES, and before one bottle of CUTICURA RESOLVENT and full bottles of CUTICURA and CUTICURA SOAP were used, and not until then, was a perfect cure effected. Baby was immediately relieved, the sufferings were ceased, and rest and sleep permitted. Her speedily improved and in nine weeks was entirely cured, and has never an since had as fair a boy as any mother could wish to see. I recommend every mother to use it for every Baby Humor.

MRS. M. FERGUSON,
24 W. Brookline street, Boston.

Cuticura Remedies.

The greatest skin cures, blood purifiers, and humor remedies of modern times, instantly relieve the most agonizing forms of skin and blood diseases, and speedily, permanently, economically, and infallibly cure every species of torturing, disfiguring, itching, burning, bleeding, scaly, crusted, and pimply diseases and humors of the skin, scalp and blood, with loss of hair, from infancy to age, whether simple, scrofulous, or hereditary, when all other methods and best physicians fail.

Sold everywhere. Price, CUTICURA, 75c. SOAP, 35c.; RESOLVENT, $1.00. Prepared by the POTTER DRUG AND CHEMICAL CORPORATION, Boston.

Send for "How to Cure Skin Diseases," 64 pages, 50 illustrations, and 100 testimonials.

PIMPLES, black-heads, red, rough, chapped, and oily skin cured by CUTICURA SOAP.

OLD FOLKS' PAINS.

VOL. XII. NO. 106. PETERBOROUGH, WEDNESDAY, MAY 6, 1891. PRICE TWO CENTS.

CASH HARDWARE STORE.

On and after 1st April we shall do business on a Cash Basis.

To cover the inevitable ones attendant upon a credit business, which accrue from amount of time spent in keeping accounts, collecting, bad debts, interest account, and in numerous other ways, larger margins of profit must be asked.

In these times cash buyers ask, expect, and are entitled to close prices. A careful consideration of the subject convinces us that the time has come for a cash business done on smaller profits.

The only customers who may possibly be put to inconvenience are those who have had long credit. In more ways than one it will be to their advantage to pay cash.

For convenience of our old customers who consider their accounts due when presented, we will call 30 days cash and render all accounts the first of each month, and we wish to say that will be happy to do business with them on these terms.

As the new departure is something of an experiment, what would be considered a close cash price will be made all through the stock. Not a few leaders only, but a general reduction in everything from the fourth flat to the cellar.

Our idea is to perform more than promised rather than promise more than can be fulfilled.

Our stock is large and varied, consisting of **Builders', Contractors', Household, Mechanics', Painters', Shoemakers', Farm, Mill, Factory, Lumbermen's, Sporting, Threshers', Cabinet-makers', and other lines of Hardware.**

As old saying:—"You should go to Kingan's where you can get anything from a Needle to an Anchor."

DRIVEN FROM HOME.

DISTRESS CAUSED BY THE CZAR'S CRUEL EDICT OF EXPULSION.

Heartrending Scenes In the Russian Synagogs—Bankruptcy Staring the People in the Face—Thousands of Men Thrown Out of Work.

LONDON, May 5.—The Moscow correspondent of The Standard dwells upon the utter disorganization of business through the sudden expulsion of the Jews. All who are engaged in the various business agencies, the correspondent says, find it impossible to collect debts and hundreds of bills are protested daily. The judge of the Commercial Court has been obliged to telegraph to the Minister of Finance for instructions how to act in the emergency. Many traders in the Jewish quarters are facing bankruptcy owing to the departure of the Jews who only left their belongings to cover debts amounting to £130,000.

At St. Petersburg a synagog has already been sold for £9000. A new and unused synagog in Moscow has been offered for sale, as it is useless in the face of the exodus.

A Moscow letter to The Times records acrifices made by the Jewish emigrants. In many cases they have sold their belongings for the merest trifle, chairs being bought for twopence and beds for sixpence. Many persons destroyed their goods in preference to selling them at such a complete sacrifice. Many Russians have declined to pay debts owing to Jews. Heartrending scenes are witnessed daily in the synagog, the people weeping and praying to Jehovah to help them. Thousands of workmen are idle who have hitherto been employed by Jews. Foreign importers are keeping back goods on the frontier. It is reported that one Swiss silk firm has lost £8000 in a single week. The letter confirms The Standard's despatch as to the business collapse. Neither Jews nor Gentiles are paying their debts. The correspondent declares it a shame that Jewish bankers who are rich are not touched by the Government's decrees, and yet do not appear to help their unfortunate brethren in their plight.

St. Petersburg advices state that all speeches and pamphlets in favor of the Jews are prohibited. The Government is considering a scheme to solve the Jewish question, which if they adopted will astonish and perhaps shock the civilized world. An Odessa paper states 50,000 Jews have joined the Greek and Lutheran churches since the issue of the expulsion decrees. Each one embracing the orthodox faith receives a gratuity of 15 roubles.

THE ROYAL NAVAL EXHIBIT.

Fifty Acres of Models, Relics and Mementoes.

LONDON, May 4.—The naval exhibition on the Chelsea embankment, which was opened Saturday, is held in the grounds of the old Chelsea Hospital, in the temporary buildings erected last year for the military exhibition. The exhibition and grounds cover an area of 15 acres.

The larger section has an arena and a good-sized artificial lake. Between the arena and the lake is a grand-stand of large seating capacity, and across the arena from the grand-stand rises the exact facsimile of the Eddystone Lighthouse. The lighthouse, which is lighted up to the extent of 500,000 candle power, is built of a framework of iron covered with American expanded wire, over which cement is laid, giving it the appearance of solid stone. The lower part of the lighthouse is used for an exhibit of lighthouse and signaling apparatus, while the top reached by elevators affords a good observatory.

One of the most interesting features of the exhibition is a full-sized model of Nelson's famous flagship Victory, furnished throughout with guns and accoutrements of Nelson's day. On the lake it is proposed to give each day a mimic naval battle between miniature ironclad men-of-war, including torpedo attacks, torpedo practice, submarine mining, fireworks, etc. In the arena bodies of sailors will demonstrate how drill is done aboard ship, and gymnastic contests and displays will also be given, whereiu the boys of the naval school at Greenwich will figure. The handling of naval machine guns, such as the Gatling, will be shown here by picked parties of blue jackets.

The main exhibition building is divided into nine galleries, each named after some celebrated sailor, such as the Nelson, Benbow, Cook, Rowe and Blake galleries, each gallery being devoted to some one class of exhibits.

There are interesting collections of old naval relics and of relics of the various Arctic expeditions, and the art section contains the finest collection of naval pictures ever brought together. Rumley, Gainsborough, Knell, Vandyke, West Hall, Reynolds, Sir Benjamin West, De Martina, Maclise, Phillips and many other artists are represented.

There are hundreds of models of old and new warships. Innumerable charts, ancient and modern, are hung on the walls of the galleries.

Just inside the main entrance is a fine model of the battle-ship, the Queen, constructed in 1837. Nothing could show more strikingly the enormous strides made in naval construction during the past half century than a comparison of this warship with a modern ironclad. Innumerable kinds of machine guns are exhibited, and also some of the heaviest cannons ever made. A 110-ton gun is particularly conspicuous in a full section of the turret of the Victoria. All the various appliances for manipulating heavy ordnance and machinery of all kinds are on view, as are also shells, sections of shells and models of shells in their different stages of manufacture. An interesting contrast is made by placing side by side a charge for the modern 100 ton gun weighing 780 pounds and a bag containing the heaviest charge used during the Crimean war, weighing 16 pounds.

All the largest shipbuilders and shipowners are represented, if not in the exhibition itself, in buildings specially provided in the grounds.

Among the naval curiosities that may be seen at the exhibition are Capt. Cook's waistcoat, the washstand used by Nelson at sea, the Exmouth trophy, the figure-head of the Shannon, carried on that ship during her memorable encounter with the Chesapeake; the Duke of Edinburgh's curious collection of silver ships a portion of the mainmast of the Victory pierced by shot at the battle of Trafalgar, a panorama of the battle of Trafalgar and many other such relics similar to those already mentioned.

JURY BRIBERS INDICTED.

THOROUGH EXPOSURE OF O'MALLEY AND HIS MATES.

The Investigating Committee Find That at Least Three of the Jurors Accepted Cash Bribes—They Decline to Indict Any of Those Engaged in the Massacre.

NEW ORLEANS, May 5.—The grand jury, after investigating the alleged jury-fixing in the trial of the Italians charged with murdering Chief of Police Hennessy, has indicted Thomas McCrystol, John Cooney and K. C. O'Malley for attempting to bribe a talesman and Bernard Glandi, Charles Granger and Ferneard Armant for attempting to bribe three different talesmen.

The report of the grand jury says it was learned from various sources that talesmen had been approached. As a rule the talesmen who had been previously marked out were seen when alone or invited over to some secluded and unsuspected place. Talesmen were visited at their homes during the evening or early morning, intercepted on their way to the court house, stopped in the corridor of the court, and the vile work was deliberately carried forward in the court room during the trial. One favorite expression was that big money might be made by going on the jury and doing right. The report states that there is no possible doubt that such attempts were made by various parties in the service of the defence entertained by some of the talesmen and scornfully rejected by others.

Out of 300 names drawn for the February panel 32 were names supplied by O'Malley and Adams.

The grand jury report speaks of the great difficulty of establishing a conspiracy by adequate proof on account of the secrecy observed by the conspirators, but it says that sufficient evidence was offered by the voluntary and reliable witnesses to justify the indictment of six men as follows: Thomas McCrystol and John Cooney with K. C. O'Malley, for attempting to bribe a talesman, and Bernard Glaudi, Charles Granger and Ferneard Armant for attempt by cash to bribe three different talesmen. These parties are shown to have been closely intimate with O'Malley, often at his office, informed of all doings and were active workers in the jury-fixing business generally.

The report declares that the existence of the secret society called the Mafia is confirmed by evidence from various sources. Officers of the Mafia and many of its members are now known. It also states that three if not more of the jury accepted money bribes.

Not to be Indicted.

The jury decline to indict the perpetrators of the massacre. The report says: The magnitude of this affair makes it a difficult task to fix the guilt upon any number of the participants. In fact the act seemed to involve the entire people of New Orleans. The report concludes as follows: "In view of these considerations the thorough examination of the subject has failed to disclose the necessary facts to justify the grand jury in presenting indictments."

A Napanee Man Loses a Foot.

WATERTOWN, N.Y., May 5.—James Mann of Napanee, Ont., a telegraph operator, caught his foot in a moving locomotive this afternoon and received injuries which may necessitate amputation of the left leg.

INTERESTING ITEMS BY WIRE.

A big fire is raging in Pittsburg.

Mgr. Tiedi, Papal Nuncio at Paris, has been made a cardinal.

The burning of coal breakers at Edwardsville, Pa., throws 800 men out of employment.

A dangerous case of leprosy has been discovered in New York.

Three members of the family of the Archbishop of Canterbury are prostrated with influenza.

The French Chamber of Deputies has voted 50,000 francs for the relief of the families of the May day riots at Fourmies.

John Calder & Co., commission merchants of New Orleans, are embarrassed, liabilities $35,000, assets over half a million.

A man named Wilbur shot and killed Laura Brevoart a singer in the Bowery last night and then committed suicide.

The deputy sheriffs at the Chicago Works at Scottdale, Pa., struck yesterday because the sheriff docked them for time spent at their homes.

President Ramisedis of Chili has solicited the good offices of Brazil, the United States and of France in an effort to restore peace in that country.

Dynamite warfare is being waged in Belgium, the houses of capitalists being blown up at Liege, and the residences of miners who refuse to join the strikers at Mons.

Emperor William, in a speech at Cologne, expressed himself as being in favor of British control there. He said he hoped British vessels would soon ascend the Rhine to Cologne.

At a meeting of the New York Press Club the site in Park place for the new Press Club building was approved. The land will cost $375,000 and the structure itself about $200,000.

At a meeting of McCarthyites yesterday it was resolved to submit the question of the release of the Paris fund to arbitrators, one to be appointed by Mr. McCarthy and one by Mr. Parnell, with power of reference to an umpire.

The Government of the United States has instructed Mr Egan, Minister to Chili, to offer to mediate between the combatants in that country in the interest of peace and good order, and that France and Brazil have joined in the proffer of their good offices.

Patrick O'Brien, M.P., who was sentenced to six months' imprisonment at the same time that William O'Brien and John Dillon were sentenced, all on the charge of having conspired to induce tenants on the Smith-Barry estate not to pay rent, was released yesterday, his time having expired.

During the enquiry into the loss of the British steamship Thanemore, which disappeared while on a voyage from Baltimore to London last fall, Mr. Johnson, the owner of the steamship, said he was of the opinion she was burned at sea in consequence of bad packing of the American cotton which she carried.

On the London stock exchange yesterday foreign securities closed depressed. Russian securities dropped 2½ owing to the fact that the syndicate which is to furnish money for the new Russian conversion loan has asked the Russian Government to defer the issue of the loan. Other Government securities were affected through fears of political complications. The same condition prevailed on the Bourses at Paris and Berlin.

The Most Reverend William Connor Magee D.D., Archbishop of York, is dead, aged 70 years. Dr. Connor was formerly Bishop of Peterboro, and a few months ago on the death of Dr. William Thomson was elevated to the Archbishopric of York. The cause of death was influenza.

Lord James Edward Sholto Douglas, brother of the Marquis of Queensberry, committed suicide yesterday by cutting his throat with a razor. Lord Douglas had been traveling from Ireland during the night and acted strange. Upon arrival in London Lord Douglas put up at a hotel and subsequently eluded an attendant and cut his throat. Lord Douglas was born in 1858.

DOMINION PARLIAMENT.

THE GOVERNMENT DECIDE IN FAVOR OF GRAND JURIES.

Parliament Will To-Day Take a Recess Until Monday—Bills to Amend the Election Act—The Senate and the Divorce Court.

OTTAWA, May 5.—A perfect shower of petitions came from all parts of the chamber, dealing with all conceivable subjects, when the House opened to-day.

Mr. Laliviere moved for returns or copies of correspondence, petitions, memorials and all other documents submitted to the Privy Council in connection with the abolition of the French language and of separate schools in Manitoba by the Legislature of that province.

Mr. Devlin, Alonso Wright's successor as member for Ottawa County, had given notice of a motion for a return of the papers for which Mr. LaRiviere had procured an order of the House. The object of his motion would be obtained by the motion of the member for Provencher, but he considered it his duty to present to the House the reasons for his having brought this matter forward at the earliest opportunity, as he had promised his constituents he would do. It was Mr. Devlin's maiden speech in Parliament. He has a vivid and rapid command of English and he spoke with vigor. It was an extreme speech in some of its parts and the temper of the House did not respond to some of his appeals, but the force with which he spoke was frequently applauded. By the allowance of the Manitoba School Act he declared the Government had sanctioned it. He said that he and those for whom he spoke were willing to wait until the papers were brought down before they protested against the violation of a sacred right, against a blow at the constitution of the country, which should have been prevented by the Government. He called attention to the widespread alarm among his co-religionists which had been caused by the legislation in Manitoba and by an agitation in Ontario. He would be glad to tell them that their fears were unfounded, but in the light of events was it possible to hold out such assurance? They were told there were ministers in the Cabinet who would look after their schools, but when the deeds of these men were contrasted with their protestations the conclusion was forced that the mantel of office produced very remarkable effects. The attention of the Government, he said, had been called by the French press to the feeling against the Manitoba legislation, but in vain, and that feeling had increased since the lapse of the time during which the power of disallowance might have been applied. "To-day is the turn of our brethren in Manitoba to suffer," he continued, "to-morrow it may be ours." He referred not to the senseless writings and pamphlets by agitators, not to the idle speeches of hundreds of speakers throughout Ontario, but when prominent men were heard in the legislature of Ontario declaring that the agitation is not dead was there not ground for alarm? The great danger to Confederation he declared was not in the French people or the French language or in separate schools, but in the feeling of the hon. member for North Simcoe and his friends.

Mr. Charlton's Elections Act Amendment provides in the first section that "any candidate promising public works of any kind to electors of any particular district will be deemed to have used undue influence, and his doing so will be considered a corrupt practice under the act." The second is to the effect that "any Minister of the Crown or agent of the Government who shall during the progress of an election contest make a promise of Government appropriations or aid to any constituency, that promise being calculated to influence the result of an election in that constituency, it shall be deemed a corrupt practice." The third clause stipulates that "where the Government during the progress of an electoral contest or at any time within two months of the dissolution of the House send engineers for the purpose of surveying public works for which no appropriation has been made for the purpose of such works, this shall, where such survey influences the result of an election in any riding, be deemed a corrupt practice."

M. C. Cameron has a bill to amend the Election Act. He explained it in a few nervous terse sentences that were full of snap and evoked a hearty round of applause when their utterer subsided. Briefly he proposes to provide severe penalties for misdemeanors connected with elections, while at the same time providing that seats of candidates who can be shown to have honestly endeavored to conduct a fair contest shall not be imperilled by trifling acts of corruption on the part of persons ostensibly acting for them. He was also down for the introduction of an act amending the Franchise Act. He explained, however, that the use of the word "amend" was totally misleading, as he intends to move that the present act be abolished.

Ascension Day had to be observed, and as it falls on Thursday Mr. Wood (Brockville) proposed that the House at its rising on Wednesday adjourn till Monday next.

The motion was agreed to.

OTTAWA, May 5.—The Minister of Justice will on Monday introduce a bill to codify the criminal code of Canada. Contrary to expectations it will not contain a clause abolishing grand juries. Circulars were sent last winter to all judges and attorneys-general; but of nearly a hundred replies the majority favored the retention of grand juries in view of doubtful qualification of magistrates in general.

C. C. Chipman, secretary to Canadian Minister of Marine, and formerly to High Commissioner in London, has been appointed Commissioner for the Hudson's Bay Company.

M. C. Cameron (Huron) intends once more introducing a bill in the Commons to allow an accused person to give evidence in his own behalf. The bill is almost similar to the one he introduced in the Parliament before the last and which was defeated by a small majority.

The work for the staff of the geological survey has been laid out by the director of the geological survey, Dr. Selwyn, and in a few days these scientists will all be engaged in their several fields of investigation.

Advices from the Northwest are to the effect that the cattle on the ranches came through the winter splendidly, and as a consequence all the ranchmen are feeling jubilant and expect to pay big dividends and at the same time increase the numbers of their herds.

The funeral of the late Patrick Purcell took place to-day from his home at Summerstown to the little burying ground at Flannigan's Point, right on the St. Lawrence. Among the pall-bearers was Hugh Ryan of Toronto. The deceased left an estate of between $800,000 and $1,000,000. He made many wills; just how the last one disposed of his wealth is not yet known.

Dominion Alliance.

The Legislative Committee of the Dominion Alliance and a number of members of Parliament favorable to prohibition met in the tower room at 10 o'clock this morning, Senator Vidal, president, in the chair and there being also present: Messrs J. J. McLaren, chairman of the executive; Secretaries Spence of Toronto, Carson of Montreal, J. R. Dougall and William Tees, Montreal; Rev. Mr. Chown of Almonte, and the following members of Parliament: Messrs. Jamieson, Scriver, Henderson, Dyer, Taylor, Laidlaw, Boome, Mills (of Annapolis), Macdonald (Huron), McMillan, Bowers, Flint, White (Shelburne), Christie, Contsworth, Dickey, Carpenter and Craig. There was the usual exhibition of political feeling, each party accusing the other of using the alliance for its own purposes. Mr. Coatsworth said the presenting of petitions was largely turned into a farce when they saw a batch of them presented in the House by a prominent distiller. It was finally agreed that Mr. Jamieson should present a

Children Cry for Pitcher's Castoria.

resolution to Parliament: "That in the opinion of this House the time has arrived when it is expedient to prohibit the manufacture and sale of intoxicating liquor for beverage purposes."

Mr. Laurier is still confined to his room and Sir Adolphe Caron remains on the sick list.

At a late hour to-night Senator Haythorne was alive, but recovery is looked upon as impossible.

On motion of Sir John Macdonald the House will adjourn from Wednesday till Monday.

Over 200 petitions, chiefly relating to prohibition and immigration of Chinese were represented to-day. The members were quite unruly while these were being presented.

Petitions from Toronto and Hamilton Gun Clubs were presented asking that the export of woodcock and snipe to the United States be prevented.

A huge deputation will be here on the 21st representing a large number of Ontario municipalities to press on the Government the justice of assuming the indebtedness incurred by cities, towns and counties in bonusing railway enterprises.

Speaker White gives his first official dinner on Saturday night. Sir John feasts his friends on the same night, while the Governor entertains a number of the members to-morrow night.

The Holland Bros., the Senate reporters, will introduce the phonograph in their work this season. They have always experienced difficulties in whispering the details of divorce cases into the ears of the lady typewriter. They will in future breathe them into the soulless phonograph, the cylinders will be sent down to the printing bureau and there set up by the linotype. The experiment will be watched with much interest.

OTTAWA, May 5.—In the Senate to-day the report of the Committee on Vacancy caused by Alexander's absence for two years was received. The matter will be laid over for three weeks, he to be notified in the meantime.

Quite a discussion sprung up on Abbott's motion to appoint a divorce committee of nine members.

Macdonald (British Columbia) expressed his views on divorce legislation. He contended that this subject ought to be taken out of the hands of the Senate and a divorce court established similar to the British court established in 1857. As it was now the Senate was virtually a jury of 72 members, of whom one-third by reason of their religious training were opposed to divorces altogether, and others for various reasons should not act as jurors. But this was not all, for after the case had gone through the Senate it had to go to the Commons and be tried by a jury of 215 who had not heard the evidence.

Senator Power made an attack on the English Divorce Court, which he said was a disgrace, and said that if the Commons had known in 1857 what the result of their bill would be they would never have passed it.

Senator Abbott said that he could not enter into the merits of the case now nor give an opinion on the matter, but he hoped it would be brought up again later in the session, when he would give an opinion.

STREET CAR MAIL SERVICE.

A Novel Experiment to be Made at Pittsburg.

PITTSBURG, Pa., May 5.—Postmaster McKean says that this city will soon be fitted out with mail boxes on the street cars. The scheme will be put into operation here first, and will be of the nature of an experiment before introducing it in other cities, and will be inaugurated soon after the return of the Postmaster-General.

ONLY ONE SURVIVOR.

Nine Bodies Recovered from the Wreck of the Barque Helga.

HALIFAX, May 5.—Nine bodies have been recovered from the wreck of the barque Helga. One more was seen, but the sea was too rough to venture near it. The bodies have been buried on the beach opposite the scene of the wreck. The barque was bound for Quebec in sand ballast. The only survivor is Alexander Ellason, who was rescued by a boat's crew of eight men, who entered the breakers at the risk of their lives.

TORONTO TOPICS.

Mr. Blue Appointed Director of the Bureau of Mines—Fatal Accident.

TORONTO, May 5.—Mr. Archibald Blue has been appointed to the position of director of the Bureau of Mines, a new office created by Mr. Hardy's Mining Act, under the Crown Lands Department and worth $3000 per annum. Mr. Blue has been Deputy Minister of Agriculture for several years and secretary of the Bureau of Industries since its organization, with a salary of $2200.

James Sandford, employed on the new Parliament buildings, fell from the rafters yesterday and was so badly injured that he died at the hospital a few hours later.

DOUBTS AS TO SHEOL.

A Methodist Parlor Questions the Idea of Perdition.

MONTICELLO, Ill., May 4.—The Rev. H. O. Hoffman, one of the leading ministers of Illinois, and pastor of the Independent Methodist Church at Bloomington, created a sensation last night by announcing that the doctrine of everlasting hell is not taught in the Bible. He says Christ never used the word damnation with the meaning it has applied to it by the orthodox preachers of to-day. Mr. Hoffman has a large following, formerly believing in the doctrine of perpetual punishment by fire and regular Methodists. He is very popular and an able minister.

UPSET BY WINE SAUCE.

Church Women Shocked by Recipes in a Society Cook Book.

BIRMINGHAM, Conn., May 5.—There is a row among the members of the Ladies' Aid Society of the Shelton Methodist Church over recipes for wine sauce printed in a cook book recently compiled by prominent society ladies, Mrs. Fred Tucker and Mrs. John Wilkinson, in behalf of the organization. The work was well edited and finely bound and the receipes were the best to be found. The work met with a ready sale, $300 being realized thus far.

The discovery of the wine sauce recipes was not made until a few days ago. Four of the members of the society noted them, and it was characterized as horrible that they should appear in a book got up to aid the church. The compilers say if the society doesn't take the money they will be satisfied to keep it. Shelton is at present a non-license town and the compilers are prohibitionists.

Highest Bail Ever Asked

LONDON, May 5.—The bail in which Captain Verney, in the case of the governess, Miss Nellie Beckett, is held, $75,000, is said to be the highest known in the English criminal records.

MADE A SUCCESS OF IT.

A Bottle Which Had Contained Laudanum Explained This Man's Death.

ST. CATHARINES, May 5.—The dead body of a middle-aged man was found in a barn on the Hartnell-road on Monday afternoon by a young man named Caffrey, who had gone to the barn for a load of straw. The body was identified as the man named Smith, alias Miller, who had attempted suicide in the American Hotel on April 23 last and who was then removed to the hospital, which he left on April 27, stating that he was going to St. David's to work. The supposition is that it is a deliberate case of suicide, as a four ounce vial, which had contained laudanum, was found lying empty by the side of the victim.

The Spring Medicine.

The popularity which Hood's Sarsaparilla has gained as a spring medicine is wonderful. It possesses just those elements of health-giving, blood-purifying and appetite-restoring which everybody seems to need at this season. Do not continue in a dull, tired, unsatisfactory condition when you may be so much benefitted by Hood's Sarsaparilla. It purifies the blood and makes the weak strong.

J. C. Turnbull.

—AT—

TURNBULL'S

They are constantly opening out new goods. To-day we are showing a large lot of Wool and Union Carpets just turned out of the looms, all new patterns. House keepers will do well to remember us; 36 in. Union Carpet at 35c, the old price was 50c. Heavier grades at 45c, 50c, and 60c. The all-wools range from 75c up to $1.00.

Lace Curtains, Cream and White ranging in price from 60c. a pair up to $5.00. Curtains were never so cheap and handsome as they are this season. You will be surprised to see what we can give you at $1.25 a pair.

Art Muslins in single and double widths at 10c up to 20c a yard.

Double Fold Reversible Cretonnes for portieres, at 75c a yard.

Floor Oil Cloths, 36 in. wide at 30, 40, 50c. a yard.

Floor Oil Cloths, 72 in. wide at 60 and 75c. a yard.

In our Mantle Department we Show a choice range of Wool Mantle Cloths, Plain and Brocaded suitable for elderly Ladies' Wraps.

Also handsome Laces for trimmings.

Our Pne-de-Soie Silk we warrant not to cut. Price $1.25 and $1.50 a yd.

We show Jet Capes and Visites from $2 to $5, either all jet or jet and lace, also some very handsome ones for mourning. We have such quantities we can suit any size or style of make.

All-over Jet Lace at the surprising low figure of 75c.

Fish Nets at 60c; we believe you will pay twice these figures elsewhere for these goods.

Quantities of Millinery to select from, pretty as a picture.

SUN LIFE
ASSURANCE COMPANY OF CANADA.

The attention of our Policy-Holders is directed to the following summary of the leading items of the present report, which speaks for itself as to the progress and prosperity of the Company:—

Life Assurances in force, 1st January, 1891	$16,759,355 92
Increase over previous year	3,421,372 84
New Applications received in 1890	6,377,899 15
Increase over 1889	2,268,988.60
Cash income for year ending 31st December, 1890	889,078 87
Increase over 1889	325 938 35
Assets at 31st December, 1890	2,473 514 19
Increase over 1889	687 691.47
Reserve for Security for Policy-Holders	2,189 222 68
Increase over 1889	567 732 71
Surplus over all Liabilities and Capital Stock	232.175.69
Increase over 1889	75.649 05
Death claims fallen in during 1890	143,961 65

The progress made by the SUN LIFE during 1890 was remarkable. The new business was the largest in the Company's history, and was equalled by but one other Canadian Life Company. The income for the year exceeds $2,000 for each day in the year, Sundays included. The Assets are large and rapidly increasing. They are, moreover, of the highest character, yielding an average interest of 6.04 per cent. The overdue interest is small, and the Real Estate owned under foreclosure is only four per cent. of the amount of mortgages. This is a remarkable showing. The SURPLUS accumulated during the FOUR years of the current quinquennium is nearly THREE TIMES as much as the amount earned during any previous FIVE years, and the profits to Policy-holders cannot fail thus to be highly satisfactory. The following are the figures:—

Net Surplus, 31st Dec.,	1881, (five years)	$64 824 07
" " "	1885, "	89,452 97
" " "	1890, (four years)	232,175 69

WEDNESDAY, MAY 6, 1891.

DOMINION RAILWAYS AND CANALS.

The report for 1890 of the Right Honorable, the Minister of Railways and Canals shows that the number of railways, including the Government roads, in actual operation, was 50. The number of miles of railway completed, irrespective of sidings was, 13,325, of which 12,539 were laid with steel rails. There were 12,628 miles of railway in actual operation. The paid up capital amounted to $760,576,446. The gross earnings of all these railways amounted to $42,149 615, and their working expenses to $31,038 045, leaving the amount of net earnings $11,111,570. The number of passengers carried was 12,151,051, and 17,928,626 tons of freight were conveyed over these roads. The total number of miles run by trains was 38,819,380.

The figures for 1889 were: Miles completed, 12,701, in operation, 12,162; net earnings, $11,507,106; passengers carried, 11,416,791; tons of freight carried, 17,172,759; miles runs, 37,391,206.

The statements of receipts and expenditures of the lines operated by the Government last year is as follows: Intercolonial (894 miles), expenditure, $3,481,472; earnings, $2,928,080; loss $553 392. Eastern Extension (80 miles), expenditure, $79 102; earnings, $84,658; profit, $5,556. Windsor Branch (32 miles), expenditure $18,982; earnings, $60 162; P. E. Island (211 miles), expenditure, $266,486; earnings, $160,975; loss, $105,514, making a net loss of $642,170 on the 1,217 miles operated. The earnings of the Intercolonial were $32,716 in excess of the previous year. The total cost of the road and equipment to date is $46,908 233.

During the fiscal year ended June, 1890, the Dominion Government paid out $1,678,195 in earned subsidies to railways, and in the six months between that date and the 31st of December last, $683,089 in addition. The total payments since 1883 amount to $8,424,076, not including the C. P. R. subsidies.

The receipts from tolls on vessels passing through the various canals in Canada during the fiscal year 1889-90 were $352,417. The receipts from tolls, rents, etc., were as follows: Welland, $226,296; St. Lawrence, $95,006; Chambly, $17,847; Ottawa, $53,118; Rideau, $7,402; Trent Valley, $595; St. Peter's, $2,453; Murray, $238; total $402 955.

During the season of navigation of 1890 there passed through the Ottawa canals 3,266 vessels, and through the Rideau 2 492 vessels.

THE most youthful member of the House of Commons is Mr. Leduc, of Nicolet, who is twenty four years old, but does not look more than twenty. Mr. Leduc is not only the youngest member of the House, but he is the first Liberal ever returned for the county of Nicolet.

THE military members of Parliament propose to continue the agitation for the granting of a sufficient appropriation annually to permit of drilling the whole force every year. It is conceded that arrangements can hardly be made in time to permit of any other than the ordinary camps being held in June. The military members of the House waited on Sir John Macdonald and represented to him the importance of the matter, and the Premier apparently did not disapprove of it.

The "North King."

The New Steamer Will be "One of the Finest" on Lake Ontario.

This new steamer will be placed on the route between Port Hope and Rochester by the 20th of May. She belongs to the Lake Ontario Steamboat Company, and is now being completed at the dry dock of Davis & Son, Kingston. She is 176 feet in length, 44 feet wide over the guards, 10 feet depth of hold, eight feet between decks, and ten feet high in upper saloon. The leading features of her construction are the result of the experience of Mr. Gildersleeve, the manager of the company, as to the requirements of the route, and the best experts have contributed in the carrying out of the details. The hull lines are by Captain J. W. Pearce, of Evansville, Ind.; engine proportions, by Frank E. Kirby, of Detroit, and feathering wheels, by Messrs Logan & Rankin, Toronto. She is sharp and high forward, and the leading idea in the shape of the hull has been to secure a vessel that would make her time in all weathers, and with the greatest comfort to passengers. The hold below the main deck not being required for freight, is mainly devoted to strengthening. In addition to the usual water-tight bulkheads and side strengthening, she is screw-bolted throughout and iron-strapped from forward to aft between the planking and frames. Trusses are built the full depth of the hold, and full length forward and aft over the sister keelsons, with log stringer bolted to the deck beams, and posts every six feet, four knees at the corners between the posts meeting in the centre, each truss thereby forming a succession of knee arches. Similar trusses are built over the centre keelson forward and aft of the sister keelsons. To prevent side steam, there are double brows from gunwale to bilge across the hull every 20 feet, kneed at both ends and bolted together where they cross. Half spoonons are built outside the hull to protect the guards forward of the wheels, which also give increased stability and strength. It is believed this is the largest amount of strengthening as yet introduced in a wooden steamer. She has a skeleton beam engine with cylinder 36 inches in diameter, and 10 feet length of stroke, with Stevens' valve gear and drop cut of the latest design. The paddle wheels are of a feathering type, 18½ feet in diameter. The small diameter of the wheels as compared with the leverage of the crank is designed to give great speed of engine and consequent power. She has two return tubular boilers, one in front of the other to distribute the weight and place face to face with separate smoke-stack to each. The power is estimated at 750 indicated horse power, and the speed at not less than 15 miles. The weathering side wheel type of steamer, although more expensive, has been decided on as the best for passenger lake service, after careful consideration, and consultation with the best experts in New York and Detroit. The extra width of the guard gives greater space for passenger accommodation; and the tremor and rolling are less than with either single or double screws. These considerations have caused the latest of the Long Island sound and upper lake passenger steamers to built of this type. The passenger steamers crossing the channels of the English coast are also still built with feathering paddles on account of the lesser vibration and rolling, although they have no guards and but little upper works. The North King will have ample freight room on the main deck, on each side of and forward of the engine. Between the after gangways in the main saloon, with office, baggage rooms, stairway, etc., and aft of this the main cabin, with staterooms on each side. On the second or promenade deck is the upper saloon, 126 feet in length, 14 feet wide aft of and 20 feet wide forward of the engine. The forward portion, from its greater width, comfortable sofas, and spacious glass front, will be the favorite resort for passengers. Dining tables will be laid in the whole of the after and part of the forward portions. Ladies' and gentlemen's toilet rooms are also in the upper saloon. On each side of the upper saloon, as far as the forward end of the engine, are double rows of staterooms, and in front of this a single row on each side. The outside promenades are in front of the upper saloon, and also on the forward portion of the third or hurricane deck in the vicinity of the pilot house and texas. She will be heated by steam and lit with electricity, with reserve oil lamps. Her life saving apparatus of boats, life rafts, and life preservers are over the legal requirements. Captain C. H. Nicholson, who has become a favorite on this route, will be in command, assisted by J. Jerrolds, mate, J. W. Johnston, purser, Thos. Milne, 1st engineer, and A. W. Stevenson, steward, all old friends. The latter has long been famous for keeping a well-supplied table, and his steamer scrupulously clean. With so good a ship, and such competent officers, the route across the lake is certain to be well served.

A young lady of Jefferson, West Virginia, declares that she was all run down before taking Ayer's Sarsaparilla; but that now she is gaining strength every day. Ayer's Sarsaparilla is certainly a wonderfully effective tonic for the feeble and delicate.

A Cure for Constipation and Headache.

Dr. Silas Lane while in the Rocky Mountains, discovered a root that when combined with other herbs, makes an easy and certain cure for constipation. It is in the form of dry roots and herbs, and is known as Lane's Family Medicine. It will cure sick headache, and is the best spring medicine. For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50c. and $1 a package. dw

---

A True Bill.

Wm. Gillespie, Wolfe Island, Ont., says: I had indigestion and stomach cough for three years. Was treated by best physicians and used numerous patent medicines without success, when two bottles of Miller's Emulsion of Cod Liver Oil cured me. I have great pleasure in recommending it. For sale by all druggists. dw

---

Why Not Treat.

Why not treat such troubles as boils, pimples, blotches, sores, humors, eruptions, rashes, skin irritations, etc., with Burdock Blood Bitters. It is filled with virtue as a blood purifier and goes right to the right spot. It makes the skin bright and clear, while also invigorating the entire system. 1w18-d

---

How Free From Pain.

Dear Sirs—I have been troubled with Lame Back for about six months, and thought I would try Hagyard's Yellow Oil, which cured me. Am now free from all pains, and recommend Yellow Oil very highly. Frank Palmer, Winona, Ont. 1w18d

---

Supposing.

Supposing you suffer from some disease. Suppose it is dyspepsia or biliousness or constipation or bad blood. Suppose you learn that Burdock Blood Bitters has cured thousands of cases of these and similar complaints. Don't you suppose you ought to try? It cannot harm you and in nine cases out of ten it cures. 1w18d

---

Once Used, Always Used.

This is a fact as regards Dyer's Jelly of Cucumber and Roses, from its wonderful efficiency in curing chapped hands, and making the skin smooth and soft. Druggists keep it. W. A. Dyer & Co., Montreal 6d92

The Royal Rheumatic Remedy, taken internally, strikes directly at the foundation of the disease. At once relieves pain by removing the cause of disease. The cause removed, a cure is effected. For sale by W. R. Greatrex, druggist, Peterborough. dw

---

Will positively cure sick headache and prevent its return. Carter's Little Liver Pills. This is not talk, but truth. One pill a dose. See advertisement. Small pill. Small dose. Small price. dw

---

In the first stage of consumption Miller's Emulsion will certainly cure. For sale at all drug stores. dw

---

FOR NETTLE RASH, Summer Heat and general toilet purposes, use Low's Sulphur Soap. dw

Ayer's Hair Vigor

IS the "ideal" Hair-dressing. It restores the color to gray hair; promotes a fresh and vigorous growth; prevents the formation of dandruff; makes the hair soft and silken; and imparts a delicate but lasting perfume.

"Several months ago my hair commenced falling out, and in a few weeks my head was almost bald. I tried many remedies, but they did no good. I finally bought a bottle of Ayer's Hair Vigor, and, after using only a part of the contents, my head was covered with a heavy growth of hair. I recommend your preparation as the best in the world."—T. Munday, Sharon Grove, Ky.

"I have used Ayer's Hair Vigor for a number of years, and it has always given me satisfaction. It is an excellent dressing, prevents the hair from turning gray, insures its vigorous growth, and keeps the scalp white and clean."—Mary A. Jackson, Salem, Mass.

"I have used Ayer's Hair Vigor for promoting the growth of the hair, and think it unequaled. For restoring the hair to its original color, and for a dressing, it cannot be surpassed."—Mrs. Geo. La Fever, Eaton Rapids, Mich.

"Ayer's Hair Vigor is a most excellent preparation for the hair. I speak of it from my own experience. Its use promotes the growth of new hair and makes it glossy and soft. The Vigor is also a cure for dandruff."—J. W. Bowen, Editor "Enquirer," McArthur, Ohio.

"I have used Ayer's Hair Vigor for the past two years, and found it all it is represented to be. It restores the natural color to gray hair, causes the hair to grow freely, and keeps it soft and pliant."—Mrs. M. V. Day, Cohoes, N. Y.

"My father, at about the age of fifty, lost all the hair from the top of his head. After one month's trial of Ayer's Hair Vigor the hair began coming, and, in three months, he had a fine growth of hair of the natural color."—P. J. Cullen, Saratoga Springs, N. Y.

Ayer's Hair Vigor,

THE PETERBOROUGH BOOKSTORE.

CHANGE IN BUSINESS.

I beg to announce to my late customers that I have sold out my business to Messrs. Hilliard & Peplow, and I would bespeak for them the same support as has been accorded me.

C. N. BROWN.

ANNOUNCEMENT.

For some time past we have thought a strictly cash business in Flour, Feed and Provisions could be successfully carried on in Peterborough, and to test this question, we have purchased the above business from Mr. C. N. Brown who will still continue as manager in Flavelle's old stand, Simcoe street.

In order to be successful we intend to make it the interest of everyone to pay cash with order by selling at wholesale prices.

We will positively give no credit and cash customers will not have to keep up the losses made by others on the credit system.

We will keep a full supply of the very best quality of Flour, Feed, Chop, etc., and our customers need not fear that the quality of the goods will be lowered to make up for the reduction in prices. We are simply giving them the benefit of the margin necessary to cover losses and interest charges incurred on the credit system.

Goods delivered to any part of the town or Ashburnham.

A NEW STAR IN THESKY.

SHE IS TALL AND "LILIAL," AND ALL PARIS BENDS TO HER.

Her Name is Mlle. Yvette Guilbert Who Has Lips as Red as Poppies and Who Has Become Famous in Six Months - And She Has Lengthiness, Too.

Theodore Child writes concerning Mlle. Yvette Guilbert: "In less than six months she has become famous. Last August she was singing in a little cafe at Montmartre called Le Divan Japonais, where she was discovered by some Bohemian poets and journalists. Thence she passed to the

MLLE YVETTE GUILBERT.

joyous Moulin Rouge, the Mabelle of Montmartre, the favorite bachelors' promenade in Paris. At the Moulin Rouge Yvette Guilbert increased her public. She won the esteem of a score of poets and journalists, who began to talk about her in the papers. The song writer Xanrof found in her an ideal interpreter of his dry and as it were ingenious cynicism. Le Courrier Francais took her up, sent a man to draw her attitudes and gestures, and published her portrait. Thus she became a celebrity.

"She is an artist, this tall, lilial, blonde girl, with her lips redder than poppies in corn, her hair brushed back in radiant waves, leaving the forehead pure, her figure long and gracile like the women in the pictures of Watteau and Mantegna. Decollete extremely, almost down to her waist, Yvette Guilbert reveals no turgid grossness of person; she is more lilial than Sarah Bernhardt, only she is more clean cut and less supple. Yvette, in line, attitude and sobriety of gesture, suggests constantly the figures in the pictures of the early pre-Raphaelite artists of Italy; and therein she seems to me to be peculiarly modern and fin de siecle, to use a meaningless phrase, which is, nevertheless, acquiring a meaning.

"In Yvette Guilbert's features there is something delicate, something singularly vivacious and intelligent; in the lines of the body the excessive lengthiness is augmented by the effect of very long black gloves, covering the arms, and by the small angle of the decolletage, which is all in length rather than in breadth; the smallness of the waist amplifies by contrast the forms of the bust and hips; and in her whole person and dress there is an intensity of drawing which, so to speak, accentuates and even exaggerates all that is significant of femininity.

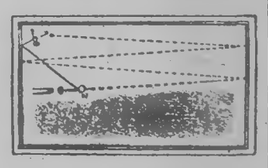
"Mlle. Yvette is young, ambitious, and full of talent. We may expect soon to see her on the stage in the modern equivalent of the lyric-dramatic spectacles in which women like Theo, Chaumont and Judic became famous in the now remote past."

Death of P. T. Barnum.

The great showman, P. T. Barnum, breathed his last at his home at Bridgeport, Conn., on April 7. His brain was clear to the last, and his death was peaceful.

Phineas Taylor Barnum was born at Bethel, Conn., July 5, 1810. He began business at the age of 18 and in 1834 he moved to New York, where in 1841 he purchased the American museum, by which in a few years he accumulated a fortune. In 1850 he engaged Jenny Lind to give 150 concerts in America, but the engagement was terminated after 93 concerts had been given. In 1855 he took up his residence in Bridgeport and engaged largely in real estate and in manufacturing enterprises, which were unsuccessful and he became bankrupt. He compromised with his creditors, resumed the museum, and soon retrieved his fortune. He was burnt out in 1865 and again in 1868, when he announced his retirement from business. The showman instinct, however, was too strong, and after a few years he re-entered the field on a larger scale than ever. Mr. Barnum served one term in the Connecticut legislature (1865) and was a candidate for Congress in 1868, but was defeated by his Democratic opponent. He lectured on temperance and other topics, and was the author of several works, among which was The Life of P. T. Barnum, Written by Himself (1855); The Humbugs of the World (1865), and a sort of autobiography entitled Struggles and Triumphs (1869).

A Billiard Point by Schaeffer.



This is a very pretty position shot. The cue ball (No 1) is struck with force low down, with the English on the right side; the first object ball (No 2) is hit squarely and forced to the lower cushion, the rebound taking it to the top cushion, then to the lower one again, coming back and carroming on the second object ball (No 3). The cue ball, from the force of the draw, takes the top cushion, and then moves over to the second object ball (No 3), where it stops, leaving the three balls well placed. The course of the first object ball (No. 2) is indicated by the dotted lines and that of the cue ball (No. 1) by the heavy line.

A New Way of Putting It.

Her Little Brother (to ardent admirer)—If you'll give me a nickle I won't tell you what sister said about you to-day.

Not in It.

Out of sight—the policeman.

Children Cry for Pitcher's Castoria.

BURGLARS AT BRUSSELS.

They Hold Up a Young Man on the Street and Crack a Safe.

BRUSSELS, May 4.—The postoffice was burglarized this morning about 1.30. The thieves obtained an entrance by prying open the back door with heavy chisels, then bored a hole through the top of the safe and used powder to blow it open. A young man named D. McDonald was passing and was stopped by one of the burglars stationed outside. The fellow drew a revolver and presented it at McDonald's face and made him sit down on the doorstep outside while the other man was inside drilling and blowing the safe up. He remarked to McDonald that that was the way they made a living and that there would be an explosion in a few minutes, but it would not hurt him if he kept quiet. The explosion was heard by a great many. The burglars obtained $23, a gold watch and two registered letters.

A Burglary at Harriston.

HARRISTON, May 4.—The drygoods store of Wilson & Pye of this town was broken into by thieves about 3 o'clock this morning, and goods consisting of kid gloves, silk gloves, cashmere, hosiery, ties, etc. were stolen to the amount of $300. The residence of A. C. Scott was also entered but no loss sustained, owing to the thieves being frightened off.

A MODERN ABRAHAM.

Mr. Jessup Erects an Altar and Attempts to Sacrifice His Grandchild.

BRIDGEWATER, Conn., May 4.—Oliver H. Jessup, one of the most prominent citizens of the town, conceived the idea that he was a second Abraham and that the Lord required a human sacrifice. On Thursday, being left alone for a few minutes, he prepared for the horrible affair by constructing an altar out of his bedroom furniture, around which he piled a heap of combustibles. Then he caught his little grandchild, a year old, and placed her on the altar and prepared to ignite it. The child's cries attracted a member of the family, and the old man was nearly killed in the struggle to restrain him.

TWO YOUNG MARRIED MEN.

One of Them Suffocated, the Other Hurt, in a Bar room Brawl.

QUEBEC, May 4.—Shortly after 11 o'clock last night fire was discovered in a tenement house situated in Sousle Cap-street, Lower Town. The fire was quickly got under control, but not before an occupant of the building, Alfred Boucher, aged 22 years, was found to be asphyxiated by smoke. Boucher had only been married three weeks.

A quarrel occurred between three young men of the city and the bar-keeper of the Albion House, in the course of which an inoffensive boarder, a young married man named Pelletier was felled to the ground by a blow supposed to have been inflicted with a poker. He is suffering from depression of the skull.

A Child's Strange Death.

THESSALON, Ont., May 4.—The tug May Day brought over the news of a very sad accident which happened on Cockburn Island last Monday. It seems that Mr. and Mrs. Conn and infant were driving along a road through a bush, and the strong wind that was blowing at the time caused the falling of a large tree, which fell across the laps of the trio, killing the infant in the arms of its mother and seriously wounding Mrs. Conn. Hopes are entertained for the recovery of Mrs. Conn, though her injuries are very severe.

Ask Your Friends About It.

Your distressing cough can be cured. We know it, because Kemp's Balsam within the past few years has cured so many coughs and colds in this community. Its remarkable sale has been won entirely by its genuine merit. Ask some friend who has used it what he thinks of Kemp's Balsam. There is no medicine so pure, none so effective. Large bottles 50c. and $1 at all druggists. dw

Editorial Evidence.

Gentlemen—your Hagyard's Yellow Oil is worth its weight in gold for both internal and external use. During the late La Grippe epidemic we found it a most excellent preventive, and for sprained limbs, etc., there is nothing to equal it. Wm. Pemberton, Editor Reporter, Delhi, Ont. 1w181

Spring Cleaning.

Be particular every spring to clean the house, but never mind cleansing the blood until some troublesom disease takes hold of you. This is poor policy when by using Burdock Blood Bitters the blood will be thoroughly cleansed, the body strengthened, and future suffering prevented. 1w181

A Winnipegger's Opinion.

The following is taken from a letter from Mr. D. Davis, Winnipeg, Man.: "Being persuaded to use Hagyard's Pectoral Balsam for a troublesome cold, I was entirely cured by the use of two bottles." 1w181

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Ahead of Koch's Lymph.

Charles Campion, Kingston, Ont., says:—Gained 7 lbs. with one bottle of Miller's Emulsion of Cod Liver Oil. Cured bad Bronchial Cough with a few doses and made me feel like a new man. I strongly recommend it. All druggists keep it. dw

Everybody Admires Soft White Hands.

And every lady ought to use Dyer's Jelly of Cucumber and Roses, as it makes the skin soft and smooth. Druggists keep it. W. A. Dyer & Co., Montreal. 6?92

SOME SYMPTOMS OF WORMS are:—Fever, colic, variable appetite, restlessness, weakness and convulsions. The unfailing remedy is Dr. Low's Worm Syrup. dw

Will be found an excellent remedy for sick headache. Carter's Little Liver Pills. Thousands of letters from people who have used them prove this fact. Try them. dw

Have You Tried

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles inci-dent to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold everywhere, or sent by mail.

CARTER MEDICINE CO., New York.

Small Pill. Small Dose. Small Price.

Threatening to Kill.

This serious offence might well be charged against that prevalent disease Constipation, which threatens to destroy many valuable lives if not stopped. It arises from wrong action of the Stomach, Liver and Bowels, and causes Dyspepsia, Biliousness, Bad Blood, Boils, Pimples, Rashes, Eruptions, Sores and Foul Tumors. It can only be cured by the prompt use of the right remedy. Burdock Blood Bitters, which never fails to cure even the most obstinate cases and is a specific for all diseases of the Stomach, Liver, Bowels and Blood. Thousands testify. Read and learn.

MRS. G. McKAY.

Cases in Point.

Sure to Cure.

DEAR SIRS,—I suffered with constipation and headache, and having taken a bottle of B.B.B. on trial, found it doing so much good that I sent for several more and it proved a sure cure. I use it in my family and feel safe in recommending it to my friends.

MRS. GORDON McKAY,
Jordan Falls, N.S.

A Prompt Effect.

DEAR SIRS,—I was very bad with constiveness and one bottle of your Burdock Blood Bitters cured me. I would not be without it.

Self Application of Electricity

FOR MEDICAL PURPOSES BY THE

DORENWEND ELECTRIC BELT

And Attachments.

THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliances. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a consultant electrician, and ranks as the best in the world; we defy anyone to bring proof to the contrary.

Do not class this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you wish to experiment with cheap articles, buy THEM; but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. The Dorenwend Electric Belt and Attachment Co., C. H. DORENWEND Electrician, 103 Yonge St., Toronto, Canada. ed-w

Thursday Night.
Splendid Programme.

The Last Week

in the Bon Marche, and will slaughter goods at the following prices this week, ending by an auction sale Saturday night next:—Best 50c. Indian tea, 35c. per pound; good 30c. Congou tea, 18c. per pound; good family flour 35c. less than mill prices; 10 lbs. Lawry's lard for $1; 19 lbs. nice light sugar for $1; 5 lbs. boneless fish for 25c. Everything also in proportion to make a clearance, as this is the last week. M. CARTON. d

Friends in Need are Friends Indeed.

Friends of the George street church are urged to come forward and interest themselves in the great tea-meeting to be held next Monday night. The proceeds are to be devoted to completing the tower, and a final effort is being made to raise funds for the purpose. The tea-meeting will be well worth the price of admission, and the promoters of the affair hope to be liberally encouraged. There will be plenty to eat and a good musical and literary programme. Admission only 25c. 1d

No Quorum.

Members of the School Board appear to forget that the hour of meeting is 7.45 o'clock, but the law allows a further wait of fifteen minutes, and if by eight o'clock there is no quorum on hand there shall be no meeting. Business transacted at a meeting begun after that hour is illegal. When eight o'clock struck last night there were only five members of the Board present:—The Chairman, Mr. Wrighton, Messrs. Deane, Corkery, McBain and Bradburn. The meeting promptly dissolved, and as the school trustees walked down the hill they met as many more members of the Board just arriving—but they were too late. A special meeting may be called.

May Fair at Millbrook.

On Monday the May fair came off at Millbrook, at which, the *Guide* says, there was quite a number of fine horses on exhibition. The number of spectators was not as large as usual, The unpleasant day, no doubt, kept many away, and those present were complaining of the strong, cold wind which chilled people more than wintry blasts. The following are the prize winners:—Imported Clydesdale—1st, Mr. Dundas' horse, of Springville; 2nd, Mr. Evans' horse, of Manvers. Canadian draught—1st, Mr. Wm M. Fair's horse, of Cavan; 2nd, Mr. Wm. Martin's horse, of Ida. Carriage horses—1st, Mr. Jas. Boyle's horse, of Springville; 2nd, Mr. A. B. Appleby's horse, of Peterborough.

A Fatal Runaway.

Mr. Fred Warner, of Otonabee, son of Mr. Wm. Warner, of Asphodel, lost a valuable team on Thursday last, says the *Star*. He was at the flour mill in Norwood with a grist, when the horses became frightened by a passing train, ran away, and in their mad race plunged into the mill pond and were drowned. The close proximity of the railway track to the grist mill in the above village makes the business of "going to mill" a decidedly dangerous one with farmers having timid horses. The locality is traversed by several streets, and a child who was returning from school was struck and seriously injured by the animals. This, we understand, is the second accident to farmers' horses, occurring from the same cause, at the same place, within a year.

Children Cry for Pitcher's Castoria.

A Splendid Chance for Investment.

Attention is particularly directed to the advertisement in another column of the Albert Hall property on Queen street. This property is in one of the most desirable situations in the town, and must necessarily increase commodity and rapidly in value. This is a splendid opportunity for either those who wish to secure desirable homes, or to those who are seeking paying investments in live real estate.

Tea and Sale at St. Luke's.

The tea and sale at St. Luke's yesterday afternoon and evening was fully up to expectations. There was a good attendance, considering the time of the year and the unseasonable weather. A very pleasant evening was spent by all present. An excellent dinner was provided by the ladies and thoroughly enjoyed by their guests. None of the farming community were able to leave their seeding, and sickness, of which there are many cases at present, kept away a number of those familiar on such occasions. The ladies present, however, worked faithfully, the sale progressed favorably, and the result exceeded their anticipations. The proceeds were about $60. Mrs. Nesbitt became the happy possessor of the silk quilt. The ladies of St. Luke's are deserving of great credit for their faithful and efficient service, so cheerfully and willingly rendered.

Social in the South Ward.

The ladies of St John's South Ward mission may be congratulated on the great success which attended the first social in the Mission building. The work of fitting up the large basement has commenced, the floor being laid, and it is hoped that when two more socials have been held, the walls and ceiling may be on a high road to completion. In the mission hall above an exceedingly nice programme was given during the evening; the Amateur Orchestra under Mr. Batcher's direction adding materially to the pleasure of the evening. Mrs. G. A. Smith and Miss Hall gave Instrumental Solos, and Miss Snowden and Mr. Dopesang. Mr. W. D. Parker amused the mothers present with a reading on babies. The piano used was a very fine Williams' upwright kindly lent for the occasion by Mr. Crosby.

How Spring Opens at "Oordach."

How the Greenhouses are Growing—The Complete Preparation for the Spring Demand—Well Seasoned Flower Plants Ready for Planting.

With the thermometer below the freezing point and the howling blast, like an untimely blizzard, turning the face of the mild May livid with cold, the idea of blooming flowers seems a preposterous one. But nature has infinite resources. In a few days we shall see warm rains, bright sunshine and genial warmth and, from the little patch of earth that was yesterday but a frozen clod, vigorous growth will spring, and opening buds make odorous show of bloom. But there is no use mooning in a spring poetry vein when there is something practical to be said about the greenhouse and conservatories at Mr. G. M. Rogers, residence, "Cordach," corner Park and London streets. Year after year these have been the spring Meccas of hundreds of pilgrims in search of the finest of flowers for blooming in house or border or bed, and of the finest bedding plants for either the flower or kitchen garden.

It was a pleasant relief to the EXAMINER scribe last night to step, at Mr. G. M. Roger's invitation, from the shivering outside air into the warm and fragrant atmosphere of the greenhouses at "Cordach." Those are now in their transition state, ready for transferring their myriad store of flowers, flower plants and vegetable plants

TO THE HUNDREDS OF HOMES

they are to beautify the coming season. Cold as it is the season has already begun, and large orders are being shipped every day.

A look at the geranium house shows three thousand pots of beautiful plants ready for bedding, or in full bloom for the adornment of the window garden. These geraniums are especially fitted for bedding, being by degrees tempered to the outside exposure they will be subjected to. From the propagating house to their place in the garden bed, these plants are subjected to a tempering process. They are removed from one room to another, with a decreasing degree of heat at every removal, the last being a green house without artificial heat. Thus the plants are annealed, so to speak, and when they come to be bedded, they are ready for the change, and have nothing to do but to grow and bloom. Mr. Arthur Blade,

THE EFFICIENT AND SKILFUL MANAGER

of the "Cordach" greenhouses, attributes the high and hardy quality of his plants to the training they receive. The plants are watered with water fresh from the well, spring-cold. They thrive and make hardy growth under the cold water, while the cold bath has a very discouraging effect upon insects. It would shock the average housewife to see him pouring a spray of cold water upon his beautiful begonias, which the popular idea says must never have water touch the leaves.

Upon the same principle of making plants hardy, all other growth is treated. This treatment imparts great value to the flower and vegetable plants, which are to be found by thousands in the seedling house. These are in every stage of growth; thousands pricked out into boxes, hundreds in more advanced stages in pots—many on the verge of bloom, and thousands more in cold frames ready for planting and well seasoned for their open air growth in the flower plot. These plants include every variety of annual usually bedded, and thousands of tomato, cabbage, celery and other vegetable plants.

The rose house is a pleasant place to visit, but it is not devoted exclusively to roses, but to a general collection of warm blooded plants, of which palms are made a specialty, in addition to roses.

THE GENERAL HOT HOUSE

contains thousands of pots of rare beauty and judicious selection. At "Cordach" they do not grow everything, but only propagate for sale varieties thoroughly tested and proven to be worthy of growth and culture. Thus the public is saved from wasting time and money on new varieties which may prove worthless: for every variety sold from "Cordach" green-houses is tested, and unless satisfactory in every way, is not grown.

Hanging baskets, boats, lawn vases, etc., are a special feature of the establishment. These are filled with a choice variety of plants guaranteed to give satisfaction. A visit to the extensive, complete and well-managed green-houses at Mr. G. M. Roger's residence will amply repay all who are interested in the growing pastime and employment of the culture of flowers.

News Nuggets.

—The dog poisoner is also abroad in Belleville. On Tuesday Mr. C. H. Vermilyea had a valuable dog poisoned. There is no clue as to who committed the deed.

—The first meeting of the Belleville cheese board for the season of 1891, was held in the city hall Wednesday afternoon at 2 o'clock.

—Thin and impure blood is made rich and healthful by taking Hood's Sarsaparilla. It cures scrofula, salt rheum, and all blood disorders.

—A correspondence respecting the opinions of Mr. Justice McMahon was received at too late an hour for insertion in this evening's edition.

—The Electric Light and Power Company are busy fitting up their lines for the incandescent system and expect to have it in operation on Saturday night next.

—Mr. S. Cotton, a horse buyer from the old country, has been in Belleville for some time purchasing horses. On Saturday a car load of fine saddle and driving horses were shipped to Scotland, and more are to follow.

—A collision occurred at the C. P. R. station to-day between one of the busses and a phaeton. The phaeton was badly damaged but its occupants Mrs. H. Nesbitt and son, were fortunately not hurt.

Personal.

Mr. and Mrs. Hopkins, of New York, are at the Oriental hotel to-day, *en route* to their summer quarters at Bobcaygeon on Stony Lake.

Mr. J. A. McClellan, of the Bank of Ontario, has received notice of his removal to Bowmanville. He will leave Friday. The news was received with regret by Mac's many friends in town.

Mr. F. W. Miller, band master, is in Ottawa to-day, making arrangements for the music to be played by the two military bands here on May 25th. The band of the G. G. F. G. will be entertained while in Peterborough by the 57th band.

Fruit Tree Pests.

A Description of Them and Remedies Given.

The following bulletin No. 62, has been issued by the Ontario department, and is written by J. Hayes Panton, professor of Natural History and Geology at the Ontario Agricultural College:—

Several inquiries have come to the College in reference to oyster-shell, bark-louse and the pear-tree bag, and the best means to use in order to get rid of them.

This bulletin has been prepared with the object that it may prove of practical use only to those who have asked information upon the subject, but also to many others in the province whose orchards are infested by these pests.

OYSTER SHELL BARK LOUSE (*Mytilaspis pomorum*).—This minute insect, found upon the bark of the small twigs of the apple tree, is readily identified by its oyster-shell shaped scale, about one-sixth of an inch in length. This scale is of a brown color, and thus disguised by the bark is not seen unless by close observation. Usually a good many are clustered together and their shape is so marked that we soon recognize them. Though largely found upon the twigs, they are also found upon branches and limbs of considerable size. If the scales be raised up and examined beneath, any time in the fall or winter, numbers of very small white particles will be observed, which on closer examination will prove to be eggs. Here beneath the peculiarly oyster-shell shaped scales they remain until early in the summer. As soon as the weather is favourable, especially about the end of May or the beginning of June, the tiny eggs hatch, and out from beneath the scale issue the bark-lice, which are exceedingly small. They scatter themselves over the twigs of the tree, seeking suitable spots for further development. Having found such, the minute insects fix themselves upon the tender growing bark. This they pierce with the beak-like structures connected with their mouths, and by means of which they are able to suck the sap from the twig or branch upon which they are located. Once fastened to the twig, they remain attached and do not move about; consequently this continual drain upon the tree's sap, especially when they are numerous, soon affects its vitality. It is not an uncommon thing to see a branch almost completely covered with the scales. Permanently fixed, they continue feeding from the sap of the tree until toward the end of August or September; by this time they have reached full size and gradually form the scale by means of waxlike threads that issue from their bodies, and which eventually make the scale. Under these the female deposits her eggs, and by the time her work is complete she has shrivelled up to a mere speck and her existence is at an end. At this stage an examination of the scale beneath would show a mass of tiny eggs, with little or no trace of the insect that laid them. The scales we see are almost invariably those formed by the females; those of the male being seldom seen and then most frequently upon the leaves. They are much smaller in size and somewhat different in shape. The peculiar nature of bark-lice prevents to a great extent their spreading from tree to tree, and in many cases no doubt they have been upon the trees when first planted, but have not been observed till, it may be, years afterwards, when they have multiplied so as to cover the branches and be readily seen. They may be carried to some extent from tree to tree by birds, and also other insects at a time when they are in search of proper places for location. Such is the life-history of this bark-louse, which seems to be rapidly spreading over the country.

REMEDIES. We shall now suggest some remedies for its destruction:

1. Examine infested trees carefully during May and the beginning of June, and as soon as the tiny lice are seen crawling about spray the tree with the following kerosene emulsion: One-half pound of hard soap in one gallon of boiling water; to this add two gallons coal oil and thoroughly mix. This on cooling, if well-fixed, will form a jelly-like substance. When about to use, add nine parts cold water and spray upon the trees. Thorough mixing can be effected by forcing the mixture through a force pump with a small nozzle until the whole forms a creamy mass.

2. In the winter and spring scrape off the trunk and larger branches as many of the scales as possible, add then thoroughly scrub with a scrubbing brush or broom dipped in the following solution: One quart of soft soap, or one quarter pound hard soap, in two quarts of boiling water. To seven parts of this add one part of crude carbolic acid.

3. Soft soap made about as thick as paint by adding a strong solution of washing soda in water. This applied to the trunk and limbs improves the vigor of the tree, as well as gets rid of the bark lice.

PEAR TREE SLUGS (*Selandria cerasi*).—The eggs of this insect are usually deposited early in June in the leaf, which appears marked with semi-circular incisions. These have been made by a peculiar structure which the female has for the purpose. The eggs soon hatch and the young slugs develope until it reaches about one-half an inch in length. It presents an unattractive appearance, being somewhat blackish or bottle green in colour, covered with an olive coloured slime. The front part of the body is swollen, and the slug resembles a tadpole in appearance. It has a disagreeable odor. During the slug period of its existence it feeds upon the foliage of the pear, cherry and plum, and in some places becomes a serious trouble. The larval condition being completed, it leaves the tree and spends a portion of its existence in the ground, from which in due time it emerges the perfect insect—a fly of a glossy black colour, with four transparent wings and dull yellow legs. The female is about one-fourth of an inch long and the male somewhat smaller. The first appearance of the slug is near the end of May until the middle of June, but another brood may appear near the end of July or August. The cherry and pear trees should be examined for these troublesome insects about the middle of June, and again early in August. They are very voracious, and can soon destroy the foliage of a tree. When attacked, the leaves wither and look as if scorched by fire.

REMEDIES.—The following remedies are suggested:—

1. Syringe with hellebore mixed with water in the proportion of an ounce to two gallons.

2 Syringe with Paris green, one teaspoonful to two gallons water.

3 Dust upon the foliage fresh air-slaked lime.

Y. M. C. A. Notes.

An Important Meeting of the Board.

The monthly Board meeting was held last evening. Mr. Early, President, occupied the chair. There was a large attendance of the Directors. After devotional exercises, seven new members were elected. Interesting and encouraging reports were received from the Devotional, Reception, Invitation, Finance Committees, Rescue Brigade and General Secretary, of the work done during the past month, which showed the work in a prosperous condition, spiritually and financially, which will lead to more aggressive work in behalf of our young men. Mr. G. M. Roger reported on behalf of the building scheme, and what steps had been taken so far. Mr. T. S. Cole followed and related the progress made with the canvass. On motion, the following were elected the Building Committee:—G. M. Roger, Chairman; A. L. Davis, Secretary; J. L. Gower, Treasurer; Peter Hamilton, Richard Hall, Charles McGill, G. J. Early, R. J. Kidd and R. J. Colville. The canvass for the funds to complete the new building will be pushed with vigour, and much time might be saved the Committee, if friends interested would remit at once their contributions which will be gratefully acknowledged. If we are to have the building this fall the must be done.

We propose giving the Edison Company's employe's a welcome to our town towards the end of the month, also to reach the Gov. Gen. Foot Guard's during their visit on 24th May.

We believe our Ladies Auxiliary propose providing entertainment for them also.

Special votes of thanks were given to the I. O. O. F. for collection for building funds, also Rev. Mr. Johnston, Lindsay, Messrs. R. M. Roy and Cole, also Gordon and Hellwell, Toronto, for valuable services rendered the Association.

Cheap
Croquet.

Young's Point.

(*From Our Own Correspondent.*)

TELEPHONE.—It has been understood for some time, that the Bell Telephone Company meditated an extension of their lines northward, this summer. On Monday afternoon Mr. Fred Bourdignon with five assistants arrived here, and at once began work on the line to the Burleigh Falls Hotel. The poles are on the ground, and will be placed in position and the wire strung, and in about two weeks Mr. Holmes will have telephonic connection with Peterborough and outside points. Mine Host McFarlane of the Carleton House, always on the alert for improvement, is having an instrument placed in his hotel for the convenience of his guest during the summer season.

NURSERY STOCK.—Mr. R. F. Campbell of the Rochester nurseries shipped a consignment of choice nursery stock to his old agent here, Mr. McFarlane. The trees were delivered promptly and in good condition, the customers all being highly pleased with the stock, and also with the straight dealing of the old and reliable firm, and their agents No doubt, should Mr. Campbell visit this section of country next season, his amount of orders would be largely increased.

LUMBERING.—Mr. P. E. Young is at the head of Stony Lake with his steamer and a number of men busily engaged in collecting logs and towing them to the sawmill here. The logs when collected will form a large boom—the largest and best in fact, that has been handled by our enterprising lumber merchant Mr. C. Young, since he entered the business, and no doubt keep his mill humming during the entire season.

The water is falling fast, and in the course of a week or two will be down to its normal level.

Premier Patriotism

So exceedingly patriotic is the leader of the Tory party that from his place in parliament he decries Canada's steamship lines and praises the superiority of vessels sailing from New York. He prefers to subsidize the fast ocean greyhounds sailing from New York rather than extend his patronage to Canadian steamships, which are quite fast enough for the requirements of our trade. The Tory leaders are, remarks the Ottawa *Free Press*, showing themselves the real enemies of Canadian enterprise. While Sir Charles Tupper is doing his utmost to discredit and injure Canada's pioneer railway line, Sir John Macdonald uses his position as leader of the federal government to disparage and decry Canada's steamship lines, which are a credit to the country. The Allan and Dominion steamship companies have done much to build up trade on the St. Lawrence route. The speed and capacity of their steamships have been increased in accordance with the growth of business—but not, it must be admitted, in proportion to the growth of our public debt, taxation and expenditure. No fault has been found with the mail service performed by the Allan and Dominion companies, but the Tory leader describes their vessels as "slow and antiquated." Hence the subsidy of half a million dollars a year has been hawked all over the world in the hope of procuring a "dandy" steamship line. Ocean commerce is depressed because of our tariff against imports, but Sir John Macdonald thinks that steamship freight can be dispensed with if the vessel vessels are bountifully subsidized—although he has wasted millions in impotent efforts to establish steamship lines by means of government subsidies. The Allan steamship are altogether too slow to suit our fast postmaster general, and therefore that patriotic gentleman has boycotted Canadian steamships and sends the ocean mails via New York. Men who have no interest in Canada, and who have done nothing towards developing trade with this country, are now offered immense subsidies to induce them to take the business of carrying the mails out of the hands of our own steamship companies. This is a good example of Tory patriotism.

WIDOWS AND ORPHANS.

Scenes at the Homes of the Victims of the New Orleans Mob.

LONDON, May 4.—A correspondent of The New York Herald, writing from Palermo April 30, says he has visited some of the relations of the men who were lynched at New Orleans. In the mountains of Caccamo he found the widow and orphans of Pietro Monastero. In the middle of a bare stone chamber sat the widow draped from head to foot in black in the native manner. Around her stood the five small orphans of the dead man—three toddling boys and two girls. The widow's face was Madonnalike in its simple beauty. Her eyes were soft and dark. On a rude table were a few handfuls of raw wheat contributed by the neighbors to feed the little ones. On the wall was the dusty crucifix, at which Monastero prayed for success on the day he left his mountain home. Around the room sat the five sisters of the dead man, and the doorway was choked up with the neighbors, who told how good Monastero had been to the poor, and how everybody was contributing a few centimes to keep his helpless family from starvation. The correspondent heard for the first time that Monastero was a member of the Municipal Council and a hard-working, respectable shoemaker, who went to New Orleans to get money enough to pay his debts. The widow said Monastero never did wrong in his life, and he wrote to her from prison saying he was innocent. He could not understand how he came to be with the other men, but she was sure he had committed no crime. The other members of the family expressed the same belief. Monastero's brother, a priest, said the Mafia passed away from this land long ago; there is no such thing now. Tell the American people we are honest folks who cannot understand how they allowed an honest man to be publicly murdered. Tell them his widow and orphans are helpless.

In Palmero along the sea front the correspondent found the top story of an old stone house the aged mother and two brothers of Antonio Abagnato, who was strangled in the presence of the mob. The mother is a wrinkled, feeble woman, who stood shivering and crying in her black garb while her eldest son read the dead man's last letter from prison protesting his innocence and asking them not to tell his mother of his trouble. "God will defend me, for I am innocent," said the letter. "I send my mother a kiss, and ask for her blessing. Pray to God for me and believe that I am innocent." The whole thing seemed a dream to the poor mother. Her son had written that he would soon come home, but the days passed and no Antonio came. Then she was told that the public had put her son to death, although he had been declared innocent by a jury and that the police did nothing to prevent it. "My son had nothing to do with the Mafia," said Abnagto's mother. "You cannot find in the whole of Sicily a man who can say a word against his character. He went to America to earn more money and see his aunts. He was my only support. The talk about the Mafia is all false. There is no Mafia in Sicily, and if there is I am sure my son would have nothing to do with it. They may be changed his name in New Orleans, but you will see by his letters that he shortened it because he could not get the people there to spell it in the right way. I do not think my boy was killed because he was a Sicilian; it was because there was great excitement. I understand it, but that will not bring back my son to me. I am poor and he was my bread-winner."

The correspondent next found the relatives of Francisco Romeo. They stated that Romeo's father, who is 91 years of age, died of grief when he heard of his son's death. Romeo, they declared, was innocent, and the idea of his belonging to the Mafia was nonsense.

A dry, hacking cough keeps the bronchial tubes in a state of constant irritation, which, if not speedily removed, may lead to bronchitis. No prompter remedy can be had than Ayer's Cherry Pectoral, which is both an anodyne and expectorant.

Funeral on Thursday afternoon at 3:30 o'clock from above address.

DOUGLASS.—In Warkworth, on Thursday, 30th April, 1891, Mr. Donald Douglass, aged 77 years and 5 months.

GRIEVES.—In Asphodel, on 1st of May, 1891, Peter Sylvester Grieves, aged 87 years.

GALBRAITH.—In Hastings, on Monday, May 4th, 1891, Jas. Roy, only son of Mr. Jas. Galbraith, aged 2 years 10 months and 9 days.

King of Medicines

A Cure "Almost Miraculous."

"When I was 14 years of age I had a severe attack of rheumatism, and after I recovered had to go on crutches. A year later, scrofula, in the form of white swellings, appeared on various parts of my body, and for 11 years I was an invalid, being confined to my bed 6 years. In that time ten or eleven sores appeared and broke, causing me great pain and suffering. I feared I never should get well.

"Early in 1886 I went to Chicago to visit a sister, but was confined to my bed most of the time I was there. In July I read a book, 'A Day with a Circus,' in which were statements of cures by Hood's Sarsaparilla. I was so impressed with the success of this medicine that I decided to try it. To my great gratification the sores soon decreased, and I began to feel better and in a short time I was up and out of doors. I continued to take Hood's Sarsaparilla for about a year, when, having used six bottles, I had become so fully released from the disease that I went to work for the Flint & Walling Mfg. Co., and since then

HAVE NOT LOST A SINGLE DAY

on account of sickness. I believe the disease is expelled from my system, I always feel well, am in good spirits and have a good appetite. I am now 27 years of age and can walk as well as any one, except that one limb is a little shorter than the other, owing to the loss of bone, and the sores formerly on my right leg. To my friends my recovery seems almost miraculous, and I think Hood's Sarsaparilla is the king of medicines." WILLIAM A. LEHR, 9 N. Railroad St., Kendallville, Ind.

Hood's Sarsaparilla

Sold by all druggists. $1; six for $5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

100 Doses One Dollar

Some women imagine that nothing will stand the peculiar breaking strain of their forms on corset "bones."

They don't know Kabo, which neither breaks or kinks.

If B. & C. corset boned with Kabo breaks or kinks in a year, go back to the store at which you bought your corset and get your money again, every cent of it.

If the corset doesn't suit you, after wearing a week or two or three, go back for your money.

There's a primer on Corsets for you at the store.

VALUABLE HOUSEHOLD

Property For Sale

BY TENDER

TENDERS WILL BE RECEIVED for the purchase of the following properties:

Being Parts of Lot No. 2, North of Simcoe Street, and East of Water Street, in the Town of Peterborough.

At $—— per foot frontage, en bloc or separately, to the Twentieth Day of May, instant. At noon, addressed to the undersigned and marked "Tenders re Albert Hall Estate."

Parcel No. 1.

Part of said lot, containing 2,247 square feet more or less, and more particularly described as follows: Commencing where a post has been planted 119½ feet east from the south west angle of town lot, No. 1, east of Water street, and north of Simcoe street, thence east 25 feet on Simcoe street, thence north 90 feet, thence west 25 feet to a Lane 19½ feet wide, thence 90 feet to the place of beginning. This property is a corner lot in the centre of the town, and a very desirable property for a residence. There is situated on it a story-and-a-half plaster house. It is immediately opposite the residence of George Dumsford, Esq.

Parcel No. 2.

Containing 3833 square feet, more or less, and having a frontage of 43 feet on Queen street, with a depth of 85 feet to said Lane. On this property is a two story double brick house, and being Nos. 15 and 17 Queen street, with rooms over brick kitchens, good cellars, hard and soft water and outbuildings. This street is opposite front of St. John's church.

Parcel No. 3.

Immediately south of and adjoining Parcel No. 2, having a frontage of 50 feet on Queen Street, by a depth of 85 feet to the said lane. On this property is a very desirable brick dwelling, two storeys, and brick kitchen, good cellar under the whole house, woodshed, hard and soft water, etc. There is also thereon one Brick Bake Shop, with cellar and ice house, with access thereto from the lane. From their proximity to the centre of the town these properties are always in demand.

TERMS.—The Vendors will prepare conveyances at their own expense, and will produce only the title deeds and evidences of title in their possession. Ten per cent. to be paid when no ice given that tender is accepted. Balance within thirty days, without interest. Fifty per cent. of amount may remain secured on property at six per cent.

The highest or any tender not necessarily accepted. For further particulars apply to Messrs. A. COMSTOCK or H. LONG, Trustees. Or to

VOL. XII. NO. 107. PETERBOROUGH, THURSDAY, MAY 7, 1891. PRICE ...

CASH HARDWARE STORE.

On and after 1st April we shall do business on a **Cash Basis.**

To cover the inevitable **ooss attendant** upon a credit business, which accrue from amount of time spent in keeping accounts, collecting, bad debts, interest account, and numerous other ways, larger margins of profit must be asked.

In these times cash buyers **cash expect,** and are entitled to close prices. A careful consideration of the subject convinces us that the time has come for a cash business done on smaller profits.

The only customers who may possibly be put to inconvenience are those who have had long credits. In more ways than one it will be to their advantage to pay cash.

For convenience of our old customers who consider their accounts due when presented, we will call 30 days cash and render all accounts the first of each month, and we wish to say that will be happy to do business with them on these terms.

As the new departure is something of an experiment, which would be considered a **close cash price** will be made all through the stock. Not a few leaders only, but a general reduction in **everything** from the fourth flat to the cellar.

Our idea is to perform more than promised rather than promise more than can be fulfilled.

Our stock is large and varied, consisting of **Builders', Contractors', Household, Mechanics', Painters', Shoemakers', Farm, Mill, Factory, Lumbermen's, Sporting, Threshers', Cabinet-makers', and other lines of Hardware.**

An old saying:—"You should go to Kingan's where you can get anything from a Needle to an Anchor."

DYNAMITE IN ROME.

A FIRE WHICH IS ATTRIBUTED TO AGITATORS.

Another Gladstonian Victory—Captain Verney Sentenced to One Year's Imprisonment The Late Lord Douglas and His Census "Joke."

ROME, May 6.—Startling rumors are circulating in this city and are causing much alarm at the Vatican and in Government circles. The rumors originated after a fire which yesterday evening, was discovered in the barracks occupied in this city by the carbineris, a picked body of armed and mounted policemen or gendarmery. The flames, in spite of the carbineris, assisted by the troops and the firemen who were summoned to the scene, soon spread to the large storehouses adjoining the carbineris barracks, where the stock of forage intended for the horses of the carbineris were stored. The stables were soon attacked by the flames, and the terrified horses, liberated with difficulty by the stable guard, rushed frantically down to the banks of the Tiber, where they were afterward recaptured. In the meanwhile the news of the fire had spread throughout Rome, and naturally reached the Vatican, and so alarmed them that the entire Swiss Guard was immediately ordered under arms and was kept under arms throughout the night. It is now currently reported that the fire which so alarmed the Vatican was undoubtedly of an incendiary origin, and that it was the work of the Socialist element in this city, which has been bubbling up here and elsewhere before May-day, on May-day and since that date in various forms and under different disguises.

ONE YEAR FOR VERNEY.

He Pleaded Guilty of Conspiring with the Frenchwoman.

LONDON, May 6.—The trial of Capt. Verney, M.P. for North Buckinghamshire, charged with procuring a governess, Nellie Beckett, for immoral purposes, took place today. Captain Verney pleaded not guilty of procuring the girl, but he pleaded guilty of conspiracy in conjunction with Mme. Roulier of Paris to procure her. The recorder, Sir Thomas Chambers, accepted the plea and sentenced Capt. Verney to one year's imprisonment without hard labor.

The Disgraced Officer.

LONDON, May 6. During the trial the court was packed with people, eager to witness the last scenes in the sensational case. Capt. Verney, though downcast in appearance, pleaded guilty in a firm voice to the charge of conspiracy to procure. Counsel for the defence, in his plea for the prisoner, alluded to the prisoner's distinguished service in the Crimea and in Parliament, and undoubtedly won sympathy for the disgraced ex-naval officer. The recorder in sentencing Capt. Verney said he had come to the conclusion through the evidence given that the case of Miss Nellie Beckett was not the only case of procuration in which the captain had been implicated, and therefore he could not lean towards the side of mercy so much as he could have done had it been an isolated case.

Officers of the navy are highly indignant at Capt. Verney for having used an honorably discharged seaman, who had served under him, as an innocent tool in his infamous business of decoying young women. The seaman alluded to, Robert Russell, was induced to allow his house to be used as a place for receiving letters addressed to Verney in the false name of Wilson and Rouard. In one of Verney's letters to his agent in crime, Mme. Eugenie Roullier, he says of a certain book: "You know it is considered such a naughty book in America that it is not allowed to be sold at all. Myself cannot see that it is so very naughty." The police claim to have evidence in about 40 cases against Verney. Expulsion from Parliament will doubtless follow conviction.

GLADSTONIAN VICTORY.

The Vacancy in Suffolk Lately Filled by a Tory Now Goes the Other Way

LONDON, May 6.—The result of the election held yesterday for a successor in Parliament to the late Edward Greene, who represented the Stowmarket division of Suffolk, shows that the Gladstonians have won another victory. Barnstern (Gladstonian) received 5346 votes and Greene (Conservative) 4132. The late member, Edward Greene, was a progressive Conservative and a well-known brewer of St. Edmunds. At the last election he received 5305 votes, 3382 being cast for the Gladstonian Liberal candidate, Edward North Buxton.

Suspended the Expulsion.

ST. PETERSBURG, May 6.—The authorities have suddenly suspended the expulsion of Jews from Moscow. It is reported that there were disorders at Warsaw Sunday, which were suppressed by troops. The agitation among the Russian Poles is spreading. Official circles here put the blame upon the conciliatory policy adopted by Germany in Prussian Poland, and believe that Germany's object is to arouse envy and discontent among the Russian Poles.

The Price of Flour Has Decreased.

LONDON, May 6.—The Millers' Association of Leeds has issued a notification that the price of flour has been decreased to one shilling and sixpence per bag.

Almost Consumed the Village.

BOWMANVILLE, Ont., May 6.—A disastrous fire occurred at Blackstock, 10 miles from here, on Monday night. The greater portion of the business portion of the village was destroyed. The following are the losses as far as can be obtained: Mr. Cowan, stable, store and dwelling, $4000; W. Taylor, dwelling, $1000; Mrs. Hoare, dwelling, $900; James Holmes, carriage shop, $4000; John Atkins, shop and dwelling, $300; total, $9900. The amounts of insurance have not yet been ascertained.

Preferred Pistol to Imprisonment.

NEW YORK, May 6.—Joseph Katz, a drummer in the employ of Schwyan & Co. of this city, was to-day accused of embezzling goods of the firm. As an officer was about to arrest him Katz whipped out a revolver and shot himself dead. He was twenty-two years old.

A Toronto Man Cuts His Throat.

BERFEMING, Mich., May 6.—George Dewick, a farmer about 60 years old, committed suicide near this city this morning by cutting his throat with a razor. He had been suffering with the grip, and it is believed the malady had unbalanced his mind. He was formerly from Toronto, Ont.

SHEENY AL. ALCHEMIST.

CLAIMS TO HAVE DISCOVERED THE PHILOSOPHER'S STONE.

Attempts to Swindle a London Jeweler Out of £40,000 and is Locked Up—An Old Fake Which Landed an Ingenious Hebrew in Bridgewell Being.

LONDON, May 6.—A man understood to be an American, who described himself as Edward Pinter, was arraigned in the police court yesterday charged with having attempted to swindle a jeweler named Streeton out of £40,000. Prisoner represented to the jeweler that he possessed the philosophers stone and was thus enabled to convert the baser metals into gold. Pinter was remanded for trial.

LORD DOUGLAS' SUICIDE.

The Brother of the Marquis of Queensberry's Census Experience Recalled.

LONDON, May 6.—In conjunction with the suicide of Lord James Douglas it is recalled that April 11, at the West London Police Court, application was made by Mr. Rutherglen, Clerk of the Kensington Board of Guardians, for a summons against Lord James Douglas, described as "of Kensington Court," for a contravention of the Census Act. Mr. Rutherglen made the application at the instance of the Registrar-General, and in so doing handed the magistrate, Curtis Bennett, a letter and Lord James Douglas' census paper, which purported to be a return of the members of his household. Upon this return were the names of Lady James Douglas and her son, the former being described as a "cross sweep" and "lunatic," and the latter as "shoeblack," born "in Darkest Africa." Mr. Rutherglen then said that he relied on the 30th section of the act, which provided that, if any person refuses to answer, or willfully gives a false answer to such questions or any of them, he shall for each offence be liable to a fine not exceeding £50.

The magistrate said that the offence was clear on the face of the return, and granted the summons asked for. Mr. Rutherglen asked if he should call Lady James Douglas as a witness, but Mr. Bennett thought not, as the act did not authorize the wife to be called. The magistrate added that some of the servants who knew Lord James' handwriting might be called, and subpoena summonses were granted for the attendance of two of them.

The summons against Lord James Douglas came up for a hearing on Monday, April 20, when Mr. Rutherglen applied to the magistrate for permission to withdraw it, stating that he had seen Lord James, who had expressed regret and shame for the childish and foolish return. The latter told Mr. Rutherglen that he was ill in bed, and that he gave the return to his wife to fill up, after writing his own name in pencil. Mr. Rutherglen added that the return was filled up by Lord James' wife and stepson, who thought it a good joke to make the entries as noted. The magistrate said that he had noticed that in the return there was a handwriting different from the signature. Mr. Rutherglen admitted this, but pointed out that Lord James Douglas was responsible, though there was some excuse for him. Lord James, he added, had paid all the costs and had satisfied the Registrar-General, who instructed the Speaker to withdraw the summons. The magistrate then allowed the summons to be withdrawn.

A THOUSAND DOLLAR BILL

Leads to the Detection of Murderers by a Canadian Bank Clerk.

WOOSTER, O., May 6.—On the night of Aug. 20, 1890, the farm residence of Michael Shelby, near this city, was forcibly entered by four masked men, who bound Shelby and his aged wife and stole cash amounting to $12,000. Mrs. Shelby died from nervous prostration brought on by the excitement of the robbery. A detective bureau has just caused the arrest of Henry Binckley, his grandson, Harry Webb, and a son of Daniel Binckley, who are neighbors of the Shelbys. Daniel Binckley was until a few weeks before the crime was committed a member of the police force in Kansas City, which he was discharged. Among the bills stolen was one of a thousand dollar denomination. Daniel Binckley's wife made a trip to Canada to get this bill changed. The Canadian bank officials, who were suspicious of her actions, took a snap-shot picture of her as she was receiving the money. The men will also be prosecuted for murder.

IN THE MIDST OF LIFE.

Mrs Palmer Had Just Completed a Purchase of Goods When She Expired.

TILSONBURG, May 6.—This afternoon Mrs. Palmer, aged 55, wife of John Palmer of the tenth concession of Dereham, fell dead while shopping in Northway & Anderson's store. Heart disease was the cause. She leaves a family of nine children, ranging from three to 18 years of age.

Found Dead in Bed

TILSONBURG, May 6.—William Dobbie, 4th concession of Bayham, was found dead in bed. Heart disease was the cause.

A PIECE OF OPIUM.

An Aylmer Cooper Makes His Exit From This Vale of Tears.

AYLMER, May 6.—This morning Lester Ryckman, cooper, who resided in Sydenham-street, was found dead on his bed. A piece of opium was found in his pocket partly used, and the condition of the body after death indicated that the opium had been the medium, but whether taken by mistake or intention will probably never be known.

A Green Goods Negotiator Acquitted.

OTTAWA, May 6.—In the assize here to-day William McCormack was arraigned on a charge of purchasing counterfeit money, known as "green goods," with a view to trafficking in them. The judge reviewed the indictment, detected a flaw in it, and, saying he did not think the crown had a case sufficient to go before the jury, he dismissed the prisoner.

Fire at Oakville.

OAKVILLE, Ont., May 6.—A fire broke out yesterday in Doty's foundry, near the G.T.R. station, just as the men were leaving for dinner, and it was totally destroyed. The building was a frame one. It has been used latterly as a storehouse for fruit baskets and pretty well filled at the time. Together with the loss of the building was a valuable lath-cutter. The foundry was just being fitted up for a dyeing establishment and some furs were also destroyed. The origin of the fire is unknown. Loss about $12,000.

GOSSIP FROM OTTAWA.

THE GOVERNMENT CONSIDERING TWO-CENT POSTAGE.

Mr. Tarte Will Have Considerable to Say About the McGreevy Scandal in a Day or Two—A Large Number of Deputations Wait Upon the Government.

OTTAWA, May 6.—Penny postage is in the air. Men who are now old will live to see imperial penny postage, and as for Canada the two-cent rate may be considered to have knocked at the door when we hear the Postmaster-General declare that the Government are considering a reduction in the present rate. That was the answer that Hon. John Haggart returned to an enquiry of Mr. Somerville whether it was the intention of the Government to reduce letter postage to two cents.

Col. Denison also had a question whether it was the intention of the Government to approach the imperial authorities with a view to establish a uniform two-cent postage rate between all parts of the empire. Mr. Haggart said this also was under consideration.

Mr. Tarte's Bombshell.

Early to-day it was understood that Mr. Tarte would place the McGreevy matter before the House for action. The impetuous French-Canadian editor was ill for a few days, but he was about to-day and occupied his place in the House. He carried under his arm a neatly-wrapped-up parcel, which was said to contain his arraignment of the Hon. Thomas McGreevy and of the Minister of Public Works. He did not unwrap it, however, and it is now said he will not make his statement until Monday. He will read his story from a type-written copy which he has prepared, and the mere reading of which will occupy an hour and a half.

The Election Returns.

A debate of the pleasantest character occurred on motion of Dr. Landerkin, requiring certain important information regarding the recent general election and the methods adopted in making the returns to the Clerk of the Crown in Chancery.

Mr. Mills had something to say about it. The returning-officers, the hon. David said, under the statute could be proceeded against, but what was the use when the official was not, as in his constituency, worth anything and not a cent could be collected from him?

The Premier arose and in a mollifying speech assured the House that the Government would assist in rectifying any feature of the Franchise Act that worked unfairly. This was greeted with Opposition "Hear, hears," and the doctor thanked the leader of the House for his promise.

Messrs. McMullen and Mulock testified to the rectitude of the returning officers in their constituencies, and it was then the Ministerialist's turn to say "Hear, hear."

Altogether it was a pleasant interlude in the harsh notes of acrimonious debate.

Apportioning the Seats.

The striking committee, composed of members of the two parties, met to-day and concluded the work of forming the committees. It is whispered about to-night that the Opposition were conceded 94 seats. Substracting from the total number of members the Speaker's seat, one of the two constituencies represented by Sir Hector Langevin and Algoma, this would leave the Government at present with 118 seats, or a majority of 24.

The Duty on Confectionery.

R. Watson, Toronto; McLaughlin, Owen Sound; J. E. Ganong, St. Stephen, N.B., and Carruthers, Kingston, a deputation representing wholesale confectioners, will have an interview with the Minister of Finance and Customs to-morrow to urge that the duty on confectionery be increased or duty on raw sugar taken.

Want the Excise Duty Reduced.

A deputation representing Canadian importers, manufacturers and wholesale dealers in tobacco, waited upon Messrs. Foster, Bowell and Costigan, Ministers of Customs and Inland Revenue, at the office of the Finance Minister this morning. The deputation consisted of Messrs. Tuckett, Brantford and Stuart of Hamilton; Percanson of Montreal and Benetteau of London. They were introduced by Messrs. McKay and Ryckman of Hamilton and Denison of Toronto. They asked that the excise duty on tobacco be reduced from 20 cents to 10 cents or 11 cents per pound, and argued that this course would increase the consumption of tobacco and would not reduce the revenue derived from it. The ministers promised to lay the views of the deputation before the government.

Gossip from the Capital.

The position awarded to Mr. Chipman, Tupper's private secretary, as Hudson Bay commissioner in Winnipeg is worth $6000. Chipman is a relative of Tupper.

Viscount Kilcourcie, Grenadier Guards, arrived at Government House to-day to assume his duties as aide-de-camp on the staff of His Excellency Lord Stanley of Preston.

A delegation of sugar refiners are here asking that the duty on raw sugar be taken off and a corresponding duty added to the duty on the refined article.

Rev. Mr. Dougall, Methodist missionary in the Northwest, is here to-day, and waited on Mr. Dewdney, Minister of the Interior, to ask for a money grant to the Industrial School at Morley.

At the caucus of members of Parliament in favor of prohibition Mr. Jamieson suggested pushing the prohibition resolution on the House as soon as possible so as not to have it so far down on the order paper that it could not be finally disposed of this session.

A leather manufacturers' deputation arrived here to-day and urged the Government to place on the free list dasgras and oleomastarine materials required in the manufacture of leather. Hon. Mr. Foster promised to lay the matter before his colleagues. The deputation included Messrs. Beardmore and Wickett, Toronto; C. J. Millard, Orillia; George Laing and Mr. Breithaupt, Berlin.

Dr. Montague presented a petition to-day of the Canada & Michigan Tunnel Co. for an act to extend the time of commencing and completing their work. The petitioners are: James Rose, Andrew Onderdonk, J. D. Hawke, George Bliss, D. O. Mills, H. B. Laidlaw and Nicol Kingsmill. The petition recited that after a charter was obtained for a tunnel under the Detroit River, from Windsor or Sandwich to Detroit, the promoters of a rival scheme, the Detroit Winter Railway Bridge Co., obtained a charter, and this disconcerted the promoters of the first scheme. The railway companies have not however, decided that the tunnel is the most feasible; the company therefore ask for an extension of their time so that the work may be commenced. The River St. Clair Railway Bridge & Tunnel Co., which also purposes to pass over or under the river between the township of Moore and the town of St. Clair, also wants an extension of time.

The Ill-Treated Hans.

VIENNA, May 6.—In the Reichsrath to-day Herr Masaryk gave notice that he would interpellate the Government as to whether it was aware that subjects of Austria-Hungary in the State of Virginia, U.S., were treated as slaves, and if so what measures would he Government take to obtain redress for such treatment of Austro-Hungarian subjects?

NOTE—The interpellation probably refers to the alleged terrible ill-treatment some time ago of 75 Bohemians lured in New York city and taken to Virginia to work on the extension of the Norfolk and Western Railway.

Schaefer Wins Easily.

CHICAGO, May 6.—The challenge game of billiards between Jacob Schaefer, the world's champion, and Eugene Carter here to-night was easily won by Schaefer. Score: Schaefer 800, Carter 481; Carter's best run 111, Schaefer's highest 104.

The New York Athletic Club is anxious to have Hanlan train their oarsmen and scullers and yesterday the Torontonian received a letter asking for his terms. Ned does not desire a position as trainer and will write the Gotham institution to that effect.

Children Cry for Pitcher's Castoria.

FEAR TURNED HER HAIR WHITE.

Frightened by a Face at the Pane a Woman's Hair Turns Gray.

PORTSMOUTH, N.H., May 6.—The hair of Mrs. Murby, the wife of a shoemaker, turned white last night by fright. Nine years ago, when she was 11 years old, her stepfather committed an assault upon her, and was ordered by the courts to stay out of New Hampshire at least 12 years. Last night as she sat at her window the brutal stepfather, from whom she had not heard in the interim, pressed his face against the pane.

Mrs. Murby was so terrified that she could not utter a word or move a finger. The man scowled and pressed a card against the glass, on which was written the following in his own handwriting: "I have located you and have returned for revenge." Then the figure vanished. The woman fell on the floor in a faint and it was half an hour before she recovered sufficiently to relate what had happened. Her hair had then become white. It was later learned that a man answering the description had boarded the evening train for Boston.

FORSOOK HIS VOWS FOR LOVE.

Tragic Ending of the Romantic Career of the Rev. Father Zang.

LITTLE ROCK, Ark., May 6.—Some fishermen found in the Red River, near Fulton, this morning, the dead body of a white man, believed, from papers in his pockets, to be Rev. Father Zang, who was a resident of this state, with a most romantic history. The reverend gentleman was educated in Germany and possessed ability of the highest degree. After coming to this country he was placed in charge of a Catholic Church at Dixie, Ark., and under his administration it prospered greatly.

Among his congregation was a young girl named Annie Doyle, who was young and very attractive and with whom it was reported the priest, who was not 30 years of age, became so infatuated that he renounced his faith and church for the sake of marrying her.

The marriage is claimed to have been a failure. Zang, after renouncing the priesthood without means, found it difficult to make a living for himself and pretty wife. He tried a number of vocations, but with indifferent success. Becoming despondent he recently announced that he would go to Texas, where he hoped to get employment teaching. He was seen Friday last in Southwest Arkansas. He had started to make the long journey overland and on foot.

The body taken from the water is swollen out of semblance almost, but it answers his description exactly. It cannot be ascertained whether his death was the result of accident or suicide.

INTERESTING ITEMS BY WIRE.

Russia is going busily forward with naval preparations.

Mgr. Jacobini has been appointed Papal Nuncio at Lisbon.

A Rome correspondent says the Pope's encyclical socialism will be published Whit Sunday.

The Anarchists arrested in Rome have confessed that Landi paid them to create disorder on May-day.

It is reported that a leading house in the china trade in London has failed with liabilities amounting to £300,000.

At Saarbrucken, Rhenish Prussia, an explosion took place yesterday at the Sere pit, in which eight persons were killed.

"I am master in this country and nobody else," said William of Germany at a dinner given in his honor yesterday.

Cecil Langslaw Schwabe, an Oxford student and heir to millions, has committed suicide. His mind was disordered by overwork.

An Italian named Cimmitee at Southport, England, fatally stabbed and shot a Mr. Sawyer and the latter's wife and daughter.

Austrian ecclesiastics condemn the proposition to erect a church in Presth in memory of Prince Rudolph, who committed suicide.

An incendiary fire in Rome on Monday night caused the Vatican such alarm that the guards were kept under arms all night.

At the meeting of the Y.M.C.A. secretaries in Kansas City yesterday Thomas A. Wilkie was elected permanent organizer for Ontario.

Several new ironclads built in the Russian dockyards are to be launched on the occasion of the visit of the Czar and Czarina to the Crimea.

The Newfoundland delegates propose to petition the House of Commons as soon as the bill for the coercion of the colony reaches that House.

A French scientific expedition in Terra del Fuego was recently attacked by Indians and it is reported only two members named Rousson and Willens escaped.

Despatches from Chili announce that negotiations looking to a settlement of civil war are proceeding between President Balmaceda and the leaders of the insurgent party.

A conflict between Anarchists and police took place in a narrow street in Rome yesterday. Twelve shots were exchanged and several persons were wounded. It is stated Landi has been arrested.

Mr. Morley's report on the London companies, declaring their title in Ireland is merely that of trustees, has been adopted by a Parliamentary committee by a majority of two, as against ministerial reports in favor of owner-ship.

The Hall-street barns of the Street Railway Company at Grand Rapids, Mich., were burned yesterday. Loss $40,000. The fire is believed to have been the work of the striking laborers, who were compelled to return to work for $1.25 a day.

At 10.45 last night a fire broke out in Doncaster's iron foundry, Newtown Creek, L.I., and soon spread to many lumber yards, which were destroyed together with the Rock Island depot. Five square blocks were laid in ashes.

Pratt's oil works, one of the largest of the many in Green Point, N.Y., were going up in fire and smoke at 12 o'clock to-night. The blaze could be seen for miles around. Judging by appearances the fire is one of the biggest yet experienced by any of the oil kings.

A cablegram from London to Mr. R. K. Fox says: "Prince Wallace has issued a challenge to fight Cal McCarthy at 7st. 12 lbs. (110 pounds) for £500 or £1000, either in England or America; give or take expenses."

William Tell may be a myth, as the Swiss Government now maintains; but the people of that republic keep on putting up statutes of him. A statue in bronze has been offered to the city of Lausanne by a Portuguese Jew now living in Paris, M. Osiris Iffiz; but the citizens are uncertain whether they ought to accept it or not, as the would-be donor does not enjoy the highest reputation. The city of Nancy, in France, however, took without hesitation last year his gift of a statue of Joan of Arc.

Tschaikowsky, the Russian composer who is at work on a new opera which he hardly expects to complete inside of two years, says: "The labor of composing is slow and I never attempt to do anything in a short time. I am sometimes a month doing what most modern composers accomplish in ten minutes. I cannot work rapidly, nor at any time except when in the mood."

Antoine Chapu, the French sculptor who recently died from influenza, executed a bust of President Carnot last year, making his model in Bonnat's studio, where the painter was at work simultaneously on a portrait. He was a bright, vigorous gentleman of 34 years, and was often seen at receptions and fetes with a lovely daughter, who completely tyrannized over him.

The death of Archbishop Magee of York will be a most serious loss to the Church of England, for he was the most brilliant and able man on the bench of bishops. He only took his seat as Archbishop on York on March 17 last, desiring to emphasize his Irish nationality by assuming that high office on the anniversary of Ireland's patron saint. There was a fitness in the circumstance, for he was the only conspicuous living link between the old established Church of Ireland and the English Church. As Bishop of Peterborough he became famous as a great preacher and for his independence and caustic wit, which he was particularly fond of exercising on solemn bores. He was one of the few prelates who ever said anything worth listening to in the House of Lords; and his speech against Irish disestablishment in that House at once placed him in the front rank of English-speaking orators. The freedom with which he expressed his views on delicate questions frequently provoked criticism, as when he took ground against those who deemed betting as a sin in itself, and when he declared that he would rather see England free than England sober. But taken in all he was a man of whom the English Church might well be proud, and it will be difficult to find anyone worthy to succeed him. Within a short time a number of brilliant Anglican clergymen have passed away, including Archbishop Thompson, Dr. Magee's predecessor, Bishop Lightfoot, Canon Liddon, Dean Church and Dean Plumptre.

The Spring Medicine.

The popularity which Hood's Sarsaparilla has gained as a spring medicine is wonderful. It possesses just those elements of health-giving, blood-purifying and appetite-restoring which everybody seems to need at this season. Do not continue in a dull, tired, unsatisfactory condition when you may be so much benefited by Hood's Sarsaparilla. It purifies the blood and makes the weak strong.

SUN LIFE.

ASSURANCE COMPANY OF CANADA.

The attention of our Policy-Holders is directed to the following summary of the leading items of the present report, which speaks for itself as to the progress and prosperity of the Company:—

Life Assurances in force, 1st January, 1891	$16,759,355 92
Increase over previous year	3,421,372 54
New Applications received in 1890	6,371 599 15
Increase over 1889	2,268 888.60
Cash income for year ending 31st December, 1890	889,678 87
Increase over 1889	325 938 35
Assets at 31st December, 1890	2,473 514 19
Increase over 1889	657,691 47
Reserve for Security for Policy-Holders	2,109 222 68
Increase over 1889	567 732 71
Surplus over all Liabilities and Capital Stock	232,175 69
Increase over 1889	75,649 95
Death claims fallen in during 1890	143,961 65

The progress made by the SUN LIFE during 1890 was remarkable. The new business was the largest in the Company's history, and was equalled by but one other Canadian Life Company. The income for the year exceeds $2,000 for each day in the year, Sundays included. The Assets are large and rapidly increasing. They are, moreover, of the highest character, yielding an average interest of 6.04 per cent. The overdue interest is small, and the Real Estate owned under foreclosure is only four per cent. of the amount of mortgages. This is a remarkable showing. The SURPLUS accumulated during the FOUR years of the current quinquennium is nearly THREE TIMES as much as the amount earned during any previous FIVE years, and the profits to Policy-holders cannot fail thus to be highly satisfactory. The following are the figures:—

Net Surplus, 31st Dec.,	1881, (five years)	$64 824 07
" " "	1886, "	89 482 97
" " "	1890, (four years)	232,175 69

AMERICAN AND CANADIAN FLOUR.

The following, taken from the Kingston, Jamaica, *Gleaner*, will be read with interest for more reasons than one. It shows the superiority of the wheat grown on Canadian soil as a food material—that for wheat and cheese we can beat the world. The closing paragraph puts the issue between the genial Adam Brown and the millers and gives the latter a hint to look out for American competition. The following will be interesting, if only to know what our "cull'd bruddern" in the tropics think of their relations with us. The *Gleaner* says:—

"The subject of breadstuffs is one demanding close attention, with as it is not a matter of sentiment, we want the best value for our money. Who can furnish is, the Americans, or our brother colonists in Canada?

"In our columns to-day will be found a long letter bearing directly on this subject. It is a reply to a query that appeared in the *Gleaner*. The letter in question treats of the value of wheats, climates producing them &c.

"Assuming that our correspondent's argument is right, the best wheat producing centres in the world are Russia the Northern states of the United States of America and Canada.

"The value of an extreme northerly region—temperate zone for the production of the very finest wheat was demonstrated as far back as England's war with Russia—the Crimea, when the, then Hudson's Bay Territory, now a part of Canada produced from thirty to fifty-six bushels of wheat per acre: that locality is in the extreme north of Canada.

To return to the statements and authorities cited by our correspondent. Judging the case therefrom, Canada can justly claim the finest and most extensive wheat belt in the world. Producing a wheat whose nutritive properties are of the highest — eleven barrels of Canadian flour being equal to fourteen barrels of American flour — and whose moisture—relative dryness—exceeds the best American flours.

The Canadian Commissioner has finally dissipated the old time fallacy, that Canadian flour will not keep in the tropics. He purposely kept it sixty days, and another lot ninety days, when both were perfectly sweet and wholesome. Bread of the finest quality from it has been baked, and of it over one hundred thousand pieces have been distributed at the exhibition. This direct and somewhat novel appeal to the minds of many, by way of that ancient receptacle the human stomach, has finally settled the question. To-day, thanks to the push-speeches and indefatigable efforts of Mr. Adam Brown, the Jamaica market is open to Canada, not only for flour, but for a host of things. That gentlemen has done his part, it now remains for the Canadian millers to do theirs. The future of the breadstuff question lies in their hands, and a hint to them: American competition will be all the keener after this Exhibition. Finally, it is asserted that the British West Indies consume three million dollars worth per annum."

Our Mineral Production.

The Total Value of the Product in Canada During 1890 is $19,000,000.

OTTAWA, May 5.—A preliminary summary statement of the mineral production of Canada in 1890 has just been issued. The total value of the product is placed at $19,000,000. Of the metals the most valuable output was that of nickel, the amount returned being 1,640,240 pounds, which, at 75 cents per pound, gives a total of $1,230,180. These figures, however, cannot be altogether relied upon, as the companies uniformly refuse to furnish information to the department, and it is a question for Parliament to consider whether or not legislation should be enacted to compel mining companies to furnish true statements of their annual output. Copper from two of the Sudbury mines, which the companies allege is entirely worthless, at 12 cents per pound, gives a valuation of $93,389. The total production of copper in Canada was 6 454,913 pounds, valued at $968,241; gold, 65,014 ounces, value, $1,166,227; pig iron, 21,772 tons, value $331,688; iron ore, 76,511 tons, value $155 380; silver, 400,697 ounces, value $420,532; lead, 113,000 pounds, valu $5,085; total, $3,722,565. The figures for the non-metallic minerals are as follows:

	Quantity.	Value.
Arsenic, tons	25	$1 500
Asbestos, tons	8.000	1,039,681
Baryta, tons	1 842	7,543
Bricks, thousands	208,587	1,247,607
Building stone, cub. yds	360 001	936 168
Cement, bbls	102 216	92 405
Coal, tons	3,117,661	6,396 910
Coke, tons	56,450	166,298
Felspar, tons	700	3 500

Considering the infancy, or rather embryotic condition, of the mining industry in Canada, the above is not a bad showing. If, under the shackles that trade restriction imposes upon the limbs of the young giant, mining shows a total of nineteen millions a year, what would the result be if the Liberal policy of reciprocity were adopted—a

Children Cry for Pitcher's Castoria.

market provided, and capital given a chance to develop the immense mineral riches of Canada? There is no reasonable doubt that the annual output of minerals would, before many years, be increased an hundred fold, and the stimulus of commercial activity be communicated to every artery of industrial enterprise.

Once She Bloomed as The Rose

"Yes sir," said the doctor to me, "that is Mrs. Francis; you, however, will remember her as the rosy cheeked Agnes Durham at whose mother's house we were always so comfortably quartered during our fishing expeditions around Lake M——— every autumn. She got married about three years ago to a very worthy young who fellow unfortunately was not able to provide her with all the comforts she enjoyed in her mother's house. She has now two children, which with her husband and her cousin, and her many household duties, is a burden I fear she is unable to bear, and she cannot afford the luxury of a servant. Do you notice how pale and worn-out she looks? She is only twenty three, but now looks more like forty; poor girl, I pity her from the bottom of my heart."

There are to-day around us many half worn-out wives and mothers, who, like Mrs. Francis, were once as fresh and blooming as the rose, but who are now, owing to the multifarious cares of the family, weary and faded, thin and pale; suffering silently and uncomplainingly from nervousness, tired brain and headache. Very often these apparently trivial ailments are aggravated and intensified by more alarming troubles such as sleeplessness, melancholia and a feeling of morbidness, sometimes accompanied by terrible dyspepsia and indigestion. Such a state is serious in the extreme, and requires instant care and attention to save life.

Mothers, you will readily admit that this is not an overdrawn picture of many of your self-sacrificing lives. There is, however, within your reach an infallible remedy for all your ailments and troubles; it is Paine's Celery Compound, a preparation especially of great value for the broken-down, wearied and half-dead system. Its use will soon give great vitality, healthy vigor and a feeling of joyousness which will enable any mother to renew her life and regain freshness of look. Mothers, give Paine's Celery Celery Compound a trial, and will use no other remedy.

Pole Spills.

$900.00 IN CASH GIVEN AWAY.

To advertise DR. COLE'S PILLS we will give daily prizes for ninety days to the persons who correctly form the name of a popular remedy from the letters in the two words POLE SPILLS. For the first correct answer received each day $5.00 in cash; for the 2ed $3.00; for the 3rd, $2.00—$10.00 in all. With your answer send 25c, in silver or 27c. in stamps for a box of Dr. Cole's Perfect Blood and Liver Pills, sure cure for sick headache, very small and do not gripe. Remember these prizes are absolutely free. Prize money now on deposit at the Trader's Bank here. Contest opens May 1st, 1891. Try it. Address HOME SPECIFIC CO., Orillia, Ont., Canada. 9 #19eod

A Cure for Constipation and Headache.

Dr. Silas Lane while in the Rocky Mountains, discovered a root that when combined with other herbs, makes an easy and certain cure for constipation. It is in the form of dry roots and herbs, and is known as Lane's Family Medicine. It will cure sick headache, and is the best spring medicine. For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50c. and $1 a package. dw

A True Bill.

Wm. Gillespie, Wolfe Island, Ont., says: I had indigestion and stomach cough for three years. Was treated by best physicians and used numerous patent medicines without success, when two bottles of Miller's Emulsion of Cod Liver Oil cured me. I have great pleasure in recommending it. For sale by all druggists. dw

Why Not Treat.

Why not treat such troubles as boils, pimples, blotches, sores, humors, eruptions, rashes, skin irritations, etc., with Burdock Blood Bitters. It is filled with virtue as a blood purifier and goes right to the right spot. It makes the skin bright and clear, while also invigorating the entire system. 1w18-d

Supposing.

Supposing you suffer from some disease. Suppose it is dyspepsia or biliousness or constipation or bad blood. Suppose you learn that Burdock Blood Bitters has cured thousands of cases of these and similar complaints. Don't you suppose you ought to try? It cannot harm you and in nine cases out of ten it cures. 1w183

Spring Cleaning.

Be particular every spring to clean the house, but never mind cleansing the blood until some troublesom disease takes hold of you. This is poor policy when by using Burdock Blood Bitters the blood will be thoroughly cleansed, the body strengthened, and future suffering prevented. 1w181

Once Used, Always Used.

This is a fact as regards Dyer's Jelly of Cucumber and Roses, from its wonderful efficiency in curing chapped hands, and making the skin smooth and soft. Druggists keep it. W. A. Dyer & Co., Montreal 6d92

May offers specially favourable circumstances for driving catarrh out of the system, and every sufferer from this loathsome disease should use Nasal Balm for that purpose. It cures when all other remedies fail, if the directions are faithfully adhered to. A single bottle will convince you of its merits. Sold by all dealers. 6 1103 w

Will positively cure sick headache and prevent its return. Carter's Little Liver Pills. This is not talk, but truth. One pill a dose. See advertisement. Small pill. Small dose. Small price. dw

In the first stage of consumption Miller's Emulsion will certainly cure. For sale at all drug stores. dw

FOR NETTLE RASH, Summer Heat and general toilet purposes, use Low's Sulphur Soap. dw

The Safest

AND most powerful alterative is Ayer's Sarsaparilla. Young and old are alike benefited by its use. For the eruptive diseases peculiar to children nothing else is so effective as this medicine, while its agreeable flavor makes it easy to administer.

"My little boy had large scrofulous ulcers on his neck and throat from which he suffered terribly. Two physicians attended him, but he grew continually worse under their care, and everybody expected he would die. I had heard of the remarkable cures effected by Ayer's Sarsaparilla, and decided to have my boy try it. Shortly after he began to take this medicine, the ulcers commenced healing, and, after using several bottles, he was entirely cured. He is now as healthy and strong as any boy of his age."—William F. Dougherty, Hampton, Va.

"In May last, my youngest child, fourteen months old, began to have sores gather on its head and body. We applied various simple remedies without avail. The sores increased in number and discharged copiously. A physician was called, but the sores continued to multiply until in a few months they nearly covered the child's head and body. At last we began the use of Ayer's Sarsaparilla. In a few days a marked change for the better was manifest. The sores assumed a more healthy condition, the discharges were gradually diminished, and finally ceased altogether. The child is livelier, its skin is fresher, and its appetite better than we have observed for months."—Frank M. Griffin, Long Point, Texas.

"The formula of Ayer's Sarsaparilla presents, for chronic diseases of almost every kind, the best remedy known to the medical world."—D. M. Wilson, M. D., Wigga, Arkansas.

Ayer's Sarsaparilla,

PREPARED BY

Dr. J. C. Ayer & Co., Lowell, Mass.

Price $1; six bottles, $5. Worth $5 a bottle.

BUILDERS, SPECULATORS, HOME-SEEKERS.

I want to call your attention to three most desirable Blocks of vacant land in the centre of the town—choice localities and the safest of safe property to buy. Three minutes walk from Post Office. There is some other available Property in town equal to the above, and should command prompt attention. Call for particulars. Should you prefer buying a cheaper class of Property, I can suit you in any part of the town or Ashburnham. Lots from $60 up. Houses at all prices and on easy terms. Sharp speculators seeing the future prospects of our town, are buying freely to re-sell at a profit. Reader, would it not be wise for you to buy a Home? Receive to do so. I will meet any appointment at my office from 6 a.m. to 9 p.m., and will in the future, as in the past, serve my patrons to their advantage. Houses and Stores to rent. Gardens to rent. Farms for sale or exchange for town property.

CHANGE IN BUSINESS.

I beg to announce to my late customers that I have sold out my business to Messrs. Hilliard & Peplow, and I would bespeak for them the same support as has been accorded me.

C. N. BROWN.

ANNOUNCEMENT.

For some time past we have thought a strictly cash business in Flour, Feed and Provisions could be successfully carried on in Peterborough, and to test this question, we have purchased the above business from Mr. C. N. Brown who will still continue as manager in Flavelle's old stand, Simcoe street.

In order to be successful we intend to make it the interest of everyone to pay cash with order by selling at wholesale prices.

We will positively give no credit and cash customers will not have to keep up the losses made by others on the credit system.

We will keep a full supply of the very best quality of Flour, Feed, Chop, etc., and our customers need not fear that the quality of the goods will be lowered to make up for the reduction in prices. We are simply giving them the benefit of the margin necessary to cover losses and interest charges incurred on the credit system.

Goods delivered to any part of the town or Ashburnham.

MERCURY'S TRANSIT.

THE FIERY PLANET'S FLIGHT OVER THE SUN'S FACE ON MAY 9.

Astronomers Burnishing up Their Instruments for Observation—The Facts to be Developed—Items of Interest Concerning the Heavenly Wanderer.

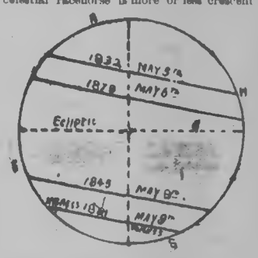
SPECIAL apparatus is being dusted and general preparations are being made by astronomers for the transit of Mercury, which will occur on the afternoon of May 9. Unfortunately the Mercury "durchganges," as the Germans call it, will occur in the eastern portion of the United States as the sun is about to set, and what is technically known as first contact will be about the limit of observations. Observers stationed west of the Mississippi River will be more fortunate, as they will be able to observe the planet for some time after it has commenced its journey across the face of the sun. The sun will, however, have set at all places in the United States with Mercury galloping across his disk.

THE FIRST SIGHT OF MERCURY.

The first view by man of this fiery god was obtained on the morning of the 13th of the Egyptian month Trothi, answering to November 15 in the year 265 before the Christian era.

Mercury, as seen in the telescope, is a disappointment—an expression that has often been repeated to me by those who, for the first time, obtain a view of the planet.

The accompanying diagram gives an idea of the form of the wanderer, showing him as a crescent. Though much larger in size than the moon, Mercury's distance from the earth and the bright glare from the sun by which he is generally surrounded all go to rob him of much clearness of outline. When usually seen this celestial racehorse is more or less crescent



PATHS OF MERCURY IN MAY TRANSITS OVER THE SUN, 1822-1900.

shaped—about as the moon appears when passing from the new to the first quarter.

Mercury is composed, like the earth and the other planets, of material that does not possess the power of self-illumination; consequently when the planet is viewed from the earth we are unable to discern the non-illuminated side, and the crescent is simply due to the foreshortened view we have of the illuminated.

A year at Mercury is eighty-eight days in length, or, in other words, it takes that many days for the planet to make a journey around the sun, at a mean distance of 36,000,000 miles. When nearest to the sun this number is decreased to 28,000,000, and when furthest to 43,000,000 miles.

AN ITEM FROM MERCURY.

The latest news from Mercury—an item recently announced by the eminent Italian astronomer Schiaperelli—is that a Mercurian's day is of the same length as his year—that is, the planet revolves once on its own axis in the same time that it makes

THE POINTS ON THE SUN'S LIMB WHERE MERCURY WILL APPEAR AND DISAPPEAR.

a journey around the sun; analogous to the motion of the moon around the earth. This statement has not been confirmed, however, and a number of observers are engaged in ascertaining its reality. If it proves to be true Mercury will be the only one of the six outer planets that is devoid of a daily rotation.

HOT AND COLD WAVES ON MERCURY.

The African living on the earth's Equator exists in a temperature of from 110 degrees to 120 degrees. The imaginary inhabitant of Mercury would prepare for winter when the temperature was 450 degrees and pass through the ordeal of a summer when the thermometer indicated between 900 degrees and 1,000 degrees—about the temperature of a heated bar of iron just turning red.

When the Mercurian is experiencing what would correspond to his winter the heat and light from the sun is four times as great as the maximum amount that ever reaches the earth, and in summer the intensity of the solar rays falling on Mercury is nine or ten times the dreadful heat that concentrates itself upon the earth's Equator.

The climate of the earth is not absolutely dependent upon the sun's distance, but is rendered variable by the manner in which the solar rays beat down upon us. The atmosphere that envelopes the earth has a controlling influence upon our climate, and should Mercury have one analogous to ours, which a transit of the planet across the sun's disk offers us an opportunity to determine, his climate may be modified amazingly.

A TRANSIT OF MERCURY.

A TELESCOPIC VIEW OF MERCURY.

The popular mind will enquire of what real value to science is a transit of Mercury. We reply by saying that observations of the phenomena add more facts to those already in the possession of Evidence, the presiding officer to whom we appeal for an explanation of the physical construction of Mercury, of the possibility of an atmosphere, and why is it that theory and observation of the planet's movement do not satisfy each other.

This small and erratic member of the solar system has a discrepancy in his motion which has been a thorn in the astronomer's side difficult to remove. Your modern computer, with pen and paper, piles figures upon figures, putting them through a course of trigonometric gymnastics, and when he has finished what he considers a proper solution of Mercury's movement his work exists in a state of "no quorum," and up jumps Observation, the ready objector, with an appeal for facts, exclaiming:—"Account for that thirty-eight seconds that exists between my record and that of Theory."

Evidence runs his eye quickly over the theories before him, is unable to muster a sufficient number to answer the question and, with a rap of the gavel, decides that the solution of this problem must be indefinitely postponed.

QUESTIONS TO BE ANSWERED.

The questions for which we seek an answer in a transit of Mercury may be summarized as follows:

As has been hinted there exists a discordance between the position of Mercury in his orbit as derived from theory and from observation. To say more than this would lead to the technical part of the subject, an item I do not wish to drag into this article. It is expected that many observations of this transit will be made and from these, combined with those formerly made, corrections will be derived which will assist in removing this apparent error between theory and observation. If the planet, surrounded by an atmosphere a transit offers the best opportunity of noting its extent and form. Again, while the the transit is in progress the side of the planet toward the earth will be destitute of sunlight and its physical appearance under that condition may be observed. Another very important question is the possible variation of the sidereal day. These are the principal points about which astronomers are seeking information from data derived from a transit of Mercury.

In the solar system there are only two planets that can, as seen from the earth, transit the sun's face. The two planets that fulfil these conditions are Mercury and Venus. Transits of Mercury always occur in the months of May or November, happening at intervals of 13, 7, 10, 3, 10, etc., years.

In Fig. 1 the circle is intended to represent the sun's disk. The heavy lines indicate the path of Mercury in each May transit during the present century. Just above each line will be found the year and day of the transit. The one we expect to observe on May 9 is the last of the May transit that occurs in this century. A November transit, and the last until 1907, will happen November 10, 1894.

THE COMING TRANSIT.

The transit that we expect soon to observe will occur at 6h. 47m. 17s. Washington mean time, or practically at forty-seven minutes past six, on the afternoon of May 9. To aid those who may desire to note the time of ingress I have computed the local time of exterior contact at a few prominent points in the last:—New York, 6h. 59m. 32s.; Poughkeepsie, 6h. 59m. 53s.; Albany, 6h. 59m. 53s.; Rochester, 6h. 44m. 8s., and Philadelphia, 6h. 53m. 45s. In the immediate neighborhood of New York the transit will commence only eight minutes before the sun disappears in the west.—U. S. Naval Observer Geo. A. Hill in New York Herald.

In Blushing Minnesota.

Johnsmith—What are you wearing those blinders for, Jukesley? Has the prince of Wales got sore eyes?

Jukesley—No, dash boy; I'm going to see the reformed ballet, and they're so modest, 'pon my soul, that a fellah can't look at them with his naked eye. Ah Jove!

Ask Your Friends About It.

Your distressing cough can be cured. We know it, because Kemp's Balsam within the past few years has cured so many coughs and colds in this community. Its remarkable sale has been won entirely by its genuine merit. Ask some friend who has used it what he thinks of Kemp's Balsam. There is no medicine so pure, none so effective. Large bottles 50c. and $1 at all druggists. dw

Editorial Evidence.

Gentlemen—your Hagyard's Yellow Oil is worth its weight in gold for both internal and external use. During the late La Grippe epidemic we found it a most excellent preventive, and for sprained limbs, etc., there is nothing to equal it. Wm. Pemberton, Editor Reporter, Delhi, Ont. 1w181

Now Free From Pain.

Dear Sirs—I have been troubled with Lame Back for about six months, and thought I would try Hagyard's Yellow Oil, which cured me. Am now free from all pains, and recommend Yellow Oil very highly. Frank Palmer, Winona, Ont. 1w181

A Winnipegger's Opinion.

The following is taken from a letter from Mr. D. Davis, Winnipeg, Man.: "Being persuaded to use Hagyard's Pectoral Balsam for a troublesome cold, I was entirely cured by the use of two bottles." 1w181

When Baby was sick, we gave her Castoria
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria

Ahead of Koch's Lymph.

Charles Campion, Kingston, Ont., says:—Gained 7 lbs. with one bottle of Miller's Emulsion of Cod Liver Oil. Cured bad Bronchial Cough with a few doses and made me feel like a new man. I strongly recommend it. All druggists keep it. dw

Everybody Admires Soft White Hands, And every lady ought to use Dyer's Jelly of Cucumber and Roses, as it makes the skin soft and smooth. Druggists keep it. W.A. Dyer & Co., Montreal. 6d92

SOME SYMPTOMS OF WORMS are:—Fever, colic, variable appetite, restlessness, weakness and convulsions. The unfailing remedy is Dr. Low's Worm Syrup. dw

Will be found an excellent remedy for sick headache. Carter's Little Liver Pills. Thousands of letters from people who have used them prove this fact. Try them. dw

Have You Tried

Imperial Cream Tartar Baking Powder. It is the purest of the pure. All grocers sell it. t th s w

AN INACTIVE or Torpid Liver must be aroused and all bad bile removed. Burdock Pills are best for old or young. dw

AS A PICK-ME-UP after excessive exertion or exposure, Milburn's Beef, Iron and Wine is grateful and comforting. dw

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold everywhere, or sent by mail.

NO BETTER REMEDY FOR

COUGHS, COLDS, CROUP, CONSUMPTION, &c.

FOR

FLAX-SEED EMULSION COMPOUND

BRONCHITIS

123 Lexington Ave., New York City, Sept. 19, 1889.

I have used the Flax-Seed Emulsion in several cases of Chronic Bronchitis, and the early stages of Phthisis, and have been well pleased with the results. JAMES K. CROOK, M.D.

CONSUMPTION

Brooklyn, N.Y., Feb. 14th, 1890.

I have used your Emulsion in a case of Phthisis (consumption) with beneficial results, where patient could not use Cod Liver Oil in any form. J. H. DROGE, M.D.

NERVOUS PROSTRATION

Brooklyn, N.Y., Dec. 29th, 1888.

I can strongly recommend Flax Seed Emulsion as helpful to the relief and possibly the cure of all Lung, Bronchial and Nervous Affections, and a good general tonic in physical debility. JOHN F. TALMAGE, M.D.

GENERAL DEBILITY

Brooklyn, N.Y., Oct. 10th, 1888.

I regard Flax Seed Emulsion as greatly superior to the Cod Liver Oil Emulsions so generally in use. D. A. GORTON, M.D.

WASTING DISEASES

127 West 36th St., New York, Aug. 6, 1888.

I have used your Flax-Seed Emulsion Compound in a severe case of Mal-nutrition and the result was more than hoped for—it was marvelous, and continuous. I recommend it cheerfully to the profession and humanity at large. M. H. GILBERT, M.D.

RHEUMATISM

Sold by Druggists, Price $1.00.

FLAX-SEED EMULSION CO.

35 Liberty St., New York.

The D&L Emulsion OF Cod Liver Oil AND THE Hypophosphites of Lime and Soda.

No other Emulsion is so easy to take.
It does not separate nor spoil.
It is always sweet as cream.
The most sensitive stomach can retain it.

CURES

Scrofulous and Wasting Diseases.
Chronic Cough.
Loss of Appetite.
Mental and Nervous Prostration.
General Debility, &c.

Beware of all imitations. Ask for "the D. & L." Emulsion, and refuse all others.

PRICE 50C. AND $1 PER BOTTLE.

Self Application of Electricity

FOR MEDICAL PURPOSES

BY THE

DORENWEND ELECTRIC BELT

And Attachments.

THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASES, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, DYSPEPSIA, SEXUAL DECLINE and all diseases of the Nerves and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and realizes the best in the world; we defy anyone to bring proof to the contrary.

Do not clean this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you wish to experiment with cheap articles, buy THEM; but, if you want to procure a genuine Electric Belt and one that will be a benefit, get a Dorenwend Belt.

Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. The Dorenwend Electric Belt and Attachment Co., C. H. DORENWEND Electrician, 103 Yonge St., Toronto, Canada. sod-w

School Board Meeting.

Mr. Wrighton, chairman, has called a meeting of the School Board for next Monday night. Members are reminded that the hour of meeting is 7.45 o'clock, and not 8 o'clock. It is much more satisfactory to have all the members who can possibly attend, present at an important meeting, or, for the matter of that, at every meeting.

Remember This!

That the tower of the George street Methodist church will be completed this summer if the members and friends of the church aid and assist by their presence and contributions at the social tea Monday evening, 11th May. The ladies of the church are requested to send in refreshments by 3 o'clock, p.m. on Monday night. 1d

The Last Week

in the Bon Marche, and will slaughter goods at the following prices this week, ending by an auction sale Saturday night next:—Best 50c. Indian tea, 35c. per pound; good 30c. Congou tea, 18c. per pound; good family flour 35c. less than mill prices; 10 lbs. Lawry's lard for $1; 19 lbs. nice light sugar for $1; 5 lbs. boneless fish for 25c. Everything else in proportion to make a clearance, as this is the last week. M. CARTON. d

The Slaughter Houses.

Consequent upon the last meeting of the Board of Health, the Chief of Police, as Health Inspector, waited upon the butchers having slaughter houses in town and they gave him their assurance that they would do no more slaughtering in town. According to the report of those residing near the slaughter houses, the butchers are keeping their word to the letter.

Children Cry for Pitcher's Castoria.

The Board of Trade.

The Council of the Board of Trade met last evening for the purpose of discussing the best means of securing the co-operation of Winnipeg, Port Arthur and other towns in the Northwest, in our great canal project, the Trent Valley Canal. Mr. Carnegie, the secretary of the T. V. C. Association, was present. After a careful consideration of the question it was decided to send out a circular-letter. These towns are anxious to assist, but have not as yet been conferred with.

Acknowledgement.

The committee of management of the Peterborough Protestant Home, acknowledge with thanks the following donations for April:—Mrs. Fawcett, reading matter; Mrs. McWilliams, maple syrup; a friend, cakes and bread; Mrs. C. McGill, mosto and buckwheat flour; a friend, reading matter; Mrs. Aldridge, basket of vegetables; T. W. Robinson, maple syrup and sugar; Mrs. Halliday, parcel of clothing; Mrs. Vernon, bonnets; Mrs. Moore, parcel of clothing; Y. M. C. A., papers; S. A., papers; a friend, parcel of clothing; Peterborough Foresters, Court 22, barrel of flour, result of curling match.

The Bitter Bit.

There was a case of speedy retribution for wrong-doing Wednesday in Ashberaham. A man who had neither the fear of the Fishery Inspector nor the Game Law before his eyes, killed in the race, a muskinonge which was about two feet in length. The guilty fisher concealed his spoil in his coat, and another person, who had been watching the operation from the beginning, stole the fish and, concealing it under his coat, made away with it. When dressed it proved to have thousands of eggs inside, and the muskinonge waters of this district are threatened to this extent. Many a score of fish is being thus illicitly slaughtered. The Fishery Inspector should be a little more on the alert.

Norwood Foresters.

At the regular meeting of Court Rob Roy, C.O.F., 114, the officers for the current term were installed on Wednesday night by Mr. H. Nesbitt, D.D.H.C.R., as follows:—

Bro. A. Rose	C.R
" W. Askey	V.C.R
" W. P. Plant	C
" Calder	F.S
" Britton	T
" A. Davidson	R.S
" J. Cameron	S.W
" J. Pagett	J.W
" J. Kirk	S.B
" Jas. Collinson	J.B
" Dr. Pettigrew	Court Physician
" John Haring	Delegate

Water Works Extension.

Superintendent Henderson is pushing the work of extending water mains from Water street, east on, Brock to the corner of Sheridan terrace, where a hydrant has been set. From this point connection is being made across the Court House grounds with the main pipe on Murray street. The hydrant mentioned above is the one directed to be placed at this point by the County Council at its last session, for fire purposes. The county pays the hydrant dues. In carrying the trench across Brock street, north from this hydrant, the workmen came across a boulder as big as the bill of costs in a chancery suit. Two charges of giant powder were necessary before the boulder was reduced to dimensions small enough to be lifted out of the trench. The whole subsoil of Court House hill is full of these big boulders, as if some iceberg of the glacial period, had stopped there and melting, had left its whole cargo of ballast.

Three Prominent Men.

The newspapers of England are just now full of references to Sir John Macdonald, Sir Henry Parkes and Hon. Cecil Rhodes. The first represents our own Confederation, the second is the architect of the Australian Commonwealth, and the third the Premier of Southern Africa. The functions of the three are typically the same, but the ways, means and manners characteristics of the men are as different as the countries themselves. Mashonaland, whether Lord Randolph Churchill has been sent, is vastly rich. Australia has burst forth into truly national life. She feels the responsibility of her isolated position. The most indifferent observer cannot fail to notice the almost volcanic upheaval within the Empire. Southern Africa has with its newly-discovered mines and limitless wealth, come suddenly forth in a blaze of colonial glory. To Canada the attention of the world has been drawn and with the most favorable reports of foreign delegates as to her agricultural capacity, her mines, her waterways all within our view, who will say that she has not a likely future?

A Convention of Hotel-keepers.

The chief of police arranged a convention of hotel keepers at the police court this morning. They were summoned to show cause why they had not complied with the regulations of the Liquor License Act, section 48, which requires that "every person who keeps a tavern or other place of public entertainment, in respect of which a tavern license has duly issued, shall exhibit, over the door of such tavern, inn, ale house, beer house or other place of public entertainment, in large letters the words "Licensed to sell wines, beer, and other spirituous or fermented liquors." Messrs E. Phelan, Thos. Dunn, M. Connorr, T. Cavenagh, J. Clancy, J. Carew, W. Clancy, W. Snowden and Mrs. Halpin were present and explained that they had only just received notice, and had not time to comply with the law, which they were willing to do, and which some of them had already done or had made arrangements to do. The police magistrate in commenting on the case remarked that none of the parties were sure that they were going to receive licenses, and that they had not had an undue opportunity to comply with the law. He then enlarged the case for a week to decide upon the matter of costs.

Ascension Day Services.

"And a Cloud Received Him Out of Their Sight."

Ascension day was marked by Morning Prayer in St. Luke's, Ashburnham, and St. John's. There will be Evensong this evening in St. John's the Less, South Ward, followed by instruction in confirmation.

At St. Peter's.

At St. Peter's Cathedral special services took place in commemoration of the holy day. Masses were celebrated at 6, 8 and 10 a.m. At the eight o'clock mass the children of the congregation, to the number of about 60, attended their first communion, and were afterwards addressed by His Lordship O'Connor, who also celebrated the mass.

News Nuggets.

—There will be no meeting of the Town Council to-night.

—A lady's gray breakfast shawl still waits an owner at the police station.

—Thin and impure blood is made rich and healthful by taking Hood's Sarsaparilla. It cures scrofula, salt rheum, and all blood disorders.

—At sunrise this morning the thermometer stood at freezing point. The probilities are if the wind continues northerly we shall have snow or rain within a few days.

—Three cars of members of parliament passed through town west on the C.P.R. this morning, to spend their holiday at their homes, the House being adjourned till Monday on account of Ascension Thursday. Messrs. Stevenson, M.P., and Barnham, M. P., left the party at Peterborough.

Personal.

Miss Edith Shortly has returned from an extended visit with friends in Napanee.

Col. Sampter, of Carleton Place, is in town on a brief visit, the guest of his son-in-law, Dr. Bell.

Mr. and Mrs. R. H. Green and Miss Green left this morning for Denver, Col., where they will remain until Mr. Green recovers his health.

Rev. J. Creighton, of Cartwright, has been elected Rural Dean of Durham in the stead of Rev. Rural Dean Allen, promoted to the Archdiaconate.

Intelligence has been received from Bowmanville that Mr. H. H. Crosby whose illness through paralysis was reported in the EXAMINER is in a very serious condition. His medical advisor cannot tell whether he will recover sufficiently to be removed home.

Chancery Spring Sittings.

Hon. Mr. Justice Ferguson Will Preside —The Cases on the Docket.

The Chancery Spring Sittings for the county of Peterborough will be held to-morrow before the Hon. Mr. Justice Ferguson.

Three cases are inscribed for trial:

HALL vs. CHARLTON is an action brought by E. E. Hall, solicitor, of the firm of Stratton & Hall, as assignee of the estate of Robert Johnston of the Township of Douro, farmer, against William Charlton, residing at Lakefield, who is also a farmer, to set aside a mortgage on certain land which was granted by Johnston to Charlton on March 25th, 1890, on the grounds that at the time the said mortgage was given Johnston was in insolvent circumstances; and to enforce specific performance of an agreement to purchase farm from plaintiff. Ross, Cameron and McAndrew for plaintiff; E. B. Edwards, for defendant.

YOUMANS vs YOUNG is an action brought by Eleazer Youmans, of Belmont Township, against Wm. Young, of the same place, to recover $100 for wrongfully entering plaintiff's land and cutting down timber. This case was transferred from the recent Assizes to this Court by order of Hon. Mr. Justice MacMahon. John Baraham, Q.C., for plaintiff; Stewart & Stone, for defendant.

HOUGH vs MILLAR, *et al*, is an action brought by Jane Hough, of this town, as devisee under the will of the late John Paterson, against Wm. Millar and wife, of Peterborough, to recover possession of the house and premises, No. 289 Rubidge street, and to establish her title thereto and rent at $5.00 per month, from 1st March, 1890. G. M. Rogers for plaintiff; Stratton & Hall, for defendant.

Mr. Justice MacMahon and Orangemen.

To the Editor of the Examiner:

SIR.—As some people have a prejudice against the Orange Order, and believe that the members are sworn to injure and harass Roman Catholics, the following observations, published in the Toronto *Mail* of the 29th of April, by Mr. Justice MacMahon (himself a Roman Catholic) at the L'Original Spring Assizes, will enlighten them respecting "An Orangeman's Oath", and I trust, remove from their minds such prejudice and belief:

"HUNTER vs. MCALPINE.—In the course of his charge to the jury, His Lordship, Mr. Justice MacMahon, referring to the obligation taken by Orangemen, remarked that this was the first time he had heard it read, and he found it just contained what was the duty of every Christian man, nothing more and nothing less; just what every honest and upright man could subscribe to without any difficulty at all."

Thanking you, Mr. Editor, for giving me space in your paper for these remarks, I remain,

Yours Respectfully,
C. W. SAWERS,

Peterborough, May 6th, 1891.

Obituary.

The Late John J. Doherty.

"Johnny Doherty is dead!" was the regretful remark that passed in sad iteration from one to another of his many friends, and the numerous friends of the family last night and this morning. John Joseph Doherty, only son of Mr. John Doherty, market clerk, and an old and respected citizen of the town, died last night just as he was entering upon manhood—at the age of 21 years. The young man has been suffering about a year and a half from that fatal disease, consumption. But he has not been confined to his bed, nor even to his room. A few days ago he visited the Edison Works buildings, and as late as yesterday evening came down stairs to the family sitting room. About five o'clock he returned to his room, his father accompanying him. He complained of a pain in his side. His father was removing his night rob, when a cough, followed by a gush of blood, announced the beginning of the end. Help was at once summoned, but before it could arrive the end had come. The deceased was an exceedingly exemplary young man, a dutiful son, an affectionate brother, a faithful employee, a respected citizen, and a faithful member of the Roman Catholic church. Indeed, only the day before his death, at his wish expressed to the Bishop, mass was celebrated in his room, and the last rites of the church administered. Mr. Doherty was held in the highest respect and esteem by all who knew him, and from the fact of his having been born and reared in the town, his acquaintances, and consequently, in his case, his friends were very numerous. He died, leaving behind him a memory which will be an enduring comfort to his sorrowing friends, who, in their affliction, have the heartfelt sympathy of the entire community. The funeral takes place on Saturday morning at 9 o'clock, from the family residence, 378 Rubidge street, to St. Peter's Cathedral.

The Late Wm. Jobe.

Wm. Jobe was a familiar figure to our townspeople. For a number of years he conducted a refreshment stand at the corner of George and Simcoe street, and "Jobe's candy" was justly celebrated far and wide among the young folks who had a taste for sweetmeats. Every morning, rain or shine, while in health Mr. Jobe wheeled his booth to the stand at the corner and retailed candy, fruit, refreshments of all kinds to the public. A week ago last Saturday his final sickness seized him, and he passed away this morning, after having just completed the allotted term of three score and ten years. Deceased was a native of Warwickshire, England, and came to this country twenty-six years this June. Three years ago he lost his wife, by whom he had a family of nine children, all living. He also leaves behind him a sister, who came to keep house for him after his wife's death. Mr. Jobe was a consistent member of the Charlotte street Methodist church. The funeral takes place from his late residence on Charlotte street Saturday afternoon at 3.30 o'clock.

George Pickles.

In the death of Mr. Geo. Pickles, a notice of which sad event is published elsewhere, the town loses a good, capable and conscientious mechanic and estimable citizen. He was a member of the Bricklayers' Union, and that organization turned out as a body this afternoon to attend his funeral.

Norwood.

(From Our Own Correspondent.)

It is with deep regret that we relate the death of Miss Etta Wigmore, daughter of Mr. Robt. Wigmore, of Dummer. The esteemed young lady had been attending Ottawa Normal School, and while there became a victim of the prevailing disease "la grippe." This, with confined study, soon weakened her usually strong constitution, and she returned to her home about three weeks ago. Since that time she gradually became weaker, and at 3 o'clock last Saturday morning, May 2nd, she calmly passed away. The very large number who attended the funeral on Monday, in spite of the unfavorable weather, testify to the high regard in which she was held by all. Being an ex-pupil of the Norwood High School, the scholars were in attendance, and marched at the head of the funeral procession. The many friends of the deceased have the heartfelt sympathy of the entire community.

On Sunday afternoon, May 3rd, the members of Norwood lodge, I.O.O.F., and some visiting brethren attended service in the English church here, Rev. Mr. Gibson delivered a very instructive discourse and the entire service was very interesting. Members of Hastings and Campbellford lodges were present, and the large procession must have numbered seventy-five or more.

On account of the Presbyterian church being repaired, services morning and evening were held in the Sunday school room. Rev. Mr. Leask, of Toronto, occupied the pulpit on account of the indisposition of Rev. Mr. Carmichael.

A valuable team belonging to Mr. Warner, of Asphodel, took fright near the grist mill and ran in the direction of the little pond. They were unable to stop on the bank, and consequently found themselves precipitated into twenty feet of water. Both were drowned and the unfortunate owner estimates his loss at $250.

Bridgenorth.

(From Our Own Correspondent.)

The Methodist congregation is completing arrangements to hold their usual anniversary tea on May 25th in Dance's beautiful Park. Look for further announcements.

THE MONUMENT CITY.

Its Almost Magical Birth and Influence.

BROUGHT INTO BEING BY WATER POWER AND ELECTRICITY.

TORONTO, May 4th.—For the last couple of weeks the papers here have been devoting a great deal of attention to a scheme which promises to revolutionize manufacturing and milling in this province. All of the dailies published illustrated articles many of them occupying more than a page of the paper. It seems that a number of Canadian capitalists, backed by moneyed men in England and the United States, have obtained a charter from the Ontario government to build a canal from the Chippewa river near where it empties into the Niagara above the Falls, to the lofty escarpment at Queenstown near Brock's monument. This canal, about ten miles long, will be through almost absolutely level country. Yet where the waters will pour over the precipice at Queenstown they will have a fall of three hundred and twenty feet, the river bed at that point being that number of feet lower than at the mouth of the Chippewa. A portion of the descent of the river is made above the cataract which in itself has a fall of a hundred and sixty feet. The rest of the descent is in the rapids from that point to Queenstown. The water conveyed in this canal will create a hundred thousand horse power of energy. To utilize this the Niagara and Queenstown Land and Electric Company, as it is called, intend to build a city on the present site of Queenstown and for this purpose have obtained over two thousand acres of land where free sites for mills and factories are already being offered and a guarantee given that the power will be ready within a year and a half from the fifteenth of May, and that it will be sold at the astoundingly low price of ten dollars per horse power per annum which is only twenty-five per cent. of the cost of water power elsewhere where it is sold by a power company, and one-sixth of the cost of power produced by steam. A transmission company has been formed with a stock of half a million dollars which is now negotiating for ten thousand horse power which will be conveyed by cable to Hamilton and Toronto at a loss of less than twenty per cent. of energy in its transmission to the furthest point. The money received from this transmission company will alone, it is said, pay five per cent. per annum interest on the whole construction of the canal which the engineer's estimate will cost $1,250,000.

The head office of the company of which Mr. W. H. Dean, is the secretary, is at room 31, Canada Life Buildings, and he and his staff have been deluged with applications from all over Canada and many states of the union asking for particulars and priority in the choice of sites.

A brief description of how this novel and startling enterprise is being managed cannot but be interesting. Secretary Dean says that the company is essentially one for selling power and not land, that the two thousand acres were obtained to prevent speculators from getting hold of it, raising the prices and making it impossible for mills and factories to locate there. The Niagara and Queenstown Land and Electric Company have surveyed in the town plot about seven hundred acres, the balance of of their acreage being divided for the present into small fruit farms and market gardens which are to be irrigated by the waste water which after creating the power will be carried through irrigating ditches from the upper levels of the land and utilized by fruit growers and gardeners.

The seven hundred acres in the new town plot has been divided into business and residence lots, the former having twenty-five feet frontage, the latter forty feet. The price of all the lots without regard to situation is two hundred dollars. The public are not asked to pay their money to the Land and Electric Company but have the privilege of paying it to the Trusts Corporation of Ontario, which is recognized by the courts of Ontario as a legal trustee and is as sound as any bank in Canada. The method of payment is twenty dollars with the application and ten dollars a month until two hundred dollars is deposited. This money the Trusts Corporation does not hand over to the Land and Electric Company until the canal is completed, at least ten thousand horse power furnished and their promises fulfilled.

The building lots belonging to those who have deposited their money with the Trusts Corporation are to be apportioned according to priority of investment, the personal applicants receiving the even numbers and the applications which come by letter the odd numbers, so that local buyers will have no advantage over those who send their money by letter. In order to make this method of apportioning the land fair to all, applications will not be received until the fifteenth of May though in the meantime intending investors may deposit their money with the Trusts corporation and receive a receipt from them which will be accepted by the Land and Electric Company on the fifteenth of May and the lots awarded according to the priority of the presentation or reception of these at their offices here. In this way the land will be divided and there is no doubt that a great deal of money will be made by those who obtain the first thousand certificates. The company expect to make no money out of their land but are offering it in this way and giving free sites to mills and factories to attract population and customers for their power.

The attractions of Queenstown, or the Monument City as it is now being called, as a centre of manufacturing, are really unequalled in America. It is at the head of the navigable portion of the Niagara river and has two miles of natural wharfage. The finest stone quarries, and brick clay are to be found within the limits of the new town. Natural gas has been tapped and is burning at St. Davids within a half a mile of the Monument City of the future and altogether this enterprise which has reached assured success within the single month that its intentions were made public, promises to have a greater effect on the trade of Ontario than anything that has happened to Canada since the building of the Canadian Pacific Railway. Within three years there is no doubt that the Monument City will have a population of twenty or thirty thousand people.

Of Interest to Horsemen.

A Device to Prevent Interfering.

The Owen Sound *Times* thus refers to an invention which will be of interest and it is hoped of profit to owners and users of horses.

Inventive genius is alive in Owen Sound. For some time, Mr. W. H. Moore has been troubled with interfering horses and has at last hit upon a scheme to prevent this habit among his horse flesh, by inventing a shoe with the toe cork on an angle, which throws one foot of the horse from the other. Last week, Mr. Moore made application at Toronto for a patent for Canada and the U.S., and was told at the patent office that nothing of the kind had ever before been shown, and if the shoe was a success, there was a fortune in it for the inventor. There is no doubt of its success, Mr. Moore having used the shoe since last December with satisfactory results, both on his own and other horses.

A Spring Medicine.

There are few who do not at this season feel the need of a spring medicine, and to all such we recommend Lane's Family Medicine as the best. This is a pleasant herb drink made by pouring boiling water on the dried roots and herbs. Druggists sell the packages at 50c. and $1. It is the best as well as the pleasantest cure for constipation and headache. dw

The Royal Rheumatic Remedy, taken internally, acts directly at the foundation of the disease. At once relieves pain by removing the cause of disease. The cause removed, a cure is effected. For sale by W. R. Greatrex, druggist, Peterborough. dw

The well known strengthening properties of Iron, combined with other tonics and a most perfect nervine, are found in Carter's Iron Pills, which strengthen the nerves and body, and improve the blood and complexion. dw

The Morgan House

is now the headquarters of F. J. O'Brien, the hackman. Telephone orders promptly attended to. Good, well-broke team, elegant hack and courteous attendance.

—The owner of a bunch of keys, picked up on Brock street, can get them by applying at the police station.

DIED.

JOBE.—On Thursday, May 7th, 1891, at his late residence, 191 Charlotte street, William Jobe, sr., aged 70 years.

Funeral on Saturday afternoon at 3:30 from above address.

PICKLES.—In Peterborough, on Wednesday, 6th of May, 1891, George Pickles, aged 31 years.

King of Medicines

A Cure "Almost Miraculous."

"When I was 14 years of age I had a severe attack of rheumatism, and after I recovered had to go on crutches. A year later, scrofula, in the form of white swellings, appeared on various parts of my body, and for 11 years I was an invalid, being confined to my bed 6 years. In that time ten or eleven sores appeared and broke, causing me great pain and suffering. I feared I never should get well.

"Early in 1886 I went to Chicago to visit a sister, but was confined to my bed most of the time I was there. In July I read a book, 'A Day with a Circus,' in which were statements of cures by Hood's Sarsaparilla. I was so impressed with the success of this medicine that I decided to try it. To my great gratification the sores soon decreased, and I began to feel better and in a short time I was up and out of doors. I continued to take Hood's Sarsaparilla for about a year, when, having used six bottles, I had become so fully released from the disease that I went to work for the Flint & Walling Mfg. Co., and since then

HAVE NOT LOST A SINGLE DAY

on account of sickness. I believe the disease is expelled from my system, I always feel well, am in good spirits and have a good appetite. I am now 27 years of age and can walk as well as any one, except that one limb is a little shorter than the other, owing to the loss of bone, and the sores formerly on my right leg. To my friends my recovery seems almost miraculous, and I think Hood's Sarsaparilla is the king of medicines." WILLIAM A. LEHR, 9 N. Railroad St., Kendallville, Ind.

Hood's Sarsaparilla

Sold by all druggists; six for $5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

100 Doses One Dollar

Some women imagine that nothing will stand the peculiar breaking strain of their forms on corset "bones."

They don't know Kabo, which neither breaks or kinks.

If B. & C. corset boned with Kabo breaks or kinks in a year, go back to the store at which you bought your corset and get your money again, every cent of it.

If the corset doesn't suit you, after wearing a week or two or three, go back for your money.

There's a primer on Corsets for you at the store.

VOL. XII. NO. 108. PETERBOROUGH, FRIDAY, MAY 8, 1891. PRICE TWO CENTS.

CASH HARDWARE STORE.

On and after 1st April we shall do business on a **Cash Basis.**

To cover the inevitable losses attendant upon a credit business, which accrue from amount of time spent in keeping accounts, collecting, bad debts, interest account, and in numerous other ways, larger margins of profit must be asked.

In these times cash buyers ask, expect, and are entitled to close prices. A careful consideration of the subject convinces us that the time has come for a cash business done on smaller profits.

The only customers who may possibly be put to inconvenience are those who have had long credit. In more ways than one it will be to their advantage to pay cash.

For convenience of our old customers who consider their accounts due when presented, *we will call 30 days* cash and render all accounts the first of each month, and we wish to say that will be happy to do business with them on these terms.

As the new departure is something of an experiment, what would be considered a close cash price will be made all through the stock. Not a few leaders only, but a general reduction in everything from the fourth flat to the cellar.

Our idea is to perform more than promised rather than promise more than can be fulfilled.

Our stock is large and varied, consisting of **Builders', Contractors', Household, Mechanics', Painters', Shoemakers', Farm, Mill, Factory, Lumbermen's, Sporting, Threshers', Cabinet-makers', and other lines of Hardware.**

An old saying:—"You should go to Kingan's where you can get anything from a Needle to an Anchor."

IMPERIAL PARLIAMENT.

ENGLAND HAS ANOTHER LITTLE WAR ON HAND.

This Time it is the South African Boers Who Are Making the Trouble—Goschen Prefers Hard Cash Murder of a French Officer at Metz.

LONDON, May 7.—Governor Lidderdale of the Bank of England and his official associates were tendered a banquet last evening at the Mansion House, at which the leading financial magnates of the city were present as guests. Right Hon. George J. Goschen, Chancellor of the Exchequer, was the chief speaker. He eulogized the conduct of the managers of the bank during the recent crisis, and declared that the action of that troublous time and its safe survival was that the English gold reserve should be so increased as to obviate any chance of panic being caused by any sudden foreign demand for gold. It should not be necessary to borrow from the Bank of France even as a matter of over-abundant caution. Mr. Goschen preferred sovereigns to pound notes, unless by the introduction of the proposed notes some great national object could alone be obtained. Mr. Goschen gave an intimation that the Government would not interfere with the control of voluntary schools.

LONDON, May 7.—Replying to a question in the House of Commons to-day in regard to the reported Boer "trek" being prepared for the invasion of Mashonaland, Manicaland and other South African territory for the purpose of establishing the so-called "Republic of the North," Hon Edward Stanhope, Secretary of State for War, intimated that troops were being sent to British Bechuanaland to oppose the proposed Boer "trek." Recent advices are that 20,000 well-armed Boers propose to cross the Limpopo on June 1 and proclaim the Republic of the North. The leaders of the "trek" include men of position from both the Free State and Cape Colony, and all steps taken are said to have met with the approval of the famous Afrikander Bund, recently in session at Kimberley. The Boer movement is a South African movement in the direction of northward expansion, and is bound to conflict with the claims of the British Chartered Company, to say nothing of the claims of the Portuguese South African Co. One of the objects of the raid is said to be the replacement of the Chartered Company by a popular movement from the Imperial Government's control. There is a strong feeling against the company and against Imperial control in South Africa. The leaders of the "trek," however say little or nothing about the Chartered Company, claiming to base their proceedings upon concessions granted long before the Charter Company existed.

Another little war in South Africa seems to be threatened. It will require many more British troops than are now available in South Africa to cope with the 20,000 Boers, who are dead shots and capable of suffering the most severe hardships without complaint.

THE INFLUENZA SPREADING.

London Hospitals Averaging 100 Cases a Day Earl of Powis Dead.

LONDON, May 8.—Each of the large hospitals in London has an average of 100 cases of influenza. There are signs of a continued increase of the epidemic. Several more members of Parliament have been attacked. Six of the usual occupants of the Treasury bench were absent to-day.

Prince Christian and Count Hatzfeldt, the German ambassador, were unable to attend a dinner given this evening.

The Duchess of Marlborough, Justice Romer and a host of public officials are among those affected.

The Earl of Powis died to-night. The cause of death has not been reported.

Zetland Visits the People.

DUBLIN, May 6.—The Earl of Zetland, Viceroy of Ireland, is making a tour of a portion of the district affected by the shortage of a potato crop last year. He is everywhere well received by the people. At Skibbereen and Baltimore he was warmly cheered by the men on the relief railways. He visited the various institutions and received the thanks of the people for his efforts in the raising of funds for their benefit.

A French Officer Murdered.

METZ, May 7.—A sensation has been caused in the garrison here by the discovery that Col. Pleyer has been murdered. The body of the officer was found this morning at his residence. His head had been smashed in with a hammer, which was found in the room covered with blood. The officer's throat had also been severely gashed with a knife or razor. The military and police authorities believe robbery was the motive of the crime. There is no clue to the murderer.

Expelled From St. Petersburg.

ST. PETERSBURG, May 7.—The author Mikhaelovsky has been expelled from the city for acting as master of ceremonies at the funeral of Shelgounoff, the political economist, on Saturday last, on which occasion the students of the University marched through the main thoroughfares in defiance of the orders of the police.

Further Arrests of Anarchists

ROME, May 7.—Additional arrests have been made of Anarchists concerned in the May-day riot here. The persons arrested to-day had in their possession a pamphlet issued by Malatesta, an Italian refugee in London, explaining the manufacture and use of bombs.

The Dreibund Renewed

LONDON, May 7.—The Berlin correspondent of The Daily Telegraph says the Marquis di Rudini, the Italian Premier, has signed a treaty renewing the Dreibund for 5 years.

Died in Its Mother's Arms

GRAND VALLEY, Ont., May 7.—Mr. Gordon, who has bought north quarter lot 25, concession 1, East Luther, left Belwood with his family Tuesday. All went well until they came within a mile of their new home, when a child of four months commenced to cry and continued crying for a few minutes and then stopped, and when they reached their house and uncovered the wraps the child was found to be dead.

A Black Otter.

BOWMANVILLE, May 7.—Quite a curiosity was exhibited in town this morning by Mr. William Osborne, farmer, lake shore, in the shape of a large black otter.

FOOLED UNCLE SAM.

CHILIAN VESSELS GET SUPPLIES AT SAN FRANCISCO.

One Carries Off a U.S.A. Deputy Marshal—The Attempt to Capture the Robert and Minnie Fails—The Chilians Too Smart for the Americans.

SAN DIEGO, Cal., May 6.—Last night United States Marshal Gard seized the Chilian steamer Etata, now receiving supplies in the harbor, and placed Captain Manzum under arrest. Telegrams have been passing between this city and the Department at Washington which brought about the above results. Tug-boats have left to seize two vessels seen outside, one of which is supposed to be the schooner Robert and Minnie, and the other a warship belonging to the Chilian insurgents, which have been hovering around the entrance of the harbor to receive the supplies taken on board the Etata. The warship was first sighted about noon yesterday passing north. Ten hours later she repassed the harbor, going south, laying in just north of Coronado Islands. Customs Officer Berry sent a party out to investigate, who reported seeing a large vessel under steam, which they could not approach nearer than two miles on account of her steaming away from them. Orders were received from Secretary Blaine to seize both vessels if found within the three-mile limit, and Marshal Gard and Collector Berry went out last night in different tugs for that purpose. At midnight the Etata received 40 head of cattle, 47 head of sheep and 3000 pounds of dressed meat from the ferry-boat Coronado. The vessel has also received other stores, including 800 tons of coal. As soon as all the provisions and fuel were on board she expected to leave the harbor and cruise between here and Catalina to meet the schoonor Robert and Minnie, from which she was to take the Remington rifles and ammunition and then sail for Chili.

SAN DIEGO, Cal., May 6.—About 5:30 last evening the Chilian steamer Etata quietly steamed out into the ocean, carrying with her U.S. Deputy-Marshal Spencer. Marshal Gard was not aware that the captain had any intention of disregarding his authority, for he left for Point Loma just one hour ahead of the big steamer and had proceeded some distance out to sea before he could have been aware that the Etata was following him. Marshal Gard's errand on his second trip was to take the schooner Robert and Minnie anywhere she might be found in the open seas, outside of Mexican jurisdiction, as a piratical craft. The run shall's launch left the wharf at 4 o'clock. Besides Marshal Gard there were aboard A. C. Spaulding of San Francisco, A. M. Conoughly, Capt. Crawford and four soldiers from the barracks armed with rifles and ammunition, who had been detailed to go on the expedition at the request of Marshal Gard. It is known that the Marshal received instructions from Washington that he had authority to take the Robert and Minnie on the high seas under the neutrality and piracy laws. At 4 o'clock Wednesday morning Marshal Gard and party left for Coronado Island, where the Robert and Minnie were last seen on Tuesday. Just outside a sail appeared, which the tug made for. As soon as her master saw the Tiaguana he put about and ran south in order, it was supposed, to get into Mexican waters before he was overhauled. The meeting place of the schooner and tug was two and a half miles south of the international line—about 15 miles southwest of Point Loma. The tug passed to windward of the Robert and Minnie, and those on board had a good chance to observe her closely. On her stern were the words Robert and Minnie, San Francisco. The schooner was so heavily laden that she made but slow progress. There were but four of her crew visible, and these watched the movements of the tug anxiously through a glass from their position on the poop. The schooner being in Mexican waters Marshal Gard returned to port to telegraph for instructions. There has at no time been any real doubt in the minds of those best informed that the ammunition which the Robert and Minnie carried was intended for the Chilian transport, and that it would be transferred to the hold of the Etata for use of the insurgents as soon as a big steamer obtained what supplies she needed. It is definitely known that communications have passed between Captain Farrall of the schooner and Captain Manzum of the Etata. The Chilians laid their plans well and they carried out to the letter regardless of the interference of the U. S. authorities. Just after midnight the Thursday morning Marshal Gard and party returned from outside and reported that the Robert and Minnie had completely disappeared. The Deputy-Marshal who had been placed in a small boat at the entrance to the harbor to watch for developments, reported that when the Etata started out Pilot Dill was sandwiched between two armed Chilians, while four cannon guarded both bow and stern. He reports that at least 85 Chilians were drawn up in line on the decks, showing that while the vessel was in port she was plentifully supplied with men, arms and ammunition. While here she displayed only one small cannon and a crew of about 60 men. The deputy reports that when the vessel left the harbor she turned north and steamed toward San Clemente.

Cut from Across the Sea.

The report of a revolution in Costa Rica is confirmed.

A French torpedo boat was sunk in a collision with a cruiser off Cherbourg.

Eighty-five dollars were paid for a pound of tea at an auction held in London yesterday.

Calcutta advices state that the authorities are much vexed by the claim of China to suzerainty over Burmah.

The Mayor of Sheffield has opened a fund for the purpose of procuring medicine for poor la grippe patients.

Mrs. James Brown Potter and Mr. Kyrle Bellew are said to have brought back $100,000 from Australia and India.

Owing to a fog enveloping Cork harbor the Germanic proceeded to Liverpool yesterday without calling at Queenstown.

Premier Rudini asked the Italian House yesterday to endorse the African policy of the Government, which was agreed to, 196 to 38.

William H. Smith, First Lord of the Treasury, must submit to a re-election on account of his appointment as warden of the Cinque Ports.

It is reported that Prince William, the son of the Grand Duke of Luxemburg, will soon announce his betrothal to the Princess Margaret of Prussia, sister of the German Emperor.

HER LOVER PROVED FALSE

A SIMCOE YOUNG WOMAN ASKS $25,000 DAMAGES.

A Man of 50, Who Had Buried Four Wives, Failed to Carry Out His Promises and Is Now Asked to Shell Out—A Racy Case from Buffalo.

BUFFALO, May 7.—Nellie B. Livingston, a pretty Canadian about 20 years old, is suing Frank W. Knox, a prominent Pennsylvania lawyer, for $25,000 damages for not keeping his word which, as she alleges, he promised to make her Mrs. Knox. Briefly told, the plaintiff's story begins with the following advertisement, which appeared in a Buffalo paper:

WANTED—SITUATION BY A YOUNG CANADIAN lady as companion to a lady (must be); will assist in housekeeping. Address M. L., Simcoe, Ont.

This advertisement came into Mr. Knox's hands and he opened correspondence with the lady. He wanted a musical companion, but she must become his wife. The preliminary correspondence ended in a meeting at the Tifft House, and this meeting with him two days resulted in an engagement, the lady to be the companion for life of Mr. Knox, who gravely acknowledges 69 years as having passed over his head and his sad deprivation, by inscrutable Providence of four wives. The case opened in the Supreme Court this afternoon before Judge Childs and a jury. Miss Livingston told her story. Her brother she said, was a judge in Canada. The correspondence between her and Knox was read and then came the details of her meeting with Knox. Miss Livingston was the first to reach the trysting place, the well-known hotel, the Tifft House, in company with her brother-in-law. The spooer's train was belated, and presently arrived and he appeared on the scene. He rushed in and greeted the lady and then promenically enough went to dinner. "Then," said Miss Livingston, "what he got through he came and pressed both my hands and said he liked me. He spoke of my hands, my figure, my hair, my face and said anyone could see I had been brought up a lady. He at once said: 'Let us make this a business matter.' I did not like that idea." "What took place then?" "He then began to talk of making preparations for our marriage. He said harmony was complete, we were both Scotch, both Presbyterians, and he said I suited him every way. He told me of his home and said he kept three horses and two gardeners at his house in Pennsylvania. He spoke of recarpeting the house and wanted me to help him. He asked me what kind of engagement ring I wanted and told me of his idea of visiting the seashore and various popular resorts, and gave me to understand he was a rich man and that after marriage all he wanted me to do was to sew on his buttons. He wanted to get married right away, but I told him I wanted some time to think over it. He visited me next day at a friend's house where I was stopping and I went to the theatre with him and to the cyclorama. His talk was almost entirely on the subject of our marriage. He wanted to buy my trousseau, but this I would not allow. I asked him to defer the wedding a few months and he wouldn't hear of it. He said his heart was in the marriage and he could not wait. He drew me on his knee and said he couldn't stand disappointment. He took an envelope from his pocket and said there was $130 for me to begin to buy things with. I said to him: 'Mr. Knox, you've taken your first mortgage on me.' He said: 'I'm going to make an American of you.' I took the money and put it in my pocket. He asked if he had any rival in my affections and I told him he had, but did not pursue the subject. He took me on his knee and kissed me and said matters should be arranged as I wished." Miss Livingston reluctantly acknowledged that at this time she was engaged to be married to another person, but the match had since been broken off.

THE CRIME OF A LOVER.

Scorned by the Woman for Whom He Had an Infatuation He Attempts to Kill Her.

COBOURG, May 7.—Andrew McGuire was placed on trial to-day on a charge of having attempted to murder his former sweetheart, Miss Tucker, by throwing her under the wheels of a Grand Trunk freight train. It appears McGuire had pestered Miss Margaret Tucker with his attentions and had repeatedly threatened her. On the night in question she was walking along the station platform with an escort, and according to the evidence of Prof. Reylar of Victoria College and other witnesses, McGuire, his eyes blazing with insane jealousy, ran up to her and deliberately pushed her in front of an incoming train. Her escape from death was almost miraculous, her life being only saved by the promptness of the engineer. Prisoner's counsel attempted to prove that the occurrence was purely accidental—that McGuire had unintentionally run against the girl. The jury, however, found him guilty of the offence as charged. It was shown that McGuire had some time ago grievously wounded and attempted to kill John Tucker, the father of the young lady, and had also attacked Turnkey John Higgins while in jail. On this latter charge he was sentenced to five years' incarceration in the penitentiary, and while there attempted to escape by concealing himself in a load of manure, but was discovered. Sentence was reserved by Judge Rose to-day, but it is generally thought McGuire, who is 23 years of age, will spend the balance of his life in jail.

HIS WIFE SAW HIM DIE.

His Wife's Shrieks the Last Sounds Heard by an Indian Murderer.

WAGONER, I.T., May 7.—Fred and George Duncans, full-blood Cherokee Indians, 21 and 24 years of age, respectively, were hanged at Tahlequah, the capital of the Cherokee Nation, within the walls of the National Penitentiary. Some 600 people witnessed the execution, either within the yard or from the fences, treetops and house-tops in the vicinity.

The prisoners were marched to the scaffold dressed each in a blue cassimere suit, with bouquets of flowers in the lapels of their coats. Their woman relatives bade them good-by in the penitentiary just before they were brought out, and amid the shrieks of the young wife, who saw the execution from the window of the penitentiary, and the wails of the mother and other relatives, they mounted the scaffold and were hanged.

Heart, Hands, Feet to Native Land.

PERU, Ind., May 7.—Mrs. Clairie Taylor of this city started to-day for France with the heart, hands and feet of her mother, who died here some time ago and requested that these parts be removed, preserved and taken to her native country for interment.

The ill-Treated Huns.

VIENNA, May 6.—In the Reichsrath to-day Herr Masaryk gave notice that he would interpellate the Government as to whether it was aware that subjects of Austria-Hungary in the State of Virginia, U.S., were treated as slaves, and if so what measures would the Government take to obtain redress for such treatment of Austro-Hungarian subjects?

NOTE—The interpellation probably refers to the alleged terrible ill-treatment some time ago of 75 Bohemians lured in New York city and taken to Virginia to work on the extension of the Norfolk and Western Railway.

Schaefer Wins Easily.

CHICAGO, May 6.—The challenge game of billiards between Jacob Schaefer, the world's champion, and Eugene Carter here to-night was easily won by Schaefer. Score: Schaefer 800, Carter 481; Carter's best run 111, Schaefer's highest 104.

The New York Athletic Club is anxious to have Hanlan train their oarsmen and scullers and yesterday the Torontonian received a letter asking for his terms. Ned does not desire a position as trainer and will write the Gotham institution to that effect.

Children Cry for Pitcher's Castoria.

FURTHER REVOLUTIONS.

Hondurans Take Possession of the Island of Governador on Fonseca Bay.

LA LIBERTAD, Salvador, May 7.—Advices from Honduras state that at 3 o'clock yesterday morning a force under the command of Col. Molina and Gen. Bardales, both of which officers were leading rebels, attacked the Cuartel at Amapala. The guard there was taken by surprise and the rebels were soon in possession of the Cuartel. Six hundred and thirty Government troops under Col. Barrera made a movement against the Cuartel. Severe fighting followed, but at noon the Government troops drove the rebels from the Cuartel, inflicting great loss upon them. Among the killed was Gen. Bardales, one of the rebel leaders.

Amapala is situated upon the island of that name and the rebels were driven to the mainland. Col. Barrera has 300 infantry and 40 cavalry guarding the island. The rebels are besieging the place and evidently intend to make another attack as soon as reinforcements, which are expected, arrive.

Tried to Kill the President.

VALPARAISO, May 7.—Much excitement was caused here to-day by an attempt to assassinate the leading members of the Cabinet. The persons engaged in the plot threw a bomb at the intended victims in the street.

The Costa Rica Conspiracy.

SAN JUAN DEL SUR, Nicaragua, May 7.—From official sources it is learned that on April 30 a conspiracy was discovered in San Jose, Costa Rica, to overthrow President Rodriguez. The Government received permission from the permanent council to suspend the constitution and the conspirators were captured. Everything is now quiet. From other sources it is learned that the revolutionists attacked the barracks in San Jose, but were repulsed, five being killed.

TORONTO TOPICS.

TORONTO, May 8.—J. B. Henderson, one of the shareholders of the defunct Central Bank, has begun an action against six of the directors to recover about $30,000, the amount of his double liability as a shareholder. If judgment is given for the plaintiff the other shareholders will also step in to recover their losses.

A complimentary dinner was tendered to Dr. Oronhyatekha, M.D., Supreme Chief Ranger I.O.F., last evening at the Rossin.

The Central Methodist Church was crowded at 8 last night, when Mr. Robert H. Ramsay and Miss Mabel May Gooderham joined hands in marriage. The groom is of the firm of R. H. Ramsay & Son, wholesale commission merchants, and the bride is second daughter of Mr. C. H. Gooderham of Gooderham & Worts.

The contracts for most of the remaining work of the new Parliament buildings have been signed and work will be commenced on them forthwith. The successful contractors were: For lathing and plastering A. H. Rundle, Toronto, $37,770; steam heating and ventilating, Purdy, Mansell & Mashinter, Toronto, $35,400; plumbing and gasfitting Purdy, Mansell & Mashinter, $21,400. The tenders for copper work, etc., in connection with the roofing were considered too high, and it was decided to call for tenders again for that work.

The annual meeting of the Methodist Board of Regents was closed last night after a three days' important session. Matters of import, both spiritual and temporal, were fully considered. Reports from Chancellor Burwash, George A. Cox and Rev. Dr. Potts, Secretary of Education, were received, discussed and adopted by the board. A committee was appointed to attend to the ceremony of laying the corner stone of the new Victoria College in Queen's Park, which will take place on Tuesday, June 16. These, however, were merely matters of formal business.

The orthodoxy of Dr. Workman of Cobourg has been brought into question and many have been the arguments for and against his position towards the accepted doctrine of the Methodist Church. The members of the Board of Regents were not particularly anxious that the public should be acquainted with the nature of his discussion. But it was the most interesting part of the business transacted by the board, nevertheless. Dr. Workman's lecture on "Messianic Prophecy" was considered yesterday. After a discussion lasting nearly three hours the board passed this resolution:

"That it is the decision of this board that under existing circumstances Brother Workman be transferred from the faculty of theology to the faculty of arts."

In other words Brother Workman becomes a member of the temporal in place of the spiritual faculty, and this is significant.

The 14th annual closing exercises of Wycliffe College took place yesterday afternoon.

Those who won prizes in the recent examinations were then presented with the. The list is:

Homiletics—Wilson Prize, G. S. Sinclair.
Practical Christian Work—Good Prize, C. C. Sadleir. Junior Prize, R. P. McKim.
Reformation Work—Hoyles Prize, Rev. G. A. Kuhring.
English Bible—Willard Prizes, R. P. McKim, H. C. Aylwin.
Dogmatics—Wyld Prize, J. W. J. Andrew: Junior Prize, C. A. Sadleir.
History—Growski Prize, G. S. Sinclair.
Apologetics Blake Prize, C. S. Smith, B.A.

The graduates are: J. A. J. Andrew, W. McCaun, B.A., F. M. Holmes, G. A. Kuhring.

Crazed by Cigarets.

CHICAGO, May 7.—Charles Marston, son of Thomas Marston, jr., of this city, is reported to be almost hopelessly insane at Oconomowoc, Wis., the result of cigaret smoking. He was one of a party of 300 globe trotters, and became violently insane when two days out from Yokohama on the steamer en route to Vancouver, B.C. When the party arrived at Winnipeg, Man., on April 30, Marston's condition was pitiful. He was met there by his parents and brother and taken to his present retreat, where, it is hoped, the quiet scenes may restore him to mental soundness.

Dropped Dead in His Office.

HAMILTON, May 7.—Shortly after 1 o'clock this afternoon Charles H. Hills, lantist, who had an office over the store at the corner of John and King-streets, died very suddenly. At 1.10 o'clock he returned with his wife from dinner and was about to start work when he was taken ill and commenced spitting blood. Mrs. Hills hurried for a doctor. When she returned her husband was lying dead on the floor, having fallen off the chair.

This Explosion Cost Four Lives.

CLARKSBURG, W. Va., May 7.—An explosion occurred at 7 o'clock this morning in Ocean Mine, 7 miles from here. Four miners were killed and several badly injured. The fire which followed the explosion is still burning.

A well-Known Banker Killed.

BERLIN, May 7.—Herr H. Schnitzer, a well-known banker of this city, was thrown from his horse while riding in the Unter den Linden to-day and falling beneath the wheels of a passing carriage suffered injuries from the effects of which he died shortly after.

Failed For $100,000.

LONDON, May 7.—The firm in the China trade which has failed with liabilities of £20,000 is Adamson, Bell & Co.

Baptized in a Coffin.

SPRINGFIELD, Ohio, May 7.—Mrs. Lee Madison of this city is dying of consumption. She became convinced that it was necessary to her soul's salvation that she should be baptized. She sent for Elder Green to perform the sacrament, and he baptized her in a metallic coffin.

The Best Result.

Every ingredient employed in producing Hood's Sarsaparilla is carefully pure, and in the best of its kind it is possible to buy. All the roots and herbs are carefully selected, personally examined, and only the best retained. So that from the time of purchase until Hood's Sarsaparilla is prepared, everything is carefully watched with a view to obtaining the best result. Why don't you try it?

J. C. Turnbull.

—AT—

TURNBULL'S

They are constantly opening out new goods. To-day we are showing a large lot of Wool and Union Carpets just turned out of the loom, all new patterns. House keepers will do well to remember us; 36 in. Union Carpet at 35c, the old price was 50c. Heavier grades at 45c, 50c, and 60c. The all-wools range from 75c up to $1.00.

Lace Curtains, Cream and White ranging in price from 60c. a pair up to $5.00. Curtains were never so cheap and handsome as they are this season. You will be surprised to see what we can give you at $1.25 a pair.

Art Muslins in single and double widths at 10c up to 20c a yard.

Double Fold Reversible Cretonnes for portieres, at 75c a yard.

Floor Oil Cloths, 36 in. wide at 30, 40, 50c. a yard.

Floor Oil Cloths, 72 in. wide at 60 and 75c. a yard.

In our Mantle Department we show a choice range of Wool Mantle Cloths, Plain and Brocaded suitable for elderly Ladies' Wraps.

Also handsome Laces for trimmings.

Our Pne-de-Soie Silk we warrant not to cut. Price $1.25 and $1.50 a yd.

We show Jet Capes and Visites from $2 to $5, either all jet or jet and lace, also some very handsome ones for mourning. We have such quantities we can suit any size or style of make.

All-over Jet Lace at the surprising low figure of 75c.

Fish Nets at 60c.; we believe you will pay twice these figures elsewhere for these goods.

Quantities of Millinery to select from, pretty as a picture.

SUN LIFE
ASSURANCE COMPANY OF CANADA.

The attention of our Policy-Holders is directed to the following summary of the leading items of the present report, which speaks for itself as to the progress and prosperity of the Company:—

Life Assurances in force, 1st January, 1891	$16,759,355 92
Increase over previous year	3,421,372 84
New Applications received in 1890	6,371,599 15
Increase over 1889	2,248,588 60
Cash income for year ending 31st December, 1890	859,678 87
Increase over 1889	325,938 35
Assets at 31st December, 1890	2,473,514 19
Increase over 1889	687,691 47
Reserve for Security for Policy-Holders	2,109,222 68
Increase over 1889	567,732 71
Surplus over all Liabilities and Capital Stock	232,175 69
Increase over 1889	75,649 05
Death claims fallen in during 1890	143,961 65

The progress made by the SUN LIFE during 1890 was remarkable. The new business was the largest in the Company's history, and was equalled by but one other Canadian Life Company. The income for the year exceeds $2,000 for each day in the year, Sundays included. The Assets are large and rapidly increasing. They are, moreover, of the highest character, yielding an average interest of 6.04 per cent. The overdue interest is small, and the Real Estate owned under foreclosure is only four per cent. of the amount of mortgages. This is a remarkable showing. The SURPLUS accumulated during the FOUR years of the current quinquennium is nearly THREE TIMES as much as the amount earned during any previous FIVE years, and the profits to Policy-holders cannot fail thus to be highly satisfactory. The following are the figures:—

Net Surplus, 31st Dec.,	1881, (five years)	$64,824 07
" " "	1886, "	89,452 97
" " "	1890, (four years)	232,175 69

ROBERT FAIR

A MARVELOUS OFFERING
—IN—
DRESS SILKS

Perhaps the greatest bargain ever offered in this city for many a day in Colored Dress Silks is now on sale at the "Golden Lion." This wonderful line consists of eight different shades and is twenty-six inches in width. It was manufactured by a reliable maker and is guaranteed absolutely pure.

The colorings comprise Venux Rose, Chocolate, Nile, Mordore, Myrtle, Purple, China Blue and Beige.

If imported in the regular way the price would be $1 25, and we are offering it at the extreme low price of

60c. Per Yard

We strongly urge an early inspection of this rare assortment.

CAPT. DION,
a30-w13 Proprietor.

THE LITTLE WINDSOR
ON BROCK STREET, has been refitted and now stables and sheds built. It has excellent accommodation for the travelling public and for lodgers, and everything is sold low for their support. Charges moderate. WM. CARDWELL, Proprietor. 4365

O. C. Rowse.

YOU SAY

That in your opinion Peterborough is the place to buy your goods, and that is if goods are cheap. You really now get clothing cheap in this city. The improvements have created a demand for timber and Dress Trimmings are very cheap this season, and you can get the goods that are in great demand at the New Store, all to match their new goods. Now these are the kind of goods that are going with a rush:

Only 12c (Cream Challies with Black Figures, Cream Challies with Electric Figures, Cream Challies with Peacock Figures)

Only 12c (American Fabrics, Fast Colours, English Prints, Fast Colours, Spot Muslins, White Lawns)

Rowse's Delaines are moving off rapidly. Rowse's Sateens are going very fast. Just opened up our third shipment of Parasols. All new and fresh, and decidedly cheap

NASAL BALM

NEVER FAILS

It is a certain and speedy cure for Cold in the Head and Catarrh in all its stages.

SOOTHING, CLEANSING, HEALING.

Instant Relief, Permanent Cure, Failure Impossible.

Many so-called diseases are simply symptoms of Catarrh, such as headache, dizziness, loss of smell, foul breath, hawking, and spitting, hearing, general feeling of debility, etc. If you are troubled with any of these or kindred symptoms, you have Catarrh, and should lose no time in procuring a bottle of Nasal Balm. Be warned in time, neglected Catarrh leads to bronchitis, consumption and death. Nasal Balm is sold by all druggists, or will be sent, post paid, on receipt of price (50 cents and $1.00) by addressing

FULFORD & CO., Brockville, Ont.

CURES COLD IN HEAD AND CATARRH

The Daily Examiner is delivered to any part of the Town for 10c. a week, 35c. a month, $1.00 for six months.

Daily Examiner.

FRIDAY, MAY 8, 1891.

It is a somewhat singular coincidence, remarks the Brantford *Expositor*, that Sir Henry Parkes, the G.O.M. of Australia, and Sir John Macdonald, the "G.O.M." of Canada, were born in the same year—1815 Sir John first entered an administration in 1847, but Sir Henry did not achieve that honor until 1856. Both men have rendered important services in the advancement and consolidation of British colonial interests, but while the federation of the Canadian Provinces was brought about in 1867, it has taken nearly a quarter of a century longer to bring about a similar result in Australia. Like his prototype, Sir John Macdonald, Sir Henry Parkes stands an excellent chance of being the first premier of the federated government.

The President of the Prohibition party in the Maritime Provinces, which was organized about a year ago at Moncton, N.B., is making an appeal for funds with which to complete preparations for the next political campaign. He says:—"The Government of the Dominion to-day is in power by the vote of the Maritime Provinces, thus placing us in a pivotal position; and with appointments like that recently made to the Senate of the Dominion and elsewhere alluded to, it is our bounden duty to organize every county. Let the fiat go forth that henceforth political parties are never to rest until the liquor traffic is suppressed in Canada. Whether men believe in a prohibition party or not, nearly every one believes that we will be the means of forcing some party to take hold of the question."

Once more the ministerialists are threatening the manufacturers with an abandonment of the protective policy. The Montreal *Gazette* says that if Mr. Blaine offers Canada unrestricted reciprocity, or "free trade between the two countries coincident with the retention by Canada of absolute control of the tariff, the matter will be well worth study and consideration, since an arrangement of this kind has many positive advantages for us." In other words, says the Ottawa *Free Press*, if Mr. Blaine says that he will accept nothing short of the Liberal policy of unrestricted reciprocity of trade between the two countries, the Tories will accept his proposal, although Sir John Macdonald insists that unrestricted reciprocity means annexation, the ruin of our farmers and manufacturers, and other dreadful calamities. It is evident that nothing but the power of the combinestors prevents the Tory leaders from abandoning the high tariff policy. The Ontario Tories are against free trade with the United States on any terms, and the monopolists insist that such a policy would close all the factories in the country, yet the *Gazette* says that unrestricted reciprocity will be accepted by its party if nothing else can be obtained.

The desirability of the Senate continuing to act as a court for divorce cases has been raised by the refusal of certain right-minded Senators to act upon the Committee that actually hears and deals with the cases, and the declarations of other Senators of their determination to have this function of law transferred to a regularly constituted court of law. We are not, says the Montreal *Witness*, in sympathy with any designs to make divorce-getting easy. That poor people cannot obtain divorces as easily as rich people is, we consider, rather an advantage to the former. Divorces should only be granted for one cause, and the rule of the Roman Catholic Church is certainly the Christian one, that divorcees should not be allowed to marry again. If divorces are to be granted they should only be granted on the clearest possible evidence, and the cost should not be made great in order to fine those who resort to the court, as the only result of that is to debar the poor from taking advantage of a law which is open to the rich. That the Senate should be relieved of the work is certain. There is a good deal of scandal, as every parliamentary correspondent knows, in connection with the hearing of such cases by certain senators. The court should be public and open courts, but that is not not saying that they should be allowed to become places of rest for the idle, curious or prurient of any class, high or low, rich or poor. The general public is the last authority in this as in all other matters, however, so far as human control goes, and upon its good taste will depend largely the decency of all public trials.

Another Coal Mine Canard.

A Kaladar Crank Runs Amuck Amongst the Geologists—Crying Coal When There is No Coal.

The Belleville *Ontario* of Friday says:—"An old man, bent with age, and supporting himself by a stick, walked into town to-day with a red handkerchief filled with a bulky material. His name is John Rutledge, and if the old man's story is correct he has discovered one of the richest coal fields in America. He hails from Kaladar township, near Bridgewater, in the county of Addington, and has spent the most of his life in prospecting in the northern mining regions. Last fall, in company with a neighbour named Thos. Whalen, he discovered signs of coal in Kaladar and put in a blast. About a foot and a half underground they discovered a vein of coal twenty feet wide and becoming larger as it penetrated downward. The miners covered up their find and at once purchased four hundred acres of the land from the government at one dollar an acre. They have sent specimens to different points and specialists state that it is the finest coal ever unearthed. Mr. Rutledge took a quantity to Tweed and several blacksmiths in that village who have used the coal say it answers every purpose and will continue to use it. In the handkerchief Mr. Rutledge had samples of the coal which he gave to different parties in Belleville interested in mining. Carl Strom to-day tested the samples with a blower and pronounces it good coal. Geo. Ball and Ald. Walbridge have interviewed Mr. Rutledge and may make an offer for the land as it stands. A reporter of the *Ontario* hunted the man up this afternoon. He stated that he has no doubt that there are unlimited quantities of coal in the region and other valuable minerals which the world has not yet heard of. He also exhibited specimens of good mica, asbestos and copper which he took out of the ground in Kaladar. Several prospectors in Ballev lle will visit the mine and it is likely that it will change hands in a few days."

[It would be a good thing if coal were discovered anywhere in Ontario. But the geologists tell us that we have no coal in this part of Ontario, and in this nineteenth century when scientists have the floor *par excellence*, we would rather "bank" on the *ipse dixit* of a geologist than invest money in the rocky regions of Kaladar on the strength of the wily gentleman's handkerchief full of salted coal, designed to sell a few rocky acres not worth, except for the other minerals they may contain, ten cents an acre. Belleville capitalists who would invest in mining lands in Kaladar, would be credulous enough to believe in spooks, or carry a horse-chestnut to cure rheumatism.—ED. EXAMINER.]

DROWNED HERSELF IN A WELL.

Supposed Suicide of a Bowmanville Young Woman in Feeble Health.

BOWMANVILLE, May 7.—Miss Jane McClung, who resided at the home of her brother William in this town, had been in feeble health for some time and had been sitting with the family as usual during the evening. Being missed from the room for a time, about 9 o'clock, it was thought she had retired to bed, but on looking in her room and not finding her a search around the premises was instituted. No trace of the missing one could be obtained for some time, until one of the family probed into an open-up cistern which stood in rear of the dwelling, and there the lifeless body was discovered.

POISONED BY THE BITE OF A CAT.

Mr. Smith Sat on the Family Tabby With Perhaps Fatal Results.

TEN MILE RUN, N.J., May 7.—James Smith, a wealthy resident of this town, lies at the point of death from the effect of the bite of a cat. Mr. Smith sat down on a chair on which there was a newspaper three weeks ago. Beneath the newspaper was the family cat. As his weight descended on the animal she seized his right hand with her teeth and inflicted a deep wound, from which the blood flowed freely.

Mr. Smith thought little of the incident at the time, but last week the hand and arm became greatly swollen and very painful.

Dr. Moser of Griggstown was called in and pronounced it a case of blood-poisoning resulting from the cat's bite. Remedies were administered, but without effect, and the patient is in a dying condition. Mr. Smith is about 50 years old, has a wife and two daughters and is the owner of considerable farming land in this vicinity.

A Cure for Constipation and Headache.

Dr. Silas Lane while in the Rocky Mountains, discovered a root that when combined with other herbs, makes an easy and certain cure for constipation. It is in the form of dry roots and herbs, and is known as Lane's Family Medicine. It will cure sick headache, and is the best spring medicine. For the blood, liver and kidneys, and for clearing up the complexion it does wonders. *Druggists* sell it at 50c. and $1 a package. dw

A True Bill.

Wm. Gillespie, Wolfe Island, Ont., says: I had indigestion and stomach cough for three years. Was treated by best physicians and used numerous patent medicines without success, when two bottles of Miller's Emulsion of Cod Liver Oil cured me. I have great pleasure in recommending it. For sale by all druggists. dw

Why Not Treat.

Why not treat such troubles as boils, pimples, blotches, sores, humors, eruptions, rashes, skin irritations, etc., with Burdock Blood Bitters. It is filled with virtue as a blood purifier and goes right to the right spot. It makes the skin bright and clear, while also invigorating the entire system. 1w18 d

Suppose.

Suppose you suffer from some disease. Suppose it is dyspepsia or billousness or constipation or bad blood. Suppose you learn that Burdock Blood Bitters has cured thousands of cases of these and similar complaints. Don't you suppose you ought to try? It cannot harm you and in nine cases out of ten it cures. 1w18 i

Spring Cleaning.

Be particular every spring to clean the house, but never mind cleansing the blood until some troublesom disease takes hold of you. This is poor policy when by using Burdock Blood Bitters the blood will be thoroughly cleansed, the body strengthened, and future suffering prevented. 1w18 i

Once Used, Always Used.

This is a fact as regards Dyer's Jelly of Cucumber and Roses, from its wonderful efficiency in curing chapped hands, and making the skin smooth and soft. Druggists keep it. W. A. Dyer & Co., Montreal 6392

May offers specially favourable circumstances for driving catarrh out of the system, and every sufferer from this loathsome disease should use Nasal Balm for that purpose. It cures when all other remedies fail, if the directions are faithfully adhered to. A single bottle will convince you of its merit. Sold by all dealers. 6)103w

Will positively cure sick headache and prevent its return. Carter's Little Liver Pills. This is not talk, but truth. One pill a dose. See advertisement. Small pill. Small dose. Small price. dw

In the first stage of consumption Miller's Emulsion will certainly cure. For sale at all drug stores. dw

FOR NETTLE RASH, Summer Heat and general toilet purposes, use Low's Sulphur Soap. dw

The Safest

AND most powerful alterative is Ayer's Sarsaparilla. Young and old are alike benefited by its use. For the eruptive diseases peculiar to children nothing else is so effective as this medicine, while its agreeable flavor makes it easy to administer.

"My little boy had large scrofulous ulcers on his neck and throat from which he suffered terribly. Two physicians attended him, but he grew continually worse under their care, and everybody expected he would die. I had heard of the remarkable cures effected by Ayer's Sarsaparilla, and decided to have my boy try it. Shortly after he began to take this medicine, the ulcers commenced healing, and, after using several bottles, he was entirely cured. He is now as healthy and strong as any boy of his age."—William F. Dougherty, Hampton, Va.

"In May last, my youngest child, fourteen months old, began to have sores gather on its head and body. We applied various simple remedies without avail. The sores increased in number and discharged copiously. A physician was called, but the sores continued to multiply until in a few months they nearly covered the child's head and body. At last we began the use of Ayer's Sarsaparilla. In a few days a marked change for the better was manifest. The sores assumed a more healthy condition, the discharges were gradually diminished, and finally ceased altogether. The child is livelier, its skin is fresher, and its appetite better than we have observed for months."—Frank M. Griffin, Long Point, Texas.

"The formula of Ayer's Sarsaparilla presents, for chronic diseases of almost every kind, the best remedy known to the medical world."—D. M. Wilson, M. D., Wigge, Arkansas.

Ayer's Sarsaparilla,

PREPARED BY

Dr. J. C. Ayer & Co., Lowell, Mass.

Price $1; six bottles, $5. Worth $5 a bottle.

Children Cry for Pitcher's Castoria.

BUILDERS, SPECULATORS, HOME-SEEKERS.

I want to call your attention to three most desirable Blocks of vacant land in the centre of the town—choice localities and the safest of safe property to buy. Three minutes walk from Post Office. There is none other available Property in town equal to the above, and should command prompt attention. Call for particulars. Should you prefer buying a cheaper class of Property, I can suit you in any part of the town or Ashburnham. Lots from $50 up. Houses at all prices and on easy terms. Sharp speculators seeing the future prospects of our town, are buying freely to re-sell at a profit. Reader, would it not be wise for you to buy a Home? Receive to do so. I will meet any appointment at my office from 6 a.m. to 9 p.m., and will in the future, as in the past, serve my patrons to their advantage. Houses and Stores to rent. Gardens to rent. Farms for sale or exchange for town property.

THE PETERBOROUGH BOOKSTORE.

CHANGE IN BUSINESS.

I beg to announce to my late customers that I have sold out my business to Messrs. Hilliard & Peplow, and I would bespeak for them the same support as has been accorded me.

C. N. BROWN.

ANNOUNCEMENT.

For some time past we have thought a strictly cash business in Flour, Feed and Provisions could be successfully carried on in Peterborough, and to test this question, we have purchased the above business from Mr. C. N. Brown who will still continue as manager in Flavelle's old stand, Simcoe street.

In order to be successful we intend to make it the interest of everyone to pay cash with order by selling at wholesale prices.

We will positively give no credit and cash customers will not have to keep up the losses made by others on the credit system.

We will keep a full supply of the very best quality of Flour, Feed, Chop, etc., and our customers need not fear that the quality of the goods will be lowered to make up for the reduction in price. We are simply giving them the benefit of the margin necessary to cover losses and interest charges incurred on the credit system.

Goods delivered to any part of the town or Ashburnham.

TELEPHONES.—Bell No. 38, Ontario No. 112.

RANDALL CLINE IN CUSTODY.

A Well Known Character in the West Charged With a Serious Crime.

WINDSOR, May 6.—Randall Cline was seen hanging about the Walkerville brickyard yesterday morning before the plant opened down. He was arrested later and said he came from Leamington. This gave rise to suspicion that he fired the church there. He was sent to Sandwich jail for 15 days pending investigation. Cline, it was subsequently learned, is a cattle buyer and owns 400 acres of land in Aldeside, Elgin county. Cline has been an inmate of nearly every lock-up in the southern counties and has escaped from half of them. He has put out fully $1000 in fines resulting from sprees.

DELEGATED TO KILL GOULD.

A Crank Who said He Was One of Christ's Followers.

NEW YORK, May 6.—A dangerous lunatic named Charles J. Dixon, who says he comes from Pueblo, Col., was arrested here last night at the residence of Dr. Munn, Jay Gould's physician. Dixon told the Doctor that he belonged to an organization known as "Christ's Followers." This organization was strong throughout the country and he had been delegated at a secret meeting to come to New York and kill Jay Gould. He said he was known as vice-president, No. 71, of the order and told a sensational story as to how the organization was formed. He was looked up as insane.

Dixon said that if Mr. Gould would give himself $66,000 in cash and $20,000 for some charitable institution he felt sure that he could save Mr. Gould's life by arranging matters with his people. If Mr. Gould refused to accept both propositions and he (Dixon) failed to kill him, the organization would certainly kill Dixon.

In a room where Dixon has been stopping detectives found a trunk full of clothing, a revolver and a slungshot, but the lunatic was unarmed when arrested. He had $300 in his pocket. Dixon said, among other things, that he killed four men who tried to rob his offices at Pueblo. He declared he had been a land agent and formerly owned a newspaper called The Jacksonian in Colorado. To-morrow he will be examined as to his sanity.

SIR CHARLES TUPPER

President of the New Waterworks and Gasworks Securities Corporation in London.

LONDON, May 6.—Sir Charles Tupper has been appointed director of the Waterworks and Gasworks Securities Corporation, which has just been organized here with a capital of £2,000,000 sterling. The object of this new corporation is to buy up waterworks, gasworks and other concerns of the kind in Canada and the United States. There is every prospect of an early settlement of the question of the power of the trustees to invest in colonial insecured stocks. A simple bill approved by the colonial representatives in London is being drafted for the Imperial Parliament. Legislation may also be necessary in Canada and other colonies.

HURONTARIO CANAL.

A Deputation of Capitalists Explain the Scheme to U.S. Senators.

BUFFALO, May 6.—The Senatorial committee which is now in this city investigating this country's trade relations with Canada met in the Merchant's Exchange again this morning. An important Canadian delegation arrived while the committee was in session and were given an opportunity to present their views. The delegation consisted of Charles R. Pope, U.S. consul at Toronto; Kivas Tully, Government Engineer, Toronto; Ald. Hewitt, Messrs. J. C. Fitch and David Blain, Joseph Blackley and J. Hedley, representing the Board of Trade of Toronto.

The deputation gave information to the committee with reference to the projected Hurontario Ship Railway, which proposes to carry laden vessels overland from Georgian Bay to Lake Ontario. At the request of the chairman, Kivas Tully, C.E., gave a sketch of the enterprise from an engineering point of view, and David Blain a fuller account of its economic and commercial features, quoting largely from the comprehensive paper on the subject recently compiled by E. L. Corthell, M. Can. Soc. C.E., long the associate of the late Capt. Eads. The Senate Committee, of whom Senator Gray of Delaware and Dolph of Oregon, were present, besides Senator Hoar, took evident interest in this scheme of a shorter, quicker and cheaper route to tidewater for the grain of the Northwestern States and Territories.

The Frog Ahead.

A Massachusetts shoemaker patched a shoe with a tanned frog's hide, and several others with horsehide, cowhide, calf-skin and alligator. The frog patch outwore them all, although only one-fourth as thick as calf-skin. We congratulate this much misunderstood animal on this successful deal.

Can Afford It.

A prisoner in the Wisconsin Penitentiary who is allowed to buy eatables for himself pays forty cents per pound for gilt-edged butter and eighteen cents for choice steaks. He can afford it, as he stole $30,000 and planted most of it where it could not be found.

Lost on the Job.

An Iowa man was tarred and feathered for base conduct, and he hired a man to clean him up for $2. It took the man four days and a half, and there was still some tar sticking here and there after that. He has sued for $10 more.

Four hundred lathers at New York have struck for a uniform rate of $4 per day. They have been paid heretofore from $3.50 to $3.

Advices from the Island of Martinique report that a fire at St. Esprel destroyed 16 buildings and caused one death. The loss is £24,000.

About 3000 granite cutters, practically all there are in Philadelphia, struck yesterday for an advance in wages from $3.25 to $3.50 per day of nine hours.

Herman Stephauski and wife were burned to death in Rochester, N.Y., yesterday. Both had been drinking and set fire to the house during their orgies.

A fire in the steel works at Breaker Island, N.Y., last night caused a loss of $40,000. Seven Westinghouse engines were destroyed. Fully 1000 people will be deprived of work.

At midnight last night the kitchen of a construction train at Duck Creek, Tenn., siding on the Chattanooga Southern Railroad was burned and four colored men perished.

Assistant Secretary Spaulding has informed the collector of customs at Ogdensburg that duty should be assessed on certain sawed cedar lumber imported by the Ogdensburg Coal & Towing Company, to be used for building a wharf, at 15 per cent. ad valorem.

Children Cry for Pitcher's Castoria.

THE MODERN STYLE OF POETRY.

Western poets of modern schools
Now set the style in verse;
At twisting lines all out of shape
They're getting worse and worse.

up and

And this will come to pass:

THE POETS' GRAVES.

Graveyard.

Keep off the grass.

Extravagance.

"My husband is a very extravagant man," she said.

"He doesn't look it."

"Perhaps not; but he's had an accident policy in the house for six months, and he hasn't used it yet."

An Indiscreet Remark.

Young Mother—"What in the world makes the baby cry so?"

Young Father—"I guess he heard me say I managed to get a little sleep last night."

She Did, Or She Didn't.

Chicago Matron (to daughter, newly married)—Do you love your husband, darling?

Daughter (surprised)—Why, mother, what a silly question!

Disappointing.

George—I am one of those who never say die; you might as well name the day.

Miss ——'s daughter of an M. L. A.—Oh, what a disappointing girl!

Ask Your Friends About It.

Your distressing cough can be cured. We know it, because Kemp's Balsam within the past few years has cured so many coughs and colds in this community. Its remarkable sale has been won entirely by its genuine merit. Ask some friend who has used it what he thinks of Kemp's Balsam. There is no medicine so pure, none so effective. Large bottles 50c. and $1 at all druggists. dw

Editorial Evidence.

Gentlemen—your Hagyard's Yellow Oil is worth its weight in gold for both internal and external use. During the late La Grippe epidemic we found it a most excellent preventive, and for sprained limbs, etc., there is nothing to equal it. Wm. Pemberton, Editor Reporter, Delhi, Ont. 1w18d

Now Free From Pain.

Dear Sirs—I have been troubled with Lame Back for about six months, and thought I would try Hagyard's Yellow Oil, which cured me. Am now free from all pains, and recommend Yellow Oil very highly. Frank Palmer, Winona, Ont. 1w181

A Winnipegger's Opinion.

The following is taken from a letter from Mr. D. Davis, Winnipeg, Man.: "Being persuaded to use Hagyard's Pectoral Balsam for a troublesome cold, I was entirely cured by the use of two bottles." 1w181

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria

Ahead of Koch's Lymph.

Charles Campion, Kingston, Ont., says:—Gained 7 lbs. with one bottle of Miller's Emulsion of Cod Liver Oil. Cured bad Bronchial Cough with a few doses and made me feel like a new man. I strongly recommend it. All druggists keep it. dw

Everybody Admires Soft White Hands.

And every lady ought to use Dyer's Jelly of Cucumber and Roses, as it makes the skin soft and smooth. Druggists keep it. W. A. Dyer & Co., Montreal. 6d92

SOME SYMPTOMS OF WORMS are:—Fever, colic, variable appetite, restlessness, weakness and convulsions. The unfailing remedy is Dr. Low's Worm Syrup. dw

Will be found an excellent remedy for sick headache. Carter's Little Liver Pills. Thousands of letters from people who have used them prove this fact. Try them. dw

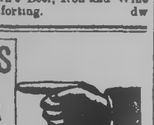
Have You Tried

Imperial Cream Tartar Baking Powder. It is the purest of the pure. All grocers sell it. t th s-w

AN INACTIVE or Torpid Liver must be aroused and all bad bile removed. Burdock Pills are best for old or young. dw

AS A PICK-ME UP after excessive exertion or exposure, Milburn's Beef, Iron and Wine is grateful and comforting. dw

CARTER'S LITTLE LIVER PILLS.



CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold everywhere, or sent by mail.

Self Application of Electricity

FOR MEDICAL PURPOSES

BY THE

DORENWEND ELECTRIC BELT

And Attachments.

THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliances. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular System.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a consistent electrician, and ranks as the best in the world; we defy anyone to bring proof to the contrary.

Do not class this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you wish to experiment with cheap articles, buy THEM; but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. The Dorenwend Electric Belt and Attachment Co., C. H. DORENWEND Electrician, 109 Yonge St., Toronto, Canada. eod-w

Helping on the Good Work.

At the regular meeting of Peterborough Lodge, No. 111 I. O. O. F., held last night, a motion was passed granting $50 to the building fund of the Young Men's Christian Association. All the members were in hearty accord with the work, and the motion passed unanimously.

Excursion from Toronto.

A committee from the uniformed Orange societies of Toronto was in town the other day making arrangements for the reception of a monster Orange excursion from Toronto on May 25th. This excursion will be run under the same auspices as the one which came from Toronto on a Queen's Birthday a couple or three years ago.

St. Andrew's Pastorate.

The commissioners representing the congregation of St. Andrew's church have returned to town, having been successful in their mission. They attended a meeting of Brockville Presbytery in support of the call from St. Andrew's church to Rev. A. McWilliams, of South Mountain. They urged a speedy translation, and on Rev. Mr. McWilliams accepting the call, the translation was arranged to take place June 2nd.

St. Paul's Anniversary and Lecture.

The anniversary services in connection with the opening of St. Paul's Church will be held on Sunday, the 17th inst., when Rev. Principal Grant, D.D., of Queen's College, Kingston, will preach both morning and evening. Special collections towards reduction of debt. On the Monday evening following Dr. Grant will give one of his "Social Talks" in the church. Admission 25 cents. 24108

He Will Be There.

Rev. E. Roberts, the popular and eloquent preacher, will be present at the grand tea meeting in aid of the tower fund to be held in the George street church, Monday night next. A splendid supper and good programme will be provided. Tickets are being sold rapidly, and the tea meeting will be the greatest event of the kind ever held in town. Tickets are 25 cents. 1d

Disqualification of Justices of the Peace.

The attention of appointed Justices of the Peace throughout the country is called to the subjoined clause of a bill passed at the last session of the Ontario Legislature:—

"Every person hereafter appointed who has not, prior to this Act, taken, or shall not take on or before the first day of August next, the oaths of office and qualification, shall cease to be a Justice of the Peace, and the commission under which he was appointed shall, so far as relates to him, be deemed to be absolutely revoked and cancelled."

Children Cry for Pitcher's Castoria.

The Great Lakes Getting Lower.

The lowness of the water level of the great lakes is again a subject of grave apprehension to mariners. At present the general height of the water is some inches below that of last year. For ten years or more the level of the great lakes has been gradually lowering, until many harbours, which were accessible to deep-draught vessels formerly, are now so shallow that vessels drawing ten feet are unable to navigate them without serious difficulty and danger.

Organ Recital.

Another of Dr Davies organ recitals was given in St. John's last night. There was a fair attendance, those present having been greatly delighted with the fine performance in the matter of technique expression and beautiful adaptation of light and shade, of the following programme:

Marche Religieuse ..... *Benoenda Pisani*
Pastorale Op 57 ..... *Kullak*
Andante Expressivo ..... *Mendelssohn*
Aria from the 4th Sonata. *Domenico Paradies*
Marche Nuptiale ..... *Sir A Sullivan*
Weigalied—(Berceuse) ..... *Kjerulf*
Cherubese—"Then shall they know"... *Handel*
"Then Round the Starry Throne"
Andante Religioso—(new composition)...*Davies*
Marche au zacre—"Le Prophete"... *Meyerbeer*

Resolution of Condolence.

At the meeting of Jubilee Lodge 'Prentice Boys, on Thursday evening, the following resolution was unanimously passed:—

Resolved that the members of Jubilee Lodge No. 7, of 'Prentice Boys, desire to place on record their deep sense of the loss they have sustained by the death of their departed brother, F. J. Parker, late Treasurer of the Lodge, who was a faithful member, conscientious in the discharge of his duties, and kindly and affable to all, and beloved by all who knew him, as well as by his brethren, on account of his many excellent qualities of head and heart. We also desire to convey to his parents and relatives our sincere sympathy in their sad bereaved.

Officers of Court Little John.

On Wednesday evening the officers of Court Little John C.D.F. for the ensuing term were installed by Bro. E. Q. Denoh, D.D.H.C.R., as follows:

E. A. Kemp ..... P.C.R
W. J. Sloan ..... C.R
Robert Mulligan ..... V.C.R
R. H. Lithgow ..... R.S
J. Sawers ..... F.S
W. S. Cooks ..... Treas
James Barnett ..... Chap
John Farrington ..... S.W
H. Fitch ..... J.W
Jas. Telford ..... S.B
Jos. Sims ..... J.B
J. Clark, M. D. ..... Court Physician

Delegates of High Court—Bros. E. A. Kemp, P. C. R., R. H. Lithgow, P. C. R., and J. Sawers, P. C. R.

Arranging for the 24th and 25th.

Mr. F. W. Miller, bandmaster of the 57th Battalion Band, has returned from Ottawa, where he has been conferring with Mr. Carter, the leader of the fine band of the Governor-General's Foot Guards, numbering 36 instruments, for the combined concert to be given by the two bands in Peterborough on the occasion of the visit of the gallant Guards to this town. Very satisfactory arrangements were completed, and the public must look forward to a decidedly fine musical entertainment on May 25th. Mr. Miller was treated with the greatest courtesy and kindness, and will long retain pleasant memories of his visit. He has nothing but words of praise for Band Master Carter's kindness and fraternal courtesy. Mr. Miller brings home as a souvenir of his visit a photographic picture of the band. It is a fine one, and shows the bandsmen in the handsome scarlet uniforms, blazing and bedizened with gold lace in glittering profusion. The uniforme of the Guards themselves is very gorgeous and their equipment complete. We wish the same could be said of the uniforms and equipment of the 57th, which do not indicate that, to say the least, any extravagant favouritism has been extended them by the Militia Department.

Personal.

Mr. Rollie Johnston left this week for London, Ont., where he has secured a position in a large dry goods store.

Mr. A. F. Wood, M.P.P., Madoc, and arbitrator for the Dominion Government in the matter of damages to drowned lands caused by the building of the Burleigh and other locks, is in town to-day in connection with these claims. If all those who were promised damages by Conservative canvassers in the last election receive the amounts, and Mr. Wood personally visits the supposed-to-be drowned land, he will be here for some time. However that may be, Mr. Wood will, no doubt, deal fairly with all claimants.

A message received to-day from Bowmanville by Mr. J. Crane states that Mr. H. H. Crosby, sr, is no better. Mrs. Crosby will be deeply sympathized with, in the double affliction which has befallen her. While in Whitby she received word that her brother, Mr. David Jenkins, was stricken with paralysis Monday morning in Michigan, and if she wished to see him alive to hurry at once to his side. While making preparations to leave she was informed of her husband's sudden illness. Mrs. Crosby is now at Bowmanville with her husband, and received intelligence that her brother died yesterday.

News Nuggets.

—Much needed street improvements are being made in the vicinity of the Edison Works.

—There is a meeting of the directors of the Central Canada Loan and Savings Company to-day.

—In advanced age the declining powers are wonderfully refreshed by Hood's Sarsaparilla. It really does "make the weak strong."

—The Medical Health Officers reports that the town is free from infectious diseases. There is not an infectious disease placard exposed in the town. All the diphtheria cases are recovered or recovering.

—The contract between the town scavenger and the corporation has been completed, and parties requiring night-soil removed can get the work done at a reasonable rate by a competent man. The terms of the by-law may be learned from the town clerk or Mr. John Williams himself.

The Local Option Bill.

In the Legislature on Friday a bill was passed dealing with the situation as to local option, as it had been left by Judge Galt's decision that the local option clause in the License Act of 1890 was *ultra vires* of the Provincial Legislature. That clause, Mr. Mowat explained to the House, as it ended last year, was nothing more or less than a sub section of the Consolidated Municipal Act in force at the time of Confederation, which gave expressly to municipalities the authority to "prohibit the sale by retail of spirituous and fermented or other manufactured liquors in any inn or house of public entertainment, and for prohibiting totally the sale thereof in shops and places other than houses of public entertainment." There was another clause bearing upon the subject as it stood at Confederation, section 221 of the same act, which provided:—No tavern or shop license shall be necessary for selling any liquors in the original packages in which the same have been received from the importer or manufacturer; provided such packages contain respectively not less than five gallons or one dozen bottles." "Now," said Mr. Mowat, "our purpose in the act which we passed last session was to authorise the prohibition just to the extent that we had authority to do so. Our act purported to the state exactly what the authority was, how far we could proceed, except in adopting the language of the ninth subsection, and if that subsection is qualified by section 252, which I have read, the effect of our act was to give the same authority and to give that qualification." As the extent of this prohibition has been made doubtful he proposed to refer to the Court of Appeal for Ontario, under authority of the act for expediting the decision of constitutional and other Provincial questions, the question of the constitutional validity of the Local Option section and its true construction, effect and application. Mr. Meredith said he believed that this was a matter affecting municipal institutions and that it came within the jurisdiction of the Provinces.

The passage of the Bill provides for a settlement by the Court of Appeal as to the points in doubt, which may be expected, by this action of the Legislature, within three months, instead of the matter being drawn out intermineably by the slow process of ordinary appeal.

A Riverside Blaze.

A Building on an Historic Site Burned—Dunsford's Flouring Mills Totally Destroyed—Fine Work by the Fire Fighters—The Loss and Insurance—A North Ward Fire.

Last night about a quarter to two o'clock, Policeman McGinty and Night Watchman Gordon who had met on the corner of George and Hunter street noticed a blaze in a south-eastern direction which proved to be "Dunsford's mill" ablaze. Officer McGinty at once rang the alarm and in a very brief time the firemen were on the spot and they did excellent work, but the fire had made so far and fierce progress to be checked. Mr. T. H. G. Deane who lives close at hand and who was one of the first at the scene of the blaze, says the flames were bursting from the east, west and south sides of the building when he first saw the fire. The building being of wood and very dry, the fire was viciously hot. And had it not been for the excellent work done by the fire brigade and the strong supply of water furnished by the waterworks, whose pumps were promptly turned on at fire pressure, the buildings in the neighbourhood, including the boat house of the Peterborough Boating Club, the fire would have spread much further. The firemen deserve especial credit for the excellent work they did last night. The burned building was owned by Mr. Jas. Stevenson, mayor, and is a total loss—about $7,000—covered by an insurance of $4,000, of which $2,000 stands against the Glasgow and London, and $2,000 against the Northern (re-insured in the Citizens). Mr. Peter Hamilton, of the Peter Hamilton Company, used the basement for storing odds and ends of machinery not required for immediate delivery, and this was, of course, totally destroyed. Mr. Hamilton's loss, which is comparatively not very great, is covered by a Phoenix policy of insurance. Mr. Stevenson also had a valuable engine and lathe stored there which was not insured.

The site occupied by the burned building is historic ground. On this site was built the first grist mill ever erected in this county, and one of the first built in this district. In the year 1825 Adam Scott built there a combined grist and saw mill, and not far from it built the first residence in Peterborough. This old house stood till about three years ago when it was burned. Ever since that time the mill has been occupied by a mill of some kind, the motive power being supplied by Hamilton's creek, then a stream of some importance. The old flume was only filled up about fifteen years ago, when Mr. Deane erected the structure which was destroyed Thursday night. For some time when steam superseded water the flume supplied water to the boiler. About thirty years ago, a boiler in a mill on this site exploded and killed a man named Perry.

There is little doubt that the fire was of incendiary origin, leaving a bare possibility that tramps or deshitute characters, caused the fire accidentally.

A FIRE ON SMITH STREET.

About ten o'clock last night the frame residence of Jas. Goynes, 49 Smith street, was badly damaged by fire. The family were all in bed, and the fire, which started in the kitchen, had made good headway before it was observed. Neighbors quickly came to the rescue and assisted in removing the household furniture and in stemming the flames by emptying pails of water on the burning building. Meanwhile the fire alarm had been sounded and the brigade arrived promptly on the scene. A line of hose was run from the hydrant at Inverlea, and after some hard work, the fire having got in the roof, the last vestige of the conflagration was quelched. The most of Mr. Goynes's house-hold effecos were saved. The house was damaged to the extent of about three hundred dollors. It was owned by Mr. Gonyes, who purchased it only a short time ago from Mr. H. Grundy, and was insured for $700, $400 on house and $300 on contents. It is believed the fire was started by a spark from the kitchen stove.

Preparing for Summer Pleasure.

Making the Ways Easy to our Northern Summer Resorts—The Grand Trunk Doing its Share Liberally — The Steamer Owners Co-operating — And the People Will Share the Spoil in Sport and Pleasure Next Summer.

As intimated in the EXAMINER, cottages have been already occupied in Stony Lake and great activity is shown at Chemong Park. The Grand Trunk Railway is taking time by the forelock and arranging its time tables with reference to giving the pleasure seeking public the best possible facilities for reaching and returning from their destinations in every part of our increasingly popular northern summer resort region. The proposed summer suburban train service, between Peterborough and Lakefield and between Peterborough and Chemong, which is expected to come into operation about the 24th of May is as follows:—

THE ROUTE VIA LAKEFIELD.

On the Peterborough Lakefield line trains will leave Peterborough daily at 8 45 a. m., at 1.15 p. m. and 6 45 p. m. Returning, trains will leave Lakefield daily at 9 45 a.m., 3.45 p.m. and 7.45 p.m.

The mid-day train to Lakefield is arranged in order to permit tourists from Toronto to reach the lakes the same day, which they have not been able to do under any previous train arrangement. Now the mid day train (1.15 p.m.) permits the tourist who arrives on the 11.50 express to have his dinner in town comfortably, then take the mid-day suburban, and reach Lakefield in time to catch the "Sunbeam," Messrs. Hilliard & Eden's new steamer, which is to ply between Lakefield and Chemong Park, passing en route through Stony Lake and connecting waters. This will be a great convenience and will add to the popularity of our summering lakes.

THE ROUTE VIA CHEMONG.

The train arrangements on the Chemong Valley line are as below:—Trains leave Peterborough at 8:30 a.m and 5:20 p.m. Returning trains leave Coemong at 9:10 a.m. and 6 p.m. It is the intention to have a boat to run in connection with Peterborough trains. This arrangement is made to meet the increased passenger traffic which the largely increased attractions and improved and enlarged hotel accommodations at Chemong Park will produce.

We are, even at this early date, pretty well assured of an exceedingly lively season at our beautiful, salubrious, cool and healthful summer resorts, which nestle in charming seclusion and profusion among the islands, bays, and along the shores of our magnificent archipelago of northern lakes.

NOTES.

The steamer "Mary Ellen" will run an excursion to Stony Lake, Saturday, May 23, so parties can spend the Queen's birthday on the lakes, returning Monday, evening the 25th, or Tuesday.

A petition is being circulated amongst Stony Lake campers in town asking the G. T. R. to amend their summer time table, and put on an early Monday morning train from Lakefield, for the benefit of those spending Sunday at the lakes, to enable them to get home in time for business Monday. From the customary courtesy extended the travelling public by the Grand Trunk railway, it is probable that the wishes of the petitioners will be met.

Third-Class Certificates.

Hon. Mr. Ross has responded to the demand of public opinion that third-class certificates for teachers, instead of being valid only for the counties in which they are issued, shall be legal, without any red-tape formulary, in every part of the Province. The idea originally was that it was best to restrict certificates to the counties in which they were issued, thereby enabling each county to control the supply of its own teaching material. Under certain circumstances the certificates were extended to other counties. The better system, however, is that embodied in the new Education Act. Teachers are educated at Provincial institutions; they are given Provincial certificates; their certificates should be good in any part of the Province. That will be the law in future. It was a wise amendment.—*Whig.*

One hundred sets of croquet, 6 and 4 ball sets, just received at the Peterborough Book-store to be sold CHEAP. First-class sets and prices away down. At the Peterborough Bookstore. dw

Cheap Croquet.

SUSPECTS CAUGHT.

The Brussels Safe Crackers Believed to be in Custody at Listowel.

BRUSSELS, Ont., May 7.—The burglars who are supposed to have gone through the post-office safe here on Sunday night were arrested at Listowel to-day. A revolver and some powder were found in their possession. They were tried and found guilty of carrying a revolver and fined $25. As soon as they were arrested Brussels' chief was wired and he and McDonald, whom they had used so badly on Sunday night, drove to Listowel. McDonald picked one out as the man instantly. The other one he was not quite so sure about. They give their names as William Hendrick of Detroit and Louis Smith, alias "The Kid."

HIS INSANE ACT.

A Bank Employe Strips Himself Before Suiciding by the Rope.

ALMONTE, Ont., May 7.—Mr. Tegerdine, for a long time in the employ of the Montreal Bank, was found hanging in his own kitchen with a rope around his neck. He was perfectly nude when found. It seems that deceased had been troubled in mind and determined to do away with his life. His wife was in Carleton Place when the suicide occurred. The servant girl at the bank wondered why deceased was not putting in an appearance as usual, but did not investigate till next evening, when she went over to his residence in New England. She wrapped at the door, but, receiving no answer, went to Mr. Mattock's house and asked him to see what was the matter. He raised one of the windows of deceased's residence and went in and was horror-stricken to find him suspended by the neck in his own kitchen. A tub of water was sitting beside him, and it is supposed he tried to commit suicide by that means, and, failing in that, resorted to the rope.

WEDDING AT HAMILTON.

HAMILTON, May 7.—Miss Tillie E. Robinson, daughter of Mr. W. W. Robinson of the D. Moore Manufacturing Company, and Mr. E. Y. Eaton of the firm of T. Eaton & Co., drygoods merchants of Toronto, were married to-day at the Centenary Church. Miss Robinson wore a gown of white faille silk with front of silver brocade and silver trimmings, a beautiful diamond pendant (the present of the bridegroom), white veil with orange blossoms, and carried a bouquet of lilies of the valley and Chinese lilies. She was attended by four bridesmaids. All were dressed in gowns of white and gold Lansdowne of the Empress design, with trimmings of gold, and each wore a crown of violets and carried a bouquet of the same flowers. At the altar the groom was assisted by Dr. E. H. Robinson of Toronto, brother of the bride.

The ceremony was performed by Rev. Dr. E. H. Dewart of Toronto, uncle of the bride, assisted by Rev. J. S. Ross, M.A., pastor of the church. To add to the beauty of the scene the church was beautifully decorated with palms and flowers. Miss Robinson was one of Hamilton's fairest and most talented daughters, a graduate with high honors from the Ladies' College of this city and winner of post-graduate honors as well. Her friends marked their esteem for her by sending an almost endless number of the most valuable presents. Among them was a goldlinet fruit epergne of rare design and workmanship from the superintendents of departments of the firm of T. Eaton & Co. Mr. and Mrs. Eaton left by the afternoon train for the east.

The Toronto guests included Dr. and Mrs. Doolittle, Mr. and Mrs. Barker, Dr. and Mrs. Johnson, Mr. Howard Chandler, Dr. and Mrs. Dewart, Mr. and Mrs. H. H. Dewart, Mr. E. E. Dewart, Mr. and Mrs. Arthur Thompson, Mr. and Mrs. W. Sanford Alley, Mr. and Mrs. Boyd, Dr. Chambers.

A Hod-Carrier's Fatal Fall.

HAMILTON, May 7.—Charles Hiscox, a well-known character, was engaged in carrying a hod for William Tyson, a contractor. Hiscox essayed to carry mortar to the second floor, when he stumbled and fell headlong through an opening to the ground floor, a distance of about 14 feet. The injured man was picked up unconscious and conveyed in the ambulance to the hospital. The doctors report him suffering from concussion of the brain. His recovery is doubtful.

CAPT. STAIRS' APPOINTMENT.

To a Regiment Whose Relations With Canada Have Been Very Intimate.

There would seem to be something singularly appropriate in the appointment of our young Canadian countryman, Stairs, to a captaincy in the old 41st, or Welsh regiment, a corps which, as Mr. Henry J. Morgan has recently pointed out, has long had close and intimate associations with Canada and Canadians. Going no further back than the war of 1812, it may be remembered that at the declaration of hostilities the 41st, commanded by the well known Col. (afterwards Gen.) Henry Pro-

CAPT. STAIRS.

tor, was the only regiment of the king's regular forces then in garrison in western Canada, and upon it, assisted by the local militia, solely devolved for some considerable time the entire defence of the western peninsula. Among the junior officers of the regiment at that time who shared in the dangers and glories of its several achievements—at Brownston, Sandusky, Miami, Detroit, Queenston and Fort Niagara—there were no less than three native Canadians, Major Richardson, author of Wacousta; the late Major Benoit Bender, of this province, and the late Col. A. H. MacLean, of Scarborough, Ont., whose daughter, Mrs. Collingwood Schreiber, now resides in Ottawa. At a later period the regiment was commanded by a native of Upper Canada, the late Sir Richard England, of Crimean fame, his adjutant, by a happy coincidence, being also a Canadian—Richard Sheaffe Montizambert, of Quebec, who, not long afterwards, gloriously fell at the head of the 10th (North Lincoln's) in Mooltan. It was while under England's superb command that the 41st did so much by the brilliancy of their services at Ava, Candahar, Ghuznee and Cabool to wipe out the disgrace (if it be a disgrace to be beaten by six to one) of Moraviantown. Writing home to his father at this time, the lamented Montizambert described the march through the Khyber Pass, in which the 44th had not long before been completely annihilated, as being performed literally through pools of blood! Another officer of this favored corps at the period mentioned, and who was the personal friend of "Monty" (the regimental pet name for the gallant Montizambert), was the late Major Robt. Donaldson, of Ottawa, father of Mr. Morley Donaldson, chief mechanical superintendent of the Canada Atlantic railway. It was also while serving in the Welsh regiment that the late Major Gzowski, son of Sir C. S. Gzowski, of Toronto died, having already greatly distinguished himself for personal courage and administrative ability. It will thus be seen that whether done advisedly or not, the war office had been most happy in its selection of this particular corps as the future home of Stanley's intrepid companion, the history of the regiment being so largely interwoven with that of the Dominion, which is proud to acknowledge the young Nova Scotian amongst its bravest and best. Needless to say all patriotic Canadians will continue to watch both officer and regiment with feelings of no uncommon interest, and with an ardent desire that their future may be as brilliant and glorious as their past.—Montreal Gazette.

Beecham's Pills not like magic on a Weak Stomach

Fifty of Them Yet.

There yet remain two months in which new subscribers may enter the great *Dominion Illustrated* prize competition and try for one of the 100 prizes, aggregating over $2,000 in value, which the publishers of that journal offer. The competition closes June 30th, but new competitors may enter at any time provided their answers to the thirty-six questions are received at the office of the journal prior to the above mentioned date. The questions are published in monthly instalments of six each, and the answers are to be found in the pages of the *Dominion Illustrated* for the six months ending June 30th. For sample copy and full particulars send twelve cents in stamps to the publishers, the Sabiston Litho. & Pub. Co., Montreal.

A Spring Medicine.

There are few who do not at this season feel the need of a spring medicine, and to all such we recommend Lane's Family Medicine as the best. This is a pleasant herb drink made by pouring boiling water on the dried roots and herbs. Druggists sell the packages at 50c. and $1. It is the best as well as the pleasantest cure for constipation and headache. dw

Dyspepsia

Intense Suffering for 8 years—Restored to Perfect Health.

Few people have suffered more severely from dyspepsia than Mr. E. A. McMahon, a well known grocer of Staunton, Va. He says: "Before 1878 I was in excellent health, weighing over 200 pounds. In that year an ailment developed into acute dyspepsia, and soon I was reduced to 162 pounds, suffering burning sensations in the stomach, palpitation of the heart, nausea, and indigestion. I could not sleep, lost all heart in my work, had fits of melancholia, and for days at a time I would have welcomed death. I became morose, sullen and irritable, and for eight years life was a burden. I tried many physicians and many remedies. One day a workman employed by me suggested that I take Sarsaparilla. It had cured his wife of dyspepsia. I did so, and before taking the whole of a bottle I began to feel like a new man. The terrible pains to which I had been subjected, ceased, the palpitation of the heart subsided, my stomach became easier, nausea disappeared, and my entire system began to tone up. With returning strength came activity of mind and body. Before the fifth bottle was taken I had regained my former weight and natural condition. I am today well and I ascribe it to taking Hood's Sarsaparilla."

J. R. STRATTON,

19 George street. Proprietor.

Some little fortunes have been made at work for us, by Aeon Pugh, Austin, Texas, and Jno. Bonn, Toledo, Ohio, over $50. Others are doing as well. Why not you? Some were over $5 to $20 a day. You can do the work and live at home, wherever you are. Even beginners are easily earning from $5 to $10 a day. All ages. We show you and start you. You work in spare time or all the time. Big money for workers. Failure unknown among them. NEW and wonderful. Particulars free. Address at once, STINSON & Co., Box 880 Portland, Maine.

VALUABLE HOUSEHOLD Property For Sale BY TENDER.

TENDERS WILL BE RECEIVED for the purchase of the following properties:

Being Parts of Lot No. 2, North of Simcoe Street, and East of Water Street, in the Town of Peterborough.

At $—per foot frontage, en bloc, or separately, to the Twentieth Day of May, instant. At noon, addressed to the undersigned and marked "Tenders re Albert Hall Estate."

Parcel No. 1.

Part of said lot, containing 2,267 square feet, more or less, and more particularly described as follows: Commencing where a post has been placed 119½ feet from the south west angle of town lot, No. 1, east of Water street, and north of Simcoe street, thence east 35 feet on Simcoe street, thence north 66 feet, thence west 35 feet to a Lane 19½ feet wide, thence 66 feet to the place of beginning. This property is a corner lot in the centre of the town, and a very desirable property for a residence. There is situated on it a story-and-a-half plaster house. It is immediately opposite the residence of George Dunsford, Esq.

Parcel No. 2.

Containing 3633 square feet, more or less, and having a frontage of 45 feet on Queen street, with a depth of 66 feet to said Lane. On this property is a two story double brick house, and being Nos. 15 and 17 Queen street, with rooms over brick kitchens, good cellars, hard and soft water and outbuildings. This street is opposite front of St. John's church.

Parcel No. 3.

Immediately south of and adjoining Parcel No. 2, having a frontage of 66 feet on Queen Street, by a depth of 66 feet to said Lane. On this property is a very desirable brick dwelling, two storeys, and brick kitchen, good cellar under the whole house, woodshed, hard and soft water, etc. There is also thereon one Brick Bake Shop, with cellar and ice house, with access thereto from the lane. From their proximity to the centre of the town these properties are always in demand.

TERMS.—The Vendors will prepare conveyances at their own expense, and will produce only the title deeds and evidences of title in their possession. Ten per cent. to be paid when notice given that tender is accepted. Balance within thirty days, without interest. Fifty per cent. of amount may remain secured on property at six per cent.

The highest or any tender not necessarily accepted. For further particulars apply to Messrs. A. COMSTOCK or H. LONG, Trustees.

BUY A HOME!

Stop Paying Rent! Be Your Own Landlord!

WE OFFER FOR SALE BY PUBLIC AUCTION ON

MONDAY, 11th MAY, 1891, at Three p.m., on THE GROUND

Lots on Romaine Street. Each Lot is 33 ft. by 220 ft. Soil high and dry, sandy loam. Ten minutes walk from the Edison Works, Peter Hamilton Works, the Carbon Works, and the Bridge Works. The new Electric Car Line will touch this street, and George and Aylmer Streets will be opened through to the Fair Ground.

To secure a respectable street the deeds will contain a clause compelling the purchasers when they build to erect uniform distance from the front, and that the houses when built shall not cost less than $800. These lots are double the depth of ordinary town lot and are fine for gardening. This is the finest property in the market and one which will afford best building lots to be had at low prices. These are only lots left on the south side of the street. Lots in the neighborhood one half the depth sell at $6 to $10 per foot frontage, while these lots are 220 ft. deep and will be sold for what they will bring. The lots while sufficiently near the great factories, are close to George street, and being off the smoke, are clean and healthy.

Ten years will be given for payment. $5.00 on the $100 down; $5.00 on

VOL. XII. NO. 109. PETERBOROUGH, SATURDAY, MAY 9, 1891. PRICE TWO CENTS.

CASH HARDWARE STORE.

On and after 1st April we shall do business on a **Cash Basis.**

To cover the inevitable cases attendant upon a credit business, which accrue from amount of time spent in keeping accounts, collecting, bad debts, interest account, and in numerous other ways, larger margins of profit must be asked.

In these times cash buyers ask, expect, and are entitled to close prices. A careful consideration of the subject convinces us that the time has come for a cash business done on smaller profits.

The only customers who may possibly be put to inconvenience are those who have had long credit. In more ways than one it will be to their advantage to pay cash.

For convenience of our old customers who consider their accounts due when presented, we will call 30 days cash and render all accounts the first of each month, and we wish to say that will be happy to do business with them on those terms.

As the new departure is something of an experiment, what would be considered a close cash price will be made all through the stock. Not a few leaders only, but a general reduction in everything from the fourth flat to the cellar.

Our idea is to perform more than promised rather than promise more than can be fulfilled.

Our stock is large and varied, consisting of **Builders', Contractors', Household, Mechanics', Painters', Shoemakers', Farm, Mill, Factory, Lumbermen's, Sporting, Threshers', Cabinet-makers', and other lines of Hardware.**

An old saying:—"You should go to Kingan's where you can get anything from a Needle to an Anchor."

KINGAN & CO.

BRITISH AND FOREIGN.

THE HOLY FATHER AND HIS CHILDREN IN CANADA.

Emperor William Endorses Duels Among Students. The Influenza Epidemic. Mr Goschen Cannot Support a Universal Rate of Penny Postage.

LONDON, May 8.—A deputation called to-day upon Mr. Goschen, Chancellor of the Exchequer, for the purpose of laying before him their arguments in favor of the establishment of a universal rate of penny postage to all parts of the British Empire. In reply Mr. Goschen said it would be impossible to lower the postal rates. The Government had already lost £27,500 in four months by the reduction made in colonial postage.

ENGLAND ANNEXES TERRITORY.

How She Proposes to Prevent the Rumored Boer Trek.

LONDON, May 8.—England has annexed a strip of territory which she has hitherto protected on the western frontier of Natal inland in order to prevent a threatened "trek" of Boers and Damaras.

The word "trek" is from the Dutch trekken, and means to draw, to travel by a wagon, or to journey in search of a new settlement.

The Holy Father and His Children.

ROME, May 7. The memorial recently presented to the Pope in the name of all the United States emigration committees begs the protection of the Holy Father for the 400,000 to 500,000 Catholics who annually emigrate. The memorial is also signed by a representative of Canada and contains statistics of a very pessimistic character. Leo XIII. accepted the memorial and promised to give the matter special attention. One reason urged why national bishops should be appointed for America to look after the emigrants from different nationalities is that Irish bishops in the United States only nominate Irish priests, who do not know the languages spoken by immigrants. The result of this is that Catholic immigrants lose their religious faith. The statistics communicated to the Holy See prove these two points.

The Newfoundland Question.

LONDON, May 8.—To-day's Cabinet Council discussed Lord Knutsford's reply to the memorial which the Newfoundland delegation presented Wednesday.

Lord Knutsford after the day's discussion communicated with the Newfoundland delegates. The delegates declined to do so, but will now know as the Ministerial reply is reported to have been approved by the Cabinet. Lord Knutsford's reply to the delegates' memorial is expected to fully enable the colonial delegates to pass the proposed act before the Easter recess and thus lead to the Government's dropping the obnoxious bill.

Narrowly Escaped Defeat.

LONDON, May 8.—At the Parliamentary election yesterday in the South Dorset division, Bryner (conservative) defeated Edgcumbe (Gladstonian) by 40 votes. The poll stood thus: Bryner 3278, Edgcumbe 3238. The election was held to fill the seat left vacant by the death of Lieut.-Col. Hambro (conservative). The Liberals polled 752 more votes than they did at last election, while the Conservatives polled 199 less.

THE WEEK'S TRADE.

Cold Weather Interferes Somewhat With the General Movement of Goods. Heavier Yields of Cereals.

NEW YORK, May 8.—Special telegrams to Bradstreet's, as in preceding weeks, do not show a general growth in the volume of trade in staples, although there are instances where business is reported quite active and equal to expectations, even exceeding records of the like week a year ago. Cincinnati tells such a story, as does St. Paul and somewhat modified the like is true at Omaha. There has been a progressive gain at Chicago. Nowhere else are announcements approaching volumes of business and receipts in excess of 1890. Cold weather has interrupted buying of some lines of goods, but not seriously. Wool and woolens. The outlook is all that could be desired. Wheat is said to be a little late in the Northwest spring wheat in the Northwest. Reports of the probability of a smaller acreage in cotton this month all agree that the condition promises heavier yields than last year. Jobbing trade disturbances the first week in May have been numerous and costly. Nearly 40,000 coal miners struck for various concessions, although a general eight hour demand is not made. The total number of industrial workers on strike is not far from 50,000, as compared with 54,000 one year ago. Collections, on the whole, have not gained any strength. Prints have reached the lowest figure ever recorded. Leather and hides are dull with out change. Lumber is quite variable. Sugar is weak and 1-8c off on raw and refined on weakness abroad.

Stocks of wheat, United States and Canada afloat for Europe and available in Europe, show that supplies have fallen off Jan. 1 to May 1, 1891, being only 160,750,000 bushels, compared with 38,000,000 bushels in a like portion of 1890 and 149,000,000 bushels in 1889.

In the province of Ontario general wholesale trade is only fairly active with collections moderately prompt. Staple groceries are more active at Toronto. Dry goods sales at Montreal have been curtailed by colder weather. Throughout Quebec trade is quiet. Cattle export business is good. The Dominion report 31 business failures this week against 41 last week and 26 this week last year. The total number Jan. 1 to date is 777 against 724 last year.

SLAVIN SCARED.

Along with Mitchell the Australian is Bluffed by Jack Kelly.

PHILADELPHIA, May 8. Jack Kelly of Port Richmond has gained the distinction of being the first American pugilist to bluff Frank Slavin, the Australian heavyweight fighter. Kelly yesterday offered to fight either Slavin or Charley Mitchell to a finish, Marquis of Queensberry or London prizering rules, for $1000 a side.

Mitchell said he had retired from the ring, while Slavin said that the stake was not large enough. Kelly then offered to bet $1000 that Slavin could not stop him in 10 rounds, the fight to take place under the auspices of the club that would offer the largest purse, but Slavin also declined this proposition on the ground that Kelly was not a recognized champion. When asked why he had boasted that he could stop any man in America in six rounds Slavin said that he had never made any such assertion.

IN FLAMES! FIERY GRASP

A SIMCOE COUNTY VILLAGE COMPLETELY DESTROYED.

Nearly Every Store and Many Dwellings Burned in a Fierce Fire, Which Raged for Several Hours—Fire at Guelph, Lucan, Niagara Falls, and Gravenhurst.

ALLISTON, Ont., May 8.—What at daybreak this morning was a thriving village of 1200 inhabitants on the Boyne River, in Simcoe county, is now a smouldering mass of ruins, a fire which originated in the stables of the Queen's Hotel, and which quickly spread in all directions, having almost completely destroyed the village. When the flames were subdued after five hours' stubborn fighting five or six blocks of buildings, together with four hotels, a bank, foundry and dozens of dwellings had been destroyed.

The Mayor telegraphed early in the day for assistance to Barrie, the county town, 24 miles northeast of here, but the engine was out of repair. The Collingwood brigade promptly answered the call for help and assisted the local department in extinguishing the flames. The town presents a desolate appearance, telephone, telegraph and electric light wires being strewn all over the street, together with a large quantity of goods, etc. The principal buildings destroyed were the postoffice, the Bank of Hamilton, Oddfellows' Hall, O'Brien's, Marrow's and Nolan's hotel, the Revere House, the large brick block owned by T. M. Brown, the Market House and town auditorium, the skating rink, the fine brick block occupied by M. J. Doyle, tailor, Aitken & Sons' iron foundry, Longeway's grocery, vacant store belonging to William Mawhinny, Goodall's furniture store, McMylor's furniture store, W. Bavair's barber shop, J. C. Hart's general store, G. S. Edmunds' jewelry store, Miss Graham's fancy goods, J. J. Armstrong's harness shop, P. D. Kelly & Sons' hardware store and offices, in which telegraph and express office were situated, and house occupied by two tenants adjoining, frame store unoccupied, property of P. D. Kelly; Mrs. Carmichael's temperance hotel, William Jenkins' grocery, McChesney's boarding house, J. G. Sutherland's dental office, houses occupied by William Badger and W. S. Wallace. On the south side of Victoria-street three places were burned: R. Henderson's grocery, frame house to the east, Callaghan's butcher shops, Foster's grocery, George Upton's store, O. McHugh's barber shop, H. F. Mann's fancy store, Bell Telephone office, McCarthy, Fopler & McCarthy's law office, Fenny's photograph gallery, C. C. Lee & Co.'s dry goods store, J. G. Hood's Dominion Express office, Mrs. Crawford's confectionery store, Badger's drygoods store, Mrs. Hurst's drygoods store, Thomas Evans' jewelry store, Burk & Graham's banking office, Fisher & Bell's law offices, I. McMahon's drug store, Hutchinson & Sons' drygoods store, W. B. Clifton's tinshop, H. W. Wright's grocery, Dr. Bell's surgery and residence and J. C. Hart's barns to the east, A. Kinsey's furniture store, T. H. Hoyes boot and shoe store, R. F. Young's boot and shoe store, James Allen's blacksmith shop and residence, T. L. Clifton's grocery, William Dennis' butcher shop, Christopher Donnelly's liquor store, K. McRae's tailor shop.

The Royal City Visited By Fire.

GUELPH, May 8.—At 3o'clock this morning fire was discovered in the engine house at Cockburn's wood yard, and before it was got under control totally consumed the engine and boiler house and a large quantity of wood. The yard stable was also burned to the ground and the three horses cremated.

At Niagara Falls.

NIAGARA FALLS, Ont., May 8.—The large frame planing mill at the corner of St. Clair-avenue and Huron-street owned by Jacob Lovell was destroyed by fire this morning. A couple of houses owned by B. C. Lundy and Mrs. Wagstaff of Detroit were burned. An hour after the water was turned on a new main burst, causing a delay of 25 minutes. Lovell will lose $2,000 stock and $3,000 on the mill. B. C. Lundy $600. No other was insured. The fire caused by the work of two men seen near the mill shortly before the flames broke out.

A Fatality at Montreal.

MONTREAL, May 8.—By a fire in a tenement house at 58 St. Felix street to-day Zenaide Demers's two children were fatally burned, one of them dying in a short time. The children were bravely rescued by the men of the salvage brigade. The fire was caused by the explosion of a coal oil lamp on a table near the two little boys.

Forest Fires at Gravenhurst.

GRAVENHURST, Ont., May 8. The lumber yard at Taylor's station, five miles from here, containing from 2,000,000 to 2,500,000 feet of lumber, is burning and eight loaded cars on the switch are also on fire. This village has been threatened all day by forest fires, but they are now under control. A barn owned by Alexander Clark of Allandale, and occupied by W. R. Goodwin, was destroyed, involving a loss

Incendiary Act of a Vicious Boy.

LUCAN, May 8.—George Haskett, one mile from Lucan, had an English immigrant boy in his employ named W. K. S. Bryant, and his month having expired he demanded his wages, which Mr. Haskett refused to pay. He went out to the barn and deliberately set fire to it and it was started for Lucan, but was caught and quelled.

BOTH PERISHED.

A Six-year-old Girl Drowned in Trying to Save Her Baby Sister.

HALIFAX, May 8.—Two little girls, aged 3 and 6, daughters of Paul O'Dea, were drowned at Cape Rouge yesterday in a brook. One was washing a pan and went into the brook to catch it and was drowned. The other met the same fate trying to rescue her.

APPALING DISASTER.

A Quarry Town Filled with Workingmen Engulfed By a Flood and Nearly All on Board Drowned.

ROME, May 8.—News of a terrible disaster which occurred to-day at Allerona, near Orvieto, in the Province of Umbria, has been received here. While a quarry train on which were many workingmen was at Allerona, a sudden flood occurred in the river and the rushing water engulfed the train. The cars were lifted from the tracks and were carried a considerable distance. Most of the men on board were drowned.

LOVE RUNS ROUGHLY.

A "BUSINESS" MARRIAGE ARRANGEMENT COSTS $5000.

Acquitted of Shooting the Horse Driven by the Girl Who Rejected Him—Attempted to Kill Her Husband—A Preacher Who Had Many Sweethearts.

AMHERST, N.S., May 8.—The Amherst Baptist Church, at a business meeting this evening, passed a very strenuous paper concerning the conduct of the pastor's late assistant, Mr. Alfred B. Staples. It appears Mr. Staples has been engaged to two or more ladies at the same time and promised to marry each within a short time. This was rather too much for any ordinary mortal and the crash came on Tuesday last, when the youngest of the ladies came over from New Brunswick and she and her friends insisted that he should marry her then and there. He consented, procured a license and then refused to make use of the license. Under the circumstances all the parties concluded to wait until morning, but during the night the curate slipped away, leaving a carriage, road cart, sleigh, horse, library, trunk, etc., to console a good many creditors.

A BUSINESS ENGAGEMENT.

Although It Was to Include the Marriage Ceremony—Miss Livingston Secures a Verdict For $5000 Damages.

BUFFALO, May 8.—Miss Nellie Livingston's suit against Frank W. Knox terminated to-day, and the jury promptly returned a verdict of $5000 for the plaintiff to heal her wounded affections. Miss Livingston was subjected to a rigid cross-examination by Lawyer Milburn. She stated that Mr. Knox urged her to break her engagement to Mr. Wallen of Oil Springs, Ont., the young Canadian, stating that his money would outweigh his rival's youth. She did not want it understood that she had fallen in love with Mr. Knox. There was no time for either love or affection. It was a distinctly business matter. Joseph Jackson, Miss Livingston's brother-in-law, and Mrs. Laura Laycock corroborated Miss Livingston's testimony.

The gay but aged Lothario was heard. He admitted the preliminaries but denied the promise.

ROMANTIC EPISODES.

In a Case Tried at Cobourg Assizes Yesterday.

COBOURG, May 8.—At the Assize Court to-day a young farmer residing near Colborne named Peters was tried on a charge of having fired at and killed a horse which was being driven by Miss Spillsbury. There was no evidence to connect the prisoner with the crime, although it was shown that he entertained ill-feelings against the accused on account of her having rejected his attentions. It came out in evidence that Miss Spillsbury's betrothed lover was threatened by Peters, but the intended bridegroom died the night previous to the day decided upon for the celebration of the wedding, and so was removed from all acts of vengeance had any been contemplated. Peters was found not guilty, but was bound over in sureties of $1000 to keep the peace for five years towards Miss Spillsbury and her father.

A VIRAGO WITH A REVOLVER.

A Wife in Welland Attempts to Kill Her Husband.

WELLAND, Ont., May 8.—Mr. Joel Doan, a drayman and agent for Cronmiller & White's lager beer, had a very narrow escape yesterday. About 4:30 o'clock his wife tampered a revolver at his head, one shot grazing his cheek, making the blood run freely, and another grazed his neck. His wife is known as "Shell Rock," as she is in the habit of going to the locals and smashing the furniture and using very bad language when her husband takes a little too much stimulants, and that is of late once a week. Thursday about 1 o'clock her husband was having a spree at the Fraser House, when she entered the barroom and made every effort to get the largest possible sum of money for the least possible amount of goods of the poorest possible quality.—New York Sun.

A Disastrous Trip Followed His Wedding.

BIRMINGHAM, Ala., May 8.—Near Bangor, on the L. & N. R.R., last night a freight train broke in two and ran back into the one following. The engine and several cars were wrecked and burned with heavy loss. An unknown white tramp was killed and three other tramps were badly hurt. The engineer, J. H. Lair, who was making his first trip after his wedding, was seriously hurt.

Killed Going for Medicine.

BRADFORD, Conn., May 8.—Mrs. Richard Dibble, over 80 years of age, fell from a fourth story window in Pearl-street before daylight this morning and was killed. She arose in night for medicine and it is supposed she fell and fell out of the window, which has a very low sill.

Children Cry for Pitcher's Castoria.

INTERESTING ITEMS BY WIRE.

Influenza is raging in Alsace-Lorraine and the Rhine district.

Parliament will probably sit until late in the autumn.

Sir John Robertson, formerly Premier of Victoria, N.S.W., is dead.

The expulsion of Capt. Verney from Parliament will be conducted in secret.

The recent crop of scandals involves in disgrace seven members of parliament.

Henry Ferguson, J.P., an old resident of Middlesex, died in London yesterday, aged 83.

Lord Salisbury has assented to a short extension of the modus vivendi with Portugal relating to South Africa.

The registrar's returns show a serious increase in the death rate in England, largely attributed to influenza.

The expulsion of Jews still continues at Moscow. Harsher measures are expected with the approach of the Easter.

All the compositors in Vienna have struck. The managers of the printing establishments refused the demands of the compositors for nine hours a day.

Manufacturers of Brussels will wait on King Leopold and urge him to accede the demands of strikers for universal suffrage.

In a speech at Boun, Germany, the Emperor justified students' duels, saying that they were largely misunderstood to the public.

The Times in an editorial on the Behring Sea correspondence says Secretary Blaine's important concessions make possible arbitration.

Journeymen plumbers of Pittsburg and Allegheny to the number of 350 struck yesterday against new rules promulgated by the masters.

John A. Stercher has purchased a fourth interest in the American and German editions of Frank Leslie's Weekly for $100,000.

The Italian Government is about to address a circular to the European powers submitting the conduct of the United States Government in the New Orleans affair to their judgment.

Bob Barr, the Buffalo pitcher, has rented a big house near the Buffalo ball grounds and the entire Bisonic aggregation will live with him when at home.

At the Haag-Emery sale at Cleveland Thursday 64 head of trotters sold for a total of $53,210, an average per head of $519. The prices as a rule were satisfactory to consignors.

Dalton, the American back swimmer, who took the water at 8 o'clock yesterday morning for a 16 hours' swim in the English Channel, finished his feat at midnight in good condition.

Some shrewd betting men are backing Al Farrow to win the Brooklyn Handicap. Al Farrow is a good race horse, but he is hardly class enough to cope with Prince Royal, Burlington, Tea Tray, Teuton and Judge Morrow.

The war of the Amateur Athletic Union and the League of American Wheelmen has at last been happily ended. Articles of alliance have been drawn up and signed, and there is not likely to be any further difference between the wheelmen and the athletes.

Yesterday was Canadian Lacrosse Association district committee meeting day all over the province. Enthusiastic meetings were generally held, except at Blenheim, from which place report comes that not a club has been organized in the district. The series system was invariably adopted.

An ex-Beantown ball-tosser is an important individual, especially if he is Mike Kelly. When the king appeared with his Cincinnati nine on the Boston grounds for the opening game this week he received an ovation and was presented with a wagonet and a fine horse.

Twenty-six members of the House of Commons have been attacked with influenza. Lord Knutsford has been ordered a complete rest, being threatened with influenza. Business in the War Offices is hampered by the absence of officials. In Liverpool the epidemic is spreading rapidly. The disease has appeared in Dublin and among the prisoners at Tullamore jail.

Madame Helena P. Blavatsky, the well known theosophist, is dead. She was born in Russia in 1830 and married Gen. Blavatsky, Governor of the Crimea during the Crimean war, but spent nearly 40 years in India studying the mysteries of Buddhism, to which as modified by her own theories she was a convert. She published "Isis Unveiled" in 1877 and founded the Theosophical Society in the United States in 1878, returning to India the next year to spread its tenets. She dealt much in occult love and claimed to have found the key of wonderful knowledge. She gained many adherents in India.

The Press has the authority of Mr. Pulsifer, the owner of Tenax, for stating that the horse will not start in the Brooklyn Handicap, and has had that authority throughout. If there is any better authority it does not see it, and The Press refuses to believe that Mr. Pulsifer, in saying what he did, had any intention of merely rigging the market. His instincts as a gentleman and a sportsman would not permit of such a course.—N. Y. Press, May 7.

At a meeting of representatives from surrounding towns held at Mitchell on Wednesday, a circuit for fall races was formed, to be known as the Lake Huron Trotting Circuit. T. S. Ford, Mitchell, was elected president; T. F. Coleman, Seaforth, vice-president, and W. Martyn, Mitchell, secretary-treasurer. Arrangements were made for meetings as follows: Hanover, Aug. 12 and 13; Harriston, Aug. 18; Brussels, Aug. 21; Goderich, Aug. 25 and 26; Clinton, Aug. 28; Seaforth, Sept. 1; Mitchell, Sept. 4.

Asking for Goodwin's Discharge.

OTTAWA, May 8.—At Carleton Assizes today Hudson Murray made application for the release of George Goodwin, charged with the murder of Richard Langford at Carp. Judgment was reserved until Wednesday. It is understood the evidence against the accused is very weak.

Strange Death From Blood Poisoning.

NEWMARKET, May 8.—While splitting wood James Homer raised a blister on his hand. No attention was paid to it until a day or two after, when his hand commenced to swell and the swelling continued to the elbow. A doctor was called in, and after treatment for two days pronounced it a case of blood poisoning. Just a week after splitting the wood Mr. Homer was a corpse.

Elopers Caught.

WINDSOR, May 8.—R. J. Gibbons and Mrs. Emma Thompson, two runaways from Hamilton, Ont., were captured in Windsor on Wednesday by Detroit detectives. About $3000 of stolen money was recovered from Gibbons, who had stolen $2500 from his brother with which to have a good time. The couple went under the name of J. B. King and wife, and visited London a few days ago.

Broke His Neck.

ORILLIA, May 8.—Alexander Simpson, a teamster employed at the Longford Lumber Co., was killed by a runaway team at the mills. He was on a load of slabs and his head struck the low roof of the mill, his jaw catching on the eavestrough, breaking his neck. Death was instantaneous.

Caught in a Wagon Wheel.

MIDLAND, Ont., May 6.—Mr. Henry Borup's son, aged 7 years, while playing around where his father was teaming stone had the misfortune to get caught in the hind wheel of the wagon and was severely crushed in the lower part of the abdomen.

Supposed to be Drowned.

WINNIPEG, May 8.—William Scanlon, who has been a cook at Scott's Camp on Lake of the Woods, is supposed to be drowned. He has not been seen since he left camp on April 18 for Rat Portage.

What it Costs.

Must be carefully considered by the great majority of people, in buying even necessities of life. Hood's Sarsaparilla commends itself with special force to the great middle classes because it combines positive economy with great medicinal power. It is the only medicine of which can truly be said, "100 doses One Dollar," and a bottle taken according to directions will average to last a month.

SATURDAY, MAY 9 1891.

A NICE STATE OF AFFAIRS.

Tory papers insist that Mr. Tarte, who has preferred charges of wholesale boodling against the minister of public works and who only sought election to parliament so that he might be in a position to establish the truth of his charges more effectually, is "a supporter of the government." Very good. What portion of the government, or what members of ministry does he support? To such a degraded condition has the federal ministry and the Tory party been reduced that cabinet ministers openly encourage assaults upon the personal reputations of their colleagues, and members of parliament who charge cabinet ministers with the most serious political offences that public men can commit are still classed by the Tory papers as members of the party in good standing. Fancy a member of the Ontario legislature who charged Mr. Mowat, Mr. Fraser, Mr. Ross or Mr. Hardy with high political crimes, being treated as a Reformer and a supporter of the provincial government! And fancy the assailant of the personal reputation of one of the Reform leaders being encouraged, patted on the back and treated as a "confidential friend" by other Reform leaders. No such condition of affairs could occur among Reformers. But yet the man who has accepted the responsibility of charging Sir Hector Langevin with outrageous, corruption and malversation in office is openly encouraged by other members of the government, and claimed as a supporter of the ministry by the party organs. What a band of brothers the members of the present government are, to be sure. Sir Hector Langevin ought to know, and no doubt does know, that the charges preferred against him are based upon information supplied by his own colleagues.—Ottawa *Free Press*.

If the Canadian farmers who produce eggs, barley, etc., are not injured by the McKinley tariff, why, very pertinently asks the Ottawa *Free Press*, did the High Commissioner, Sir John Thompson and Mr. Foster go to Washington and offer to sacrifice revenue for the purpose of inducing the United States congress to reduce the duties upon the articles named?

The Hamilton *Herald* naively remarks that things are never evenly divided in this world. While millions of heathen in distant lands are holding out their arms for missionaries and ministers, the old people of the House of Refuge are complaining of being preached to death, seven different contingents making them the bulls-eye of their remarks every Sunday. But the old folks should bear in mind that they are nearer the end of life's journey than the rest of us and that it is necessary that they should be kept up to the mark.

The last British bye election, that of the Stowmarket division of Suffolk, has been won by the Gladstonians and it is a clear gain, having been held by the Liberal-Unionists since the split. It was regarded by the Government as a fairly safe seat. In the Oxfordshire elections the Conservatives had the services of Mr. Jesse Collings, which proved invaluable among the farmers and laborers of this rural constituency, while in Suffolk there were no extraordinary influences on one side or the other. Another election, which takes place in the Harborough division of Leicestershire, is regarded as of great interest. It went Liberal by about one hundred and sixty majority in 1885, but in 1886 the Conservative candidate carried the constituency by over eleven hundred votes. Yet the Government organs speak by no means confidently of the prospects of victory.

Lawyers Lead to Litigation.

There are no fewer than fifty-eight lawyers in the House of Commons, so it is no wonder that the country is always flooded with legislation to do this that and the other thing. The queer part of the business is that, although there are so many lawyers in the House, it is always so hard to make out the meaning of a statute that nearly every important case is appealed to a higher court, where a second batch of lawyers revise and reconsider the interpretations of the statute presented by the first batch. But the world could not get along without lawyers. They seem to be a necessary part of the community's machinery—a part that requires a good deal of oiling, so long as the oiling is done at somebody else's expense.—*Hamilton Herald*.

Lakefield "Chronicles."

The new side-wheel steamer "Sunbeam" is ready to leave its wharf as soon as passed by the Dominion Inspector of Hulls, etc.

Mr. G. B. Sproule, of Peterborough, has presented the Lakefield Curling Club with a photo of the District Champion Curlers (two Lakefield rinks). The photograph is on view in the window of R. Graham & Son.

Mr. Jno. Richardson, jr., left on Friday morning for British Columbia, where we understand he has accepted a lucrative situation. Mr. Richardson was a member of the village council and his resignation will leave a vacancy in that body.

Capt. Dion's new hotel was opened for the accommodation of guests on Friday last. The building which is brick is large and commodious, situated adjacent to the G. T. R. depot and steamboat wharves, and within a few minutes walk of the business portion of the village. Already a number of guests have engaged rooms for the summer months, and the prospects are that when this summer resort is fully known, Tremont House will be a popular place with tourists.

"Tired All the Time."

Say many poor men and women, who seem overworked, or are debilitated by change of season, climate or life. If you could read the hundreds of letters praising Hood's Sarsaparilla which come from people whom it has restored to health, you would be convinced of its merits. As this is impossible, why not try Hood's Sarsaparilla yourself and thus realize its benefit? It will tone and build up your system, give you a good appetite, overcome that tired feeling and make you feel, as one woman expressed it, "like a new creature."

Woman—A Problem.

To the Editor:

It is difficult to understand why so many women suffer in silence from those diseases peculiar to their sex, when they have at their command a remedy guaranteed to put an end to their suffering and restore them to perfect health. Dr. Williams' Pink Pills never fail in cases of functional derangement, irregularities, suppressions, bearing-down pains, weakness, and the many other complaints with which womankind is afflicted. They restore the system, enrich the blood and bring the red and rosy glow of health to pale and sallow cheeks. They are equally efficacious from girlhood to old age, and are a boon and a blessing to suffering women:

Mrs. S. Devine, Petawawa, Ont., writes:—My daughter has been ill for the last two years. She is pale, weak, short of breath, with ringing noises in the head, cold hands and feet, and not RIGHT. Doctoring all the time and of no benefit. The doctor says her blood has turned to water, and that she is run down very low. After taking four boxes of Pink Pills she again writes:—I enclose balance due on Pills. I am well satisfied with them, and I must say that I have got every satisfaction that any person could ask. I can recommend your Pink Pills to anyone that is out of health. The change in my daughter's health and appearance is so wonderful that a great many persons are continually asking me for some of the medicine that cured her, so I wish to take an agency for the sale of your pills in this place.

Mrs. M——M——, Brockville, Ont., says:—Gentlemen,—My daughter S——, was sick for about a year, crying all the time with the pains of her head and eyes. In the morning her eyes and face were all swelled. She was pale and short of breath, with great jumpings of her heart whenever she tried to do anything or walk. Appetite bad or else entirely gone, with a dirty tongue and a bad stomach. She was never properly regular. She took two boxes of Dr. Williams' Pink Pills and they cured her. She became regular within a month, and she remained so since, and is in the best of health. I can heartily recommend these Pills to all sufferers who are in the miserable condition my daughter was.

These pills are for sale by all dealers, or will be sent post paid, in sealed package, on receipt of price (50 cents a box), by addressing the Dr. Williams' Medical Co., Brockville, Ont. 24s-1w20

Free to Ladies.

Every lady reader of this paper sending at once her address on a postal card will receive a free copy of the *Ladies'* (Pictorial) *Newspaper*, containing full particulars of their old fashioned English prize competition. Over $6,000 00 in prizes will be given away between now and June 1st, with special daily prizes of value for each locality. The *Ladies' Newspaper* is one of the largest and most profusely illustrated publications in Canada, and the competition offered by them is to be conducted in a strictly honourable manner, without partiality to persons or locality. Anyone can secure a good prize by a little work. No cheap presents will be given. It costs you nothing for full information and a sample copy, if you send at once. Address: The *Ladies' Newspaper Co.*, Canada Life Building, Toronto, Ontario. d73-w14

A Cure for Constipation and Headache.

Dr. Silas Lane went in the Rocky Mountains, discovered a root that when combined with other herbs, makes an easy and certain cure for constipation. It is in the form of dry roots and herbs, and is known as Lane's Family Medicine. It will cure sick headache, and is the best spring medicine. For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50c. and $1 a package. dw

A True Bill.

Wm. Gillespie, Wolfe Island, Ont., says: I had indigestion and stomach cough for three years. Was treated by best physicians and used numerous patent medicines without success, when two bottles of Miller's Emulsion of Cod Liver Oil cured me. I have great pleasure in recommending it. For sale by all druggists. dw

Worthy of Confidence.

Those who have used it praise it! Mrs. George Ward writes from Josephine, Ont., concerning Hagyard's Yellow Oil: "As a sure cure for chapped hands, swellings, sore throat, etc., I recommend Hagyard's Yellow Oil to all." 2w20d

From the Pacific Coast.

We quote from a letter recently received from Miss Eleanor Pope, Fort Haney, B.C.: "For sore throat, coughs, croup, bruises, &c., Hagyard's Yellow Oil is the best thing I have ever used." 2w20d

A Common Origin.

All skin diseases of whatever name or nature are caused by impure blood. Burdock Blood Bitters is a natural foe to impure blood, removing all foul humors, from a common pimple to the worst scrofulous sore. 2w20d

Once Used, Always Used.

This is a fact as regards Dyer's Jelly of Cucumber and Roses, from its wonderful efficiency in curing chapped hands, and making the skin smooth and soft. Druggists keep it. W. A. Dyer & Co., Montreal 6w92

May offers specially favourable circumstances for driving catarrh out of the system, and every sufferer from this loathsome disease should use Nasal Balm for that purpose. It cures when all other remedies fail, if the directions are faithfully adhered to. A single bottle will convince you of its merit. Sold by all dealers. 61103w

Will positively cure sick headache and prevent its return. Carter's Little Liver Pills. This is not talk, but truth. One pill a dose. See advertisement. Small pill. Small dose. Small price. dw

The Royal Rheumatic Remedy, taken internally, strikes directly at the foundation of the disease. At once relieves pain by removing the cause of disease. The cause removed, a cure is effected. For sale by W. R. Greatrex, druggist, Peterborough. dw

The RED COLOR of the blood is caused by the iron it contains. Supply the iron when lacking by using Milburn's Beef, Iron and Wine. dw

The Safest

AND most powerful alterative is Ayer's Sarsaparilla. Young and old are alike benefited by its use. For the eruptive diseases peculiar to children nothing else is so effective as this medicine, while its agreeable flavor makes it easy to administer.

"My little boy had large scrofulous ulcers on his neck and throat from which he suffered terribly. Two physicians attended him, but he grew continually worse under their care, and everybody expected he would die. I had heard of the remarkable cures effected by Ayer's Sarsaparilla, and decided to have my boy try it. Shortly after he began to take this medicine, the ulcers commenced healing, and, after using several bottles, he was entirely cured. He is now as healthy and strong as any boy of his age."—William F. Dougherty, Hampton, Va.

"In May last, my youngest child, fourteen months old, began to have sores gather on its head and body. We applied various simple remedies without avail. The sores increased in number and discharged copiously. A physician was called, but the sores continued to multiply until in a few months they nearly covered the child's head and body. At last we began the use of Ayer's Sarsaparilla. In a few days a marked change for the better was manifest. The sores assumed a more healthy condition, the discharges were gradually diminished, and finally ceased altogether. The child is livelier, its skin is fresher, and its appetite better than we have observed for months."—Frank M. Griffin, Long Point, Texas.

"The formula of Ayer's Sarsaparilla presents, for chronic diseases of almost every kind, the best remedy known to the medical world."—D. M. Wilson, M. D., Wiggs, Arkansas.

Ayer's Sarsaparilla,

PREPARED BY

Dr. J. C. Ayer & Co., Lowell, Mass.

Price $1; six bottles, $5. Worth $5 a bottle.

VALUABLE HOUSEHOLD
Property For Sale
BY TENDER.

TENDERS WILL BE RECEIVED for the purchase of the following properties:

Being Parts of Lot No. 2, North of Simcoe Street, and East of Water Street, in the Town of Peterborough.

At $——per foot frontage, en bloc, or separately, to the **Twentieth Day of May, Instant,** At noon, addressed to the undersigned and marked "Tenders re Albert Hall Estate."

Parcel No. 1.

Part of said lot, containing 2,247 square feet, more or less, and more particularly described as follows: Commencing where a post has been planted 124½ feet east from the south west angle of town lot, No. 1, east of Water street, and north of Simcoe street, thence east 28 feet on Simcoe street, thence north 80 feet, thence west 28 feet to a Lane 13½ feet wide, thence 80 feet to the place of beginning. This property is a corner lot in the centre of the town, and a very desirable property for a residence. There is situated on it a story-and-a-half plaster house. It is immediately opposite the residence of George Dunsford, Esq.

Parcel No. 2.

Containing 3823 square feet, more or less, and having a frontage of 45 feet on Queen street, with a depth of 85 feet to said Lane. On this property is a two story double brick house, and being Nos. 15 and 17 Queen street, with rooms over brick kitchens, good cellars, hard and soft water and outbuildings. This street is opposite front of St. John's church.

Parcel No. 3.

Immediately south of and adjoining Parcel No. 2, having a frontage of 50 feet on Queen Street, by a depth of 85 feet to the said lane. On this property is a very desirable brick dwelling, two storeys, and brick kitchen, good cellar under the whole house, woodshed, hard and soft water, etc. There is also thereon one Brick Bake Shop, with cellar and ice house, with access thereto from the lane. From their proximity to the centre of the town these properties are always in demand.

CHANGE IN BUSINESS.

I beg to announce to my late customers that I have sold out my business to Messrs Hilliard & Peplow, and I would bespeak for them the same support as has been accorded me.

C. N. BROWN.

ANNOUNCEMENT.

For some time past we have thought a strictly cash business in Flour, Feed and Provisions could be successfully carried on in Peterborough, and to test this question, we have purchased the above business from Mr. C. N. Brown who will still continue as manager in Flavelle's old stand, Simcoe street.

In order to be successful we intend to make it the interest of everyone to pay cash with order by selling at wholesale prices.

We will positively give no credit and cash customers will not have to keep up the losses made by others on the credit system.

We will keep a full supply of the very best quality of Flour, Feed, Chop, etc., and our customers need not fear that the quality of the goods will be lowered to make up for the reduction in prices. We are simply giving them the benefit of the margin necessary to cover losses and interest charges incurred on the credit system.

Goods delivered to any part of the town or Ashburnham.

SCIENCE AND PROGRESS.

INTERESTING PARAGRAPHS CULLED FROM VARIOUS FIELDS.

News from the World's Busy Laboratories—Printing from Gelatine—A Short Step from Photography to Printer's Ink—A Mechanical Wheelwright.

A new process of photo-mechanical printing, and one that may be employed by almost any one with a knowledge of photography, has been described by an eminent English photographer. The process depends on the well-known action of gelatine impregnated with bichromate of potash when exposed to the light under a photographic negative.

In the new process, sheets of paper coated with a thin coating of gelatine are floated upon a 3 per cent. solution of bichromate of potash, and dried in the dark with an ordinary piece of glass. After sufficient exposure to sunlight, under a photographic negative, the sheet is removed from the printing frame, placed face down on a surface of black velvet, and exposed for a few minutes to direct sunlight under a clear piece of glass. This is the pith of the process, and hardening the film of gelatine obviates the necessity of transferring it to zinc or stone.

The film is now washed to remove the gelatine unaffected by light, and after being backed with a piece of glass and dried, it is ready by proper inking to give off almost any number of copies. This is done in the usual manner with printers' rollers and any desired color of ink.

The process is applicable to an infinite number of uses, and the designs produced may be produced in gilt at the wish of the operator.

The Dental Vibrator.

Dentists and electricians in London are very much interested in the new "dental vibrator" that is an entire departure from the many contrivances devised to assist in the painless extraction of teeth. The principle of this new device is that of setting up in the nerve of the tooth a series of exceedingly rapid vibrations, and thus preventing the sensation of pain. The apparatus does not produce insensibility like an anæsthetic, but succeeds through its power as a diversant.

The device consists of an induction coil, made of fine wire, and having an armature which vibrates 452 times a second. The patient takes the positive electrode in one hand and the negative in the other, and the current is turned on in order to ascertain how powerful a current can be safely used. When the patient announces that the current is strong as he can bear, it is cut off at that strength by the operator. Connecting the forceps with the positive electrode, the dentist turns on the current and extracts the tooth.

It is said that the patient experiences no pain in the operation, but that he is conscious only of a tingling sensation in the arms and hands, the same as that which ordinarily accompanies the passage of an electric current through the body.

The Lot of the British Miner.

The discussion of the Miners' Eight-Hour bill in England has brought forth a long and critical letter of opposition from C. M. Percy, one of the best known British mining engineers.

In the course of this letter, which appears in several of the English technical journals, Mr. Percy draws this picture of the miners' condition, past and present:

"Half a century ago, when mines were badly worked and badly ventilated, and men and women and children worked like beasts of burden twelve and fourteen hours every day, the national sentiment was aroused, but now all is different.

"No female can be employed underground, and no boy can be employed for more than a limited number of hours per day and per week. Perfect ventilation and every provision for safety is compulsory by law. Inspectors of mines devote their time to seeing that everything that tends to safety is provided, and they have power to enter mines and prosecute owners and managers for sins of omission and commission. The average hours of labor of grown-up men in all the collieries of the United Kingdom do not exceed forty-eight per week, including time for meals.

A Mechanical Wheelwright.

One of the most ingenious machines recently invented is an automatic apparatus for boring the wooden hubs of wagon wheels and fitting them for the axle boxes.

When the wheel is placed in the machine it is automatically centred, the felloe at the same time being trued sideways. The time required for this operation is not more than five seconds. The cutter, a tool revolving at the rate of 500 revolutions per minute, is fed through the hub, the direction and the size being determined by the shape of the box that is to be placed in the opening thus made. When the hole is completely bored the feeding apparatus is automatically thrown out.

It is said that the machine is capable of boring about 100 wheels a day.

Paper Made To Last.

Here is something extra odd and noteworthy. In order that the paper used for all public documents of the German Government shall as far as possible withstand the ravages of time, and the wear and tear to which publications are subjected, the royal laboratory takes strips cut from both the length and breadth of each lot of paper and subjects them to stretching in specially prepared machines. The strength of each piece is registered, so that from a number of these samples an average result is obtained for each kind of paper.

Facts About Eggs.

The specific gravity of a new-laid egg varies from 1.080 to 1.090; an egg, therefore, is heavier than sea water, the specific gravity of which is 1.030. When kept eggs rapidly lose weight, and become specifically lighter than water; this is owing to the diminution of bulk in the contents of the egg, the consequence of which is that a portion of the inside of the egg comes to be filled with air.

Toothache Electrically Cured.

That most grievous of our minor ills, the toothache, may be sometimes cured, and usually all vitated, by a weak galvanic current, which can be generated by placing a silver coin on one side of the mouth and a piece of zinc on the other. To increase the effect, rinsing the mouth with acidulated water will be found efficacious.

A $10,000 Belt.

A belt now being made for a Louisiana electric light company will be the largest in the world. It is to be 6 feet wide, 167 feet long, and will take the skins of 175 animals to complete it. When finished it will weigh two tons and cost $10,000, or about $10 a square foot.

Children Cry for Pitcher's Castoria.

DAN RICE.

The Veteran Octogenarian Clown to Start Another Show.

The news of Barnum's death was closely followed by the announcement that Dan Rice, the whilom king of clowns, had determined to come out of his retirement of years with a new one-ring show. When interviewed on the subject he smilingly said:

"I will prove that the amusement-loving public appreciate and will support an old-time circus, such as Dan Rice made historic in the good old days."

SKETCH OF THE OLD SHOWMAN.

Dan Rice's real name is Daniel McLarreb. When a lad he was a stable boy on various race tracks and was known as "Dusty Dan." He was agile and acrobatic and became an acrobat, with wonderful energy and amazing physical strength. It was not remarkable, with such training and early surroundings, that his physical prowess should lead him into the roped arena, and in 1828 it is recorded that the Pennsylvania Legislature adjourned to witness a sparring exhibition between Kennett, the John L. Sullivan of his day, and young Dan Rice, as he was known then. He was a strapping fellow of twenty then, and by this event Uncle Dan's age as *present is fixed among the eighties.*

Shortly after this little encounter, Dan, who was possessed largely with the gift of gab, began his career as a clown. He modeled his work after Wallett, a famous English jester, and speedily took front rank as a wit in the West and Southwest, his earliest fields of conquest. His popularity became so great that he started a show of his own with a wonderfully trained pure white stallion christened Excelsior, and rival managers used this feature to refer to him as running "a one-horse show." The horse was a winner, however, and proved to be such a success that when Excelsior died another horse much like him and bearing the same name soon supplied his place. Rice in those days was an excellent stump orator, and when his show reached a small town he would harangue the populace from the balcony of a small tavern while the circus was being filled up, and at its conclusion he would extend a cordial invitation to his hearers to visit "Dan Rice's Great and Only Show."

Not only as a clown, but as a benefactor was Dan Rice known in his early days. He built an iron fence around one of the parks in New Orleans, made generous donations to building school-houses, churches, orphan asylums and market-houses, and often made the small boys happy by scattering a handful of shining coins among them while his procession was moving along the streets.

Now when the frosts of eighty winters have failed out the brown and silvered his locks, Dan Rice, once the acknowledged peer in his line, proposes to make a tour of the land and resume his position as a manager of a big show and its great American clown.

How to Preserve the Birds.

In an entertaining report on game preservation in Germany Consul General Mason, of Frankfort, among other things says "To be found outside of one's own premises with a rifle or fowling-piece and without a Jagdpass (license) involves the confiscation of gun and accoutrement. This arrangement adds the consul, "effectually eliminates the professional poacher and the predatory small boy with the cheap gun, who have been so destructive to singing birds, as well as to furred and feathered game, in some countries."

Ask Your Friends About It.

Your distressing cough can be cured. We know it, because Kemp's Balsam within the past few years has cured so many coughs and colds in this community. Its remarkable sale has been won entirely by its genuine merit. Ask some friend who has used it what he thinks of Kemp's Balsam. There is no medicine so pure, none so effective. Large bottles 50c. and $1 at all druggists. dw

A Minute a Day.

A minute a day devoted to taking a dose of Burdock Blood Bitters will cure any case of constipation, dyspepsia, biliousness, or bad blood, and may save weeks of sickness and dollars of loss. There is nothing better than B. B. B. 2w203

Severe Cold Cured.

DEAR SIRS,—My mother was attacked with a very severe cold and cough. She resolved to try Hegyard's Pectoral Balsam, and, on so doing, found it did her more good than any other medicine she ever tried. MRS KENNEDY, Hamilton, Ont. 2w201

Directly and Indirectly.

Kidney complaint, dropsy and similar troubles depend directly on wrong action of the kidneys and indirectly on bad blood. Burdock Blood Bitters regulates the action of the kidneys and cleanses the blood from all impurities, in this way curing kidney complaint, dropsy, etc. 2w201

"MANY MEN, MANY MINDS," but all men and all minds agree as to the merits of Burdock Pills, small and sugar coated. dw

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents five for $1. Sold everywhere, or sent by mail.

CARTER MEDICINE CO., New York.

Small Pill. Small Dose. Small Price.

THE BEST

ARTIFICIAL AIDS TO HUMAN SIGHT

Eyesight Tested. edw Jeweller and Optician, Peterborough, Ont.

DO YOU KEEP IT IN THE HOUSE?

ALLEN'S LUNG BALSAM.

NO BETTER REMEDY FOR

COUGHS, COLDS, CROUP, CONSUMPTION, &C.

FLAX-SEED EMULSION COMPOUND

BRONCHITIS

137 Lexington Ave.,
New York City, Sept. 10, 1889.

I have used the Flax-Seed Emulsion in several cases of Chronic Bronchitis and one early stage of Phthisis, and have been pleased with the results.

JAMES K. CROOK, M.D.

CONSUMPTION

Brooklyn, N. Y., Feb. 15th, 1890.

I have used your Emulsion in a case of Phthisis (consumption) with beneficial results, where patient could not use Cod Liver Oil in any form.

J. H. DROGE, M. D.

NERVOUS PROSTRATION

Brooklyn, N. Y., Dec. 20th, 1888.

I can strongly recommend Flax Seed Emulsion as helpful to the relief and possibly the cure of all Lung, Bronchial and Nervous Affections, and a good general tonic in physical debility.

JOHN F. TALMAGE, M. D.

GENERAL DEBILITY

Brooklyn, N. Y., Oct. 10th, 1888.

I regard Flax Seed Emulsion as greatly superior to the Cod Liver Oil Emulsion so generally in use.

D. A. GORTON, M. D.

WASTING DISEASES

137 West 34th St.,
New York, Aug. 6, 1888.

I have used your Flax-Seed Emulsion Compound in a severe case of Mal-nutrition and the result was more than hoped for—it was marvelous, and continuous. I recommend it cheerfully to the profession and humanity at large. M. H. GILBERT, M.D.

RHEUMATISM

Sold by Druggists, Price $1.00.

FLAX-SEED EMULSION CO.

35 Liberty St., New York.

The D&L Emulsion OF Cod Liver Oil AND THE Hypophosphites of Lime and Soda.

No other Emulsion is so easy to take.
It does not separate nor spoil.
It is always sweet as cream.
The most sensitive stomach can retain it.

CURES

Scrofulous and Wasting Diseases.
Chronic Cough.
Loss of Appetite.
Mental and Nervous Prostration.
General Debility, &c.

Beware of all imitations. Ask for "the D. & L." Emulsion, and refuse all others.

Self Application of Electricity

FOR MEDICAL PURPOSES

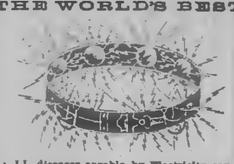
BY THE

DORENWEND ELECTRIC BELT

And Attachments.

HEAD OFFICE—168 Yonge St., Toronto.

THE WORLD'S BEST.



ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT OF QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a consultant electrician, and ranks as the best in the world; we defy anyone to bring proof to the contrary.

Do not class this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you wish to experiment with cheap articles, buy THEM; but, if you want to procure a genuine Electric Belt and one that will be a benefit get a DORENWEND Belt.

Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. J. D. TULLY, Agent, Peterborough edw

To day

Is my last week in the Bon Marche. A lot of good staple Goods still to clear at half price. Also a beautiful Organ made of solid walnut, makers, the famous W. Bell & Co., Guelph Ont. This will be sold at the auction sale this evening. The Organ can now be seen in my store. M. Carton. 2d

Special Sunday Services.

On Sunday next, at George street church, with the object to promote the extension and welfare of the church. Rev. E. Roberts, so well and favorably known in Peterborough and district, will preach morning and evening sermons of a special and interesting character. 1d

Druggists' Association.

A meeting of the druggists of the town was held the other day for the purpose of forming a Druggists' Association, as provided for by recent enactments of the Ontario Legislature. Preliminary steps were taken, and the meeting adjourned to meet again at the call of the president.

Booming Bicycles.

Mr. W. S. Fallis, representing the Goold Bicycle Company, of Brantford, is in town assisting Mr. H. H. Bradburn, the local agent, in pushing the sale of these well known machines in the town and country. Mr. Fallis has just returned from a business trip, and has disposed of a large number of new instruments in a short time.

Temperance Meeting.

The monthly temperance meeting of the C.E.T.S. will be held Monday next, commencing at 7.30 p.m. There will be a short programme arranged for, but the special event will be an address on the subject of temperance by the Rev. George Warren, of Lakefield. The meeting is open to all who desire to come, and an invitation is extended to all.

Don't Forget the Tea meeting.

at George street church on Monday evening next. An ample and well served tea will be provided by ladies of the congregation. Platform meeting to follow at which addresses will be delivered by Rev. E. Roberts and others. The object is to assist the Tower Committee with a view to the early completion of the work now in hand. Tickets for tea and meeting 25 cts. 1d

St. Paul's Anniversary and Lecture.

The anniversary services in connection with the opening of St. Paul's Church will be held on Sunday, the 17th inst., when Rev. Principal Grant, D.D., of Queen's College, Kingston, will preach both morning and evening. Special collections towards reduction of debt. On the Monday evening following Dr. Grant will give one of his "Social Talks" in the church. Admission 25 cents. 2d108

Quick Insurance Settlement.

Mrs. Gagnon had her house partially destroyed by fire on Thursday night at about eleven o'clock. On Friday evening at five o'clock just eighteen hours afterwards her solicitor received a cheque for the amount $145.00. The insurance was with the Citizens Insurance Company represented by Cox & Davis. Settlements of this kind can't help but strengthen the confidence existing between the firm and their host of customers. 1d1w20

A Spring Medicine.

There are few who do not at this season feel the need of a spring medicine, and to all such we recommend Lane's Family Medicine as the best. This is a pleasant herb drink made by pouring boiling water on the dried roots and herbs. Druggists sell the packages at 50c. and $1. It is the best as well as the pleasantest cure for constipation and headache. dw

Children Cry for Pitcher's Castoria.

A Highly Esteemed Minister.

Rev. A. McWilliams, who has accepted the call to the pastorate of St. Andrew's, will be inducted into his new charge with due formalities on Tuesday, June 2nd, his present pulpit being preached vacant on May 31st. Pleasing testimony to Rev. Mr. McWilliams' faithfulness as a minister, is afforded by the high opinion held of him by the flock he is on the point of leaving. They part with him with the greatest reluctance, and would most gladly retain his services, but they do not wish to stand in the way of his entering a field of wider usefulness. The services he has rendered the pastorate of South Mountain are highly appreciated, and his labours and loving ministrations will be held in fond remembrance.

No One Saw Him Die.

The family circle of Mr. Andrew Tully, Smith, lost one of its brightest ornaments this morning, when the fourth son, John D., died unexpectedly at the age of 20 years, 3 months and 10 days. Deceased has been unwell for some time with an affection of the heart, but was no worse than usual last night. He slept well during the night, and when Mr. Tully, sr. rose at seven this morning the young man was sleeping quietly. Half an hour later he was found dead in his bed. Mr. Tully and other members of his family will be deeply sympathized with in the affliction which has befallen them. The funeral takes place Monday at 10 a.m. from the family residence, lot 2, con. 3, Smith, to the Little Lake Cemetery.

Lacrosse Interests at Madoc.

Dr. Brennan, the representative of the Peterborough club, yesterday attended the district conference at Madoc. The principal business done was the arrangements for the coming season's play. It was decided that each club keep the whole of the gate receipts, and that visiting teams pay their own expenses. The series system was adopted. Under the arrangements agreed to, Madoc plays here on our Civic Holiday—about the middle of August. The town team plays at Kingston on July 1st, and at Madoc on August 20th. Norwood is not in the league this year, and Port Hope was not heard from at all. The district will likely therefore be composed of the clubs of Kingston, Madoc, Peterborough and Stirling. The business of the meeting was very harmoniously conducted by the delegates present. It was resolved that two games between each club be played, home and home matches. A forfeit of $15 is to be paid by any club defaulting a scheduled match, and any club can play exhibition matches with other clubs during the season. The season will be opened with a game in Madoc on 25th May with the Kingston club.

The West End.

For distinction in appearance the west end in Peterborough is fast reaching the stage when it will bear the same pre-eminent relation to the rest of the town that *the* west end does to rest of London. Gilmour street is improving rapidly, and now Mr. Geo. A. Cox is proposing striking improvements on the new streets opened a couple of years ago on his residence property west of Park street. Belmont avenue which extends southward from Weller street, is being graded and improved and its continuation at its southern termination westward, where is adjoins Homewood avenue is also to be greatly improved and straightened, the jog which now exists at the intersection of Walton street being removed. It is the intention to build several fine residences on these streets for sale upon the instalment, or any other plan mutually agreeable, to persons who desire to secure homes for themselves. The number of these residences will be limited to the demand, and any person desirous of securing elegant homes in one of the handsomest quarters of the town, will be able to avail themselves of the chance thus offered. Mr. Cox builds elegant and excellent residences, and no houses but those that are in keeping with those already built in the neighborhood will be erected.

Police Court Paraphrase.

This morning was rather uneventful. Maurice Fitzgerald, a retired soldier, living on a pension and the gratitude of the country he served, was accorded an audience with the police magistrate. The national gratitude not being a negotiable asset, and the pension being inadequate for the supply of Mr. Fitzgerald's frugal wants, he was this morning classed as a vagrant. The police magistrate assented to the pensioner's prolonged absence from town.

DEFRAUDING THE HEATHEN.

Mr. Frank Anthony was this morning arraigned on a serious charge with a double aspect of moral obliquity—that of breaking the Sabbath day and constructively robbing the heathen, by keeping open shop on Sunday and taking the pennies with which Sunday School pupils were provided to put upon the collection plates, in payment for candy. One little moral derelict stood on tiptoe to get his head above the box and told his artless tale. The seductiveness of Mr Anthony's display of sweets was too much for his interest in contributing to provide knee boots for the inhabitants of Boorioboolagah and the penny was squandered for sweets, Mr. Anthony opening the door literally and figuratively, to the wayward footsteps of the sweet-toothed little sinner. Mr. Anthony's participation in the offence was made plain and a fine of $1 and costs, in all $4.30, was imposed, the magistrate remarking, "I don't like to fine a good citizen like you, Mr. Anthony, but the law must be observed."

Theatre Royal.

Montrealers had the opportunity yesterday, for the first time, of seeing that successful play, "The Runaway Wife," which was presented before a crowded house at the Theatre Royal. The drama, the joint work of McKee Rankin and Frank Lieder, is one of great merit. The plot is a strong one and is well worked out; the story is pathetic and entirely natural, and there is an absence of impossibility or improbability about the various incidents, which is as welcome as it is rare. As to the actors, Mr. Frank Evans, as Arthur Eastman, gave an extremely well finished conception of the part. Mr Evans is an actor of high standing, and this is perhaps one of the best pieces of work he has done. Miss Ella Clayton, as Lady Alice, was admirable, and gave expression to the varied emotions of the character in an artistic manner worthy of praise. Hugh Gibson furnished the comedy of the play in an acceptable manner in his humorous portrayal of an English swell, or "dude," as our American friends would call him. As Lillian Hope, Miss Laura Almonino was very engaging. Mrs. Jas. H. Browne played Hector Eastman cleverly, and Mr. W. F. Granger, as Arthur Vere, was manly and sympathetic. Mr. J. D. Manning, as Bob, was very funny, and his specialties were received with deserved applause. The others of the supporting company are uniformly good. A few words of praise are due to "Little Lottie," a dainty little maid of five years of age, who delighted and astonished the audience by the clever way in which she sang and danced. Mr. Cavallo provided the music in his usual pleasing manner, a selection from the "Chimes of Normandy" being rendered with very good effect.—*Montreal Gazette, May 5, 1891.*

Personal.

Miss Archer returned home last night after spending the winter in England.

Rev. Canon Davidson of Colborne arrived in town to-day and will assist in tomorrow's services in St. John's.

A message received to-day from Bowmanville states that Mr. H. H. Crosby's condition was somewhat worse, and there was little hope of his being brought home alive.

Mr. Fred Gadman, son of Mr. Thos. Gadman, a student with Messrs. Dumble & Leonard, has passed his intermediate examination in law at Osgoode Hall. Mr. Gadman's numerous friends give their congratulations.

Chancery Spring Sittings.

Record of the Work Done—The Case of Hall vs. Charlton Concluded — Judgment Reserved—Hough vs. Miller et al.

The case of Hall vs Charlton occupied the attention of the court from its sitting till this morning.

Hall vs Charlton.—This was an action brought by E. E. Hall, of Peterborough, as Assignee of the real and personal estate of Mr. Robert Johnston, of Dover, to set aside a certain mortgage made by Johnston to the defendant, Mr. Wm. Charlton, for $476, on the ground that it was a fraudulent preference of creditors. His Lordship found the facts, shortly stated, as follows: That at the time of the giving of the mortgage in question, Johnston was in insolvent circumstances and unable to pay his debts in full; that the defendant and Johnston knew that Johnston was insolvent and unable to pay his debts in full; that the mortgage was made with intent on the part of both to defeat, delay and prejudice creditors of Johnston; that the mortgage had such effect after the defendant became a creditor of Johnston; the defendant was surety for Johnston on a certain promissory note made by Johnston in favour of Dr. Caldwell; that defendant brought pressure to bear on Johnston, and but for such pressure the transaction would never have taken place; the mortgage was not given voluntarily by Johnston to the defendant, but was executed to by Johnston and was the outcome of his importunity; that Mr. L. R. Steele advanced the money to defendant to take the mortgage and to pay off the following notes, viz:—A note made by Johnston in favour of Dr. Caldwell, a note made by Johnston in favour of Steele and endorsed by Mr. Isbister, and a part of a note for $200 made by defendant and endorsed by Johnston in favour of Mrs. Darling; that money was paid to Caldwell after the mortgage was executed and not before. His Lordship reserved judgment. Mr. G. H. Watson, Q.C., and Mr. W. A. Stratton for the plaintiff; Mr. E. Lewis for defendant.

Hough vs Miller is occupying the attention of the court this afternoon.

Peterborough Church Choral Society.

Mr. L. Seward has issued the following prospectus of a proposed church choral society, which is worthy of attention by those concerned and interested in church music:

The object of this Association is to bring the music loving members of the congregations of the city into rapport with the choirs, by practising anthems together at a weekly rehearsal. Also to provide sufficient musical instruction to those willing to devote the time to learn, so as to enable them to join intelligently in the service of song.

On Sundays the members of the Association would bring their Anthem Folios (as they would their Hymn Books) to the churches, and join with the choir in singing Anthems. Many old members of the choirs who now sit in their pews, would thus be enabled to revive their choir experience. There also are numbers of young people in the congregations who are very fond of singing, but from want of musical knowledge, and quality and strength of voice, are now debarred from singing, except in well-known hymn tunes. To such, an opportunity would be offered to gradually and pleasantly acquire a knowledge of part singing, and at the same time strengthen and improve their voices.

One rehearsal a week will be given, and a charge of 50c. per member would be made, quarterly, in advance, to cover cost of instruction, trouble and time spent in organizing and keeping the Association in working order. An additional fee of 50c. per quarter would cover cost of anthems to be furnished each member.

At the end of each quarter, a Music Anthem Festival will be held with orchestral accompaniments.

This plan will commend itself to anyone acquainted with the glaring defects of our present choir system. In all our churches the choirs seem entirely cut from the sympathies of the congregations. Complaints are frequently made that the words of the Anthem are seldom distinctly heard, giving rise in many cases to unpleasant criticism. This would be obviated in a great measure by the music loving members of the congregations joining the Society, when they would be furnished copies of the Anthems, and follow the words without trouble.

Great difficulty is also experienced in recruiting the ranks of the choirs from the fact that the younger members of the congregations have no opportunity afforded them of strengthening their voices and acquiring a knowledge of singing part music. It is due to this reason that so many choirs are small, and the parts badly balanced. Hence the engagement takes possession of the singers, an utter lack of enthusiasm is shown, and things go on from year to year in this unsatisfactory manner.

The object of this Association is to meet the present difficulties of the situation, by arousing interest and enthusiasm in the higher forms of church music. Also to bring the Sunday School up to a higher standard, by introducing at least one Anthem in the afternoon sessions of the schools.

There being no compulsion for attendance on Sundays, the members would not feel the few simple rules of the Society to be grievous. The most ambitious of those at the different services could arrange to sit together and give to each other confidence.

The very small charge made for instruction and carrying on of the work puts this plan within the reach of all, and I would earnestly request all our lovers of choral singing to help me in the undertaking by joining the Association and encouraging others to do so.

It would give me great pleasure to have the co-operation of other church congregations and their respective choirs, in their efforts to improve our service of song. Let us all remember that in union there is strength.

L. SEWARD,
Organist and Choir Master.

Peterborough, May 7th, 1891.

Laid at Rest.

Funeral of the Late J. J. Doherty.

The very large attendance, and other incidents of the funeral of the late John Joseph Doherty, eldest son of Mr. John Doherty, which took place this morning at nine o'clock, show the high esteem in which he was held. The floral tributes were in profuseness and quality really superb, never equalled in a congregational funeral since that of Bishop Jamot. The funeral was conducted under the auspices of the Emerald Beneficial Association, of which the deceased was a respected member, and a procession of about eighty members headed the funeral cortege, the bearers being Messrs C. E. Roach, Ed. Welch, Rufus Stevenson, J. J. Scobey, A. G. Gough and Jos. Cahill. High Mass was sung at St. Peter's Cathedral by the Chaplain of the Association, Rev. Clement Dube, and the full choir was present. After having attended the remains of their late brother to the R. C. Cemetery, the E. B. A. members returned to their hall, when it was moved by Mr. W. J. Devlin, seconded by Mr. Athanase Mercier, that a letter of condolence be placed upon the records of the Association, and that a copy of it be forwarded to the father of the deceased member. Accordingly the following address was drafted:

John Doherty Esq.—Dear Sir, we the members of the Emerald Beneficial Association, desire on the occasion of your great bereavement, to express to yourself and family our deepest and most heartfelt sympathy with yourself and them, and to express our deep sense of regret at the great loss this association has sustained in the death of Bro. Doherty one of its most esteemed and valuable members. We always found him faithful to the discharge of his obligations as a member, and in a social sense his cultivated mind, irreproachable moral walk and conversation and courteous and kindly demeanour, made him beloved and respected by all. In conclusion, we pray that God, whom your son and our late brother and associate served with such devoted piety, may comfort you and your family in your hour of deep bereavement.

Signed on behalf of Branch 21,

Ed. O'Neil,
President.

Eggs by Machinery.

A Plan to Make them Better and Cheaper than Hens Can—What the Manufacturer Artists Contain—How the Ingredients are Secured.

Patents have been granted to James Storrey, of Kansas City, for the manufacture of eggs.

All the necessary machinery, which is not worth more than $500 at the outset, is in readiness to begin this overwhelming competition with the American hen. If as much success attends the new venture as is anticipated by Mr. Storrey, the contest between the machine and the hen for supremacy in the egg-producing business will be short, with the victory to the credit of the former.

Mr. Storrey's process is very simple, and yet he is prepared to manufacture artificial egg that a connoisseur will find it difficult to distinguish either in appearance or taste from the prime product of a Plymouth Rock or Leghorn.

Lime, water, blood, milk, tallow, peas and one are two other vegetables are the ingredients of his compound. The shell and the yolk will not be difficult of manufacture. To make a good imitation of the "white" of the egg is the part that has required the most ingenuity to conquer, but Mr. Storrey has succeeded in solving the problem successfully.

The yolk of an egg is composed of 30 per cent. of yellow fat, 14 per cent. of casseine, about 3 per cent. albumen and water. The fat is common animal fat, and beef fat, which is very cheap, will be the chief ingredient. To this a liberal amount of casseine, which is that portion of the milk which produces butter and cheese, will be added, and albumen mainly from beef blood, together with water, will be mixed in small quantities. The colour, already a yellow, will be treated with a chemical which will serve a double purpose of deepening the colour and preserving the mixture in a semi-liquid state until it is cooked.

The "white" of the egg is about one-eighth pure albumen, and is a difficult substance to produce chemically. A substance that appears to the eye exactly similar and which hardens and whitens when cooked, has been produced by a mixture of legumin, or vegetable albumen, extracted from common peas, and which forms one-fourth of the peas, a little albumen from beef blood, a trifle of sulphur, considerable gelatine and a chemical solution to prevent rapid decomposition and which also whitens the whole bulk when subjected to heat, just as the egg becomes white when boiled.

As beef blood blood will be utilized in very large quantities in the big egg mill, a few special cars will be fitted up with tanks to bring the blood from the Chicago slaughter house.

MAKING THE SHELL

The shell will be perfectly imitated by a simple solution of lime, water and glue. The machinery that is required is needed mainly in putting the egg together. Every yolk will be first run into a mould to be properly shaped, and then dumped into a second mould, where the right quantity of the white is placed previously. This latter substance being a gelatine like matter, will incase the yolk very readily. By a unique machine the meat is there developed in the shell.

The shell is only partially hardened when the egg is put in it, and as there is a liberal amount of glue added to the lime, the edges of the shell soon adhere to each other very tightly, leaving no traceable mark where they were joined. In order to make the imitation more completely successful, moulds of several sizes will be introduced, making the eggs vary in size as do the products of any respectable flock of hens. The color of the shell will also be of two or three shades, removing the likeness to the original still more striking.

Tests have been made which show that the artificial egg can be preserved for a month under proper conditions, and still taste as fresh as one laid by an ordinary hen. As all the ingredients of this reform egg are exceedingly cheap, it can be manufactured at the rate of about three cents a dozen. There will be no limit to the capacity of the novel mill, and families and boarding house keepers can be supplied in any quantities at prices so dazzlingly small as to warrant immediate popularity.—*Cincinnati Enquirer.*

Do Good To Those Around Us,

It can safely be asserted without fear of contradiction that Canadians are a reading people. The large number of newspapers, magazines, weekly and monthly journals now published in Canada fully prove this statement.

The proprietors of Paine's Celery Compound have taken advantage of the large circulation of many of these newspapers and magazines, to bring to the notice of our people the great benefits to be derived from the use of this scientific remedy in all cases of nervousness, exhaustion, insomnia, melancholia, dyspepsia, indigestion and rheumatism. Notwithstanding the fact that our Canadian people are great newspaper readers it is well known that there are people, who, owing to various circumstances are not able to see a paper and unfortunately some are unable to read. We believe it to be a duty incumbent on every daily reader, to inform their less favored brothers and sisters around them who have not yet heard of the great efficacy of Paine's Celery Compound, that it is the medicine that they require if they are afflicted with any of the ordinary ills of life. Tell them of its great reputation and its many wonderful victories over disease and suffering. Ask them kindly to try it; by so doing you will have the great pleasure and satisfaction of knowing that you have given golden advice, and conferred some good. No remedy known to mankind can be so truly recommended.

ANTI-RITUALIST ROW.

Extraordinary Scene in the Church of Ascension at Hamilton—The Lights Put Out—Shouting, Cat Calls, Etc.

Hamilton, May 7.—The most exciting incident in the recent troublous history of the Church of the Ascension occurred last evening. Yesterday being Ascension Day, a series of services was arranged by Rev. Mr. Crawford in celebration of the festival. The morning service was held, and there was nothing particularly significant in it. But a special service had been arranged by the rector for the evening. Mr. Crawford had invited the choir of Christ Church Cathedral (a surpliced choir) to participate in the service, and the invitation was accepted.

When it was learned that the rector had determined to introduce a surpliced choir into the church, the leaders of the *memorialist* majority decided to adopt such tactics as would emphasize their opinion. At a hastily summoned meeting prior to the service it was determined that the gas and the water supply should be cut off, so that the service would have to proceed amid darkness and without any organ music.

The church was brightly lit up as usual, when the sound of the processional hymn was heard, growing louder as the clergy, in procession, approached the chancel. There was a buzz of eager expectancy in the congregation, and then a sudden hush as the processional crosses appeared, one on each side of the chancel, and the white-robed singers filed in behind them. Then, suddenly and without warning, the lights went out. The gas had been turned off by Mr. Williams. An attempt was made to hold the services in the dark. The organ was dumb, the water supply having been turned off. Then the noise at the rear of the church increased until at length the church became a Babel of sounds. Hisses and groans were heard mingling with the music, and while the choir and clergy and part of the congregation were singing "Crown Him Lord of All," the memorialists were singing "Nearer My God to Thee," and with as much lung-power as they could command.

The confusion continued throughout the services, which were held in semi-darkness, some person having obtained possession of two oil lamps and four candles, which were distributed in such a manner as to shed the light as evenly as possible.

Every Lady Uses It.

Dyer's Jelly of Cucumber and Roses for her chapped hands and lips, as it effectually cures in every instance. Try it. Druggists keep it. W. A. Dyer & Co., Montreal. d63

On Fire with Eczema

Terrible Sufferings of Little Baby—Seven Doctors and Two Hospitals Fail—Cured by Cuticura.

My baby boy, 5 months old, broke out with eczema. The itching and burning was intense; the eczema spread to his head, breast, face and head, until he was nearly covered like a burning mass. He was pitiable to behold; he had no peace and but little rest night or day. He was under treatment at different times at two hospitals and by seven doctors in this city without the least benefit; every prescription of the doctors was faithfully tried, but he grew worse all the time. For months I expended about $2 per week for medicines, and was continually discouraged. I purchased CUTICURA, CUTICURA SOAP, and CUTICURA RESOLVENT and followed the directions to the letter. Relief was immediate, his sufferings were ceased, and rest and sleep permitted. He steadily improved and in nine weeks was entirely cured, and has now as clear a skin and is as fair a boy as any mother could wish to see. I recommend every mother to use it for every Baby Humor.

MRS. M. FERGUSON,
36 W. Brookline street, Boston.

Cuticura Remedies.

The greatest skin cures, blood purifiers, and humor remedies of modern times, instantly relieve the most agonizing forms of eczema and psoriasis, and speedily, permanently, economically, and infallibly cure every species of torturing, disfiguring, itching, burning, bleeding, scaly, crusted, and pimply diseases and humors of the skin, scalp and blood, with loss of hair, from infancy to age, whether simple, scrofulous, or hereditary, when all other methods and best physicians fail.

Sold everywhere. Price, CUTICURA, 75c. SOAP, 25c.; RESOLVENT, $1.00. Prepared by the POTTER DRUG AND CHEMICAL CORPORATION, Boston.

Send for "How to Cure Skin Diseases," 64 pages, 50 illustrations, and 100 testimonials.

PIMPLES, black-heads, red, rough, chapped, and oily skin cured by CUTICURA SOAP.

OLD FOLKS' PAINS.

Full of comfort for all Pains, Inflammation, and Weakness of the Aged is the CUTICURA ANTI-PAIN PLASTER, the first and only pain-killing strengthening plaster. New, instantaneous, and infallible. dw

SORRY, TOO LATE.

I had several properties which I have been pressing upon the public during the past two or three months, at what I called low prices. A great many buyers examined them, and a few thought they would buy after a time, but while they were considering, with their money in the bank at four per cent., that very quiet and shrewd capitalist from Norwood, P. W. Reynolds, Esq., came along and bought the whole, and now those who were going to buy are sorry for losing such bargains. Mr. Reynolds is now the owner of FOURTEEN houses in town, all tenanted, and paying from seven to twelve per cent. interest on his investments. He has also a number of vacant lots, which he could readily resell at a big profit. Nine months ago I sold him his first purchase.

I have a few acres of land, for sub-division, near the Edison Works, which any intelligent man can make big money out of. Call for particulars.

I am the home-seeker's true friend. If you want a home come to me and I will guide you right.

VOL. XII. NO. 110. PETERBOROUGH, MONDAY, MAY 11, 1891. PRICE TWO CENTS.

CASH HARDWARE STORE.

On and after 1st April we shall do business on a **Cash Basis.**

To cover the inevitable ones attendant upon a credit business, which accrue from amount of time spent in keeping accounts, collecting, bad debts, interest account, and in numerous other ways, larger margins of profit must be asked.

In these times cash buyers ask, expect, and are entitled, to close prices. A careful consideration of the subject convinces us that the time has come for a cash business done on smaller profits.

The only customers who may possibly be put to inconvenience are those who have had long credit. In more ways than one it will be to their advantage to pay cash.

For convenience of our old customers who consider their accounts due when presented, we will call 30 days cash and render all accounts the first of each month, and we wish to say that will be happy to do business with them on those terms.

As the new departure is something of an experiment, what would be considered a close cash price will be made all through the stock. Not a few leaders only, but a general reduction in everything from the fourth flat to the cellar.

Our idea is to perform more than promised rather than promise more than can be fulfilled.

Our stock is large and varied, consisting of **Builders', Contractors', Household, Mechanics'. Painters', Shoemakers', Farm, Mill, Factory, Lumbermen's, Sporting, Threshers', Cabinet-makers', and other lines of Hardware.**

An old saying:—"You should go to Kingan's where you can get anything from a Needle to an Anchor."

IMPRISONMENT FOR LIFE

FOR ATTEMPTING TO MURDER THE WOMAN WHO SCORNED HIM.

McGuire Picks His Handcuffs and Escapes, but Is Recaptured A Listowel Constable shot by a Burglar Whom He Was Attempting to Arrest at Clinton

CLINTON, May 10.—Shortly after 6 o'clock this morning Constables Bulmer (his cousin), Wheatley and Parsley (Clinton) attempted to arrest a young man who was suspected of being the accomplice of the two Detroit thieves in custody at Listowel for burglaries committed in Brussels and Harriston. The burglar was in bed at the Commercial Hotel and was ordered to get up, which he did. He opened fire through the door and the fire being returned by the officers the man made a fault to escape by way of the back window. All but Bulmer rushed down stairs to intercept him and the burglar then made a rush out of his bedroom, being caught by Bulmer, who managed to grasp the burglar's revolver in his left hand. A desperate struggle ensued, during which Bulmer brought the fellow to his knees by a rap on the head with his free hand. But at that moment the robber managed to discharge the revolver, the bullet entering Bulmer's left side, lodging in a rib and cutting a muscle, Bulmer being thus disabled the burglar coolly walked downstairs, and holding some one who happened to be there at the moment (about) morning, walked out of the door and escaped. Pursuit was given, but the man disappeared in West's bush and is still at large.

A BREAK FOR LIBERTY.

Andy McGuire of Cobourg Picks His Handcuffs and Runs.

COBOURG, May 10.—Andrew McGuire, found guilty of attempting to murder Miss Tucker by throwing her in front of a moving train at the Grand Trunk station, was sentenced by Judge Ross yesterday to imprisonment for life in Kingston Penitentiary. In sentencing the accused Judge Ross referred to the shady character borne by the prisoner, to his attempt to kill Miss Tucker's father and to his rebellious conduct while in prison, where he had assaulted and wounded several of his guards.

Judge Ross then sentenced the prisoner to the full extent of the law, viz., to be confined in this provincial penitentiary to the full extent of his natural life. He said that McGuire could not expect any mercy from the higher court, and that the only time he could expect again his freedom were only on the demise of Miss Tucker or on the occasion of her leaving the country.

Governor Colvor then took charge of his prisoners and started to convey them to the jail, 12½ miles away, using his own rig for the purpose, having first handcuffed, as he thought securely, another prisoner named Brown, and McGuire together. When about halfway to the jail McGuire skillfully picked the lock of the handcuff and leaped from the rig, and scaling a barb-wire fence made for a swamp, pursued by two constables, one of whom came to grief at the barb-wire fence, having there deposited his trousers, the other constable gamely kept up the chase and captured McGuire at the edge of the swamp, where if he had entered he would have undoubtedly been safe. McGuire swam a creek and in his condition this action greatly weakened him.

Sang and Danced Before Death.

OTTAWA, Ill., May 10.—Carl Ford, aged 19, was hanged here to-day, was awake bright and early, and after performing his morning ablutions partook of a hearty breakfast. His wife called to see him at an early hour and remained with him nearly two hours. Her grief was intense, and the parting of husband and wife was very pathetic. Ford soon rallied from his depressed spirits and in fully an hour was singing and dancing until he became exhausted. When the sheriff had finished reading the death warrant Ford said: "It is a shame that such a fine young fellow as me must die—and such a death too!" He made a profession of Roman Catholic faith shortly before the execution, and a priest of that religious denomination was with him during the night and again at his side early this morning. The priest walked with Ford to the scaffold and remained with him until the drop fell. Ford maintained his nerve throughout and died firm. His crime was the murder, June 23, 1889, of David Moore, an Omaha traveling man. Ford's wife, Katie, enticed Moore to Allen Park, on the banks of the Illinois River, where he was set upon by Ford and one Bill O'Brien and beaten to death with coupling pins. O'Brien was sentenced to 14 years' imprisonment, and Mrs. Ford yesterday received a similar sentence.

ST. CATHARINES, May 8.—The special committee of the St. Catharines Amateur Athletic Association met last night and appointed sub-committees in connection with the first annual meeting of the association, which will be held on July 1. Valuable prizes will be offered for the several events in bicycle racing, sprinting and other athletic sports, particulars of which will be hereafter given. The Buffalo Athletic Club will be largely represented, as also will be several Canadian athletic clubs, which have communicated with the secretary of the association, T. H. Fitzsimmons. A good track will be placed in order so that fast records can be made. The Wanderers and other bicycle clubs intending taking part in the wheeling outing from Niagara Falls are expected to visit the city and take part in the races.

Natural Gas Companies Responsible.

WINDSOR, May 8.—At the assizes to-day the case of Boult v. the Kingsville Gas Company was decided for plaintiff with $1250 damages. Boult's house was burned through a natural gas explosion.

Deadly Gasoline.

ST. LOUIS, May 10.—Mrs. Fannie Feinburg of No. 1214 North Seventh street was fatally burned by the explosion of a gasoline stove yesterday afternoon.

CHICAGO, May 10.—Fire was discovered in a basement laundry in North Clark-street today. A dozen firemen went into the room to extinguish it. A can of gasoline exploded, throwing the men to the floor and against the wall with great violence. Two of them are believed to be fatally injured, and the others are badly cut, burned and bruised.

CHICAGO, May 10.—Miss Jennie Tapper, aged 19, died in horrible agony here last night of injuries received from a gasoline explosion. Her uncle, Prof. John H. Thomas, principal of the Wells school, and his wife were severely burned and the former will probably die.

NEWFOUNDLAND MATTER

THE LEGISLATORS DISCREDIT THEIR OWN DELEGATION.

They Decline to Entertain the Proposals of Premier Whiteway and Postpone the Question Pending Further Developments —Proposal to Annex New England States

HALIFAX, N. S., May 10.—It is understood that Mr. Mills, Conservative member for Annapolis, will shortly introduce a resolution in Parliament at Ottawa declaring that The New England States should be invited to join the Maritime Provinces and become part of the Dominion.

A cable from St. Johns, N. F., says the colonial delegates at London have become converted to the Knutsford view of the question at issue between Newfoundland and France much more rapidly than the people at home. This was evinced in the Newfoundland Legislature last night when a despatch was received from the delegates requesting the House to pass resolutions confirming the proposals made by the delegates to the British Government. But the Assembly refused to take action until further information was received. The popular sentiment in St. John's is opposed to the passage of any legislation binding the colony to carry out a treaty without some assurance that the French will abandon their claim to exclusive fishing.

The fact is that Sir William Whiteway, although nominally Premier, neither controls his government nor party. The real leader is Mr. Bond, the Colonial Secretary, whose sympathies are all against England and with the United States, and whose every move is made with the view of still further straining the colony's relations with the Mother Country.

Sir William Whiteway being in London, Mr. Bond is now absolute master of the Legislature. He urges that before the colony should be asked to pass such laws the French should give some guarantee that they will abandon their claim to exclusive fishing. This, of course, is impossible, so that the Colonial Legislature will likely make this the excuse for not ratifying the pledges of its delegates.

THE BERING SEA.

Lord Salisbury Intimates a Willingness to Accept a Proposal for a Closed Season.

WASHINGTON, May 10.—The President has determined to have an end of the Behring Sea business. He has called a halt in further proceedings until he can come back here and dictate the exact terms of further correspondence. A private letter received here to-day from a member of the President's party in the West shows that the proposition for a closed season in Behring Sea was made to the British Government by Secretary Blaine as far back as last January. The President has directed that a closed season be proposed and it is probable that his proposition will finally be accepted.

The answer of Lord Salisbury has been slow in coming here, but it has recently been communicated to the State Department by Sir Julian Pauncefote and transmitted by Secretary Blaine to the President. This reply intimates a willingness to accept the proposal for a closed season, but suggests certain conditions which our Government is not yet willing to accept. What these conditions are will be made known at the first meeting of the Cabinet after the President's return. While they may be regarded as embarrassing they probably will not stand in the way of a final agreement.

Lord Salisbury is willing that a joint high commission should investigate the entire question of the collision of the seals in Behring Sea, and such a commission will probably be named at soon as the main question of a closed season is settled. The time for action is brief if the seals are to be saved from another season of destruction, and the correspondence will probably be carried on by cable and ended within a fortnight or three weeks after the president's return. The questions are now in such definite shape that a moderate amount of correspondence will settle them and probably bring about harmonious action between the two countries.

FUNGUS IN THE FRUIT

It Was Swallowed by the Boy and Grew a Sprout an Inch Long.

NEW YORK, May 10.—Frederick Look, a boy of 14, lies dead at the home of his parents, Mr. and Mrs. John Look, at Jackson-avenue, Long Island City. The boy died from acute convulsions, resulting from inflammation caused by his swallowing an orange pit. Young Look swallowed the pit while eating an orange at the residence of his aunt a week ago. He ate the orange in the morning and towards evening complained of severe pains in his left side. He continued in great agony until Thursday, when an operation was performed and the pit was found on the right side of the groin at the point where the large and small intestines meet. It had a sprout fully an inch long. The boy grew better after the operation, and it was thought that he would recover, when peritonitis set in, resulting in his death.

ALLISTON'S FIRE.

A Town That Has Not a Grocery or a Drygoods Store in It.

ALLISTON, May 9.—In the present confusion it is impossible to give any correct idea of the amount of the several losses caused by yesterday's fire and the insurances thereon. The loss is estimated at from $450,000 to $500,000, with total insurances of about $140,000. Not a drygoods nor grocery store is left in the town. The number of buildings destroyed is put at 130, mostly places of business. None of the churches were burned, but every hotel and hall was wiped out. The Government will likely be asked for assistance.

Millions of Feet of Lumber Burned.

GRAVENHURST, Ont., May 10.—The fire which broke out yesterday at Tasker's switch yard destroyed 10 loaded lumber cars. A million and a half feet of lumber belonging to J. T. Harvie and 100,000 feet belonging to Robert Thomson of Hamilton were destroyed. Harvie's loss is covered by insurance. Thomson was uninsured. The fires are still raging and are very close to town.

GLEN GARDNER, May 10.—Walter Clark, the 13-year-old son of Robert Clark, died yesterday, after having been in convulsions for 24 hours. The physicians who attended him say his death was the direct result of cigaret-smoking. Young Clark began to smoke when he was 8 years old.

BRITISH AND FOREIGN.

THE LITTLE WAR IN MANIPUR IS ENDED.

Capture of the Rebellious Regent—The Commander-in-Chief Also Surrenders—A Couple of Blackguards—The Koch Lymph.

CALCUTTA, May 10.—Information has been received to the effect that friendly Manipuris have captured the regent and that the Senapatty (native commander-in-chief) has yielded.

NICE PEOPLE THESE.

Both the Besmirched British Members Traded on Religion.

LONDON, May 10.—A letter received here from Bilboa, Spain, says Edward de Cobain, M.P. for East Belfast, for whose arrest on a serious charge a warrant has been issued, was seen recently at Bilboa with a lady at the religious service at the Seamen's Hall. De Cobain declined to give his address, but professed great interest in religion, and even offered to conduct the services at Seamen's Hall.

Captain Verney will probably have the honor of creating a Parliamentary precedent, besides giving occasion, in company with Mr. de Cobain, for a new statute. His sentence to 12 months' imprisonment followed on his plea of guilty to the charge of conspiring with the woman Romilier to procure another woman for an immoral purpose. Even he social purity zealots do not complain of the sentence as inadequate; the less so, perhaps, since Captain Verney was one of their band, a fact which gives rise to some vain imaginings in reference to some still more notorious County Councillors and other persons who belong to the National Prurient Society. Imprisonment is, indeed, the lightest of Captain Verney's penalties. He had a high social position, and was a naval officer of repute. He is ostracised, cashiered, and on Tuesday will be expelled from the House of Commons.

ANOTHER GLADSTONE VICTORY.

Decisive Liberal Victory in the South Leicestershire Bye Election.

LONDON, May 11.—The Tory victory of Thursday, when Mr. Brymer (Conservative) defeated Mr. Edgecombe (Gladstonian) by 40 votes in the election for member of Parliament held in the South Dorset Division, the seat being left vacant by the death of Lieut.-Col. C. T. J. Hambro (Conservative), was followed yesterday by a decisive victory for the Gladstonians in the South Leicestershire division. The member for South Leicestershire, Thomas Kay Tapling (Conservative), died on April 11, the same day as Colonel Hambro. In the election yesterday, the returns of which have just been announced, Mr. Logan, the Gladstone candidate, defeated Mr. Hardy, the Conservative nominee, by 489 votes, as follows: Mr. Logan, 5082; Mr. Hardy, 5593.

At the last election, Mr. Tapling, who was head of the firm of Tapling & Co., well-known wholesale carpet and Manchester warehousemen, polled 5598 votes, defeating the Gladstone Liberal candidate, James Harris Saunders, by 1158 votes. With 1197 more men voting yesterday, the Liberals won by 439 votes.

THE KOCH LYMPH.

The Prussian Diet Discuss the Efficacy of Dr. Koch's Treatment.

BERLIN, May 10.—The depreciated esteem in which the Koch method is held was plainly expressed during the course of yesterday's debate in the lower house of the Prussian Diet on the vote for the Koch Institute. The supporters of the vote spoke in an apologetic manner. Herr Graff, a member of the Centre party, said it had been widely acknowledged that the lymph was of value as an aid in diagnosis, but the chief interest of the public lay in its curative powers as a remedy for tuberculosis. In this respect there had arisen general disappointment following the high hopes at first entertained regarding the discovery, and only deep enjoyment but fears also that the use of the lymph endangered life. Despite the relative failure of the remedy the discovery of Koch was a scientific achievement of the first order, and the members were therefore bound in honor to concur in the grant asked for. Prof. Virchow opposed the grant and denounced Kochism, asserting that it had proved a failure. He warned the doctors who were using the lymph that they ran a great risk if they persisted in treating their patients with the alleged remedy. After similar observations from other members the vote was passed. It appropriates 165,000 marks ($39,060 for the Koch Institute.

"We Won't Have Fees."

LONDON, May 8.—The Bow-street Police Court was filled this morning with men arrested for creating disturbances in the Adelphi and Strand the street last night while attempting to make a protest against the fee system. The corridors and stairways of the police station were crowded with their sympathizers. During the examination of the prisoners the police exhibited a banner which had been borne into the Adelaide by the protesters and hundreds of handbills distributed by them in both theatres, inscribed, "We won't have fees." Testimony was given as to the behavior of the accused, interruption of the performance in each theatre and the rioting which followed when they were ejected. Two leaders in the demonstration were bound over to keep the peace for three months, two others for 10 and 20 days respectively and the remainder were discharged with a caution from the magistrate.

Foreign Money Markets.

LONDON, May 10.—Discount was in demand during the past week at 4-for 3 months and 4 for short. A fourth raise of the Bank of England is probable in view of the falling off of reserve, combined with the further drain of gold to the Continent. About £3,250,000 in gold is coming from New York, but it is expected that the whole will be bought up on open market for Russia. The Bank of England has raised purchasing price for foreign coin one half penny per ounce in order to retain American and other remittances. There is every prospect of money ruling higher, although the rumors of foreign failures have ceased. Prices on the stock exchange closed flat yesterday, without any sign of rallying. The conviction is general that with the cessation of the gold movement the tone of the market will quickly recover.

At Paris the bourse was less excited yesterday. Distrust in regard to the position of several big financial houses still affects business.

An Unknown Floater.

MONTREAL, May 10.—The body of a man who cannot be identified was taken from the water to-day at Point Aux Trembles.

No June Camps this Year.

OTTAWA, May 10.—It is understood that it has been definitely decided that there will be no June camps this year.

Foundered in the Straits.

TACOMA, Wash., May 10.—The steamer Lucy Lowe has foundered in the Straits of Juan de Fuca with 55 colonists on board.

Laid in a Line or Two.

All on board the Robert and Minnie are under arrest at San Pedro, Cal. They have delivered their cargo, but declined to say anything about Italia.

The name of Hon. Donald Ferguson, ex-Provincial Secretary, Prince Edward Island, is mentioned in connection with the vacancy in the Senate caused by the death of Senator Haythorne.

France is Hopeful

PARIS, May 10.—The report made to the Senate by the Committee on Newfoundland Arbitration Convention, after referring to treaties upon which France bases her claims, concludes by urging the Senate to adopt the bill. The committee looks forward with confidence to the decision of the arbitrators.

Children Cry for Pitcher's Castoria.

LOVE'S VAGARIES.

Sad Tales of Disappointed Affections Told in Last Night's Despatches.

WELLSTON, Ohio, May 10.—Thursday night Joseph Irwin, an exemplary young man of Wellston, was married to Susie Hotchkiss of Berlin, a suburb of Wellston. After the ceremony while the dancing was going on, the bridegroom lost his reason, fled from the home of the newly-made bride and was not found till the next morning.

PITTSBURG, May 10.—Frank Neal, a young sewing machine agent, committed suicide by shooting himself in the left breast in the presence of his intended bride, Miss May Powelson. There is no cause known for the deed.

LOGANSPORT, Ind., May 10.—Martin Griner shot his mistress, Anna Kiestery, dead and then killed himself.

BOSTON, May 10.—In a divorce suit Henry Barnaby testified that his wife went to spiritual seances and played ghost at $3 per night. "At these seances," he said, "one E. L. Thayer was a constant visitor, and got acquainted with my wife. During a dark seance he sat beside Rose and when Mr. Bridge gave orders for a light seance, the turning on of the light caught him hugging her. I came home one time and found the same Thayer on the sofa hugging her and she with her arms around his neck kissing him.

NEW YORK, May 10.—The will of Mrs. Miriam A. Osborn, the widow of the late Charles Osborn, the millionaire stockbroker leaves $700,000 to her son provided he agrees not to marry a wife who, prior to such marriage, had not at any time acted, sung or danced professionally or otherwise performed for hire on a dramatic stage or other place of public amusement or entertainment."

COLUMBUS, Ohio, May 10.—Ralph Homes a convict serving a two-year sentence for passing counterfeit money, gave his name half an hour before his death to the nurse as F. G. Green of Connecticut, and asked that his money be notified. This was done and she ordered the remains sent to Little Falls, N.Y. Yesterday morning two well-dressed ladies called to ask the privilege of burying the body. They were from Ashtabula county, and explained that the convict was engaged to be married to the younger one. They were mother and daughter. They had never believed him guilty, and the wedding was set for July 4, when his term expired. The request was refused, but the faithful fiance took a last look at her dead lover and went away in tears. The body was sent to his mother, who by his death had the first intimation that he had been in the penitentiary.

TORONTO TOPICS.

Sam Small Says He's Devilish - Street Car Drivers Want More Pay.

TORONTO, May 11.—Interviewed last evening with reference to a despatch from Ogden, Utah, in which it was alleged that he had misused the funds of the Utah Methodist University, of which he was president, and had been asked to resign in consequence, Rev. Sam Small said: "I is a devilish lie, and is the work of the secretary, who is trying to undermine my reputation. I have unearthed his rascality. He has got to go overboard and he wants to drag me with him. When I accepted the presidency they offered to allow me $4000 and ordinary expenses. All of this, however, I was to raise out of my lectures, etc. Whatever remained over and above this I was to refund to the university. Naturally I was somewhat taken back. The amount I had netted from lectures, etc., had been about $10,000 per annum. In fact the sum they offered was the smallest I had received since I married. Why, my salary from the courts before I became converted averaged some $6000 a year. My pride, however, would not allow me to reject the proposal, for people would talk if I did, don't you see? I told the board of directors I would try it for a year.

"Talk about me misusing the funds of the university," he sarcastically remarked. "It has not never had any funds. It has nothing but a hole in the ground and a big maw, with which it wants to swallow everything up. I can show vouchers for every cent I have received.

In the last 10 days there have been no less than 37 fires, all of more or less importance. Incendiary fires have been very frequent of late and the firemen attribute them to a gang of mischievous boys.

About 350 employes of the Toronto Street Railway Company, conductors, drivers, stablemen, change boys and others, met yesterday and passed a resolution requesting the following terms on and after May 16, viz: Ten hours a day and $10 a week for conductors, 10 hours and $9 for drivers and 15 cents per hour as a minimum for all other employes except for Sunday work, which is considered worth 22 cents per hour. The hard fate of the stablemen was especially dwelt upon. These men work 84 hours a week for $8.50, and said one of them: "We do more work than the drivers and conductors put together."

The need of a clearing-house for facilitating the business of the banks in this city has been recognized for some time, but up to the present nothing practical has been done in the premises. Now, however, there appears to be every indication of the desideratum being obtained. Friday evening the bankers' section of the Toronto Board of Trade held a meeting, at which the pros and cons were carefully considered. The opinion seems to have been unanimous that the banking business of the city had reached that stage when such an institution had become a necessity. A committee comprising these gentlemen were appointed to arrange the details: Messrs. B. E. Walker, chairman of section) of the Bank of Commerce, D. R. Wilkie of the Imperial Bank, W. Grindlay of the British North America, C. Brough of the Montreal.

Her Injuries May Prove Fatal.

HAMILTON, May 10.—A very exciting run away accident occurred near the corner of King and James-streets yesterday. Mrs. Lloyd, employed as nurse for the children of Mr. and Mrs. P. D. Crerar, Bay-street south, was badly injured and lies in the Hospital in a critical condition, and Miss Ottaway, the young daughter of Mrs. Crerar, and little Harry Crerar were badly bruised and will likely feel the effects of their terrible experience for some time. Mrs. Lloyd and the children were out driving when the horse took fright and ran away throwing the occupants on the roadway. Mrs. Lloyd's injuries consist of a contusion on the forehead; her body and head are bruised, but no bones are broken. Miss Ottaway and little Miss Crerar were not badly hurt.

They Put Spikes on a Railway Track at the Only Dangerous Point.

OMAHA, May 10.—Two boys playing at "blacksmithing" on the tracks of the Union Pacific Railroad drove a number of spikes in a sleeper and then beat the irons downwards and over the rails. As a result of this a train was derailed, an engine smashed and George Gleason, an engineer, was killed. At the inquest the chief witness was 9-year-old Harry Bush, one of the juvenile "blacksmiths." He said that he and another boy had often "played blacksmith," but had never before used the railroad tracks as an anvil. Railroad men say that had the spikes been placed at any other point no accident would have resulted.

Part of the Business.

Minister (to real estate agent)—If you are truly converted you will think of others and deny yourself. You——

Real Estate Agent—That's me, parson! Why all Winter I've been wearing a straw hat and linen duster to make newcomers from the East think this is the "Italy of America."

Everybody Knows

That at this season the blood is filled with impurities, the accumulation of months of close confinement in poorly ventilated stores, workshops and tenements. All these impurities and every trace of scrofula, salt rheum, or other diseases may be expelled by taking Hood's Sarsaparilla, the best blood purifier ever produced. It is the only medicine of which "100 doses one dollar," is true.

J. C. Turnbull.

—AT—

TURNBULL'S

They are constantly opening out new goods. To-day we are showing a large lot of Wool and Union Carpets just turned out of the loom, all new patterns. House keepers will do well to remember us; 36 in. Union Carpet at 35c, the old price was 50c. Heavier grades at 45c, 50c, and 60c. The all-wools range from 75c up to $1.00.

Lace Curtains, Cream and White ranging in price from 60c. a pair up to $5.00. Curtains were never so cheap and handsome as they are this season. You will be surprised to see what we can give you at $1.25 a pair.

Art Muslins in single and double widths at 10c up to 20c a yard.

The attention of our Policy-Holders is directed to the following summary of the leading items of the present report, which speaks for itself as to the progress and prosperity of the Company:—

Life Assurances in force, 1st January, 1891	$16,759 355 92
Increase over previous year	3 421,372 84
New Applications received in 1890	6 371 599 15
Increase over 1889	2 268 888 60
Cash income for year ending 31st December, 1890	889 078 87
Increase over 1889	325 938 35
Assets at 31st December, 1890	2,473 514 19
Increase over 1889	647,691 47
Reserve for Security for Policy-Holders	2,109 222 68
Increase over 1889	567 732 71
Surplus over all Liabilities and Capital Stock	232 175 69
Increase over 1889	75 649 05
Death claims fallen in during 1890	143,961 65

The progress made by the SUN LIFE during 1890 was remarkable. The new business was the largest in the Company's history, and was equalled by but one other Canadian Life Company. The income for the year exceeds $2,000 for each day in the year, Sundays included. The Assets are large and rapidly increasing. They are, moreover, of the highest character, yielding an average interest of 6.04 per cent. The overdue interest is small, and the Real Estate owned under foreclosure is only four per cent. of the amount of mortgages. This is a remarkable showing. The SURPLUS accumulated during the FOUR years of the current quinquennium is nearly THREE TIMES as much as the amount earned during any previous FIVE years, and the profits to Policy-holders cannot fail thus to be highly satisfactory. The following are the figures:—

Net Surplus, 31st Dec., 1881, (five years)	$64,824 07
" " " " 1885, "	89,452 97
" " " " 1890, (four years)	232,175 69

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

ARE NOT a Purgative Medicine. They are a Blood Builder, Tonic and Nerve Restorer, as they supply in a condensed form the substances actually needed to enrich the Blood, curing all diseases coming from Poor and Watery Blood, or from Vitiated Humors in the Blood, and also Invigorate and Build up the Blood and System when broken down by overwork, mental worry, disease, excesses and indiscretions. They have a Specific Action on the Sexual System of both men and women, restoring Lost Vigor and correcting all Irregularities and Suppressions.

EVERY MAN Who finds his mental faculties dull or failing, or his physical powers flagging, should take these PILLS. They will restore his lost energies, both physical and mental.

EVERY WOMAN should take them. They cure all suppressions and irregularities, which inevitably entail disease when neglected.

YOUNG MEN should take these PILLS. They will cure the results of youthful bad habits, and strengthen the system.

YOUNG WOMEN should take them. These PILLS will make them regular.

For sale by all Druggists, or will be sent upon receipt of price (50c. per box), by addressing

MONDAY, MAY 11, 1891.

High School Legislation.

The High School legislation of the last session is the most important of the kind that has passed the House since 1871. The statute of that year gave an impetus to the progress of secondary education which has placed the High Schools among the most popular of our educational institutions. The experience of the past has suggested the valuable changes lately introduced in the law, and it may be fairly assumed that these alterations will have a marked effect upon the progress of High Schools and collegiate institutes. Important amendments have been made regarding the mode of appointing trustees, the status of High School districts, and the constitution of boards for conducting the entrance examination. This last change in the law is one that has special interests to the teaching profession. It has been found that the chairmen of school boards are not always qualified to act as examiners, and there is a generally accepted belief that those actually engaged in teaching are the persons best fitted to act in that capacity. Hereafter the Public School Inspector, the principal of the High School or collegiate institute, and two representatives properly qualified and appointed by the Public and Separate School Boards respectively will constitute the examining board

By far the most important amendments to the law are those which relate to the financial support of the schools. At present these institutions receive

THEIR SUPPORT MAINLY FROM FOUR SOURCES

(1) Legislative appropriation, (2) fees of students, (3) county grants and (4) local municipal grants. No change is made as regards the first, which has always been a matter to be determined by regulations. The present regulations work well. Years ago the Legislative appropriation was distributed on the basis of average attendance. A change became imperative, and the system of "payments by results" was carried out by the late Minister of Education. Then came the plan which the present Minister of Education has followed for years with satisfaction to all classes of schools. In effect trustees who employ good teachers and provide a good equipment for their schools obtain a large share of the Legislative appropriation, while trustees who are satisfied with bad accommodation, insufficient equipment and cheap teachers must put up with small Government aid. The system may be regarded as payment of those factors which produce good results, and its outcome has been better buildings, improved equipment, and higher salaries to teachers who really have most to do with the advancement of the High School or collegiate institute.

In the matter of fees a sensible change has been made in the law. To make all the school free or to require all students to pay fees would not be in keeping with the democratic features of our educational system. Some schools have prospered under the system of fees and others have made equal progress by remaining free schools. The new law

RECOGNIZES THE VARIED CIRCUMSTANCES

of each locality and leaves the matter to be adjusted by the parties immediately concerned. An important change has however been made in giving the county and district each its say regarding the imposition of fees upon county and resident pupils respectively. Under the amended act the county and the district have to bear their respective shares of the cost of maintenance, and it is only fair that each should have freedom in determining whether or not a part of its proportion should be paid in fees. This settles a vexed question in a fair manner, and it will be interesting to observe the effect upon future actions of boards and County Councils.

Still more important will be the effect of the law that has to do with the obligations of County Councils and trustees respecting the county and municipal grants. Up to the present counties have not been obliged to give more aid to the schools than an amount equivalent to the Government grant. In many instances the amount has come far short of paying the share of the cost of maintenance for county pupils. Many High School Boards have complained that after taxing the district for the cost of the buildings, it was only fair that the county should pay its proportion of the current expenditure as shown by the attendance of county pupils. The new law makes clear that the district must meet the cost of permanent improvements, but makes it obligatory on the County Council to pay its share of the cost of maintenance. If

THE EQUIVALENT TO THE GOVERNMENT GRANT

is sufficient to meet this cost the county is under no further obligation. When a school is settled to a further sum the law is clear and the machinery simple for securing such an amount as can be equitably claimed. The county and the district each pay for the work done, and the soundness of the principal can scarcely be called in question. The sections of the act which deal with cities and towns separated from the counties will remove an injustice that has long been felt; in all cases there is a prospect of having grievances removed. It is more than probable that many schools will be much benefitted by this change in the law, and when more than the equivalent to the Government grant cannot be claimed it may be assumed that the attendance of county pupils would not justly entitle them to a larger amount. It will be a simple matter for any board to determine how far its finances will be affected by the change in the statute.

In any case the amendments to the act have much to commend them, and have been brought about only after a large amount of consideration on the part of High School masters and trustees. The almost unanimous approval which the most important changes have received in the Legislature is a evidence that the Province is proud of its system of education and ready to accept any amendments that will tend to promote the greater efficiency of our High Schools and collegiate institutes.—*Globe.*

Not many physicians make great therapeutic discoveries. For the most part they content themselves with administering judiciously what is prescribed in the books. To Dr. J. C. Ayer, however, is due the credit of discovering that greatest of blood purifiers—Ayer's Sarsaparilla.

Overworked, broken down, permaturely aged men or those suffering from excesses or indiscretions will find a certain cure in Dr. Williams' Pink Pills. They supply the material necessary to enrich the blood, build up the nerves and restore the shattered system. Never fail. Sold by all dealers, or sent on receipt of price—50c. per box, or five boxes for $2—by addressing The Dr. Williams Med. Co., Brockville, Ont. 63l10w

Children Cry for Pitcher's Castoria.

Our Crown Lands.

The annual report of the Commissioner of Crown Lands, is a volume of more interest than the majority of Government returns, containing as it does a comprehensive statement of the management of the Province's great stores of wealth. It shows that the total collections of the department were $1,113 052 and the total disbursements $290 953. The area of clergy lands sold during the year was 780 acres, aggregating in value $1,219.76. The amount collected on account of these and former sales was $6,037.88. The area of Crown Lands sold during the year was 50,045 acres, aggregating in value $79,847.29. The collections on account of these and sales of former years amounted to $74,031.78. The area of common school lands sold during the year was 220 acres, aggregating in value $766 50. The collections amounted to $11,758.24. The number of acres of grammar school lands sold during the year was 534, aggregating in value $367. The collections were $1,538 27. Under "Railways Aid Act" of 1869 certain lands were set apart to be sold for the purpose of forming a fund to recoup the province in respect of moneys expended in aiding railways—of these lands 9 406 acres were sold, aggregating in value $18,557 20. The collections were $11,562 56.

The total collections from woods and forests for the year amounted to $916,156.67, which includes $135,479.53, on account of bonuses, leaving the revenue from timber dues, ground rent, etc., to be $780,676 14.

The revenue from woods and forests is somewhat below the estimate, which is accounted for by the collapse in the square and waney board timber trade, there being very little demand for this class of timber during the past year. The report goes on to say this reduction of the import duty upon sawn lumber going into the United States from $2 to $1 per thousand feet board measure came too late in the year to have very much effect on last season's business, although there was a stiffening towards the close of the year, due, no doubt, to the reduction in question. The quantity of timber being cut this year is very small, and there is also a reduction in the output of logs. It is reasonable, therefore, to expect for the coming season a fair business at remunerative prices, and that the reduction of the American import duty will enlarge our market to some extent—more particularly for the coarser grades of lumber.

In order to enable those owning mills in the north-west part of the Province to obtain supplies of timber, in harmony with the policy prevailing in other parts, it was determined to hold a sale of a limited area of timber berths as soon as the necessary surveys and explorations could be completed. The sale was held on the first of October last and there was a large attendance. Four hundred and eighty-five miles were offered, all of which, except 18½ miles, were in the territory west of Thunder Bay. Three hundred and forty three and three-quarter miles were knocked down to the day of sale, for $321,956 25, and thirty-three miles were sold subsequently at the upset price, realizing $24 300, making a total mileage sold o 376¾, realizing $346 256 25, or an average of $919 05 per mile bonus for the mere right to cut this license. There has been paid on account $110,729.53, leaving due ending $235,526.72.

The work during the year on colonization roads was as follows: Miles of new road constructed, 180; miles of road repaired, 400; bridges erected 30; bridges repaired, 12 The work done was carefully inspected and reported to be of a satisfactory and substantial character. The total expenditure was $127,577 60, of which certain items amounting to $2,770 20 were refunded, leaving the net departmental expenditure to be $123,807.40.

A Cure for Constipation and Headache.

Dr. Silas Lane while in the Rocky Mountains, discovered a root that when combined with other herbs, makes an easy and certain cure for constipation. It is in the form of dry roots and herbs, and is known as Lane's Family Medicine. It will cure sick headache, and is the best spring medicine. For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50c. and $1 a package. dw

A True Bill.

Wm. Gillespie, Wolfe Island, Ont., says: I had indigestion and stomach cough for three years. Was treated by best physicians and used numerous patent medicines without success, when two bottles of Miller's Emulsion of Cod Liver Oil cured me. I have great pleasure in recommending it. For sale by all druggists. dw

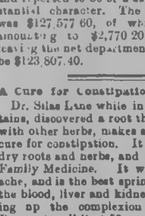
THE RED COLOR of the blood is caused by the Iron it contains. Supply the iron when lacking by using Milburn's Beef, Iron and Wine. dw

The Safest

AND most powerful alterative is Ayer's Sarsaparilla. Young and old are alike benefited by its use. For the eruptive diseases peculiar to children nothing else is so effective as this medicine, while its agreeable flavor makes it easy to administer.



"My little boy had large scrofulous ulcers on his neck and throat from which he suffered terribly. Two physicians attended him, but he grew continually worse under their care, and everybody expected he would die. I had heard of the remarkable cures effected by Ayer's Sarsaparilla, and decided to have my boy try it. Shortly after he began to take this medicine, the ulcers commenced healing, and, after using several bottles, he was entirely cured. He is now as healthy and strong as any boy of his age."—William F. Dougherty, Hampton, Va.

"In May last, my youngest child, fourteen months old, began to have sores gather on its head and body. We applied various simple remedies without avail. The sores increased in number and discharged copiously. A physician was called, but the sores continued to multiply until in a few months they nearly covered the child's head and body. At last we began the use of Ayer's Sarsaparilla. In a few days a marked change for the better was manifest. The sores assumed a more healthy condition, the discharges were gradually diminished, and finally ceased altogether. The child is livelier, its skin is fresher, and its appetite better than we have observed for months."—Frank M. Griffin, Long Point, Texas.

"The formula of Ayer's Sarsaparilla presents, for chronic diseases of almost every kind, the best remedy known to the medical world."—D. M. Wilson, M. D., Wiggs, Arkansas.

Ayer's Sarsaparilla,

PREPARED BY

Dr. J. C. Ayer & Co., Lowell, Mass.

Price $1; six bottles, $5. Worth $5 a bottle.

VALUABLE HOUSEHOLD Property For Sale BY TENDER.

TENDERS WILL BE RECEIVED for the purchase of the following properties:

Being Parts of Lot No. 2, North of Simcoe Street, and East of Water Street, in the Town of Peterborough

At $—— per foot frontage, en bloc, or separately, to the Twentieth Day of May, instant, at noon, addressed to the undersigned and marked "Tenders re Albert Hall Estate."

Parcel No. 1.

Part of said lot, containing 1,347 square feet, more or less, and more particularly described as follows: Commencing where a post has been planted 119½ feet east from the south west angle of town lot, No. 1, east of Water street, and north of Simcoe street, thence east 26 feet on Simcoe street, thence north 80 feet, thence west 25 feet to a Lane 19½ feet wide, thence 80 feet to the place of beginning. This property is a corner lot in the centre of the town, and a very desirable property for a residence. There is situated on it a story-and-a-half plaster house. It is immediately opposite the residence of George Dunsford, Esq.

Parcel No. 2.

Containing 3623 square feet, more or less, and having a frontage of 43 feet on Queen street, with a depth of 85 feet to said Lane. On this property is a two story double brick house, and being Nos. 15 and 17 Queen street, with rooms over brick kitchens, good cellars, hard and soft water and outbuildings. This street is opposite front of St. John's church.

Parcel No. 3.

Immediately south of and adjoining Parcel No. 2, having a frontage of 40 feet on Queen Street, by a depth of 85 feet to the said lane. On this property is a very desirable brick dwelling, two storeys, and brick kitchen, good cellar under the whole house, woodshed, hard and soft water, etc. There is also thereon one Brick Bake Shop, with cellar and ice house, with access thereto from the lane. From their proximity to the centre of the town these properties are always in demand.

TERMS.—The Vendors will prepare conveyances at their own expense, and will produce only the title deeds and evidences of title in their possession. Ten per cent. to be paid when notice given that tender is accepted. Balance within thirty days, without interest. Fifty per cent. of amount may remain secured on property at six per cent.

The highest or any tender not necessarily accepted. For further particulars apply to Messrs. A. COMSTOCK or H. LONG, Trustees, Or to

THE PETERBOROUGH BOOKSTORE.

CHANGE IN BUSINESS.

I beg to announce to my late customers that I have sold out my business to Messrs. Hilliard & Peplow, and I would bespeak for them the same support as has been accorded me.

C. N. BROWN.

ANNOUNCEMENT.

For some time past we have thought a strictly cash business in Flour, Feed and Provisions could be successfully carried on in Peterborough, and so test this question, we have purchased the above business from Mr. C. N. Brown who will still continue as manager in Flavelle's old stand, Simcoe street.

In order to be successful we intend to make it the interest of everyone to pay cash with order by selling at wholesale prices.

We will positively give no credit and cash customers will not have to keep up the losses made by others on the credit system.

We will keep a full supply of the very best quality of Flour, Feed, Chop, etc., and our customers need not fear that the quality of the goods will be lowered to make up for the reduction in prices. We are simply giving them the benefit of the margin necessary to cover losses and interest charges incurred on the credit system.

Goods delivered to any part of the town or Ashburnham.

THE PRINCE O" SEDAN.

GERMANY'S STRATEGIST DIES FULL OF YEARS AND HONORS.

He Passes Away Suddenly After Attending the Reichstag—Great Sorrow in Germany—Brief and Succinct Sketch of His Honorable Life and Work.

Field Marshall Count Von Moltke died on April 24. He attended the session of the Reichstag during the afternoon; but in the evening died of heart failure, quietly and painlessly, at 9:45. The news of the Count's death has caused universal sorrow throughout the whole German

Count Helmuth Karl Bernhard von Moltke, field marshal of the German empire, chief of the general staff, was descended from a well known Mecklenburg family, and was born at Parchim, October 26, 1800, in the neighborhood of which place his father, a former officer of the Mecklenburg regiment, possessed the estate of Gnewitz.

Soon after Hellmuth's birth his parents settled down in Holstein; and thus the boy, in his 12th year, went to Copenhagen in order to devote himself in the barracks there to the military profession.

In 1822 he entered the Prussian service, as a lieutenant in the 8th infantry regiment, and studied in the military academy.

The war had nearly ruined his parents, and the young officer was thrown entirely on his own resources. After having spent some time in the School of Division of Frankfort-on-the-Oder Moltke was entered into the general staff. In 1835 he undertook a tour in Turkey, which brought him under the notice of the Sultan Mahmoud, who advised with the young Prussian officer on the reorganization of the Turkish army.

Moltke remained several years in Turkey, and in 1839 took part in the campaign of the Turks in Syria against the viceroy Mehemed Ali of Egypt and his adopted son Ibrahim Pasha.

In 1845, having returned to Prussia and published an account of his Turkish experiences, he became adjutant to Prince Henry of Prussia, then resident in Rome, and after his death, in 1847, was engaged in connection with the general command on the Rhine, becoming in 1848 a member of the grand general staff, and in 1849 chief of the staff of the 4th army corps, in Magdeburg.

In 1858 he was advanced to the rank of chief of the Grand General Staff of the Prussian army, and in 1859 became a lieutenant-general. In the Austro-Italian war Moltke was present in the Austrian headquarters. After the conclusion of peace he spared no pains that he might fully develop the capacities of the Prussian general staff and the Prussian army. When the war of 1864 against Denmark broke out Moltke sketched the plan of the campaign, and assisted in its execution, acting similarly in the case of the war of 1866.

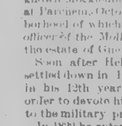
The whole plan of the Bohemian campaign was due to the lieutenant-general, who was personally present in the battle of Koniggratz, which he led, and in like manner arranged the bold advance of the Prussian columns against Olmutz and Vienna, and negotiated the armistice and the preliminaries of peace. For these services he received the order of the Black Eagle and a national donation. To "Father Moltke" (Vater Moltke), as he was familiarly termed in the German army, and his brilliant strategy are ascribed the splendid victories of the German arms in the Franco-German war. He was practically the commander-in-chief. The whole plan of the campaign was due to him. In recognition of his unrivalled services, Moltke was made the chief marshal of the German empire (September, 1871), again received a national donation, and was created count 1872.

The illustrious marshal, who was generally regarded at the time of his death as the first strategist of the day, received from the czar the order of St George, the highest military decoration of Russia, in October, 1870, and from his own sovereign the grand cross of the order of the Iron Cross, March 22, 1871. An English translation of his observations on the Influence That Arms of Precision Have on Modern Tactics was published in London 1871.

ROBERT LOUIS STEVENSON.

Sketch and Portrait of an Author Now in the Southern Pacific.

There is a man living on the island of Upolu, in the South Pacific, who within ten years has won and to-day holds the highest place in contemporary English literature. In imagination, in insight, in the power to charm with words and to interest with ideas, his genius is of the very first order. His master in the management of the noblest of languages does not exist. Wherever Robert Louis Stevenson sits is the head of the table.



At present he is telling of his wanderings in the South Seas in quest of an ideal home in the great daily papers, and uncommon interest is felt in his letters, for he is describing his life and pleasurable adventures amid scenes of loveliness and among the delightful savages and semi-savages of the tropical islands that have captivated his imagination and claimed him as their own. Mr. Stevenson is in love with his present subject, and he writes with a pen dipped in enthusiasm for the far away and fascinating region which has now become one of the great literary centres of the world.

The novel and instructive pictures accompanying the narrative are hardly less notable than the letters themselves. For the first time Mr. Stevenson appears as the illustrator of his own writings.

Science Notes.

A learned Frenchman says the way to overcome the disagreeable crackling in a telephone is to leave a small air space underneath the diaphragm, which can be done by lining the telephone boxes with felt.

Experiments recently made with armor plates prove that oil hardening or annealing is necessary for steel plates. Plates not treated with oil were badly shattered, while those oil-hardened the projectiles rebounded.

Children Cry for Pitcher's Castoria.

THE WORLD OF WOMEN.

FADS, FANCIES AND FASHIONS OF THE GENTLER SEX.

The Reputations Some Women are Making in this Busy World—The Employments They Affect—The Latest in Materials and Styles in Women's Wear.

The summer breezes will be gay with fluttering ribbons.

The skirt must give round the feet, hence the retirement of the mohair braid.

Miniature swords and scimitars are used alike for hair ornaments and letter-openers.

A return to the Watteau styles has revived the deep flounce of net for the sleeves of evening dresses.

There are only two kinds of bodices in favor for the street—the coat-tail bodice and the coat bodice.

Congratulation cards are done in India ink while the birthday favors represent dainty water colors.

If you want to be happy get yourself a black net dress and have it jetted till it is as heavy as a piece of armor.

Annie L. Kelly, the new reading clerk of the Colorado Senate, is but 19 years of age, and is an elocutionist of some repute in the west.

Mrs. Catherine T. Shipley, who died in Salisbury, Md., last week, claimed direct descent from Lord Bacon through her father.

New garters made of crinkled rubber in gem colors are clasped with silver or Roman gold buckles, each set in a rosette of ribbon no bigger than a blinker.

Richly cut salt-cellars of old English designs are supplanting the silver-topped cruets to a considerable extent, but the higher price prevents their general use.

Get a bright plaid dress of silk or rough Scotch goods, put a velvet yoke in the waist and a narrow bias velvet ruffle about the skirt and you will have a very stylish outfit.

For afternoon the colonial slipper is worn. This dainty boot is somewhat extravagantly heeled, a large flat covers the arch of the foot and a buckle of burnished steel is added as a finish.

Ruching, plaiting and ruffling on street dresses only extend across the front and side gores. The fan plaits in the back have become tiresome, and for variety modistes are trying gathers.

The ex-Empress Eugenie is a very forgiving woman, and as generous as she is unfortunate. She has doubled the income of Prince Victor, who will now have $30,000 a year upon which to support the dignity of his imperial pretensions.

Prince Lolgorouki, the perennial admirer of Mrs. J. C. Ayer and her millions, is now at Monte Carlo, dividing his time between the widow and the board of green cloth, upon which, it is said, the croupiers are raking in big piles of his Napoleons.

Now that everything is being trimmed it may be stated by way of suggestion that the most artistic toilets are monotone. A darker shade will trim a light fabric and black may be combined with any color but brown. Green is nature's color, and there is nothing, not even forget-me-not blue or trying violet that will not go with it.

Perhaps the most attractive cape on the promenade is an innovation reaching below the waist, made of black cloth, nailed with jetted tacks the size of a silver dime and lined with silk as red as the flag of Anarchy. A collar well wired reaches half way up the head and the fronts are invisibly hooked. The nail heads completely cover the cloth, and in the sunlight or gaslight the effect is dazzling.

Mamma (to her little boy). "Now, Bennie, if you will be good and go to sleep, mamma 'll give you one of Dr. Ayer's nice sugar-coated Cathartic Pills, next time you need medicine." Bennie, smiling sweetly, dropped off to sleep at once.

Ask Your Friends About It.

Your distressing cough can be cured. We know it, because Kemp's Balsam within the past few years has cured so many coughs and colds in this community. Its remarkable sale has been won entirely by its genuine merit. Ask some friend who has used it what he thinks of Kemp's Balsam. There is no medicine so pure, none so effective. Large bottles 50c. and $1 at all druggists. dw

A Minute a Day.

A minute a day devoted to taking a dose of Burdock Blood Bitters will cure any case of constipation, dyspepsia, biliousness, or bad blood, and may save weeks of sickness and dollars of loss. There is nothing better than B. B. B. 2w20d

Severe Cold Cured.

DEAR SIRS.—My mother was attacked with a very severe cold and cough. She resolved to try Hagyard's Pectoral Balsam, and, on so doing, found it did her more good than any other medicine she ever tried. MRS. KENNEDY, Hamilton, Ont. 2w20d

Directly and Indirectly.

Kidney complaint, dropsy and similar troubles depend directly on wrong action of the kidneys and indirectly on bad blood. Burdock Blood Bitters regulates the action of the kidneys and cleanses the blood from all impurities, in this way curing kidney complaint, dropsy, etc. 2w20d

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Ahead of Koch's Lymph.

Charles Campion, Kingston, Ont., says:—Gained 7 lbs. with one bottle of Miller's Emulsion of Cod Liver Oil. Cured bad Bronchial Cough with a few doses and made me feel like a new man. I strongly recommend it. All druggists keep it. dw

Will be found an excellent remedy for sick headache. Carter's Little Liver Pills. Thousands of letters from people who have used them prove this fact. Try them. dw

Have You Tried

Imperial Cream Tartar Baking Powder. It is the purest of the pure. All grocers sell it. 8 th s-w

SOME SYMPTOMS OF WORMS are:—Fever, colic, variable appetite, restlessness, weakness and convulsions. The unfailing remedy is Dr. Low's Worm Syrup. dw

"MANY MEN, MANY MINDS" but all men and all minds agree as to the merits of Burdock Pills, small and sugar coated. dw

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents. Five for $1. Sold everywhere, or sent by mail.

Self Application of Electricity

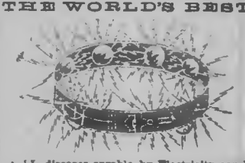
FOR MEDICAL PURPOSES BY THE

DORENWEND ELECTRIC BELT

And Attachments.

HEAD OFFICE—103 Yonge St., Toronto.

THE WORLD'S BEST.



ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and is the best in the world; we defy anyone to bring proof to the contrary.

Do not class this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you wish to experiment with cheap articles, buy THEM; but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. J. D. TULLY, Agent, Peterborough eod-w

Out Goes the Goods

Prices does it. When we say things are to go, they go. We mean everything we say. Goods at first cost and less, to clear. No wild statements; absolute facts. $9,500.00 to be cleared in thirty days, and they are going—fast. KNOWLES & Co. 670w

Don't Forget the Tower Tea in the George Street Methodist Church To-Night.

A False Fire Alarm.

The firemen were called out last night about nine o'clock to extinguish the smouldering embers of Denne's old mill, which were being fanned by the wind into renewed life. Some person with more enthusiasm than discretion rang the town alarm bell and caused a needless scare.

Changed Hands.

Mr. John Gies has purchased the balance of Mr. M. Carton's stock, and is opening up in Mr. Taylor's store, George street south, next to Mr. Moore's Marble Works, where he intends giving the public such value for their money that he is sure to do a lively dashing trade. His store will be known as the Bon Marche. 1d

St John's Congregational Reception.

St. John's school house has been beautifully fitted up as a drawing room for the semi-annual congregational reception to-night. The EXAMINER is authorized to say that a general invitation is extended to members of the congregation, it being necessary, however, on account of the limited size of the rooms, to request persons under the age of fifteen not to be present.

The Commissariat.

Arrangements have been made for the billetting of the Governor General's Foot Guards while in Peterborough. The regiment will go into camp on Burnham's Point, but mess at the hotels. The officers will be quartered at the Oriental hotel, the band at the Morgan House, the sergeants at the Snowden House, and the men at the Grand Central, Balmoral and other hotels.

The End Has Come.

Mr. R. W. Muncaster this morning received a telephone message stating that Mr. H. H. Crosby, sr., died at Bowmanville on Sunday, from the effects of the paralytic stroke from which he has been suffering for about a week. The end, though not unexpected, will nevertheless be learned with deep regret by Mr. Crosby's many friends. The remains will be brought home on the nine o'clock train to-night for burial.

The Depredations of the Cows.

Several residents of the north ward complain of the serious inroads made in that part of the town by wandering cows. It is complained that the cows are turned adrift in the country lanes and roads to pasture. Having filled themselves, the animals drift homeward and amuse themselves in tramping holes in newly-formed boulevards and lawns, rubbing down shade trees, soiling walks and committing no end of trouble and annoying depredation, making it impossible to preserve the exterior of premises in any state of neatness and orderliness. Just a day or so ago a south ward cow owner paid $5.00 fine for allowing his cow to run at large. If, say some of the residents, the police would interest themselves in the welfare of the north ward people, and cause the imposition of a few fines, the owners who ignore the provisions of the cow bylaw, would find such payment for pasturage rather expensive.

Children Cry for Pitcher's Castoria.

The New Fife and Drum Band.

On Saturday evening the recently organized fife and drum band of the 57th Battalion had its first rehearsal, and the boys gave an excellent account of themselves, showing that bandmaster Miller's instruction bears good and speedy fruit. The band is composed of fourteen flutes and piccolos, two snare drums, cymbals and triangles. A properly balanced band like this produces really good music. It will not be long before the fife and drum band will make its first public appearance. It will make its formal *debut* on July 1st, when the Rangers go to Ottawa to play the return match in the game of hospitality with the Governor-General's Foot Guards, who will be our guests on May 24th and 25th. The band of the Guards while in Peterborough will be the guests of the 57th band, and a splendid programme of military band music will be presented at the concert to be given on the evening of the 25th. The programme will be opened with the performance of the National Unity Grand March by the combined bands of the Guards and the 57th.

A Past President's Jewel.

At the last regular meeting of Lansdowne Lodge of the Sons of England the Past President, Bro. F. G. Mitchell, was presented with a Past President's jewel. Bro. Mitchell is a popular and active member of the Order whom his brethren delight to honor, and in presenting him with this handsome token of their esteem, they have given a practical expression of their feelings towards him which Mr. Mitchell will be able to appreciate, and all the more on account of its rarity. It is not every Past President who is deemed worthy of such a gift. Mr. Mitchell has passed through the successive chairs in his lodge and is truly entitled to the honor done him. The presentation was made by Bro. Swaine, of Toronto, Supreme Grand Past President of the Order, who spoke in highly complimentary terms of Bro. Mitchell as a Son of England and as a citizen, echoing the sentiments of all the members of the lodge. Bro. Mitchell replied briefly, expressing his sincere thanks and assuring the brethren that he had the interests of the lodge and the Order at heart, and would always work to advance the good cause, as he had in the past.

Chancery Spring Sittings

Hough and Miller and Youmans vs. Young Disposed of.

The Chancery Spring Sittings were closed on Saturday, the following cases being disposed of:

HOUGH VS. MILLER *et al*.—This was an action of ejectment brought by Mrs. Jane Hough, plaintiff, against Mr. and Mrs. Wm. Millar, defendants, to recover possession of a house and lot known as 289 Bridge street. The plaintiff claimed as devisee under the last will of the late John Paterson, deceased, and alleged that the defendants were only tenants from month to month of the deceased. Mrs. Miller alleged that she employed the deceased to purchase for her a house and lot for $750, which money the deceased was to advance for her, and by way of security for the loan he took the conveyance of the lot in his own name; that Mrs. Millar was to repay the purchase money in ten years by paying the deceased $60 per year, doing his washing and mending and giving him the right to use a bedroom in the house if anything should happen to him; that pursuant to this agreement, which was a verbal one, about the first day of August, 1876, the defendants entered into possession of the house and have since remained in possession; that at the expiration of the ten years the deceased thought that the transaction had not paid him and the time was extended five years more on the same terms, but in case the deceased should die in the meantime Mrs. Miller was to be entitled to a conveyance of the lands. His Lordship, after hearing the evidence, concluded that the weight of evidence was in favour of the plaintiff, and accordingly gave judgment for the plaintiff with costs. Mr. G. H. Watson, Q.C., and Mr. G. M. Roger for plaintiff; Mr. W. A. Stratton and Mr. R. R. Hall for the defendant.

YOUMANS VS. YOUNG.—This was an action brought by Eleazur Youmans, of Belmont, to recover from Wm. Young, of the same township, damages for trespass in cutting timber. The action involved a matter of boundary line. Judgment for plaintiff for $45 and costs. Mr. Burnham, Q.C., for plaintiff, Mr. Stone for defendant.

Y. M. C. A. Notes.

The "Young Men's Rally" on Saturday evening was well attended and those present enjoyed much blessing and profit from the impressive address of Mr. W. D. Smart. The after-meeting was a heart searching time.

The Consecration service Sabbath morning was led by Mr. R. M. Russell, and a very profitable time was spent in the study of God's work and prayer.

Mr. W. D. Smart's address at the Personal Purity meeting yesterday afternoon was pointed and practical and will bear fruit. The orchestra led the singing in an acceptable manner and added much to the interest of the service. The attendance was good.

The Gospel and Song service last evening was addressed by Mr. M. Camming, whose earnest address carried conviction to the hearts of all present.

Young men's Bible class Tuesday evening from 8 to 9 p.m. topic, "The right use of the Sabbath," Mark 2 23 28, 3 1 6.

We were pleased to receive from our friend Mrs. Garland, on Saturday, 3 handsome geraniums for our rooms. These gifts are very acceptable for they add beauty and attractiveness to our rooms. We thank our friend very much.

A special meeting of the ladies auxiliary will be held to-morrow afternoon at 3.30 for the purpose of arranging for a "lunch room" to be opened in the vacant store room on George street, "Rowse's old stand," on Monday, 25th May. All ladies interested in our work and willing to assist are cordially invited.

Personal.

Mr. W. J. Montgomery, late of Lindsay, has been added to the Ontario bank staff.

Mr. H. LeBrun and bride have returned from their wedding trip and are to-day receiving the congratulations of their friends.

Mr. Percy Rutledge of Chicago has returned home from a month's vacation, to recup rate for a recent illness.

Mr. A. G. Dickson, who has purchased for spot cash the stock of Mr. James Dixon's grocery establishment, has just returned from Montreal with a fine assortment of choice dry goods.

In another column is announced the wedding at Minneapolis, of Mr. M. B. Orde, a former townsman of Peterborough boy, to Miss Thompson of that city. Mr. Orde's friends in town will extend their heartfelt congratulations and best wishes to the young couple.

Church Chimes.

Rev. Mr. Roberts, of Uxbridge, occupied the pulpit of the George street church Sunday morning and evening, and preached two admirable sermons. His evening effort was especially interesting and instructive. Rev. Mr. Roberts is one of the most popular and orthodox ministers of the Methodist church, and the congregations Sunday were greatly pleased with his preaching. He will speak at the tea meeting to-night.

At St. John's yesterday Rev. Canon Davidson, of Colborne, preached the sermon both morning and evening—interesting addresses to large and attentive congregations. In St. John's the Less, South ward, evening services was conducted by the Rector. To-night from 7.30 to 10.30 the semi-annual congregational reception will take place at St. John School House. A very pleasant evening of social enjoyment is anticipated.

News Nuggets.

—Read T. HURLEY's latest ad. 24109

—Mr. Fred Robinson has sold his fine St. Bernard dog to a Stratford man.

—Hood's Sarsaparilla's on the flood tide of popularity, which position it has reached by its own intrinsic, undoubted merit.

—The Toronto Orangemen have decided not to run an excursion to Peterborough May 25th. They did not receive sufficient encouragement from the townspeople.

—No fishing will be allowed on Rice Lake until the 16th of June. This intelligence will be disappointing to sports, who were in hopes that they would be allowed to fish there on the 24th of May. The water in Rice Lake this year has risen much higher than it has ever been known to rise before, some of the marshes being completely submerged.

Hon. Oliver Mowat.

His Career Reviewed by an Eastern Journal.

(From the St. John, N. B., Telegraph.)

Hon. Oliver Mowat, Premier of Ontario, enjoys the distinction of having the longest continuous term of power ever accorded to any public man in any Province of Canada. His Premiership dates from 1872, that of Sir John Macdonald from 1878, that of Hon. A. G. Blair, from 1883, that of Hon. W. S. Fielding from 1884, and that of Hon. H. Mercier from 1886. There are very few instances, and we know of none in any country, where a leader of a government has been honored for such a length of years with the confidence of his people as has been the good fortune of Mr. Mowat.

When young Mowat set out to study law at the age of seventeen it was his fortune to be entered in the law office of Mr. John A. Macdonald, now the Premier of the Dominion. He was called to the bar of Upper Canada in 1841, the year in which he came of age. He entered the Legislature of old Canada in 1857 as a Reformer, and in the following year obtained his first brief taste of power as provincial secretary in the Brown-Dorion Administration. Strangely enough the Premier, whose present term has now continued so long, was on his first venture as a Cabinet Minister only permitted to hold office for three days. It happened in this way: The Tory Government of the time, of which John A. Macdonald (now Sir John) was a prominent member, was outvoted and resigned, Hon. George Brown, then leader of the Opposition, was called upon to form a Government and did so, Mr. Mowat being made Provincial Secretary. But the majority of the incoming party was so small that when the members of the Administration had resigned their seats in the Assembly to go to the people for re-election and were absent from the House, the Tories were able in their turn to carry a vote of non-confidence, and the new Ministers were compelled to resign their portfolios almost before they had reached their several constituencies. To cap the climax the Tory Ministers, though defeated but a few days before, at once resumed office, and, by taking different departments from those they before had proceeded to carry on public business. They did this under cover of a law which enabled any minister to resign one portfolio and assume another within 30 days without incurring the necessity of re-election by the people. The law was not intended as a means of thus evading the consequences of defeat, but the Tories of those times were nearly as unscrupulous as they are now. Thus Mr. Mowat was bowled out of office by the historic "double shuffle" of 1858.

Mr. Mowat subsequently held office as Postmaster-General in the Sandfield Macdonald-Dorion Government from May, 1863, to March, 1864, and afterward in the coalition Government from June 1864 to November of that year, when he was appointed vice-chancellor of Upper Canada. He resigned that position to accept the leadership of the Ontario Government in 1872, which office he has since held. During his long term of *he has* had frequent controversies with his former tearcoor-in-law, Sir John Macdonald, and in half a dozen cases before the Privy Council in England was uniformly victorious. He was a member of the Quebec conference at which the plan of Confederation was covered, and has held positions of trust, in all of which his has maintained the character of a man of intelligent abilities, integrity and honor, which, joined with his great powers of leadership, abundantly justify the confidence which the people have always reposed in him. His qualifications for the leadership of the Liberal party in the Dominion have been so apparent that he has been repeatedly spoken of in that connection, but never consented to undertake the responsibility. There is little doubt, however, that had he remained in political life instead of accepting the vice-chancellorship in 1864, Mr. Mowat would long ago have had the Liberal leadership practically forced upon him. As it is he bids fair to be Premier of Ontario as long as natural strength and personal willingness permit him to retain the place. It looks as if the Legislature would never vote him out.

South Monaghan.

(*From Our Own Correspondent.*)

We are sorry to announce to the readers of the EXAMINER the early demise of Miss Theresa Thompson, who died on Sunday, April 26th, at the age of 17 years. The funeral took place on Monday, 27th, and proceeded to the family burying ground for interment. The parents and relatives have the deep sympathy of the entire neighborhood in their sad bereavement:

"God is our Father, Heaven is His high throne, and this earth His footstool. While we sit around, or meditate or pray, one by one as we fall asleep, He lifts us into His bosom, and our waking is inside the gates of an everlasting world."

On Friday, May 1st, Mr. Ed. Ball, lost a valuable horse, owned by disease resulting from the prevalent distemper.

We notice that the Frazerville correspondent is not going to comment on my item any more. Sick at heart he gave up the contest. We are sorry for the reason he was not able to reply in a straight forward businesslike manner but had to resort to foundationless personalities.

Mr. Robert Rogers lately met with a severe accident which was caused by a logging chain; his hand was badly lacerated.

Mrs. Alex Lackey, spoken of in a recent letter, is no better.

Our Frazerville unscrupulous friend is very sensitive when any opinions expressed on Centreville concern him. We thought the dispute was between the two villages. But when he found out Centreville was irreproachable, he tried in his faint way to injure your humble correspondent. But I am confident that upon the intelligent readers of the EXAMINER in South Monaghan, and even Frazerville, his remarks will leave no impression whatever. Our comments two weeks ago seem to have given his bile a somewhat severe shaking up, so much that he shows his bad temper by being abusive. Little good can be done by discussing any questions with our friend, and we do not intend to waste space on him in this instance. But for the people of Frazerville I will try to show by his writings what kind of an inhabitant they have among them and the obstacles efforts he puts forth to fling some of the bad qualities of his nature on to me. He contradicted my statement about the land, saying $30 and $40 would be more like the value. "Mopery" here clings to him, showing he is very dull, and that he has never paid land in this section or else he would see that my figures, previously quoted, are true. "Common Kind" is another of his bad qualities, because any gentlemen would scorn the language he used. Suffice to say the other items are not worthy of notice. Your readers will see by consulting previous issues that I am justified in chastising my friend, not to try and shake off on to another what rightly belongs to himself. Centreville can at least congratulate itself on the fact that it is held so high in the world's esteem, that his puny efforts will in no way detract from the grandeur of its record on the blazing scroll of fame!

Police Court.

MONDAY, May 11th 1891.

At the police court Geordie Wheeler, arraigned for drunkeness, was allowed to go and Mrs. Johnson widow of the late "Gobbler" Johnson, committed to jail for six months as a vagrant.

It Steadily Improves.

The energy and ability which characterize the present management of the *Dominion Illustrated* are more and more apparent each succeeding week and month. Lumbering in Canada, the great Caliguecto Ship Railway, the formal opening of the Dominion Parliament, are among the subjects that have been taken up recently and exhaustively illustrated. Both from the literary and artistic point view this journal is a pronounced success, and in the fullest sense deserving of its steadily growing popularity. The great prize competition is still open to new subscribers. The publishers of the *Dominion Illustrated* are the Sabiston Litho. and Pub. Co., Montreal.

Cheap Croquet.

The Poetry of Bricks.

The Bard of Smith Invests Them With the Charm of Rhyme.

Sermons in stones and good in everything—*As You Like It.*

[I have been requested by the masters and workmen in the brickyards around Peterborough to compose a few verses for them, touching upon the nature of their work and the manner in which it is performed. I can easily understand and fully sympathize with the brickmaker boys. My first work, at the age of ten years, was to run off brick, bare-headed and bare-footed. I followed that occupation for eleven years—eight in Scotland and three in England—so that birds of a feather still flock together, my the merry brickmaker boys.]

The merry month of May has come—the sun
Has melted from the snow the rime;
The lakes and rivers free, the ice to water has returned;
The bird and bee are on the wing, to sip sweets from the flowers;
The buds are opened on the trees to deck the sylvan bowers;
The gardener turns his flowers and shrubs, the farmer sows his fields;
The labourer with his sweating brow, the tool of toil he wields;
The air is full of joyful notes—full well I know the notes—
The spring has come, it is the sound of blithe brickmaking boys.

For six long months the yards were closed as with a silent spell;
The scene has changed, the boys have burst out of their winter shell;
Jack Frost has pulverized the clay they dug up from the rim;
With spade and water now the boys work it to proper trim,
With merry hearts and willing hands, clay from their shovels rise
Into the nice machine, whence bricks come steaming from the dies;
On barrows bear them to the hack and lay them up like toys—
Row after row so nicely laid by blithe brickmaker boys.

Their notes reverberate like the lark when soaring upon high,
As busy trip with their loads of bricks and leave them there to dry;
There sun and wind, the brickmen's friend, fulfills the needful part,
Completes the drying process, and cheer up the master's heart;
With spirits nigh as red-coat boys when marshalling for the fray,
All are on tip-toe, for they start to build the kiln to-day;
They grasp their barrows with a cheer—charge bricks like wild steeds—
They whistle, sing, they load and wheel, like smart brickmaker boys.

The setter piles his nimble hands, he neither sleeps nor snores,
The boys are pitching them like hail, he must catch two's and four's;
If Mark don't catch them as they fly and for the failing stoops,
The boys near scare him out his wits with their wild Indian whoops;
They walk, they run, load and unload, while each his own place keeps,
With loud hurahs they pitch them up and shout, "look smart, John Heaps"
The kiln is finished, lined and fired, now sounds the crashing noise,
The mirth and glee ring far and near from the young brickmaker boys.

Employers and employed all work with one united will,
No labouring class requires more sharp and energetic skill;
No lazy slouching young man needs seek work in the brickyard
Against all small-like creeping drones the gates are closely barred.
The boys that handle bricks are trained to sharp and active toil,
And daily will-power they possess that needs but little oil;
No scorching sun, no strain of work impedes or them annoys
Above each brief loud rings the notes of the merry brickmaker boys.

Many belong unto that class, their hair now turned to grey,
That spent the vigor of their life, in handling bricks and clay;
Perhaps their steps are not as quick, or falling arm so strong,
Still they can take their share in work and sing their youthful song;
The greatest number are young men scarce in their manhood days,
With a good share of self conceit, trying a moustache to raise;
Like other youths there is a charm, that fills their hearts with joys;
It is the spark of early love, in the young brickmaker boys.

The object of their love each hour across their
Till work seems but a youthful sport—bricks light as feathers feel:
The flame of love braces their nerves, they whistle, sing and toil;
When six arrives with her they love, to share their evening walk;
Although brickmakers hands and face, at work are daubed with clay;
No truer love, no kinder hearts, beat in young men to-day;
There are brickmakers wives to-day, a happy life enjoy;
Young girl you may do worse than catch, a young brickmaker boy.

Some people at brickmakers sneer—I heard it of every class of working men they were the scum of said scum;
To such, I say, I know of some made bricks and tile for drains;
Compares with any working class, for either mades or brains.
They have their faults like other men, I will not hold them clear;
On Saturday nights a few of them enjoys their glass of beer;
But they are not the only class—if that their name destroys;
Many wash out their dusty throats like the merry brickmaker boys.

WM. TELFORD, Smith.

Grumblers.

The grumbler is the bane of our existence. Nothing suits him. His fault-finding is constant, and his misrepresentation of our motives is persistent. Everything we do he looks upon with suspicion, until we are just about ready to cut his acquaintance or compel him to take Beecham's Pills, which we know will cure his sour stomach, biliousness, constipation or other ailments of the stomach or bowels that makes him so bad-tempered and disagreeable. Go to your druggist for these celebrated pills, or send 25 cents to B. F. Allen Co., General Druggists, 365 and 367 Canal street, New York. w20d

A Spring Medicine.

There are few who do not at this season feel the need of a spring medicine, and to all such we recommend Lane's Family Medicine as the best. This is a pleasant herb drink made by pouring boiling water on the dried roots and herbs. Druggists sell the packages at 50c. and $1. It is the best as well as the pleasantest cure for constipation and headache. dw

The celebrated
BARM YEAST

GENERAL SERVANT—work light. Apply, with references, to Mrs. P. HENRY, 318 Charlotte street. hw11

THE M'GREEVY SCANDAL

To Be Brought Before the House To-Day.

OTTAWA, May 10.—There is a strong flavor of Tarte about the lobbies to-night amongst the few members and press men who are here, and there is a general air of expectancy of "big things" to-morrow, when Mr. Tarte is expected to formulate his charges against Mr. McGreevy and Sir Hector Langevin.

From a gentleman who has read the statement to be presented by Mr. Tarte I learn that it will contain a great deal of matter not published in Le Canadien, including copies of letters, receipts for money, extracts from contractors' books, etc.

As near as I can ascertain the statement will make between two and three columns of a newspaper and Mr. Tarte will furnish typewritten copies to the papers.

He will most probably, after making his statement, offer to repeat it in French and will submit a written copy in that language, so that both the English and French version may appear in the official debates at the same time instead of French members having to wait until a French copy of the debates is issued.

There is just a possibility that the statement may not be made to-morrow, as I understand Mr. Tarte will not make it if Mr. Laurier is not present. Mr. Laurier is expected here to-morrow, but he was not in the House last week and was not very well when he left, so he may not be on hand to-morrow, in which case Mr. Tarte will postpone his charges.

TRADE WITH JAMAICA.

Arrival of the Canadian Commissioner at Halifax—An Interview

HALIFAX, N.S., May 10.—Adam Brown, Canadian Commissioner to the Jamaica Exhibition, expressed himself quite enthusiastically to-day over the good results that will accrue to the Dominion through the prominent part it took in the exhibition. Mr. Brown believes not only that Canada can control the flour trade, but that the Upper Provinces may be able to take fruit and coffee from Jamaica in quantities if the fruit can be packed to stand the journey and the freight charges are not too high.

Canadian butter and cheese also created a favorable impression among the West Indians and he thinks those articles could be largely exported there. Regarding manufactures he says we can send many lines of goods. He is decidedly of opinion that the Dominion gross trade with the West Indies can be greatly increased even without any tariff alterations, particularly as Jamaicans will give Canada preference against the United States, which was poorly represented at the exhibition.

TO PREVENT SMUGGLING.

Mr. Gooderham Wants the Illicit Traffic in the Gulf Put Down.

OTTAWA, May 10.—William Gooderham, distiller, of Toronto has arranged for an interview with the Minister of Customs to-morrow. It is understood that the object of his visit is to urge that vigorous steps be taken by the Government to suppress smuggling on the lower St. Lawrence, where large quantities of spirits are being constantly smuggled into Canada from St. Pierre and Miquelon. Last year the Minister of Customs contemplated employment of one or two steam launches as revenue cutters, but the project dropped. It may be carried out now.

The well known strengthening properties of Iron, combined with other tonics and a most perfect nervine, are found in Carter's Iron Pills, which strengthen the nerves and body, and improve the blood and complexion. dw

Every Lady Uses It.

Dyer's Jelly of Cucumber and Roses for her chapped hands and lips, as it effectually cures in every instance. Try it. Druggists keep it. W. A. Dyer & Co., Montreal. d63

Purity is of importance of having the blood in a healthy condition is universally known, and yet there are very few people who have perfectly pure blood. The taint of scrofula, salt rheum, or other foul humor is hereditary and transmitted for generations, causing untold suffering, and we also accumulate poison and germs of disease from the air we breathe, the food we eat, or the water we drink. There is nothing more conclusively proven than the positive power of Hood's Sarsaparilla over all diseases of the blood. This medicine, when fairly tried, does expel every trace of scrofula or salt rheum, removes the taint which causes catarrh, neutralizes the acidity and cures rheumatism, drives out the germs of malaria, blood poisoning, etc. It also vitalizes and enriches the blood, thus overcoming that tired feeling, and building up the whole system. Thousands testify to the superiority of Hood's Sarsaparilla as a blood purifier. Full information and statements of cures sent free.

On Fire with Eczema

Terrible Sufferings of Little Baby—Seven Doctors and Two Hospitals Fail—Cured by Cuticura.

My baby boy, 4 months old, broke out with eczema. The itching and burning was intense—the eczema spread to his limbs, breast, face and head, until he was nearly covered. His suffering agonies were pitiable to behold; he had no peace and but little rest night or day. He was under treatment at different times at two hospitals and by seven doctors in this city without the least benefit; every prescription of the doctors was faithfully tried, but he grew worse all the time. For months I expended about $3 per week for medicines, and was entirely discouraged. I purchased CUTICURA, CUTICURA SOAP and CUTICURA RESOLVENT and followed the directions to the letter. Relief was immediate, his sufferings were ceased, and rest and sleep permitted. He steadily improved and in nine weeks was entirely cured, and has now as clear a skin and as fair a boy as any mother could wish to see. I recommend every mother to use it for every Baby Humor.

MRS. M. FERGUSON,
81 W. Brookline street., Boston.

Cuticura Remedies.

THOMAS DOLAN & CO.
Clothiers and Furnishers,
Peterborough.

SORRY, TOO LATE.

I had several properties which I have been pressing upon the public during the past two or three months, at what I called low prices. A great many buyers examined them, and a few thought they would buy after a time, but while they were considering, with their money in the bank at four per cent., that very quiet and shrewd capitalist from Norwood, P. W. Reynolds, Esq., came along and bought the whole, and now those who were going to buy are sorry for losing such bargains. Mr. Reynolds is now the owner of FOURTEEN houses in town, all tenanted, and paying from seven to twelve per cent. interest on his investments. He has also a number of vacant lots, which he could readily resell at a big profit. Nine months ago I sold him his first purchase.

I have a few acres of land, for sub-division, near the Edison Works, which any intelligent man can make big money out of. Call for particulars.

I am the home-seeker's true friend. If you want a home come to me and I will guide you right.

VOL. XII. NO. 111. PETERBOROUGH, TUESDAY, MAY 12, 1891. PRICE TWO CENTS.

CASH HARDWARE STORE.

On and after 1st April we shall do business on a **Cash Basis.**

To cover the inevitable losses attendant upon a credit business, which accrue from amount of time spent in keeping accounts, collecting, bad debts, interest account, and in numerous other ways, larger margins of profit must be asked.

In these times cash buyers ask, expect, and are entitled to close prices. A careful consideration of the subject convinces us that the time has come for a cash business done on smaller profits.

The only customers who may possibly be put to inconvenience are those who have had long credit. In more ways than one it will be to their advantage to pay cash.

For convenience of our old customers who consider their accounts due when presented, we will call 30 days cash and render all accounts the first of each month, and we wish to say that will be happy to do business with them on those terms.

As the new departure is something of an experiment, what would be considered a close cash price will be made all through the stock. Not a few leaders only, but a general reduction in everything from the fourth flat to the cellar.

Our idea is to perform more than promised rather than promise more than can be fulfilled.

Our stock is large and varied, consisting of **Builders', Contractors', Household, Mechanics', Painters', Shoemakers', Farm, Mill, Factory, Lumbermen's, Sporting, Threshers', Cabinet-makers', and other lines of Hardware.**

An old saying:—"You should go to Kingan's where you can get anything from a Needle to an Anchor."

SIR HECTOR INDICTED.

MR. TARTE READS THE CHARGES TO THE HOUSE.

The Charges Referred to the Committee on Privileges and Elections. McGreevy Declares Letters Purporting to Have Been Written by Him are Forgeries.

OTTAWA, May 11. At five minutes to 5 o'clock this afternoon a dapper little French gentleman with a black frock coat buttoned tightly across his chest rose in the House of Commons as the order of the day were called, and in a somewhat nervous manner addressed the Speaker in French.

This was Mr. Tarte, and his purpose was the impeachment of Mr Thomas McGreevy, member for Quebec West, for having used his position as a member of Parliament and of the Quebec Harbor Commission to obtain from the Public Works Department information which he used with contractors for his own advantage, thereby making a considerable amount of money, said to be about $200,000.

Mr Tarte only spoke a few minutes in French and then proceeded in English speaking with a strong accent, but clearly and with a good choice of words.

The Statement.

Mr Tarte moved, seconded by Mr Carey, that Mr. Tarte, a member of this House having declared from his seat in this House that he is credibly informed and that he believes that he is able to establish by satisfactory evidence,

That in 1882 the sum of $7,000 having been voted by the Parliament of Canada to carry out the works of the harbor of Quebec, the Quebec Harbor Commissioners called for tenders for dredging in connection with the said works.

That Messrs. Larkin, Connolly & Co. tendered and were awarded the contract for the said dredging.

That in order to secure the influence of Hon Thomas McGreevy, then and now a member of the Parliament of Canada, and a member of the Quebec Harbor Commission by appointment of the Government of Canada, the firm of Larkin, Connolly & Co., with the knowledge of the said Thomas McGreevy, took as a partner Robert H. McGreevy, his brother, giving him an interest of 30 per cent. in the firm.

That the said Thomas McGreevy consented to his brother becoming a member of the firm, and stated the belief that he could get the Minister of Public Works, Sir Hector L. Langevin, and secured his consent.

That the said contract, signed on Sept. 25, 1882, stipulated that the works therein mentioned be finished by Nov. 1, 1884, but that the said Larkin, Connolly & Co. continued to perform the work of dredging under the scale of prices therein mentioned up to the close of the season of 1886.

That in order to help Larkin, Connolly & Co. to secure the said dredging contract, the said Hon. Thomas McGreevy agreed to give and did give in an undue manner his help as harbor commissioner to Larkin, Connolly & Co.

That up to the year 1883 aforesaid Messrs. Kinipple and Morris of London, Eng., had acted as engineers to the Quebec Harbor Commission, and that the resident engineer for carrying out the works was Mr Wood ford Pilkington.

That in concert with Larkin, Connolly & Co. the said Thomas McGreevy undertook to secure the removal of Messrs. Kinipple, Morris and Pilkington from their positions and they were in fact removed in 1883 and replaced by Mr. Henry F. Perley and Mr. John Edward Boyd with the consent of the Minister of Public Works.

That in the same year 1883 tenders were called for a crosswall and lock in connection with the harbor works at Quebec, in accordance with plans and specifications prepared in the Department of Public Works under the direction of Mr Henry F. Perley.

That several tenders were made, and amongst others who tendered were Messrs. Larkin, Connolly & Co.

That before tendering and in order to secure the influence of Hon Thomas McGreevy, then and now a member of the Parliament of Canada, and member of the Quebec Harbor Board by appointment of the Government, Larkin, Connolly & Co. took into partnership with themselves Robert H. McGreevy, a brother of the said Hon Thomas McGreevy, giving him a 30 per cent. interest in the firm, and this with the knowledge and consent of the said Hon. Thomas McGreevy.

That among the parties tendering were a contractor named George Beaucage, and one John Gallagher.

That it was on the suggestion of the said Hon. Thomas McGreevy that Beaucage consented to make a tender.

That with the knowledge of the said Thomas McGreevy, the three tenders of Larkin, Connolly & Co. of Beaucage and of Gallagher were prepared by the members of the firm of Larkin, Connolly & Co., Beaucage being throughout deceived by the said Hon. Thomas McGreevy as to his position in the matter, as he alleges in an action recently entered by him against the said Thomas McGreevy in relation to the said contract, in the Superior Court of Montreal.

That the said tenders were transmitted to the Department of Public Works of Canada for examination and extension.

That while all the tenders were being examined and the quantities applied in the Department of Public Works the said Hon Thomas McGreevy, then and now a member of the Parliament of Canada, and a member of the Quebec Harbor Commission by appointment of the Government, promised to obtain and did obtain from the Department of Public Works and from officials of that department, in relation to the said tenders, to figure in connection therewith and to the amounts thereof, information which he offered to communicate for the result was officially known, and which he did communicate to the firm of Larkin, Connolly & Co., and to certain members of the said firm individually.

That to the knowledge of the said Thomas McGreevy the firm of Messrs. Larkin, Connolly and Beaucage were lower than the firm of Larkin, Connolly & Co. for that in connection with the preparation of the tenders the said Thomas McGreevy agreed to secure the acceptance of the tenders of Larkin, Connolly & Co. and that he suggested to that firm and to certain members thereof individually to make arrangements in connection with said Gallagher and Beaucage, and to secure payment as to tender the lenders of the two parties higher than those of the said firm of Larkin, Connolly & Co., and that said arrangement and manipulation were carried out as suggested by him.

That in consequence of the said arrangement and manipulations wherein the said Thomas McGreevy directly participated, the contract for the crosswall and lock in connection with the Quebec harbor works was awarded to Larkin, Connolly & Co. on a report to Council made by the Minister of Public Works under date May 25, 1883.

That a few days thereafter the sum of $25,000 was in fulfilment of the corrupt arrangement above stated paid to the said Thomas McGreevy in promissory notes signed by the firm of Larkin, Connolly & Co., which said notes were duly paid.

That about the same date, namely, the 4th June, 1884, a sum of $1000 was paid by the firm of Larkin, Connolly & Co., towards "the Langevin testimonial fund," a fund destined to be given to Sir Hector Langevin.

That in the course of the carrying out of the works the said Thomas McGreevy caused changes contrary to the public interests to be made in the conditions of the said contract.

That in 1884 Thomas McGreevy, then and now a member of the Parliament of Canada and a member of the Quebec Harbor Commission by appointment of the Government, agreed with the firm of Larkin, Connolly & Co. and certain members thereof individually to secure for them a contract for the completion of the graving dock at Levis, one of the conditions of the agreement being that he, Thomas McGreevy, should receive any excess over the sum of $50,000 in the contract price.

That to the detriment of the public interest a contract was signed in or about the month of June, 1884, for the performance of the said works, and that subsequently the said Thomas McGreevy received the price stipulated in the corrupt arrangement above mentioned, namely, $22,000.

That in 1883 and 1884 tenders were asked for by the Government of Canada for the completion of the graving dock at Equimalt, B.C.

That the firm of Larkin, Connolly & Co. were among those who tendered, and that the contract was awarded to them in pursuance of a report to council dated Oct. 24, 1884 and signed by the Hon. Minister of Public Works.

That before tendering the said Larkin, Connolly & Co. had with Thomas McGreevy, then and now a member of the Parliament of Canada, communications and interviews wherein they secured his services to assist them in dealing with the Department of Public Works in order to secure the said contract.

That he agreed to help them, and that he did in fact help them in divers ways, and amongst others by obtaining from the Department of Public Works information, figures and calculations which he communicated to them.

That to the knowledge and with the consent of the said Thomas McGreevy, and for the purpose of securing for themselves his influence, Larkin, Connolly & Co. took into partnership with themselves his brother, Robert H. McGreevy, giving him a 30 per cent interest in their firm.

That during the execution of the said contract the said Thomas McGreevy was the agent or one of the agents in the pay of Larkin, Connolly & Co. in dealing with the Department of Public Works, that he endeavored to obtain and did obtain for them at their request important alterations in the works and more favorable conditions.

That the said more favorable conditions and the said alterations enabled them to realize to the detriment of the public interests very large profits.

That during the execution of the works large sums were paid by Larkin, Connolly & Co. to Thomas McGreevy for his services in dealing with the Minister of Public Works, with the officers of the department and generally for his influence as a member of the Parliament of Canada.
